Note: The Point-in-Time Count is conducted during one night in the end of January for a count of all homeless persons. The unsheltered count of the homeless population is likely under reported and should be used with caution. Subpopulation data is not mutually exclusive. Comparing the total is not an accurate representation as one person may have all five characteristics, while some persons may only have one or fewer. *There were no shelter facilities in Calhoun County during the Point-in-Time Count. The unsheltered data reported for Calhoun County was based off of McDowell County reported data for unsheltered.
