Introduction – Welcome to VAMS

The Vaccine Administration Management System (VAMS) is a secure, web-based tool built to help jurisdictions, vaccination clinics, organizations, and vaccine recipients manage COVID-19 vaccination efforts. It supports operations and data collection and tracking to meet COVID-19 vaccination requirements.

Four Portals

Each portal is designed for a specific type of user.

- **Jurisdiction Portal**
  - Register your jurisdiction
  - Add organizations and clinics within your jurisdiction

- **Organization Portal**
  - Register your organization's information
  - Add organization members for COVID-19 vaccination eligibility

- **Recipient Portal**
  - Register my patient information
  - Schedule a COVID-19 vaccination appointment
  - View my COVID-19 vaccination certificate

- **Clinic Portal**
  - Register your clinic information
  - Manage vaccination appointments
  - Log vaccinations

- “Organization” refers to any institution, association, company, or other group that will add critical infrastructure workers and others at-risk groups in VAMS to be considered for COVID-19 vaccination.
- “Member” is one example of an organization.
- Vaccination clinics are often referred to as “vaccine clinics” in VAMS.
PRIVACY NOTE

To receive the COVID-19 vaccine, personally identifiable information (PII) and protected health information (PHI) will be entered into VAMS. PII is any data that could potentially identify an individual. PHI includes demographic information and relates to the individual’s past, present, or future physical or mental health or condition. VAMS complies with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) privacy and security rules. For more information about HIPAA visit: https://www.cdc.gov/phlp/publications/topic/hipaa.html

How to Use the User Manual
