

WV Traumatic Brain Injury (TBI) Waiver Program Members May Access Additional WV Medicaid State Plan Services

If you meet eligibility criteria, you may be eligible to receive the following services. Contact your Case Manager for assistance or to refer you to a chosen provider.

Behavioral Health Clinic and Rehabilitation – mental health assessments, psychological testing, injections (psychotropic meds), day treatment, crisis intervention and behavior management

Dental Services – emergent procedures to treat fractures, reduce pain, or eliminate infections; surgical orthodontic treatment may be covered if certain conditions apply

Durable Medical Equipment/Medical Supplies – wheelchairs, walker, hospital beds, oxygen and other supplies

Occupational/Physical Therapy – traction, electrical stimulation, ultrasound, contrast baths, therapeutic exercise, aquatic therapy and neuromuscular reeducation

Psychological Services and/or Psychiatric Services – individual, group, and family therapy (through private practice providers)

Transportation – air or ground ambulance, non-emergency ambulance transport to appropriate medical appointments for diagnostic and therapeutic appointments

Vision Care Services – Exam, diagnosis and management of ocular and adnexal pathology services. Visual exams for eyeglasses not covered for adults

Speech-Language Pathology and Audiology – speech or language therapy to treat specific conditions and augmentative communication/speech generating devices

Personal Care Services - you may be eligible for Personal Care Services (Dual Provision of TBI Waiver and Personal Care Services) if you have direct-care needs that cannot be met through the TBI Waiver. **Your Case Manager will assist you in applying for Personal Care services.** Personal Care services cannot duplicate services provided by your Personal Attendant

Note: Even though a provider may recommend or approve medical care, that alone does not make the care a covered service defined as medically necessary. All eligibility requirements must be met and, for some services, prior authorization may be required.

For more information about the State Medicaid Plans listed above please refer to the Provider Manuals at <http://www.dhhr.wv.gov/bms/Pages/Manuals.aspx> or contact your Case Manager.
