West Virginia reported no cases of the following monitored conditions in 2015

Anthrax
Babesiosis
Bioterrorist event
Brucellosis
Cholera
Cyclospora
Diptheria
Hantavirus pulmonary syndrome
Hepatitis D
Influenza-related death (<18 years of age)
Intentional exposure to infectious agent or biological toxin
Leptospirosis
Novel influenza infection, animal or human
Orthopox infection, including smallpox and monkeypox
Plague
Poliomyelitis
Psittacosis
Rabies, human
Rubella
Rubella, congenital syndrome
Rubeola (Measles)
SARS coronavirus infection
Smallpox
***Staphylococcus aureus* (GISA/VISA, GRSA/VRSA)**
Tetanus
Toxic shock syndrome
Trichinosis
Typhoid fever
Viral hemorrhagic fevers
Yellow fever

*** Cases are tallied by date of report to public health. Data are confirmed as of year-end close-out 5/30/2016. Counts include confirmed, probable, and suspect cases.**

**** Counts do not include outbreaks that spanned multiple counties.**
