

**For Children/Youth Ages 6-18, Percentage of CY 2019 EPSDT  
Exams Inclusive of Mental Health Screening  
by HealthCheck Region of Provider**

To ensure that Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services are provided in accordance with reasonable standards of medical and dental practice, West Virginia's EPSDT Program, HealthCheck, applies the American Academy of Pediatrics' Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents to inform the development of policy, procedures and age-appropriate preventive health screening forms made available (free of charge) to all health care providers who see children and youth. The HealthCheck standard compels psychosocial/behavioral (mental health) screening during each EPSDT exam.
