## ICD-10 FAQ Review

- **ICD-10 Overview**
  - About ICD-10
  - Why ICD-10 Matters
- **General ICD-10 FAQs**
- **Split Claims FAQs**
- **WV ICD-10 Provider Testing FAQs**
- **Resources**
- **Contact**

# ICD-10 Overview

- **World Health Organization** developed ICD-10 in 1994
  - Later adopted by Health and Human Services (HHS) and Centers for Disease Control and Prevention (CDC).
  - ICD-10 is a provision of Health Insurance Portability and Accountability Act (HIPAA) regulations.
  - HIPAA covers entities that include health care providers, payers, clearinghouses, billing services and others that must transition to ICD-10.
  
- **Moving from ICD-9 to ICD-10** – U.S. is the last industrialized nation to adopt ICD-10
  
- **ICD-9 is outdated** - limited capacity, capability and unable to serve future needs
  
- **ICD-10-CM and ICD-10-PCS code sets**
  - ICD-10-CM replaces ICD-9-CM (Volumes 1 and 2)
  - ICD-10-PCS replaces ICD-9-CM (Volume 3)
  
- **ICD-10 has no direct impact on Current Procedural Terminology (CPT) codes and Healthcare Common Procedure Coding System (HCPCS)**

# ICD-10 Overview (Cont.)

- **For services rendered on or after October 1, 2015**
  - All claims must use ICD-10 codes
  - Claims using ICD-9 codes for services rendered on or after October 1, 2015 will NOT be accepted
  
- **For services rendered before October 1, 2015**
  - All claims must use ICD-9 codes
  
- **Systems must accommodate BOTH ICD-9 and ICD-10 codes**
  - Effective with the October 1, 2015 compliance date
  
- **Significant code increase from ICD-9 to ICD-10**
  - Increasing from 14,000 to approximately 69,000 ICD-10-CM codes
  - Increasing from 3,000 to approximately 87,000 ICD-10-PCS codes
  - ICD-10 has more than nine times the codes in ICD-9

**Making the  
transition  
to ICD-10 is  
NOT optional**

## Why is the transition necessary?

- **ICD-9** code sets are outdated, limited and not expandable
- **ICD-9** cannot capture advances in medicine and medical technology
- **ICD-10** code sets use current medical terminology and will allow for advances in medical technology and knowledge
- **ICD-10** allows for greater detail in diagnoses and treatments

# Why ICD-10 Matters

## Why ICD-10 matters:

- ICD-10 advances health care and the implementation of eHealth initiatives
- ICD-10 captures advances in medicine and medical technology
- ICD-10 improves data for quality reporting
- ICD-10 improves public health research, reporting and surveillance

## Q: Where can a list of the new ICD-10 diagnosis codes be found?

- There are numerous resources available, but usually at a cost. The [CMS website](#) is an excellent resource for ICD-10 and the new codes. CMS has a General Equivalence Mappings (GEMs) tool that provides an ICD-10 diagnosis code to an ICD-9 diagnosis code. The GEMs tool is a basic tool and is not inclusive of all of the new ICD-10 codes, but is frequently updated to add new codes.

## Q: Is there crosswalking software or some special algorithm available that can be used to translate between ICD-9 and ICD-10?

- There are various websites and resources that offer a number of translation tools or toolkits for ICD-10. Some are free; some are sold at varying prices. Below are examples of free tools.
  - General Equivalence Mappings (GEMs) - [www.CMS.gov/icd10](http://www.CMS.gov/icd10)
  - Code Conversion Tools:
    - <http://www.icd10data.com/>
    - <http://www.icd10codesearch.com/>
    - <https://www.aapc.com/icd-10/codes/>
    - <http://www.lussierlab.org/Web-Tools/index.html>

## Q: How do I learn more about ICD-10?

- Visit the [WV Molina Medicaid Solutions ICD-10 Transition website](#) for ICD-10 news, training information and more.
- Visit the [CMS ICD-10 website](#) for the latest news and resources to help prepare for the October 1, 2015 deadline.
- To stay up to date on ICD-10 news, sign up for CMS ICD-10 Industry Email Updates on [this page](#) of the CMS ICD-10 website.

## Q: Will the Bureau for Medical Services (BMS) provide ICD-10 training?

- BMS will provide communication and outreach via the [WV Molina Medicaid Solutions ICD-10 Transition](#) website, provider Workshops, and other means.
  - BMS does not offer ICD-10 coding training or implementation training.
  - Providers are encouraged to assess staff training needs and initiate training activities as soon as possible.
- Training resources for providers can be found in the [ICD-10 Resources](#) section of the [WV Molina Medicaid Solutions ICD-10 Transition](#) and on the [CMS ICD-10 Provider Resources](#) websites.

## **Q: Does ICD-10 affect Orthodontics? If so, how?**

- All HIPAA entities such as health care providers, insurance companies and governmental payers are required to accept and process claims using the new ICD-10-CM and ICD-10-PCS code sets.
- Practices that are currently submitting ICD-9-CM diagnosis codes on dental claims will be affected with the transition to ICD-10 on October 1, 2015.
- It is strongly recommended that all affected health care providers begin assessment and staff training for the transition.

## **Q: Can behavioral health providers use DSM-5 codes for the purpose of claiming?**

- No. DSM codes (current, past and pending) are not HIPAA compliant; therefore, DSM codes are invalid for HIPAA claims transactions or any other HIPAA transaction. ICD-10 is the only standard approved by HIPAA for submission of patient diagnosis including behavioral health and dental diagnosis.

# Split Claims FAQs

**Q: When submitting a claim, should an ICD-9 or ICD-10 code be used for a patient who is admitted to the hospital on September 28, 2015, and is not discharged until October 3, 2015?**

- This will require two separate claims. For the service(s) rendered before October 1, 2015, the claim must use ICD-9 codes. For the service(s) rendered on or after October 1, 2015, the claim must use ICD-10 codes.
- Claims using ICD-9 codes for services rendered on or after October 1, 2015 will NOT be accepted.
- The CMS article below provides clarification on the policy for processing split claims that span across October 1, 2015.

<http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNMattersArticles/Downloads/SE1408.pdf>

## Q: Will WV ICD-10 provider testing be available?

- WV Medicaid is conducting pilot testing for ICD-10 transition between June 1, 2015 and August 28, 2015. Please refer to the [WV ICD-10 Pilot Trading Partner Testing Manual](#) for instructions for participating in this test.

## Q: Where can more information about provider testing be found?

- For more information about ICD-10 testing for providers, please visit [CMS End-to-End Testing](#).
