

All recreational water facilities may reopen on May 30, 2020, according to Governor Jim Justice's plan, "West Virginia Strong: The Comeback." A recreational water facility may be part of a park, gym, fitness center, recreation center, physical therapy treatment center, hotel motel, bathing beach (permitted or unpermitted), organized camps, or various other recreational water venues. Check with your local health department if you have questions regarding the reopening status of your facility. All recreational water facilities permitted by the local health department must comply with Legislative Rule 64CSR16, Recreational Water Facilities.

COMMON SYMPTOMS OF COVID-19

- Fever
- Cough
- Shortness of breath
- Chills
- Muscle pain
- Sore throat
- Recent loss of taste or smell

PERSON-TO-PERSON TRANSMISSION

- Occurs via small droplets from the nose or mouth of the infected person when they cough, sneeze, or exhale.
- Virus can remain on surfaces for a limited time period. Although less common, transmission may occur from touching contaminated surfaces and then touching your eyes, nose or mouth.

GENERAL PREVENTION

- Learn about COVID-19 from reputable sources.
- Maintain physical distance of at least 6 feet between yourself and others.
- Encourage proper handwashing.
- Clean and sanitize surfaces often.
- Do not share food, drinks, etc.
- Wear cloth face coverings.
- Stay home if you feel sick.
- Isolate sick individuals.

STAFF AND PATRON HEALTH AND SAFETY

- Perform a [Daily Health Screening](#) for symptoms of COVID-19 on all patrons and staff.
- Do not visit a recreational water facility of any kind if you are:
 - Positive for COVID-19
 - Experiencing symptoms of COVID-19
 - Caring for a household member with symptoms or positive for COVID-19
- Report any COVID-19 positive staff immediately to your local health department.
- Staff who begin to experience symptoms at work shall report symptoms to management and leave

STAFF AND PATRON HEALTH AND SAFETY continued

- work.
- Employees who interact with guests (e.g., those at a sign-in desk or snack bar) should wear appropriate personal protective equipment (PPE), including appropriate face coverings to the greatest extent possible.
- Eliminate patron breaks but establish staff rotation to allow for appropriate staff breaks.
- Encourage increased handwashing, use of hand sanitizer, and covering coughs and sneezes appropriately for all employees and patrons.
- Minimize the use of shared equipment whenever possible (phones, desks, headsets, etc.). If shared, clean and disinfect between uses.

SOCIAL (PHYSICAL) DISTANCES

- Space tables and chairs to provide 6 feet of distance between patrons when in use.
- All patrons must maintain 6 feet of distance from other patrons not of their household.
- Social (physical) distancing should be observed in the water to the extent possible.

RECREATIONAL WATER FACILITIES

- Maximum occupancy will be based on meeting social (physical) distance requirements but shall not exceed the maximum number of people for gatherings as stated in current executive order.
- Post signage about maximum occupancy. Designate occupancy for each type of facility present.
- Tables and chairs must be cleaned between patrons.
 - Consider removing tables and chairs and allowing patrons to check out a chair and check it back in at the end of their stay.
- Encourage patrons to maintain 6 feet of distance.
- Patrons and staff are encouraged to wear cloth face coverings when not in water.

YEAR-ROUND RECREATIONAL WATER FACILITIES

- May open when announced in Governor’s Plan if the facility is in good standing with local health department and has maintained correct water chemistry during closure.

SEASONAL RECREATIONAL WATER FACILITIES

- Facility should contact the local health department prior to opening for the season.
- Recreational water facility shall have a valid operational permit from the local health department prior to opening.

REOPENING HOT TUBS/SPAS, SPLASH PADS, SLIDES AND ANY OTHER INTERACTIVE WATER FEATURES

- Follow applicable guidance above regarding seasonal or year-round facilities and social distancing.
- Maximum occupancy will be based on meeting social (physical) distance requirements.
- Flush your water system.
 - Flush hot and cold water through all points of use (e.g., showers, sink faucets)
 - Flush hot water until it reaches maximum temperature
- Clean all splash pads, slides, decorative and interactive water features, such as fountains.
 - Follow any recommended manufacturer guidelines for cleaning
 - Ensure that all water features are free of visible slime or biofilm
 - After the water feature has been re-filled, measure disinfectant levels to ensure that the water is safe for use
- Ensure hot tubs/spas are safe for use.
 - Ensure that hot tubs/spas are free of visible slime or biofilm before filling with water
- Perform a hot tub/spa disinfection procedure before use, following [CDC guidance](#) (steps 4–9 and 12–13).

FOOD CONCESSION STANDS

- Must comply with guidelines established in [A Guide to Safely Opening Restaurants and Bars](#)
- Must have a valid food establishment permit.
- Must comply with Legislative Rule 64CSR17, Food Establishments.

PUBLIC RESTROOMS

- Clean restrooms as needed throughout the day but at a minimum at start of day, mid-day, and end of day.
- Include frequently touched surfaces like handles, levers, doorknobs, and feminine hygiene disposal

PUBLIC RESTROOMS continued

- boxes with fixture cleaning. Use cleaning agents that are normally used in these areas and follow the directions on the product label.
- Provide disposable wipes or paper towels so that a barrier can be placed between hands and commonly used surfaces.
- Post signage about patron health and COVID-19 prevention and remind patrons not to gather in groups.
- Use approved disinfectant products:
 - [American Chemistry List](#)
 - [Environmental Protection Agency List](#)
 - Dilute bleach solutions, made fresh daily:
 - 1/3 Cup of bleach per gallon of water
 - 4 teaspoons of bleach per quart of water
 - Alcohol solutions with at least 70% alcohol
- Mop floors with disinfectant, or bleach solution, at the same schedule as listed above.

USE OF FACE COVERINGS

- CDC recommends the use of simple cloth face coverings as a voluntary public health measure in public settings where other social distancing measures are difficult to maintain (e.g. restaurants, grocery stores and pharmacies).
- For workers who do not typically wear masks as part of their jobs, consider the following if you choose to use a cloth face covering to slow the spread of COVID-19.
 - Launder reusable face coverings before each daily use.
 - CDC also has [additional information on the use of face coverings](#), including washing instructions and information on how to make homemade face covers.
 - Individuals should be careful not to touch their eyes, nose, and mouth when removing their cloth face covering and wash hands immediately after removing.
