

Effective October 1, 2018, these minimum stock levels are required of all authorized and applicant grocery vendors. An inability to obtain or continue to stock these minimum amounts and minimum varieties in any category at the store site may result in application denial, or in the case of authorized grocery vendors, sanctions point assessments or denial of reauthorization application. Refer to the West Virginia WIC Approved Shopping Guide for approved foods and approved packaging sizes. During the on-site inspection performed as part of the application or reauthorization process, or during routine monitoring, a State WIC representative will check your stock levels to ensure these minimum levels are present on the date of review. Per West Virginia WIC Policy & Procedure 8.11, Vendors may request exemptions from minimum stock requirements for individual food categories or to a lower peer group minimum stock requirement based on the last 12 months of store redemptions.

Peer Group 2 (Large Supermarkets Stores 10-18 Registers) Minimum Stock Requirements

Food Item	Minimum Stock Required
