

HOW TO USE YOUR WIC QR CODE AT AUTHORIZED FARMERS MARKETS

Your monthly Cash Value Benefits (CVB) for fruits and vegetables and the Farmers Market Nutrition Program (FMNP) benefit (should they be available to you) [can be used with the WIC QR code](#).

Take the following steps to use your WIC QR code:

STEP 1

Find an authorized WIC farmers market or farm store.

TIP Check your WICShopper app or see a list on the [WV WIC web page](#)

STEP 2

Make sure you have your WIC QR code.

TIP Take a picture of your QR code with your phone, find it on the WICShopper app, or your WV WIC EBT card with the QR Code and use it at the farmers market or farm store.

STEP 3

Select your fruit and vegetables.

TIP Look for growers displaying this sign!

STEP 4

The grower will scan your QR code with their mobile device and enter in the amount of the purchase.

STEP 5

Verify the amount of your purchase and enter in your WIC card 4-digit PIN.

TIP FMNP benefits will be used first before your WIC CVB fruit and vegetable benefits!
Note: If you don't have enough benefits to cover your purchase, you can pay with another method or choose not to buy as much.
