1	5/23/22	As the initial Chair of the TBIW Quality Assurance Council, I have first hand knowledge of the benefits that this program has provided for those who have suffered and TBI. I want to voice my full recommendation and support of the following amendments to the TBI Waiver. As this program has grown and previous changes have been made, individuals have had a better quality of life and community integration. These amendments will only continue that process of improvement.	No Change-This person agrees with the amendment changes.
2	7/7/22	The addition of Environmental Accessibility Adaptations will be beneficial for the TBIW participants. DRWV applauds BMS and KEPRO for requesting that the annual budget amount be increased by \$1,000.00, thus assuring that if a participant accesses EAA, that they will not have to sacrifice other necessary services. DRWV also appreciates the additional safeguard by having quarterly face to face home visits.	No Change-This Agency agrees with the amendment changes.
