### ***About the FRN***

*The mission of the Doddridge County Family Resource Network is to promote the health and well-being of all Doddridge County citizens, empowering the local community to identify their needs and implement action plans. The FRN then brings agencies, organizations and individuals together to collectively seek the resources necessary to allow the community's solutions to become a reality. The FRN thus acts as a clearing house for other organizations and a source of information for the individuals they serve.*

*This guide is not intended to be a local business directory or comprehensive telephone book. Its scope is limited to those services and agencies deemed essential or useful for the quality of life of Doddridge County's families and citizens, particularly those facing economic hardships or other unusual challenges.*

## ***Doddridge County Resource Guide***

*While many of the listed services, agencies and organizations have physical locations elsewhere, they nonetheless serve the residents of Doddridge County. In most cases, nothing comparable is found within the boundaries of our county. The information in this guide is only as useful as its accuracy and completeness. If you find any errors or have a suggestion for an additional listing, please let us know.*

## **WV 2-1-1**

**West Virginia 2-1-1** keeps an accurate and comprehensive database that you can use to find health and human services to meet your needs. The database allows you to browse hundreds of health and human services online, learn about specific programs, intake requirements, eligibility, operation hours and more. The database also has information on disaster-related services. The service is available both by phone and by a searchable, user-friendly website.

### **[www.wv211.org](http://www.wv211.org)**

To start a search, use one of the drop-down buttons to identify the type of service(s) you need. Then identify the location in which you need the service provided. When

Staffed by specialists in the Title I Reading Program and Special Education, the PERC works to build partnerships between parents and educators to ensure that children receive the highest educational opportunities and achievement possible.

Its principal program is the highly successful Project ACE (Adults & Children in Education), a free program offered to all Doddridge County children between the ages of 3 and 5 and their parents. Parents attend one hour each week with their child, with PERC providing all necessary materials.

Children are scheduled 3 per time slot so that socialization occurs, but children also work one-on-one with a parent coordinator. Parents are encouraged to participate and are given ideas to work with their children at home on skills they will later need for school and activities to help with their child's learning skills.

Another program is the "Making Friends" Social Skills Group, which is open to any Doddridge County child of elementary school age. The purpose of this biweekly

## ***Doddridge County Resource Guide***

group is to promote social and communication skills among participants through games and activities that help children develop the skills necessary for both academics and every-day life.

Additionally, the PERC hosts various workshops over the course of the year to provide information, resources and training for parents on important issues such as parent skills, problem solving, educational planning for their child, behavior management, home learning activities, and other topics to strengthen home-to-school partnerships.
