| <p>* An MOCC inmate who died while receiving hospice care for stage 4 metastatic cancer was tested for COVID-19 shortly before his death and was found to be positive. The treating medical provider determined COVID-19 was not a contributing factor. As the test result was received post-mortem, the positive is not included in the above figures.</p> |            |                            |                       |                   |                   |               |                  |            |
