Provide further explanation for the dates of operation, if necessary

- If funding permits, crisis assistance, which includes the Emergency Repair and Replacement program, will run the length of the program. The Agency will primarily use funds for heating assistance and crisis assistance; if there are funds remaining a cooling services program will be offered.

- Provide cooling services in parallel with heating throughout the period of performance for the fiscal program year to improve efficient of services to the client while the contractor or agency is there to do a repair or replacement. If the cooling system is not working then it can be resolved at that time without a gap in services. The heat index throughout the state during peak months warrants this due to impact on peoples wellbeing. The level of funding for the program would also cover any demand and should not prohibit it.

1.5 Do you automatically enroll households without a direct annual application? ☐ Yes ☐ No

If Yes, explain:

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

A client that is not categorically eligible will receive the same application and time frame as a client that is categorically eligible. Benefit levels are programmed into our eligibility system and they are based on income, household size, cost of energy and fuel type. The distinction is made regarding applicant's categorical or non-categorical status. Receipt of other benefits are considered in determining eligibility for LIHEAP benefits. Benefits for crisis payments are based solely on the above listed criteria plus the presence of an immediate need for home heating and the lack of resources to meet the existing need. All applicants must submit a signed form for heating benefits and all crisis applicants must be interviewed.

SNAP Nominal Payments

1.7a Do you allocate LIHEAP funds toward a nominal payment for SNAP households? ☐ Yes ☐ No

2.2 Do you have additional eligibility requirements for HEATING ASSISTANCE? [ ] Yes [ ] No

2.3 Check the appropriate boxes below and describe the policies for each.

Do you require an Assets test? [ ] Yes [ ] No

Do you have additional/differing eligibility policies for:

- Renters? [ ] Yes [ ] No
- Renters Living in subsidized housing? [ ] Yes [ ] No
- Renters with utilities included in the rent? [ ] Yes [ ] No

Do you give priority in eligibility to:

- Elderly? [ ] Yes [ ] No
- Disabled? [ ] Yes [ ] No
- Young children? [ ] Yes [ ] No
- Households with high energy burdens? [ ] Yes [ ] No
- Other? [ ] Yes [ ] No

Explanations of policies for each "yes" checked above:

Assistance groups that have utilities included in the rent, but are not billed separately for heating costs must be evaluated for LIHEAP eligibility. If a client applies for LIHEAP and indicates that their utility are included in their rent, the worker will request verification of those said utilities. This can be done via phone call, rent receipt, lease or contract. We also want to give priority to households that have someone in the household that is elderly, disabled, or there is a young child in the home that is age five or younger as these are the most vulnerable to the cooler temperature in the winter and the hotter temperature in the summer. We also want to give priority to those that have higher energy burdens as they may not have the extra money to pay for the higher heating bills.

High Energy Burden is defined by the total amount spent on the primary heating source is greater than 20% of the households income.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

Those that received LIHEAP last year that have someone that is aged, disable or a child in the home age five or under will be sent an application at an earlier time than those that did not receive LIHEAP benefit last year, thus giving these individuals/household a longer time to turn these application in.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- [ ] Income
- [ ] Family (household) size
- [ ] Home energy cost or need:
  - [ ] Fuel type
  - [ ] Climate/region
  - [ ] Individual bill
High Energy Burden is defined as the total amount spent on the primary heating source is greater than 20% of the household's income.

If a client reports that the utility used for cooling is included in the rent costs, the applicant must provide verification that he/she is responsible for paying this additional cost and also meet eligibility criteria.

3.4 Describe how you prioritize the provision of cooling assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

There will be an early application period to those households that have someone in the household that is aged, disabled or a child that is age five or younger.

Section 4: CRISIS ASSISTANCE

</thead>
<tbody>
<tr>
<td>1</td>

4.2 Provide your LIHEAP program’s definition for determining a crisis.

A crisis is defined as being without home heat or being in danger of not having home heat and not having the resources to resolve the crisis without financial assistance. If the crisis threatens the loss of a utility, a past due bill or termination notice is required to be submitted with the application. If the home heating crisis is the result of a natural disaster, state and/or national public health emergency, payments may be issued to previously approved households. Under these circumstances, a past due bill, termination notice, or face-to-face interview may not be required. If there is an intake period in which an application is required, a past due bill or termination notice may be requested, but face-to-face contact may be waived. If the heating unit is no longer functioning or is considered unsafe heat, the client can be evaluated for the Emergency Repair and Replacement Program. If a client can no longer use the heating source due to a medical condition, i.e., a client is now disabled and cannot load a wood stove, then the heat source is considered unavailable. Households with unavailable heating sources are categorized as being in crisis, as well.

High Energy Burden is defined as the total amount spent on the primary heating source is greater than 20% of the household income.

4.3 What constitutes a life-threatening crisis?

A life-threatening crisis is being without home heat or being in danger of not having home heat and having an illness or condition that will cause one's wellbeing to be detrimentally affected by not having heat or cooling in the home. A client also must have no way to resolve the crisis, i.e., having no money to pay the bill or having to pay for repair/replacement of a malfunctioning heating/cooling unit. A disconnect notice or past due notice is required to verify that the utility is in danger of being terminated. If the heating unit is not functioning, the client can be evaluated for the Emergency Repair or Replacement Program. Life-threatening crisis must be documented in all cases.

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours

Crisis Eligibility, 2605(c)(1)(A)

4.6 Do you have additional eligibility requirements for CRISIS ASSISTANCE? ☐ Yes ☐ No

4.7 Check the appropriate boxes below and describe the policies for each

- Do you require an Assets test? ☐ Yes ☐ No

- Elderly? ☐ Yes ☐ No
- Disabled? ☐ Yes ☐ No
- Young Children? ☐ Yes ☐ No
- Households with high energy burdens? ☐ Yes ☐ No
- Other? ☐ Yes ☐ No

In Order to receive crisis assistance:
- Must the household have received a shut-off notice or have a near empty tank? ☐ Yes ☐ No
- Must the household have been shut off or have an empty tank? ☐ Yes ☐ No
- Must the household have exhausted their regular heating benefit? ☐ Yes ☐ No
Must renters with heating costs included in their rent have received an eviction notice?
☐ Yes ☐ No

Must heating/cooling be medically necessary?
☐ Yes ☐ No

Must the household have non-working heating or cooling equipment?
☐ Yes ☐ No

Other? When home energy costs are included in the rent, the client must verify the lack of resources to eliminate the crisis.
☐ Yes ☐ No

Do you have additional / differing eligibility policies for:

Renters?
☐ Yes ☐ No

Renters living in subsidized housing?
☐ Yes ☐ No

Renters with utilities included in the rent?
☐ Yes ☐ No

Explanations of policies for each "yes" checked above:

The client must have a past-due bill or termination notice to be eligible for crisis assistance. The client must verify the lack of resources to eliminate the crisis. Lack of resources can be verified by the client to validate their income, which would show that he/she does not have sufficient income to eliminate the termination. If the client reports no income then the client must fill out a zero income form. For the Emergency Repair or Replacement portion of the crisis assistance, the client would have to meet the income guidelines and also have a non-working or unsafe heating source or have no heating source at all, to be eligible. For the repair or replacement of the air conditioner units, the client would have to be income eligible, have a non-working or improperly functioning unit and have someone in the household that is age 60 or over, or someone that is disabled, or a child in the home that is age five or under. The Agency can accept a doctor's statement to verify the medical condition for the cooling repair or replacement assistance, if the client is not considered disabled by the Social Security Administration.

Subsidized households (public housing) that is participating in the Department of Housing and Urban Development is not eligible for the repair or replacement program.

Renters will be evaluated by a "case-by-case" heating crisis situation from the LIHEAP Coordinator for the repair and replacement program. LIHEAP Coordinator will evaluate renters by the landlords having the means to replace an non working heating/cooling unit and will also refer clients to Legal Aid for assistance.

Determination of Benefits

4.8 How do you handle crisis situations?

☐ Separate component

☐ Fast Track

☐ Other - Describe:

If a client comes in during the regular heating season, but has a past due bill or termination notice they would need to see a worker so their application can be fast-tracked to eliminate the emergency within the proper timelines. If the client is found eligible a pledge can be made to the vendor or utility company to avoid a termination.

4.9 If you have a separate component, how do you determine crisis assistance benefits?

☐ Amount to resolve the crisis.

☐ Other - Describe:

For the Emergency Repair and Replacement program we can pay up to $8,000 for the repair or replacement of heating and or cooling units. The LIHEAP coordinator has the ability to approve an amount higher than $8,000 if there are special circumstances. This is done on a case-by-case basis.

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

☐ Yes ☐ No Explain.

Clients who require crisis assistance must be interviewed in a local DHHR office. There are fifty-four county offices to accommodate this need. If a client is not physically able to come into the local office the client can appoint someone to apply on his/her behalf or arrangements can be made for a worker to go out in the field to accommodate the client if necessary.

4.11 Do you provide individuals who are physically disabled the means to:

Submit applications for crisis benefits without leaving their homes?

☐ Yes ☐ No If No, explain.

Travel to the sites at which applications for crisis assistance are accepted?

☐ Yes ☐ No If No, explain.

If you do not have an answer for any of these questions, please contact the Department of Health and Human Resources.

Heating system repair services assistance is in demand during the winter crisis time frame, usually December - March, dependent upon weather patterns. If adequate funding is available, the Agency will extend heating system repair assistance on a 12-month basis. The agency provides cooling system repair or replacement assistance during the summer crisis months, usually May - July. If a client has a non-working heating and or/cooling system, the agency will replace it at any time during the fiscal year, if funds are available. If a client has only a non-working air conditioning unit, an application for repair or replacement services assistance can be submitted only after May 1, when the cooling assistance period begins. Clients needing assistance to replace or repair both heating and cooling systems can file an application on a 12-months basis. The Agency will provide funds for electrical upgrades to install replacement units for clients, if needed. Propane gas tank replacement services assistance is also available.

4.16 Do any of the utility vendors you work with enforce a moratorium on shut offs?

- Yes
- No

If you responded “Yes” to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

If you selected "Yes" for any of the options in questions 5.6, 5.7, or 5.8, you must provide further explanation of these policies in the text field below.

If a client applies for LIHEAP and indicates that the utilities are included in with rent, the worker must request verification of those said utilities. This can be done by phone call, rent receipt, lease agreement or written statement from the landlord.

Vulnerable members are prioritized by heating terminations, age, disability, and documented health issues. The Agency have smaller grants with Community Action Agencies (CAAs). These CAAs go out into more rural areas and help vulnerable individuals complete the applications. The CAAs then mail or deliver the applications to the West Virginia Development Office. The Weatherization Program administered through the West Virginia Development Office has a points system that gives higher weight to those who are aged and/or disabled or have a child in the home that is age five or under.

WVDED has developed a point system to rank clients in the data management system that tracks all clients, dwellings, and weatherization work:
10 points for high energy users
10 points for high energy burden clients
5 points for elderly clients (60 years or older)
5 points for households with children under 18 years old
For applicants with the same amount of points, priority will be given to applicants who have been on the waitlist the longest. These factors alone do not determine eligibility, but do weight the application.

The agency also gives priority to households designated as High Energy Users.

**Benefit Levels**

5.9 Do you have a maximum LIHEAP weatherization benefit/expenditure per household? ☑ Yes ☐ No

In order to reach vulnerable populations in West Virginia, the Agency plans to work closely with Senior Centers to coordinate outreach and to assist with completing LIHEAP applications. The Agency will also seek permission from the public schools in all counties to send informational flyers home with students so that parents and/or guardians can receive information about LIHEAP application time periods and about the Emergency Repair or Replacement Program.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
Section 7: Coordination, 2605(b)(4) - Assurance 4

7.1 Describe how you will ensure that the LIHEAP program is coordinated with other programs available to low-income households (TANF, SSI, WAP, etc.).

| Joint application for multiple programs | ✓ |
| Intake referrals to/from other programs | ✓ |
| One - stop intake centers | |
| Other - Describe: | ✓ |

The Agency will have information about Weatherization services posted at all county DHHR offices. When a client asks a social services worker about Weatherization assistance, the worker can refer the client to the local Weatherization Community Action Agency. The Agency also intends to seek permission to advertise the Weatherization program in Senior Centers throughout the State. Also, the Agency will seek permission from public schools in all counties to have an informational flyer about the Weatherization program be sent home with students to inform parents and/or guardians about the program.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
Section 8: Agency Designation, 2605(b)(6) - Assurance 6 (Required for state grantees and the Commonwealth of Puerto Rico)

8.1 How would you categorize the primary responsibility of your State agency?

- Administration Agency
- Commerce Agency
- Community Services Agency
- Energy / Environment Agency
- Housing Agency
- Welfare Agency
- Other - Describe:

Alternate Outreach and Intake, 2605(b)(15) - Assurance 15

If you selected "Welfare Agency" in question 8.1, you must complete questions 8.2, 8.3, and 8.4, as applicable.

8.2 How do you provide alternate outreach and intake for HEATING ASSISTANCE?

LIHEAP has a separate intake process, which is completed mostly by mail. Outreach is accomplished by mailing an application packet. The application form may be mailed to the local DHHR office or taken to a Community Action or Area Agency on Aging (Senior Citizen Centers) office or Center for Assistance. Community Action and Area Agency on Aging volunteers make home visits to reach those clients who are disabled and/or homebound.

8.3 How do you provide alternate outreach and intake for COOLING ASSISTANCE?

West Virginia will implement Cooling Assistance with any remaining funds. If Cooling Assistance is provided/funded, it will have the same outreach as Heating Assistance, i.e., mailing application packets to clients. The application form may be mailed to the local DHHR office or taken to a Community Action or Area Agency on Aging office or Center for Assistance. Community Action and Area Agency on Aging volunteers make home visits to reach those clients who are disabled and/or homebound.

8.4 How do you provide alternate outreach and intake for CRISIS ASSISTANCE?

Public Service Commission regulated energy providers use billing notice inserts to inform customers about when LIHEAP crisis funds are available and to refer them to DHHR. Community Action and Area Agency on Aging personnel make referrals to DHHR when clients request assistance with heating bills and/or Weatherization services.

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

**8.6 What is your process for selecting local administering agencies?**

There are 55 counties in the State of West Virginia. The West Virginia Department of Health and Human Resources has 54 local county offices that administer the LIHEAP program.

**8.7 How many local administering agencies do you use? 54**

**8.8 Have you changed any local administering agencies in the last year?**

- [ ] Yes
- [x] No

**8.9 If so, why?**

- [ ] Agency was in noncompliance with grantee requirements for LIHEAP -
- [ ] Agency is under criminal investigation
- [ ] Added agency
- [ ] Agency closed

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

<table>
<thead>
<tr>
<th>Heating</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cooling</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Crisis</td>
<td>Yes</td>
<td>No</td>
</tr>
</tbody>
</table>

If yes, Describe.

Some of the home energy suppliers are vendors in the Agency's eligibility system. These are Public Service Commission (PSC) regulated vendors. If the vendor is not in the Agency's eligibility system, the Agency can pay them directly. If the fuel vendor is not PSC regulated, the Agency will pay the client directly. These are typically wood, coal, propane and kerosene vendors.

9.2 How do you notify the client of the amount of assistance paid?

If a client is found eligible for energy assistance, he/she will receive an approval letter that tells the client the amount that he/she has been approved for and the method of disbursement. For the heating payment, the client should receive notice no later than 30 days after the Agency has received the application. If this is a crisis payment, the application is processed the day that the client comes in to apply and the client is informed during the application process.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The vendor agreement contains the following statement: Households that receive LIHEAP in the normal billing process will be charged no more than the difference between the cost of the home energy used and the payment that is provided by the DHHR.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The vendors accept the LIHEAP payments as they would any other payment. The clients are not coded differently in the vendor systems for receiving LIHEAP. Our eligibility system creates a payment file, and if refunds are necessary vendors return LIHEAP funds back to the State Auditor's Office. Vendors have a direct line of communication with the Auditor's Office to resolve any issues. The vendors have been trained how to handle any funds that need to be returned. The vendor agreement also states no household that is receiving LIHEAP will be treated adversely because the household receives assistance from the DHHR.

9.5 Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

| Yes | No |

If so, describe the measures unregulated vendors may take.

Direct payments are made to clients who use bulk fuel unless crisis funds are involved. In a crisis situation, vendor payment is preferred unless the client must self-deliver in partial amounts and no vendor is willing to set up a "credit" account.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federal funds awarded to West Virginia are committed and identified in WV (Our Advanced Solution with Integrated Systems) OASIS. LIHEAP customer payments are also entered into OASIS and daily payments are tracked and monitored to determine that expenditures do not exceed the amounts that are awarded. The state’s Recipient Automated Payment and Information Data System (RAPIDS) is the benefits issuance processing program that workers access to determine customer eligibility for LIHEAP. The system provides individual approvals and daily batch approvals which allow for dual controls. Benefits are approved in RAPIDS and can be sent to OASIS for payments to utility companies, bulk fuel vendors and to clients.

Weatherization funds are not transferred to other state agencies. The West Virginia Development Office (WVDO) runs the Weatherization program for West Virginia. The WVDO is allotted 15% of the total grant funds.

The DHHR Finance department tracks all funding spent for this grant. This includes refunds, weatherizations, administration, heating assistance, crisis and carryover.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices? Select all that apply:

- ☑ Local agencies/district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133
- ☐ Local agencies/district offices are required to have an annual audit (other than A-133)
- ☑ Local agencies/district offices' A-133 or other independent audits are reviewed by Grantee as part of compliance process.
- ☑ Grantee conducts fiscal and program monitoring of local agencies/district offices

Compliance Monitoring

10.5. Describe the Grantee's strategies for monitoring compliance with the Grantee's and Federal LIHEAP policies and procedures: Select all that apply

Grantee employees:

- ☑ Internal program review
- ☑ Departmental oversight
- ☐ Secondary review of invoices and payments
- ☑ Other program review mechanisms are in place. Describe:

  West Virginia has a program called Rushmore that caseworkers enter LIHEAP cases into a system including the clients income information, utility information, and all other needed information and the supervisor has to review the case before case worker can approve the case. This helps prevent errors and helps determine caseworkers issues when processing these applications. LIHEAP review elements are applications, forms, income, utility bills, vendor voucher, bulk fuel, timeliness, incorrect approval/denial/amounts, case comments, and notices.

Local Administering Agencies / District Offices:

- ☐ On - site evaluation
- ☑ Annual program review
- ☑ Monitoring through central database
- ☑ Desk reviews
- ☑ Client File Testing / Sampling
- ☐ Other program review mechanisms are in place. Describe:

  There is a Statewide Single Audit that is completed each year. There is a sampling of LIHEAP cases that are reviewed each year.

  West Virginia has a data monitoring system that helps determine what is most common errors in cases. This system is called Rushmore. For Fiscal year 2023 LIHEAP has been added to the system. Supervisors review LIHEAP applications that are being processed by caseworkers and report all information into the data base. With this information we can determine what part of training we need to improve on.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Below are our proposed fieldwork start dates. Once we are able to update our requests in Canvas and add due dates, programs will be the Wednesday before fieldwork begins. 7/5 — narratives and reports for all programs and Agency Wide 7/11 — pick samples (all programs), TANF, Agency Wide 7/18 — Epidemiology, WIC, SNAP 7/25 — CHIP, Adoption 8/1 — LIHEAP 8/8 — Child Care 8/15 — PEVT (DHHR items), Opioids, Foster Care 9/19 — Medicaid (tested by EY, not Suttle, but wanted all the dates to be in one place for you)

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

- [ ] Location
- [ ] Population
- [ ] Services
- [ ] Program
- [ ] Staff
- [ ] Schedule
- [ ] Training
- [ ] Reporting
- [ ] Compliance
- [ ] Other

Please indicate the level of importance for each of the criteria listed.
A sample of the LIHEAP applications are taken from all four regions to ensure that there is not a trend or an issue with the local DHHR offices in the application process. The monitoring reviews are done yearly based on the schedule of our auditors who complete the Statewide Single Audit.

**Desk Reviews:**

A large sample is pulled for the Statewide Single Audit to ensure that the LIHEAP applications are not all coming from the same local DHHR office and to ensure that all processes and procedures are consistent.

### 10.8. How often is each local agency monitored?

The monitoring is done once each year. Each office is monitored every year. There are currently 54 local offices that are monitored each year.

### 10.9. What is the combined error rate for eligibility determinations? OPTIONAL

### 10.10. What is the combined error rate for benefit determinations? OPTIONAL

### 10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? none

### 10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? none

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 22

12.2 How many of those fair hearings resulted in the initial decision being reversed? 0

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

There were 22 requests for a fair hearing for FY 2022. There were 6 cases that were dismissed, 11 cases that were withdrawn prior to the hearing, as they were resolved by the parties, one dismissal was based on resolution, 4 cases were abandoned by the client/no shows, and 1 case that upheld the Department's decision. There will be yearly training for all eligibility workers prior to this LIHEAP season. There will also be hands-on training and technical assistance as needed by the local offices.

12.4 Describe your fair hearing procedures for households whose applications are denied.

Applicants who indicate that they want a fair hearing receive a form on which they must indicate whether they want a pre-hearing conference, fair hearing, or both. Requests must be made within 60 days of the date of the denial, and the Hearings Officer must render a decision within 60 days from the date of the hearing. In most cases, the issue is resolved in a pre-hearing conference. The applicant is informed of his or her rights to a fair hearing at the time of application and when he or she is notified of the decision made on the application. There is a posted notice at each agency that informs applicants of their right to a fair hearing. Any Weatherization Fair Hearing requests will be handled by the sub-grantee that administers our Weatherization program.

12.5 When and how are applicants informed of these rights?

The applicant is informed of his or her right to a fair hearing at the time of application and when he or she is notified of the decision made on the application. There is a notice at each agency that informs applicants of their right to a fair hearing. Any Weatherization Fair Hearing requests would be handled by the sub-grantee that administers our Weatherization program.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Applications for LIHEAP benefits are required to be processed within 30 days from the date that the application is received by the DHHR. Clients may request a fair hearing when the application is not processed timely. As with denials, a pre-hearing conference usually resolves these issues. Weatherization applicants are informed that there is a very long waiting list for assistance and it may take 2-3 years for Weatherization services to be performed. Rejected applicants must be notified within ten days and given the reason for the rejection. Approved applicants are kept informed of their status on the waiting list and the approximate date of completion.

12.7 When and how are applicants informed of these rights?

The applicant is informed of his or her right to a fair hearing at the time of application. There is also a public notice posted in each of our 54 county DHHR offices. In addition, there is also a notice of the right to a fair hearing provided to the applicant when the decision is made on the application.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
### Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Our subrecipients conduct energy efficient education during post work inspection after installing heating units from the Emergency Repair or Replacement. Subrecipients also conduct the very same education during weatherization. This energy education is completed for free for the clients.

13.2 How do you ensure that you don’t use more than 5% of your LIHEAP funds for these activities?

n/a

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

n/a

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

n/a

13.5 How many households applied for these services? 0

13.6 How many households received these services? 0

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
Section 14: Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?
☐ Yes ☐ No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

N/A

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. § 96.87(d)(2)(iii), describe the following:

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

West Virginia will collect and report on LIHEAP performance measures data to ensure that the Agency is targeting and serving and providing bill payment assistance to households with the highest energy burden. The Agency will concentrate on restoration and prevention of loss, energy source, energy burden, income and imminent risk of running out of fuel. West Virginia has defined "Imminent Risk" as being without, disconnected, or within three days of being without heat. The Agency's eligibility system currently collects annual household income, annual LIHEAP benefit, main fuel type and whether or not the client has to pay for electricity or electric services. The Agency is also working with the major FSC-regulated utility vendors to capture annual energy usage (if applicable), prevention of loss and restoration of service.

West Virginia will also work with the 54 local offices to ensure that workers are completing the LIHEAP screens out correctly in our eligibility system and that they are documenting this information correctly. From our past Statewide Single Audits it was noted that workers did not keep copies of the utility bills for all case files or a portion of the LIHEAP application was not properly stored in our online database. We are taking measures to improve this based on training and desk guides for our eligibility workers.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Failure to identify all known workplaces constitutes a violation of the grantee’s drug-free workplace requirements.

Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
