- The individual pays the agreed-upon amount to the funeral director in the form of a direct cash payment, purchase, or transfer of a life insurance policy or annuity that is assigned to the funeral director.
- The funeral director, in turn, places the pre-need payment or device into the trust or escrow account that the funeral director establishes himself. If the client establishes the trust or other device himself, the amount may be considered a transfer of resources. See Chapter 24.
- The client is expected to receive goods and services with a total CMV at least equal to the amount he paid.
When all of these conditions are met, burial funds are excluded in their entirety for the client and/or his spouse.

The exclusion is determined by the following method, with irrevocable burial funds being used for the exclusion before any other funds.

- **Step 1:** $3,000 Maximum Burial Exclusion
- **Step 2:** Subtract irrevocable burial trusts, irrevocable burial contracts, or any other irrevocable burial agreements.
- **Step 3:** Subtract face value of all life insurance policies whether or not these policies are also counted as assets.
- **Step 4:** Subtract revocable burial trusts and any other revocable burial agreements; money set aside for burial (maximum of $1,500, not comingled with other funds).
- **Step 5:** This is the remaining amount of other assets that may be excluded for burial.

**Burial Fund Example 1:** An unmarried man applies for Medicaid. He has $1,800 set aside for burial and he has just established an irrevocable pre-need burial trust, in the amount of $2,000. This totals $3,800 in burial funds. Because he cannot access any of the money in the pre-need burial trust, it is excluded first as part of the $3,000 burial exclusion. Of the $1,800 in funds set aside for burial, only $1,000 is excluded. The remaining $800 is counted as an asset and must be removed from the account so that it is not comingled with the burial fund.

</tr>
</tbody>
</table>
**Burial Fund Example 2**: A married couple purchased an irrevocable pre-need funeral trust for $20,000 from a funeral home. The director of the funeral home placed the funds in an irrevocable arrangement of $10,000 for each person. Because each irrevocable trust exceeds the $3,000 burial fund exclusion, no additional funds are excluded. The excess $7,000 in each irrevocable trust is not an asset.

In addition, each has $1,500 set aside for burial. However, the $1,500 set aside for burial for each person cannot be excluded because the irrevocable burial trust meets and exceeds the maximum allowable exclusion. The couple, therefore, has countable assets of $3,000.

**Burial Fund Example 3**: Same as example above except each person placed $10,000 in an irrevocable trust for burial purposes that do not meet the standard for a pre-need burial trust. The $3,000 maximum burial fund exclusion is excluded from the $10,000 irrevocable burial fund for each. The remaining excess $7,000 in each irrevocable trust is not an asset, because it is not accessible to him.
5.7 TRANSFER OF ASSETS

5.7.1 SNAP

There is a penalty when an Assistance Group (AG) member or an individual excluded by law or disqualified, knowingly transfers assets for the purpose of qualifying for the Supplemental Nutrition Assistance Program (SNAP). Supervisory approval is required before notification of disqualification is sent to the client.

5.7.1.A Permissible Transfers

Eligibility is not affected by transfers of assets when:

- Would otherwise not affect eligibility, such as personal effects, any item excluded in Section 5.5, etc.; or
- The household meets the requirements for categorical eligibility; or
- Are sold or traded at or near the Current Market Value (CMV); or
- Are transferred for other purposes, other than to qualify for SNAP; or
- Are transferred between members of the SNAP AG.

**Permissible Transfers Example:**

Placing funds in an irrevocable burial trust fund.

---

**NOTE:** The assets of a Supplemental Security Income (SSI) recipient are excluded in a mixed SNAP AG. See Section 5.5. Therefore, a transfer from a non-SSI recipient to an SSI recipient could be a transfer of assets and any such transfer must be explored.

5.7.1.B Applicants

If the applicant has transferred assets within the three-month period immediately preceding the date of application with the intent to qualify for SNAP, the AG is disqualified from participation in SNAP for up to one year from the date the transfer is discovered.
5.7.1.C Clients

If a client transfers an asset, the AG is disqualified from participation for up to one year from the date the transfer is discovered.

5.7.1.D Length of Disqualification

The length of the disqualification period is based on the amount by which the client’s total retained assets and those transferred exceed the appropriate asset limit.

The chart below is used to determine the disqualification period:

<table>
<thead>
<tr>
<th>Amount in Excess of the Asset Limit</th>
<th>Disqualification Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 249.99</td>
<td>1 month</td>
</tr>
<tr>
<td>250 – 999.99</td>
<td>3 months</td>
</tr>
<tr>
<td>1,000 – 2,999.99</td>
<td>6 months</td>
</tr>
<tr>
<td>3,000 – 4,999.99</td>
<td>9 months</td>
</tr>
<tr>
<td>5,000 – and up</td>
<td>12 months</td>
</tr>
</tbody>
</table>

**Length of Disqualification Example 1:** If a one-person AG, with a bank account of $1,500, transfers bonds with a cash value of $1,000. The $1,500 bank account plus $1,000 in bonds equals $2,500. Subtract the $2,250 asset limit from this amount to arrive at $250. Use the $250 to determine the disqualification period.

The disqualification period begins as follows:

- **Application:** The month of application.
- **Active Case:** With the first issuance after discovery, or the following month after the adverse action period.
- **Closed Case:** If the transfer occurs prior to closure, disqualification begins when the AG reapplies and is found otherwise eligible. If the transfer occurs after closure, the client is treated the same as any other applicant upon reapplication.
Length of Disqualification Example 2: A one-person AG has $2,400 in a savings account. He transfers $400 to qualify for SNAP. To determine his disqualification period, consider the total asset value of $2,400. The countable asset of $2,400, less the $2,250 asset limit, equals the amount in excess of the asset limit or $150. The disqualification period is one month.

5.7.2 WV WORKS

A transfer of asset penalty may be imposed if the client gives away or transfers assets without receiving CMV.

For purpose of WV WORKS, the following information applies.

CURRENT MARKET VALUE (CMV)
The amount an asset can be expected to sell for on the open market, in the particular geographic area. Market conditions are reflected in an asset's CMV.

CMV Example: A transfer for love and consideration is not considered a transfer for CMV. Also, while relatives and family members legitimately can be paid for care they provide to the individual, it is presumed that services provided for free, at the time, were intended to be provided without compensation. Therefore, a transfer to a relative for care provided in the past normally is not a transfer of assets for CMV. However, an individual may rebut this presumption.

FOR THE SOLE BENEFIT OF
A transfer is considered to be for the sole benefit of a spouse, disabled child, or a disabled individual under age 65 if the transfer is arranged in such a way that no individual, except the spouse, child or individual, can benefit from the transferred asset(s) in any way, either at the time of the transfer, or at any time in the future, except when the Department of Health and Human Resources (DHHR) is named as the primary beneficiary. The agreement must be in writing.

Similarly, a trust is considered to be established for the sole benefit of one of these individuals if the trust benefits no one but the individual, either at the time of the establishment of the trust, or any time in the future, except when the Department is named as the primary beneficiary. However, the trust may provide for reasonable compensation for a trustee to manage the trust, as well as for reasonable costs associated with investing or otherwise managing the funds or property in the trust. In defining reasonable compensation, consider the amount of time and
effort involved in managing a trust of the size involved, as well as the prevailing rate of compensation, if any, for managing a trust of similar size and complexity.

If a beneficiary is named to receive the funds remaining in a trust upon the individual’s death, the transfer is considered made for the sole benefit of the individual if the Department is named as the primary beneficiary for up to the amount paid in benefits to the individual. The designated beneficiary receives any remaining amount.

**LOOK-BACK DATE**

The look-back date is the earliest date for which a penalty for transferring assets for less than CMV can be applied. Penalties can be applied for transfers that take place on or after the look-back date. Penalties cannot be applied for transfers that take place prior to the look-back date.

When an individual applies more than once (e.g., he applies and is denied due to excess assets and applies again later), the look-back date is based on the first date on which the individual applied for WV WORKS.

The look-back date establishes the look-back period.

---

**5.7.2.A  Look-Back Period**

---

The length of time for which the Worker looks back for any asset transfers depends upon whether or not a trust fund was involved.

**5.7.2.A.1  Trust Amounts Treated as Uncompensated Transfers**

The look-back period is 60 months for amounts in revocable or irrevocable trusts that are considered transferred. The time period begins the month the client applies for WV WORKS.

Irrevocable agreements may result in an asset becoming inaccessible to the client.

**5.7.2.A.2  Other Transfers**

The look-back period is 36 months. The time period begins the month the client applies for WV WORKS.
5.7.2.B  Permissible Transfers

The following transfers do not result in a penalty for transferring assets. See Section 5.5.46.

5.7.2.B.1  Transfer to a Trust

When an AG member transfers assets to a trust that is excluded from consideration as an asset, no penalty is applied.

5.7.2.B.2  Transferred Assets Returned

When all assets transferred for less than CMV have been returned to the client, no penalty is applied. However, if a penalty has already been applied or has already started, a retroactive adjustment back to the beginning of the penalty period is required. The client is not necessarily asset-eligible once the resources are returned.

If parts of such assets are returned, the penalty period is adjusted accordingly.

5.7.2.B.3  Client Intended CMV or Other Value Consideration

When the client can demonstrate that he intended to dispose of the asset for CMV or for other valuable consideration, no penalty is applied.

5.7.2.B.4  Transfer Was Not to Qualify for WV WORKS

When the asset(s) was transferred exclusively for a purpose other than to qualify for WV WORKS, no penalty is applied.

5.7.2.C  Transfers That Are Not Permissible

All transfers not specifically permissible as stated above result in the application of a penalty. This also applies to jointly owned assets.
The jointly owned asset, or the affected portion of it, is considered transferred by the client when any action is taken that reduces or eliminates the client’s ownership or control of the resource.

5.7.2.D  Transfer with Retention of a Life Estate

A transfer of property with the retention of a life estate interest is treated as an uncompensated transfer.

To determine if a penalty is assessed and the length of the penalty, the Worker must compute the value of the transferred asset and of the life estate, then calculate the difference between the two.

- **Step 1:** To determine the value of the transferred asset, subtract any loans, mortgages or other encumbrances from the CMV of the transferred asset.
- **Step 2:** Determine the age of the life estate holder as of his last birthday and the life estate factor for that age found in Appendix A of this chapter. Multiply the CMV of the transferred asset by the life estate factor. This is the value of the life estate.
- **Step 3:** Subtract the Step 2 amount from the Step 1 amount. The result is the uncompensated value of the transfer.
- **Step 4:** Divide the Step 3 amount by 100% current federal poverty level (FPL) for the AG size. The result is the number of months the penalty covers.

5.7.2.E  Transfer to Purchase an Annuity

Establishment of an annuity is sometimes treated as a transfer of assets, depending on whether or not the annuity is actuarially sound. The average number of years of expected life remaining for the individual who benefits from the annuity must coincide with the life of the annuity for it to be actuarially sound and, thus, not treated as an uncompensated transfer of assets.

If the individual is not reasonably expected to live longer than the guarantee period of the annuity, the individual will not receive CMV. The annuity is not, then, actuarially sound and a transfer of assets for less than CMV has taken place.

The transfer is considered to have occurred at the time the annuity was purchased. Only the amount that is not actuarially sound is treated as an uncompensated transfer. Life Expectancy Tables are found in Chapter 24, Appendix D.
Annuity Example 1: A 30-year-old father who won $500,000 in the lottery, purchases a $500,000 annuity that is to be paid over 40 years. His life expectancy, according to Chapter 24, Appendix D, is 44.06 years. The annuity is actuarially sound so no transfer of resources has taken place.

Annuity Example 2: A 60-year-old grandmother, who is the caretaker for her grandchildren, requests to be included in the payment. She purchases a $50,000 annuity to be paid over 25 years. According to Chapter 24, Appendix D, her life expectancy is only 22.86 years. Therefore, the amount that will be paid out by the annuity for 2.14 years is considered an uncompensated transfer of assets that took place at the time the annuity was purchased.

5.7.2.F Transfer Penalty

The transfer of assets penalty is ineligibility for a WV WORKS payment.

5.7.2.F.1 Calculating Length of Penalty

The penalty period lasts for the number of whole months determined by the following calculation:

\[
\text{Total amount transferred during the look – back period} \times \frac{100\% \text{ of the current FPL for the AG size}}{}
\]

When the amount of the transfer is less than the FPL amount, no penalty is applied until a series of transfers totals more than the FPL amount.

The penalty runs continuously from the first day of the penalty period, whether or not the client continues to receive benefits.

There is no maximum or minimum number of months a penalty may be applied.

5.7.2.F.2 Start of the Penalty

The penalty period starts the month in which the asset is transferred, as long as that month does not occur in any other period of ineligibility due to a transfer of assets penalty. If the month the asset is transferred falls into another such penalty period, the penalty period begins the month after the previous penalty period ends.
When a single asset is transferred, or a number of assets are transferred at the same time, the penalty period is determined by adding together the total uncompensated value of the asset(s) and dividing as shown below. When resources are transferred at different times, the following general guidelines are used.

➢ **When Penalty Periods Would Overlap**

When assets have been transferred in amounts and/or frequency that would make the calculated penalty periods overlap, add together the value of all assets transferred, and divide by 100% FPL for the AG size. This produces a single penalty period that begins on the first day of the month in which the first transfer was made.

**Penalty Calculation Example:** An individual transfers $10,000 in January, $10,000 in February, and $10,000 in March. Calculated individually, based on a 100% FPL of $1,111 a month, the penalty for the first transfer is from January through September, the second is from February through October, and the third is from March through November. Because these periods overlap, the Worker must calculate the penalty periods by adding the transfers together (a total of $30,000) and dividing by the FPL ($1,111). The penalty period is 27 months, beginning in January.

➢ **When Penalty Periods Would Not Overlap**

When multiple transfers are made in such a way that the penalty periods for each would not overlap, the Worker must treat each transfer as a separate event, with its own penalty period. All penalties for transferred assets run consecutively.

**5.7.2.F.3 Who Is Affected by the Penalty**

The WV WORKS AG is affected by any transfer described above when any AG member, disqualified individual or any entity acting on behalf of, or at the discretion of, a member or a disqualified individual transfers an asset.

When the AG splits into two or more groups, the remaining penalty period is divided equally between the adults included in the WV WORKS benefit. A recording in each affected case must specifically explain the division of the penalty period.
Penalty Example 1: Mr. and Mrs. Birch received WV WORKS for themselves, Mrs. Birch’s 3 children from a previous marriage and Mr. Birch’s nephew. Mr. Birch transferred an asset for less than CMV, and a 10-month penalty was imposed from February through November. Mr. Birch leaves the home in April and Mrs. Birch reappllies for WV WORKS. Mrs. Birch continues to be ineligible.

However, because Mr. and Mrs. Birch no longer live together, they each carry one-half of the remaining penalty period with them. Mrs. Birch remains ineligible through July. There are eight months remaining in the penalty period. Both have already been ineligible as a unit for February and March. Mrs. Birch becomes ineligible beginning in April for four additional months. If Mr. Birch reappllies, he will also be determined ineligible through July. If the children begin living with other adults, no part of the transfer penalty follows them, unless they live in the home with Mr. and/or Mrs. Birch.

NOTE: When the number of months remaining in the penalty period does not divide evenly by the number of adults who were included in the AG, a portion of the appropriate 100% FPL is counted as income after the penalty months have been served.

Penalty Example 2: Same situation as in the above example except that seven months are remaining in the penalty period when Mr. Birch leaves. The AGs containing Mr. Birch and Mrs. Birch are both ineligible for three months. In addition, $1,373.50 (100% FPL = $2,747 ÷ 2) is counted as income for each of the adults in the fourth month.

5.7.2.G   Treatment of Jointly Owned Assets

Jointly owned assets include assets held by an individual in common with at least one other person by joint tenancy, tenancy in common, joint ownership or any similar arrangement. Such an asset is considered to be transferred by the individual when any action is taken, either by the individual or any other person who reduces or eliminates the individual’s ownership or control of the asset.

Under this policy, merely placing another person’s name on an account or asset as a joint owner might not constitute a transfer of assets, depending upon the specific circumstances involved. In such a situation, the client may still possess ownership rights to the account or asset and, thus, have the right to withdraw all of the funds at any time. The account, then, still belongs to the client.
However, actual withdrawal of funds from the account, or removal of all or part of the asset by another person, removes the funds or property from the control of the client, and, thus, is a transfer of assets. In addition, if placing another person's name on the account or asset actually limits the client's right to sell or otherwise dispose of it, the addition of the name constitutes a transfer of assets.

If either the client or the other person proves that the funds withdrawn were the sole property of the other person, the withdrawal does not result in a penalty.

5.7.3 MEDICAID

There is no transfer of assets penalty for Medicaid, except when a Medicaid client, who receives Medicaid under a coverage group that requires an asset test, applies for or receives long-term care services. See Chapter 24.

</table>
APPENDIX B: TREATMENT OF MEDICAID ASSETS PRIOR TO 8/11/93

Medicaid for Aid to Families with Dependent Children (AFDC) Recipients: A trust is treated as an asset to the extent that it is available to the client or for his benefit. Clauses included in a trust that limits the trustee's use of the funds (i.e., exculpatory clauses) are recognized and the amount of funds affected by such exculpatory clauses, excluded as an asset. Irrevocable trusts are also excluded, regardless of the amount. There is no penalty for the placement of funds in an irrevocable trust.

SSI-Related Medicaid Only: An irrevocable trust, i.e., a trust that is recognized by State law and cannot be legally revoked is excluded as an asset.

Any trust agreement that restricts the client's access to the trust funds (e.g., only the trustee or court, etc., can invade the principal), the principal does not count as an asset. This is true even when the trust arrangement: (a) can be revoked by someone other than the client; (b) provides a regular specified payment from the principal to the client for the use of the client; (c) designates a representative payee or legal guardian as the trustee for treatment of bank accounts that use the form of "in trust for". When payments are made to the client from the trust, these payments are counted as income and not an asset.

In general, if the client has unrestricted access to the principal of the trust, it is an asset.

Trusts containing exculpatory clauses are treated as if the exculpatory clauses were not contained in the trust. Exculpatory clauses are those that in any way limit the trustee's discretion to disburse funds for services or items covered by Medicaid or any other government aid or assistance program.

The following examples illustrate the type of clauses disregarded when examining a trust fund:

- It is the intention of the Grantor that no trust income or principal shall be paid to or be expended for the benefit of . . . so long as there are sufficient monies available to them for their care, comfort and welfare from federal, state and local government agencies and departments.

- It is the intention of the Grantor that in no event should trust income or principal be paid to or for the benefit of a governmental agency or department, and the trust estate shall at all times be free of the claims of such governmental bodies.

- The Trustee shall pay, apply, or expend so much of the net income and so much of the principal of the trust to or for the use and benefit of however, that such Trustee shall first take into consideration any other resources available to them including any benefits from federal, state, and local governmental agencies and departments.
• The authority of the Trustee to distribute income and principal is expressly restricted to purchasing goods and services that are not available free from any federal, state, and local government agencies and departments.
APPENDIX C: INDIAN LANDS AND TRUSTS EXCLUDED FROM INCOME AND ASSETS

C.1 PER CAPITA DISTRIBUTION PAYMENTS

- Indian Judgment Funds Distribution Act - Public Law (P.L.) 93-134
- Distribution of Indian Judgment Funds – P.L. 97-458

This includes interest and investment income accrued while funds are held in trust. Initial purchases made with distributed judgment funds are excluded from assets.

- Per Capita Act - P.L. 97-64

Local tribal funds (e.g., tribally managed gaming revenues) that have not been held in trust by the Secretary of the Interior are not excluded from income and assets under this provision.

- Distribution of Per Capita Funds - P.L. 85-794

Per capita payments to members of the Red Lake Band of Chippewa Indians from the proceeds of the sale of timber and lumber or the Red Lake Reservation.

- Distribution of Judgment Funds
  - P.L. 92-254 - Per capita distribution payments by the Blackfeet and Gros Ventre tribal governments to members that resulted from judgment funds to the tribes.
  - P.L. 94-189 - Sac and Fox Indian Nation members
  - P.L. 94-540 - Grand River Band of Ottawa Indians
  - P.L. 95-433 - Confederated Tribes and Bands of the Yakima Indian Nation or the Apache Tribe of the Mescalero Reservation
  - P.L. 96-318 - Delaware Tribe of Indians and the absentee Delaware Tribe of Western Oklahoma
  - P.L. 97-403 - Pembina Chippewa Indians (Turtle Mountain Band, Chippewa Cree Tribe, Minnesota Chippewa Tribe, and Little Shell Band of Chippewa Indians of Montana)
  - P.L. 97-408 - Gros Ventre and Assiniboine Tribes of Fort Belknap Indian Community, and the Papago Tribe of Arizona
C.2 JUDGEMENT FUNDS/LANDS HELD IN TRUST

- P.L. 97-458 - Distribution of Indian Judgment Funds

This includes interest and investment income accrued while funds are held in trust. Initial purchases made with distributed judgment funds are excluded from assets.

- P.L. 100-241 – Alaska Native Claims Settlement Act (ANCSA) An interest in a settlement trust is excluded from assets.

- P.L. 103-66 - Payments from Individual Interests in Trust or Restricted Lands

Interests of individual Indians in trust or restricted lands are excluded from assets.

- P.L. 94-189 - Distribution of Judgment Funds
Judgment funds held in trust for members of the Sac and Fox Indian Nation are excluded from income and assets.

- P.L. 94-540 - Distribution of Judgment Funds

Judgment funds and the availability of these funds, held in trust for members of the Grand River Band of Ottawa Indians are excluded from income and assets.

Funds held in trust for members of the Chippewas of Lake Superior and the Chippewas of the Mississippi are excluded from income and assets.

- P.L. 100-581 - Distribution of Judgment Funds

Judgment funds held in trust by the United States distributed to members of the Wisconsin Band of Potawatomi (Hannahville Indian Community and Forest County Potawatomi), including accruing interest and investment income of such funds, are excluded from income and assets.

- P.L. 101-277 - Distribution of Judgment Funds

Judgment funds and accruing interest and investment income held in trust for members of the Seminole Nation of Oklahoma, the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, and the independent Seminole Indians of Florida, and the availability of those funds are excluded from income and assets.

- P.L. 103-436 - Distribution of Settlement Funds

Settlement funds held in trust, including interest and investment income accruing on such funds, for members of the Confederated Tribes of the Colville Reservation under the Confederated Tribes of the Colville Reservation Grand Coulee Dam Settlement Act are excluded form income and assets.

C.3 DISTRIBUTION PAYMENTS, RECEIPTS, TRANSFERS, PAYMENTS, INCOME, INTEREST, LAND, AND FUNDS MADE AVAILABLE FOR PROGRAM

- P.L. 97-458 - Distribution of Indian Judgment Funds

Initial purchase made with distribution Indian judgment funds are excluded from resources.

- P.L. 100-241 – Alaska Native Claim Settlement Act (ANCSA)

Items excluded from income and resources when received from a native corporation:
Cash, including cash individuals or stock received from a native corporation to the extent it does not exceed $2,000/individual/year

Stock, including stock issued or distributed by a native corporation as a dividend or distribution on stock

A partnership interest

Land or an interest in land, including land or an interest in land received from a native corporation as a dividend or distribution on stock

Up to $2,000 in retained distributions from a native corporation may be excluded from assets for each year.

- P.L. 103-66 – Payments from Individual Interests in Trust or Restricted Lands

Up to $2,000/year received by Indians that is derived from restricted lands is excluded income.

Interest of individual Indians in restricted lands is excluded from assets.

- P.L. 93-531 and P.L. 96-305 – Settlement Fund Payments

Settlement fund payments to members of the Hopi and Navajo Tribes, and the availability of such funds, are excluded from income and assets.

- P.L. 94-114 – Receipts from Lands Held in Trust for Indian Tribes

Receipts derived from the following trust lands and distributed to members of designated Indian tribes are excluded from income and assets.

- **P.L. 95-498 - Receipts from Lands Held in Trust**

Receipts derived from trust lands awarded to the Pueblo of Santa Ana and distributed to members of that tribe are excluded from income and assets.

- **P.L. 95-499 - Receipts from Lands Held in Trust**

Receipts derived from trust lands awarded to the Pueblo of Zia and distributed to members of that tribe are excluded from income and assets.

- **P.L. 96-318 - Distributed of Judgment Funds**

Any judgment funds made available for programs for members of the Delaware Tribe of Indians and the absentee Delaware Tribe of Western Oklahoma are excluded from income and assets.

- **P.L. 96-420 - Maine Indians Claims Settlement Act (MICS)**

All funds and distributions to members of the Passamaquoddy Tribe, the Penobscot Nation, and the Houlton Band of Maliseet Indians under the Maine Indian Claims Settlement Act, and the availability of such funds, are excluded from income and assets.

- **P.L. 97-95 - Distribution of Judgment Funds**

Any distribution of judgment funds to members of the San Carlos Tribe of Arizona are excluded from income and assets.

- **P.L. 97-371 - Distribution of Judgment Funds**

Any distribution of judgment funds to members of the Wyandot Tribe of Indians of Oklahoma are excluded from income and assets.

- **P.L. 97-372 - Distribution of Judgment Funds**
Any distribution of judgment funds to members of the Shawnee Tribe of Indians (absentee Shawnee Tribe of Oklahoma, the Eastern Shawnee Tribe of Oklahoma, and the Cherokee Band Shawnee descendants) are excluded from income and assets.

- P.L. 97-376 - Distribution of Judgment Funds

Judgment funds made available for programs for members of the Miami Tribe of Oklahoma and the Miami Indians of Indiana are excluded from income and assets.

- P.L. 97-402 - Distribution of Judgment Funds

Distribution of judgment funds to members of the Clallam Tribe of Indians of the State of Washington (Port Gamble Indian Community, Lower Elwha Tribal Community, and the Jamestown Band of Clallam Indians) are excluded from income and assets.

- P.L. 97-403 - Distribution of Judgment Funds

Judgment funds made available for programs for members of the Pembina Chippewa Indians (Turtle Mountain Band, Chippewa Cree Tribe, Minnesota Chippewa Tribe, and Little Shell Band of Chippewa Indians of Montana) are excluded from income and assets.

- P.L. 98-123 - Distribution of Judgment Funds

Judgment funds distributed to the Red Lake Band of Chippewa Indians are excluded from income and assets.

- P.L. 98-124 - Distribution of Judgment Funds

Family interest payments for members of the Assiniboine Tribe of the Fort Belknap Indian Community of Montana and the Assiniboine Tribe of the Fort Peck Indian Reservation of Montana are excluded from income and assets.

- P.L. 98-432 - Distribution of Claims Settlement Funds

Judgment funds and income therefrom distributed to members of the Shoalwater Bay Indian Tribe are excluded from income and assets.

- P.L. 98-500 - Distribution of Claims Settlement Funds

All distributions to heirs of certain deceased Indians under the Old Age Assistance Claims Settlement Act are excluded from income and assets.

- P.L. 98-602 - Distribution of Judgment Funds

Judgment funds made available for any tribal program for members of the Wyandotte Tribe of Oklahoma and the Absentee Wyandottes are excluded from income and assets.
• P.L. 99-130 - Distribution of Judgment Funds

Dividend payment distributions of judgment funds to members of the Santee Sioux Tribe of Nebraska, the Flandreau Santee Sioux Tribe, and the Prairie Island Sioux, Lower Sioux, and Shakopee Mdewakanton Sioux Communities of Minnesota are Band of Chippewa Indians of Montana) are excluded from income and assets.

• P.L. 99-264 - Distribution of Claims Settlement Funds

Distributions of claims settlement funds to members of the White Earth Band Chippewa Indians as allottees, or their heirs, are excluded from income and assets.

• P.L. 99-346 - Distribution of Judgment Funds

Payments or distributions of judgment funds, and the availability of any amount for such payments or distributions, to members of the Saginaw Chippewa Indian Tribe of Michigan are excluded from income and assets.

• P.L. 100-139 - Distribution of Judgment Funds

Judgment funds distributed to members of the Cow Creek Band of Umpqua Tribe of Indians are excluded from income and assets.

• P.L. 100-581 - Distribution of Judgment Funds

Judgment funds made available for programs to members of the Wisconsin Band of Potawatomi (Hannahville Indian Community and Forest County Potawatomi) are excluded from income and assets.

• P.L. 101-41 - Distribution of Money and Land

All funds, assets, and income from the trust fund transferred to members of the Puyallup Tribe under the Puyallup Tribe of Indians Settlement Act of 1989 are excluded from income and assets.

• P.L. 101-277 - Distribution of Judgment Funds

Judgment funds made available for programs for members of the Seminole Nation of Oklahoma, the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, and the independent Seminole Indians of Florida are excluded from income and assets.

• P.L. 101-503 - Distribution of Settlement Funds

Payments, funds, distributions or income derived from these sources under the Seneca Nation Settlement Act of 1990 are excluded from income and assets.
• P.L. 103-116 - Distribution of Settlement Funds

Settlement funds, assets, income, payments, or distributions from Trust Funds to members of the Catawba Indian Tribe under the Catawba Indian Tribe of South Carolina Land Claims Settlement Act of 1993 are excluded from income and assets.

• P.L. 103-444 - Distribution of Settlement Funds

Payments made or benefits granted by the Crow Boundary Settlement Act of 1994 are excluded from income and assets.

---

C.4 PROCEDURES

If there is an allegation or other indication that an individual received excluded judgment funds or settlement fund distributions, per capita payments, land or receipts from land, follow these procedures.

C.4.1 Verification of Tribe Membership

As necessary, verify that the individual is a member of the relevant tribe by contact with the Board of Indian Affairs (BIA) or tribal authorities or use of a precedent file.

C.4.2 Payment/Distribution Development

Develop the identity and the amount of excludable payment or distribution by contact with BIA or tribal authorities or use of a precedent file. Trust Property Income (TPI) reports may also be available from BIA, which list to whom restricted individual Indian property is assigned, and show if lease is grazing right payments are not paid through BIA or the tribe. If land is distributed, identify the location of the land as reported by deed or other legal conveyance. Additional contacts with the Bureau of Land Management may be necessary to develop land information.
C.4.3 Documentation

Document the case file by using the method or methods below as needed:

- A report of contact for verifications made over the phone with the tribal authorities or the BIA area office.
- An income report or comparable document from the BIA, the tribe’s governing body, or its official financial representative.
- A signed statement from tribal authorities, the BIA area offices, or the Bureau of Land Management.
- A copy of pertinent local precedent.

6.1 INTRODUCTION

There are two main electronic sources that provide verifications to the Department of Health and Human Resources (DHHR). These are the Federal Data Hub (the Hub) and the Income and Eligibility Verification System (IEVS). The IEVS is a computerized information system that performs data matches against several agency databases to verify certain types of income and/or assets. The information provided by these two main sources overlaps in some areas. The Worker accesses all information through the eligibility system.

In general, the two sources are used in the following ways:

- When the Worker evaluates for Medicaid eligibility, he tests for Modified Adjusted Gross Income (MAGI) coverage groups first. That requires a check of results primarily from the Hub.
- If the test fails for a MAGI coverage group, the Worker evaluates for Non-MAGI coverage groups, which uses data exchange information from IEVS.
- Data exchange information available at both application and review may also be used by the Worker to evaluate discrepancies in the client’s statement when it disagrees with Hub data.
- For determination of eligibility for benefits other than MAGI Medicaid, Hub data may be used only if it was obtained when trying to determine MAGI Medicaid eligibility. Otherwise, it is not used. It is never used to determine Supplemental Nutrition Assistance Program (SNAP) benefits.

6.1.1 FEDERAL DATA HUB

The Federal Data Hub is the primary source the Worker uses to verify reported information for MAGI Medicaid and the West Virginia Children’s Health Insurance Program (WVCHIP). When no information is returned from the Hub or when discrepancies exist that are not reasonably compatible, the Worker must utilize all sources available before requesting verification from the client. See Section 7.2.

An electronic data match with the Hub will be triggered when eligibility is being determined for MAGI Medicaid or WVCHIP. When no one in the case is found eligible for MAGI Medicaid or WVCHIP, information returned by the Hub is not used for eligibility purposes for other programs.

NOTE: The Federally Facilitated Marketplace (FFM) utilizes the same Federal Data Hub used by the DHHR.
6.1.2 IEVS DATA EXCHANGES

The IEVS provides the DHHR with additional sources of information for use in determining eligibility and the amount of the benefit for applicants and clients. This information is provided to the Worker through data exchanges.

Through the eligibility system, DHHR staff receive information obtained through data exchanges with other governmental agencies. The IEVS procedures ensure that appropriate Internal Revenue Service (IRS) privacy and procedural safeguards are applied in the use of the information. The same precautions with privacy and procedural safeguards apply to information received through the Federal Data Hub.

Information obtained through IEVS is used for the following purposes:

- To verify the eligibility of the assistance group (AG)
- To verify the proper amount of benefits
- To determine if the AG received benefits to which it was not entitled
- To obtain information for use in criminal or civil prosecution based on receipt of benefits to which the AG was not entitled. Federal regulations require use of the following data exchanges that are provided using the IEVS:
  - WorkForce West Virginia – Wage and unemployment compensation information (UCI) data is available.
  - Internal Revenue Service (IRS) – Unearned income data is available.
  - Social Security Administration (SSA) – Retirement, Survivors and Disability Income (RSDI), Supplemental Security Income (SSI), and net earnings from self-employment data are available.

The Social Security Number (SSN) of each applicant and client of SNAP benefits, WV WORKS, and Medicaid is used to obtain IEVS information.

A data exchange in the eligibility system occurs:

- When a new case is created;
- When a new person is added to a benefit;
- When a person’s demographic information is changed; and,

NOTE: Federal Medicaid regulations require the utilization of the following IEVS data sources when nothing is returned from the Hub or when discrepancies exist that are not reasonably compatible: WorkForce WV, IRS and SSA.
• On a periodic basis for all individuals in the eligibility system, depending on the type of benefit being received

The Worker must check eligibility system information as to the availability of data exchange information. In some instances, but not all, the eligibility system sends an alert to the Worker.
6.2 STATE DATA EXCHANGES

6.2.1 WORKFORCE WEST VIRGINIA

6.2.1.A Wage Information

Wage information is available around the fifth working day of each quarter for the previous quarter. Information received includes:

- Employer name and address;
- Dates of employment; and
- Wages for individuals whose actual earnings are $225 or greater per quarter than the income used for the assistance group (AG) for the same quarter.

This information is not considered verified upon receipt for Supplemental Nutrition Assistance Program (SNAP) and is subject to independent verification for all programs.

NOTE: Workforce WV wage information is obtained electronically by the data system in real-time for Medicaid and WVCHIP applications and reviews. The Worker does not need to manually check Workforce WV wage information at initial application or review for Medicaid and WVCHIP. The reasonable compatibility process described in Section 7.2.5 is applied automatically by the data system to Workforce WV wage information.

6.2.1.B Unemployment Compensation Income (UCI)

UCI information is available around the third working day of each month. Information received includes unemployment and low-earnings benefits.

This information is considered verified upon receipt for SNAP and is not subject to independent verification for any program.
6.2.2 OFFICE OF CHILDREN AND ADULT SERVICES

6.2.2.A Provider Income

Provider income information is available the first working day after the second Friday of each month. Information received includes adoption, foster care, day care, and demand payments for the previous month.

This information is considered verified upon receipt for SNAP and is not subject to independent verification for all programs.

6.2.2.B Client Detail

The adult and child information is available around the tenth calendar day of each month. Information received includes:

- Client income;
- Assets;
- Placement;
- Demographics; and,
- Address.

This information is considered verified upon receipt for SNAP and is not subject to independent verification for all programs.

6.2.3 BUREAU FOR CHILD SUPPORT ENFORCEMENT (BCSE)

New hire information is available each Monday. Information received includes:

- Names and addresses of employers, and
- Start and end dates of employment.
BCSE collects the new hire information from employers. Employers do not report consistently, and even when they do provide information, the information may include applicants who were never hired.

The Worker must follow up on this information, as it is not considered verified upon receipt. It is considered information from a third-party source for SNAP and is subject to independent verification for all programs.
6.3 FEDERAL DATA EXCHANGES

Regulations require that the Department of Health and Human Resources (DHHR) take the necessary steps to safeguard information received from data exchanges with the Internal Revenue Service (IRS), Prisoner Match, the Beneficiary and Earnings Data Exchange (BENDEX), and the Beneficiary Earnings Exchange Record System (BEERS) by restricting access to it. See Section 6.4.

For individuals applying for MAGI Medicaid and WVCHIP, the primary data source used by the Worker is the Hub. When the Hub returns no information or when discrepancies exist between an individual’s self-attestation and Hub information, the Worker seeks verification from other electronic sources including those listed below. The reasonable compatibility provision applies to financial information. See Section 7.2.5.

6.3.1 DEPARTMENT OF HOMELAND SECURITY

Through the Federal Data Hub Systematic Alien Verification for Entitlements (SAVE), information related to citizenship/immigration may be returned.

6.3.2 INTERNAL REVENUE SERVICE (IRS)

The Affordable Care Act (ACA) provides specific authority at Internal Revenue Code (IRC) Sec. 6103(l)(21) for the IRS to provide individual tax information for use in determining eligibility for MAGI Medicaid and WVCHIP through the Federal Data Hub. This IRS information may include:

- The taxpayer identity;
- Filing status;
- Family size;
- Modified Adjusted Gross Income (MAGI); and
- The tax year to which any such information relates, or that no information is available.

Through the federal data exchange that is used in place of the Hub for programs other than MAGI Medicaid and WVCHIP, the IRS unearned interest income is available on or around the 15th of each month. Information received includes:

- Asset and income information reported to IRS;
- Income type;
• Payee name; and
• Income amount.

This information is not considered verified upon receipt for Supplemental Nutrition Assistance Program (SNAP) and is subject to independent verification for all programs.

The IRS information received is subject to the special procedural requirements in this chapter.

### 6.3.3 PUBLIC ASSISTANCE REPORTING INFORMATION SYSTEM (PARIS)

The PARIS data match occurs quarterly. There are three types of PARIS matches on income and medical benefits: Federal, Interstate and Veterans Affairs. PARIS conducts matches on income and health coverage information. Verification is received through data exchange and is compared to the information in the case record. The client’s Social Security Number (SSN) is used to retrieve the information.

#### 6.3.3.A Federal Match

A return on this match is initiated from the Department of Defense (DoD) and the Office of Personnel Management (OPM). The match indicates an individual is receiving income, and includes records for active and retired federal civilian and military personnel. Healthcare coverage eligibility is also available in the federal match (civilian health coverage or TriCare, formerly Civilian Health and Medical Program of the Uniformed Services [CHAMPUS]).

#### 6.3.3.B Interstate Match

A return on this match indicates an individual is enrolled for benefits in two or more states. Automatic disenrollment for the West Virginia program occurs for the matched individuals. If the individual is the primary person in the entire case, it will close.
6.3.3.C Veterans Affairs (VA) Match

A return on this match indicates an individual is receiving income and/or medical assistance payments from VA. Compensation and pension data are provided along with third-party liability information.

The process is administered by the Office of Inspector General’s (OIG) Investigations and Fraud Management Unit. When the OIG determines Worker action is necessary, it will notify the Worker. Workers have access to the Federal and VA match directly and must follow up on information obtained. The information received is considered verified upon receipt. The Worker has 10 days to take the action specified.

6.3.4 SOCIAL SECURITY ADMINISTRATION (SSA)

Through the Federal Data Hub, the SSN is considered verified for MAGI Medicaid and WVCHIP. Other information received from the Hub may be:

- Citizenship;
- Identity status;
- Incarceration data; and
- Receipt of Title II Social Security income.

Through data exchange, SSA provides the DHHR with information on:

- Pensions;
- Earnings;
- Net earnings from self-employment;
- Retirement, Survivors and Disability Insurance (RSDI);
- Supplemental Security Income (SSI); and
- Other related benefit information received through SSA.

When the data exchange received through SSA indicates that an individual is deceased, the worker must follow up on this information. If the data exchange indicating an individual is deceased cannot be independently verified, then the Worker must follow up on this information by sending a verification checklist to the SNAP assistance group. If the assistance group does not respond or fails to supply sufficient information, then the Worker shall remove the individual
found in the SSA match from the SNAP assistance group after proper notice. If the case is closed due to the client not providing verification that the client is still alive, the case must be reopened without a new application if, during the first calendar month following the closure, the client provides verification that re-establishes eligibility. The SNAP benefits would be prorated from the date the client returns the required information demonstrating the client is not deceased.

6.3.4.A System Generated

6.3.4.A.1 Beneficiary and Earnings Data Exchange (BENDEX)

The BENDEX data exchange occurs daily. Information received includes RSDI amounts and Medicare eligibility and premiums.

This information is considered verified upon receipt for SNAP and is not subject to independent verification for any program.

Data exchanges include discrepancies between the eligibility system and SSA files and individuals who may also be receiving benefits in another state.

6.3.4.A.2 Beneficiary Earnings and Exchange Record System (BEERS)

The BEERS wage-match data exchange occurs daily. Information received includes:

- Wages;
- Pensions; and
- Self-employment income.

West Virginia employment is not included in this match. See Section 6.2 for this data exchange.

This information is not considered verified upon receipt for SNAP and is subject to independent verification for all programs.

6.3.4.A.3 Social Security Number (SSN) Verification Details
Verified SSNs are automatically indicated in the eligibility system daily. Errors are identified and detailed information is available to the Worker in the eligibility system.

This information is considered verified upon receipt for all programs and is not subject to independent verification.

6.3.4.A.4  **State Data Exchange (SDX)**

- **SDX to Open a Medicaid Application**

This match identifies individuals who receive SSI, but who do not receive Medicaid, or who must be enrolled in a different Medicaid coverage group as a result of their SSI eligibility.

- **SDX to Evaluate Alternate Medicaid Eligibility**

This match identifies individuals whose SSI is being terminated, suspended, or closed. When SSI Medicaid is closed based on this information, the assistance group (AG) must be evaluated for all other Medicaid coverage groups. The match will also indicate whether the individual is eligible for Deemed SSI coverage groups, which guides the Worker’s evaluation of eligibility for other coverage groups. See Section 10.14.

- **SDX Change**

This match identifies individuals who have had a change in their benefit amounts, payee name, or addresses.

State Data Exchange (SDX) information is considered verified upon receipt for all programs and is not subject to independent verification.

6.3.4.A.5  **Forty (40) Qualifying Quarters of Coverage Data Exchange**

See Section 15.4 for the Alien Qualifying Quarters policy.

The Qualifying Quarters data exchange occurs daily. Information is automatically requested for persons included in the AG whose work quarters can be counted. The Worker must initiate requests for persons who are not in the AG, but whose work history can be used to qualify the alien for SNAP benefits.
This information is considered verified upon receipt for SNAP and is not subject to independent verification.

6.3.4.A.6  Prisoner Match Data Exchange

The Prisoner Match is available around the third working day of each month. Information received from federal and state prisons may include:

- Length of detention;
- Correctional facility name; and
- Release date.

When disclosure is prohibited by SSA, no details are provided.

This information is not considered verified upon receipt for any program and is subject to independent verification for all programs. The Worker must not take any action based only on the data received from this source.

The Worker requests verification of the information through the prison system if the prison is identified. The verification request must clearly explain the information the Worker has and allow 30 calendar days for a response.

If the prison is not identified or if the Prisoner Match cannot be independently verified, then the Worker must send a verification checklist to the SNAP assistance group requesting information related to the data exchange. If the assistance group does not respond or fails to supply sufficient information, then the Worker shall remove the individual found in the prisoner match from the SNAP assistance group after proper notice.

6.3.4.A.7  State Verification Exchange System (SVES)

Information about new applicants for Medicaid and WVCHIP is submitted to SSA through SVES. A response from SSA confirms whether or not the data submitted by the State is consistent with SSA data regarding citizenship. An alert will generate on a daily basis to inform the Worker if citizenship is inconsistent with SSA data.
6.3.4.B Worker Requested Verification – State On-Line Query (SOLQ)

SOLQ provides direct access to SSA’s databases. The Worker must initially use the Hub for evaluating eligibility for MAGI Medicaid and WVCHIP coverage groups, the Income and Eligibility Verification System (IEVS) data exchange for all other programs, and SOLQ last. Information received includes SSN verification, as well as SSI and RSDI details. Requests can be made only for individuals known to the eligibility system within the previous five years.

This information is considered verified upon receipt for SNAP, and is not subject to independent verification.

6.3.5 NATIONAL DIRECTORY OF NEW HIRES

Through a monthly data exchange, the National Directory of New Hires provides unverified employment information. This information must be reviewed before determining eligibility for SNAP at application and review.

This information is not considered verified upon receipt for SNAP and is subject to independent verification.

NOTE: The National Directory of New Hires is not used for Medicaid unless the Worker takes action on SNAP or Temporary Assistance for Needy Families (TANF) based on verified information from the National Directory of New Hires. The resulting information must be acted on for Medicaid purposes as SNAP or TANF data.

6.3.6 ASSET VERIFICATION SYSTEM (AVS)

The Asset Verification System (AVS) must be used to verify assets for Medicaid applicants and clients who qualify based on being aged, blind or disabled.

NOTE: The eligibility process is not delayed for AVS verification when the client verified the appropriate reported assets.
These categories include:

<table>
<thead>
<tr>
<th>Aged, Blind, Disabled Medicaid</th>
<th>Long Term Care Medicaid</th>
<th>Medicare Premium Assistance</th>
</tr>
</thead>
<tbody>
<tr>
<td>• SSI-Related (Spenddown)</td>
<td>• Nursing Facility Group</td>
<td>• Qualified Medicare Beneficiary</td>
</tr>
<tr>
<td>• SSI-Related/Non-Cash Assistance</td>
<td>• SSI-Related/Monthly Spenddown Group</td>
<td>• Specified Low Income Medicare Beneficiary</td>
</tr>
<tr>
<td>• M-WIN</td>
<td>• Intermediate Care Facility/Individuals with Intellectual Disability</td>
<td>• Qualified Individual</td>
</tr>
<tr>
<td></td>
<td>• Traumatic Brain Injury Waiver</td>
<td>• Qualified Disabled Working Individuals</td>
</tr>
<tr>
<td></td>
<td>• Aged and Disabled Waiver</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Intellectual/Developmental Disability Waiver</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Children with Disabilities Community Service Program</td>
<td></td>
</tr>
</tbody>
</table>

AVS is used at initial application, redetermination and a client reported change during the certification period. AVS must not be accessed at any other time, or for any Medicaid category not listed above.

Authorization to use AVS to verify assets is a condition of eligibility for Medicaid and is part of the Rights and Responsibilities. Failure to give consent and authorize the release of information results in Medicaid denial/closure.

Bank account information received from the AVS is considered verified for the Medicaid program. However, when information received in the AVS results in ineligibility, the client must be afforded the opportunity to rebut the AVS information prior to any negative case action.

Real property and vehicle information received from AVS is not considered verified for the Medicaid program and will require the worker to follow-up with the client to verify the availability and value of the asset if this has not already been provided by the client.
6.4 SPECIAL REQUIREMENTS FOR SAFEGUARDING INFORMATION

Income and Eligibility Verification System (IEVS) regulations mandate specific requirements for safeguarding Internal Revenue Service (IRS) information, as outlined below.

6.4.1 EMPLOYEE AWARENESS

As with all information obtained about applicants and clients, all Department of Health and Human Resources (DHHR) staff must hold Internal Revenue Service (IRS) data confidential. Additionally, the IRS Code requires that all employees who have access to IRS data be informed of all the penalties for unauthorized disclosure of IRS data.

The Supervisor must provide each Worker with a copy of the applicable sections of the IRS Code. In addition, the Worker must sign form DFA-IE-01, IRS Disclosure Notice Log, to indicate he received the IRS Code Notices. IRS Code Notices are found in Appendices B and C.

6.4.2 EMPLOYEE TRAINING

In addition to employee awareness, new Worker training must include IRS safeguards/security procedures and penalties for unauthorized disclosure of IRS data. Training will include testing and exercises that measure Worker knowledge of the requirement to report improper inspection and/or disclosure of Federal Tax Information (FTI). Annually, all tenured DHHR Workers with IRS access will complete the Bureau of Children and Families Information, Technology and Training (BCF-ITT-FA) 301 IRS Web Ct course with an 80% score or higher, print the course certificate, endorse it, and give it to their Supervisor. Certificates are retained in the local office for tracking and monitoring compliance with the IRS requirements.

6.4.3 CLIENT NOTICE OF IEVS REQUIREMENTS

All applicants and clients must be notified in writing of the IEVS requirements and the use of information obtained through IEVS. A statement is included in the Rights and Responsibilities Form (DFA-RR-1).
6.4.4 INDEPENDENT VERIFICATION

Independent verification is necessary in some situations, depending upon the program and the source of information (i.e., any data exchange that is not considered “verified upon receipt”). Independent verification is used if there is a discrepancy between information reported by the IEVS sources and that reported by the client.

The Worker must not take any case action based only on IRS and/or Prisoner Match data until the following information has been independently verified:

- The amount of the income or asset involved;
- If the client actually has, or had, access to the income or asset; and
- The time period(s) when the individual had the income or asset.

The Worker may request the independent verification by requesting that the client obtain information from the financial institution or source of the unearned income/asset. The Worker uses form DFA-6, Request for Additional Information, the eligibility system verification checklist, to request that the client obtain the information. The information may be requested by letter directly from the financial institution or source of the income/asset.

Any correspondence to the client, financial institution, community partner, or other income/asset source that contains the IRS-provided information must be safeguarded according to the procedures in Safeguarding Information, below. All DHHR staff are subject to the same IRS safeguards regardless of performing their duties in a DHHR-sanctioned work site, an out-stationed work site, or other alternative work site. Verification provided separately from the financial institution or income/asset source from its own records, which does not contain any of the IRS-provided information, is independently verified only and does not require the safeguarding procedures in Safeguarding Information, below.

Independent Verification Example 1: The Worker receives IRS information about interest on a bank account and completes a DFA-6 or eligibility system request for verification. The verification request contains all the information obtained from the IRS report. The client takes the verification request to the bank and a bank official records that the bank records indicate the same information as the IRS, and signs the verification request. The client returns this information to the Worker. Because the IRS-provided information is still shown on the returned verification, it is subject to the safeguarding procedures in Safeguarding Information, below.

Independent Verification Example 2: Same situation as the previous example, but the bank official provides and signs a printout from the bank that details the
account and all transactions for the last three years. The client returns only the bank printout to the Worker. The bank printout is considered independent verification only and is not subject to safeguard procedures.

6.4.5 SAFEGUARDING INFORMATION

IRS, Prisoner Match, Beneficiary and Earnings Data Exchange (BENDEX), and Beneficiary Earnings Exchange Record System (BEERS) regulations require that the DHHR take the necessary steps to safeguard the data by restricting access. The following safeguards apply DHHR-wide and to staff performing their duties in a DHHR-sanctioned work site, an out-stationed work site, or other alternative work site. Only those Workers/Supervisors who have been assigned to the case are permitted access. User information is tracked in the eligibility system.

The following procedures apply to all sources of FTI, not just information provided through IEVS, and include all documentation provided by the client or on his behalf that includes FTI.

6.4.5.A Paper, Electronic, and Facsimile Documents

FTI is never to be faxed or sent electronically.

The Data Incident Report for Improper Inspection and/or Disclosure of FTI (DFA-FTI-1) coversheet must be attached to all case files that contain FTI to ensure that only authorized personnel view FTI.

Paper documents, such as screen prints from the eligibility system or any documents—such as, but not limited to, requests that are sent to financial institutions and, when returned, contain IRS information as described in Section 6.4.3 above—must be destroyed by shredding. If the office does not have access to a shredder, the documents are sent to the Division of Family Assistance (DFA) for shredding. Prior to disposal, all printed documents must be maintained in a locked file cabinet to which only a Supervisor has access.

All file cabinets that contain FTI and FTI Data Incident Reports must be labeled. Labels are available upon request from the DFA. All hard copies of FTI must be removed from the case record before archiving.
Any violation related to improper inspection and/or disclosure of FTI must be reported immediately, but no later than 24 hours after discovery, to the staff’s Supervisor, who will follow the guidelines in Appendix A for contact and/or reporting information.

6.4.5.B IRS Safeguard Log

The local office must designate an IRS Safeguard Manager to maintain the IRS Safeguard Log. Paper documents of eligibility system screen prints, electronic mail, or facsimiles must be attached to an IRS Safeguard Log, DFA-IE-02. These log sheets provide a format in which to record:

- The date received,
- Document description,
- Employee signature, supervisor signature, and
- Distribution date.

The IRS Safeguard Log is returned to the Safeguard Manager, who maintains a record of the Log sheets and documents the destruction of all safeguarded documents. The Safeguard Manager then signs and files the documents.

NOTE: IRS, Prisoner Match, BENDEX, and BEERS information in the eligibility system must not be routinely printed. However, if it is necessary to print a screen that contains FTI or Prisoner Match information, the office must comply with the safeguard instructions for the destruction of printed documents. The document must also be secured as stated in Paper, Electronic, and Facsimile Documents, above.
6.5 REQUEST AND USE OF INFORMATION

The following describes the method of matching Income and Eligibility Verification System (IEVS) information and the Worker's responsibilities.

The Worker evaluates the Department of Health and Human Resource's (DHHR) data exchanges for Medicaid and the West Virginia Children’s Health Insurance Program (WVCHIP). Workers must utilize all electronic and other sources available before requesting verification from the client.

6.5.1 APPLICANTS

The DHHR requests IEVS information on all applicants for Supplemental Nutrition Assistance Program (SNAP), Medicaid, WVCHIP, and WV WORKS programs. IEVS regulations apply only to those Supplemental Security Income (SSI) recipients who receive SNAP benefits.

Information received must be used in determining eligibility and/or the amount of the benefit, if the information is received before the client is notified of the action on his application. If the information is received after client notification, it must be used within the time limit explained below in Section 6.5.2 and according to policy for the specific benefits received.

The DHHR must not delay action on the application solely because IEVS information has not been received, unless the information reported by the applicant is questionable. The time limit for acting on applications is not extended for situations that involve IEVS.

6.5.2 CLIENTS

The Worker receives information about clients through the eligibility system data exchange.

The Worker must act on the information within 10 days of the date it is received to ensure action is completed within 45 days of receipt. This means that within 45 days, the Worker must send notification to the client or make an entry in the case record that no action is necessary.

- **SNAP-Only**: Action does not have to be initiated within 10 days; however, the action must be completed within 45 days of receipt.
6.5.3.3 SPECIAL REQUIREMENTS FOR DISCLOSING CERTAIN DATA RECEIVED FROM THE FEDERAL DATA HUB

6.5.3.A Disclosure of Data Obtained From the Federal Data Hub at Application

The following data received via the Federal Data Hub must not be disclosed to an application filer, or an individual who is identified on the application as assisting the application filer (agent, broker, certified application counselor, in-person assistor, or Navigator) during the application process:

- Federal Tax Information (FTI) obtained from the IRS
- Title II SSA income benefits (Retirement, Survivors and Disability Insurance – RSDI) obtained from the Social Security Administration (SSA)
- The number of quarters of coverage obtained from SSA
- Current income data obtained from Equifax Workforce Solutions

Such information will be disclosed only to the requesting Marketplace, Medicaid, or CHIP agency. The data will be used by those entities for the purposes of conducting verifications, and in the eligibility determination process; the data must be safeguarded in accordance with applicable regulations and Internal Revenue Service (IRS) publication 1075 (for FTI).

A receiving entity may not disclose such data received via the Hub on an eligibility notice, or in response to a customer service inquiry.
6.5.3.B Customer Service Inquiries

If an application filer contacts the Marketplace, Medicaid, or CHIP agency and requests information obtained via the Hub regarding FTI, Title II SSA income benefits, the number of quarters of coverage obtained from SSA, or current income data obtained from Equifax Workforce Solutions, which was used in processing his or her application, the DHHR will explain how to resolve any open verification issue, if appropriate, but may not provide the underlying data. The Worker must inform the applicant that reported information could not be electronically verified and notify the applicant of information or verification he must supply to establish eligibility.

If the applicant is still interested in information obtained via the Hub that was used in processing his or her application, then the Marketplace, Medicaid, or CHIP agency should provide instructions to the applicant on how to locate the data in tax and Social Security benefit documents he already has, or how to interact directly with the IRS or SSA. The agency should also direct such an individual to Equifax Workforce Solutions to obtain the source information, if necessary.

6.5.3.C Eligibility Appeals

If an individual appeals his or her eligibility determination and needs access to FTI, Title II SSA income benefits, the number of quarters of coverage obtained from SSA, or current income data obtained from Equifax Workforce Solutions, then the Marketplace, Medicaid, or CHIP agency will collect a handwritten signature (either an original or a copy) from the adult application filer to authorize the disclosure. If an application includes more than one tax household, the agency will collect handwritten signatures from every adult listed on the application to authorize the disclosure. These signatures can be mailed or uploaded to the Marketplace, Medicaid, or CHIP agency, or sent via facsimile.

6.5.3.D Data That May Be Disclosed

Any information provided on an application by an application filer may be displayed as part of the application, eligibility notice, and electronic account. Income and household size as a percentage of the federal poverty level (FPL), which is calculated by the Marketplace, Medicaid, or CHIP agency based on multiple sources of data, may be disclosed as part of the eligibility and enrollment process.
APPENDIX A: IMPORTANT NOTICE

THESE PROVISIONS APPLY TO ALL DEPARTMENT OF HEALTH AND HUMAN RESOURCES (DHHR) STAFF WITH ACCESS TO IRS INFORMATION

IMPORTANT NOTICE

The Deficit Reduction Act of 1984 mandates that each state develop and implement an Income and Eligibility System (IEVS) to make accurate eligibility determinations and benefit payments by exchanging information with other agencies and by obtaining unearned income data from the Internal Revenue Service (IRS).

As with all information obtained by the DHHR, the agency is required to ensure the confidentiality of the information and restrict its use to the administration of the appropriate programs.

However, additionally, the IEVS regulations mandate that each employee having access to IRS information be informed of the IRS safeguarding/security requirements and penalties for unauthorized disclosure.

Appendix B contains information from the Internal Revenue Code (IRC) relating to unauthorized disclosure and damages for unauthorized disclosure. Please read Section 7213 in Appendix B and Section 7431 in Appendix C carefully.

Provisions of IRC Section 7213 make unauthorized disclosure of federal returns or return information a crime that may be punishable by a $5,000 fine, five (5) years imprisonment, or both.

In addition, provisions of IRC Section 7431 permit a taxpayer to bring suit for civil damages in a United States district court for unauthorized disclosure of returns and return information. This section allows for punitive damages in case of willful disclosure or gross negligence, as well as the cost of action.

These civil and criminal penalties apply even if the unauthorized disclosures were made after employment with the agency is terminated.

Any violation related to improper inspection and/or disclosure of Federal Tax Information (FTI) must be reported to the staff’s Supervisor. Both physical and electronic violations must be reported. The Supervisor or the office’s designee completes an incident report using form Data Incident Report for Improper Inspection and/or Disclosure of FTI (DFA-FTI-1). The breached FTI information is not submitted with the report. The form and any other attachments are sent immediately, but no later than 24 hours from the date of discovery, to both of the following agencies in the format designated below:
In writing or by telephone:
U.S. Treasury Inspector General for Tax Administration Office (TIGTA):
   Ben Franklin Station
   P. O. Box 589
   Washington, DC 20044-0589
Hotline: 1-800-366-4484
Alternate: 1-800-589-3718

In encrypted electronic mail:
SafeguardReports@IRS.gov

A copy of the form and any attachments must be filed in the FTI file cabinet according to the policy in Section 6.4.

Any issues regarding the proper procedures for reporting improper inspection and/or disclosure of FTI are discussed with the staff’s Supervisor.
APPENDIX B: IRC SECTIONS 7213 and 7213A

THESE PROVISIONS APPLY TO ALL DEPARTMENT OF HEALTH AND HUMAN RESOURCES STAFF WITH ACCESS TO IRS INFORMATION

IRS Publication 1075, September 2016

IRC SEC. 7213 UNAUTHORIZED DISCLOSURE OF INFORMATION

(a) RETURNS AND RETURN INFORMATION

(1) FEDERAL EMPLOYEES AND OTHER PERSONS—It shall be unlawful for any officer or employee of the United States or any person described in section 6103(n) (or an officer or employee of any such person), or any former officer or employee, willfully to disclose to any person, except as authorized in this title, any return or return information [as defined in section 6103(b)]. Any violation of this paragraph shall be a felony punishable upon conviction by a fine in any amount not exceeding $5,000, or imprisonment of not more than 5 years, or both, together with the costs of prosecution, and if such offense is committed by any officer or employee of the United States, he shall, in addition to any other punishment, be dismissed from office or discharged from employment upon conviction for such offense.

(2) STATE AND OTHER EMPLOYEES—It shall be unlawful for any person [not described in paragraph (1)] willfully to disclose to any person, except as authorized in this title, any return or return information [as defined in section 6103(b)] acquired by him or another person under subsection (d), (i)(3)(B)(i), (1)(6), (7), (8), (9), (10), (12), (15) or (16) or (m)(2), (4), (5), (6), or (7) of section 6103. Any violation of this paragraph shall be a felony punishable by a fine in any amount not exceeding $5,000, or imprisonment of not more than 5 years, or both, together with the cost of prosecution.

(3) OTHER PERSONS—It shall be unlawful for any person to whom any return or return information [as defined in 6103(b)] is disclosed in a manner unauthorized by this title thereafter willfully to print or publish in any manner not provided by law any such return or return information. Any violation of this paragraph shall be a felony punishable by a fine in any amount not exceeding $5,000, or imprisonment of not more than 5 years, or both, together with the cost of prosecution.

(4) SOLICITATION—It shall be unlawful for any person willfully to offer any item of material value in exchange for any return or return information [as defined in 6103(b)] and to receive as a result of such solicitation any such return or return information. Any violation of this paragraph shall be a felony punishable by a fine in any amount not exceeding $5,000, or imprisonment of not more than 5 years, or both, together with the cost of prosecution.
(5) SHAREHOLDERS – It shall be unlawful for any person to whom return or return information [as defined in 6103(b)] is disclosed pursuant to the provisions of 6103(e)(1)(D)(iii) willfully to disclose such return or return information in any manner not provided by law. Any violation of this paragraph shall be a felony punishable by a fine in any amount not exceeding $5,000, or imprisonment of not more than 5 years, or both, together with the cost of prosecution.

IRC SEC. 7213A. UNAUTHORIZED INSPECTION OF RETURNS OR RETURN INFORMATION

(a) PROHIBITIONS

(1) FEDERAL EMPLOYEES AND OTHER PERSONS – It shall be unlawful for

(A) any officer or employee of the United States, or

(B) any person described in section 6103(n) or an officer willfully to inspect, except as authorized in this title, any return or return information.

(2) STATE AND OTHER EMPLOYEES – It shall be unlawful for any person [not described in paragraph (l)] willfully to inspect, except as authorized by this title, any return information acquired by such person or another person under a provision of section 6103 referred to in section 7213(a)(2).

(b) PENALTY

(1) IN GENERAL – Any violation of subsection (a) shall be punishable upon conviction by a fine in any amount not exceeding $1000, or imprisonment of not more than 1 year, or both, together with the costs of prosecution.

(2) FEDERAL OFFICERS OR EMPLOYEES – An officer or employee of the United States who is convicted of any violation of subsection (a) shall, in addition to any other punishment, be dismissed from office or discharged from employment.

(c) DEFINITIONS – For purposes of this section, the terms “inspect” “return” and “return information” have respective meanings given such terms by section 6103(b).
APPENDIX C: IRC SECTION 7431

THESE PROVISIONS APPLY TO ALL DEPARTMENT OF HEALTH AND HUMAN RESOURCES STAFF WITH ACCESS TO IRS INFORMATION

IRS Publication 1075, September 2016

IRC SEC. 7431 CIVIL DAMAGES FOR UNAUTHORIZED INSPECTION OR DISCLOSURE OF RETURNS AND RETURN INFORMATION.

(a) In general

(1) Inspection or Disclosure by employee of United States

If any officer or employee of the United States knowingly, or by reason of negligence, inspects or discloses any return or return information with respect to a taxpayer in violation of any provision of section 6103, such taxpayer may bring a civil action for damages against the United States in a district court of the United States.

(2) Inspection or disclosure by a person who is not an employee of United States

If any person who is not an officer or employee of the United States knowingly, or by reason of negligence, inspects or discloses any return or return information with respect to a taxpayer in violation of any provision of section 6103 or in violation of section 6104 (c), such taxpayer may bring a civil action for damages against such person in a district court of the United States.

(b) Exceptions

No liability shall arise under this section with respect to any inspection or disclosure-

(1) which results from good faith, but erroneous, interpretation of section 6103, or

(2) which is requested by the taxpayer.

(c) Damages

In any action brought under subsection (a), upon a finding of liability on the part of the defendant, the defendant shall be liable to the plaintiff in an amount equal to the sum of–

(1) the greater of –

(A) $1,000 for each act of unauthorized inspection or disclosure of a return or return information with respect to which such defendant is found liable, or

(B) the sum of –
(i) the actual damages sustained by the plaintiff as a result of such unauthorized inspection or disclosure, plus

(ii) in the case of a willful inspection or disclosure or an inspection or disclosure which is the result of gross negligence, punitive damages, plus

(2) the cost of the action.

(d) Period for Bringing Action

Notwithstanding any other provision of law, an action to enforce any liability created under this section may be brought, without regard to the amount in controversy, at any time within 2 years after the date of discovery by the plaintiff of the unauthorized inspection or disclosure.

(e) Notification of Unlawful Inspection and Disclosure

If any person is criminally charged by indictment or information with inspection or disclosure of a taxpayer's return or return information in violation of –

(1) paragraph (1) or (2) of section 7213 (a),

(2) section 7213A (a), or

(3) subparagraph (B) of section 1030(a)(2) of Title 18, United States Code, the Secretary shall notify such taxpayer as soon as practicable of such inspection or disclosure.

(f) Definitions

For purposes of this section, the terms “inspect”, “inspection”, “return” and “return information” have the respective meanings given such terms by section 6103 (b).

(g) Extension to information obtained under section 3406

For purposes of this section –

(1) any information obtained under section 3406 (including information with respect to any payee certification failure under subsection (d) thereof) shall be treated as return information, and

(2) any inspection or use of such information other than for purposes of meeting any requirement under section 3406 or (subject to the safeguards set forth in section 6103) for purposes permitted under section 6103 shall be treated as a violation of section 6103.
For purposes of subsection (b), the reference to section 6103 shall be treated as including a reference to section 3406.

Chapter 7

7.1 INTRODUCTION

This chapter describes the general verification process and requirements for the Supplemental Nutrition Assistance Program (SNAP), WV WORKS, the West Virginia Children’s Health Insurance Program (WVCHIP), and most Medicaid coverage groups. Program-specific information is contained in program-specific chapters.
7.2 VERIFICATION PROCESS

7.2.1 WHEN VERIFICATION IS REQUIRED

Verification of a client’s statement is required when:

- Policy requires routine verification of specific information.
- The information provided is questionable. To be questionable, it must be:
  - Inconsistent with other information provided; or
  - Inconsistent with the information in the case file; or
  - Inconsistent with information received by the Department of Health and Human Resources (DHHR) from other sources; or
  - Incomplete; or
  - Obviously inaccurate; or
  - Outdated.
- Past experience with the client reveals a pattern of providing incorrect information or withholding information. A case recording must substantiate the reason the Worker questions the client’s statement.
- The client does not know the required information.

7.2.2 WHEN VERIFICATION IS NOT REQUIRED

Verification is not required from the individual when:

- It is known that the individual does not have access to the requested information.
- The information is known, or available to the Department of Health and Human Resources (DHHR).
- The client’s response is a negative statement, unless his statement is questionable. An example of a negative statement is when a client reports that he has no bank account. His negative statement is not verified unless there is a valid reason to question it.
- A change reported during the Supplemental Nutrition Assistance Program (SNAP) certification period results in a decrease in benefits, unless the reported change is a new source of income.
For Medicaid Coverage Groups and West Virginia Children’s Health Insurance Program (WVCHIP) Only: Being homeless, a victim of a natural disaster, or a victim of an emergency situation are all considered as limiting an individual’s compliance with obtaining verifications. Once citizenship and non-citizen status are verified, an eligibility decision is made for these individuals on available information alone.

7.2.3 CLIENT RESPONSIBILITIES

The primary responsibility for providing verification rests with the client.

It is an eligibility requirement that the client cooperate in obtaining necessary verifications, with an exception being that a client must never be asked to provide verification that he is or is not either a fleeing felon or a probation/parole violator. The client is expected to provide information to which he has access and to sign authorizations needed to obtain other information.

Failure of the client to provide necessary information or to sign authorizations for release of information results in denial of the application or closure of the active case, provided the client has access to such information and is physically and mentally able to provide it.

For Modified Adjusted Gross Income (MAGI) Medicaid Coverage Groups and WVCHIP Only:

- Client self-attestation is verified by electronic data sources.
- The client must not be required to provide verification unless information cannot be obtained electronically or self-attestation, and electronic data sources are not reasonably compatible. See Section 7.2.5 below.

Refusal to cooperate, failure to provide necessary information, or failure to sign authorizations for release of information, provided the client has access to such information and is physically and mentally able to provide it, may result in one of the following:

- Denial of the application
- Closure of the assistance group (AG)
- Determination of ineligibility
- Disallowance of an income deduction or an incentive payment

No case may be determined ineligible when a person outside the AG or income group (IG) fails to cooperate with verification. The following individuals are not considered part of the AG or IG but must provide verification:

- Ineligible student (SNAP – verification only required for student status)
- Ineligible non-citizens (all programs)
- Persons who fail to attest to or verify citizenship or non-citizen status (requirements vary by program)
- Disqualified persons (WV WORKS and SNAP)
- Supplemental Security Income (SSI) recipients who would be required to be included in the WV WORKS AG, except for receipt of SSI

### 7.2.4 WORKER RESPONSIBILITIES

The Worker has the following responsibilities in the verification process:

- At application, redetermination, and anytime a DFA-6 is used, the Worker must list all required verification known at the time. The Worker should only request additional verification if information provided is incomplete or additional information is necessary to determine eligibility.

- If the client is unsuccessful in obtaining information, or if physical or mental limitations prevent his compliance, and there is no one to assist him, the Worker must document attempts to obtain the verification.

- The Worker must accept any reasonable documentary evidence as verification and must not require a specific kind or source of verification. Verification may be submitted in person, by mail, by fax, or electronically.

- The Worker must not request verification if the case record or other documentation shows that verification has previously been supplied. It may, however, be requested if the verification provided or shown in the Department’s records is incomplete, inaccurate, outdated, or inconsistent with recently reported information.

- If the client requests a receipt for verification, one must be provided.

- When the client alleges domestic violence, the Worker, in order to ensure the safety of the individual, must never contact the abuser, his relatives, or friends. See Section 7.3.16 for acceptable method of verification in domestic violence situations.

- When the Worker must make collateral contact, such as but not limited to, a client’s employer, the Worker must not disclose the client’s status as an applicant/client of a DHHR program.

**NOTE:** For SNAP, home visits are made only on a case-by-case basis and not because an AG fits an error prone or other profile. A home visit is used for verification only when documentary evidence cannot be obtained or is insufficient to make an eligibility or benefit level determination.
7.2.5 REASONABLE COMPATIBILITY – MAGI MEDICAID COVERAGE GROUPS AND WVCHIP ONLY

7.2.5.A Definitions

These definitions and provisions apply to all MAGI Medicaid and WVCHIP coverage groups.

REASONABLE COMPATIBILITY
Reasonable compatibility means that information provided by an applicant through self-attestation does not vary significantly, or in a way that is meaningful for eligibility when compared to information obtained through electronic data sources. Under reasonable compatibility, the Worker can require verification documentation only when the difference between the attestation and data source affects eligibility.

REASONABLE EXPLANATION
The applicant must be given an opportunity to provide an explanation for discrepancies between self-attested information, and information reported by an electronic data source. The Worker must determine if the client’s explanation is reasonable.

REASONABLE COMPATIBILITY STANDARD
The Reasonable Compatibility Standard is an acceptable level of variance between self-attested income and income information obtained through electronic data sources. West Virginia’s Reasonable Compatibility Standard is 10%.

REASONABLE COMPATIBILITY TEST
When the difference between the self-attestation and data source incomes affects eligibility, the Reasonable Compatibility Test must be applied to determine whether or not additional verification is needed.
7.2.5.B Reasonable Compatibility Policy

Eligibility determinations for Medicaid and WVCHIP will be based, to the maximum extent possible, on applicant self-attestation verified by information obtained from electronic data sources.

- When information obtained through electronic data sources is reasonably compatible with an applicant’s attestation, the self-attested information is considered verified.
  - Self-attestation information and information from data sources are reasonably compatible when any difference or discrepancy between the two sources does not impact the eligibility of the application.
- If information obtained through electronic data sources is not reasonably compatible with an applicant’s attestation, additional documentation may be required.
- Under reasonable compatibility, the Worker can require verification documentation only when the difference between the self-attestation and data source information affects eligibility.
- The applicant must be given an opportunity to provide an explanation for discrepancies between self-attested information and information reported by an electronic data source. The Worker must determine if the client’s explanation is reasonable.

7.2.5.C Applying Reasonable Explanation

Eligibility determination begins with the applicant’s self-attestation regarding his non-financial and financial information. When available, applicant information is matched by the Federal Data Hub or other electronic data source.

The majority of eligibility factors are subject to the reasonable compatibility assessment when there is a discrepancy between the applicant’s statement and information in the Federal Data Hub or other electronic data source.

Self-attestation is accepted without further verification for certain factors including name, age, and date of birth.

The Worker must reconcile discrepancies in information using this process:

- The Worker must give the applicant the chance to provide an explanation for the differences. If the client explains the differences and the Worker accepts the explanation as reasonable, no further verification is necessary. The Worker can use the self-attested
information.

- If the applicant’s explanation is questionable and the Worker does not accept it as reasonable, the Worker must check all other electronic databases first, as well as any other information available to the Department, such as the client record, before requesting verifications from the applicant.

- If, after checking other available sources and requesting and reviewing verification from the applicant, the Worker cannot reconcile the self-attested information with information received from an electronic data source as reasonably compatible, then additional information is requested.

**EXCEPTION: Citizenship and immigration status must be verified regardless of the applicant’s explanation of discrepancies.**

---

### 7.2.5.D Applying Reasonable Compatibility to Income

The Worker must accept self-attestation of income information when the applicant’s attestation and information obtained through an electronic data sources are reasonably compatible, meaning any difference in income information does not impact eligibility.

The following table identifies the one situation when the difference in income information impacts eligibility and the Reasonable Compatibility Test must be applied.

<table>
<thead>
<tr>
<th>Attested Income (including 5% disregard, if applicable)</th>
<th>Income from Electronic Data Source</th>
<th>Can Attested Income be Used?</th>
<th>Outcome</th>
<th>Is Reasonable Compatibility Test Required?</th>
</tr>

</tr>
<tr>
<td>Is below, or equal to, the income eligibility threshold</td>
<td>Is not available</td>
<td>No</td>
<td>Request additional verification</td>
<td>No</td>
</tr>
</tbody>
</table>
### 7.2.5.E Applying the Reasonable Compatibility Test

When the applicant’s self-attested income is below or equal to the income eligibility threshold, and the electronic data source is above the income eligibility threshold, Reasonable Compatibility is applied and a determination is made to determine whether or not additional verification is required.

The Reasonable Compatibility Test has two steps:

1. **Step 1**: Calculate the percentage difference between the self-attested income and the income reported by the electronic data source.

   \[
   \frac{\text{Electronic Data Source Income} - \text{Self-attested Income}}{\text{Self-attested Income}} \times 100
   \]

2. **Step 2**: If the percentage difference between the self-attested income and electronic data source income is less than or equal to 10%:
   - The two figures are considered reasonably compatible.
   - No additional verification is required.
   - The self-attested income is used to determine eligibility.
7.2.5.F Reasonable Compatibility Examples

Reasonable Compatibility Example 1: Ms. Violet applied for Medicaid as a single adult. She states her income is $1,200 per month. The electronic data source returns income of $1,280 per month. The allowable income limit is $1,238. No further explanation or verification is required.

<table>
<thead>
<tr>
<th>Reasonable Compatibility Test Step</th>
<th>Calculation</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>STEP 1: Calculate the percentage difference between the self-attested income and the income reported by the electronic data source.</td>
<td>$1280 - $1200 x 100 $1200</td>
<td>6.6%</td>
</tr>
<tr>
<td>STEP 2: Compare the income difference to the Reasonable Compatibility Standard (10%).</td>
<td>6.7% is less than 10%; therefore, the amounts are reasonably compatible. The Worker must use the self-attested income to determine eligibility.</td>
<td></td>
</tr>
</tbody>
</table>

Reasonable Compatibility Example 2: Mr. Clover applied for Medicaid as a single adult. He states his income is $1,200 per month. The electronic data source returns income of $1,340 per month. The allowable income limit is $1,238. The Worker asks Mr. Clover to explain the difference, but he cannot. The income difference affects eligibility, so the Reasonable Compatibility Test must be applied.

NOTE: If the percentage difference between the self-attested income and electronic data source income is greater than 10%:
- The two figures are not reasonably compatible.
- Additional verification is required.

<table>
<thead>
<tr>
<th>Reasonable Compatibility Test Step</th>
<th>Calculation</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>STEP 1: Calculate the percentage difference between the self-attested income and the income reported by the electronic data source.</td>
<td>$1340 - $1200 x 100 $1200</td>
<td>11.6%</td>
</tr>
<tr>
<td>STEP 2: Compare the income difference to the Reasonable Compatibility Standard (10%).</td>
<td>11.6% is greater than 10%; therefore, the amounts are not reasonably compatible. The Worker must check other available data sources known to the Department. If he cannot verify the self-attested income, he must request income verification from the applicant.</td>
<td></td>
</tr>
</tbody>
</table>
### 7.3 VERIFICATION REQUIREMENTS

See Section 7.2 for additional verification requirements including, but not limited to, when the information is questionable. The table below identifies items to be verified, which programs require verification, when information must be verified, and possible sources of verification.

**NOTE:** SNAP ONLY: Verification of assets is not required when an assistance group (AG) is categorically eligible for benefits. A Worker is still required to update the eligibility system with all available asset information reported.

| 5. **Value of an Annuity**                                             | All Medicaid coverage groups with an asset test | Prior to approval or when an annuity is purchased or other action taken that would affect the annuity value  
Statement or document verifying the value from the financial entity or company that issued or holds the annuity |
|                                                                       |                                                                                    |                                                                                                  |
| 6. **Application For Potential Resources**                            | WV WORKS Medicaid, except as specified in Chapter 8 | Prior to initial approval, when an AG member appears to be eligible for a benefit which would reduce or eliminate the client's need for public assistance  
Written statement from agency which accepted the client's application, telephone contact with such agency |
|                                                                       |                                                                                    |                                                                                                  |
| 7. **Adult – Supervised Living Arrangement**                          | WV WORKS                                                                      | Prior to initial approval; at each redetermination; when a change is reported  
Contact with the supervising adult; written statement from the supervising adult; collateral contacts; home visit |
|                                                                       |                                                                                    |                                                                                                  |
| 8. **Bank Accounts, Certificates of Deposit (CDs), and Other Liquid Assets** | All programs and coverage groups subject to an asset test | At application, at redetermination; when client reports an increase  
SNAP Only: To determine if used solely for a deployed service person's benefit  
Bank statements; the CD; stock market prices; whole life insurance policies; statement of stockbroker  
SNAP Only: Written statement from the service person or the financial institution, such as a detailed account record |
|                                                                       |                                                                                    |                                                                                                  |
| 9. **Bona Fide Loan**                                                 | Aid to Families with Dependent Children (AFDC)-Related Medicaid  
SSI-Related Medicaid groups | At application; at redetermination; when client reports he has a loan  
Written statement; loan documents |
|                                                                       |                                                                                    |                                                                                                  |
| 10. **Citizenship**                                                   | Medicaid                                                                      | See Section 7.4 for specific documentation requirements.  
The Federal Data Hub will verify citizenship when information is available. Additional information may be requested if information cannot be verified |

</table>
| WV WORKS                 | When the applicant or client alleges domestic violence and requests an exemption from work participation requirements or program time limits | Protective orders; hospital records; statements from legal services or domestic violence counseling or shelter staff or witnesses; paper work from law enforcement agencies, (i.e., criminal charges).  
**NOTE:** To ensure the safety of the client, the Worker must never contact the abuser, his relatives, or friends in an attempt to verify domestic violence. |

#### 17. Educational Funds

| Medicaid | Prior to initial approval; at application; at redetermination; and when the client reports the onset or a change | Verify the source amount and amount earmarked for educational purposes  
Statement from educational institution; financial aid office or other grantor; receipts; knowledge of public transportation costs; commuting distances and gasoline prices; statement of reasonable estimate of expenses |
| WVCHIP    |                                                                                                               |                                                                                                               |

#### 18. Employment Offer or Guarantee of Employment or Other Income

| WV WORKS | Prior to approval of Diversionary Cash Assistance (DCA) payment | Contact with future employer or entity from which the income is expected |

| SNAP      | At application; at redetermination or when the client reports a change in the legally obligated amount or amount actually paid | Verify the legally obligated amount and the amount actually paid, including the value of any in-kind payments  
Court order or legal separation agreement; cancelled checks; the child support data system; pay stubs showing wage withholding; signed receipt or statement from the custodial parent |

#### 20. Dependent Care Expenses

| SNAP      | SNP Only: Only when information provided is questionable  
WV WORKS and AFDC-Related Medicaid Only: Prior to initial approval, at redetermination or | Day care bills; receipts; written estimates of anticipated costs from the provider; child care program certification letters showing client liability |
| WV WORKS  |                                                                                                               |                                                                                                               |

</table>
### When to Verify

<table>
<thead>
<tr>
<th>Program</th>
<th>When to Verify</th>
<th>Possible Sources of Verification</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>considered, but not used, need not be verified.</strong></td>
<td>electronically via text message, calling the number on the debit card or accessing the employer’s website.</td>
</tr>
<tr>
<td><strong>SNAP Only</strong></td>
<td>During the certification period, when there is a change in employment or a change in earnings of $100 or more.</td>
<td><strong>NOTE:</strong> The military LES is received at the beginning of the month and shows earnings for services performed in the prior month.</td>
</tr>
<tr>
<td><strong>Medicaid and WVCHIP Only</strong></td>
<td>When a change in the amount is reported.</td>
<td><strong>NOTE:</strong> The year-to-date amounts on pay stubs may be used when the client has verification of all pay amounts whether used or not, but is missing one.</td>
</tr>
<tr>
<td><strong>WV WORKS Only</strong></td>
<td>When a change is reported in rate of pay, or number of hours, verify the change. When a change is reported in the source, verify rate of pay, number of hours and source.</td>
<td>Use the best source of verification available. When there is absolutely no other source of verification, the client’s statement must be used.</td>
</tr>
</tbody>
</table>

### 39. Unearned Income

<table>
<thead>
<tr>
<th>All programs</th>
<th>Prior to approval; at redetermination; when a change in the source or amount is reported</th>
<th>Verify source and amount. Award letter; computer matches; written statement from source; BCSE information; written statement from contributor; eligibility system data exchanges.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>NOTE: All income used in calculating eligibility and the amount of the benefit must be verified. However, income considered, but not used, need not be verified.</strong></td>
<td>The amount of unearned income received on a pay card may also be verified electronically via text message, calling the number on the debit card or accessing the source’s website. <strong>NOTE:</strong> The year-to-date amounts on check stubs may only be used when the client has verification of all payment amounts whether used or not, but is missing one. Use the best source of verification available. When there is absolutely no other source of verification, the client’s statement must be used.</td>
</tr>
</tbody>
</table>
## Verification Program

### 40. Indian Lands and Trust Funds

All Medicaid coverage groups with an asset test

- **When to Verify**: See Chapter 5, Appendix C
- **Possible Sources of Verification**: See Chapter 5, Appendix C

### 41. Proceeds or Distributions from Indian Lands and Trust Funds

All Medicaid coverage groups

- **When to Verify**: See Chapter 5, Appendix C
- **Possible Sources of Verification**: See Chapter 5, Appendix C

### 42. Insurance Premium Payment

**SNAP**: For medical expenses only

- **When to Verify**: Prior to approval; at redetermination or whenever a change is reported
- **Possible Sources of Verification**: Statement from insurance company or pay stub when insurance premium payment is an expense.

**Medicaid**

- **When to Verify**: Prior to initial approval; at redetermination; when a change is requested by parents
- **Possible Sources of Verification**: Statements from parents; collateral statements from friends, neighbors, family; court order

**WVCHIP**

- **When to Verify**: Prior to approval; at redetermination or whenever a change is reported
- **Possible Sources of Verification**: Statement from insurance company or pay stub when insurance premium payment is an expense.

### 43. Joint Custody, Which Parent Will Receive Benefits for Child

**SNAP**

- **When to Verify**: Prior to initial approval; at redetermination; when a change is requested by parents
- **Possible Sources of Verification**: Statements from parents; collateral statements from friends, neighbors, family; court order

**WV WORKS**

- **When to Verify**: Prior to initial approval; at redetermination; when a change is requested by parents
- **Possible Sources of Verification**: Statements from parents; collateral statements from friends, neighbors, family; court order

### 44. Long Term Care Insurance Partnership (LTCIP) Asset Disregard

**Medicaid** - Aged, blind, or disabled, institutionalized individuals with income equal to, or less than 300% of the SSI payment for one

- **When to Verify**: Prior to approval and any time an individual indicates assets in excess of the allowable maximum asset amount but has a Qualified LTCIP Policy that has paid insurance benefits to or on behalf of the individual
- **Possible Sources of Verification**: The OFS-LTCIP-1; the Qualified LTCIP Policy; letter from the issuing state’s insurance commissioner or other governmental agency that regulates insurance; or verification from the issuing insurance agency indicating compliance of the Policy with Section 1917(b)(5)(A) of the Social Security Act

### 45. Lump Sum Payment

All programs with an income test

- **When to Verify**: At application; at redetermination; when the client reports the receipt of a lump sum payment
- **Possible Sources of Verification**: Verify amount used to meet life-threatening situation or amount unavailable

**MAGI Medicaid and WVCHIP Only**: Only verified if received in the month of application

- **Possible Sources of Verification**: Media stories; statement of knowledgeable person; police reports; hospital reports; physician’s statement

### 46. Medical Insurance Information
<table>
<thead>
<tr>

<tr>
<td>SSI-Related Medicaid</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PAC</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CDCSP</td>
<td></td>
<td></td>
</tr>
<tr>
<td>QDW</td>
<td></td>
<td></td>
</tr>
<tr>
<td>QMB</td>
<td></td>
<td></td>
</tr>
<tr>
<td>SLIMB</td>
<td></td>
<td></td>
</tr>
<tr>
<td>QI-1</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### 52. Pregnancy

- Medicaid
- WVCHIP

This is not routinely verified. Prior to approval; only when pregnancy is questionable due to age of applicant; history of multiple pregnancies in a short time or pregnancies not resulting in a status such as birth, abortion or miscarriage, etc.

Accept self-attestation. Statement from attending physician, physician’s assistant, nurse practitioner or other person medically qualified to diagnose pregnancy.

#### 53. Pregnancy Work Exemption

- SNAP
- WV WORKS

Prior to SNAP work requirement exemption or WV WORKS good cause determination

Written statement from physician, physician’s assistant, nurse practitioner or other licensed health care provider, which shows the expected date of delivery. An ABAWD’s pregnancy must be verified with a written statement.

#### 54. Prescription

- WV WORKS

Within 24 hours following a positive drug test

A valid prescription, current prescription bottle or written verification by a healthcare provider who has the authority to prescribe the controlled substance in question.

#### 55. Promissory Notes and Outstanding Principal Balance

All Medicaid

At application and redetermination

A copy of the agreement/promissory note.
### Chapter 7: Verification Program

<table>
<thead>
<tr>
<th>Program</th>
<th>When to Verify</th>
<th>Possible Sources of Verification</th>
</tr>
</thead>
<tbody>
<tr>
<td>coverage groups with an asset test or when a promissory note is obtained or held</td>
<td>If the individual claims the Fair Market Value (FMV) is less than the outstanding principal balance, he may present documentation from a bank or other financial institution, private investor or real estate broker. The estimate must show the name, title, and address of the source. To determine the outstanding principal balance, an amortization schedule can be used to determine the outstanding principal balance and interest income, if the terms of the agreement are known, (i.e., interest rate, payment period, original principal amount, etc.).</td>
<td></td>
</tr>
</tbody>
</table>

### 56. Replacement of Destroyed Food Purchased with SNAP Benefits

<table>
<thead>
<tr>
<th>SNAP</th>
<th>Request for food replacement. <strong>EXCEPTION: During a mass power outage, no verification is required.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Collateral contact; community agency; utility company; landlord; home visit</td>
<td></td>
</tr>
</tbody>
</table>

### 57. Residence

<table>
<thead>
<tr>
<th>SNAP</th>
<th>Prior to initial approval</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicaid and WVCHIP Only: Only if questionable</td>
<td></td>
</tr>
<tr>
<td>Rent or mortgage receipts; landlord’s statement; written statements from neighbors; employment records</td>
<td></td>
</tr>
</tbody>
</table>

### 58. Savings Bond

<table>
<thead>
<tr>
<th>All programs subject to an asset test</th>
<th>When bond is at least six months old: Prior to initial approval, or when client reports additional bonds</th>
</tr>
</thead>
<tbody>
<tr>
<td>If bond is not six months old: Verify six months from date of issue</td>
<td></td>
</tr>
<tr>
<td>Verify date of purchase and cash-in value</td>
<td></td>
</tr>
<tr>
<td>Bond; financial institution</td>
<td></td>
</tr>
</tbody>
</table>

### 59. Social Security Number (SSN) Application

<table>
<thead>
<tr>
<th>All programs, except Medicaid Continuously Eligible Newborn (CEN) group</th>
<th>Prior to initial approval; prior to adding the individual to the AG WV WORKS Only: After completion of the PRC/SSP</th>
</tr>

7.4 CITIZENSHIP AND IDENTITY REQUIREMENTS FOR MEDICAID AND WVCHIP

Section 6036 of the Deficit Reduction Act of 2005 (DRA) enacted on February 8, 2006, requires individuals who claim United States (U.S.) citizenship to provide documentary evidence of citizenship or nationality and identity when initially applying for Medicaid or upon a client’s first Medicaid redetermination on, or after, July 1, 2006. This provision does not affect individuals who have declared they are non-citizens in a satisfactory immigration status. Section 6036 requires evidence of both citizenship and identity and specifies forms of acceptable evidence of citizenship or nationality and identity.

7.4.1 ESTABLISHING U.S. CITIZENSHIP AND IDENTITY

To establish U.S. citizenship the document must show:

- A U.S. place of birth; or
- That the person is a U.S. citizen.

To establish identity a document must show:

- Evidence that provides identifying information that relates to the person named on the document.

All documents are not required to be an original. They may be photocopied, faxed or scanned. The Worker must file a copy of the verification in the case record. Verification of citizenship is required only once, unless later evidence makes it questionable. There is no requirement that the verification be submitted in person.

NOTE: Children born in the U.S. to foreign sovereigns or diplomatic officers are not U.S. citizens.

7.4.2 EXEMPTIONS
The following applicants and clients are exempt from the requirement to provide documentary evidence of citizenship and identity:

- Current Supplemental Security Income (SSI) recipients.
- Retirement, Survivors and Disability Insurance (RSDI) recipients when receipt is based on disability.
- Medicare enrollees, or those eligible to enroll in Medicare.
- Individuals covered under Title IV-B child welfare services or Title IV-E foster care or adoption services.
- A child born in the U.S. to a woman who was eligible for, and receiving, Medicaid on the date of the child’s birth. This includes a child born to an illegal non-citizen who received Medicaid for the birth only.

### 7.4.3 DOCUMENTS WHICH ESTABLISH U.S. CITIZENSHIP AND IDENTITY

The following sections list acceptable evidence of U.S. citizenship and/or identity. The sections establish a hierarchy of citizenship documents and the instructions specify when a document of lesser reliability may be acceptable.

- If a client presents documents from the Primary Documents list, no other information is required.
- If a client does not present documents from Primary Documents list, an identity document must also be presented.

**NOTE:** See Section 7.4.3.E below for additional identity documents which may be used when a child is age 16 or younger.

### 7.4.3.A Primary Documents to Establish U.S. Citizenship

Primary documents to establish both citizenship and identity are outlined in the table below. Primary evidence conclusively establishes that the person is a U.S. citizen. The Worker should obtain primary evidence of citizenship and identity before using secondary evidence.
Applicants or clients born outside the U.S., who were not citizens at birth, must submit a document listed under primary evidence of U.S. citizenship.

**NOTE: References to documents issued by the Department of Homeland Security (DHS) include documents issued by Immigration and Naturalization Services (INS).**

<table>
<thead>
<tr>
<th>Primary Documents</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>U.S. Passport</td>
<td>The Department of State issues U.S. passports. A U.S. passport does not have to be currently valid to be accepted as evidence of U.S. citizenship, as long as it was originally issued without limitation. <strong>EXCEPTION: For an individual born in Puerto Rico, applying November 1, 2010, or later, an expired U.S. Passport is not accepted as proof of citizenship or identity.</strong> <strong>NOTE: Before 1980, spouses and children were sometimes included on one passport. The citizenship and identity of any included person can be established with this passport.</strong> <strong>EXCEPTION: The Worker should not accept any passport as evidence of U.S. citizenship when it was issued with a limitation. However, such a passport may be used as proof of identity.</strong></td>
</tr>
<tr>
<td>Certificate of Naturalization (N-550 or N-570)</td>
<td>The DHS issues certificates of naturalization for naturalization.</td>
</tr>
<tr>
<td>Certificate of Citizenship (N-560 or N-561)</td>
<td>The DHS issues certificates of citizenship to individuals who derive citizenship through a parent.</td>
</tr>
<tr>
<td>Documentation from a Federally Recognized Tribe</td>
<td>This includes an Indian Tribal enrollment document/card, or certificate of degree of Indian blood. If the Tribe has an international border, and the membership includes non-U.S. citizens, the Tribal enrollment/membership document is used.</td>
</tr>
<tr>
<td>Social Security Administration (SSA) / State Verification Eligibility System (SVES) Data Match</td>
<td>Information about new applicants for Medicaid and WVCHIP is submitted to SSA through the SVES. A response from SSA that confirms the data submitted by the state is consistent with SSA data, including citizenship or nationality, is considered equivalent to a primary document.</td>
</tr>
</tbody>
</table>
In addition to the documents outlined in the chart above, a child born in the U.S. to a woman who was eligible for and receiving Medicaid on the date of the child’s birth is exempt from the requirement to provide citizenship and identity documentation. This includes a child born to an illegal non-citizen who received Medicaid for the birth only.

7.4.3.B Secondary Documents to Establish U.S. Citizenship

Secondary evidence of citizenship is used when primary evidence of citizenship is not available. In addition, a document which establishes identity must also be presented as described in Section 7.4.3.E.

The Worker must accept any of the documents listed in the chart below as secondary evidence of U.S. citizenship, if the document meets the criteria and there is no indication that the person is not a U.S. citizen.

Immigrants and non-citizens must submit a document listed under primary evidence of U.S. citizenship.

Naturalized citizens may submit primary or secondary evidence of citizenship. In rare circumstances, a naturalized citizen can submit a written affidavit to verify citizenship. See Section 7.4.3.D below. The remaining documents in the third and fourth levels are not applicable for naturalized citizens because they require the document to show a U.S. place of birth.

</tbody>
</table>

### 7.4.3.C Third Level Documents to Establish U.S. Citizenship

Third level evidence is used when neither primary nor secondary evidence of citizenship is available. Third level evidence may be used only when primary evidence cannot be obtained and secondary evidence does not exist or cannot be obtained, and the applicant or client alleges being born in the U.S. In addition, a second document establishing identity must be presented as described in Section 7.4.3.E.

The Worker must accept any of the documents listed in the chart below as third level if the document meets the listed criteria, the applicant alleges birth in the U.S., and there is no indicator that the person is not a U.S. citizen.

Third level evidence is generally a non-government document established for a reason other than to establish U.S. citizenship and showing a U.S. place of birth.

The place of birth on the non-government document and the application must agree.
### Third Level Documents

<table>
<thead>
<tr>
<th>Third Level Documents</th>
<th>Explanation</th>
</tr>
</thead>
</table>
| Extract of hospital record on hospital letterhead established at the time of the person’s birth and was created at least five years before the initial application date and indicates a U.S. place of birth | Do not accept a souvenir birth certificate issued by the hospital.  
**NOTE:** For children under 16, the document must have been created near the time of birth or at least five years before the date of application. |
| Life or health or other insurance record showing a U.S. place of birth and was created at least five years before the initial application date | Life or health insurance records may show biographical information for the person including place of birth; the record can be used to establish U.S. citizenship when it shows a U.S. place of birth. |
| Religious record created within three months after the birth                          | The document, such as a baptismal certificate, must show a U.S. place of birth and either the date of birth or age at the time the record was created. This does not include entries in a family Bible. |
| Early school record showing a U.S. place of birth                                     | The school record must show the admission date, the date of birth or age at the time the record was made, a U.S. place of birth, and the name(s) and place(s) of the birth of the applicant’s parents. |

### 7.4.3.D Fourth Level Documents to Establish Citizenship

Fourth level evidence of U.S. citizenship is of the lowest reliability. This level of evidence is only used when primary evidence is not available, or both secondary and third level evidence do not exist or cannot be obtained and the applicant alleges a U.S. place of birth or naturalized citizenship status. In addition, a second document establishing identity must be presented as described in Section 7.4.3.E.

The Worker must accept any of the documents listed in the chart below as fourth level evidence if the document meets the listed criteria, the applicant alleges U.S. citizenship, and there is no indication that the person is not a U.S. citizen.

Fourth level evidence consists of documents established for a reason other than to establish U.S. citizenship and which show a U.S. place of birth. The U.S. place of birth on the document and the application must agree. The written affidavit is used only when unable to secure evidence of citizenship listed in any other chart.
### Fourth Level Documents

<table>
<thead>
<tr>
<th>Document Description</th>
<th>Explanation</th>
</tr>
</thead>
</table>
| Federal or state census record showing U.S. citizenship or a U.S. place of birth. | The census record must also show the applicant’s age.  
**NOTE:** Census records from 1900 through 1950 contain certain citizenship information. To secure this information, the applicant, client, or the Worker should complete a Form BC-600, Application for Search of Census Records for Proof of Age. Add in the remarks portion “U.S. citizenship data requested.” The application should also include the purpose is for Medicaid eligibility. This form requires a fee. |
| Other document as listed in the explanation that was created at least five years before the application for Medicaid or WVCHIP | This document must be one of the following and show a U.S. place of birth:  
- Seneca Indian tribal census record  
- Bureau of Indian Affairs tribal census records of the Navaho Indians  
- U.S. State Vital Statistics official notification of birth registration  
- An amended U.S. public birth record that is amended more than five years after the person’s birth  
- Statement signed by the physician or midwife who was in attendance at the time of birth |
| Institutional admission papers from a nursing home, skilled nursing care facility or other institution and was created at least five years before the initial application date and indicates a U.S. place of birth | Admission papers generally show biographical information for the person including place of birth; the record can be used to establish U.S. citizenship when it shows a U.S. place of birth. |
| Medical clinic, doctor or hospital record that was created at least five years before the initial application date and indicates a U.S. place of birth | Medical records generally show biographical information for the person including place of birth; record can be used to establish U.S. citizenship when it shows a U.S. place of birth.  
**NOTE:** An immunization record is not considered a medical record for purposes of establishing U.S. citizenship.  
**NOTE:** For children under 16, the document must have been created near the time of birth or five years before the date of application. |
| Roll of Alaska Natives | Individuals were required to demonstrate U.S. Citizenship as part of the application process to be included on the Roll. It contains individuals who were born prior to December 17, 1971. |
| Written Affidavit | Affidavits may only be used in rare circumstances. An affidavit by at least two individuals, one of whom is not related |
Fourth Level Documents | Explanation
--- | ---
to the applicant/client and who has personal knowledge of the event(s), would establish the applicant's or client's claim of citizenship. The person(s) making the affidavit must be able to provide proof of his own citizenship and identity for the affidavit to be accepted. If the affiant has information which explains why documentary evidence establishing the applicant's claim of citizenship does not exist or cannot be readily obtained, the affidavit should contain this information as well. It must also be signed under penalty of perjury by the person making the affidavit. A second affidavit from the applicant/client or other knowledgeable individual explaining why documentary evidence does not exist or cannot be readily obtained must also be requested. **NOTE:** Naturalized citizens can submit an affidavit to verify citizenship if this information cannot be found in the SAVE database.

7.4.3.E Evidence of Identity

When primary evidence of citizenship described above is not available, a lower-level form of evidence may be presented, if accompanied by an identity document from the list in the table below.

**NOTE:** To establish identity, a document must show evidence that provides identifying information that relates to the person named on the document.

Recently expired identity documents are acceptable when there is no reason to believe the document does not match the individual.

<table>
<thead>
<tr>
<th>Documents to Establish Identity</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certificate of Degree of Indian Blood, or other U.S. American Indian/Alaska Native tribal document.</td>
<td>Acceptable if the document carries a photograph of the applicant or client, or has other personal identifying information relating to the individual. See Section 7.4.3.A for members of a federally-recognized Indian Tribe.</td>
</tr>
<tr>
<td>Any identity document described in Section 274A(b)</td>
<td>The following are acceptable documents for Medicaid:</td>
</tr>
</tbody>
</table>
### Documents to Establish Identity

<table>
<thead>
<tr>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Driver's license issued by a state or territory, either with a photograph or other identifying information of the individual such as name, age, sex, race, height, weight, or eye color</td>
</tr>
<tr>
<td>School identification card with a photograph of the individual</td>
</tr>
<tr>
<td>School records, such as report cards. These must be verified with the issuing school.</td>
</tr>
<tr>
<td>U.S. military card or draft record</td>
</tr>
<tr>
<td>Identification card issued by the federal, state, or local government with the same information included on driver's licenses</td>
</tr>
<tr>
<td>Military dependent’s identification card</td>
</tr>
<tr>
<td>Native American Tribal document</td>
</tr>
<tr>
<td>U.S. Coast Guard Merchant Mariner card</td>
</tr>
<tr>
<td>Three or more corroborating documents to prove identity, such as a marriage license, divorce decree, high school, or college diploma, death certificate, employer ID card or property deed/title.</td>
</tr>
<tr>
<td>Clinic, doctor or hospital records</td>
</tr>
</tbody>
</table>

**NOTE:** For children under age 16, school records may include nursery or daycare records. If none of the above documents in the preceding charts are available, an affidavit may be used. An affidavit is only acceptable if it is signed under penalty of perjury by a parent or guardian and states the date and place of the birth of the child. An affidavit may be used for an individual under age 18 when both school photo ID cards and drivers’ licenses are not available in that area until that age.

**NOTE:** Disabled individuals in residential care facilities may use identity affidavits made by the residential care facility director or administrator.

**EXCEPTION:** A voter’s registration card or Canadian driver’s license cannot be used.

### 7.4.4 COLLECTIVE NATURALIZATION

The following documents establish U.S. citizenship for collectively naturalized individuals.
7.4.4.A Puerto Rico

- Evidence of birth in Puerto Rico on or after April 11, 1899, and the applicant's statement that he was residing in the U.S., a U.S. possession or Puerto Rico on January 13, 1941; or
- Evidence that the applicant was a Puerto Rican citizen and the applicant's statement that he or she was residing in Puerto Rico on March 1, 1917, and that he did not take an oath of allegiance to Spain.

**NOTE:** Birth certificates issued by the Commonwealth of Puerto Rico must have an issuance date of July 1, 2010, or later.

7.4.4.B U.S. Virgin Islands

- Evidence of birth in the U.S. Virgin Islands, and the applicant's statement of residence in the U.S., a U.S. possession or the U.S. Virgin Islands on February 25, 1927; or
- The applicant's statement indicating resident in the U.S. Virgin Islands as a Danish citizen on January 17, 1917, and residence in the U.S., a U.S. possession or the U.S. Virgin Islands on February 25, 1927, and that he did not make a declaration to maintain Danish citizenship; or
- Evidence of birth in the U.S. Virgin Islands and the applicant's statement indicating residence in the U.S., a U.S. possession or territory or the Canal Zone on June 28, 1932.

7.4.4.C Northern Mariana Islands (NMI) (formerly part of the Trust Territory of the Pacific Islands (TTPI))

- Evidence of birth in the NMI, TIPi citizenship and residence in the NMI, the U.S., or a U.S. possession or territory on November 3, 1986, (NMI local time) and the applicant's statement that he did not owe allegiance to a foreign state on November 4, 1986 (NMI local time); or
- Evidence of TIPi citizenship, continuous residence in the NMI since before November 3, 1981, (NMI local time), voter registration prior to January 1, 1975, and the applicant's
statement that he did not owe allegiance to a foreign state on November 4, 1986 (NMI local time); or

- Evidence of continuous domicile in the NMI since before January 1, 1974, and the applicant’s statement that he did not owe allegiance to a foreign state on November 4, 1986 (NMI local time).

**NOTE: If a person entered the NMI as a non-immigrant and has lived in the NMI since January 1, 1974, this does not constitute continuous domicile and the individual is not a U.S. citizen.**

---

### 7.4.5 DRIVER’S LICENSE DOCUMENTATION TO ESTABLISH BOTH CITIZENSHIP AND IDENTITY

Chapter 6036(a)(3)(B)(iv) of the DRA permits the use of a valid state-issued driver’s license or other identity document described in Chapter 274A(b)(I)(O) of the Immigration and Nationality Act, only if the state issuing the license or such document requires proof of U.S. citizenship before issuance of such license or obtains a Social Security Number from the applicant and verifies, before certification, that such number is valid and assigned to the applicant who is a citizen. West Virginia does not have these processes in place at this time. The West Virginia driver’s license is valid for identity verification only.

---

### 7.4.6 REASONABLE OPPORTUNITY

At the time of application or upon redetermination of benefits, all applicants and clients must be given a reasonable opportunity period to provide documents to establish U. S. citizenship or nationality.

---

#### 7.4.6.A Applicants

The reasonable opportunity period for applicants to provide documentation of citizenship is 90 days from the date the notice is received by the client. The assistance group (AG) is initially approved for Medicaid or WVCHIP, if otherwise eligible, pending receipt of State Verification.
Eligibility System (SVES) match information. A SVES data match confirming the data submitted by the state is consistent with SSA data is considered equivalent to a primary document verifying citizenship or nationality. If the SVES data match results in an inconsistency, the Worker should make a reasonable effort to identify and correct possible errors, e.g., misspellings or transposed numbers in the SSN, name, or date of birth, so the data can be resubmitted to SSA. If the inconsistency still cannot be resolved, the applicant must be notified and provided 90 days from the date the notice is received to provide satisfactory documentation of citizenship, or to resolve the inconsistency with SSA’s information. The applicant remains eligible for Medicaid or WVCHIP during this 90-day period. If citizenship documentation is not supplied within the reasonable opportunity period, Medicaid or WVCHIP is stopped after advance notice.

7.4.6.B Clients

Current Medicaid clients continue to receive benefits until determined ineligible. Medicaid is closed only after the client is given a reasonable opportunity period of 45 days to present evidence. This is the reasonable opportunity period for clients. The Worker may make an exception to the time limit when a client is making a good faith effort to provide the verification, but is unable to do so. The extension period may not exceed 45 days. Any exception must be recorded thoroughly in the eligibility system. The Worker must assist the client to secure verification if necessary.

**NOTE:** *Individuals who are ineligible for Medicaid coverage due to failure to supply citizenship/identity documentation cannot be approved for WVCHIP. These are individuals who qualify for Medicaid financially and otherwise, but lack the required documentation.*

7.4.7 APPLICANTS OR CLIENTS WHO REQUIRE ASSISTANCE

If the applicant or client is homeless, an amnesia victim, mentally impaired, or physically incapacitated and lacks someone who can act for the individual, and cannot provide evidence of U.S. citizenship or identity, the Worker should assist the applicant or client to document U.S. citizenship and identity.
7.4.8 NOTIFICATION AND FAIR HEARINGS

An applicant or client who fails to cooperate with presenting documentary evidence of citizenship may have benefits stopped after advance notice. Current notification procedures and appeal rights must be given if the individual fails to cooperate with the requirement to provide documentary evidence of citizenship.

8.1 INTRODUCTION

The resource development process is designed to enable WV WORKS and Medicaid clients to achieve financial independence.

The Worker assists clients in developing alternate or additional sources of income to reduce or eliminate the need for WV WORKS and Medicaid. Sections 8.2 – 8.5 contain the procedures and requirements that are applicable to the resource development process. Section 8.6 contains a description of the benefits for which a client may qualify, and referral instructions.
8.2 RESOURCE DEVELOPMENT AS AN ELIGIBILITY REQUIREMENT

It is a condition of eligibility for WV WORKS and some Medicaid coverage groups that clients take necessary steps to develop resources that may be available to them.

8.2.1 CHILD SUPPORT (WV WORKS AND MEDICAID)

This includes financial support for WV WORKS. Financial and medical support are among the services provided by the Bureau for Child Support Enforcement (BCSE) free of charge and on a voluntary basis for Medicaid.

See Chapter 18 and Chapter 23.3.

8.2.2 ENROLLMENT IN MEDICARE, PART A AND PART B (MEDICAID ONLY)

All applicants for and clients of Medicaid, who qualify for Medicare Buy-In, must enroll in Medicare, Parts A and B, unless an exemption to enrollment is met. Exemptions include, but are not limited to:

- No established record of birth, or
- The individual has other creditable health insurance and will be disadvantaged by Medicare enrollment.

See Section 8.6.2 for Medicare eligibility requirements and Section 25.2 for Medicaid coverage groups subject to Department of Health and Human Resources (DHHR) buy-in.

For Supplemental Security Income (SSI) recipients not Medicare-enrolled, but who appear eligible, see Section 25.3.2.A.

Individuals who meet all other Qualified Medicare Beneficiary (QMB), Supplementary Medical Insurance Benefits (SLIMB), and Qualified Individual (QI-1) eligibility requirements, but who are not yet enrolled in Part B, must be referred to the Bureau for Medical Services (BMS) Medicare Buy-In Unit by sending an email to dhhrmedicarebuyin@wv.gov. The message must contain the applicant's name, address, date of birth, and Social Security number (SSN). The Buy-In Unit contacts Social Security to facilitate enrollment. This avoids any late enrollment penalty that may apply to the individual and permits enrollment outside the yearly open enrollment period.
8.2.3 MEDICAID EXCEPTIONS

- Medicaid applicants/clients are not required to apply for or accept Supplemental Security Income (SSI).
- If the client has appealed a disability decision, he is not expected to accept a reduced amount of disability compensation pending completion of the appeal process.
- The Veteran's and Survivor's Improvement Act of 1978 provided Veterans Affairs (VA) pensioners receiving a pension in December 1978 the option of choosing to receive a higher "improved" pension after December 31, 1978. Some pensioners who chose this option lost Aid to Families with Dependent Children (AFDC) cash assistance eligibility due to higher income. Those who lived in states without a Medically Needy Program also lost Medicaid eligibility. To remedy this, Section 1133 of the Social Security Act allowed these pensioners to revert to their previous pension level to regain their benefits. Therefore, these VA pensioners who elected lower pensions cannot be required to reapply for the improved pension as a condition of eligibility for AFDC-Related Medicaid, even if the receipt of the improved pension did not or would not render them ineligible for the Department of Health and Human Resources' (DHHR) benefit.

8.2.4 WV WORKS EXCEPTIONS

WV WORKS clients are expected to take necessary steps to develop resources that may be available to them. The development of such resources is part of the Personal Responsibility Contract (PRC)/Self-Sufficiency Plan (SSP).

As such, the application is not held pending until the client initiates development of the resource. The same items listed above for Medicaid are also exceptions for WV WORKS clients, except WV WORKS clients must apply for and/or accept SSI benefits.
8.3 WORKER RESPONSIBILITIES

The responsibilities of the Worker in the resource development process includes the following.

8.3.1 IDENTIFICATION OF POTENTIAL BENEFITS

The Worker makes the determination of potential eligibility as appropriate, but at least at application and redetermination.

8.3.2 PROCEDURES AFTER IDENTIFICATION

The Worker must:

- Explain to the client how to apply for the benefit
- Explain to the client the consequences of failure to develop the resource
- Initiate the referrals to potential resources when appropriate
- Record case comments in the eligibility system for all actions taken in the process of developing potential resources
- Aid the client who needs help with the referral
- Monitor the client’s progress and take any indicated action
- Apply the penalty shown in Section 8.4 when the client fails, without good cause, to pursue the resource
8.4   PENALTY FOR FAILURE TO APPLY FOR OR RETAIN BENEFITS WITHOUT GOOD CAUSE

The penalties apply only when development and retention are a condition of eligibility. See Section 8.2.

The penalty imposed depends upon the source of the potential resource and who fails to meet the requirement, as follows.

NOTE: For WV WORKS benefits, a client who fails, without good cause, to develop and retain potential resources as identified in the Personal Responsibility Contract (PRC) or Self-Sufficiency Plan (SSP), has failed to adhere to the terms of his PRC/SSP.

The penalties below are not applied to WV WORKS benefits, but failure to comply may affect Medicaid. For ongoing cases, failure to comply without good cause will result in a sanction being imposed.

8.4.1   FAILURE TO ENROLL IN MEDICARE

Failure, without an exemption, to enroll in Medicare for the Medicaid applicants and clients specified in Section 8.2.2, results in denial of Medicaid or exclusion from the Medicaid assistance group (AG). When the individual is the only Medicaid AG member, Medicaid is closed. The individual remains ineligible until he enrolls.

8.4.2   OTHER BENEFITS

If an individual fails, without good cause, to take the necessary steps to develop a resource to which he is referred and which, if he were found eligible, would result in additional income or a medical benefit, the penalty is as follows.

8.4.2.A   SSI Medicaid

Medicaid for the individual who failed to comply is closed.
8.4.2.B  Supplemental Security Income (SSI)-Related Medicaid (Aged, Blind or Disabled)

Medicaid for the individual who failed to comply is closed or the application is denied.

8.4.2.C  Parents/Caretaker Relatives and Aid to Families With Dependent Children (AFDC)-Related Medicaid

If the individual who did not comply is a parent of a dependent child(ren), the application is denied or the AG closed.

If the individual is a caretaker relative, other than a parent, he is excluded from the AG.

The AG or individual remains ineligible until corrective action is taken.

8.4.2.D  Modified Adjusted Gross Income (MAGI) Medicaid

Medicaid for the individual who failed to comply is closed or the application is denied.
8.5 GOOD CAUSE FOR FAILURE TO APPLY FOR OR RETAIN BENEFITS

Good cause for failure of an individual to take the necessary steps to develop or retain a resource exist when the individual is unable to take the indicated action because of circumstances beyond his control, such as, but not limited to, illness, lack of transportation, etc.

For Medicaid only, good cause for failure to enroll in Medicare is described in Section 8.2.2.
8.6 POTENTIAL RESOURCES

The following describes potential resources for which the client may be eligible.

8.6.1 SOCIAL SECURITY ADMINISTRATION (SSA) BENEFITS

8.6.1.A Supplemental Security Income (SSI)

8.6.1.A.1 Requirements for Coverage

To meet eligibility requirements for SSI, the client must meet all of the following:

- Be age 65 or over, or blind, or disabled
- Be a United States (U.S.) citizen or a legally admitted noncitizen
- Not be residing in a public institution
- Have income and assets that are within SSI limits

8.6.1.A.2 Who Should Be Referred for SSI Benefits

Any adult or child who appears to meet the above criteria may be referred.

8.6.1.B Retirement, Survivors, and Disability Insurance (RSDI)

8.6.1.B.1 Requirements for Coverage

The RSDI program refers to retirement, survivors, and disability benefits paid to workers, their dependents, and survivors.
The wage earner must have credit for a certain amount of work under Social Security (i.e., the wage earner must meet a work requirement). Types of RSDI benefits and other eligibility requirements are as follows.

### Retirement Benefits

Retired wage earner must be age 62 or over.

### Disability Benefits

Wage earner must be under his full-retirement benefit age. This is based on his year of birth. He must meet the SSA definition of disability.

### Dependent and Survivor Benefits

- Age 60 or over – widow or widower of the deceased worker.
- Age 62 or over – spouse of a disabled or retired worker.
- Age 62 or over – former spouse of wage earner when not remarried.
- Age 50 or over – disabled widow or widower of the deceased wage earner.
- Disabled adult child of the wage earner – child must be unmarried, age 18 or over, and have a severe disabled that began before age 22. In order for the disabled adult child to receive benefits, his wage earner parent must be deceased or receiving retirement or disability benefits.
- Family benefits – a widow, widower, or spouse of a retiree can receive benefits at any age if the person takes care of a child who is under age 16 or disabled and receives benefits on the record of the retired or deceased individual.

To receive benefits from a retired or deceased parent, a child must be unmarried and under age 18, or under age 19 and a full-time elementary or secondary school student, or age 18 or older and have a disability that began before age 22. Eligible children include natural or adopted children, stepchildren, or dependent grandchildren.

### 8.6.1.B.2 Who Must Be Referred for RSDI Benefits

Clients who appear to meet the above criteria.
8.6.1.C Federal Black Lung Benefits

8.6.1.C.1 Requirements for Coverage

Federal Black Lung benefits are available to a wage earner who is totally disabled by Black Lung Disease as a result of exposure to coal dust while working in the coal mining industry in the U.S. and to certain dependents or survivors. More specifically, benefits may be available for:

- The wage earner.
- The spouse and unmarried children who are under the age of 18 (or under age 23 if in school).
- The wage earner’s widow or widower (regardless of age) and surviving dependent children (under age 18 or under 23 if in school) of the wage earner who was entitled to Black Lung benefits at the time of his death or who dies of Black Lung Disease.

Claims for Black Lung benefits are filed at the local SSA office. However, since 1973, the U.S. Department of Labor (DOL)’s Office of Workers’ Compensation has been responsible for administering the program, which includes making an eligibility decision and issuing the benefit payments once the local SSA office forwards the claim to the DOL. Because the local SSA office has no knowledge of the decision as to eligibility for the benefit, the Worker must follow up with the client to learn the outcome.

8.6.1.C.2 Who Must Be Referred for Black Lung Benefits

Clients who appear to meet the above criteria.

Clients who are referred to the SSA office for Black Lung benefits should be referred to the State Workers’ Compensation Fund to apply for Occupational Pneumoconiosis (State Black Lung benefits). See Section 8.6.5.A for details.

Additional information about Black Lung benefits may be found at the DOL’s website.
8.6.2 MEDICARE

Medicare is a health insurance program that is available to individuals who meet the following criteria.

The individual:

- Is a U.S. citizen or lawfully admitted alien who has resided in this country for five consecutive years; and
- Is age 65 or over; or
- Has received RSDI benefits based on a disability for 24 consecutive months, regardless of age; or
- Has received Railroad Disability Benefits based on total and permanent disability for 24 consecutive months. Railroad Disability Benefits based on occupational disability do not qualify the individual for Medicare; or
- Has End Stage Renal Disease (ESRD) or Amyotrophic Lateral Sclerosis (ALS).

Medicare, managed by Centers for Medicare and Medicaid Services (CMS), consists of three parts as follows.

8.6.2.A Medicare Part A – Hospitalization Insurance Benefits

To qualify for “premium free” Medicare Part A, the individual must meet a work coverage requirement or must be the surviving spouse of the individual. If the individual does not qualify for Medicare Part A because of lack of work coverage, he may purchase the coverage by payment of a monthly premium.

8.6.2.B Medicare Part B – Supplementary Medical Insurance

There is no work coverage requirement for Part B. Any citizen or legally admitted noncitizen who has resided in this country for five years and who is age 65 or over is eligible even though he may not be eligible for Part A.

Individuals enrolled in Part B pay a monthly premium. If the person is receiving RSDI or Railroad Retirement Benefits, the premium is deducted from his benefit. Otherwise, he must pay
the premium from his income. See Section 23.12 for Medicaid coverage groups for Medicare premium payments.

8.6.2.C Medicare Part D – Medicare Prescription Drug Benefit

An individual who is already enrolled in Medicare Part A or Part B may receive the Medicare Prescription Drug Benefit.

The Part D Prescription Drug Benefit is not administered by the SSA. The benefit is obtained by enrolling in a Prescription Drug Plan (PDP). Enrollees may pay a monthly premium, unless financially qualified for extra help, also known as the Low Income Subsidy (LIS). The extra help pays all or part of the drug benefit premium, co-pays, and deductibles that may be required. Workers must assist individuals who request LIS complete the LIS application. The application must be submitted on an original SSA form, the SSA-1020-OCR-SM, or submitted on the internet at www.ssa.gov/prescriptionhelp/.

Medicaid clients enrolled in Medicare automatically qualify for the extra help and will be automatically enrolled in a PDP. With a few exceptions, Medicaid will not pay for prescription drugs for individuals age 65 or over who are eligible for and do not enroll in a PDP. This also applies to Medicare-enrolled individuals under age 65 who are identified by the Department of Health and Human Resources (DHHR).

Additional information about the Prescription Drug Benefit and extra help is available at www.ssa.gov and www.medicare.gov.

8.6.2.D Automatic Enrollment of Individuals in Medicare

In the following circumstances, an individual is automatically enrolled in Medicare Part A. He is also automatically enrolled in Part B unless he specifically declines enrollment.

- When the individual is receiving RSDI, he is automatically enrolled by the SSA when he becomes eligible.
- When the individual is receiving Railroad Retirement Benefits, he is automatically enrolled by that Board when he becomes eligible.

Individuals who are automatically enrolled by the SSA are not referred for enrollment. However, at the time of application and redetermination, the Worker must identify each client who will be automatically enrolled before the next redetermination. The client must be asked to notify the
Worker when he receives his Medicare card. The Worker enters the claim number in the eligibility system.

8.6.2.E Who Must Be Referred for Medicare Enrollment

All Medicaid applicants and clients, age 65 or over, who are not enrolled, and all others who appear to meet the criteria in item 4 above, must be referred for enrollment. Failure to enroll for those eligible for Medicare Buy-In, and who do not meet an exemption described in Section 8.2.2., results in denial of the Medicaid application, removal from the Medicaid AG, or closure of the Medicaid AG.

8.6.2.F Use of MOBIUS Report WRCM260A – MA Turning 64 Yrs. and 9 Months and Reports from BMS

The Worker must use the MA Turning 64 Yrs. and 9 Months report in MOBIUS each month to ensure that individuals who are near the age for Medicare eligibility begin the enrollment process with the SSA. These individuals may enroll in Medicare Part D, the Prescription Drug Benefit, at this time also so prescription drug benefits are not delayed.

The eligibility system provides a letter to the client when his name appears on the report.

The letter informs the client to enroll in Medicare and inform him that his Medicaid will stop if he fails to comply and is not exempt from the requirement.

8.6.2.G Procedure for Referrals to the SSA

The Worker refers the client to SSA for any of the benefits listed above using the HS-3 or the verification checklist.

In addition, the Worker must instruct the client to phone or visit his local SSA office to file an enrollment application in accordance with local SSA procedures.

8.6.2.H Follow-Up When a WV WORKS Client Becomes Eligible for SSI
When a WV WORKS client becomes eligible for SSI, the SSA is required to count his share of the WV WORKS benefit as income.

The Worker must notify the local SSA Office when the individual(s) no longer receives WV WORKS. See Section 10.5.4 for cash assistance information requested by the SSA.

### 8.6.3 VETERANS AFFAIRS (VA) BENEFITS

VA Benefits include Pension Benefits, Compensation Benefits, and Aid and Attendance Benefits.

#### 8.6.3.A Pension Benefits

#### 8.6.3.A.1 Requirements for Coverage

Following are the coverage requirements for Pension benefits:

- The veteran must have at least 90 days of active duty service, with at least one day during a wartime period.

  The dates for such services are:

  - World War I (April 6, 1917 – November 11, 1918)
  - World War II (December 7, 1941 – December 31, 1946)
  - Korean Conflict (June 27, 1950 – January 31, 1955)
  - Vietnam Era (February 28, 1961 – May 7, 1975, for veterans who served in the Republic of Vietnam during that period; otherwise, August 5, 1964 – May 7, 1975)
  - Gulf War (August 2, 1990 – through a date to be set by law or Presidential Proclamation)

- In addition to meeting minimum service requirements, the veteran must be:
  - Age 65 or older;
  - Totally and permanently disabled;
  - A patient in a nursing home receiving skilled nursing care;
8.6.3.A.2 **Who May Receive Benefits**

The veteran, his wife, his dependent children who are unmarried and under age 18, or under 23 if in school, his dependent parents, and his unmarried disabled children of any age.

If the veteran who was eligible for VA Pension Benefits is deceased, his un-remarried widow and his dependent children, his dependent parents, and unmarried disabled children are eligible.

8.6.3.B **Compensation Benefits**

8.6.3.B.1 **Requirements for Coverage**

The applicant must be a veteran who is disabled by injury or disease incurred in or aggravated by active service in the line of duty. The veteran must have had wartime or peacetime service, and separated or discharged under conditions other than dishonorable.

8.6.3.B.2 **Who May Receive Benefits**

The following individuals may receive Compensation benefits:

- The veteran.

- The veteran's spouse, dependent children who are unmarried and under 18, or under 22 if in school, his dependent parents, and disabled children, if the veteran's benefit is based on 50% or more disability.

- The veteran’s surviving spouse, dependent children, his dependent parents, and disabled children, if the veteran died as a result of a service-connected cause, or if he was receiving benefits based on at least 10% disability.
8.6.3.C.1 Requirements for Coverage

Following are the coverage requirements for Aid and Attendance benefits:

• The veteran must be eligible to receive either of the other two benefits described above;
• The veteran must be in a nursing home; or
• The veteran is in his home and in need of in-home care; or
• The veteran’s eyesight is limited to a corrected 5/200 visual acuity or less in both eyes; or concentric contraction of the visual field to five degrees or less.

8.6.3.C.2 Who May Receive Benefits

The following individuals may receive Aid and Attendance benefits:

• The veteran who is in a nursing home or in need of in-home care, and also receives either Compensation or Pension Benefits.
• The widow of a deceased veteran who is in a nursing home or needs in-home care.
• The dependent parent(s) of the disabled or deceased veteran who is in need of nursing home or in-home care.

This special allowance is payable monthly in addition to Compensation Benefits paid to the veteran’s spouse or dependents.

Some veterans are eligible to receive education and housing benefits.

8.6.3.D Who Must Be Referred

Clients who appear to meet any of the criteria listed above.

8.6.3.E Procedure for Filing a Claim
Applications for Veterans Benefits can be secured by the applicant contacting the West Virginia Department of Veterans Assistance, the Red Cross, the Veterans of Foreign Wars of the U.S. (VFW), the American Legion, or the U.S. Department of Veterans Affairs (VA). Individuals can also receive assistance in filling out the application from these organizations.

If the veteran lives in West Virginia, his completed application is sent to the Philadelphia VA Regional Office. The address is:

- Department of Veterans Affairs
- Claims Intake Center
- Attention: Philadelphia Pension Center
- P.O. Box 5206
- Janesville, WI 53547-5206

If the veteran lives elsewhere in the state, his completed application is sent to the VA benefit office in Huntington to be processed. The address is:

- Huntington Regional Benefit Office
- 640 Fourth Avenue
- Huntington, WV 25701
- 1-800-827-1000

All applications must be accompanied by a medical report describing the nature of the disability. If the VA determines that additional medical information is needed, they arrange for examination at the nearest VA hospital or medical clinic.
8.6.4 UNITED MINE WORKERS OF AMERICA (UMWA) BENEFITS

8.6.4.A Requirements for Coverage

The miner must be at least 55 years old at the time of application, and he must have worked in the mining industry prior to January 1, 2012 for at least 20 years.

Benefits are also available to the following individuals:

• The wife of a retired miner and dependent unmarried children up to age 22.
• Parents of the deceased miner or of his spouse who have been dependent upon and living with the miner for at least one year.
• Spouses of deceased miners.

UMWA miners and retired miners and their families may receive medical insurance through the UMWA.

8.6.4.B Who Must Be Referred

Clients who appear to meet the above criteria.

8.6.4.C Procedures for Filing a Claim

Applicants may obtain the necessary application form and information from any UMWA local or district office or by writing to:

UMWA Health and Retirement Funds
2121 K Street, NW
Washington, D.C. 20037
Phone: 1-800-291-1425
8.6.4.D Referral Method

Potentially eligible individuals should be referred to the UMWA Local Union or to one of the Health Funds field offices listed on the UMWA website.

8.6.5 WORKERS’ COMPENSATION BENEFITS

The West Virginia Worker's Compensation Fund oversees two programs: Occupational Pneumoconiosis and Compensation for Injury or Occupational Disease.

8.6.5.A Occupational Pneumoconiosis (State Black Lung Benefits)

8.6.5.A.1 Requirements for Coverage

In order to receive Occupational Pneumoconiosis benefits, the individual must meet the following requirements:

- The claimant must have a medically determined pulmonary disorder as a result of exposure to dust at this place of employment.

- Generally, the individual must have been exposed to dust for a period of two continuous years and filed a claim within three years of his last exposure. However, regulations provide for exceptions to these time periods.

- The individual must be either totally or partially disabled as a result of a pulmonary disorder, except that if he has worked in an industry in which he is exposed to dust for 20 years or more, he need not have any degree of disability.

It should be noted that these benefits do not apply only to individuals who have worked in the mining industry, but that they also apply to employees in an industry in which he may be exposed to dust (e.g., glass factories, textile mills).

Benefits paid to individuals who qualify as a result of working in the mining industry are commonly referred to as "State Black Lung Benefits."
8.6.5.A.2 Persons Who May Receive Benefits

The following individuals may receive Occupational Pneumoconiosis benefits:

- Persons who are disabled from occupational pneumoconiosis.
- The spouse of the person described in item 1 above.
- Dependent children under age 18, if the primary wage earner died of occupational pneumoconiosis.
- Dependent children between the ages of 18 – 22, if full-time students, or over the age of 18, if they are disabled and the father died of pneumoconiosis.
- In certain cases, a dependent parent.

8.6.5.B Compensation for Injury or Occupational Disease

8.6.5.B.1 Requirements for Coverage

In order to receive benefits, the individual must have been injured on the job during the last two years while working for an employer who has paid into Worker's Compensation Fund.

8.6.5.B.2 Persons Who May Receive Benefits

The following individuals may receive compensation for injury or occupational disease benefits:

- A worker injured on the job while working for an employer who has paid into the Worker’s Compensation Fund.
- Surviving spouses of a worker who died as a result of a work-related injury.
- Dependent children under 18, if one of their parents died from a work-related injury.
- Dependent children ages 18 – 22, if they are full-time students, or over 18, if they are disabled and the parents died from a work-related injury.
- In certain cases, a dependent father or mother.
8.6.5.C  Who Must Be Referred for Worker’s Compensation Benefits

Clients who appear to meet the above criteria must be referred for Worker’s Compensation benefits. Individuals who are referred to apply for State Black Lung benefits should also be referred to the SSA to apply for Federal Black Lung benefits.

8.6.5.D  Procedures for Filing a Claim

8.6.5.D.1  Occupational Pneumoconiosis (State Black Lung Benefits)

Workers’ Compensation may be contacted at 1-888-4WV-COMP or locally in Charleston at (304) 926-3400. Information is available on their website.

8.6.5.D.2  Compensation for an Injury or Occupational Disease Application

Compensation for an Injury or Occupational Disease Application for benefits may be obtained at the following places:

- Doctors’ offices
- Hospital
- Employers

The claim must be filed within two years from the date of the injury.

8.6.6  UNEMPLOYMENT COMPENSATION INSURANCE (UCI)

UCI benefits are administered through WorkForce West Virginia. The purpose of these benefits is to maintain income to families during temporary periods of unemployment.
8.6.6.A Requirements for Coverage

In order to receive UCI benefits, the individual must meet the following requirements:

- Must be unemployed or under-employed.
- Must be able and willing to work.
- Must have worked in employment covered by the Unemployment Compensation regulations.
- Must have earned at least $2,200 in his base period. The base period is the first four out of the last five completed calendar quarters preceding the date of the claim.

8.6.6.B Who Must Be Referred

All parents/caretaker relatives, Aid to Families with Dependent Children (AFDC)-Related Medicaid and WV WORKS unemployed parents, and any other persons who appear to meet the above criteria must be referred.

8.6.6.C Procedures for Filing a Claim

All claims for UCI Benefits must be filed at the local WorkForce West Virginia Office.

8.6.7 RSDI BENEFITS

Railroad Retirement, Survivor, and Disability Insurance (RSDI) Benefits may be available to a railroad worker, his surviving widow, and dependent children. These benefits are administered through the Railroad Retirement Board.

8.6.7.A Requirements for Coverage

There are five types of benefits available through the Retirement Board.
8.6.7.A.1  Railroad Retirement Benefits

Retirement Benefits are available to railroad workers who are at least age 65 and have at least 10 years of railroad service.

A railroad worker may retire with reduced benefits at age 60, depending on his length of service.

8.6.7.A.2  Survivor Benefits

The following individuals may be eligible to receive survivor benefits.

- A widow who is caring for a child under age 18 or disabled
- A widow when she reaches age 60
- A widow age 50 who is permanently disabled and unable to work in regular employment
- An unmarried child under the age of 18 or under age 22 if a full-time student
- An unmarried child over age 18 if he became permanently disabled before age 22 and was dependent on the railroad worker

➢  Sickness Benefits

A railroad worker who is off work due to illness may be eligible to receive Sickness Benefits. A railroad worker may receive up to 60% of his salary.

➢  Unemployment Benefits

If a railroad worker is laid off, he may be eligible to receive unemployment benefits from the Railroad Retirement Board. In order to be eligible for these benefits, the railroad worker must meet the eligibility criteria similar to that for receiving UCI Benefits. A railroad worker is not eligible to receive both benefits. He can receive only the benefits from the Railroad Retirement Board.

8.6.7.A.3  Disability Benefits

Disabled railroad workers who have at least 10 years of service may qualify for benefits.
8.6.7.B Who Must Be Referred

Clients who appear to meet the above criteria.

8.6.7.C Procedure for Filing a Claim

The office shown below provides service for all counties in West Virginia except for the 12 listed below:

The District 153 Railroad Retirement Board
640 Fourth Avenue, Room 112
Huntington, WV 25701
Phone: 304-529-5561

OR

P. O. Box 2153
Huntington, WV 25721-2153

8.6.7.C.1 Filing a Claim: Berkeley, Grant, Hampshire, Hardy, Jefferson, Mineral, and Morgan Counties

Altoona, PA District Office
1514 – 11th Avenue
Altoona, PA 16603
Phone: 814-946-3601

OR

P. O. Box 990
Altoona, PA 16603-0990

8.6.7.C.2 Filing a Claim: Brooke, Hancock, Marshall, Ohio, and Wetzel Counties

Pittsburgh, PA District Office
8.6.8 GOVERNMENT SURVIVOR BENEFITS FOR ILLEGITIMATE CHILDREN

8.6.8.A Requirements for Coverage

Illegitimate children of federal government workers are eligible for benefits after the government worker dies, regardless of whether the child lived with the government worker or not, if they meet the following criteria:

- Be the child of a federal government worker who died on or after February 24, 1982.
- Have proof that he was actually the child of this government worker, such as a birth certificate, court order of support, or some other kind of proof.
- Must be under age 18.

If the child is eligible, he will receive monthly benefits.

8.6.8.B Who Must Be Referred

Clients who appear to meet the above criteria must be referred.

8.6.8.C Referral Method

The client must contact:

Office of Personnel Management Federal Building
1000 Liberty Avenue
Pittsburgh, PA 15222
Phone: (412) 722-2758

Information may be obtained online at www.opm.gov.
8.6.9 DISABILITY AND RETIREMENT BENEFITS

Any person who has been employed may qualify for disability, retirement, or pension benefits. The surviving spouse or dependents may also qualify for benefits.

8.6.10 INCOME PROTECTION INSURANCE

Clients may have insurance that provides a source of income or direct payments during periods of illness or recovery.

8.6.11 CHILD SUPPORT

The Bureau for Child Support Enforcement (BCSE) provides a structured method for development of financial and medical support from absent parents. Eligibility requirements and procedures are found in Chapter 18 and Chapter 23.

9.1 INTRODUCTION

The applicant must be notified in writing of the action taken on his application, and the client must be notified in writing, and usually in advance, of any action resulting in a change in benefits. Adverse actions, other than those specified in Section 9.3, require an advance notice period before any action is effective.

For Medicaid, the client may choose to receive notifications by regular post mail or electronically. If the client opts to receive his notifications electronically, he must provide his email address through inROADS or the Federally Facilitated Marketplace (FFM, the Marketplace). The client will then receive a confirmation email alerting him to access the notification in his account within one business day. In the event a notification is undeliverable electronically, the notification must be sent by post mail within three business days. The client may change the delivery route of his notifications at any time.

Form letters are available for most situations that require a notice. Printed copies of these forms are commonly referred to as “shelf documents” and are readily available in each office. These Worker-completed forms provide spaces for the required information. These letters must be prepared in duplicate, with one copy filed in the case record. Most client notification is accomplished with eligibility system letters. The eligibility system provides both system generated and Worker-requested letters. When the eligibility system automatically sends appropriate notice to the client, no additional notification is required. A history of notification letters sent to the client is stored in the eligibility system. No additional copies are required for the case record.

The instructions in this chapter apply to notification letters completed by the Worker. Information specific to long-term care assistance groups (AGs) is found in Chapter 24.

There are instances in which more than one action takes place simultaneously, such as approval for Medicaid and denial of Supplemental Nutrition Assistance Program (SNAP) benefits. One notification letter is sufficient in these situations provided:

- The details of all actions are contained in the letter;
- The one form letter used provides the client with all rights due him for all addressed issues; and
- Notice requirements for each benefit are met.

In addition to the client notification letter, the Worker must provide the client with calculations showing how eligibility and/or the amount of the benefit were determined. The Worker must also provide the client the opportunity to request a Pre-Hearing Conference and/or a Fair Hearing.

Appendix B contains a listing of Worker-completed notification letters and the corresponding eligibility system notification letters, when available.
9.2 NOTIFICATION OF ACTION TAKEN ON AN APPLICATION

These forms are used for notifying an applicant of the status of his application:

- DFA-6, Notice of Information Needed
- DFA-6A, Spenddown Explanation
- DFA-NL-6, Notice of Withdrawal of Application
- DFA-NL-A, Notice of Decision – Application
- DFA-20, Application Not Acted On Letter
- DFA-FS-15, Notification of Denial of Expedited Service (SNAP Only)

The final disposition of the application is reported to the client only on the DFA-NL-A or the DFA-NL-6.

When the DFA-NL-A is used, it must always be accompanied by the DFA-FH-1 Fair Hearing Request Form.

9.2.1 DFA-6, NOTICE OF INFORMATION NEEDED

The DFA-6 may be used during any phase of the eligibility determination process. At the time of application, it is given or mailed to the applicant to notify him of information or verification he must supply to establish eligibility. When the DFA-6 is mailed at the time of application, the client must receive the DFA-6 within five working days of the date of application.

If the client fails to adhere to the requirements detailed on the DFA-6, the application is denied or the deduction disallowed, as appropriate. The client must be notified of the subsequent denial by form DFA-NL-A.

This form also notifies the client that his application will be denied or a deduction disallowed, if he fails to provide the requested information by the date specified on the form. The Worker determines the date to enter to complete the sentence, "If this information is not made available to this office by..." as follows.

9.2.1.A Supplemental Nutrition Assistance Program (SNAP)

The date entered in the DFA-6 must be 10 days from the date of issuance.
If information involving an eligibility factor is not provided by the date indicated, and the client has not contacted the Worker to explain the delay, the application is denied using a DFA-NL-A. If eligibility is established, but the client does not provide proof of entitlement to a deduction, the deduction is not allowed, but the assistance group (AG) is approved. The DFA-NL-A is used for notification of approval.

Federal regulations require that the DFA-6 be given to the client no later than 30 days after the date of application. He must also be allowed 10 days to respond to the DFA-6. The Worker must issue benefits retroactive to the date of application if the client supplies the needed information within the 30-day time limit.

The section following the Worker’s signature must be completed for SNAP AGs only.

The Worker enters the date that is 60 days from the date of application. When the AG is denied for failure to provide information required to determine eligibility and subsequently provides the requested information within 60 days of the original application, a new DFA-2, Application for Benefits, is not required. If the information is not provided by the date requested, a DFA-NL-A must be sent for denial of eligibility.

9.2.1.B WV WORKS

The Worker and the applicant must agree upon the date entered in the DFA-6. If the form is mailed to the client, the Worker must use his judgment about a reasonable amount of time required for the client to provide the information. The date entered must be at least 10 days from the date of issuance and no later than 30 days from the date of application.

If the information is not provided by the date indicated, and the client has not contacted the Worker, the application is denied. The client must be notified by a DFA-NL-A. If eligibility is established, but the client does not provide proof of entitlement to a deduction, the deduction is not allowed. The AG is approved, and the client is notified by a DFA-NL-A.

9.2.1.C Medicaid and WVCHIP

The date entered in the DFA-6 must be at least 10 days from the date of issuance or a time agreed upon with the applicant. See Due Date of Additional Information in Section 1.6.4.
9.2.1.C.1 Evaluation for Non-Modified Adjusted Gross Income (MAGI) Coverage

Information regarding potential eligibility for non-MAGI Medicaid coverage groups, and the benefits and services afforded to the applicant in the non-MAGI coverage groups, will be provided to the applicant in the MAGI notice. A description of additional information needed to determine non-MAGI eligibility and how to apply will be provided to the applicant. The information should be sufficient to enable the applicant to make an informed choice.

9.2.2 DFA-6A, SPENDDOWN EXPLANATION

The date entered in the DFA-6 must be 30 days from the date of application when it is determined that the client will be required to meet a spenddown. The DFA-6A, Spenddown Explanation, must be attached to the DFA-6. In addition, the DFA-6 must indicate that evidence of medical expenses must be provided by the deadline date shown on the form, and the amount required to meet the spenddown must be specified. This is in addition to any other verification that may be needed.

If the AG did not appear to be subject to a spenddown when the DFA-6 was issued, but verification of or a change in income results in a spenddown prior to approval, a new DFA-6 is issued to obtain medical bills to establish eligibility. However, the time limit for providing medical expenses remains 30 days from the date of application.

9.2.3 DFA-NL-6, NOTICE OF WITHDRAWAL OF APPLICATION

If the applicant withdraws his application, the Worker must give or mail him a DFA-NL-6.

9.2.4 DFA-NL-A, NOTIFICATION LETTER: ACTION TAKEN ON YOUR APPLICATION

The DFA-NL-A is used for approvals and denials for all programs. The form is self-explanatory, but must provide the client with a full understanding of the reason for the action taken.
The Worker must use terms understandable to the client and avoid the use of agency jargon. Examples of proper and improper completion of sections of the form are shown in the table below.

<table>
<thead>
<tr>
<th>Improper Completion of the Form</th>
<th>Proper Completion of the Form</th>
</tr>
</thead>
<tbody>
<tr>
<td>The action taken on your application is as follows: your application has been denied.</td>
<td>The action taken on your application is as follows: Your application for SNAP benefits has been denied.</td>
</tr>
<tr>
<td>The reason for this action is as follows: failure to cooperate.</td>
<td>The reason for this action is as follows: You did not verify the amount of your earnings by 2/10/2016. Income must be verified before SNAP benefits can be approved. The penalty for not doing this is denial of the application.</td>
</tr>
<tr>
<td>The Department's policy requiring this action is found in: Chapter 1 of the Manual.</td>
<td>The DHHR’s policy requiring this action is found in &lt;insert section(s) reference&gt; of the Income Maintenance Manual (IMM).</td>
</tr>
</tbody>
</table>

In the space provided, the Worker must indicate the name, address, and telephone number of local agencies or organizations that provide legal services without charge. Use Appendix A to identify nearby providers of legal services.

The information that must be contained on the DFA-NL-A is found below, by program.

9.2.4.A Approvals

9.2.4.A.1 SNAP

The notice must include:

- The month of approval
- The amount of the benefit, pro-rated and ongoing
- The length of the certification period
- The reason for the approval
- The Manual section on which the decision is based and any other action taken
The amount of the benefits noted with an explanation if retroactive benefits are being issued.

### 9.2.4.A.2 WV WORKS

The notice must include:

- The month of approval
- The prorated and ongoing amounts of the benefit
- The reason for the approval
- The Manual section on which the decision is based and any other action taken

### 9.2.4.A.3 Medicaid and WVCHIP

The notice must include eligibility information:

- The date that the medical coverage begins and ends
- The reason for the approval
- The Manual section on which the decision is based
- Any other action taken

The notice must include information on the level of benefits and services approved including, if applicable:

- Any premiums
- Enrollment fees
- Cost sharing
- The right to appeal the level of benefits and services approved

The notice must include the:

- Changes in circumstances that must be reported
- Procedures for reporting any changes that may affect the client’s eligibility

For the Pregnant Women coverage group only, the notice must include:

- The fact that the client remains eligible for two months after the month in which the pregnancy ends.
9.2.4.B  Denials

The Worker completes the DFA-NL-A by indicating:

- The program for which benefits are being denied
- The reason for denial
- The name of the person whose income, assets, or other circumstances prevent approval
- The Manual section on which the denial is based.

If the denial is due to excessive assets, the notification letter must specify:

- The asset limit
- The total value counted for all the client's assets

For Worker-completed letters only, the letter must contain the following statement: "You may request a detailed accounting of the asset calculations used by the Department. If you so request, this will be mailed to you within five working days of receipt of your request. You may request this in writing, by phone, or in person." The eligibility system provides a detailed asset calculation with all notices of decision.

9.2.4.B.1  SNAP

When the applicant has a Supplemental Security Income (SSI) application pending with Social Security Administration (SSA), the SNAP denial notice must explain the possibility of Categorical SNAP Eligibility if the client’s SSI application is approved. He must be advised to contact the Department of Health and Human Resources (DHHR) upon SSI approval.

9.2.4.B.2  WV WORKS

If the AG is denied for WV WORKS and a child in the denied AG has an absent parent, the following statement must be shown on the denial letter: "You may still receive help in locating and obtaining support from the absent parent(s) of your child(ren). Please call the telephone number shown above and ask to speak to a Bureau of Child Support Enforcement (BCSE) Worker. You may also write or visit your local DHHR office for help."
9.2.5  DFA-20, APPLICATION NOT ACTED ON LETTER

If the application is not acted on within the required time limit, the Worker must send a DFA-20 to the applicant, informing him of the required information that DHHR has not received. The DFA-20 is sent at the time of the expiration of the maximum allowable time for acting on the application. When manually completed, a copy of the DFA-20 must be filed in the case record.

9.2.6  DFA-FS-15, NOTIFICATION OF DENIAL OF EXPEDITED SERVICE (SNAP Only)

The DFA-FS-15 must be used for each SNAP applicant who requests Expedited Service but does not qualify for it. The DFA-FS-15 is a Worker-requested notice in the eligibility system. When possible, the DFA-FS-15 must be given to the client at the intake interview. The case record must indicate that a DFA-FS-15 was given. A recording in case comments is sufficient for those AGs approved for Expedited Service and those AGs not requesting Expedited Service.
9.3 NOTICE OF ACTION RESULTING IN A CHANGE IN BENEFITS

Three forms are central to client notification of a change in benefits, whether this change occurs at redetermination, or as a result of a case maintenance activity.

- The DFA-NL-B, Notification Letter, Action Taken on the Benefits You Receive from DHHR is used to notify the client of an increase in benefits, of action taken resulting in no benefit change, and, in very few instances, of a decrease or case closure.
- The DFA-NL-C, Notification Letter: Pending Change In The Benefits You Receive, is used to notify the client of case closure or a decrease in benefits when advance notice is required. Advance Notice is required for most adverse actions, as defined below.
- DFA-FH-1, Pre-Hearing Conference and/or Fair Hearing Request Form, must always accompany the DFA-NL-B, DFA-NL-C, and DFA-WVW-NL-1.

In addition, these notices are used for client notification in certain circumstances:

- DFA-NL-5, Waiver of 13-Days Advance Notice,
- DFA-6, Notice of Information Needed and DFA-6A, Spenddown Explanation
- DFA-WVW-NL-1, Notice of Pending Reduction of Benefits (WV WORKS only)
- DFA-10, Appointment Letter

The use of each of these forms is described below.

NOTE: Client notification must be sent even when the only client in the AG dies.

9.3.1 ADVANCE NOTICE REQUIREMENTS

A client must receive advance notice in all situations involving adverse actions except those described in the Adverse Actions Not Requiring Advance Notice section below.

The advance notice requirement is that notification be mailed to the client at least 13 days prior to the first day of the month in which the benefits are affected.

NOTE: The date on the notice must be the date it is mailed.
# 9.3.1.A Adverse Actions Requiring Advance Notice

Adverse actions are defined by program as follows. Use the DFA-NL-C in these situations.

<table>
<thead>
<tr>
<th>Program</th>
<th>Adverse Actions</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>SNAP</td>
<td>AG closure&lt;br&gt;Decrease in SNAP benefit amount&lt;br&gt;Shortened certification period</td>
<td>The following are not adverse actions, but do require client notification:&lt;br&gt;• When the amount does not increase following a Supplemental Security Income (SSI) check reduction for repayment of an error caused by client’s intentional misrepresentation.&lt;br&gt;• When the benefit amount does not increase following a reduction, suspension, or termination of a federal, State, or local means-tested welfare or public assistance program due to the client’s failure to comply with the program’s requirements. This includes a reduction in WV WORKS benefits due to a sanction.</td>
</tr>
<tr>
<td>WV WORKS</td>
<td>AG closure, including closure due to imposition of the third or subsequent sanction&lt;br&gt;Reduction in the benefit amount including reductions due to imposition of the first or second sanction.&lt;br&gt;Removal of a client from the AG, when the benefit amount decreases</td>
<td>A special notice letter, DFA-WWW-NL-1, is required to impose a sanction based on failure to comply with the Personal Responsibility Contract (PRC) or Self-Sufficiency Plan (SSP). See Section 9.3.6 below.</td>
</tr>
<tr>
<td>Medicaid and WVCHIP</td>
<td>AG closure&lt;br&gt;Removal of a client from the AG</td>
<td></td>
</tr>
</tbody>
</table>
9.3.1.B Adverse Actions Not Requiring Advance Notice

The following adverse actions do not require advance notice; use the DFA-NL-B in these situations.

- When adverse action occurs as a result of a mass change initiated, such as:
  - The annual updates of SNAP allotments or deductions;
  - The annual Retirement, Survivors, and Disability Insurance (RSDI)/SSI updates;
  - A change in the WV WORKS benefit levels; or
  - A change in the Medically Needy Income Levels (MNIL).

- When the client has signed a DFA-NL-5, Waiver of 13-Day Advance Notice, to waive his right to a 13-day advance notice. See Section 9.3.

- For SNAP only: when the benefit is terminated or reduced as a result of a redetermination.

9.3.1.C Beginning and Ending of the Advance Notice Period

The 13-day advance notice period begins with the date shown on the notification letter. It ends after the 13th calendar day has elapsed. If the 13-day notice period ends on a weekend or holiday, the action is taken on the first subsequent workday.

**Advance Notice Period Example:** A DFA-NL-C is dated and mailed on October 18. The 13-day advance notice period begins October 18. The 13-day advance notice period ends at the close of the business day on October 31. The action is effective no earlier than November 1.

9.3.1.D Date Adverse Action May Be Taken

9.3.1.D.1 **Advance Notice Period Expires Before the First of the Following Month**

Usually the Worker will take the action in the eligibility system before the 13-day advance notice begins, in order to be effective the first day of the following month.
Advance Notice Expires Before the First of the Following Month Example:
Ms. Dahlia reports a change that requires advance notice. The Worker makes the change in the eligibility system on October 9. A DFA-NL-C is dated and mailed by the eligibility system on October 10. The 13-day advance notice period starts on October 10 and ends October 22. Since the advance notice period ends before November 1, the change is effective November 1.

9.3.1.D.2 Advance Notice Period Expires the First of the Following Month or Later

If the 13-day advance notice period does not expire until the first day of the following month or later, the change is not effective until the month following the end of the 13-day advance notice period.

Advance Notice Expires the First of the Following Month or Later Example:
A DFA-NL-C is dated and mailed on December 27. The 13-day advance notice period expires January 8. The change is effective February 1. The client is eligible to receive January benefits at the previous level.

9.3.1.D.3 Fair Hearing Requested after Receipt of DFA-NL-C

Requesting within Advance Notice Period

When the client requests a Pre-Hearing Conference or a Fair Hearing before the date of proposed closure or reduction, benefits are restored or reinstated immediately, whether or not the client requests reinstatement. If the client specifically requests benefits not be reinstated—verbally, by checking the appropriate section of the DFA-FH-1, or in some other written manner—no reinstatement action will be taken.

No change is made in AG status or benefit levels related to the current issue until a final decision is made as a result of a Pre-Hearing Conference or Fair Hearing.

Other changes may occur during the Hearing process. If this happens, the client must receive proper notification of these other changes. If the client does not request a Pre-Hearing Conference or a Fair Hearing on these subsequent changes, the changes are made, even though the first change is in Pre-Hearing Conference or Hearing status.

If the client requests a Pre-Hearing Conference or a Fair Hearing on the subsequent changes, the Worker must take action depending on whether the client requests a Pre-Hearing Conference or a Fair Hearing only.
### Pre-Hearing Conference Is Requested

The Worker must:

- Hold a Pre-Hearing Conference; and
- If the issue is not resolved, contact the Hearings Officer to see if all issues can be dealt with in one Hearing; and
- Continue benefits at the current level until the subsequent changes are resolved.

The Pre-Hearing Conference decision will be final unless the client continues with a Fair Hearing.

### Fair Hearing Only Is Requested

The Worker must:

- Contact the Hearings Officer to see if all issues can be dealt with in one Hearing, and
- Continue benefits at the current level until the subsequent changes are dealt with in a Hearing.

If the Department is upheld in the Hearing, the previously proposed action is taken without further notice to the client, and benefits in excess of the amount of entitlement, which were received after the month in which the DFA-NL-C was received, are subject to repayment requirements. For this reason, the client may return such benefits, or request that his benefits be stopped or reduced, while awaiting the outcome of the Pre-Hearing Conference or Fair Hearing. When the client makes such a request, the Worker takes the adverse action and sends the client a DFA-NL-B, confirming his request.

---

**SNAP ONLY EXCEPTION:** If the client did not complete a redetermination, benefits are not reinstated or continued. Benefits will be continued or reinstated only after the client completes a redetermination. If the SNAP certification period ends prior to the decision of the Hearings Officer, or prior to the Pre-Hearing Conference decision, the client is not entitled to benefits at the previous level or continued benefits.

---

**Requested after Advance Notice Period, But within 90 Days of the Effective Date of the Action**

Benefits are not reinstated or restored pending the Fair Hearing or Pre-Hearing Conference decision after expiration of the 13-day advance notice period.
9.3.2 DFA-NL-B, NOTIFICATION LETTER: ACTION TAKEN ON THE BENEFITS YOU RECEIVE FROM DHHR

The DFA-NL-B is used to notify a client of an increase in benefits, changes not affecting the benefit level, or an adverse action when no advance notice is required.

NOTE: The Pre-Hearing Conference and/or Fair Hearing request form, DFA-FH-1 must always be included with the DFA-NL-B and the appropriate computation forms.

9.3.2.A An Increase in Benefits

The client must be notified in writing any time there is an increase in benefits. The client must receive the notification prior to or at the same time he receives the increase.

In the space provided in the DFA-NL-B, the Worker must indicate the name, address, and telephone number of local agencies or organizations that provide legal services without charge. See Appendix A for a listing of Legal Aid offices.

An increase in benefits is defined below for each program and the following information must be contained on the DFA-NL-B when an increase in benefits occurs.

9.3.2.A.1 SNAP

An increase in benefit amount requires that the notice include:

- The present benefit amount;
- The increased benefit amount (i.e., "Your SNAP benefit amount is being increased from $100 to $120.");
- The date that the increase is effective;
- The reason for the increase;
- The length of the certification period;
- The Income Maintenance Manual (IMM) section on which the change is based; and
- Any other action taken.
9.3.2.A.2  WV WORKS

An increase in the benefit amount or the addition of another person to the AG, when the benefit amount increases, requires that the notice include:

- The present benefit amount;
- The increased benefit amount (i.e., "Your WV WORKS benefit is being increased from $262 to $301.");
- The date that the increase is effective;
- The reason for the increase, the IMM section on which the change is based; and,
- Any other action taken.

9.3.2.A.3  Medicaid and WVCHIP

The addition of a client to the Medicaid AG requires that the notice include:

- The name of the client being added;
- The date that the change is effective;
- The reason for the change;
- The IMM section on which the change is based; and
- Any other action taken.

9.3.2.B Changes Not Affecting the Benefit Level

The client must be notified of all changes made, even when the benefit level is not affected, such as a transfer to another county or a change in payee. When the DFA-NL-B is used for this purpose, the following information must be included:

- Specific information about what the change is;
- The date the change is effective;
- The reason for the change;
- The IMM section on which the change is based, if applicable; and
- Any other action taken must be included on the form.
Change of Address Example: “You have reported that you moved to Kanawha County. Your case has been transferred to the Kanawha County office effective August 1, 2016, which is located at: 4190 W. Washington Street, Charleston, West Virginia. Your new Worker is: Angelica Smith.”

9.3.2.B.1 SNAP

The following are not adverse actions, but do require client notification using the DFA-NL-B:

- When the benefit amount does not increase following an SSI check reduction for repayment of an error caused by the client’s misrepresentation.
- When the benefit amount does not increase following a reduction, suspension, or termination of a federal, State, or local means-tested welfare or public assistance program due to the client’s failure to comply with the program’s requirements. This includes WV WORKS sanctions.

When used to notify the client of the actions above, the DFA-NL-B must:

- Specify that SNAP benefits would normally increase following a reduction in income, but since the client caused these reductions by his own actions, benefits will not increase; and
- Indicate which agency made the determination of the client’s failure to comply.

9.3.2.C Adverse Actions Not Requiring Advance Notice

For the adverse actions listed in 9.3.1.B that do not require advance notice, use DFA-NL-B.

The following items indicate the information that must be contained on the DFA-NL-B when it is used as a notice of adverse action.

NOTE: When a DFA-NL-B is used to notify the client of an adverse action, and the client requests a Hearing or Pre-Hearing Conference, benefits are not continued or reinstated pending a decision. In the space provided, the Worker must indicate the name, address, and telephone number of local agencies or organizations that provide legal services without charge. See Appendix A.
NOTE: If the closure is due to excessive assets, the notification letter must specify the asset limit and the total value counted for all the client's assets.

For Worker-completed letters only, the letter must contain the following statement: "You may request a detailed accounting of the asset calculations used by the DHHR. If you so request, this will be mailed to you within five working days of receipt of your request. You may request this in writing, by phone, or in person." The eligibility system provides a detailed asset calculation with all notices of decision.

9.3.2.C.1 SNAP

The notice must include:

- The fact that the SNAP AG is closed or the benefit amount has decreased;
- The date the action becomes effective;
- The reason for the action;
- The IMM section on which the decision is based; and
- Any other action taken.

NOTE: If the SNAP benefits decrease only because of an increase in the WV WORKS payment, the Worker must complete two separate notices, to be mailed on the same day.

1. The DFA-NL-B is used to notify the client of the increase in the WV WORKS benefit amount.
2. The DFA-NL-C is used to notify the client of the decrease in SNAP benefits.

The DFA-FH-1 is attached to the DFA-NL-B and the DFA-NL-C. Appropriate computation forms must also be attached.

9.3.2.C.2 WV WORKS

The notice must include:

- That the benefit is being stopped or reduced;
• The date the action is effective;
• The reason for the action;
• The IMM section on which the decision is based; and
• Any other action taken.

### 9.3.2.C.3 Medicaid and WVCHIP

The notice must include:

• The specific action being taken;
• The date that the action is effective;
• The reason for the action;
• The IMM section on which the decision is based; and
• Any other action taken.

The following must be included as appropriate:

• For Closures: The fact that the Medicaid AG is being closed.
• For Removal of a Client from the Medicaid AG: The name of the client being removed.
• For a Change to a Spenddown AG: The fact that the eligibility status has changed, reason for and the effective date of the change, beginning and ending dates of the new Period of Certification (POC).

### 9.3.3 DFA-NL-C, NOTIFICATION LETTER: PENDING CHANGE IN THE BENEFITS YOU RECEIVED

A DFA-NL-C, Notification Letter: Pending Change In The Benefits You Receive, is used to notify a client of an adverse action in situations requiring a 13-day advance notice period except as described above.

*NOTE: The Pre-Hearing Conference and/or a Fair Hearing Request Form, DFA-FH-1, must always be included with the DFA-NL-C and the appropriate computation forms.*

Instructions for completion of the DFA-NL-B in the Adverse Actions Not Requiring Advance Notice section 9.3.2.C above also apply to the DFA-NL-C.
9.3.3.A SNAP

When a DFA-NL-C is sent to a SNAP AG that contains an ABAWD, the ABAWD-1, Important SNAP Information for Able Bodied Adults Without Dependents, form will be provided. This applies to all issuance-limited counties.

If the SNAP benefit amount is reduced or terminated within the certification period because a member is disqualified, the reason for the disqualification, the eligibility, and benefit level of the remaining AG members and the action the AG must take to end the disqualification, if applicable, must be shown on the form.

9.3.4 DFA-5, WAIVER OF 13 DAYS’ ADVANCE NOTICE

Form DFA-NL-5 is used when the information that results in an adverse action is undisputed by the client, he agrees with the action to be taken on his case and understands that he is entitled to receive benefits if the 13-day advance notice requirement is not waived. The waiver allows DHHR to make the change without application of the 13-day advance notice requirement.

If the proposed adverse action normally requires a DFA-NL-C, but the client signs a DFA-NL-5, the Worker sends a DFA-NL-B instead of a DFA-NL-C.

The DFA-NL-5 must be completed in a face-to-face interview. It is completed in duplicate and must be signed by an adult AG member. The original is given to the client, and the copy is filed in the case record.

**EXCEPTION:** The DFA-NL-5 can be mailed to a client who moves to another state and is unable to comply with the face-to-face interview requirement. Supervisory approval is required and the Worker must completely fill out the form before it is mailed. A written explanation of the effect of signing the form must accompany the form.

Under no circumstances are blank DFA-NL-5s to be signed and used at a later date. It is always the client's option to sign or not to sign the form.

**Change of SNAP AG Example:** Fern moves from SNAP AG 1 to SNAP AG 2 on June 20 and reports this the same day. His removal from AG 1 is an adverse action requiring 13 days’ notice. He cannot be included in AG 2 for July because he will still be included
in AG 1. However, AG 1 signs a DFA-NL-5 to waive the right to advance notice. He can be removed from AG 1 and included in AG 2 effective July.

9.3.5 DFA-6, NOTICE OF INFORMATION NEEDED; DFA-6A, SPENDDOWN EXPLANATION

If, at redetermination, or the time of any other change in client circumstances, it becomes clear that additional information or verification is needed, the DFA-6 is used to notify the client in writing of the needed information and the date by which the information must be received.

The DFA-6A is used in addition to the DFA-6 when it is necessary to explain the spenddown process to the client.

9.3.5.A Case Maintenance for All Programs

The date entered in the DFA-6 must be at least 10 days from the date the DFA-6 is completed. If the client fails, without good cause, to provide the information by the established date, a DFA-NL-C must be sent to notify the client of the failure and the resulting case action.

9.3.5.B Supplemental Nutrition Assistance Program (SNAP) Redeterminations

The date entered in the DFA-6 must be at least 10 days from the date of the DFA-6. If the information is not available by the date indicated, and the client has not contacted the Worker, the assistance group (AG) is closed or the deduction disallowed. The client must be notified of the denial or disallowance of a deduction by form DFA-NL-B, Notification Letter: Action Taken On The Benefits You Receive From The DHHR. Benefits must not be continued beyond the certification period, unless a redetermination is completed and the client remains eligible. See Section 1.4.

9.3.5.C Medicaid and WVCHIP Redeterminations

All data sources, electronic or otherwise, must be checked before verification is requested for MAGI Medicaid.
9.3.6 DFA-WVV-NL-1, NOTICE OF PENDING REDUCTION OF BENEFITS

The DFA-WVV-NL-1 is used only for WV WORKS and only when the imposition of a sanction for failure to adhere to the terms of the PRC/SSP is involved.

The DFA-WVV-NL-1 must always be used with the Pre-Hearing Conference and/or a Fair Hearing request form, DFA-FH-1, and the appropriate computation forms.

Instructions for completion of the DFA-NL-B (see Section 9.3.2 above) also apply to completion of the DFA-WVV-NL-1. In addition, there is space on the form for the Worker to schedule a good cause interview. The interview must be scheduled for a date that allows the client to attend the interview and to comply with the PRC/SSP requirements before the advance notice period expires. The good cause interview must be scheduled no less than seven calendar days beginning with the date the letter is requested in the eligibility system or with the date a manual letter is sent. If the letter is hand delivered, case comments must be made indicating the date the letter was given to the client. If the good cause interview is scheduled for a date prior to the seven days, the client and the Worker must agree on the date.

All other policies and procedures that normally apply to the DFA-NL-C apply to the use of the DFA-WVV-NL-1. See Section 9.3.3 above.

9.3.7 DFA-FH-1, THE PRE-HEARING CONFERENCE AND / OR FAIR HEARING REQUEST FORM

The DFA-FH-1 is used to request a Pre-Hearing Conference and/or Fair Hearing and must be used when a DFA-NL-A, DFA-NL-B, DFA-NL-C, or DFA-WVV-NL-1 is issued.

If more than one notification letter is sent at the same time, the DFA-FH-1 must be sent with each notification letter.

WV WORKS Increase Affects SNAP Example: Mr. Beech experiences a change that increases his WV WORKS benefit amount. His SNAP benefits decrease, solely due to the increase in the WV WORKS benefit. The system prepares a DFA-NL-B to address the increase in WV WORKS and prepares a DFA-NL-C to address the decrease in SNAP and attaches form DFA-FH-1 to both.
9.3.8 DFA-10, APPOINTMENT LETTER

The DFA-10 is used to notify the client of the time and place of an appointment. These appointments are usually scheduled for redeterminations. However, the form can be used to notify the client of an appointment when a face-to-face contact is indicated for a case maintenance activity.

If the client fails to keep the appointment, the Worker must send a DFA-NL-C prior to AG closure, except for closures resulting from failure to complete a SNAP redetermination. A DFA-NL-B is used in this situation.

For SNAP AGs, the DFA-10 serves as the first notification of the end of the certification period. When Worker-completed, the original DFA-10 is mailed or given to the client, and a copy is filed in the case record.
9.4 COMPUTATION FORMS

The Department of Health and Human Resources (DHHR) is required to provide the client with the calculations used to determine eligibility and benefit level. The following forms must be used. If a computation form is not available, the Worker must prepare a letter explaining the computation. When manually-prepared, the original is sent with the notification letter, and a copy is retained in the case record.

Each of the following forms is self-explanatory. They guide the Worker through the various steps of the income calculations.

9.4.1 DFA-NL-SNAP-1, SNAP COMPUTATIONS

This form must be sent with each DFA-NL-A sent for approval of SNAP benefits and to each applicant denied for income reasons.

In addition, it must be sent with each DFA-NL-C and each DFA-NL-B sent for notification of an increase, decrease, or closure of SNAP benefits, when recalculations of income eligibility or benefit level are required.

9.4.2 IM-WVW-1, WV WORKS COMPUTATIONS

This form must be sent with each DFA-NL-A sent to the client for approval of WV WORKS benefits and to each applicant denied for income reasons.

In addition, it must be sent with each DFA-NL-A and DFA-NL-C sent for notification of ineligibility due to income reasons.

9.4.3 DFA-NL-MN-1, AFDC-RELATED MEDICAID COMPUTATIONS

This form must be sent with each DFA-NL-A sent for approval of AFDC-related Medicaid benefits.

In addition, it must be sent with each DFA-NL-C and DFA-NL-B sent for changes in the spenddown amount.
9.4.4 IM-SSIR-1, SSI-RELATED MEDICAID COMPUTATIONS AND DEEMING FORMS: IMM-SSIR-1A, IM-SSIR-1B, IM-SSIR-1C

This form must be sent with each DFA-NL-A sent for approval of SSI-related Medicaid benefits. In addition, it must be sent with each DFA-NL-C and DFA-NL-B sent for changes in the spenddown amount.

There are three forms used to calculate the amount of income deemed to an SSI-related Medicaid client, as follows:

- IM-SSIR-1A Deeming to Spouse
- IM-SSIR-1B Deeming to Child
- IM-SSIR-1C Deeming to Spouse and Child

9.4.5 WV WORKS REPAYMENT COMPUTATIONS

Computation of the WV WORKS overpayment amount must be provided to the client upon request. The form must be mailed to the client or the client's representative within five working days of the receipt of the request. If time permits, the form may be prepared and given to the client during an office interview.

9.4.6 IM-NL-QMB-1, QUALIFIED MEDICARE BENEFICIARIES (QMB) SPECIFIED LOW-INCOME MEDICARE BENEFICIARIES (SLIMB) AND QUALIFIED INDIVIDUALS (QI-1)

This form must be sent with each notification of approval, denial, or ineligibility based on income for QMB, SLIMB, or QI-1 applicants or clients.

9.4.7 IM-NL-AC-1, ASSET COMPUTATIONS

Asset computations must be provided to the client upon request. The form must be mailed to the client or the client's representative within five working days of receipt of the request. If time permits, the form may be prepared and given to the client during an office interview.
The Worker must designate the program(s) for which the form is being completed and the appropriate asset limit. If two or more programs' assets are being shown on the same form, and an asset is excluded for one program but not others, the Worker must show for which program(s) the asset was counted under "Additional Information." This same section is also used for any special considerations given to an asset, such as "jointly-owned but fully available" or "cash-in value only counted."

In the column headed, "Value (How Obtained)," the Worker must indicate the source of information used to determine the value, such as NADA Book for vehicle values, Client’s Statement, Bank Statement of (date) and/or Vehicle Estimate.
9.5 1095-B VERIFICATION OF MINIMAL ESSENTIAL COVERAGE

9.5.1 WHO MUST FILE FORM 1095-B

Medicaid and the West Virginia Children's Health Insurance Program (WVCHIP) provide health benefits coverage designated as Minimum Essential Coverage (MEC) under Section 5000(f) of Subtitle D of the Internal Revenue Code (IRC). The Affordable Care Act added Section 6055 to the IRC, which requires that every provider of MEC will report coverage information by filing an information return with the Internal Revenue Service (IRS) and by furnishing a statement to covered clients.

Medicaid and WVCHIP are required to file an annual 1095-B statement to clients enrolled in MEC, and to send an electronic copy of the same information to the IRS. The IRS requires a report on Form 1095-B for every client covered by MEC and for every month of coverage. Even if the client had only one day of coverage, it is reported as a month of coverage.

The information furnished and reported is used by individuals and the IRS to verify the months in which clients were covered by MEC and, therefore, have satisfied the individual shared responsibility requirement of Section 5000A of the IRC.

9.5.2 FURNISHING FORM 1095-B

The eligibility system will automatically send the 1095-B form to the responsible individual(s) by postal mail. The 1095-B forms must be sent on or before January 31 of the year following the calendar year in which MEC is provided.

The eligibility system will electronically send the 1095-B forms, along with form 1094-B, Transmittal of Health Coverage Information Returns, to the IRS. The forms must be submitted to the IRS on or before March 31 of the year following the calendar year in which MEC is provided.

9.5.3 CORRECTIONS AND REPLACEMENTS TO FORM 1095-B

When the Medicaid or WVCHIP client identifies an error on his 1095-B form, he must have a corrected 1095-B form manually generated.
When requested, the Worker must reprint a damaged or lost 1095-B form for the client.

9.5.4 ADDITIONAL WORKER RESPONSIBILITIES

The Worker should be able to answer basic questions regarding the 1095-B, Verification of Minimal Essential Coverage, form. The Worker should not provide tax advice, such as whether a tax return is required, how to fill out IRS forms, or what to claim on a tax return. The Worker should direct clients to the IRS website for answers to tax-related questions.

WEST VIRGINIA DEPARTMENT OF HEALTH AND HUMAN RESOURCES (WV DHHR)
PRE-HEARING CONFERENCE AND/OR FAIR HEARING REQUEST FORM

If you disagree with the decision made on your application or the proposed changes in your benefits, you may ask for a Pre-Hearing Conference, a Fair Hearing or both, either orally or in writing. You have the right to be assisted and/or represented by a person of your choice at the Pre-Hearing Conference/Fair Hearing. This person may be a friend, relative, attorney or any other person.

A Pre-Hearing Conference is an informal meeting with you and any person(s) you choose to have with you, your Worker and the Supervisor. This meeting is to explain anything you have questions about and for you to explain your situation. This Conference may resolve the problem and eliminate the need for a Fair Hearing. If not, you may proceed with a Fair Hearing.

A Fair Hearing is a meeting with you and anyone you choose to have with you, a State Hearings Officer, the Department’s representative and any witnesses you or the Department believes can provide appropriate evidence. The Fair Hearing process is designed to make sure the Department took the correct action on the issue(s) involved.

If you ask for a Pre-Hearing Conference and/or a Fair Hearing, due to a decrease or closure of your benefits before the date of the proposed closure or reduction, your benefits will not be reduced or stopped, pending a final decision. Otherwise, the change will be made, and you may ask for a Fair Hearing or Pre-Hearing Conference within 90 days of the effective date of the actions. **NOTE:** If your benefits are being reduced or stopped due to a SNAP Review, a Mass Change (such as the annual Social Security increase) or because you signed a form giving up your right to receive advance notice of this change, your benefits will not be continued, even if you request it, but a hearing will be held.

The DHHR Worker will help you make arrangements for transportation to any fair hearing if you cannot provide your own transportation and you so request. Your hearing may also be conducted by phone. Also, the Worker will help you prepare for the Fair Hearing, if you so request. To call Client Services in Charleston toll-free, dial 1-800-642-8589.

If you wish to have a Pre-Hearing Conference and/or Fair Hearing, please check below and return the bottom section of this form to your local DHHR Office. The address is on the top of the enclosed notice or can be provided to you by Client Services. You may review the materials in your case record during normal business hours. If you request, we will send you a copy of the Manual Material or you may view and print the manual material yourself on the internet at [http://www.wvdhhr.org/bcf/family_assistance/policy.asp](http://www.wvdhhr.org/bcf/family_assistance/policy.asp).

- [ ] I would like to have a Pre-Hearing Conference with my Worker and/or the Supervisor. (You may have a Conference before the Fair Hearing and then proceed with the Fair Hearing if you are not satisfied.)
- [ ] I want a Fair Hearing before a State Hearings Officer. (You may have a Fair Hearing without a Pre-Hearing Conference.)
- [ ] I wish to have my Fair Hearing by phone.
- [ ] Please send me the Manual section on which the decision was based.
- [ ] I do NOT wish to continue receiving benefits while pending a Pre-Hearing Conference or a Fair Hearing decision. If the Department’s decision is not upheld at the Pre-Hearing Conference or
Fair Hearing, DHHR will pay you any benefits you missed during the Pre-Hearing Conference/Fair Hearing process.

10.1 INTRODUCTION

Case maintenance is used to describe all activities that are required between assistance group (AG) approval and the first redetermination, and between subsequent redeterminations, to ensure only eligible clients receive benefits and the benefit amounts are correct.

The process requires clients to report specific changes in circumstances to the Department of Health and Human Resources (DHHR). The primary source of such information is expected to be the client, but information from all sources is considered. The Worker is then required to take all necessary action to update the client's case record and eligibility system case, when appropriate. When any case maintenance activity results in AG closure or a change in the benefit level, the Worker must notify the client. Some changes, such as an address change, require client notification even when the benefit is not affected. See Chapter 9.
10.2 COMMON INFORMATION

10.2.1 GENERAL SOURCES OF INFORMATION

The need for case maintenance originates from many sources. The following general list of sources applies to all programs and Medicaid coverage groups. More specific information about these sources and others is found in the program-specific sections that follow.

- The client.
- An individual acting for the client.
  - The client may ask someone to act on his behalf. When an individual, other than the client, reports information about the client, no action is taken based on such information until it is confirmed by the client. The Worker must initiate contact with the client, when required by the program.

  The case recording must state the source of information, whether or not the client confirmed the information, or the reason confirmation was not obtained.

**EXCEPTION: In the following circumstances, action is taken without client confirmation:**

- The client is a child, and the information is reported by a parent, or by another individual who applied for the child.
- The individual is the appointed legal representative for the client. This includes, but is not limited to, a conservator, Power-of-Attorney (POA), Authorized Representative, or committee.
- The information is provided by the client’s spouse, who is living with him, or would be living with him, if he were not institutionalized.
- The client is unable to act for himself because of mental or physical illness, and there is no reason to doubt the motives or competency of the individual who supplies the information.
- For the Supplemental Nutrition Assistance Program (SNAP), the individual is the client's Authorized Representative(s) or Authorized Cardholder(s).

- Complaints about the client.
Individuals in the community and other Department of Health and Human Resources (DHHR) employees may report information to the DHHR that has a bearing on the client's eligibility. The report may be in the form of a complaint about the client or a claim that he is receiving benefits fraudulently. If the reported information would have no effect on eligibility for the specific program, this must be explained to the individual providing the information, without confirming that the client receives such benefits or revealing any case information. The nature of the complaint must be recorded in the case record, but not the name of the complainant.

If the reported information is true, and would have a bearing on eligibility or the benefit level, the Worker must contact the client to confirm the information, keeping in mind the assistance group’s (AG's) reporting requirements. Verification may be requested, if appropriate. The Worker must not take action, or indicate he is taking action, until the complaint is substantiated. When the complaint involves allegations of fraud, the Worker must determine if there is reason to believe the client committed fraud. If so, and the amount is $500 or more, the Worker must make a referral to Investigations and Fraud Management (IFM). See Chapter 11.

**Reporting Example 1**: A woman calls to report her neighbor’s oldest son moved out of the home and the neighbor has purchased a new vehicle. After reviewing the case, the Worker finds that the AG is receiving SNAP benefits only and is not required to report changes except when the AG’s income exceeds 130% Federal Poverty Level (FPL). The Worker thanks the caller for her information and explains that countable assets and reporting requirements differ among programs. The information is noted in case comments and explored at the next scheduled redetermination.

- Information from other offices or bureaus within the DHHR.
- Data system matches and case maintenance functions. Each program has specific reports and other case maintenance functions. See program-specific information.

The following information provides procedural instructions for case actions common to all programs.

---

**10.2.1.A County Transfers**

---

When a client moves to another county, eligibility system action is taken immediately to change the address and transfer the case. The eligibility system notifies the local office in the client’s new location electronically of the case name, case number, new address, effective date of the
transfer, and any other pertinent information the new county of residence needs before receipt of the case record, such as a redetermination due or overdue or a domestic violence situation.

When an Issuance Limited County (ILC) receives a transferred case, the Worker/Supervisor must evaluate Able-Bodied Adults Without Dependents (ABAWD) exemptions and the number of countable months received in an ILC. A referral to SNAP Employment and Training (E&T) must be completed, if necessary.

The Worker forwards the case record and any separate file that contains information about a domestic violence situation to the new local office within 10 days. A memorandum is attached to the case record. In addition to case name and case number, the memorandum must include the new address, type of benefit and/or services being received, and the date the case is due for redetermination. If the client is in a nursing facility, this is indicated. A copy of this memorandum is retained in the closed files of the originating office. If the case is active with the Office of Children and Adult Services or Bureau for Child Support Enforcement (BCSE), the Worker must notify the other units of the transfer electronically or by DHS-1.

The Worker must also ensure the transfer of the electronic file from the document imaging system to the new county.

10.2.1.B AG Closures

When a client's circumstances change so that he becomes ineligible, the AG is closed. In some situations, the AG is automatically closed by the eligibility system. However, most AG closures are completed by the Worker. AG closures usually involve failure to continue to meet an eligibility requirement. These are addressed in the program-specific items that follow. The closures described below are related to general requirements, common to all programs.

10.2.1.B.1 Automatic Closures

AGs are automatically closed by the eligibility system under the following circumstances:

- An AG redetermination is not completed by the adverse action date in the month the AG is due for redetermination
- Phase II of Transitional Medicaid (TM) ends
- Extended Medicaid coverage ends
- Medically Needy spenddown AG is at the end of the period of consideration (POC)
10.2.1.B.2 Closure Due to Loss of Contact

Loss of contact occurs when the client moves and does not notify the DHHR. The Worker may become aware of this when a support services payment, Medical ID card, or other correspondence is returned. The Federal Data Hub may also indicate a client’s updated address.

The Worker must first check the address in the eligibility system. If it is incorrect due to a data entry error, the Worker must correct it and release the benefit(s) to the correct address. For Supplemental Security Income (SSI) Medicaid recipients, the Worker must check State On-Line Query (SOLQ).

If the address is correct and/or the United States Postal Service (USPS) indicated a new address on the returned correspondence, the Worker sends a DFA-6 to the client’s new address. If the DFA-6 is returned as undeliverable, or if the client does not report his new address by the date indicated on the form, the AG is closed, after advance notice. If the USPS indicates no new address on the returned correspondence, the AG is closed, after advance notice.

NOTE: This does not apply to Medicaid for Continuous Medicaid Eligibility (CME) AGs. The AG remains open until the next redetermination.

For SNAP AGs, see the specific reporting requirements in Section 10.4.2. SNAP AGs are not required to report a change of address, and information from the USPS is not considered verified upon receipt. The Worker must only act on this information if it affects other programs.

10.2.1.B.3 Closure Because Client Moves to Another State

When the client moves to another state and his address is known, the Worker must complete the appropriate notification letter for AG closure and send it to the client.
**10.2.1.B.4 Closure at Client’s Request**

The Worker must close the AG when the client requests such action be taken. The Worker should encourage the client to state the reason he is making the request, but acts on the AG closure even if he does not. Advance notice is required.

**10.2.1.B.5 Medicaid Certificate of Coverage**

For any individual in any Medicaid coverage group whose Medicaid benefits stopped on or after July 1, 1996, the Worker must, upon request, complete form DFA-HIP-1, Certificate of Medicaid Coverage.

All individuals in the same AG with the same period of coverage may be included on the same certificate. A separate certificate must be issued for individuals who have different dates of coverage, or when all individuals do not have 18 months of coverage.

**10.2.2 WV WORKS AND MEDICAID PROCEDURES FOR ADDING NEWBORN CHILDREN**

Each Community Services Manager (CSM) is responsible for assigning one person in each of the counties under his supervision to seek out information about newborn children. This individual is responsible for ensuring that information about newborn children is added to the WV WORKS or Medicaid AG and that the information is entered into the eligibility system within five workdays of the date information is obtained. This individual is also expected to work with medical providers to develop mutually agreeable procedures for obtaining the necessary information as quickly as possible. The CSM must also have a back-up designee when the contact person is unavailable.

The eligibility system issues alerts for expected births from pregnant women receiving WV WORKS and/or Medicaid. See Sections 10.8.4 and 10.5.4.

This process is required only for WV WORKS and Medicaid AGs. See Section 10.4.2 for instances in which you must add a newborn child(ren) to a SNAP AG.
10.2.3 VOTER REGISTRATION PROCEDURES

A voter registration application and declination form must be provided at any point a client reports a change of address. See Section 1.2.1.D and Chapter 1, Appendices E, F and G.
10.3 COMMON ELECTRONIC BENEFITS TRANSFER (EBT) INFORMATION

10.3.1 CHANGE IN EBT AUTHORIZED CARDHOLDER

When the client wishes to change an authorized cardholder for Electronic Benefits Transfer (EBT), the Worker must delete the current cardholder in the eligibility system and enter the new cardholder’s information, including the benefit(s) to which the cardholder has access. The client may terminate cardholder access immediately by calling the EBT Helpline or the Department of Health and Human Resources (DHHR) Customer Service Center. Only EBT Helpline Customer Service Representatives and DHHR Customer Service Center staff can deactivate a card.

When the client calls the EBT Helpline first to stop cardholder access, he must still notify the DHHR Customer Service Center or the local office Worker of the cardholder change.

10.3.2 EBT CARDS RECEIVED IN THE LOCAL OFFICE

The local office may receive an EBT card from any number of sources, including the client, the United States Postal Service (USPS), or other individuals. Regardless of the manner in which the card is received, it must be handled as a negotiable and secured by the Financial Clerk. The local office must not retain an EBT card for a client to claim unless he receives his mail at the office. When a replacement card is required, the Worker can request it through the eligibility system or the client can request it by using the EBT Helpline. The following procedures are used for EBT cards received in the local office.

10.3.2.A Client Receives Mail in the Local Office

When a client receives his EBT card by mail in the local office, it must be secured by the Financial Clerk and entered on the negotiable log. The client must sign for the card when claimed. If not claimed within five calendar days, the Financial Clerk notifies the Worker. If not claimed in 30 calendar days, the Financial Clerk must contact the Office of EBT (WV EBT) by email with the card name, number, and an explanation of how it was received in order to have the card deactivated. The card is then destroyed, the action is noted on the negotiable log, and the Worker is notified.
10.3.2.B  Client Returns EBT Card

EBT cards are not accepted by the Worker. When the client mails his EBT card to the local office with or without a request to return benefits, or intentionally/unintentionally leaves his card at the local office, the Financial Clerk must secure the card and contact WV EBT by email with the card name, number, and an explanation of how it was received in order to have the card deactivated. The card is then destroyed, the action is noted on the negotiable log, and the Worker is notified. This includes cards found in the office lobby or a store parking lot and returned by another person.

If the client wishes to return benefits from the EBT account, he must complete and sign the IFM-EBT-1 indicating the amount to be returned. When the client is unable or unavailable to sign the IFM-EBT-1, the Worker must write “Signature Not Available” and record the reason. Benefits are removed from the account by a Supervisor or Investigations and Fraud Management (IFM) Repayment Investigator (RI). Unless the request to return benefits is mailed to the local office along with the card, the client may retain the card. In this instance, the card is destroyed using the above procedures.

10.3.3  GRANT LEVEL EXPUNGEMENT

“Grant” refers to the procedural process of depositing any Supplemental Nutrition Assistance Program (SNAP) or cash benefits into an EBT cardholder’s account.

“Expungement” is the removal of benefits from an EBT account.

The “aging process” is based on a first-in, first-out basis, oldest to newest, which means that each grant month deposit has a separate aging cycle.

The “last activity date” will be the parameter that determines the aging of a grant month.

Once a grant month account has reached 365 days of non-use, the remaining benefit is expunged.

The Worker must check the EBT account and card status when speaking with a client regarding the receipt and/or access to both SNAP and cash benefits. Although an account has an expungement, there may be remaining grant month amounts in the account that will not be available to the cardholder until the account status has been reset to active.
Expunged accounts are not automatically reset when a grant/benefit is posted to the account. Expungement occurs based upon client-initiated activity and the time a monthly grant was posted to the account. Once the Worker resets an expunged account, the grant aging and grant expungement process will continue for remaining grant months on an account until the cardholder performs a debit transaction.

10.3.3.A  Inactive – 305 Days of Non-Use

An alert will be sent to IFM. This will give IFM an opportunity to act on an open claim for the case.

10.3.3.B  Dormant – 335 Days of Non-Use

An alert will be sent to the Worker and a notice will be sent to the client advising they have not used benefits from the account during the past 335 days. The notice advises if the client does not take action within 13 days and a claim is present, the remaining amount from this benefit month will be applied to the claim.

Although a claim may not be present, a transaction must be made to prevent removal of that benefit.

10.3.3.C  Expungement – 365 Days of Non-Use

An alert will be sent to the Worker and a notice will be sent to the client advising the benefits have been expunged and are no longer available. The notice will also advise they may have other grant months remaining and must contact a Worker to have the account reset in order to access those benefits. The clients are also encouraged to make monthly transactions on remaining grants.

On a daily basis, for every account identified in the control file, all grants associated with that account are reviewed individually. Individual grants that have been available for 365 days are expunged.

365 Days of Non-Use Grant Example 1: An account reaches 365 days of non-use and the account balance is comprised of two grants as follows:

- Grant A has been available for 365 days.
• Grant B has been available for 335 days. Grant A will be expunged immediately and Grant B will be expunged 30 days later. The grant expungement process will continue until the cardholder performs a debit transaction. Aging will continue to move the account toward expungement even on a manually re-opened account, until the cardholder performs a debit transaction.

<table>
<thead>
<tr>
<th>Grant</th>
<th>Grant Month</th>
<th>Days Aged</th>
<th>Balance Before Expungement</th>
<th>Amount Expunged</th>
<th>Balance After Expungement</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>July</td>
<td>365</td>
<td>$200</td>
<td>-$200</td>
<td>$0</td>
</tr>
<tr>
<td>B</td>
<td>August</td>
<td>335</td>
<td>$100</td>
<td>$0</td>
<td>$100</td>
</tr>
</tbody>
</table>

365 Days of Non-Use Example 2: For a manually reopened account where a cardholder has three cash grants with a combined balance of $800, if the cardholder initiates a debit transaction for $400:

• Grant A will be debited $200 and expire.
• Grant B will be debited for $200 with a remaining balance of $100.
• The expungement counter, or “aging clock,” will be reset on Grant B.
• Grant C will remain unaffected.

<table>
<thead>
<tr>
<th>Grant</th>
<th>Grant Month</th>
<th>Days Aged</th>
<th>Balance Before Debit</th>
<th>Draw Down Amount</th>
<th>Balance After Debit</th>
<th>Effect on Aging Clock</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>July</td>
<td>160</td>
<td>$200</td>
<td>-$200</td>
<td>$0</td>
<td>Expired</td>
</tr>
<tr>
<td>B</td>
<td>August</td>
<td>120</td>
<td>$300</td>
<td>-$200</td>
<td>$100</td>
<td>Reset</td>
</tr>
<tr>
<td>C</td>
<td>September</td>
<td>100</td>
<td>$300</td>
<td></td>
<td>$300</td>
<td>Unaffected</td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td></td>
<td>$800</td>
<td>$400</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Once the cardholder performs a debit transaction:

• The aging counter resets.
• The individual grants continue to age.
• The grant(s) based on age and drawdown priority, which is affected by the debit transaction, will have its aging activity reset.
• All other non-zero grants on the account will remain unaffected and continue to age.
10.4  SNAP

Case maintenance and corrective procedures specific to the Supplemental Nutrition Assistance Program (SNAP) are outlined in this section.

10.4.1 SOURCES OF INFORMATION

In addition to the sources listed in Section 10.2.1, the following are specific to SNAP.

10.4.1.A Report Form, DFA-SNAP-2

The DFA-SNAP-2 is mailed with system-generated notification letters and provides the client with a means to report changes. Another DFA-SNAP-2 must be sent to clients who submit a completed DFA-SNAP-2.

When the Worker receives a DFA-SNAP-2, he makes appropriate changes in the eligibility system. When the information is unclear or follow up is needed, the Worker contacts the client before taking action.

10.4.1.B Data Exchange, Reports, and Alerts

See Chapter 6 for IEVS information. All SNAP benefit reports are found in MOBIUS or the eligibility system.

10.4.2 CLIENT REPORTING REQUIREMENTS

All SNAP assistance groups (AGs) must report changes related to eligibility and benefit amount at application and redetermination. SNAP AGs are subject to limited reporting requirements, and the reporting requirements in this section apply to recipient AGs only.

The reporting requirements for SNAP clients are only for SNAP benefits and do not affect the reporting requirements of any other program of assistance that the AG also receives.
Regardless of the SNAP reporting requirement, all changes reported directly by an AG member, the AG’s authorized representative and/or authorized Electronic Benefits Transfer (EBT) cardholder, or from a source that is listed as verified upon receipt below must be acted on, even if the AG is not required to report the information.

The AG is not required to report any periodic cost-of-living increases in federal benefits, such as the yearly increase in Retirement, Survivors, and Disability Insurance (RSDI), Supplemental Security Income (SSI), Black Lung, or Veterans Affairs (VA) benefits. This exception only applies to mass changes, not to an individual change affecting the level of a client's benefits. See "Other Types of Changes" below.

When reported information results in a change in benefits and additional or clarifying information is needed, the Worker must first request the information by using the DFA-6 or verification checklist. If the client does not provide the information within the time frame specified by the Worker, the appropriate action is taken after advance notice. Each reported change is evaluated independently for the appropriate action to be taken. When a reported change results in the change of the certification period, the client must receive advance notice of the change.

The table below provides some common examples of reported changes, the impact on the benefit, and the result if requested clarifying information is not returned.

<table>
<thead>
<tr>
<th>Reported Change</th>
<th>Impact on Benefit (Increase or Decrease)</th>

</tr>
<tr>
<td>Decrease in Same Source of Income</td>
<td>Increase</td>
<td>Benefits remain the same</td>
</tr>
<tr>
<td>New Source of Income</td>
<td>Increase/Decrease</td>
<td>Benefits close</td>
</tr>
</tbody>
</table>

*NOTE: The table below is not a comprehensive list of examples.*
When Requested Information Is Not Returned Example: A client receives Adult Medicaid and SNAP. He reports a decrease in his income. The case is pended for verification. The client does not return the requested information. Adult Medicaid is closed and SNAP benefits remain the same.

Reporting Example 1: Mrs. Pine submits a SNAP-2 reporting that her family’s rent has increased by a significant amount. The worker feels that the new amount is questionable, as it is strikingly inconsistent with area rental costs. The case is pended for verification. Mrs. Pine does not return the requested information. Her benefits remain the same.

Reporting Example 2: A client who received a deduction for medical expenses at his last redetermination calls to report that these expenses have recently decreased. No verification is required for a decreased deduction, so the worker accepts the client’s statement.

Reporting Example 3: Mr. Oak, who already receives SNAP benefits, submits an application for Modified Adjusted Gross Income (MAGI) Medicaid. He reports on this application that he still works for Greyson’s Market, but his pay has increased. The Federal Data Hub verifies the new income amount for MAGI purposes, but Federal Data Hub information cannot be used for SNAP purposes. However, because the reported income change is an increase, the worker accepts the Mr. Oak’s statement for SNAP and confirms the reduction in SNAP benefits.

Reporting Example 4: Same situation as above, except that Mr. Oak reports new employment at Advantage Auto. Again, the worker follows Medicaid verification policies and is able to use Mr. Oak’s self-attestation for Medicaid. For SNAP, a new source of income requires verification, so the worker pends the case. If Mr. Oak does not return the necessary information, SNAP benefits will close.

10.4.2.A Limited Reporting

When approved with a gross non-excluded income at or below 130% of the Federal Poverty Level (FPL), an AG must report when the total gross non-excluded earned and unearned income of the Income Group (IG) exceeds 130% of the FPL for the number of individuals in the original AG.

When approved with a gross non-excluded income above 130% of the FPL, an AG must report when the total gross non-excluded earned and unearned income of the IG exceeds 200% of the FPL for the number of individuals in the original AG.
If an AG approved with income at or below 130% of the FPL reports non-excluded income in excess of 130% of the FPL, the AG’s eligibility must be reevaluated. If the AG remains eligible for SNAP, the AG is then required to report when the total gross non-excluded earned and unearned income of the Income Group exceeds 200% of the FPL for the number of individuals in the original AG.

If an AG approved with income above 130% of the FPL reports non-excluded income at or below 130% of the FPL, the AG’s eligibility must be reevaluated. If the AG remains eligible for SNAP, the AG is then required to report when the total gross non-excluded earned and unearned income of the Income Group exceeds 130% of the FPL for the number of individuals in the original AG.

If the household contains one or more Able-Bodied Adults Without Dependents (ABAWDs) who are exempt from the ABAWD work requirements, the household must report when an ABAWD loses his exemption or when that person’s work hours are reduced to less than 20 hours a week, averaged monthly. These changes must be reported no later than the 10th calendar day of the month following the month in which the change occurs.

No other changes are made unless the information is reported by an AG member, comes from a source that is verified upon receipt, or is received from a source that is considered reported.

**Limited Reporting Example 1:** A two-person AG is certified in April with an income below 130% of the FPL. On May 20, one of the AG members begins working full time. When the AG calculates the income received in May, it is still below 130% of the FPL. In the middle of June, the client receives a raise. He receives one paycheck in June with his new rate of pay. When the AG calculates the income received in June, it is still below 130% of the FPL. No changes are required to be reported at this point. When the AG calculates its income in July, it exceeds 130% of the FPL. The AG is required to report this by August 10.

**Limited Reporting Example 2:** An AG consists of a mother and two children, who were initially approved with an income below 130% of the FPL. In the third month, the children’s father moves into the residence. At the end of each month, the AG must consider all income sources. The father’s income, when combined with the AG’s, exceeds 130% of the FPL for the original three-person AG. The AG must report this by the 10th day of the fourth month. The mother calls to report that the household’s combined income exceeds 130% of the FPL. The Worker determines the cause of the income change and must add the children’s father because he is required to be included in the AG. See Section 3.2.

**Limited Reporting Example 3:** A family of four receives SNAP based on a gross income above 130% of the FPL, but below 200% of the FPL. The AG is not required to report an income change unless the total gross income exceeds
200% of the FPL. The mother, who was self-employed, calls to report that she has discontinued her business due to lack of sales. The Worker updates the income and increases the family’s SNAP. The gross income of the AG is now below 130% of the FPL, so the AG is required to report if the total gross income of the AG exceeds 130% of the FPL. A few months later, the mother is hired by a local newspaper. After her first paycheck, the AG calculates the income received for the month and determines that it exceeds 130% of the FPL. The AG is required to report this by the 10\textsuperscript{th} of the following month.

10.4.2.B Required Changes for SNAP AGs

10.4.2.B.1 Sources of Information Verified upon Receipt

Action must be taken for all AGs when information is received from a source that is considered verified upon receipt. Verified upon receipt sources are not subject to independent verification and the provider is the primary source of the information. The only sources considered verified upon receipt are:

- Beneficiary Earnings and Data Exchange (BENDEX) and State Data Exchange (SDX) from the Social Security Administration (SSA)
- Cost-of-living adjustment (COLA) Mass Change and reports in Appendix B
- Systematic Alien Verification for Entitlement (SAVE) from Immigration and Naturalization Service (INS) and 40 Qualifying Quarters information from SSA
- Unemployment Compensation (UC) and work registration data from WorkForce West Virginia
- Investigations and Fraud Management (IFM) findings of an investigation
- Notification of application for benefits in another state
- Report from Social Service Worker
- Child Welfare Information System Provider and Client Detail Data Exchanges
- Housing and Urban Development (HUD)
- State On-Line Query (SOLQ)
• Notification of ABAWD cooperation/non-cooperation from a SNAP Employment and Training (E&T) Worker

NOTE: See Chapter 6 for additional information about data exchange sources.

10.4.2.B.2 Sources That Are Considered Reported

The following are considered reported changes for SNAP and require follow up and/or action for all AGs.

• Communication from an AG member or the AG’s documented authorized representative and/or authorized EBT cardholder, such as an office visit, telephone call, or written statement to report a change for any program of assistance in the eligibility system.

**Sources That Are Considered Reported Example 1:** An AG member calls to report that HUD has decreased his rental obligation for the same residence. Although the AG is not required to report this information, the change is made because it was reported by an AG member.

**NOTE:** This does not include SSI/RSDI payees, unless they are also the authorized representative or EBT cardholder.

• Changes reported during an application for burial assistance or an application or redetermination for any program of assistance that is entered in the eligibility system and includes an AG member.

**Sources That Are Considered Reported Example 2:** A child is included in a SNAP AG with his mother. The next month the grandparents apply for SNAP, including the child of whom they now have physical custody. Although the child’s previous AG was not required to report this change, the child is removed from the AG so that he may be included with the grandparents.

**Sources That Are Considered Reported Example 3:** A man applies for SNAP in April and reports that he moved in with his sister in March. He pays her $200 rent and is approved as a separate AG. The sister was previously approved for SNAP in January. The $200 does not put her over the gross income limit

**NOTE:** This does not include information reported solely to verify eligibility for a TANF supportive service.
at which she is required to report and the change occurred during the certification period. No change is made to the sister’s benefits except to note the income and living arrangements in case comments.

- Information received on behalf of a client that results in changes made in the eligibility system for another program of assistance.

**Hospital Reporting Example:** A call is received from the hospital, informing the agency of the birth of a baby, for Medicaid purposes. If the baby is added to the Medicaid AG, he is also added to the SNAP AG.

- Returned mail received with a United States Postal Service (USPS) sticker indicating the client has moved out of West Virginia. If the case has other benefits that would close the case, SNAP is closed. If the case is SNAP only, benefits continue and is addressed at the next redetermination.

- Information received from any source that the client was required to report.

**Information Requiring Reporting Example:** A report is received from Quality Control (QC) that the income of a SNAP AG exceeds the gross limit. The information is acted on because the client is required to report it.

### 10.4.2.B.3 Information Reported from Third-Party Sources

During the certification period, the agency may receive information about changes in a household’s circumstance from a third party. The Worker must pursue clarification of the information and require verification, if needed.

Third-Party sources include but are not limited to:

- New Hire Alerts
- Bureau for Child Support Enforcement (BCSE)
- QC

The worker must follow up on all unclear information during the certification period when it is reported on the contact form or meets the following criteria:

- The information presents significantly conflicting information from that used by the DHHR at last certification; or
- The information would have to be reported under the household’s reporting requirements and the information is fewer than 60 days old from the current month.

If the household does not meet this criteria, then the information should not be acted upon until next SNAP application, redetermination, or contact form.
Client Moved Example: A landlord reports a client has moved out of state. The client is not required to report this information. The Worker must make case comments and evaluate this information at the next redetermination.

10.4.2.B.4 Unclear Information

Unclear information is any information received from any source with which the Worker cannot readily determine the effect of the reported information on the household’s benefit. The Worker must pursue clarification and required verification of unclear information related to these reported changes. Additional information requested from the applicant is due 10 calendar days from the date of the DFA-6 or verification checklist.

Unclear Information Example 1: An AG member reports her boyfriend has moved into the home and she wishes to add him to her SNAP case. She does not offer any additional information. Because it is unclear how his addition to the case will affect the benefits, the Worker must ask if he has earned or unearned income. If this information is not known, a DFA-6 will need to be issued and proper procedure followed.

Unclear Information Example 2: An AG member reports her boyfriend has moved out of the home. She does not offer any additional information. The case information indicates he is paying the rent. The Worker must pursue clarification regarding who is now paying the rent and continue to make the appropriate changes to remove him from the case.

Unclear Information Example 3: A woman reports her boyfriend moved in, but they are going to purchase and prepare meals separately. The Worker notices the boyfriend has the same last name as the newborn that was added to the case last month. The Worker must pursue clarification regarding the relationship between the boyfriend and the child, as this could affect benefit amount.

Unclear Information Example 4: An AG member reports they have moved. They offer no other information. The Worker must pursue clarification regarding how the shelter and utility costs have changed and make the appropriate changes to the case. In this example, it is not appropriate to ask about income and other household members if this information is not provided.

10.4.2.C Timely Reporting and Follow Up
To determine if a claim for benefit repayment must be established or a lost benefit restored, a decision must be made as to whether or not a change was reported in a timely manner.

**NOTE:** Regardless of SNAP reporting requirements, when a client fails to report household expenses that would normally result in a deduction, the AG loses their entitlement to that deduction. They have a right to the expense once it is reported and verified, if necessary. Retroactive benefits are not issued.

When the client does not report in a timely manner and the change could have been made earlier, a claim for benefit repayment may be established. See Chapter 11.

If the client fails to report a change that would have increased benefits within the AG’s appropriate time limit, benefits are not restored. See Limited Reporting above.

### 10.4.2.D Interim Contact Reports

All SNAP AGs certified for 12 or 24 months must have a report completed in the mid-month of eligibility (the sixth month for 12-month certification periods, the twelfth month for 24-month certification periods). This report differs from a full-scale redetermination as follows:

- The contact report may be completed by mail.
- No interview is conducted unless the client requests one.

The eligibility system automatically mails an Interim Contact Form (PRC-2) to the AGs for the mid-month of eligibility. Failure to return the completed PRC-2 results in case closure. Changes reported on the PRC-2 are treated as changes reported during the certification period, not as changes reported during the completion of a redetermination.

Verification is not required for the form to be considered complete. If a change is reported that requires verification, it must be requested using a DFA-6. Failure to provide requested verification results in AG closure or loss of a deduction after advance notice.

When the completed PRC-2 is returned late, but is returned by the last day of the mid-month of eligibility, no new application is required.

When a SNAP AG is closed for failure to complete the PRC-2, a new application is not required when the form is returned by:

- The last day of the 13th month for households certified for 24 months
- The last day of the 7th month for households certified for 12 months
Benefits are prorated from the date the PRC-2 is received. If the PRC-2 is not returned, a new application must be completed.

10.4.2.E SNAP AGs Eligible for Reinstatement of Benefits

A SNAP AG can be reinstated from the date the household provides the information and/or necessary verification without a new application when they meet the following conditions:

- The SNAP benefits must be in closed status;
- The SNAP AG has at least one full month remaining in the certification period after the last month benefits are received;
- The SNAP AG must report and verify a change in circumstances during the 30 days following the last month benefits are received; and
- The SNAP AG must be eligible for SNAP during the reinstatement month and the remaining months of the certification period.

10.4.3 EFFECTIVE DATE OF THE CHANGE

10.4.3.A Increase in Benefits

10.4.3.A.1 Addition of an AG Member or a Decrease in Income of $100 or More

The change must be effective no later than the month following the month in which the change is reported. When the change is reported after the system deadline, supplemental benefits must be issued and received by the 10th of the following month.

The supplemental benefits are issued based upon the date the information is reported, regardless of whether or not the report is timely. Supplemental benefits issued in this situation are not considered restored benefits and, therefore, not used to offset a repayment as described in Restoring Lost Benefits below.

10.4.3.A.2 All Other Changes
For all other changes that result in an increase in benefits, except those described in Increase in Benefits above, changes are made as follows.

- If the next issuance date is more than 10 days after the date the change is reported, the change is effective the month following the report month.

- If the next issuance date is within 10 days of the date the change is reported, the change is effective two months after the report month.

The ten-day period includes the date of the report and takes the staggered benefit issuance date into consideration.
All Other Changes Example 1: An AG reports that an additional person has moved into the household and needs to be added to the SNAP benefits. The individual has no income and is eligible for benefits. Benefits will increase, and the change is effective for June.

All Other Changes Example 2: An AG reports an income decrease of $75 on May 28. The change increases the benefit and is effective for June.

All Other Changes Example 3: An AG reports an income decrease of $30 on May 28. The AG’s next issuance is due on June 4. Benefits will increase and the change is effective for July.

All Other Changes Example 4: Same as above, but the change was reported on May 24. The next issuance date is more than 10 days after the date the change was reported, so the change will be effective for June.

10.4.3.B Decrease in Benefits

When the reported change results in a decrease in benefits, the change is effective the following month, if there is time to issue advance notice. If not, the change is effective two months after it occurs. No claim is established unless the client failed to report in a timely manner and this is the only reason the change could not be made within 13 days for the advance notice period. See Chapter 11 for benefit repayment.

10.4.4 OTHER TYPES OF CHANGES

10.4.4.A Changes in Case Name

The case may be changed from one valid payee to another valid payee at the request of the individuals involved or when a change in circumstances requires it. This includes, but is not limited to, marriage, divorce, or when the payee leaves the home.

There are three types of primary EBT cardholders:

- Primary person (PP)
- Legal guardian (LG)
- Protective/Substitute payee
When the Worker changes the primary cardholder, the existing EBT card is deactivated. This includes a change from one type of primary cardholder to another. The EBT benefits cannot be accessed until the new card is received. This occurs even when the Worker changes the primary cardholder back to the original cardholder on the same day.

Any changes to spelling, middle initial, or last name do not deactivate the existing EBT card. If the payee requests a new card to reflect the name change, it is requested in the eligibility system the same day the change is entered or through the EBT Helpline the next day.

In addition, if the client reports non-receipt of the newly issued card and the Worker issues another, the newly issued card is deactivated and cannot be used if or when the client receives it.

Any time a new card is requested, the original card is deactivated. All EBT cards are mailed the next business day, excluding federal holidays, and should be received five to seven days from the date requested.

Workers must inform all clients at the time of a change in payee that the current card will be deactivated and they must plan for this benefit inaccessibility if there is not an authorized cardholder who can access benefits during this time. The Worker may delay the entry of the change to give the client time to access enough benefits to provide for the AG until the new card is received.

For EBT, changes in the payee, address, and authorized cardholder are sent to the EBT vendor overnight and are not restricted to eligibility system deadlines. Although the demographic change is sent and updated by EBT, a new card is only issued when there is a change in the primary cardholder or the Worker specifically requests a card in the eligibility system.

10.4.4.B Change in Categorical Eligibility

When the client becomes categorically eligible, the Worker must make eligibility system changes and determine if supplemental benefits are required. See Chapters 1 and 4.

10.4.4.C Change in Work Requirement Status

When a change is reported that results in a change in an individual’s SNAP work requirements, the Worker must ensure the status of each client is correct in the eligibility system. See Chapter 14.
10.4.4.D  Cost-of-Living Adjustments (COLAs) in Federal Benefits

Recipients of federal benefits, such as RSDI, SSI, Black Lung, or VA Benefits, may receive periodic COLAs. RSDI/SSI increases are handled in accordance with instructions in Appendix A of this chapter. All other federal benefit COLAs are treated as any other change, except that the client is not required to report the change.

10.4.4.E  Change of Address

A change of address is made in the eligibility system as soon as the client reports it. Any other changes the client reports in addition to the address change are also acted on at the same time when notice requirements permit.

A change of address after the system deadline does not affect receipt of SNAP benefits in an EBT account. When the client requests a replacement EBT card and his address has changed, the address change must be made in the eligibility system before the new card is issued to ensure the card is sent to the correct address.

10.4.4.F  Closure of Other Benefits

When a WV WORKS or Medicaid AG also certified for SNAP benefits is closed, and there is enough information to continue SNAP benefits, the SNAP benefits must continue with no interruption in benefits. When notification of the closure is sent, it must also state that the AG continues to be eligible for SNAP.

When there is not enough information to continue SNAP benefits, a DFA-6 or verification checklist is sent to request the additional information needed. If the AG does not respond, notice for closure of the SNAP AG is sent.

10.4.4.G  Complaints Regarding Trafficking of SNAP Benefits

The Worker must refer complaints concerning a store trafficking SNAP benefits, such as a retailer buying EBT benefits for cash or selling ineligible items, to the Department of Health and Human Resources (DHHR) Office of Inspector General.
The Workers must refer complaints concerning a client who is trafficking SNAP benefits to IFM. See Section 11.2.

10.4.4.H Returned SNAP Benefits

When the client wishes to return SNAP benefits that are in the EBT account, the client is referred to the Repayment Investigator (RI) when such staff is available in the local office. The RI completes a claim and removes the benefits from the EBT account using the administrative terminal and credits the benefits as a repayment on the claim. The client must sign form IFM-EBT-1. The RI completes the bottom of the form to indicate the benefits were removed.

If IFM staff is not available in the local office, a Supervisor in the local office completes the IFM-EBT-1 and removes the benefits from the EBT account using the administrative terminal. The Supervisor completes a referral through the eligibility system to IFM for the claim and forwards the original IFM-EBT-1 to the RI.

When the client is unable or unavailable to sign the IFM-EBT-1, the Worker must write “Signature Not Available” and record the reason.

10.4.5 CORRECTIVE PROCEDURES

10.4.5.A Restoring Lost Benefits

The agency must restore benefits that were lost due to one or more of the following:

- Errors made by the DHHR, including failure to reactivate a dormant or expunged EBT account prior to approval of a SNAP application, which result in expungement of newly issued benefits;
- Action taken due to failure of the client to act responsibly when good cause is established later;
- Through no fault of the DHHR or client, a sudden change in the client’s circumstances that occurred and was reported in the last 10 days of the month requires action to correct the allotment for the following month. See “Increase in Benefits” above; or
• An Intentional Program Violation (IPV) disqualification penalty was established against an AG and was subsequently reversed.

**NOTE:** Restored benefits are used to offset existing claims prior to issuing any remainder to the client.

**NOTE:** When supplemental benefits must be issued due to deadline constraints for increasing benefits, the supplemental benefits are not considered restored benefits, even when the change was not reported timely. See Addition of an AG Member or a Decrease in Income of $100 or More above.

**Corrective Procedures Example:** A SNAP AG has a decrease in monthly income of $125 beginning in June. The change is not reported until August, but it is after the system deadline date to increase benefits for September. The change is made in the eligibility system effective October and supplemental benefits are issued for the difference due for September. Benefits are not restored for June through August. The client is notified of restored benefits.

**10.4.5.B  When Lost Benefits Are Not Restored**

Lost benefits are not restored when:

- The client fails to take required actions without good cause
- Benefits are lost due to the client's failure to provide correct and timely information
- The client requests restoration of lost benefits, but fails to provide documentation to verify the loss

**NOTE:** Lost benefits are not restored for the month in which the change occurred under any circumstances. Benefits are not restored under any circumstances for periods of time in excess of those described in Time Limits for Restoring Benefits below.
10.4.5.C  Time Limits for Restoring Benefits

Benefits are not restored for more than 12 months prior to the earliest of the events:

- The date the Worker received a request from the AG for restoration of benefits;
- The date the Worker is notified or otherwise discovers that a loss has occurred; or
- The date any judicial action determined that benefits were wrongfully withheld as follows:
  - If the judicial action is the first action the recipient has taken to obtain restoration of lost benefits, benefits are restored for a period of not more than 12 months from the date court action is initiated.
  - If the judicial action is a review of the DHHR’s action, benefits are restored for the period of not more than 12 months from the date the DHHR received a request for restoration. When no request for restoration was received, benefits are restored for not more than a period of 12 months from the date the Fair Hearing was requested by the client.

AGs eligible for restoration of benefits due to uncapped shelter deductions and/or excess medical deductions because of the presence of an SSI recipient are not subject to the time limits listed above. Benefits may be restored the month following the first month SSI benefits are paid or the original date of application for SNAP benefits, whichever is later.

When the restoration of benefits is due to the decision of a fair hearing, legal ruling, or appeal, benefits must be restored within 10 days of the Department receiving the decision.

Benefits restored due to a reversal of an Administrative Disqualification Hearing (ADH) are restored for a period not to exceed 12 months prior to the date of notification, which is determined as follows:

- If a member of the AG participated in the ADH and contested the DHHR’s position, the date of notification is the date the ADH was held.
- When the DHHR’s position was not contested at the ADH, the date of notification is the date the court decision is received.

**Restoring Benefits Example 1:** The client tells the Worker on July 14, 2014, that he believes his benefit amount is incorrect due to failure of the Worker to allow the client a deduction for reported medical expenses. On August 10, the Worker discovers that an error was made in the birth date of one of the AG members when the case was approved, and a medical deduction should have been allowed since February 2013. The Worker takes action to update the eligibility system effective August 2014. Benefits are restored for July 2013.
through July 2014. Because the request for restored benefits was made in July, benefits can be restored for up to 12 months from June.

**Restoring Benefits Example 2:** On May 1, 2014, an ADH was held. The individual accused of an IPV was present and denied charges made by the DHHR. The client was found guilty of having committed an IPV, and was removed from the AG effective June 2014. On September 24, 2014, the disqualification was overturned by a court decision. The DHHR received the court’s decision on October 15, 2014. Benefits can be restored up to 12 months prior to May 2014, the date of the ADH. Benefits are restored to the date of the ADH because none were lost prior to that time. Because benefits were not actually lost until June 2014, when the client was removed, benefits are restored for June, July, August, September, and October.

**Restoring Benefits Example 3:** On July 2, 2013, an ADH was held. No one from the SNAP AG was present to defend the accused member. The client was found guilty and removed from the benefit group effective August 2013. On October 1, 2014, the DHHR is notified of the reversal of the disqualification. Benefits are restored for up to 12 months prior to October 2014, so benefits are restored for October 2013 (12 months prior to October 2014) through September 2014 and also for October 2014 (the month the court decision was made).

**10.4.5.D Corrective Actions to Restore Benefits**

When the Worker determines the AG is entitled to the restored benefits, he must:

- Take eligibility system action to adjust the benefit amount to the correct amount.
- Identify the month(s) in which benefits have been lost.
- Determine the amount of benefits to restore.
- Offset lost benefits by the amount of any existing claim against the AG.
- Restore benefits within 30 days of the discovery.

**NOTE:** Initial allotments must not be used to offset a claim. See Chapter 1.

**EXCEPTION:** When benefits are restored due to reversal of an IPV disqualification penalty, benefits must be restored within 45 days of the date of notification.
10.4.5.E   How Benefits Are Restored

Lost benefits are restored by issuing a one-time allotment to cover the amount of lost benefits. However, the client may request that lost benefits be restored in monthly installments. The Worker determines if the request is reasonable.

When benefits must be restored to an AG and the composition has changed, benefits are issued to the AG containing a majority of the individuals who were in the AG at the time the loss occurred.

If the AG containing the majority cannot be located or otherwise determined, benefits are restored to the AG containing the person who was designated as the head of household at the time the loss occurred.

If this person cannot be located, benefits are not restored.

10.4.5.F   Benefits Returned to the State Office

Benefits deposited into an EBT account are not returned unless the client chooses to do so. See Section 10.3.3.B Dormant – 335 Days of Non-Use above for the procedures to return benefits from an EBT Account. When a SNAP AG is closed, EBT benefits remain in the account until the AG uses the benefits or until there is no account activity for 365 days (i.e., no use of benefits). See Section 10.3.3.C Expungement – 365 Days of Non-Use above for expunged benefits.
10.5 WV WORKS

10.5.1 SOURCES OF INFORMATION

In addition to the sources in Section 10.2.1, case maintenance action may also originate from the following sources:

- **Office of Children and Adult Services**: This includes, but is not limited to, Child Care, Child Protective Services (CPS), and Foster Care.

- **Bureau for Child Support Enforcement (BCSE)**: This may include the return of the absent parent or the receipt of child support in excess of the WV WORKS benefit. BCSE has its own case management system. Workers can inquire into this system to determine the child support an assistance group (AG) is receiving each month. Information is used to determine unearned income and whether or not the AG is eligible for the Child Support Incentive or Pass-Through Payment.

- **SNAP Employment and Training (E&T) and WorkForce West Virginia**: This may include a change in work registration status, or a report of new income or a change in income.

- **DFA-SNAP-2**: Although this form is used by the client to report changes in his SNAP benefits, the information may affect the WV WORKS benefit.

- **Eligibility System Alerts**: These alerts notify the Worker that changes have occurred or are expected to occur, and the information must be reviewed and appropriate action taken. All actions must be recorded in case comments. The following information affects WV WORKS eligibility:
  - Social Security information
  - Household composition
  - Income
  - Miscellaneous WV WORKS program information

- **Data Exchange**: This system provides information about Social Security, Medicare, and unemployment. The Worker uses a PIN or Social Security Number to check this information when a system alert is received. More detailed information regarding what the Worker finds in the Data Exchange may be found by checking the State On-line Query (SOLQ) system.

- **SOLQ**: This system includes verified information for Social Security programs such as Retirement, Survivors, and Disability Insurance (RSDI) and Supplemental Security Income (SSI), Medicare, and Alien Status. The information includes individuals known to
the eligibility system within the last five years. Inquiries in the system are monitored and restricted to the primary Case Worker and his immediate Supervisor.

- **MOBIUS and Eligibility System Reports:** All reports regarding the WV WORKS Program are accessed through the eligibility system.
- **Unemployment Compensation Benefit System (ESABPS):** This system is accessed from the eligibility system and shows dates and amounts of Unemployment Compensation (UC) benefits received by individuals.

## 10.5.2 CLIENT REPORTING REQUIREMENTS

### 10.5.2.A What Must Be Reported

The client must report all changes in income, assets, household composition, and other circumstances.

When the client receives his WV WORKS benefit by direct deposit, he must report changes in bank account information to the Auditor’s Office.

Refer to each program section in this chapter for action needed on reported changes when verification is not received.

### 10.5.2.B Timely Reporting

For WV WORKS cases, a client must report all changes in circumstances within 10 days. New earned income must be reported within 10 days of the date new employment begins to avoid certain penalties. The earned income disregard and dependent care deduction are not applied to any month’s income received during the time the employment is unreported and any month’s income for which earnings were not reported.

When a dependent child included in a WV WORKS payment will be absent from the home for a period of 30 consecutive calendar days or more, the parent or other caretaker must notify the Department of Health and Human Resources (DHHR) by the end of the fifth calendar day after the date it becomes clear to the parent/caretaker that the child will be absent for at least 30 days.
10.5.3 EFFECTIVE DATE OF THE CHANGE

The agency must act on reported changes to ensure the changes are effective in the next month’s benefit, when advance notice requirements permit. Benefits must be restored to the client or repaid to the agency when changes cannot be made in a timely manner. See Chapter 11.

10.5.4 OTHER TYPES OF CHANGES

10.5.4.A Change in Income

When the WV WORKS client reports income from the same source is decreasing, the Worker will pend the case without making the change. Appropriate comments must be made. If the client does not verify the decrease in income, the WV WORKS benefit will stay the same.

When the WV WORKS client reports income from the same source is increasing and the increase will close WV WORKS, the change must be verified to determine eligibility for post-employment options.

When the WV WORKS client reports income from the same source is increasing and the increase will not close WV WORKS, the change is made based on the client’s statement.

When the WV WORKS client reports income from a new source, the change must be verified.

10.5.4.B Change in Case Name

The case name may be changed from one payee to another valid payee at the request of the parents/caretaker relatives involved or when a change in circumstances requires it. In the case of a minor parent, the payee will be the major parent or other responsible adult.

The individual now being designated as payee must complete and sign a new DFA-2 unless his signature is on the most recent DFA-2. However, if the case is in a protective payment status, a substitute payee is not required to sign the DFA-2.
Workers must inform all clients at the time of a change of primary person that the Electronic Benefits Transfer (EBT) card will be deactivated and that funds will be inaccessible during this time. This includes a change from one type of primary cardholder to another. The Worker may delay the entry of the change to give the client time to access enough benefits to provide for the AG until the new EBT card is received.

Once the EBT card is received, the cardholder must call the EBT helpline to create a PIN and activate the card. The EBT benefits cannot be accessed until the new card is received and activated. This occurs even if the primary person is changed back to the original primary person on the same day.

Any changes in spelling, middle initial, or last name do not deactivate the existing EBT card. If the payee requests a new card to reflect the name change, the Worker makes the request the same date the change is entered in the eligibility system or by contacting the EBT Helpline.

In addition, if the client reports non-receipt of the newly issued card and the Worker issues another, the newly issued card is deactivated and cannot be used if or when the client receives it. EBT cards are mailed from the vendor only on week days, federal holidays not included.

Changes in the payee, address, and authorized cardholder can be made immediately because files are sent to the EBT vendor overnight and changes are not restricted to the eligibility system deadline.

10.5.4.C Change of Address

A change of address is made in the eligibility system as soon as the client reports it. Any other changes the client reports, in addition to the address change, are also acted on at the same time.

A change of address after deadline does not affect receipt of WV WORKS benefits in an EBT account. When the client requests a replacement EBT card and his address has changed, the address change must be made before the new card is issued to ensure the card is sent to the correct address.
10.5.4.D  Change in the AG

10.5.4.D.1  Additions

Additions to the AG are effective the month the change occurs, provided the individual is otherwise eligible.

An individual who is added to an existing AG is treated as an applicant. Benefits for the individual are prorated from the date that all eligibility requirements are met, including completion of the Drug Use Questionnaire, signing the Personal Responsibility Contract (PRC), signing the Self-Sufficiency Plan (SSP), and attending orientation. Eligibility cannot begin earlier than the date the individual entered the home.

If a non-recipient work-eligible individual enters the household, he must complete orientation and a PRC/SSP as a condition of eligibility. Although he is not included in the AG, if he fails to cooperate in completing these activities, the AG will be ineligible for WV WORKS.

10.5.4.D.2  Deletions

Deletions from the AG are effective the month after the change occurs and the advance notice period expires. Repayment is sought for any overpayment that occurs. When a parent leaves the household, referral procedures to BCSE apply.

10.5.4.E  Client Moves to Another State

When the client moves to another state and his address is known, the Worker must complete the appropriate notification letter for AG closure and send it to the client. The Worker must include the following statement in the notification:

"If you want to apply for benefits in (new state), please take this letter with you to show that your West Virginia benefits have been stopped. You have received ___ months of TANF benefits from West Virginia toward the 60-month lifetime limit. In addition, you received ___ months from the State of __________. This is a total of _____ months received."
10.5.4.F Continued Benefits after Case Closure

10.5.4.F.1 Continuation of SNAP after WV WORKS Closure

If a WV WORKS AG also certified for SNAP is closed and there is sufficient information, SNAP must continue uninterrupted.

A new DFA-2 is not required.

The closure notice sent to the client must state that the AG continues to be eligible for SNAP. If the benefit increases or decreases, appropriate notification must be sent. See Chapter 9.

10.5.4.F.2 Continuation of Medicaid Eligibility after WV WORKS Closure

Medicaid eligibility does not end automatically when WV WORKS eligibility ends. However, the circumstances that led to ineligibility for WV WORKS may have some bearing on Medicaid eligibility, so the Worker must evaluate continuing Medicaid eligibility based on the new circumstances.

10.5.4.F.3 Ineligibility for SNAP

When the WV WORKS client is ineligible for SNAP for any reason, such as excess income, the SNAP AG is closed and the WV WORKS AG, if eligible, remains open.

10.5.4.G Change in the PRC and SSP

The Worker is responsible for ensuring, on an ongoing basis, that the participation status of each client is consistent with the terms of his PRC and SSP. Any changes in household circumstances must be evaluated and the PRC and SSP are changed as appropriate.
10.5.5 SPECIAL PROCEDURES

10.5.5.A Child Care

When a WV WORKS client requests, or the Worker otherwise recognizes the need, a referral for assistance with childcare expenses is made to Office of Children and Adult Services. The referral is made using a DHS-1 that shows the client’s name, case number, address, telephone number, and the reason childcare is needed. The Child Care Worker is responsible for determining eligibility for such assistance and for notifying the client of his status.

10.5.5.B Protective Payments

Protective payments are payments that are made to a substitute payee or by vendor payment. The client may request a Fair Hearing any time he is placed on protective payments or he questions the substitute payee selected.

There are two situations that require that the client be placed on protective payments, money mismanagement and protective payments at the client’s request. These situations, along with how to choose the substitute payee, are described below.

10.5.5.B.1 Money Mismanagement

A Social Worker, providing protective services to the family, may request the case be placed in protective payment status.

When the Social Worker determines that protective payments are necessary due to money mismanagement, he sends a DHS-1 to the Worker requesting the case be placed on protective payments and indicates the substitute payee and the date protective payments are to begin. The name of the substitute payee is provided by the Social Worker.

When the case is placed on protective payments, the bills paid are those chosen by the client or with his participation and consent, to the extent possible.
Any cash benefits that are not directly deposited into a bank account will be deposited into an EBT account. The person named as the protective payee will receive the EBT card and is able to spend the AG’s benefits.

Even though other cash benefits and SNAP benefits go into the EBT account, the WV WORKS, child support incentive (CSI), or the Pass-Through benefit may be directly deposited into the local office account so that the check may be written by the Financial Clerk to pay the family’s expenses. The client must complete the appropriate direct deposit form and designate the account of the local office. Because only the monthly WV WORKS, CSI, or Pass-Through benefit is direct deposited, other cash benefits—such as Diversionary Cash Assistance (DCA) and initial or supplemental benefits—go into the EBT account.

If the direct deposit method is used for the WV WORKS benefit, the Financial Clerk does not have to be designated as the payee in the eligibility system.

In order for the client to access his other benefits, he must be the payee, unless another individual protective payee is chosen for the EBT benefits.

### 10.5.5.B.2 Protective Payments at the Client’s Request

When the client requests a substitute payee in writing, the Worker must honor his request. The Worker takes the action as soon as possible after the request. The protective payments are discontinued as soon as possible after the client makes a request in writing.

### 10.5.5.B.3 Choosing a Substitute Payee

When a substitute payee is used, the selection of a substitute payee is made by the client, or with his participation and consent, to the extent possible. When it is in the best interest of the client for a staff member of a private agency or any other appropriate organization to serve as a substitute payee, the selection is made, preferably, from the staff of an agency or that part of the agency providing protective services.

The substitute payee cannot be an immediate member of the client’s family. Immediate family members include spouse, parents, grandparents, children, uncles and aunts, and siblings. In addition, the substitute payee cannot be living in the same home with the client.

No employee of the DHHR can be a substitute payee, except when it is in the best interest of the client for a staff member of the DHHR to serve as such. The substitute payee is selected by Office of Children and Adult Services Protective Service staff.
Landlords, grocers, or other vendors of goods, services, or items who deal directly with the client may not be a substitute payee.

The substitute payee must agree to accept the responsibility, and must be at least age 18.

A review of the way in which a substitute payee’s responsibilities are carried out is conducted as frequently as indicated by the client’s circumstances, and at least once every 12 months.

**10.5.5.B.4 Choosing the Payee for a Positive Drug Test**

The primary person must choose a designated person as a protective payee to receive WV WORKS for the other members of the AG, when the applicant refuses to complete the Drug Use Questionnaire or after a second or third positive drug test.

The protective payee may be an immediate family member or any other person designated by the client. This individual must satisfactorily complete the Drug Use Questionnaire, DFA-WVW-DAST-1. When there are two parents in the home, the second parent may be the payee if the Drug Use Questionnaire was successfully completed. The second parent is not required to complete a Protective Payee Verification.

The protective payee must submit the Protective Payee Verification, DFA-WVW-VERIF-2, monthly documenting how the WV WORKS benefits were spent.

**10.5.5.C When a WV WORKS Client Becomes Eligible for SSI**

When a WV WORKS client is determined eligible for SSI, the Social Security Administration (SSA) is required to count his portion of the WV WORKS payment as income. When determining the amount of SSI to which the individual is entitled, the SSA must have this information before the SSI claim can be processed.

Although children are not removed from the WV WORKS benefit, the child’s portion must be determined and provided to SSA.

The following method is used to determine the individual’s portion of the benefit:

**Step 1:** Determine the amount of the benefit with the individual included in the AG. This includes all applicable incentives, reductions, or sanctions.

**Step 2:** Determine the amount of the benefit with the individual not included in the AG. This includes the same applicable incentives or sanctions that were applied in
Step 1, even if not including the individual in the payment could eliminate the incentive or sanction.

**Step 3:** Subtract the amount in Step 2 from the amount in Step 1. The remainder is the individual’s portion of the benefit.

This amount must be determined for each month for which SSA requests the information.

### 10.5.6 COLA ADJUSTMENTS IN FEDERAL BENEFITS

Recipients of federal benefits, such as RSDI, SSI, Black Lung, or VA Benefits, may receive periodic cost-of-living adjustments (COLA). RSDI/SSI increases are handled in accordance with instructions in Appendix A of this chapter. All other federal benefit cost-of-living adjustments are treated as any other change.

### 10.5.7 CORRECTIVE PROCEDURES

#### 10.5.7.A Correcting the Benefit Amount

Prior to issuing a corrective payment, the Worker must determine if the AG owes an overpayment. If so, the corrective payment must be offset by the amount of the overpayment. See Section 11.3.

DCA payments must not be used to offset an overpayment.

#### 10.5.7.A.1 Underpayments

A corrective payment is made to the client when he did not receive a benefit for which he was eligible, or the amount he received was less than that to which he was entitled.

The amount of the corrective payment is the difference between the benefit the client received and the amount he was entitled to receive over the period involved.
For current clients, or persons who would have been eligible had the error causing the underpayment not occurred, the corrective payment is made when it is discovered. It does not matter when the error occurred or who was at fault. For inactive clients, the corrective payment is made when it is discovered, no matter who was at fault.

**NOTE:** A corrective payment for an addition to the AG is made only for the time the new AG member was eligible to be included, but was not.

Corrective payments are made to active and inactive recipients in the eligibility system.

When a corrective payment is used to offset an overpayment, due to fraud or an intentional client error, the amount offset is counted as SNAP income, if the corrective payment would normally have been counted. See Chapter 4 to determine when corrective payments are counted as SNAP income.

**10.5.7.A.2 Retroactive Payments**

A retroactive payment is made when, at any time during the appeal process, it is found that, due to a DHHR error, the client did not receive a payment for which he was eligible, or that the payment he received was less than that to which he was entitled. The appeal process begins when the client requests a formal appeal. The retroactive payment covers the period over which the error occurred and is computed in the same manner as a corrective payment. Payment is made using the eligibility system.

Retroactive payments are also made when eligibility is determined in a month(s) following the month of application and the client is eligible for benefits in the prior month(s).

Any WV WORKS cash benefit that is not directly deposited into a bank account is deposited into an EBT account.

**10.5.7.B Correcting the Address**

When a WV WORKS support service check is returned to Accounts Receivable, Office of Accounting, the return is entered into the eligibility system and the Worker must determine the correct disposition of the check and enter the appropriate information in the eligibility system. The new address must be entered into the eligibility system as soon as possible to ensure that the check is mailed to the correct address when released by Accounts Receivable.
EBT cards that are sent to an incorrect address are returned to the EBT card vendor and destroyed. When the client reports non-receipt of a card, the Worker must correct the address and indicate that a new card is required. A new card is then issued to the correct address. The Worker can check EBT card issuance on the administrative terminal.

10.5.7.C Correcting the Payee

If the new payee wishes to use direct deposit, he must enroll for himself. Otherwise, he will receive an EBT card in his name to access benefits in the EBT account. See Section 10.5.4.B above for correcting the case name for EBT benefits.

10.5.7.D Canceling the Benefit

When the benefit issued by direct deposit is returned, the Worker receives an alert in the eligibility system and must attempt contact with the client.

When cancellation is requested, the Worker must take action in the eligibility system to close the AG. If the benefit issued by direct deposit is returned and canceled, it is not counted toward the 60-month time limit.

When a WV WORKS AG is closed, EBT benefits remain in the account until the AG uses the benefits or until there is no account activity for 365 days (i.e., no withdrawal or use of benefits). See below for benefits voluntarily returned from an EBT account.

10.5.7.E Delaying the Benefit

The benefit, either direct deposit or EBT, cannot be held under any circumstances.

10.5.7.F Reissuing a Returned Direct Deposit

The Accounts Receivable Office receives a list of direct deposits that cannot be completed, updates benefit issuance history in the eligibility system, and cancels the benefit. The Worker receives an alert in the eligibility system, and after contact with the client, must use the appropriate system procedure to issue the benefit by EBT.
Under no circumstances is a direct deposit reissued by an additional direct deposit. When WV WORKS cannot be direct deposited for any reason, the WV WORKS benefits will then be available on the EBT card.

A WV WORKS Benefit must not be held for any reason.

The Worker may delay the entry of a change of payee to give the client time to access enough benefits to provide for the AG until the new EBT card is received. See Section 10.5.7.C above.

10.5.7.G Returned EBT Benefits

A client may not return benefits unless he was ineligible for the cash benefits received in the EBT account and wishes to return them. The client is referred to the Repayment Investigator (RI), when such staff is available in the local office. The RI completes a claim and removes the benefits from the EBT account, using the administrative terminal, and credits the benefits as a repayment on the claim. The client must sign form IFM-EBT-1. The RI completes the bottom of the form to indicate the benefits were removed.

If the RI staff is not available in the local office, a Supervisor in the local office completes the IFM-EBT-1 and removes the benefits from the EBT account using the administrative terminal. The Supervisor completes a referral through the eligibility system to Investigations and Fraud Management (IFM) for the claim and forwards the original IFM-EBT-1 to the RI.
10.6 MEDICAID

Individuals who receive Medicaid experience the same kinds of changes between application and the first redetermination, and between subsequent redeterminations, as individuals who receive the Supplemental Nutrition Assistance Program (SNAP) benefits and WV WORKS. The differences are as follows:

- For Medicaid, there is no benefit level determined. Therefore, the individual is either eligible or ineligible. Every reported change results in a redetermination of eligibility.
- For most Medicaid coverage groups, eligibility of assistance group (AG) members is determined on an individual basis. Therefore, the same change may impact each AG member differently.
- Regardless of any changes, except those specified in Section 10.7 for Children Under Age 19, a child determined eligible for a child’s Medicaid coverage group must have 12 months of continuous coverage.

See Chapter 24 for case maintenance requirements for nursing care services and the Children with Disabilities Community Services Program (CDCSP), Intermediate Care Facility/Developmental Disabilities (ICF/DD) Program, Aged and Disabled Waiver (ADW), Traumatic Brain Injury Waiver (TBIW), and Intellectual/Developmental Disabilities (I/DD) Waiver.

Specific items related to case maintenance are addressed here.

10.6.1 SOURCES OF INFORMATION

In addition to the sources listed in Section 10.2.1, the Federal Data Hub is used for Medicaid coverage groups.

10.6.2 CLIENT REPORTING REQUIREMENTS

Clients must report all changes in circumstances such as, but not limited to, income, assets, household composition, and change of address.

The client must report changes as soon as possible after he becomes aware of them. This allows the Worker to update the case and allows for advance notice, if the reported information results in an adverse action.
When a client reports a change during the Medicaid certification period that affects eligibility, the Worker must only request the information on the change reported.

For Modified Adjusted Gross Income (MAGI) coverage groups only, when the Worker receives the information, he evaluates the client for rolling redetermination. If the Worker has enough information available to renew eligibility with respect to all the eligibility criteria, he must begin a new 12-month certification period for the client.

Client Reporting Example: A redetermination for SNAP benefits is completed on May 14, 2014. The certification period is April 1, 2014, through March 31, 2015. After the SNAP redetermination is completed, the Worker finds the information provided is enough to redetermine Medicaid. The Medicaid certification period is renewed from June 1, 2014, through May 31, 2015. When the Medicaid redetermination is completed and the client(s) remains eligible, the new eligibility period must begin the month immediately following the month of redetermination.

10.6.3 AGENCY TIME LIMITS

The Worker must take action on reported changes as soon as possible. When the Worker is aware of anticipated changes that may affect eligibility, the Worker creates an alert in the eligibility system to take action at the appropriate time. See Section 10.7 for Children Under Age 19 Medicaid groups.

If the client’s coverage is interrupted due to agency delay or error, procedures for reimbursement of the client’s out-of-pocket expenses may apply. See Corrective Procedures below.

10.6.4 TYPES OF CHANGES

10.6.4.A Change in Case Name

The case name may be changed at the request of the individuals involved or when a change in circumstances requires it.
In such cases, the new payee must complete and sign a new application unless his signature is on the most recent application.

If the client's name changes, no new application is necessary.

For Qualified Medicare Beneficiaries (QMB), Specified Low-Income Beneficiaries (SLIMB), or Qualified Individuals (QI-1), a new application must be signed by the spouse, if he becomes eligible, even though he will be added to the existing case.

10.6.4.B Change of Address

The Worker makes a change of address in the eligibility system as soon as the client reports it. Any other changes that the client reports, in addition to the address change, are also acted on at the same time when notice requirements permit.

10.6.4.C Change in the AG, NG, or IG

When there is an addition to, or a deletion from, the AG, needs group (NG), and/or income group (IG), individual eligibility for each member must be reevaluated. See Chapters 3 and 4. This change(s) may require eligibility system action.

When a family reports that a child is born or a child moves into the home and there is an existing Medicaid or West Virginia Children's Health Insurance Program (WVCHIP) AG, the Worker must evaluate the child’s eligibility for all coverage groups and WVCHIP without requiring an application. The Worker may obtain information to evaluate the child’s eligibility from the Federal Data Hub, existing case information, or a phone contact. After these methods are exhausted, the Worker may request information using a verification checklist or DFA-6.

For special requirements relating to Continuously Eligible Newborn (CEN) children, see Section 10.10.

10.6.4.D Cost-of-Living Adjustments (COLAs) in Federal Benefits

Recipients of federal benefits, such as Retirement, Survivors, and Disability Insurance (RSDI), Supplemental Security Income (SSI), Black Lung, or Veterans Affairs Benefits, may receive periodic cost-of-living adjustments (COLAs). RSDI/SSI increases are handled in accordance
with instructions in Appendix A of this chapter. All other federal benefit cost-of-living increases are treated as any other change, except that the client is not required to report the change.

NOTE: For QMB, SLMB, and QI-1, the RSDI COLAs are disregarded in determining income eligibility for January and any subsequent months prior to the effective month of the state’s Federal Poverty Level (FPL) updates for the year.

10.6.5 IMPACTS OF CHANGES REPORTED

10.6.5.A AG Closures

When the client’s circumstances change to the point that he becomes ineligible, the AG is closed. The eligibility system automatically closes a Medicaid AG when:

- Phase II of Transitional Medicaid (TM) coverage expiries
- Extended Medicaid coverage ends
- Medically Needy spenddown AG is at the end of the period of consideration (POC)

10.6.5.B Consideration of Eligibility under Other Coverage Groups

In no instance is Medicaid under one coverage group stopped without consideration of Medicaid eligibility under other coverage groups. A child is also evaluated for WVCHIP eligibility when Medicaid under one coverage group ends. This evaluation is done before the client is notified that his Medicaid eligibility will end. Eligibility is evaluated based on case record information. The client may be required to visit the office only for completion of a Social Summary for a MRT referral. The AG does not remain active while the MRT decision is pending.

See Section 2.14 for special procedures for SSI Medicaid when an individual is determined no longer disabled by SSA.

EXCEPTION:

- Changes in income do not affect the eligibility of pregnant women.
- Also, regardless of any changes, except those specified in Section 10.7, a child determined eligible for Medicaid must have 12 months of continuous Children Under Age 19 coverage.
10.6.5.C Medicaid Certificate of Coverage

For any individual in any Medicaid coverage group whose Medicaid benefits stopped on or after July 1, 1996, the Worker must, upon request, complete form DFA-HIP-1, Certificate of Medicaid Coverage.

All individuals in the same AG with the same period of coverage may be included on the same certificate. A separate certificate must be issued for individuals who have different dates of coverage, or when all individuals do not have 18 months of coverage.

10.6.6 CORRECTIVE PROCEDURES

10.6.6.A Reimbursement for Out-of-Pocket Expenses

A client is eligible to receive direct reimbursement for out-of-pocket medical expenses that would otherwise have been paid by Medicaid in these situations:

- The client’s coverage is interrupted due to agency delay or error unless the delay is due to factors beyond the control of the DHHR
- An application is denied in error
- A nursing home contribution is overpaid due to Worker error or failure to act promptly

When determining if the client is eligible to receive direct reimbursement for out-of-pocket medical expenses, the Department of Health and Human Resources (DHHR) must act on each application or case action within a reasonable period of time unless the delay is due to factors beyond the control of the DHHR. A reasonable period of time must be interpreted on a case-by-case basis.

Reimbursement for out-of-pocket medical expenses, including purchases of prescription drugs, is limited to those services covered by Medicaid. The client is reimbursed for the entire sum of his out-of-pocket expenses for those covered services, even if that expenditure exceeds the Medicaid fee schedule in effect at the time the expenditure was incurred.

The Community Services Manager (CSM) is responsible for determining if the client is eligible to receive reimbursement for out-of-pocket medical expenses. If it is determined that the client is eligible to receive reimbursement, the CSM must submit a memorandum to the Bureau for Medical Services (BMS) Policy Unit requesting reimbursement, along with the original invoices.
for the medical expenses for which reimbursement is requested. The memorandum must contain the amount of the reimbursement that is due the client and the accompanying bills must be marked or highlighted to indicate if they are used for reimbursement.

When the request for reimbursement is denied, the BMS Policy Unit notifies the CSM electronically of the decision. The local office notifies the client in writing of the denial.

10.6.6.B Delaying the Medicaid Benefit Issuance

The Medicaid benefit issuance is not delayed under any circumstances.

10.6.6.C Procedures for Medical ID Cards That Are Returned and Incorrect

10.6.6.C.1 Returned Medical ID Cards

Upon receipt of these cards, the State Office mails them to the appropriate local office. When the address is incorrect, the Worker remails the card or gives it to the client when he learns the correct address. The Worker must enter the correct address in the eligibility system before benefit issuance deadline.

10.6.6.C.2 Card Not System-Issued

When Medicaid eligibility is established in the eligibility system, but a card is not system-issued, the Worker must complete a verification letter for the correct period of eligibility, and mail or give the letter to the client. Under no circumstances should a verification letter be issued unless eligibility dates are established in the eligibility system.

10.6.6.D Incorrect Eligibility Dates

When an incorrect eligibility period(s) is reflected in the eligibility system, the Worker must follow the appropriate system procedure to correct the date(s).
When a client who has a spenddown submits bills, meets the spenddown, and later sends in additional bills that would have met the spenddown at an earlier date, the Worker must follow the appropriate system procedure to correct the eligibility date and ensure the client receives coverage according to the verification letter for the new eligibility period.
10.7 CHILDREN UNDER AGE 19

Children under age 19 should not be closed unless one of the changes specified below affect the 12-month Continuous Medicaid Eligibility (CME) period for Children Under Age 19 coverage.

10.7.1 AG CLOSURES

A child may be determined ineligible prior to the expiration of the 12-month CME period only if the child’s payee requests closure or the child:

- Moves out of state
- Dies
- Was approved for Medicaid in error
- Was approved for Medicaid because of client misrepresentation
- Reaches age 19
  - The child is eligible until the end of the month in which he reaches the age limit. A child who reaches age 19 on the first day of the month remains eligible until the end of that month.
  - If a child is receiving inpatient services on the date he would lose eligibility due to attainment of the maximum age, eligibility must continue until the end of that inpatient stay.
- Does not have verification of citizenship and/or identity after match with the Federal Data Hub (refer to Section 6.3)
- Is approved for Supplemental Security Income (SSI) and is eligible for SSI Medicaid
- Is incarcerated or institutionalized

10.7.2 CHANGE IN INCOME

A change in income does not affect eligibility once the 12-month CME period is established. In addition, a reduction in the number of people included in the needs group (NG) of the child does not affect eligibility once the 12-month CME period has been established.
Change in Income Example: Jasmine, age 15, is approved for Medicaid in May 2015. In July, her mother changes jobs and the income of the family now exceeds the eligibility threshold. Jasmine’s Medicaid eligibility continues through April 2016, even though income is excessive.

10.7.3 OTHER CHANGES

A change that is not specified above does not affect a child’s 12-month CME period once it is established.

See Section 10.2.2 for special instructions about the addition of newborn children to Medicaid cases.

NOTE: When a child leaves one home and moves to another in West Virginia and none of the criteria above for closure is met, the child retains his eligibility through the end of his current CME period. If the current payee for the child agrees, another individual may receive Medicaid for the child, so long as the child remains eligible through the end of the current CME period. Any eligibility changes are made at redetermination. A new application is not required.
10.8 ADULT GROUP

**NOTE:** When a change is reported during the certification period that affects eligibility, the Department of Health and Human Resources (DHHR) must only request the information on the change reported. When the information is received, the assistance group (AG) is evaluated for rolling redetermination. See Section 1.8.6.B. The AG may be assigned a new certification period, if eligible, even though the AG is not due for a scheduled redetermination. Case comments must be made in the eligibility system to document any actions taken.

10.8.1 CHANGE IN INCOME

When a change in income is reported, eligibility for the AG must be re-evaluated. Changes include the onset or termination of income, as well as income increases and decreases. The reported change(s) may not result in any eligibility change, or they may result in AG closure. Advance notice is required for any adverse action, and the AG must be evaluated for all other Medicaid coverage groups and West Virginia Children's Health Insurance Program (WVCHIP) prior to closure.

10.8.2 ADDITIONS TO OR REMOVALS FROM THE MODIFIED ADJUSTED GROSS INCOME (MAGI)

An individual(s) is removed from the AG the month following the month of the reported change and after the advance notice period expires. Eligibility for the remaining household members is re-evaluated based on the removal of the household member.

Individuals are added to the household effective the month they meet all eligibility requirements to be included. No application form is required.
10.8.3 AG CLOSURES

The AG must be closed when the individual(s):

- Turns age 65;
- Begins receiving Medicare Part A or B; or
- Are parents or other caretaker relatives living with a dependent child under the age of 19 and the child no longer receives minimum essential coverage.

The AG is closed the month following the month of the change and after advance notice for the adverse action. The AG must be evaluated for all other Medicaid coverage groups prior to closure.

10.8.4 OTHER CHANGES: PREGNANCY

When a woman reports a pregnancy, coverage is opened in the Pregnant Women Group beginning the following month if otherwise eligible. Adult Group coverage will also remain open in the eligibility system.

*NOTE: Backdating for Pregnant Women Group coverage does not apply when Adult Group coverage already exists.*

The client receives the same benefits and protections while receiving Adult Group coverage as if receiving Pregnant Women Group coverage only, including:

- Co-pay exclusions
- 60-day post-partum coverage

Coverage will not be impacted by changes in income or household composition.

If a change reported during the pregnancy makes the client ineligible for the Adult Group, the Adult Group coverage ends and the client continues to receive coverage under the Pregnant Women Group through the 60-day post-partum period.

Redetermination for the Adult Group occurs on the regularly scheduled review date. If at that time the client is still pregnant, the Adult Group coverage closes and the client continues in the Pregnant Women Group throughout the post-partum period.
10.9 PREGNANT WOMEN

10.9.1 CHANGE IN THE AG

The newborn is added to his mother’s case with his own assistance group (AG).

The pregnant woman is removed from the AG at the end of 60-day postpartum period. See Chapter 23.

10.9.2 CHANGE IN INCOME

Once eligibility is established, the pregnant woman’s Medicaid eligibility continues, without regard to any change in family income, through the end of the month in which the 60-day postpartum period ends. See Chapter 23.

10.9.3 AG CLOSURES

A pregnant woman may be determined ineligible prior to the expiration of the eligibility period only if the pregnant woman:

- Moves out of state
- Dies
- Was approved for Medicaid in error
- Was approved for Medicaid because of client misrepresentation
- Does not have verification of citizenship and/or identity after match with the Federal Data Hub (refer to Chapter 6.3)
- Is approved for Supplemental Security Income (SSI) and is eligible for SSI Medicaid
- Is institutionalized
- Requests closure
10.10 CONTINUOUSLY ELIGIBLE NEWBORN (CEN) CHILDREN

A Continuously Eligible Newborn (CEN) child (birth – 12 months) is eligible for Medicaid until he reaches age one, when all of the conditions in Chapter 23 are met.

The CEN must be added to his mother’s Medicaid case within five workdays of the date the birth is reported.

10.10.1 AG CLOSURES

A child may be determined ineligible prior to the expiration of the 12-month Continuous Medicaid Eligibility (CME) period only if the child’s payee requests closure or if the child:

- Moves out of state
- Dies
- Is approved for Supplemental Security Income (SSI) and is eligible for SSI Medicaid
- Is institutionalized
10.11 PARENT/CARETAKER RELATIVES

NOTE: When a change is reported during the certification period that affects eligibility, the Department of Health and Human Resources (DHHR) must only request the information on the change reported. When the information is received, the assistance group (AG) is evaluated for rolling redetermination. See Section 1.11.5.B. The AG may be assigned a new certification period, if eligible, even though the AG is not due for a scheduled redetermination. Case comments must be made in the eligibility system to document any actions taken.

10.11.1 CHANGE IN INCOME

When a change in income is reported, eligibility for the AG must be re-evaluated. Changes include the onset or termination of income, as well as income increases and decreases. The reported change(s) may not result in any coverage change, or may result in AG closure or the AG's eligibility for Transitional or Extended Medicaid. See Section 23.10.9 and 23.10.8.A for Transitional and Extended Medicaid. Advance notice is required for any adverse action and the AG must be evaluated for all other Medicaid coverage groups and West Virginia Children's Health Insurance Program (WVCHIP) prior to closure. See Section 10.7 for closures when a child in the family receives Medicaid and is eligible for Continuous Medicaid Eligibility (CME).

10.11.2 ADDITIONS TO OR REMOVALS FROM THE MODIFIED ADJUSTED GROSS INCOME (MAGI) HOUSEHOLD

An individual(s) is removed from the AG the month following the month of the reported change and after the advance notice period expires. Eligibility for the remaining household members is re-evaluated based on the removal of the household member.

Individuals are added to the household effective the month they meet all eligibility requirements to be included. No application form is required.
10.11.3 OTHER CHANGES: PREGNANCY

When a woman reports a pregnancy, coverage is opened in the Pregnant Women Group beginning the following month if otherwise eligible. Parent/Caretaker Group coverage will close in the eligibility system after advance notice.
10.12 DEEMED PARENT/CARETAKER RELATIVES

10.12.1 EXTENDED MEDICAID

See Chapter 23 and Section 10.11.

NOTE: When a child loses eligibility and his family is receiving Extended Medicaid, he is included in the Extended Medicaid assistance group (AG), if otherwise eligible.

10.12.2 ADOPTION ASSISTANCE

The Office of Children and Adult Services is responsible for these cases.

10.12.3 FOSTER CARE

The Office of Children and Adult Services is responsible for these cases.
10.13 TRANSITIONAL MEDICAID (TM)

See Chapter 23, Appendix A and Section 10.11 Parents/Caretaker Relatives.

**NOTE:** When a child loses eligibility and his family is receiving Transitional Medicaid (TM), he is included in the TM assistance group (AG), if otherwise eligible.
10.14 SSI RECIPIENTS AND DEEMED SSI RECIPIENTS

10.14.1 AG CLOSURE

The Worker closes the Supplemental Security Insurance (SSI) Medicaid assistance group (AG) after advance notice when:

- The Worker receives a system alert and determines the individual is no longer eligible for SSI Medicaid.
- The Worker receives information from the Bureau of Medical Services (BMS) Buy-in Unit.
- The Worker receives information the client moved to another state.
  - If the Worker receives information the client moved to another state and he has not received an alert, the Worker must notify the Social Security Administration (SSA) of the new address and indicate the Medicaid AG is being closed because the individual moved to another state.
- The Worker obtains information the client receives Medicaid in another state.
- The client reports, prior to Worker’s receipt of system alert, he no longer receives an SSI payment because SSA determined he is no longer eligible. This does not include a temporary suspension of SSI payments to recover an overpayment.
- Information from Social Security’s State On-line Query (SOLQ) shows the individual’s SSI payment was terminated.
- The individual is eligible to enroll in Medicare and fails to do so.

When the closure of SSI Medicaid is for a reason other than a move to another state or death, the Worker must evaluate the individual for all other Medicaid coverage groups, including Deemed SSI Medicaid coverage.

10.14.2 SPECIAL PROCEDURE: CONTINUED MEDICAID

When an individual no longer receives SSI because SSA determines he is no longer disabled, SSI Medicaid must be continued for 60 days from the date of the SSA notification that SSI will be stopped. It is continued after the 60-day period when:
The Case Maintenance Process

- The individual is not eligible under any other full-coverage Medicaid group without a spenddown; and
- The individual has requested an appeal of the decision in a timely manner, as determined by SSA.

The SSI Medicaid continues until a decision is made after the SSA hearing, regardless of whether or not the individual continues to receive an SSI payment. A decision after the hearing occurs when the SSI Medicaid client has no right to further administrative appeal. See Chapter 7 for verification of appeal status.

**Special Procedure Example:** When a recipient fails to appeal an adverse SSA Administrative Law Judge (ALJ) decision to the Appeals Council and the Appeals Council decides not to review the case, the ALJ decision is final for purposes of continued Medicaid, if the 60-day deadline for requesting an appeal has expired. If, however, a timely request is made for a review, the final decision is the Appeals Council’s decision to either deny a review or make a decision on the appeal.

10.14.3 Special Procedure: ABLE Accounts

If the ABLE account balance reaches $100,000 and the beneficiary is receiving SSI benefits, any monthly SSI benefits will be placed in suspension. If the assets in the ABLE account balance drops back below $100,000, the SSI benefit suspension ceases and monthly SSI payments resume.

A beneficiary will not lose eligibility for Medicaid based on assets held in the ABLE account, even during the time the SSI benefits are suspended.
10.15 QMB, SLIMB, AND QI-1

10.15.1 QUALIFIED MEDICARE BENEFICIARIES (QMB)

When a client is dually eligible for Qualified Medicare Beneficiary (QMB) coverage and a full Medicaid coverage group, both benefits are issued under the full Medicaid coverage group case number. Continuing eligibility for both benefits must be determined separately when a change is reported.

- If the client remains eligible for both benefits, the full Medicaid coverage group assistance group (AG) is updated in the eligibility system to reflect the current case information.
- If the change results in a spenddown in the full-coverage Medicaid AG and the client remains eligible for QMB, the QMB coverage must continue uninterrupted.
- If the client is ineligible for QMB, the coverage is discontinued after advance notice.

10.15.2 SPECIFIED LOW-INCOME MEDICARE BENEFICIARIES (SLIMB)

When a client is dually eligible for Specified Low-Income Beneficiaries (SLIMB) coverage and a full Medicaid coverage group, both benefits are issued under the full Medicaid coverage group case number. Continuing eligibility for both benefits must be determined separately based on the changed case circumstances.

- If the client remains eligible for both benefits, the full Medicaid coverage group case is updated in the eligibility system to reflect the current case information.
- If the change results in a spenddown in the full Medicaid case and the client remains eligible for SLIMB, the SLIMB benefit must continue uninterrupted.
- If the client is ineligible for SLIMB, the benefit is discontinued after advance notice.

10.15.3 QUALIFIED INDIVIDUALS (QI-1)

When a client is eligible for QI-1, he must not be eligible for a full-coverage Medicaid group. When a QI-1 client has an increase in income, there is no provision that his benefits must
continue uninterrupted. If the increase in income results in his being ineligible for this Medicaid coverage group, the benefit is discontinued after advance notice.
10.16 QUALIFIED DISABLED WORKING INDIVIDUALS (QDWI)

There are no case maintenance requirements for Qualified Disabled Working Individuals (QDWI).
10.17 AFDC-RELATED, SSI-RELATED, AND SSI-RELATED NON-CASH ASSISTANCE MEDICAID

10.17.1 CHANGE IN INCOME AND DEDUCTIONS

Case maintenance action is required to update the eligibility system when a Medicaid assistance group (AG) has a change of income.

The Worker must take the following actions:

- If the AG did not previously have a spenddown and continues not to have one, no other action is necessary.
- If the AG previously did not have a spenddown and now has one, the case is closed after advance notice.

The following procedures are used in this situation:

  o The AG is closed and reopened with a new period of consideration (POC). The new POC must not cover any period of time in which the case was in a period of eligibility (POE).
  o The client must be notified about his spenddown and the procedures that now apply.

10.17.2 CHANGE IN THE POC

When the client requests coverage for backdated months after initial eligibility has been established, the Worker must evaluate eligibility for any months for which coverage is requested. Information necessary to determine eligibility is requested from the client, including medical bills to meet spenddown, if applicable.

The client must not receive coverage for more than a six-month POC.

**Change in the POC Example:** Ms. Pine provided medical bills to meet her spenddown and was approved for Medicaid with a six-month POC of November 2010 through April 2011. In December, Ms. Pine discovers medical expenses she owes for services incurred in October that will meet her spenddown and requests her Medicaid coverage be backdated to October. If eligibility is
established for October, the six-month POC changes to October 2010 through March 2011.

10.17.3 MEDICAL REVIEW TEAM (MRT) REQUIREMENTS

An incapacitated, disabled, or blind person may require a Medical Review Team (MRT) reevaluation. See Chapter 13.

10.17.4 CLOSURES

When the client fails to meet any eligibility requirement, the AG is closed.

NOTE: An AG that meets a spenddown remains eligible until the end of the POC in the following situations, regardless of whether or not the individual is an AG member.

- A member(s) of the income group (IG) experiences an increase in income;
- An individual(s) with income is added to the IG; or
- An individual(s) is removed from the needs group (NG).
10.18 FORMER WV FOSTER CARE

When a change is reported during the certification period that affects eligibility, the Department of Health and Human Resources (DHHR) must only request the information on the change reported. When the information is received, the assistance group (AG) is evaluated for rolling redetermination. See Section 1.21.6.B. The AG may be assigned a new certification period, if eligible, even though the AG is not due for a scheduled redetermination. Case comments must be made in the eligibility system to document any actions taken.

10.18.1 CHANGE IN INCOME

There is no income requirement for the Former West Virginia (WV) Foster Child coverage group. However, when a change of income is reported, eligibility for the AG must be re-evaluated for eligibility for other categorically mandatory coverage groups. If the Former WV Foster Child is eligible for another categorically mandatory group he must be placed into that category. See Section 23.10.5.

A reported increase in income will not result in the closure of the Former WV Foster Child coverage group.

10.18.2 ADDITIONS TO OR REMOVAL FROM THE MODIFIED ADJUSTED GROSS INCOME (MAGI) HOUSEHOLD

An individual(s) is removed from the household the month following the month of the reported change and after the advance notice period expires. Eligibility for the remaining household members is re-evaluated based on the removal of the household member.

10.18.3 AG CLOSURES

A data exchange is conducted with the child welfare information system to verify whether the child aged out of the West Virginia foster care system. When verification is returned from the child welfare information system indicating the individual did not age out of foster care, the case is closed the month following the month of the change and after advance notice for the adverse action. The AG must be evaluated for all other Medicaid coverage groups prior to closure.
10.19 ILLEGAL NONCITIZENS

The Worker’s case maintenance requirements for illegal noncitizens emergency Medicaid is usually limited and includes checking to determine if the emergency has ended. When the emergency is ongoing, usual case maintenance and redetermination policies of the coverage group for which the recipient is approved apply. If a Medical Review Team (MRT) decision was part of the client’s eligibility determination, MRT redetermination requirements apply.
10.20 BREAST AND CERVICAL CANCER (BCC)

Notify the Breast and Cervical Cancer Screening Program (BCCSP) by fax or mail of any change in the BCC client’s name or demographic information, or death of the client.
10.21 AIDS DRUG ASSISTANCE PROGRAM (ADAP)

The Bureau for Medical Services (BMS) is notified when the client becomes eligible for full Medicaid coverage.
# APPENDIX A: RSDI/SSI INCREASES 2019

In January 2019, Supplemental Security Income (SSI) and Retirement, Survivors, and Disability Insurance (RSDI) recipients received a cost-of-living adjustment (COLA) of 2.8%. The new monthly maximum federal SSI payment levels for 2019 are:

- Single – $771
- Couple – $1,157

In 2019, the standard Part B premium amount will be $135.50.

## A.1 THE RSDI/SSI COLA UPDATE PROCESS

The annual COLA Mass Change occurred over the weekend of January 25 – January 26, 2019, for most assistance groups (AGs) in the eligibility system that have RSDI and/or SSI entered or Medicare enrollment. Reports that identify individuals affected by the COLA update become available on MOBIUS January 28, 2019. Manual updates must be completed by the February deadline, effective March 2019. Advance notice requirements apply.

For the automatic update to occur, the Social Security Number (SSN) in the eligibility system must match the SSN in the Social Security Administration (SSA) file. In addition, the individual’s RSDI and/or SSI income must have been entered in the eligibility system. The automatic update is effective March 2019.

The automatic update does not occur if the income was entered, but end-dated prior to March 2019. It also does not occur if the begin date for RSDI and/or SSI income is later than February 2019.

**NOTE:** The automatic update does not occur if the case is due for review. If the AG is due for a Periodic Review (PR), the automatic update of income and Medicare information does occur, but eligibility is not run. This prevents closure before the client has an opportunity to complete the PR. Eligibility must be run to apply the updated income.

Two messages on the WRMC192A – Mass Change Exception Listing identify cases skipped when an AG is due for a review by PR and include:

- PR Due (Review date for case)
- PR Due (No review date for case)

For Qualified Medicare Beneficiaries (QMB), Specified Low-Income Medicare Beneficiaries (SLIMB), and Qualified Individuals (QI) AGs, functionality prevents the inappropriate closure and
denial of these AGs due to the COLA increase. The eligibility system uses the begin MM/YY to determine whether to enter a COLA disregard amount for Social Security income using a calculation based on the percentage of the COLA increase, unless a COLA Disregard Amount other than zero is entered manually. For procedures regarding Pickle Amendment Coverage (PAC) AGs, see below.

Any AG that becomes ineligible for a benefit because of the update will not receive that benefit after February 2019. The appropriate notice is mailed. Workers must evaluate Medicaid AGs that fail for all other coverage groups. These AGs appear on WRMC182A – Assistance Groups Affected by Mass Change, which is described in A.2.

If the current benefit is not confirmed, and there is no previously confirmed passing benefit for the AG, the individual’s information is not updated and the case is skipped by Mass Change. These AGs are shown on WRMC182U – Mass Changes Pending AG Listing.

When the Social Security Administration (SSA) file indicates the customer is receiving RSDI or SSI and the amount is zero, the information in eligibility system is not updated. This amount may not be accurate by the time of the COLA Mass Change and an error message displays this information on the COLA Match Report. The actual SSA benefit amount can be determined on State On-Line Query (SOLQ).

The WRMC 206A COLA Match Report – Match Result contains the same information as the WRMC202A RSDI/SSI/Medicare COLA Match Report – Last Name. On the 206A, the individuals within a Worker’s caseload are sorted by match result message. On the 202A, the individuals within a Worker’s caseload are sorted by last name. By using the 206A, Workers can identify particular match results that require immediate attention.

Mass Change report, WRMC216A – Post Mass Change Participation Status Report, identifies individuals whose participation status changed as a result of the Mass Change. Workers must determine if the change is valid.

### A.2 REPORTS AND WORKER ACTION

Reports identifying individuals who have been affected by the COLA update became available on MOBIUS on January 28, 2019. Manual updates must be completed by the February deadline, effective March 2019.
These reports list all individuals who have RSDI and/or SSI income and Medicare. The reports describe the result of the match between these individuals in eligibility system and those on the COLA tape from the Social Security Administration (SSA). Individuals, rather than cases, appear on the reports. Individuals are listed in alphabetical order by caseload. Report WRMC206A is sorted by match result. For each individual, the Worker sees the following: Case Number, SSN, Name of Individual, SSA Amount, Medicare Part B Amount, and Match Result. Some of these columns are self-explanatory, but columns that require explanation are listed below.

### SSA Amount

This column is divided into two additional columns. The first column is the income received from SSA as found in eligibility system (amount prior to the COLA increase). The second column is the income from SSA as found on the tape sent by the SSA (amount after the COLA increase). It may be either RSDI or SSI. If an individual is receiving both RSDI and SSI, there is a separate entry for each type of unearned income.

### Part B Amount

This is the Medicare Part B premium. This column is divided into two additional columns. The first column is the Medicare premium found in eligibility system (the amount prior to the premium increase). The second column is the Medicare premium found on the tape sent by the SSA (amount after premium increase).

### Match Result

This is the result of the match between the information in eligibility system prior to the COLA updates and the information on the COLA update tape sent by the SSA. The Worker may see multiple entries on this printout for the same individual. The Worker must carefully review each entry for the individual. A variety of situations result in multiple entries.
**Match Result Example 1:** If the customer receives both RSDI and SSI, and each benefit was updated successfully, the Worker sees the individual name on the printout twice with the match result Record Successfully Updated. This message appears once with the match result for the RSDI update and again with the match result for the SSI update. There are no indicators to identify which entry is for RSDI and which is for SSI.

**Match Result Example 2:** If the SSA file indicates the RSDI and/or the SSI amount is zero, the match result indicates that the case was not updated. The match result displayed is either Record Not Updated – $0 RSDI Amount or Record Not Updated – $0 SSI Amount. This is because the amounts of these benefits are rarely this amount by the time of the COLA Mass Change. Use SOLQ to determine the current amount of the RSDI and/or SSI.

**Match Result Example 3:** If the customer receives more than one type of RSDI, the Social Security Administration combines all amounts. The RSDI amount appearing on the COLA tape and the Match Report is the total of all combined updated amounts for that individual. However, the eligibility system identifies each specific type of RSDI separately. Because the amount on the COLA tape is a combined amount and the amount in the eligibility system is specific to each type of RSDI received, it is not possible for an automatic update to occur on these cases. The Worker must manually update each RSDI amount. The Match Result for this situation is Multiple Records for a Type.

If the individual receives SSI, in addition to multiple types of RSDI, the SSI amount is automatically updated even though the RSDI amounts are not.

**Match Result Example 4:** If the RSDI is garnished, the amount is not updated. The match result is RSDI Not Updated Due to Garnishment. A Mass Change report provides the new RSDI gross amount and the amount of the garnishment.

**Match Result Example 5:** If the automatic update resulted in an update of Medicare information, the Worker sees two entries for an individual. The match result for the premium update is Record Successfully Updated. A separate match result appears for updated information. Only the Medicare Part B premium information is updated by the COLA Mass Change.

**Match Result Example 6:** If there is a Medicare premium amount other than zero and no Medicare amount on the COLA tape, one entry for the individual is on the Match Report. The match result is Person is Not Part B Entitled. To prevent possible disruption of Buy-In, the Medicare information is not updated. Workers must determine if a change in the Medicare information is needed.

**Match Result Example 7:** If there is a Medicare premium amount of zero and the COLA tape shows the individual is eligible for Medicare, the match result for
the first entry is Person is Part B Entitled. The match result for the second entry is Record Successfully Updated.

**Match Result Example 8:** If the Medicare Payer is 510 and Self on the COLA tape, to prevent disruption of the Buy-In process, the payer is not updated. The match result displayed is COLA Record Has Payer As Self. Otherwise, the payer is updated and the match result for the payer update is Updated Part B Payer.

**Match Result Example 9:** When the RSDI/SSI/Medicare premium amount(s) in the eligibility system reflects the same amount as listed on the COLA tape, and the begin date in the eligibility system is prior to March 2019, the match result is Record Successfully Updated. When this occurs, the same amount(s) listed in both the SSA and the eligibility system columns is seen and no action is necessary.

**Match Result Example 10:** The match result NO COLA Found for RSDI and No COLA Found For SSI indicates no benefit information was found for this individual’s SSN on the SSA’s tape, even though RSDI and/or SSI was entered by the Worker. If the client’s SSN is correct, DXSA must be checked to see if SSA benefits received are based on another person’s SSN.

**Match Result Example 11:** Other entries in the match results column may require explanation. A guide of commonly found match result notations is found in A.3 below.

---

**Report WRMC192A – Mass Change Exception Listing**

This report lists the AGs with RSDI and/or SSI that were skipped in the eligibility run of Mass Change. The column titled Exception Description contains information about why the update did not occur. AGs with manual overrides and pending cases appear on the report and require evaluation. Those that did not update due to pending status do not appear on the COLA Match Report and require independent verification of income.
Report WRMC182A – AGs Affected by Mass Change

This report contains detailed information about AGs on which a mass change COLA update occurred and on which ED/BC was successfully run. This printout contains information by case, rather than by individual. Most of the columns are self-explanatory. The column titled Action Indicator includes one of the following: INC (Increase), DEC (Decrease), and CLO (Closure). If the column is blank, no change in benefits occurred.

NOTE: A special report is provided to notify the Long-Term Care Unit of changes in nursing home contributions due to the COLA Mass Change.

Report WRMC 212A – Individuals Changed from State Payer to Self

This report was discontinued. If the eligibility system indicates the State is paying the premium, the message, COLA Record has Payer as Self, is displayed on the COLA Match Report.

Report WRMC 203 A – RSDI Garnishment Report

This report lists the individuals who have garnishments applied to RSDI and, as a result, the RSDI has not been updated. It lists the gross RSDI and the amount of the garnishment.

Report WRMC 205 A – Income on COLA File with No Corresponding

This report lists the individuals who have either RSDI or SSI on the COLA file and have no current corresponding screen for that type of income.

WRMC 216A – Post Mass Change Participation Status Report

This report identifies individuals whose participation status changed as a result of the mass change. The report is sorted by case Worker and lists the case number, PIN, caseload, name,
current participation status after the mass change, and the category. Workers must determine if the change is valid. An example of a valid change is an Able-Bodied Adults Without Dependents (ABAWD) with a new 36-month tracking period.

PAC AGs

Although the automated determination of the COLA Disregard Amount for RSDI will prevent the inappropriate closure of QMB, SLIMB, and QI-1 AGs, it will not prevent the inappropriate closure of Pickle (MP W) AGs. The system will replace the current COLA disregard amount for Pickle AGs with an amount based on the current RSDI COLA percentage increase. These AGs appear on the WRMC182A – Assistance Groups Affected by Mass Change report with the notation CLO to indicate AG closure. These failed AGs require manual correction by the Worker. As an added check, designated Supervisors will receive an email message listing all affected Pickle AGs at a later date. Worker action required for affected Pickle AGs is:

- Display the RSDI amount for the affected individual in the eligibility system using a future date.
- Note the current COLA disregard amount.
- Review historical data to should display the previous COLA disregard amount in the system.
- Add the two COLA disregard amounts together and enter the total on the current screen for RSDI as the COLA disregard amount.
- Run eligibility. Check the benefits for correctness, then confirm.
- Suppress any inappropriate notices.

A.3 COMMONLY FOUND MATCH RESULTS

The chart below shows the commonly found results of the match between the eligibility system information prior to the COLA updates and the information from the SSA COLA update file.

APPENDIX B: SPECIAL PROCEDURES FOR RSDI/SSI COLA INCREASES

Recipients of federal benefits, such as Retirement, Survivors, and Disability Insurance (RSDI), Supplemental Security Income (SSI), Black Lung, or Veterans Affairs Benefits, may receive periodic cost-of-living (COLA) increases. RSDI and SSI increases are handled in accordance with instructions in Appendix A of this chapter. All other federal benefit cost-of-living increases are treated as any other change, except that the client is not required to report the change nor is repayment required when the client fails to do so.

NOTE: State On-Line Query (SOLQ) may display the updated SSI and RSDI amounts based on the COLA at the end of the current year. See Section 6.3. The Worker must determine the correct income to use for any benefits with eligibility beginning prior to January. This applies to all programs, including the Low-Income Energy Assistance Program (LIEAP).

The following provides procedures for use of RSDI and SSI COLA information for applicants and clients.

B.1 APPLICANTS

For applications with eligibility beginning in November or December, the Worker must use the current year’s amount and allow the eligibility system Mass Change to update the income. The Worker must not enter an anticipated income amount for January’s benefits.

Applicant Example 1: An application for SNAP benefits is made on December 15, 2018. The client reports his SSI is $750 for December and $771 for January. The Worker enters $750 as the client’s income and does not code the eligibility system to anticipate the $771 for January’s benefits. He records this in case comments. The SSI is updated when the eligibility system mass change occurs.

For applications with eligibility beginning in January, the Worker must use the new amount of SSI and/or RSDI that is effective in January and not wait for the eligibility system COLA mass change to update the income.

Applicant Example 2: An application for Medicaid is made on January 5, 2019. The client reports his RSDI is currently $771. The Worker must use this amount in determining his eligibility for Medicaid.
B.2 CLIENTS

The Worker must not act on reported income changes due solely to an SSI and/or RSDI COLA. These changes are made during the eligibility system Mass Change or shown on one of the COLA Exception Reports.

**COLA Mass Change Example 1:** A WV WORKS client reports in January, prior to the eligibility system COLA Mass Change, that his RSDI amount has increased. The Worker notes this in case comments, but does not change the income. The income is updated when the eligibility system COLA Mass Change occurs.

For redeterminations completed prior to the eligibility system Mass Change, the Worker must use the previous amount, even if the redetermination is completed in January. For redeterminations completed in the month before the eligibility system COLA Mass Change, use the new amount.

**COLA Mass Change Example 2:** A SNAP client completes a redetermination in January. The eligibility system COLA Mass Change is scheduled to occur in January, effective March. He reports that his SSI increased in January. The Worker notes this in case comments, but completes the redetermination using the previous year’s amount of SSI income. The SSI income is updated during the eligibility system COLA mass change.

B.3 CHANGES NOT RELATED TO COLA

Changes in RSDI and SSI for applicants and recipients that are not related to the COLA must be acted on according to the program of assistance. The eligibility system mass change will not automatically update these AGs. See the program-specific sections in this chapter and Section 6.3 for data exchange.

**Changes Not Related to COLA Example 1:** A client reports on December 2 that his SSI is ending that month and he will not receive any SSI income in January. The Worker takes action to update his January benefits based on this change.

**Changes Not Related to COLA Example 2:** A client reports on January 9 that her SSI is being reduced effective February due to an error made by Social Security Administration (SSA) not related to the COLA. The Worker takes action to update her February benefits based on this change.
APPENDIX C: PUBLIC FORMS

WEST VIRGINIA DEPARTMENT OF HEALTH AND HUMAN RESOURCES

Supplemental Nutrition Assistance Program (SNAP)

CHANGE REPORTING FORM

If you wish to report changes for your SNAP benefits, you may use this form to do so. This will help make sure you get the correct benefits you are eligible to receive. If you receive SNAP benefits, you are not required to report changes except when the gross earned and unearned income of everyone who lives in your home exceeds the gross income limit for your assistance group’s size. In addition, if your household contains an Able-Bodied Adults Without Dependents (ABAWD), you may need to report additional changes. The gross income limit for your assistance group and the additional reporting requirements for ABAWD can be found on any recent notification letter or may be obtained by contacting the Customer Service Reporting Center. However, any changes that you choose to report will be acted on for all programs if required. If you are unsure of the reporting requirements for the benefits you receive, please contact the Customer Service Reporting Center at 1-877-716-1212 before reporting information.

If you intentionally give FALSE INFORMATION or WITHHOLD INFORMATION, you will have to pay back your SNAP Benefits and may be disqualified from SNAP for 12 months, 24 months or permanently. In addition, you may be found guilty of FRAUD. Punishment upon conviction may be a fine up to $250,000 or a jail sentence of up to 20 years.

Name (Please print): ________________________ Case Number: _________

SIGNATURE: ______________________________ DATE: ______

1. Please check one of the following boxes:

☐ The changes I am reporting are only for this month.

☐ The changes I am reporting will be continuing.
2. If the address where you live has changed, please write your NEW address below.

Street Address: ____________________________  Apt. #: ______
City, State: _______________ Zip:__________ Phone:________
Directions to your home: ________________________________

If the address where you get your mail is different, please write your new mailing address below.

Post Office Box #:_______ or Street Address: _________  Apt. #: ______
City, State: __________________ Zip: ____________

3. Please enter the amount paid each month for the items below or zero (0) if you no longer pay this expense. If you now pay a shelter or utility expense that is not listed, please write it in the section listed as other. If any agency or individual not living in your home now pays all or part of these expenses, please list the amount that they pay and whether it is paid to you or directly to the company that bills you. PLEASE CIRCLE YOUR PRIMARY SOURCE OF HEATING OR COOLING.

11.1 INTRODUCTION

The Department of Health and Human Resources (DHHR) is responsible for accurately determining the client's eligibility for the Supplemental Nutrition Assistance Program (SNAP), the former Aid to Families with Dependent Children/Unemployed Parent (AFDC/U) program, WV WORKS, Child Support Incentive (CSI), Temporary Assistance for Needy Families (TANF) program, WV WORKS School Clothing Allowance (SCA), West Virginia School Clothing Allowance (WVSCA), and Medicaid. When it is discovered that excess benefits have been issued, corrective action must be taken.

Investigations and Fraud Management (IFM) consists of three units whose primary functions are to assist with program integrity and to recover overissued benefits resulting from Departmental error, client error, or client misrepresentation.

The material that follows, when used in conjunction with the eligibility system user guide provides detailed instructions for repayment and corrective procedures for all programs.

For corrective action related to underpayments, See Chapter 10.
11.2 SNAP CLAIMS AND REPAYMENT PROCEDURES

When an assistance group (AG) has been issued more Supplemental Nutrition Assistance Program (SNAP) benefits than it was entitled to receive, corrective action is taken by establishing either an Unintentional Program Violation (UPV) or Intentional Program Violation (IPV) claim. The claim is the difference between the SNAP entitlement of the AG and the SNAP allotment the AG was entitled to receive. The procedures and policy by which SNAP claims are referred, established, collected, and maintained follow.

NOTE: Referrals are made for all overissuances, regardless of the dollar amount. Claims are not written for under $125 unless there is a liable debtor receiving SNAP at the time the claim is written, the error is discovered as the result of a Quality Control (QC) review, or it is an IPV claim. In these three situations, claims under $125 are written and collected. IPV claims must be established regardless of the total amount or participation status of the liable debtor(s). See Section 11.2.5 for definition of who is a liable debtor.

11.2.1 REFERRAL PROCESS

The establishment, notification, and collection of SNAP claims is the responsibility of the Investigations and Fraud Management (IFM) Claims and Collections Unit (CCU). The collection staff members are known as Repayment Investigators (RI). Upon discovery of a potential SNAP claim, the Worker refers the case to the RI through the eligibility system. In determining if a referral is appropriate, the Worker must consider the client’s reporting requirements, the Worker’s timely action, and the advance notice period.

NOTE: Claims are not established for excess benefits received solely due to the 13-day advance notice period.

NOTE: If either of the following conditions exist, see the fraud referral process in Section 11.6:

- The amount of SNAP overissuance due to client misrepresentation is greater than $500
- The SNAP overissuance, in combination with other overissued benefits of other programs due to client misrepresentation, is greater than $500.
11.2.2 PROCEDURES FOR ESTABLISHING SNAP CLAIMS

The following are procedures the IFM investigative staff must perform to establish a claim against the AG:

- Accept all referrals regarding potential SNAP overissuances
- Review the case record and data system information
- Obtain third-party verifications to support allegations
- Identify the month(s) for which the claim is to be established
- Classify the claim as UPV or potential IPV
- Use the Basis of Issuance charts and policy that were in effect at the time of the error, and determine the amount of the overissuance
- Establish an IPV by obtaining the client’s waiver of, or presenting evidence at, an Administrative Disqualification Hearing (ADH) or IPV, or through court action
- Notify the AG of the overissuance
- Initiate and monitor collection activity on the claim
- Complete the appropriate screen in the eligibility system, which issues notification of disqualification
- Notify the Worker to initiate the disqualification

11.2.3 IDENTIFYING THE MONTH(S) FOR WHICH CLAIMS ARE ESTABLISHED

The number of month(s) for which claims are established depend on whether it is an IPV or UPV.

11.2.3.A UPV Claims

There are two types of UPVs—client errors and agency errors.

A UPV claim may be established when:

- An error by the Department of Health and Human Resources (DHHR) resulted in the overissuance
- An unintentional error made by the client resulted in the overissuance
The client's benefits are continued pending a Fair Hearing decision and the subsequent decision upholds the DHHR’s action.

It is determined by court action or ADH the client did not commit an IPV; the claim is pursued as a UPV.

The AG received SNAP solely because of Categorical Eligibility, and it is subsequently determined ineligible for WV WORKS and/or Supplemental Security Income (SSI) at the time it received it.

The DHHR issued duplicate benefits and the overissued amount was not returned.

The DHHR continued issuance beyond the certification period without completing a redetermination.

A client error UPV is only established retroactively for the six-year period preceding the month of discovery. An agency error is only established retroactively for the one-year period preceding the date of the discovery.

The RI determines the month in which the overissuance initially occurred as follows.

### 11.2.3.A.1 Agency Errors

#### Failure To Take Prompt Action

The first month of overissuance is the month the change would have been effective had the agency acted promptly.

#### Computation Error

The first month of overissuance is the month the incorrect allotment was effective.

**EXCEPTION:** If the client misrepresented circumstances in order to receive cash assistance or SSI, the SNAP claim may be an IPV.

**NOTE:** Failure to Take Prompt Action and Computation Error below are used when the overissuance is not contested in a Fair Hearing. If a Fair Hearing is held, the Hearings Officer's decision is final.
11.2.3.A.2 Client Errors

When the client fails to provide accurate or complete information, the first month of the overissuance is the month the incorrect, incomplete, or unreported information would have affected the benefit level considering notice and reporting requirements.

NOTE: When determining the amount of overissuance for any claim type, due to the failure of the household to report earned income in a timely manner, the amount of benefits the client should have received is computed without applying the earned income disregard to any portion of the earnings the client did not report. This applies to IPV claims for benefits issued for October 1987 and later, and to UPV claims established on or after November 1, 1996.

NOTE: Depending on whether or not an AG has earned income or at least one WV WORKS participant, reporting requirements may be different. See Section 10.4.2 for the appropriate AG reporting requirements.

11.2.3.B IPV Claims

IPVs include making false or misleading statements, misrepresenting facts, concealing or withholding information, and committing any act that violates the Food Stamp Act of 1977, SNAP regulations, or any State statute related to the use, presentation, transfer, acquisition, receipt, or possession of SNAP benefits.

The client(s) who is found to have committed an IPV is ineligible to participate in the program for a specified time, depending on the number of offenses committed.

An IPV can only be established in the following ways:

- The client signs an IG-BR-44, Waiver of Rights to an ADH

NOTE: Form IG-BR-44 is used only by IFM Workers and Hearings Officers. When the client waives his right to an ADH, the disqualification cannot be changed by a subsequent Fair Hearing.

- By an ADH decision
• By Diversionary Consent Agreement
• By court decision

Once an IPV is established, a disqualification penalty is imposed on the AG member(s) who committed the IPV. See Section 3.2.1 for penalties.

If a court fails to impose a disqualification period, the Department imposes the appropriate penalty as indicated in Section 3.2.1. If the court imposes a sanction that differs from those in Section 3.2.1, the court-ordered sanction is applied.

If an overissuance is discovered more than six years after it occurs, no claim is established. When the client commits an IPV, the first month of the claim is the first month in which the benefit would have been effective considering the reporting and notice requirements.

After the first month is determined, the IFM Worker identifies the subsequent months in which overissuances resulted from the same IPV act.

IPV claims must be established for trafficking-related offenses. Claims arising from trafficking-related offenses are the value of the trafficking benefits as determined by the individual’s admission, adjudication, or documentation that forms the basis of the trafficking determination.

### 11.2.4 FACTORS AFFECTING THE AMOUNT OF THE CLAIM

There are no special factors affecting the amount of the SNAP claim.

### 11.2.5 COLLECTING THE CLAIM

Collection action is initiated against the AG that received the overissuance. When the AG composition changes, collection is pursued against any and all AGs that include a liable debtor.
The following persons are equally liable for the total amount of the overpayment and are liable debtors:

- Adult or emancipated minors in the AG
- Disqualified individuals who would otherwise be required to be included
- An unreported adult who would have been required to be in the AG had he been reported
- Sponsors of noncitizen AGs when the sponsor is responsible for the overpayment
- An authorized representative of an AG if he is responsible for the overpayment

For AGs containing a liable debtor that are certified at the time the claim is established, collection activity may begin by recoupment, after the notice period expires. Recoupment by benefit allotment reduction is mandatory for all claims when a liable debtor is certified for SNAP. The eligibility system automatically begins recoupment and posts these payments to the claim.

**NOTE:** When the reduction causes the benefit to be reduced to zero, the AG must remain active if otherwise eligible. The AG is subject to all program requirements, including redetermination. This ensures that the benefit reduction is credited in the eligibility system.

### 11.2.5.A Collection Priority

Collections may be made on only one SNAP claim at a time. Claims are collected in the following priority order:

- IPV
- UPV, Client
- UPV, Agency

Based on this priority list, payments are credited to the oldest claim first, until it is paid. Then, payments are credited to the next oldest claim.

**EXCEPTION:** Payments received due to a court order are credited to the specific claim, regardless of the priority order or age of the claim. Also, payments received from the Treasury Offset Program (TOP) are credited to the targeted claim.
11.2.5.B  Claim Notification

11.2.5.B.1  UPV Claims

The AG is notified of the SNAP claim by computer-generated notification/demand payment letters from the eligibility system. Enclosed with the letter is a repayment agreement, form ES-REPAY-1, and a postage-paid envelope.

11.2.5.B.2  IPV Claims

In the case of a potential IPV, the AG is notified of the claim by one of the following:

- An appointment letter scheduling a face-to-face interview
- A letter explaining the claim, cause, and amount, which includes a Waiver of Rights to an ADH
- A request that the client return the signed Waiver of Rights

  ➢  Repayment Interview

A Repayment Interview is conducted in conjunction with the interview to discuss the signing of the Waiver of Rights to an ADH. During the interview, the client is asked to sign form ES-REPAY-1, Repayment Agreement, after the options on the agreement are explained. After the ES-REPAY-1 is thoroughly explained, the IFM Worker advises the client to leave the signed form at the front desk at the local office or return it by mail.

  ➢  Computer-Generated Letter

When an IPV claim is established through an ADH or court decision, the AG is sent a computer-generated letter notifying it of the claim amount. Form ES-REPAY-1 and a postage-paid envelope are enclosed.
11.2.5.C  Collection Procedures

11.2.5.C.1  Offsetting Lost Benefits

A claim, whether UPV or IPV, must be collected by offsetting when lost benefits are owed to the AG, but have not yet been restored.

The Worker determines the amount of corrective benefit due the household and initiates issuance in the eligibility system.

The auxiliary code used by the Worker causes the eligibility system to search for outstanding SNAP claims and offset the claim, if appropriate.

11.2.5.C.2  Treasury Offset Program (TOP)

All IPV and client UPV claims are subject to collection through the TOP. Claims that have a payment balance of at least $25 are delinquent and are subject to referral for collection of the claim by offset of the client’s federal income tax refund and any federal benefits/payments. Agency-caused UPV claims, established on or after November 1, 1996, are eligible for TOP collection under the condition described above.

Outstanding claims may be combined to reach the $25 threshold when evaluating for TOP targeting.
11.2.6 DETERMINING THE REPAYMENT AMOUNT

The minimum amount of repayment is determined as follows.

11.2.6.A UPV Client and Agency Errors

11.2.6.A.1 Current Recipients

The current benefit entitlement is reduced by 10% or $10, whichever is greater.

11.2.6.A.2 Former Recipients

Form ES-REPAY-1 offers the liable debtor the following options for repayment.

➢ **Lump-Sum Payment**

One payment is made to pay the claim in its entirety.

➢ **Installment Payments**

When the AG is financially unable to pay the claim in one lump sum, regular monthly installment payments are accepted.

The minimum amount of the monthly payment is $50. If the IFM Worker determines that the AG cannot afford the minimum payment, the payment amount is negotiated on a case-by-case basis.

Lump sum or installment payments may be made by money order, cashier’s check, and certified check. Personal checks are accepted until one is returned for insufficient funds. Payments in cash, SNAP benefits, or Electronic Benefits Transfer (EBT) benefits are acceptable; checks and money orders are made payable to the West Virginia Department of Health and Human Resources and are mailed or brought to the local office. If a client wishes to pay with cash, he
should be discouraged from sending payments through the mail. If he does so, however, it is accepted. All such payments are forwarded to the Financial Clerk.

The Financial Clerk is responsible for collecting all repayments in cash. If payments are received by mail, they are forwarded to the Financial Clerk, who is responsible for the record-keeping and forwarding the payment to the State Office. Upon notification from the Financial Clerk by the DF-25 form, the Repayment Officer posts the payments to the eligibility system.

With the implementation of EBT, benefits in an EBT account may be used to repay a SNAP claim. When the client wishes to repay in this manner, he is referred to a Supervisor or RI who accomplishes the repayment by use of the EBT administrative function.

➢ Use of EBT SNAP Account Benefits

- Inactive – When there has been no cardholder-initiated activity in a SNAP EBT account for a period of 305 days, an alert will be sent to IFM. This will give IFM an opportunity to act on an open claim for the case. Inactive status does not affect a cardholder’s ability to access the account.

- Dormant – When there has been no cardholder-initiated activity in a SNAP EBT account for a period of 335 days, a notice is generated to the client, advising if they do not take action within 13 days and a claim is present, the benefit from this benefit month will be applied to the claim. Even if a claim is not present, a transaction must be made to prevent removal of that benefit month. Dormant status does not affect a cardholder’s ability to access the account.

An alert will be sent to the Worker; however, no action is required by the worker.

- Expungement – When there has been no cardholder-initiated activity in a SNAP EBT account for a period of 365 days, a notice is generated to the client, advising the benefits have been expunged and are no longer available. The notice will also advise they may have other grant months remaining and must contact a Worker to have the account reset in order to access those benefits. The client is also encouraged to make monthly transactions on remaining grants.

An alert will be sent to the Worker; however, no action is required by the Worker at that time. The client must contact a Worker to have the account reset in order to access those benefits.
11.2.6.B  IPV Errors

11.2.6.B.1  Current Recipients

The current benefit entitlement, after the disqualified member(s) has been removed from the AG, is reduced by 20% of the entitlement or $20, whichever is greater. The reduction is based on the entitlement amount prior to the removal of the disqualified member.

11.2.6.B.2  Former Recipients

Form ES-REPAY-1 offers the client the following options to repay when no liable debtor is certified for SNAP.

- One payment is made to pay the claim in its entirety.
- When the AG is financially unable to pay the claim in one lump sum, regular monthly installment payments are accepted. The minimum amount of the monthly payment is $50. If the IFM Worker determines that the AG cannot afford the minimum payment, the payment amount is negotiated on a case-by-case basis.

11.2.7  RIGHT TO A FAIR HEARING

The client has 90 days from the date of the initial notification/demand payment letter in which to request a Fair Hearing. The Hearings Officer only rules on the type and amount of the claim.

If the client requests a Fair Hearing within 30 days, the Worker stops collection until the Fair Hearing is completed. If a Fair Hearing is requested between 30 and 90 days, collection action proceeds during the Fair Hearing process. Any adjustments in the amount of the claim, required by the Fair Hearing decision, are made after the decision.
11.2.8 REFERRAL MANAGEMENT AND MAINTENANCE OF THE SNAP CLAIM

11.2.8.A Time Limits to Establish Claims

Claims should be established by the end of the quarter following the quarter of receipt of the referral. However, there are no time limits pertaining to the length of time between discovery of a claim and establishment of the claim.

11.2.8.B Status of Claims

All claims remain in open status as long as the debt has been submitted to TOP and remain eligible for TOP targeting. When the claim is no longer eligible for TOP targeting, the claim is changed to terminated status.

**NOTE:** When all liable debtors are deceased, the claim is terminated. When all liable debtors have declared bankruptcy for a dischargeable debt, the claim is changed to bankrupt status. When it is determined that a claim was not properly established due to a Fair Hearing decision, improper notice, or incorrect determination by Investigations and Fraud Management (IFM) staff, the claim status is changed to invalid. When the claim status is changed to invalid due to improper notice, a new claim may be established after proper notice procedures are followed.

11.2.8.C Notification of Delinquent Payments

A delinquent notice letter is sent to a client with an open status claim when 60 days elapses since the last payment.
11.2.8.D  Receipts

Clients who make cash payments, or for whom a TOP payment is collected, receive a receipt at the end of the month in which the payment is posted.

11.2.8.E  Action Required When a Client Moves

11.2.8.E.1  Clients Moving Out of West Virginia

If another state contacts a county office inquiring about a claim of a former recipient, the Worker forwards the inquiry to the appropriate Repayment Investigator.

11.2.8.E.2  Clients Moving from Another State to West Virginia

When a SNAP application is made in West Virginia by an individual moving from another state, and the applicant indicates he received SNAP in the other state, the Worker must determine if repayment is owed in the other state.

If the client states that he owes a repayment to the other state, the Worker notifies the RI immediately, but continues to process the application.

11.2.8.F  Repayment of an Overpaid Claim

The DHHR may not, under any circumstances, retain more than the total amount of all outstanding claims. When this occurs as a result of collection from more than one AG, benefits must be restored.

RIs and Financial Clerks are responsible for cash refunds when a claim has been overpaid. If benefits must be restored, IFM notifies the Worker.
The refund must be made by the method of payment that caused the claim to be over (e.g., recouped benefits, cash, or any combination of these methods paid to the Financial Clerk). When a cash refund is appropriate, IFM will notify the Financial Clerk.

**EXCEPTION:** All refunds due to TOP offsets must be referred to the IFM state office to the attention of the TOP Coordinator or Director.

**NOTE:** EBT benefits removed from an account in error are reissued as a supplemental issuance in the eligibility system using the appropriate coding procedures.

### 11.2.8.G Effect of Bankruptcy

The DHHR, acting on behalf of the United States Department of Agriculture (USDA), may act as a creditor for a bankrupt AG against which the DHHR has established a claim. When the county receives a “Notice to Creditor” document from the Bankruptcy Court, it must immediately forward it to the RI. The RI changes the eligibility system claim status to “B” for agency and client error claims, and forwards the document to the IFM State Office. Further collection action is suspended.

**EXCEPTION:** When a claim is a type “F” IPV, the RI determines if the claim is an administrative IPV or court adjudicated. Administrative IPVs are changed to claim status “B” and further collection activity is suspended. Court-adjudicated claims that declare Chapter 7 bankruptcy are not dischargeable and remain in “O” status. Court-adjudicated claims that declare Chapter 13 bankruptcy are dischargeable and the RI changes the status to “B.” If there is more than one liable debtor, all liable debtors must declare bankruptcy for the claim to be changed to “B” status. If not, the status must remain open.

### 11.2.8.H Effect of Expunged EBT SNAP Accounts

When benefits are expunged from an EBT SNAP account, the following occurs:

- If a claim exists, as indicated in the eligibility system, the RI receives an alert that the EBT SNAP account is being expunged.
- The RI reduces the amount of the claim(s) by the amount of the expunged benefits.
11.3 CASH ASSISTANCE CLAIMS AND REPAYMENT PROCEDURES

Repayment is pursued for cash assistance overpayments made under the former Aid to Families with Dependent Children/Unemployed Parent (AFDC/U) Program, WV WORKS, Child Support Incentive (CSI), Temporary Assistance for Needy Families (TANF) Program, WV WORKS School Clothing Allowance, and the West Virginia School Clothing Allowance.

The establishment, notification, and collection of cash assistance claims are the responsibility of the Claims and Collections Unit (CCU) and Investigations and Fraud Management (IFM).

When an assistance group (AG) has received more cash assistance than it was entitled to receive, corrective action is taken by establishing a claim for the overpayment. The claim is the difference between the amount of benefits received and the amount of benefits to which the AG was entitled. The policy by which cash assistance claims are referred, established, collected, and maintained follows.

**EXCEPTION:** Diversionary Cash Assistance, WV Works Support Payments, and Emergency Assistance (EA) overpayments are not subject to repayment, unless fraud is established.

Once the claim is established, there are no hardship provisions or exceptions that delay, suspend, or terminate efforts to collect the claim.

### 11.3.1 REFERRAL PROCESS

Upon discovery of a potential cash assistance claim, the Worker refers the case to the Repayment Investigator (RI) in the eligibility system.
11.3.2 PROCEDURES FOR ESTABLISHING CASH ASSISTANCE CLAIMS

The following actions are taken by the IFM Worker in establishing a claim against the AG. The IFM Worker:

- Accept all referrals related to potential cash assistance overpayments
- Review the case record
- Obtain third-party verifications to support the allegations
- Identify the month(s) for which the claim is established
- Classify the claim as agency or client error
- Use policy that was in effect at the time of the error to determine the amount of the overpayment
- Notify the AG of the overpayment
- Initiate and monitor collection activity on the claim

11.3.3 IDENTIFYING THE MONTH(S) FOR WHICH CLAIMS ARE ESTABLISHED

When a client fails to report changes timely according to Section 10.5.2, and the change would have decreased benefits, a claim is established.

NOTE: Claims are NOT established for excess benefits received solely because of the 13-day advance notice period.

Failure to Take Prompt Action and Computation Error below are used when the overpayment is not contested in a Fair Hearing. If a Fair Hearing is held, the Hearing Officer’s decision is final.
11.3.3.A Agency Errors

11.3.3.A.1 Failure to Take Prompt Action

The first month of overpayment is the month the change would have been effective had the agency acted properly.

11.3.3.A.2 Computation Error

The first month of overpayment is the month the incorrect payment was effective.

11.3.3.B Client Errors

When the client fails to provide accurate or complete information, the first month of the overpayment is the month the incorrect, incomplete, or unreported information would have affected the benefit level, considering reporting and noticing requirements.

11.3.3.C Fraud Claims

Any claim established as a result of an investigation conducted by the Criminal Investigation Unit and subsequent court order is classified as a fraud claim.

**NOTE:** When determining the amount of overpayment due to the failure of the household to report earned income in a timely manner, the amount of benefits the client should have received is computed without applying the earned income disregard and deductions to any portion of the earned income the client did not report.
11.3.4 FACTORS AFFECTING THE AMOUNT OF THE CLAIM

The RI must consider the following when determining the amount of the claim.

11.3.4.A Redirected Child Support

11.3.4.A.1 Recoupment of Total WV WORKS Payment

When child support is redirected to the Bureau of Child Support Enforcement (BCSE), the total amount is considered in determining the amount of the claim. The IFM Worker must request payment information from BCSE for each month for which repayment is sought. On a month-by-month basis, the amount applied by BCSE to the month for which repayment is due is subtracted from the amount the client would otherwise have to repay. If BCSE refunds the support to the client, the full check amount is subject to repayment.

**BCSE Total Recoupment Example 1:** In July, the Worker discovers that the client was ineligible for the cash assistance payment he received in June. The June cash assistance payment was $275. The IFM Worker sends a DHS-1 to BCSE to request the amount of support credited to this case for June. The BCSE Worker responds with $100. Therefore, the client must repay the difference between $275 and $100, which is $175.

**BCSE Total Recoupment Example 2:** In July, August, and October, a cash assistance client was ineligible, but received the following cash assistance amounts: July – $206; August – $275; October – $275. The IFM Worker sends a DHS-1 to BCSE to determine the amount of child support applied to his case for these months and receives the following information: July – $280; August – $270; October – $270. Therefore, there is no repayment required for July. The client owes the Department $5 for August and $5 for October. The total repayment amount for this client is $10.

11.3.4.A.2 Recoupment of Partial WV WORKS Payment

If part, but not all, of the WV WORKS benefit is to be repaid, the amount paid to BCSE is compared to the repayment amount and to the amount for which the client was eligible. If the
BCSE amount is less than the benefit amount but more than the amount he was eligible for, the difference between the BCSE amount and the amount he was eligible for is used to offset the repayment amount. If the BCSE amount is less than the amount the client was eligible for, the BCSE amount does not affect the repayment amount.

**BCSE Partial Recoupment Example 1:** In November, a cash assistance client received a WV WORKS benefit for $360 but was only eligible to receive $100. The BCSE amount for November was $210. Because the State was reimbursed the redirected child support, the repayment is the difference between the check received and the amount of child support. The amount the client is eligible for is subtracted from the child support to determine the offsetting amount: $210 - $100 = $110. The amount of overpayment, $260, is then offset by the redirected child support, $110, leaving $150 as the repayment amount.

**BCSE Partial Recoupment Example 2:** In December, a client received a WV WORKS benefit of $312, but was only eligible to receive $200. The BCSE amount paid for December was $100. Because the redirected child support is less than the amount the client was eligible for, the BCSE amount does not offset any of the repayment amount of $112.

**11.3.4.B Determining the First Month of Ineligibility**

In situations involving ineligibility, the first month is determined as follows:

- Any month that countable income exceeds the payment level is an ineligible month, even if the case closure is for a reason other than increased income, except when the case becomes ineligible due to excessive, redirected child/spousal support. See below.

**First Month of Ineligibility Example:** A cash assistance client reports on August 19 that he started to work full time and that his only dependent child left the home. Because of advance notice, the first month of ineligibility is October.

- In all other cases, including cases that become ineligible due to excessive, redirected child/spousal support, the first month of ineligibility is the month following the month in which the change occurs.
11.3.4.C Corrective Payments Due the AG

NOTE: Initial payments and Diversionary Cash Assistance payments are not subject to recoupment or offsetting.

If the AG has both an overpayment and an underpayment, the amount of the underpayment is treated as a payment toward the overpayment.

11.3.5 COLLECTING THE CLAIM

The following persons are equally liable for the total amount of overpayment and are liable debtors:

- Adult or emancipated minors in the AG
- Disqualified individuals who would otherwise be required to be included
- Caretaker relatives who signed the application/redetermination at the time of overpayment
- An unreported adult who would have been required to be in the AG had he been reported
- Sponsors of noncitizen AGs when the sponsor is responsible for the overpayment

When the AG composition changes, collection is pursued against any and all AGs that include a liable debtor.

NOTE: The DHHR may not under any circumstance retain more than the total amount of all outstanding claims. When this occurs regardless of the reason, benefits must be restored.

For AGs containing a liable debtor, collection activity may begin immediately. Repayment is initiated at the time the notification letter is generated by the eligibility system. Repayment by benefit reduction is mandatory when a liable debtor receives cash assistance. The eligibility system automatically begins recoupment and posts these payments to the claim.

NOTE: When the benefit reduction causes the check to be reduced to zero, cash assistance benefits must remain at $1, if otherwise eligible.
11.3.5.A Collection Priority

Collections can be made on only one claim at a time. Claims are collected according to the following priority order:

- Fraud
- Client error
- Agency error

Based on this priority order, payments are credited to the oldest claim first, until it is paid.

**EXCEPTION:** Payments received due to a court order are credited to the specific claim, regardless of the priority order or age of the claim.

Payments are then credited to the next claim in priority order.

11.3.5.B Claim Notification

11.3.5.B.1 Client and Agency Claims

The AG is notified of the cash assistance claim by computer-generated notification/demand payment letters from the eligibility system. Enclosed with the letter is a repayment agreement, form ES-REPAY-1, and a postage-paid envelope.

11.3.5.B.2 Fraud Claims

Fraud claims may only be established by court order. Upon receipt of the court order, the claim is entered into the eligibility system and notice that the claim has been established is produced. Enclosed with the letter is a repayment agreement, form ES-REPAY-1, and a postage-paid envelope.
11.3.5.C Collection Procedures

A claim must be collected by offsetting when lost benefits due the AG have not been restored. The Worker determines the amount of corrective benefits due the household and initiates the auxiliary issuance in the eligibility system. The auxiliary code used by the Worker causes the eligibility system to search for outstanding cash assistance claims and offset the claim, if appropriate.

11.3.6 DETERMINING THE REPAYMENT AMOUNT

11.3.6.A Active Recipients

The monthly repayment amount is 10% of the AG’s total gross, non-excluded earned and unearned income, including the actual WV WORKS benefit amount, which may include reductions and incentives described in Section 4.5 or sanctions described in Section 14.8 and the Child Support Incentive (CSI). The amount is determined as follows:

- If the AG has no income other than the WV WORKS benefit, the repayment amount is determined by multiplying the benefit amount, after application of any reductions, incentives, or sanctions by 10% and dropping the cents.
- If the AG has income other than the WV WORKS benefit, the repayment amount is determined as follows:

  **Step 1:** Add together:
  - The non-excluded gross earned income of the income group, with no deductions applied
  - All non-excluded unearned income of the income group
  - The actual WV WORKS check amount, including the CSI

  **Step 2:** Determine 10% of the amount in Step 1 and drop the cents.

This is the monthly repayment amount. When the amount determined in Step 2 is less than the WV WORKS benefit amount, the monthly recoupment amount is equal to the amount calculated in Step 2. When the amount determined in Step 2 is greater than or equal to the WV WORKS benefit amount from Step 1, the monthly recoupment amount is equal to the WV WORKS benefit amount, less $1.
The client may voluntarily repay at a higher rate, but the DHHR may not require repayment at a higher or lower rate than that specified above.

**Determining the Repayment Amount Example 1:** A six-person AG has been overpaid $300. It has $100 unearned income and receive a $313 WV WORKS benefit. The total income for the AG is $413. Ten percent of $413 is $41.30, which after dropping the cents is $41. This is the required monthly repayment.

**Determining the Repayment Amount Example 2:** A family of three receives a $12 WV WORKS benefit. They have $241 per month unearned income. The monthly repayment amount is 10% of the gross income ($241 + 12) or $25. The check is less than the repayment amount. The check is reduced to $1 and $11 is recouped. The client must be encouraged to supplement this amount from his other income.

11.3.6.B Former Recipients

Liable debtors are responsible for payment of all claims regardless of case status. Form ES-REPAY-1 offers the client the following options to repay when there is no liable debtor.

11.3.6.B.1 Lump-Sum Payment

One payment is made to pay the claim in its entirety.

11.3.6.B.2 Installment Payments

When the AG is financially unable to pay the claim in one lump sum, regular monthly installment payments are accepted. The minimum amount of the monthly payment is $50. If the IFM Worker determines that the AG cannot afford the minimum payment, the payment amount is negotiated on a case-by-case basis.

11.3.6.B.3 Use of Dormant EBT Cash Account Benefits

- Inactive – When there has been no cardholder-initiated activity in an Electronic Benefits Transfer (EBT) cash account for a period of 305 days, an alert will be sent to IFM. This
will give IFM an opportunity to act on an open claim for the case. Inactive status does not affect a cardholder’s ability to access the account.

- Dormant – When there has been no cardholder-initiated activity in an EBT cash account for a period of 335 days, a notice is generated to the client, advising if they do not take action within 13 days and a claim is present, the benefit from this benefit month will be applied to the claim. Even if a claim is not present, a transaction must be made to prevent removal of that benefit month.

  Dormant status does not affect a cardholder’s ability to access the account.

  An alert will be sent to the Worker; however, no action is required by the Worker.

- Expungement – When there has been no cardholder-initiated activity in an EBT cash account for a period of 365 days, a notice is generated to the client, advising the benefits have been expunged and are no longer available. The notice will also advise they may have other grant months remaining and must contact a Worker to have the account reset in order to access those benefits. The client is also encouraged to make monthly transactions on remaining grants.

  An alert will be sent to the Worker; however, no action is required by the Worker at that time. The client must contact a Worker to have the account reset in order to access those benefits.

### 11.3.7 RIGHT TO A FAIR HEARING

The client has 90 days from the date of the initial notification/demand payment letter in which to request a Fair Hearing. The Hearings Officer only rules on the type and amount of the claim. If the client requests a Fair Hearing within 30 days of the initial notification/demand payment letter, the Worker stops collection until the Fair Hearing is completed. Any adjustments in the amount of the claim, required by the Fair Hearing decision, are made after the decision.

### 11.3.8 MAINTENANCE OF THE CASH ASSISTANCE CLAIM

#### 11.3.8.A Notification of Delinquent Payments

A delinquent notice letter is sent to a client with an open status claim when 60 days elapses since the last payment.
11.3.8.B Receipts

Clients who make cash payments receive a receipt at the end of the month in which the payment is posted.

11.3.8.C Action Required When a Client Moves

There is no special action required when a client moves to or from West Virginia. Claims from other states will not be pursued for collection.

Claims established in West Virginia may be collected in another state, depending upon that state’s policy.

11.3.8.D Repayment of an Overpaid Claim

RIs and Financial Clerks are responsible for cash refunds when a claim has been overpaid. If benefits must be restored, IFM notifies the Worker.

11.3.8.E Effect of Bankruptcy

The DHHR may act as a creditor for a bankrupt AG against which the DHHR has established a claim. When the RI receives documentation, he changes the claim status to “B” for agency and client error claims and forwards the document to the IFM State Office. Further collection action is suspended.

NOTE: Court adjudicated claims that declare Chapter 7 bankruptcy are not dischargeable and remain in “O” status. Court adjudicated claims that declare Chapter 13 bankruptcy are dischargeable and change to “B” status. If there is more than one liable debtor, all liable debtors must declare bankruptcy for the claim to be changed to “B” status. If not, the status must remain open.
11.3.8.F Effect of Expunged EBT Cash Accounts

When benefits are expunged from a cash EBT account, the following occurs:

- If a claim exists, as indicated in the eligibility system, the RI receives an alert that the EBT cash account is being expunged.
- The RI reduces the amount of the claim(s) by the amount of the expunged benefits.

**NOTE:** All funds deposited into a cash EBT account, including WV WORKS, CSI, and Diversionary Cash Assistance, are used to reduce cash claims when removed from an EBT account and a claim exists.
11.4 MEDICAID CLAIMS AND REPAYMENT PROCEDURES

This section describes the procedures for establishing claims and collecting repayments for Medicaid services.

11.4.1 REPAYMENT OF CORRECTLY PAID BENEFITS – ESTATE RECOVERY

Under certain circumstances, the Department of Health and Human Resources (DHHR) must be reimbursed for Medicaid expenditures made on behalf of an eligible client. Repayment of correctly paid benefits is required only for those who received nursing facility services, Home and Community Based (HCB) Waiver, Traumatic Brain Injury (TBI) Waiver, Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID), and related hospital and prescription drug services. The Bureau for Medical Services (BMS) is responsible for implementing this law. Any inquiries are referred to the BMS’ Estate Recovery contract agency at (304) 342-1604 or 1 (877) 598-5220.

11.4.2 REPAYMENT OF BENEFITS FOR WHICH CLIENT WAS INELIGIBLE

When it is determined that the client was ineligible for Medicaid and that the DHHR paid for medical services, the action depends upon whether or not the claim is due to intentional misrepresentation.

11.4.2.A Intentional Misrepresentation

When intentional misrepresentation is suspected and the amount of the medical payment is $500 or more, the case is referred to Investigations and Fraud Management (IFM) for investigation, using the IFM-1. Prior to the IFM referral, the Worker must determine that payment for medical services was made by the Department. The Worker must request such information from BMS in writing. The Medical Processing Unit produces a printout of the paid Medicaid expenses. This printout must be attached to the IFM-1.

The Worker takes no further action on the claim. If the IFM Investigator notifies the Worker that prosecution is not being pursued, the instructions in item B below are used.
11.4.2.B Unintentional Misrepresentation or Worker Error

Unless intentional misrepresentation is established, repayment from the client is not pursued. BMS may pursue repayment from the provider of the medical services, but not from the client.

11.4.3 PROVIDER FRAUD

If fraud on the part of any provider of Medicaid services is suspected, the Worker must submit a memorandum to the Medicaid Fraud Unit or complete the online reporting form.

The memorandum must contain the following information:

- Provider name and address
- Reason fraud is suspected
- Detailed explanation of the information accumulated that leads to the suspicion of fraud
- Names and addresses of clients who might have knowledge that would help in a fraud investigation
11.5 REFERRALS TO THE FRONT-END FRAUD UNIT (FEFU)

The Front-End Fraud Unit (FEFU) is operational only in select counties. The FEFU currently operates in Boone, Cabell, Kanawha, McDowell, Mercer, Putnam, Ritchie and Wood counties. FEFU verifies questionable information to assist in reducing errors and the potential for fraud. Staff of the FEFU are known as Front-End Verification Specialists (FEVS).

Programs of assistance (PA) are investigated by the FEFU in the following priority order:

- Non-PA Supplemental Nutrition Assistance Program (SNAP)
- PA SNAP
- Medicaid
- Cash assistance

Priority for referrals is as follows:

- Applications
- Reapplications
- Redeterminations
- Active cases

Note: FEFU does not investigate inactive cases.

11.5.1 REFERRAL CRITERIA

Below are some of the most frequent eligibility elements subject to error-prone findings. This is a guide for referral to FEFU, but referrals are not limited to these items only.

11.5.1.A Identification

- The client presents an identification document that appears to have been altered and/or does not appear to be authentic.
11.5.1.B Residency

- The client presents verification of residency (e.g., rent receipt, mortgage payment, utility bill) that appears to have been altered and/or written by applicant.

11.5.1.C Household Composition

- The client reports that a person with income has recently left the household; or
- The client reports that a person who was previously employed and not previously included in the SNAP assistance group (AG) is presently in the home and is not employed; or
- The client reports a large increase in the household size, or provides inconsistent information about Social Security numbers, dates of birth, or relationships; or
- Unreported individual(s) with income are suspected to be living in the home.

11.5.1.D Assets

- The client reports savings accounts for children but no savings accounts for adults; or
- Unreported bank holdings, such as certificates of deposit (CD), stocks, bonds, or checking accounts, are identified; or
- Unreported holdings of real property are identified; or
- Households with wage earners in which no vehicles are reported.

11.5.1.E Earned Income

- Households in which the principal wage earner has a long history of unemployment but reports receipt of Unemployment Compensation Insurance (UCI) benefits. Subsequently, the termination of UCI is reported, but the wage earner continues to be unemployed.
- Households where paid expenses are consistently higher than reported income; or
• The client presents an employment verification document that is not signed, does not appear to be authentic, or appears to have been altered or changed; or
• Reported earnings do not appear to be consistent with earnings reflected on wage-match reports; or
• Household in which a member has a history of employment that does not appear on wage match reports, such as domestic work or babysitting, but is reportedly no longer employed.

11.5.1.F Unearned Income

• Household where the wage earner loses a job and UCI is not reported, or a wage earner has been injured on the job and is not reporting Workers’ Compensation; or
• Households reporting enrollment in institutions of higher learning but not reporting scholarships or loans.

11.5.1.G Living with a Specified Relative

• The client presents documentation to establish relationship to the child(ren) that appears to be altered and/or does not appear to be authentic. Examples of documentation include: birth certificates, marriage licenses, divorce records, adoption papers, statements of persons in a position to know about the relationship, etc.

11.5.2 REFERRAL PROCESS

The Worker makes a referral using the eligibility system. To accomplish the referral, the Worker:

• Prints the appropriate screen from the eligibility system
• Summarizes questionable eligibility issues
• Signs and dates the bottom, and forwards to the FEVS
11.5.2.A  Investigative Priorities

Applications and redeterminations have priority.

Investigative findings on applications/reapplications are reported within 10 working days of receipt.

Investigative findings for all other referrals are reported to the Worker preferably within 30 working days.

11.5.2.B  Referral Disposition

The FEVS reports his investigative findings by completing Section A of the FEFU-1 and forwarding it to the Worker. A copy of the eligibility system referral is attached to the FEFU-1. The Worker must take appropriate case action based on the investigative findings.

The Worker notifies the FEVS of action taken by completing Section B of the FEFU-1 and returning it within 10 days of receipt. See Appendix A for an example of a completed FEFU-1.

If an overpayment appears likely, the FEVS makes the appropriate referral to the Claims and Collections Unit (CCU) or the Criminal Investigations Unit (CIU).
11.6 REFERRALS TO THE CRIMINAL INVESTIGATIONS UNIT (CIU)

NOTE: Workers must never accuse the client or insinuate to him that he is guilty of fraud or any criminal activity, and must never imply a threat of criminal action to obtain repayment.

NOTE: When an agency employee believes that an overpayment of benefits is $500 or greater due to an alleged fraudulent act (e.g., intentional false statement or deliberate client misrepresentation), the case is referred to the Criminal Investigations Unit (CIU) for evaluation, investigation, and referral for prosecution if warranted. Employees in this unit are known as Criminal Investigators (CIs). The overpayment can be in one program of assistance or programs may be combined to reach the $500 threshold.

11.6.1 DEFINITION OF WELFARE FRAUD

The principle statute dealing with obtaining welfare assistance through misrepresentation is Section 4, Article 5, Chapter 9, of the Code of West Virginia, 1936 as amended:

“Any person who obtains or attempts to obtain, or aids or abets an applicant or recipient in obtaining or attempting to obtain, by means of a willfully false statement or misrepresentation or by impersonation or any other fraudulent device:

- Any class of welfare assistance to which the applicant or recipient is not entitled; or
- Any class of welfare assistance in excess of that to which the applicant or recipient is justly entitled shall upon conviction be punished as follows:
  - If the aggregate value of all funds or other benefits obtained or attempted to be obtained shall be less than five hundred dollars, the person so convicted shall be guilty of a misdemeanor and shall be fined not more than one thousand dollars or confined to jail not exceeding one year; or
  - If the aggregate value of all funds or other benefits obtained or attempted to be obtained shall exceed five hundred dollars, the person so convicted shall be guilty of a felony and shall be fined not more than five thousand dollars or confined in the penitentiary not less than one year nor more than five years.”
The important elements constituting an offense under this statute are that any false representation was willfully made or that any other device to obtain assistance was a misrepresentation.

A willfully false statement is one that is deliberately given, with the intent that it be accepted as true, and with the knowledge that it is false. It is an essential element in a misrepresentation charge that the client knew his statement was false.

The misrepresentation must be of an existing fact and cannot be said to be willfully false if it is merely an expression of opinion.

Likewise, it is not essential that an affirmative representation be made. Misrepresentation may also be the suppression of what is true, as well as in the representation of what is false.

11.6.2 REFERRAL CRITERIA

The following guidelines assist the Worker in determining whether or not a referral is made to the CIU.

No referral is made in the following situations:

- The misrepresentation period ended more than two years ago.

  **Referral Example:** A case was last certified in December 1994. An overpayment occurred due to a false statement but was not discovered until November 1998. The case is not referred for fraud investigation but is referred for repayment as detailed in Sections 11.2 and 11.3.

- Pertinent sections of the application form (e.g., income, assets, potential resources, employment) were not properly completed by the Worker.

- The Rights and Responsibilities form was not signed.

- The application form was not signed.

- Correct information affecting eligibility was reported, but the agency did not take appropriate action.

- The total amount is less than $500. Repayment procedures should be followed instead. See Sections 11.2 and 11.3.

- The Worker believes the client is not mentally capable of understanding his responsibilities to report changes.

- The client is seriously ill, blind, or is suffering from a terminal illness.
• The client is over age 70.

**EXCEPTION:** In certain cases, misrepresentation may be so blatant and repetitive that referral may be indicated even though the amount is under $500. If there are any questions concerning a referral, the Worker may discuss the case with the CI assigned to his county.

### 11.6.3 REFERRAL PROCESS

When it is determined that an overpayment meets the requirements for referral to the CIU, the Worker completes Form IFM-1 and forwards it to the Director, Investigations and Fraud Management, Building 6, using interdepartmental mail. The form requires the Worker to indicate the case name, RFA or case number, county of overissuance/overpayment, program(s) or assistance involved, and a summary of the questionable eligibility factors. See Appendix B of this chapter. The forms are available in the county offices.

A Desk Guide to assist Workers in determining when and where to refer cases is found in Appendix C of this chapter.

**NOTE:** A referral to the CIU for possible criminal action has no bearing on current eligibility. The Worker must adhere to the eligibility requirements, require the client to verify all questionable information, and take the appropriate action.

### 11.6.4 DISPOSITION

Upon completion of the investigation, the CIU notifies the Worker of the disposition of the referral.
FRONT-END FRAUD UNIT
INVESTIGATIVE FINDINGS

SECTION A: Completed by Front-End Verification Specialist

CASE NAME: Kiddy Smith

RFA NUMBER: 26888888

COUNTY: Kanawha (20)

Summary of Investigative Findings:

Allegation:Absent parent, John Smith, is believed to be residing in the home.

Investigation Determined: Absent parent, John Smith, has been residing in the home of Kiddy Smith since last review, 06/20/2015. John Smith is employed at Wal-Mart at South Ridge and is paid weekly.

His last thirty (30) days of pay were as follows:
$350.25 on 08/1/17
$315.25 on 08/7/17
$250.15 on 08/14/17
$375.25 on 08/28/17

Verifications:
* Two (2) sworn affidavits regarding household composition
* Landlord verification
* Postal verification
* DMV verification
* Employer verification

Please take appropriate action on the case.

FEFU will make any necessary referrals regarding overpayments if applicable.

12.1 INTRODUCTION

This chapter contains policies and procedures related to replacement of benefits by program. It also contains information regarding the replacement of electronic benefit transfer (EBT) cards and personal identification numbers (PIN).

When the client reports non-receipt, partial receipt, loss, theft, or damage of the benefit, the Worker must determine if the benefit will be replaced.
12.2 SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP)

The following section covers the replacement of destroyed food that was purchased with SNAP benefits. When the assistance group (AG) is eligible to receive a replacement allotment, the allotment must be received as follows:

- Within 10 days after the client reports, or
- Within two working days after the client returns the DFA-SNAP-36, whichever is later.

12.2.1 SNAP BENEFIT REPLACEMENT

12.2.1.A Destroyed Food

12.2.1.A.1 Replacement Procedures

In cases when food purchased with SNAP is destroyed in a household misfortune or disaster, the AG will be eligible for replacement of the actual value of the loss, not to exceed one month’s allotment, if:

- The loss is reported within 10 days of the incident; and
- The AG’s misfortune or disaster is verified; and
- The DFA-SNAP-36 is completed and signed within 10 days of the report of the loss.

A misfortune or disaster such as, but not limited to, fire or the loss of power, may affect an individual household. The power outage must exceed four hours. A natural disaster may affect either an individual household or more than one household.

**NOTE:** The loss of power due to the termination of service to an individual household is considered a household misfortune.

During a mass power outage, verification of the outage is self-attested.

The Worker replaces the value of the food using the appropriate eligibility system procedure. The replacement benefit must be received within two days of the receipt of the completed and signed DFA-SNAP-36. The original DFA-SNAP-36 is retained in the case record. It is not necessary to send a copy to the Division of Family Assistance (DFA) Economic Services Policy Unit.
12.2.1.A.2 Limits on Replacement

There is no limit on the number of times the value of food lost in a misfortune or disaster may be replaced.

The Department of Health and Human Resources (DHHR) may deny or delay replacement issuances in cases where available documentation indicates that the household’s request for replacement appears to be fraudulent.

12.2.1.A.3 Offsetting Claims

Replacements of destroyed food must not be used to offset claims.

12.2.1.B Lost, Stolen, Damaged, or Destroyed EBT Cards

The client may request a new card by contacting the EBT Automated Response Unit (ARU), DHHR Customer Service Center, or the local office. All replacement cards are sent in an active status, unless never previously activated. The following details the processes used when each is contacted. The processes for the DHHR Customer Service Center and the local offices differ because the DHHR Customer Service Center staff has the capability to deactivate a card.

If the EBT card is stolen prior to receipt by the client and benefits are fraudulently accessed, see the Exception in 21.2.2. The DFA Economic Services Policy Unit must be consulted in this situation.

12.2.1.B.1 EBT Automated Response Unit (ARU)/Helpline

When the client requests a new card through the EBT ARU, the old card is deactivated, and, if the current address is in the EBT Administrative System, a new card is mailed to the client. When the client’s current address is not in the EBT Administrative System, the card is deactivated, but a replacement card is not mailed. The client is instructed by the EBT ARU to contact his Worker to change his address. The client must contact the EBT ARU the day following the address change to request a new card.
12.2.1.B.2 DHHR Customer Service Center

When the client requests a new card through the DHHR Customer Service Center, the old card is deactivated in the EBT Administrative System and, if the current address is in the EBT Administrative System, a new card is mailed to the client.

When an address change is required, the card is deactivated in the EBT Administrative System, but a new card is not issued. The Worker must complete an address change and request a replacement card in the eligibility system.

NOTE: Deactivation of the card in the EBT Administrative System must take place immediately to prevent unauthorized use. Deactivation of the EBT card is effective immediately.

12.2.1.B.3 Local Office

When a client reports a lost, stolen, or damaged card to the local office, he is referred to the EBT ARU. When a client reports an address change and requests a replacement EBT card, the address change is completed in the eligibility system and the client is referred to the EBT ARU to immediately deactivate the card. The client must contact the EBT ARU the following day to request a new card.

If the client requests a replacement card at application or redetermination, the Worker must request a new card in the eligibility system. This method is only used if the client’s old card is not in danger of unauthorized use.

NOTE: Address changes in the eligibility system are received by the EBT vendor the following day. If a client’s card has already been deactivated or is not in danger of unauthorized use (e.g., damaged), the Worker may request a new card in the eligibility system after the address change is made.

12.2.1.C EBT Personal Identification Number (PIN) Changes

The payee or authorized cardholder may request a PIN change at any time. Replacement cards are issued with the same PIN, unless the individual requests a new one. A PIN-only change request must be made to the EBT ARU.
12.2.2 WHEN SNAP BENEFITS ARE NOT REPLACED

Replacement issuances are not provided in the following circumstances:

- When the issuance would normally be replaced, but the AG has not signed the DFA-SNAP-36 within 10 days of the date the client reports the loss.
- When the client does not report the benefit loss within the period of intended use or within 10 days of the specific incident.
- When benefits are issued into an EBT account.

**EXCEPTION:** When the EBT card is stolen before receipt by the client and benefits are fraudulently accessed, this situation must be reported to the DFA Economic Services Policy Unit for specific replacement procedures.
12.3 WV WORKS PROGRAM

All initial, monthly and supplemental WV WORKS cash assistance benefits are issued by direct deposit or electronic benefits transfer (EBT).

The information contained in Sections 12.3.1 – 12.3.5 below describes the circumstances under which a Support Service check, BA-67 or EBT card is replaced and the procedures for replacement.

12.3.1 WHEN THE SUPPORT SERVICE CHECK IS REPLACED

The Support Service check is replaced when one of the following conditions is met:

- The check is not received by the client and has not been returned to the DHHR.
- The check is received by the client, but is stolen, lost, or accidentally destroyed before being cashed.

When a replacement a replacement check is issued and the client subsequently finds and cashes the original check, he must reimburse the amount of the replacement check. Until the amount is repaid in full, the client is ineligible for any future replacements.

12.3.2 WHEN THE SUPPORT SERVICE CHECK IS NOT REPLACED

Unless one of the criteria in Section 12.3.1 above is met, the check is not replaced.

If the client cashes the check and the money is stolen, lost, or destroyed, the money must not be replaced.

When a replacement check is issued and the client subsequently finds and cashes the original check, he must reimburse the amount of the replacement check. Until the amount is repaid in full, the client is ineligible for any future replacements.

See Section 12.3.8 below for direct deposits.
12.3.3 PROCEDURES FOR REMAILING SUPPORT SERVICE CHECK

The following steps are followed for remailing a Support Service check:

- Determine that the check was issued by inquiring in the case management system. The benefit must be in a disposition of issued and history updated with the check number.
- Determine, either by inquiring benefit issuance history or telephone call, that the check has been returned to Client Accounts.
- If returned, determine the address to which the check should be mailed. The local office Worker must request a new benefit in the eligibility system.

12.3.4 SUPPORT SERVICE CHECK REPLACEMENT PROCEDURES

The following steps are used for Support Service check replacement. Support Service replacement checks are not issued by the Worker.

- Determine that the check was issued by inquiring benefit issuance history in the case management system. The benefits must be in a disposition of issued and history updated with the check number.
- If the Support Service check is not received within 10 workdays, excluding Sundays and holidays, after the expected check receipt date, the Worker prepares an original and four copies of the Lost Check Affidavit form (DF-36). When completing the name and address on the DF-36, the information must match the original information in the case management system on the check.
- Have the client read or read to him the DF-36, and explain that he must return the original check if later received or found.
- The client signs the DF-36 in the presence of the Worker. The client's name must be exactly as shown in the case management system. Two witnesses are required if the client signs with an X. Signatures on all copies must be original. The Worker must complete the state, county, and date sections of the DF-36.
- The Worker sends the original and two copies of the DF-36 to:
  
  Client Accounts
  1 Davis Square, Suite 402
  Charleston, WV 25301

  File a copy of the memorandum and DF-36 in the case record.
• The Worker requests stop payment of the check through the eligibility system.
• When Client Accounts determines the check has not been cashed, they will request stop payment of the check and Client Accounts will issue a replacement.

### 12.3.5 WHEN THE ORIGINAL SUPPORT SERVICE CHECK IS LOCATED

If the client later receives or finds the original check, he must return it to the local office and endorse it to the DHHR. The Financial Clerk or designee accepts the check and issues a receipt.

### 12.3.6 TIME LIMITS ON REPLACEMENTS

There is no specific timeframe in which a client must request a replacement. There is no limit on the number of times a client may have a check replaced.

### 12.3.7 ALTERNATE ISSUANCE

When the client repeatedly loses a Support Service check or reports non-receipt of a check, the Worker must consider the following options:

- If the client appears mentally incapable, consider a referral to Office of Children and Adult Services for appointment of a committee or protective payment.
- Suggest that the client rent a post office box.

### 12.3.8 DIRECT DEPOSIT REPLACEMENT PROCEDURES

The State Auditor’s Office makes every attempt to resolve problems with unsuccessful direct deposit transactions. When a client reports that a direct deposit is not received in his account by the last State workday of the month, he must be referred to the Auditor’s Office immediately so that the deposit can be traced and the problem resolved as soon as possible.
However, when a direct deposit return is not indicated in the eligibility system, but is not credited in the client’s specified account within five State workdays of the usual direct deposit date, the following procedure is used:

- The client must obtain documentation from his financial institution that the deposit has not been credited to his account. The documentation must be in writing and contain his account number. In addition, the client must sign the Non-Receipt of Direct Deposit Affidavit. An original and two copies are sent to Accounts Receivable and a copy is placed in the case record. The benefit is replaced using appropriate eligibility system procedures.
- The benefit is replaced by EBT. Under no circumstances is the benefit replaced by an additional direct deposit. If the deposit is not returned from the Auditor’s Office, the Office of Accounting refers the case to Investigations and Fraud Management (IFM). The IFM referral is only for the purpose of seeking repayment.

### 12.3.9 LOST, STOLEN, DAMAGED, OR DESTROYED EBT CARDS

The client may request a new card by contacting the EBT Automated Response Unit (ARU), DHHR Customer Service Center, or the local office. All replacement cards are sent in active status, unless never previously activated. The following details the processes used when each is contacted. The processes for the DHHR Customer Service Center and the local offices differ because the DHHR Customer Service Center staff has the capability to deactivate a card.

#### 12.3.9.A EBT Automated Response Unit (ARU)

When the client requests a new card through the EBT ARU, the old card is deactivated, and, if the current address is in the EBT Administrative System, a new card is mailed to the client. When the client’s current address is not in the EBT Administrative System, the card is deactivated, but a replacement card is not mailed. The client is instructed by the EBT ARU to contact his Worker to change his address. The client must contact the EBT ARU the day following the address change to request a new card.
12.3.9.B  DHHR Customer Service Center

When the client requests a new card through the DHHR Customer Service Center, the old card is deactivated in the EBT Administrative System and, if the current address is in the EBT Administrative System, a new card is mailed to the client.

When an address change is required, the card is deactivated in the EBT Administrative System, but a new card is not issued. The Worker must complete an address change and request a replacement card in the eligibility system.

---

NOTE: Deactivation of the card in the EBT Administrative System must take place immediately to prevent unauthorized use. Deactivation of the EBT Card is effective immediately.

---

12.3.9.C  Local Office

When a client reports a lost, stolen, or damaged card to the local office, he is referred to the EBT ARU. When a client reports an address change and requests a replacement EBT card, the address change is completed in the eligibility system and the client is referred to the EBT ARU to immediately deactivate the card. The client must contact the EBT ARU the following day to request a new card.

If the client requests a replacement card at application or redetermination, the Worker must request a new card in the eligibility system. This method is only used if the client’s old card is not in danger of unauthorized use.

---

NOTE: Address changes in the eligibility system are received by the EBT vendor the following day. If a client’s card has been already been deactivated or is not in danger of unauthorized use (e.g., damaged), the Worker may request a new card in the eligibility system after the address change is made.

---

12.3.10  EBT PERSONAL IDENTIFICATION NUMBER (PIN) CHANGES

The payee or authorized cardholder may request a PIN change at any time. Replacement cards are issued with the same PIN, unless the individual requests a new one. A PIN-only change request must be made to the EBT ARU.
12.3.11 WHEN THE BA-67 IS REPLACED

The BA-67 is replaced when one of the following conditions is met:

- The BA-67 is not received by the client and has not been returned to the DHHR.
- The BA-67 is received by the client, but is stolen, lost, or accidentally destroyed before being redeemed.

When a replacement BA-67 is issued and the client subsequently finds and redeems the original BA-67, he must reimburse the amount of the replacement BA-67. Until the amount is repaid in full, the client is ineligible for any future replacements.

12.3.12 WHEN THE BA-67 IS NOT REPLACED

Unless one of the criteria in Section 12.3.11 above is met, the BA-67 is not replaced.

12.3.13 BA-67 REPLACEMENT PROCEDURES

12.3.13.A If the BA-67 Is Not Received

If the BA-67 is not received within 10 workdays, excluding Sundays and holidays, after the expected receipt date, the Worker prepares an original and two copies of the Lost Check Affidavit form (DF-36). When completing the name and address on the DF-36, the information must match the original information on the BA-67.

- Have the client read or read to him the DF-36, and explain that he must return the original BA-67 if later received or found.
- The client signs the DF-36 in the presence of the Worker. The client's name must be exactly as shown on the BA-67. Two witnesses are required if the client signs with an X. Signatures on all copies must be original. The Worker must complete the state, county, and date sections of the DF-36.
- The Worker or Supervisor logs into the BA-67 system to request a cancel. The request is automatically electronically sent to the Financial Clerk to cancel the voucher.
• One copy of the DF-36 is kept in the Work Programs portion of the case record, one copy is given to the Financial Clerk, and one copy is given to the customer.

12.3.13.B If the BA-67 Has Been Canceled

If the BA-67 has been canceled, and then the Worker receives a request for payment from the canceled BA-67, the Worker must request a new BA-67 as a replacement. The replacement BA-67 voucher is used to issue a payment to the vendor and never leaves the county office.

• The Worker must create a new BA-67 in the case management system with details matching the canceled voucher, including the vendor name and maximum amount.
• The new BA-67 description must specify that it is a replacement of the canceled voucher and include the canceled BA-67 number.
• The new BA-67 must be printed and attached to the canceled BA-67 along with the receipt sent by the vendor.
• The Worker and Supervisor will then follow the standard process of editing the BA-67 amount and approving the payment in the eligibility system.
12.4 MEDICAID

The client must be an eligible Medicaid recipient to receive services. A replacement card or other approved verification may be necessary to avoid a medical emergency.

The Medical ID card must be replaced any time a client reports he has not received the card or received the card and it is lost, stolen, or destroyed, and he requests a replacement.

When the client reports non-receipt of the Medical ID card, the Worker must check the eligibility system to determine if a card was issued and/or if an incorrect entry is found, the Worker must correct the information and reissue the benefit.

If the client's address is incorrect and the card has not been returned to Accounts Receivable or the local office, the Worker must correct the address in the eligibility system and issue a replacement card or verification letter for the correct period of eligibility.

13.1 INTRODUCTION

Several of the Division of Family Assistance (DFA) programs require that a medically determined physical and/or mental impairment exist for the client and/or family to receive benefits. This chapter deals with how disability is established for these programs. The nature, degree, and duration of the impairment required for eligibility purposes vary from program to program. Some decisions are made by the Medical Review in the Bureau for Medical Services (BMS).

13.1.1 MRT DECISIONS

The following incapacity/disability decisions are made by MRT:

- Supplemental Security Income (SSI)-Related Medicaid – when eligibility of the individual is based on disability or blindness and neither has been determined by Social Security.
- WV WORKS – when a temporary exemption from the work requirement, based on incapacity or temporary incapacity, is alleged and the Worker and Supervisor are unable to make the determination.
- WV WORKS – when an assistance group (AG) is being considered for an extension of the 60-month lifetime limit based on disability, and disability was not established prior to the 55th month, a referral to MRT is mandatory. See Section 18.2.
- Medicaid Work Incentive (M-WIN) – when eligibility of the individual is based on disability or blindness and neither has been determined by Social Security.

13.1.2 OTHER DISABILITY DECISIONS

Other Medicaid coverage groups require a medical determination of disability or blindness, but the responsibility for the determination rests elsewhere. The Worker, therefore, is not usually involved in the process, but must be notified of the disability decision prior to case approval and recertification. These coverage groups are:

- SSI Recipients: The disability decision is made by the Social Security Administration (SSA).
- Deemed SSI Recipients, except essential spouses of SSI Recipients: The disability decision is made by the SSA.
• Qualified Disabled Working Individuals (QDWI): The disability decision is made by the SSA.

• Aged and Disabled Waiver (ADW), Traumatic Brain Injury (TBI), and Intellectual/Developmental Disabilities (I/DD) Waiver: The disability decision is made by the BMS contract agency. The Worker is notified of the decision by the BMS contract agency.

• Children with Disabilities Community Service Program (CDCSP): The disability decision is made by the BMS contract agency. The Worker is notified of the decision by the BMS contract agency.

• Acquired Immune Deficiency Syndrome (AIDS) Drug Assistance Program (ADAP): A medical diagnosis of human immunodeficiency virus (HIV) positive is the only disability requirement. The Worker obtains the medical statement from the client and forwards it to the BMS with the application.
13.2 CLIENT HAS BEEN FOUND NOT DISABLED BY SSA

The blind or disabled individual who is determined not disabled by the SSA must not, normally be found disabled for Medicaid purposes.

However, in the following situations, the client who has been found not disabled by the SSA may be eligible for Medicaid when:

- There has been a deterioration in the client's condition subsequent to the SSA's determination of ineligibility; or

- The client has appealed the SSA decision and DHHR’s determination of disability or blindness is made prior to completion of the SSA appeal process. If the SSA’s decision is upheld, Medicaid must be stopped.

- An individual may be eligible for Medicaid while his claim for RSDI and/or SSI is being processed, providing that a MRT determination of disability or blindness is made prior to SSA's determination that the client is not disabled.

**NOTE:** When a Medicaid application is denied or the benefit is stopped because the SSA found the client not disabled, consideration must be given to his eligibility for all other coverage groups.
13.3 DEFINITIONS OF DISABILITY AND BLINDNESS

13.3.1 DEFINITION OF DISABILITY

The definitions of disability for WV WORKS and Medicaid purposes are the same as the definitions used by the Social Security Administration (SSA) in determining eligibility for Supplemental Security Income (SSI) or Retirement, Survivors, and Disability Insurance (RSDI) based on disability, which are as follows.

13.3.1.A Individuals Age 18 or Over

An individual who is age 18 or over is considered to be disabled if he is unable to engage in any substantial gainful activity due to any medically determined physical or mental impairment that has lasted, or is expected to last, for a continuous period of at least 12 months, or is expected to result in death.

13.3.1.B Individuals Under Age 18

The child who is under age 18 is considered to be disabled if he has a medically determinable physical or mental impairment (or combination of impairments), the impairment(s) results in marked and severe functional limitations, and the impairment(s) has lasted (or is expected to last) for at least one year or to result in death.

An individual under age 18 is not considered a child if he:

- Is legally married;
- Is divorced; or
- Is over age 16 and has been emancipated by a court of law.
13.3.2 DEFINITION OF BLINDNESS

To meet the definition of blindness, the individual must have:

- Central visual acuity that cannot be corrected to better than 20/200 in the better eye; or
- A limitation of the field of vision in the better eye so that the widest diameter of the visual field subtends an angle of 20 degrees or less.

13.3.3 CONSIDERATION OF MEDICAL AND SOCIAL FACTORS IN DETERMINING DISABILITY

In determining whether or not an individual is disabled, medical and social factors and the relationship between the two must be considered.

If the medical information indicates that the individual has an impairment that has lasted or can be expected to last the required length of time, social factors must be examined to determine the effect of the impairment on the individual.

When a case is referred to the Medical Review Team (MRT) for a disability decision, the Worker must complete form DFA-RT-1, Social Summary Outline that identifies the social information used by the Worker in making a presumptive decision and by MRT in making the final disability decision.

The DFA-RT-1 must be completed and sent to the MRT.
13.4 PROCESS FOR DETERMINING DISABILITY, INCAPACITY AND BLINDNESS

13.4.1 GENERAL REQUIREMENTS

The following steps are necessary in the process of determining incapacity, disability, and blindness. These steps do not apply to the determination of disability for Supplemental Nutrition Assistance Program (SNAP); see Section 13.15.

- Accept the application
- Prepare the Social Summary Outline
- Obtain initial medical reports
- Evaluate for presumptive approval and/or referral to the Medical Review Team (MRT)
- Obtain additional medical reports when indicated
- Reevaluate for presumptive approval
- Re-refer to the MRT
- Receive MRT decision
- Notify the client of disposition
- Notify the Federally-Facilitated Marketplace (FFM) electronically when appropriate

NOTE: Determining whether the client will meet the spenddown should not delay the determination of disability, incapacity, or blindness for Supplemental Security Income (SSI)-Related Medicaid applicants. The establishment of disability, incapacity or blindness and meeting a spenddown requirement are both eligibility factors and both must be pursued simultaneously. If the application is denied in the eligibility system for a reason other than failure to meet a spenddown prior to a MRT decision, the Worker must notify MRT of the denial. MRT will stop consideration of the case and return all information to the Worker. If the Worker determines that the client is ineligible for any other reason prior to the MRT decision, the application is denied, and the Worker must notify MRT to stop consideration of the application. This does not apply when the only reason for denial is failure to meet a spenddown.
13.4.2 SSI-RELATED DISABILITY PROCESSING REQUIREMENTS

13.4.2.A Target Time Periods

Target time periods have been established to assure that SSI-Related disability cases are processed within the 90-day processing time limit, except when the delay is beyond the Department of Health and Human Resources’ (DHHR) control.

<table>
<thead>
<tr>
<th>Required Action</th>
<th>Time Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Request medical records and reports</td>
<td>By the 7th calendar day after application</td>
</tr>
<tr>
<td>Follow-up request(s) for medical records or reports</td>

<tr>
<td>File returned to county office</td>
<td>By the 3rd after final physician's review</td>
</tr>
<tr>
<td>Notice to the client</td>
<td>By the 7th day after receipt of final decision at county office</td>
</tr>
</tbody>
</table>

NOTE: The 90-day processing time limit concludes with the mailing of the client notification, not eligibility system action.
13.4.2.B  DFA-20

Disability cases that have been pending longer than 90 days must receive a DFA-20 by the 100th day stating the reason for the delay.

A copy of the DFA-20 must be filed in the case record if not issued out of the eligibility system.

13.4.2.C  Holcomb Log Sheet

As a result of Holcomb v. Lewis, the processing of SSI-Related disability applications was tracked using the Holcomb Log Sheet.

Effective October 1, 1995, the Holcomb Log Sheet is no longer required by the court order. Its use is optional.

13.4.3 INCAPACITY FOR WV WORKS

For WV WORKS purposes, a determination of incapacity must be made to determine if an individual may have good cause for failure to participate in countable activities.

The decision is made by the Worker and/or Supervisor, at the discretion of the Community Services Manager or the MRT, depending on the length of the expected incapacity. The Worker must provide the applicant with Form DFA-DIMA-1 to be completed by his medical provider. If the incapacity is obvious and not expected to continue for an extended period, no medical verification is required, but the Worker must record his findings and justify his decision. For any period of disability or incapacity that is expected to continue for more than a six-month period, the case must be submitted to the MRT for evaluation.

If the incapacity is not obvious, verification must be provided from a physician, licensed or certified psychologist, surgeon, doctor of osteopathy, or other medically qualified individual. The verification must include an estimate of the duration of the incapacity. The medical practitioner is not required to state that the individual must be excused from participation. The Worker and/or Supervisor make this decision, based on medical records submitted and any necessary follow-up contact, but the period must not last longer than six months.

The medical condition must be reevaluated according to the statement of the medical practitioner or as determined by the MRT. However, each individual who has good cause for
failure to participate in countable activities must have documentation of a medical reevaluation at least once quarterly. During the time that the client is unable to participate in work activities, he must be referred to other potential resources, such as the Social Security Administration (SSA), Legal Aid, and Division of Rehabilitation Services (DRS). Such referrals and follow-up must be added to the client’s Self-Sufficiency Plan (SSP) as appropriate.
13.5 DETERMINATION OF DISABILITY OR BLINDNESS WITHOUT MEDICAL REPORTS OR SOCIAL SUMMARY

13.5.1 DISABILITY ESTABLISHED BY SSA

It is not necessary to obtain medical reports, complete the social summary, or refer the case to the Medical Review Team (MRT) when the disabled individual receives Retirement, Survivors, and Disability (RSDI) benefits based on his own disability. This includes benefits for the disabled wage earner; benefits for the adult disabled child of a retired, deceased, or disabled wage earner; and benefits for the disabled spouse of the retired, deceased, or disabled wage earner.

See Section 13.6.2 for disabled individuals who previously received Supplemental Security Income (SSI).

13.5.2 DISABILITY ESTABLISHED BY RAILROAD RETIREMENT BOARD

It is not necessary to obtain medical reports, complete the social summary, or refer the case to the MRT when disability has been established by the Railroad Retirement Board.

To meet the Medicaid definition of disability, the client's Railroad Retirement annuity must be based on his own total and permanent disability. The individual who is receiving a Railroad Retirement annuity based on occupational disability does not meet the disability requirements for Medicaid.

13.5.3 BLINDNESS

It is not necessary to obtain medical reports, complete the social summary, or refer the case to the MRT when both eyes are missing.
13.5.4 DISABILITY ESTABLISHED BY RECEIPT OF RSDI – CLIENT CLAIMS BLINDNESS

When an individual receives RSDI based on his disability, but has earned income and would benefit from the more generous treatment of earned income available to blind persons, the Worker must pursue establishment of his blindness. The application must first be approved based on disability. The Worker proceeds with the usual processes involved in establishing blindness.
13.6  PRESUMPTIVE MEDICAL APPROVAL

13.6.1  INTRODUCTION

The process of making a disability, incapacity or blindness decision at the local level is referred to as the presumptive medical eligibility process.

In some situations the decision may be made prior to obtaining any medical reports.

However, in all other situations, the presumptive medical decision is made only when medical information and the social summary are available. The presumptive decision is always one of presumptive approval, not presumptive medical denial.

When the case is referred to the Medical Review Team (MRT) for a final decision, the presumptive medical eligibility decision is made by the Worker, with approval of his Supervisor.

The guidelines for presumptive medical decisions based on medical and social information are found below. The definitions of incapacity, blindness, and disability follow.

In making a presumptive medical decision of incapacity or disability, the Worker uses the guidelines appropriate for the coverage group to determine if the medical/psychological impairment of the applicant is likely to last the required length of time. He then uses the social summary information to determine if the impairment:

- Prevents the incapacitated parent, age 18 and over, from working; or,
- Prevents the applicant under age 18 from functioning independently and effectively in an age-appropriate manner; or,
- Prevents the incapacitated parent from caring for himself or performing household duties and, therefore, requires the presence of the spouse in the home.

13.6.2  WHEN THE APPLICANT HAS RECEIVED SSI BASED ON DISABILITY OR BLINDNESS

When an individual whose SSI payment has terminated applies for Medicaid, and it is necessary to establish incapacity, disability, or blindness, the procedure is as follows:
• If it is verified that the SSI payment was terminated for some reason other than the lack of disability or blindness, medical eligibility is presumed prior to obtaining medical reports.

• The Worker then follows the usual procedures to obtain medical reports, complete the DFA-RT-1, Social Summary Outline and submits the case to the MRT for a final decision, etc. See Section 13.3 for instructions regarding completion of the DFA-RT-1.

13.6.3 GUIDELINES FOR PRESUMPTIVE MEDICAL DECISION OF BLINDNESS

To meet the definition of blindness, the client must have central visual acuity of 20/200 or less in the better eye with correcting glasses.

13.6.4 GUIDELINES FOR PRESUMPTIVE MEDICAL DECISION OF DISABILITY FOR SSI-RELATED MEDICAID AND M-WIN, AGE 18 OR OVER

13.6.4.A Definition of Disability

An individual, who is age 18 or over, is considered disabled if he is unable to engage in substantial gainful employment by reason of any medically determined physical or mental impairment that can be expected to result in death, or that has lasted or can be expected to last for a continuous period of not less than 12 months.

13.6.4.B Role of the Worker in the Presumptive Medical Approval Process

Prior to referral to the MRT, the Worker must review the medical information to determine if the client's conditions meet any of the criteria for presumptive approval listed in Appendix A. If a client’s medical information does not meet the criteria for presumptive approval, but the Worker or Supervisor feels the client’s condition(s) is severe enough to warrant an immediate evaluation, he should submit the case to the MRT as soon as possible.
13.6.5 GUIDELINES FOR PRESUMPTIVE MEDICAL DECISION OF DISABILITY FOR SSI-RELATED MEDICAID AND M-WIN, UNDER AGE 18

13.6.5.A Definition of Disability

A child who is under age 18 is considered disabled if he has a physical or mental impairment that can be expected to last or has lasted for at least 12 months, and is of comparable severity to that which qualifies an individual age 18 or over.

Comparable severity exists, provided the child is not engaged in substantial gainful activity, when the child's physical or mental impairment(s) so limits his ability to function independently, appropriately and effectively in an age-appropriate manner that the impairment(s) and the limitation(s) resulting from it are comparable to those that would disable an adult.

13.6.5.B Role of the Worker in the Presumptive Medical Approval Process

Prior to referral to the MRT, the Worker must review the medical information to determine if the client's condition meets any of the criteria for presumptive approval listed in Appendix B. If a client's medical information does not meet the criteria for presumptive approval, but the Worker or Supervisor feels the client's condition(s) is severe enough to warrant an immediate evaluation, he should submit the case to the MRT as soon as possible.
13.7 OBTAINING MEDICAL REPORTS

This section outlines procedural instructions for obtaining medical reports.

13.7.1 INITIAL MEDICAL REPORTS

13.7.1.A General Information About Providers

The instructions that follow apply to all requests for which the provider of the service bills the Department of Health and Human Resources (DHHR).

13.7.1.A.1 Providers Certified by DHHR

Requests for medical procedures and information must be made only to medical providers who have been certified for participation in DHHR’s Medicaid program.

13.7.1.A.2 Out-of-State Providers Certified by DHHR

Only providers certified by the Bureau of Medical Services (BMS) are to be used to obtain initial medical reports. When necessary, the Worker must contact BMS to verify certification.

13.7.1.A.3 General Information for Completion of Medical Request Forms

The following forms are for requesting information when the provider will be billing the Department. Each contains instructions to the provider to attach the form to his billing.

- DFA-RT-5: General Medical Examination Report, Adults

**NOTE:** Even when the examining physician suggests an exam or report, the case must be submitted to the Medical Review Team (MRT) for authorization by an additional medical request. Diagnostic testing must also be requested by the MRT prior to authorization.
• DFA-RT-5a: General Medical Examination Report, Children
• DFA-RT-6: Medical Information/Diagnostic Request Letter
   Used to request a general physical examination, eye examination, or an outpatient psychological exam. It must be used with DFA-RT-5 and DFA-RT-5a when a general physical examination is needed.

• DFA-RT-7: Specialist Consultation
   Used to obtain a consultation by a specialist at the request of the examining physician and/or the MRT.

• DFA-RT-8: Request from Physician's Record
   Used to request a copy of medical information from a physician's records. This must be attached to the DFA-RT-8a in order for payment to occur.

• DFA-RT-8a: Physician's Summary
   Used to obtain the physician's recommendation to the MRT. When this form is used it must have the DFA-RT-8 attached.

• DFA-RT-9: Report from Hospital Records
   Used to request a copy of medical information from hospital records. Requests for special test results must be stated on the form.

• DFA-RT-10: Inpatient Diagnostic Services
   Used to request hospitalization for specific procedures. Prior approval from the MRT is required.

• DFA-RT-11: Physician’s Hospital Services
   Used to request hospitalization for specific procedures. Prior approval from the MRT is required.

• DFA-RT-15: Request from Psychiatrist's Record
   Used to obtain medical information from a psychiatrist/psychologist. This must be included with the DFA-RT-15a and attached to the physician's billing form in order for payment to occur.

• DFA-RT-15a: Psychiatrist’s Summary

**NOTE:** When the MRT requests an evaluation or consultation by any specialist including, but not limited to, a psychiatrist, cardiologist, orthopedist, etc., the DFA-RT-7 must be attached to the physician's billing form in order for payment to occur.
13.7.1.A.4 General Instructions for Completion

Forms are to be completed as follows:

- Each form is prepared in duplicate. One copy is filed in the case record.
- The date, name, and address of the medical provider to whom the authorization is issued must be entered.
- The Worker must also include the address of the county office.
- Refer below for the number to enter as the case number.

13.7.1.A.5 Numbers Used on Medical Request Forms

The forms used for requesting medical examinations and reports are self-explanatory. For auditing and federal reimbursement reasons, the Medicaid Identification (MAID) number or the Pending Medicaid Number must be used for any medical information requested. The following explains the numbers and when each is used.

➢ Pending Medicaid Number

The number is 80 followed by seven zeros and the county number. For example, the Pending Medicaid Number for Kanawha County is 80-0000000.20. This number is used for an individual who is not a Medicaid recipient at the time the information is requested. This includes individuals who previously received Medicaid, but are not current recipients.

➢ MAID Number

This is the number assigned by the eligibility system for Medicaid billing. This number is used when medical information is requested for a current Medicaid recipient only.

The local office must keep a log of all requests issued. The log must contain the following information:

- MAID number or Pending Medicaid Number and the county number;
• Case name;
• Client’s name;
• Date of the request; and,
• Name of the provider to whom the request was sent.

13.7.1.B  Obtaining Initial Medical Reports

The following forms and instructions are used by the Worker to obtain initial medical reports.

NOTE: Medical reports must be requested within seven days after the date of application. In addition, follow-ups must be done every 30 days, when the medical reports are not received.

13.7.1.B.1  DFA-PHI-7: Authorization for Information

When the instructions in the following sections specify that form DFA-PHI-7 is included with a request for medical information, the date entered on the form must be no earlier than one month prior to the date it is mailed. The name of the provider must be placed on the form prior to the client’s signature.

13.7.1.B.2  Physician’s or Psychiatrist’s/Psychologist’s Summaries

Form DFA-RT-8 and DFA-RT-8a are sent to request information from physicians and forms DFA-RT-15 and DFA-RT-15a are sent to request information from psychiatrists/psychologists. If the physician or mental health professional fails to complete the form, a second one must be sent. The date the second one is sent must be noted on the DFA-RT-2.

The Worker must indicate which sections of the form must be completed by the physician or psychiatrist/psychologist.
13.7.1.B.3 Initial Medical Report – Blindness

When an application is made for Medicaid due to incapacity or disability based on blindness, the Worker:

- Determines the ophthalmologist (MD/DO) of the client’s choice who is an approved Medicaid provider;
- Makes an appointment with the ophthalmologist and notifies the client in writing of the date and time;
- Completes form DFA-RT-6 in duplicate with "Eye Examination and Report on the Enclosed Form" checked. The original is sent to the ophthalmologist, and a copy is filed in the case record; and,
- If the appointment is with an ophthalmologist, form DFA-B-13 is enclosed with the DFA-RT-6. The DFA-B-13 is a report form for the ophthalmologist.

13.7.1.B.4 Initial Medical Report, Incapacity and Disability

Sources of initial medical reports are listed in order of priority. The exception is, under some circumstances, when incapacity or disability is being established, medical reports are first requested from the Social Security Administration (SSA). See Section 13.7. If the SSA reports are not available, the Worker then obtains the reports as found below.

- Medical Information Available in the Case Record

The Worker should first consult the case record and review available medical information.

- Medical Reports from Children with Special Health Care Needs Program (CSHCN) and the PAS-2005, Patient Medical Evaluation

In the following situations, the only initial medical reports needed are those available in the case record:

- The applicant is currently receiving services from the CSHCN. In this case, copies of these medical reports are submitted to the MRT.
- The applicant is residing in, or planning to enter, a nursing home.
In both of the above situations, no other medical information is needed unless requested by the MRT.

➢ **Other Medical Information**

The case record is examined to determine if there are any past medical and/or psychological reports. If so, information that relates to the applicant's current impairment is submitted to the MRT along with current medical report(s).

➢ **Medical/Psychological Reports from the Division of Rehabilitation Services (DRS)**

When the applicant is referred to DHHR by the DRS, or reports that he is receiving DRS services, copies of the DRS medical reports must be obtained.

Under terms of the agreement between the DRS and DHHR, the DRS is expected to provide all available medical information when the DRS refers the client to DHHR.

Copies of medical reports are to be attached to the HS-3 used for the referral.

If medical reports are not attached to the HS-3, or if the client is not referred by the DRS, but reports that he is receiving services from them, the Worker must ask the DRS to forward available medical reports. The medical reports from the DRS will usually eliminate the need for any other initial medical information and may include copies of specialist's consultations, psychological evaluations, etc.

➢ **Reports from Hospitals and Physicians**

If the applicant has recently received medical treatment, or is currently receiving medical care, it may be possible to obtain copies of medical reports from the hospital or physician.

All requests are sent with form DFA-PHI-7, Authorization for Information, signed by the applicant. If the application is made for a child, the person who made the application signs the child's name and his own, and indicates his relationship to the child.

➢ **Mental Hospitals**

If the client has recently been discharged from a mental hospital, the Worker must request a report about the individual's condition at the time of release.
If the client was in a West Virginia mental hospital, the Worker sends a memorandum to the Human Services Mental Health Coordinator in the county in which the hospital is located.

➢ **Veterans Affairs (VA) Hospitals and Clinics**

If the client has been in a VA hospital and/or is currently receiving, or has recently received, medical services from a VA clinic, the Worker sends the request for a copy of medical reports to the appropriate facility.

The letter is addressed as follows:

- For VA hospitals and outpatient clinics located in a VA hospital, write to Chief, Medical Information Services.
- For VA clinics located outside of a VA hospital, write to Chief, Medical Administration Services.

➢ **Private Hospitals, In-State and Border Facilities**

Form DFA-RT-9 is used to request reports from private hospitals. Special instructions for completion of the forms are as follows:

- The county office determines person to whom the form is addressed.
- There are spaces on the form to enter the applicant's hospital ID number, the dates the applicant was in the hospital, and the name of his physician. Entries are made as follows:
  - If the applicant cannot provide all the required information, the Worker completes as much of the information as possible.
  - None of the spaces are left blank. If the information is not known, "unknown" is entered in the indicated space.

➢ **Private Hospitals, Out-of-State Facilities**

The procedures are as follows:

- The Worker contacts BMS to determine if the facility is certified.
- If so, a DFA-RT-9 is prepared.
➢ **Physicians and Psychiatrists/Psychologists**

Form Letter DFA-RT-8 is used to request copies of medical records from a physician, and the DFA-RT-15 to request medical records from a psychiatrist/psychologist.

### 13.7.1.B.5 DFA-RT-5 and DFA-RT-5a

General physical examinations are arranged only when it is not possible to obtain the required medical information from any other source.

The general physical examination is made by a physician who is a general practitioner (family practice). The term "physician" refers to a medical practitioner who is either a medical doctor (MD) or a doctor of osteopathy (DO). The physician must have been approved for participation in the Bureau for Medical Services’ (BMS) Medicaid Program.

Form DFA-RT-5 is the report form for adults; form DFA-RT-5a is used for children.

➢ **Procedures for Arranging for the General Physical Examination**

The procedures for arranging for the general physical examination are as follows. At intake, or when the Worker becomes aware that a general physical examination is needed, he:

- Completes the appropriate sections of the DFA-RT-5 or DFA-RT-5a; and
- Determines the client's physician of choice; and
- Determines if the individual wishes to make his own appointment or if his physician does not schedule appointments.
  - If the client prefers to have the Worker make the appointment, the Worker forwards the DFA-RT-5 or DFA-RT-5a with a completed DFA-RT-6 to the physician and notifies the client of the appointment time.
  - If the client prefers to make his own appointments, or the physician does not schedule appointments, the DFA-RT-5 or DFA-RT-5a and a completed DFA-RT-6 are given or mailed to the client. The DFA-RT-6 must be completed in duplicate with "General physical examination and report on enclosed form" checked.
13.7.1.B.6 Known Source of Medical Information Does Not Respond to Request

If a request for medical information has been issued and the physician and/or medical facility failed to respond in the allotted time frame, the Worker is to secure a general physical. The Worker does not deny a case due to failure of the physician and/or medical facility to provide the requested information.

13.7.2 EXCHANGE OF MEDICAL INFORMATION WITH THE SSA

DHHR and the SSA have an agreement to exchange information. The procedures are outlined below.

13.7.2.A Providing Medical Information to the SSA

Copies of medical information are provided to the SSA upon receipt of a written request. The client's signature is not required to be on the form.

If the individual is referred to the SSA for Supplemental Security Income (SSI) and/or Retirement, Survivors, and Disability Insurance (RSDI) based on disability, copies of medical/psychological information must be attached to the HS-3, provided that the HS-3 is mailed to the SSA Office. If the HS-3 is given to the client to take to the SSA Office, the medical reports will not be sent, unless a written request from the SSA is received.

13.7.2.B Requesting Medical Reports from the SSA

Upon receipt of a properly completed request, the SSA provides the Worker with copies of medical reports used to evaluate an individual's disability for purposes of SSI and/or RSDI, when such reports are available to the SSA District Office. The availability of the medical reports depends on the location of the individual's SSA claims file at the time the request from the Department is received.
13.7.3 ADDITIONAL MEDICAL REPORTS

Additional medical reports may be requested by: the MRT, the client, or the Hearings Officer. See Section 13.7 and Common Chapters Manual Chapter 700.

The Worker is responsible for obtaining the requested medical reports. The procedures for obtaining additional medical reports are the same as for obtaining initial reports.

*NOTE: Additional medical reports must be requested within seven days after the receipt of the MRT’s request.*

When the additional medical reports are received, the Worker evaluates them for presumptive approval. See Section 13.6.

*NOTE: The additional medical reports must be re-submitted to the MRT within seven days after receipt.*

13.7.4 FAILURE TO KEEP MEDICAL APPOINTMENTS

Penalties for failure to keep medical appointments vary, depending on the point at which the non-compliance occurs. If the client has good cause for not keeping the appointment, another one is made.

Only cases involving the client's deliberate failure to provide necessary information are subject to adverse action. The client must be informed of the possible consequence at the time of appointment notification. The Worker must determine whether or not the client has good cause for failing to keep a medical appointment.
13.7.4.A Initial Medical Examination

If the DFA-RT-5, 5a, or DFA-B-13 is the only available medical information, and the applicant fails, without good cause, to keep the appointment, another appointment is not made. The application is denied using the appropriate reason code.

If the applicant who is making his own appointment fails to do so, without good cause, within two working days from the date he receives the DFA-RT-6, the application is denied.

If the physician does not schedule appointments, the application is denied if the client fails, without good cause, to go to the physician's office within one week from the date he received the DFA-RT-6.

13.7.4.B Appointments for Medical Examinations Requested by the MRT

If the MRT requests an additional medical examination, and the client fails to keep the appointment, without good cause, the application is denied or the case is closed if it was a presumptive approval.

If the client has good cause, the Worker schedules another appointment.

When the Worker denies the application or stops the benefit, he must notify the MRT of the action. The Worker must record the action taken in the case record.

In addition, if the individual qualifies for Medicaid under a different coverage group that does not require a disability determination, his eligibility for that coverage group is not affected by his failure to keep a medical appointment.

NOTE: Failure of one person to keep medical appointments does not affect the eligibility of any other assistance group (AG) member, for example, completion of an SSI-Related Medicaid application for two people.
13.8 REFERRAL TO THE MEDICAL REVIEW TEAM (MRT)

13.8.1 THE MEDICAL REVIEW TEAM (MRT)

13.8.1.A MRT Composition

The MRT is located at the State Office in the Bureau for Medical Services (BMS), and is comprised of the following members:

- Licensed General Practitioners;
- Licensed Psychiatrist; and,
- MRT Coordinator.

13.8.1.B MRT Responsibilities

The MRT has the following responsibilities:

- Evaluate available medical and social information and determine if the individual is medically incapacitated, disabled, or blind. To determine disability, the MRT uses the Sequential Evaluation Process established by the Social Security Administration (SSA) for Supplemental Security Income (SSI) disability determinations.
- Evaluate WV WORKS recipients who maintain they are physically/mentally unable to participate in work activities, when the decision cannot be made by the Worker and/or Supervisor.
- Evaluate applicants for Medicaid Work Incentive (M-WIN) to determine disability or blindness.
- When the client has physical and mental disabilities/incapacities, notify the Worker of the MRT’s decision using forms ES-RT-3 and/or DFA-RT-3M.
13.8.2 THE MRT REFERRAL AND THE FFM

During the MRT process, the Worker refers the client to contact the Federally-Facilitated Marketplace (FFM) for consideration of medical coverage.

13.8.2.A Content and Organization of Material Submitted

The following items are required to submit a case to the MRT, and they must be arranged in the following order:

- DFA-RT-2;
- DFA-RT-1; and,
- Medical reports arranged in order from most recent to oldest. (For cases previously referred to the MRT, the old packet of material must be included with the new information, if available.)

13.8.2.B Cases Submitted to the MRT for Reevaluation

When a case is submitted for reevaluation of disability, incapacity, blindness, WV WORKS work requirement good cause, or M-WIN Medically Improved, the following materials must be included:

- DFA-RT-2;
  - If the MRT requested the reevaluation, the Worker must check the appropriate column and note the month the reevaluation is due in the comments section.
  - If the Worker is requesting reevaluation, the comment must explain the reason for the request.
- A current DFA-RT-1, Social Summary Outline, if the previous ES-RT-3 and/or DFA-RT-3M indicated one is needed. See Section 13.3 for instructions regarding completion of the DFA-RT-1;
- The latest ES-RT-3, and/or DFA-RT-3M;
- All material on which the original decision was based;
• The new information requested by the MRT for reevaluation purposes; and,
• Hearing summary if the MRT decision was reversed by the Hearings Officer on the issue of incapacity, disability, or blindness.

13.8.2.C Division of Rehabilitation Services (DRS) Referrals

When an individual is active with the DRS, the Worker requests medical reports from the DRS. These reports should be included in the material when sent to the MRT for evaluation.

13.8.2.D Fair Hearings

When a Hearings Officer reverses a decision of the MRT, it is the responsibility of the Hearing Officer to decide when the case is to be reevaluated and the information that will be needed. The Worker is to advise the MRT using form DFA-RT-2. A copy of the Hearing summary must be included in the material submitted to the MRT for the next reevaluation.

13.8.2.E Notifying the MRT of Eligibility Related Information

After a case is submitted to the MRT, the Worker must notify the MRT immediately if the client is found ineligible for any other reason other than failure to meet a spenddown or if the SSA makes a disability, blindness determination. The MRT must also be notified when a client moves to another county. If the pending MRT case is approved at the Marketplace, the Worker is notified. See Section 23.8.2.

13.8.3 Processes for Pending MRT Referrals

13.8.3.A Responsibilities of the Sending Local Office

The local office that sends the case must do the following:
- Send a message to the receiving local office about the case transfer and informing them there is a pending MRT referral;
- Make case comments in the eligibility system regarding the current case status, medical records that were requested, whether or not the information has been submitted to the MRT, and the final disposition of case and review date, if applicable;
- Complete the appropriate screens in the eligibility system;
- Forward all information regarding the MRT referral to the receiving local office (e.g., Social Summary, general physical, medical records, etc.);
- Forward any additional medical information received after the case is transferred to the receiving local office as it is received; and,
- Send a message to the MRT to notify them of the name of the local office to which the case was transferred for any case already submitted to the MRT.

13.8.3.B Responsibilities of the Receiving Local Office

The receiving local office must do the following:
- Review transferred cases to determine if a pending MRT referral exists;
- Schedule a general physical examination with a medical doctor (MD) or a doctor of osteopathic medicine (DO) if needed, for any person who has not already had an examination. The examination should be scheduled in the county in which the person now resides, if possible;
- Complete the MRT referral process. If additional information is required, contact the appropriate individual in the sending office; and,
- Make appropriate case comments and ensure that appropriate MRT screens are completed.

13.8.3.C Procedures Related to Hospital Workers

When the local office initiates a MRT referral, and the client is subsequently admitted to a hospital served by a Hospital Worker before the process is complete, the local office transfers all medical information, the social summary, etc. to the Hospital Worker, if the Hospital Worker
requests that information. The Hospital Worker is responsible for completing the MRT referral process.

When the Hospital Worker initiates the MRT referral process, he is responsible for working with the MRT until the process is completed. When the MRT process is complete, the Hospital Worker transfers all medical information to the appropriate local office.
13.9 APPLICATION PROCESS WHEN SSA DETERMINATION OF DISABILITY IS INVOLVED

At application, if the client is otherwise eligible, the Worker determines if the client has applied for Supplemental Security Income (SSI) and/or Retirement, Survivors, and Disability Insurance (RSDI) based on his disability. Procedures then depend on the status of a current application for SSI/RSDI or the results of a former application as follows.

13.9.1 APPLICANT IS CURRENTLY RECEIVING RSDI, BASED ON HIS OWN DISABILITY

In this situation, it is not necessary to obtain medical reports or to refer the case to the Medical Review Team (MRT). Disability is established.

13.9.2 SSA DECISION PENDING

When the applicant has applied for RSDI and/or SSI based on his disability and has not yet been notified of the result, or his application for RSDI and/or SSI has been denied due to lack of disability and he has appealed the decision, the Worker:

- Follows up to determine the results of the application and/or appeal.
- Processes the Medicaid application.
- Approves the application if a MRT decision that the client is disabled or blind is made prior to the final SSA decision becoming known to DHHR.
- If the SSA's decision on the individual's disability becomes known to the Worker before the Medicaid application is approved, the Worker takes one of the following actions:
  - If the individual is found eligible for SSI, an SSI Medicaid case is opened for him.
  - If the individual is found eligible for RSDI based on his disability and is not found eligible for SSI, the Worker approves the application based on disability or adds him to the assistance group (AG).
- If the final SSA decision is that the client does not meet the definition of disability for SSI or RSDI, except for disabled widow's benefits, the application is denied or the individual is excluded from the AG. The application continues to be processed only if the disabled widow's benefits have been denied by the SSA.
If the medical reports and social summary are with the MRT at the same time the above action is taken, the Worker notifies the MRT using form DFA-RT-2. If the case was referred for a blindness decision, the DFA-RT-2 must indicate whether or not a decision about blindness is still needed.

13.9.3 PROCEDURE WHEN DISABILITY IS DISALLOWED BY THE SSA PRIOR TO MEDICAID APPLICATION

When the Worker learns that the applicant has previously applied for SSI and/or RSDI and that his claim was denied by the SSA on the basis that the client was not disabled, the procedures are as follows:

- If the client states that there has been no deterioration in his condition since the SSA decision, and social information supports his statement, the application cannot be approved based on disability.

- If the client’s statement and/or social information indicates that there has been a deterioration in his condition, the Worker:
  
  - Begins the process of obtaining medical reports, completing the Social Summary Outline (DFA-RT-1) and the DFA-RT-2, and sending the packet to the MRT. The handwritten form is acceptable only when an electronic version is unavailable. The DFA-RT-1 must include a clear explanation of the reason the client and/or the Worker believe that there has been a deterioration in his physical and/or mental condition.
  
  - Refers the client to the SSA for reevaluation or reconsideration of his eligibility for SSI or RSDI. See Chapter 8, Resource Development.
  
  - Approves the application if a referral to the SSA for reevaluation is not required, and the client is found to be disabled or blind by the MRT.
  
  - Follows the procedures used when a claim is pending a final SSA decision, if a referral is made to the SSA for reevaluation.
13.10 ACTION FOLLOWING THE RECEIPT OF THE FINAL MRT DECISION

Upon receipt of the notification of the MRT’s final decision, the Worker records receipt of the form and the decision in the eligibility system. Additional action depends on the content of the information on the notification form.

13.10.1 SSI-Related Medicaid and Medicaid Work Incentive (M-WIN)

13.10.1.A Client Is Blind or Disabled

If the applicant was found to be disabled or blind and the case was not presumptively approved, then the application is approved, or the individual is added to the assistance group (AG), whichever is appropriate.

If the case was presumptively approved, or the individual was already added, a recording of the final decision must be made in the eligibility system.

13.10.1.B Client Is Not Blind or Disabled

If the applicant is found not to be disabled or blind, the application is denied, the case is closed, or the individual is excluded from the AG after advance notice.

A copy of the ES-RT-3 and/or DFA-RT-3M must be attached to the notification letter sent to the client.
13.10.2 WV WORKS

13.10.2.A Parent Is Incapacitated

If the ES-RT-3 and/or DFA-RT-3M indicates the parent is incapacitated, and the case was not presumptively approved, the application is approved.

If the case was presumptively approved, a recording of the final decision is made in the eligibility system.

13.10.2.B Parent Is Not Incapacitated

If the ES-RT-3 and/or DFA-RT-3M indicates the parent is not incapacitated, eligibility for other Medicaid is evaluated.

A copy of the ES-RT-3 and/or DFA-RT-3M is attached to the client notification letter.

13.10.2.C WV WORKS Good Cause for Not Participating in Work Activities

13.10.2.C.1 Individual Is Incapacitated

If the ES-RT-3 and/or DFA-RT-3M indicates the individual is incapacitated, the individual is temporarily given good cause for not participating in work activities for the period of time.

NOTE: Even though the MRT was involved in the determination of incapacity, the Worker and/or Supervisor may make the determination at the subsequent reevaluation(s). However, once a decision is made by the MRT, it cannot be overridden by the Worker and/or Supervisor until the MRT good cause period expires or additional medical information is received. When the Worker and/or Supervisor make the decision upon reevaluation, the MRT must be notified by memorandum.
determined by the MRT, not to exceed 12 months. A reevaluation must be completed at the end of the good cause period or by the end of the 12th month, whichever is earlier.

13.10.2.C.2 Individual Is Not Incapacitated

If the ES-RT-3 and/or DFA-RT-3M indicates the individual is not incapacitated, the individual is not given good cause for not participating in work activities. The client must be contacted immediately to begin participation.

A copy of the ES-RT-3 and/or DFA-RT-3M is attached to the client notification letter.

13.10.3 ACTION WHEN THE MRT DECISION CONFLICTS WITH THE SSA DECISION

When the MRT disability or blindness decision conflicts with the decision made by the SSA, follow the procedures outlined in Section 13.10 for SSI-Related Medicaid and M-WIN.

13.10.4 ACTION WHEN THE WORKER AND SUPERVISOR DISAGREE WITH THE MRT’S DECISION TO DENY

If the Worker and Supervisor disagree with the MRT’s decision to deny incapacity, disability, or blindness, the case is submitted to the MRT for reconsideration. An explanation of why the Worker and Supervisor disagree with the denial is entered on the DFA-RT-2.
13.11 CLIENT'S RIGHTS IN THE DETERMINATION PROCESS

13.11.1 CLIENT'S RIGHT TO AN ADDITIONAL MEDICAL REPORT

If the client requests a second medical examination, either during the application, reevaluation or Hearing process, such examination must be provided and paid for by the Department of Health and Human Resources (DHHR).

If the client does not secure the additional medical report within 90 days, the application is processed using the medical reports that were originally obtained.

In the following instances an individual in an active assistance group (AG) is entitled to an additional medical report at the Department's expense after the Medical Review Team (MRT) makes a negative decision about continuing medical eligibility:

- If only one medical report was used in making the MRT decision; or
- If a new medical report, in addition to previous reports, is used in making the negative decision, and it is the new one that causes ineligibility.

The Worker must notify the client of the availability of this service and the impending case closure or removal of the client from the case. An ES-NL-C or appropriate letter from the eligibility system is used for client notification.

13.11.2 PROCEDURE AFTER THE CLIENT'S DECISION TO REQUEST AN ADDITIONAL MEDICAL REPORT

The Worker’s action after the client makes a decision to request an additional medical report at DHHR’s expense depends upon the client’s request. The possibilities are as follows:

- If the client does not request the additional medical report, or does not make a timely (13 days) response to the notification, the Worker closes the AG or removes the client from the AG.

- If the client requests the additional medical report and responds within the time limit of the ES-NL-C or the eligibility system notice, the Worker does not take any action until notified by the MRT that a second decision has been made. If action is required, follow these procedures:
If the original MRT decision is upheld, the Worker takes the action indicated on the original ES-NL-C or the eligibility systems notice. No additional 13-day notice period is required.

If the original MRT decision is reversed, the Worker takes the action indicated on the new ES-RT-3 and or DFA-RT-3M.

13.11.3 CLIENT'S RIGHT TO AN MRT RECONSIDERATION

Following a negative decision by the MRT, the client may request a reconsideration on the medical evidence originally presented. This reconsideration may also include any additional medical reports the client may provide.

The Worker holds the application pending, leaves the active AG open or leaves the individual in the AG, whichever is appropriate, until notified by the MRT.

The Worker's action following the final MRT decision is as follows:

- If the original MRT decision is upheld, the Worker denies the application, closes the AG, or removes the individual from the AG.
- If the original MRT decision is reversed, the Worker approves the application, leaves the AG active, or leaves the individual in the AG. A recording in the eligibility system is required.

13.11.4 CLIENT'S RIGHTS IN THE FAIR HEARING PROCESS

In addition to all other reconsiderations, the client has the right to request a Fair Hearing. See Chapter 700 in Common Chapters.

This step is usually taken after the second medical report paid for by DHHR, and the reconsideration by the MRT, but the client may choose to bypass either or both of these steps and go directly to a Fair Hearing.

The Hearings Officer may, at any point after the client requests a Hearing, request a second medical report, additional medical reports, or a reconsideration by the MRT. The Worker is responsible for arranging any such reports.
13.12 PROCEDURES WHEN SSA FINAL DISABILITY DECISION IS MADE AFTER MEDICAID APPROVAL

When the SSA's disability decision becomes known after the Medicaid application is approved, the procedure is as follows.

13.12.1 CLAIM DISALLOWED

If Medicaid eligibility cannot be based on disability, the Worker needs to reevaluate the client for other Medicaid coverage groups.

NOTE: If the client appeals the SSA decision, the reevaluation on the Medicaid case is delayed until the results of the appeal are known.

13.12.2 CLAIM APPROVED

When the client's claim for Supplemental Security Income (SSI) and/or Retirement, Survivors, and Disability Insurance (RSDI) based on his disability is approved after the Medicaid application is approved, the procedure is as follows:

- If the Medicaid recipient becomes eligible for SSI, an SSI Medicaid case is opened for him.
- If the Medicaid application was approved on a presumptive basis and the medical reports and social summary are with the Medical Review Team (MRT), the MRT must be informed that the client has been approved for SSI.
- If the Medicaid recipient becomes eligible for RSDI, but not for SSI, the application was approved presumptively, and a final decision of the MRT has not been received, the MRT must be notified.
13.13 REEVALUATION OF DISABILITY, INCAPACITY OR BLINDNESS

At the time of the initial approval of blindness, incapacity, or disability, the Medical Review Team (MRT) determines whether or not the client's circumstances require a reevaluation of his medical condition. If a reevaluation is required, the Worker is responsible for providing the medical or social information needed by the MRT. The MRT reevaluation decision is noted on the ES-RT-3 and/or the DFA-RT-3M or ES-RT-13.

If the client continues to receive Medicaid in a category that requires a disability determination, and continues to cooperate with the scheduled MRT reevaluation process, then the most recent MRT determination that the client is disabled, incapacitated, or blind is considered as established and continues until the MRT determines otherwise, and issues a decision.

The client should no longer be coded as disabled by MRT in the eligibility system when the client begins receiving Medicaid in a category that does not require a disability determination.
13.14 REAPPLICATIONS

If the client reapply for Medicaid within 90 days of the Medical Review Team’s (MRT) decision, the application is denied by the Worker on the basis that the client is not disabled, blind, or incapacitated. This action is taken only when the applicant does not request a new medical examination, does not present any new or different information, and the Worker has no reason to question the original decision.

See Chapter 1. These applicants are treated as new applications and the Worker follows the steps outlined in Section 13.4.
13.15 ESTABLISHING DISABILITY AND FITNESS FOR EMPLOYMENT FOR THE SNAP PROGRAM

13.15.1 INTRODUCTION

Disabled means the individual is unfit to engage in full-time employment due to a physical and/or mental disability.

There are several different SNAP policies that require a determination of physical and/or mental disability. The policies that require a disability determination are listed below, followed by a citation.

- Medical deduction provision in Section 4.4.
- Asset policy in Section 5.4.
- 24-month certification policy for elderly and/or disabled adults in Section 1.4.
- Elderly or Disabled provision for removal of the shelter/utility cap in Section 4.4.
- Elderly or Disabled provision for use of net income test in Section 4.4.
- Group Living Facility (GLF) policy in Section 3.2.
- Elderly and disabled separate assistance group (AG) provision. See Section 3.2 for establishing disability.

13.15.2 ESTABLISHING A CLIENT AS DISABLED

Disabled means the individual is receiving one of the following:

- Supplemental Security Income (SSI)
- Social Security Disability benefits
- Federally or State-administered supplemental benefits under section 1616(a) of the Social Security Act based on disability or blindness criteria under Title XVI of the Social Security Act
- Federally or State-administered supplemental benefits under section 212(a) of Pub. L. 93-66
- Disability retirement benefits from a government agency based upon a permanent
disability

- VA disability benefits rated by the VA as total or paid as total
- VA aid and attendance or housebound benefits, either as a veteran or as a surviving spouse
- Surviving spouse or surviving child benefits of a veteran when the individual has a disability considered permanent
- Annuity payment under Railroad Retirement Act of 1974 and is eligible for Medicare through Railroad Retirement and is determined disabled
- Interim assistance benefits pending receipt of SSI
- Disability related medical assistance under Title XIX (Medicaid based upon disability)
  - Eligible Medicaid categories: SSI, Disabled Adult Children, Substantial Gainful Activity, Essential Spouses, Pass-Throughs, Pickle Amendment Coverage, Disabled Widows and Widowers, Drug Addicts and Alcoholics, SSI-Related, Medicaid Work Incentive Network (M-WIN), Nursing Home, Aged and Disabled Waiver,
- State general assistance benefits based on disability or blindness

**NOTE:** For individuals who may qualify due to receiving disability retirement benefits from a government agency or receiving surviving spouse or surviving child benefits of a veteran when the individual has a disability considered permanent, the list of conditions considered permanent are established by the Social Security Administration’s most current Listing of Impairments – Adult Listings (Part A)

---

**13.15.3 \*

**ESTABLISHING A CLIENT AS UNFIT FOR EMPLOYMENT**

This policy applies only to student policy, SNAP work requirements, and Able-Bodied Adults Without Dependents (ABAWD) policy.

- A client who meets the definition of disability is considered to be unfit for employment. No other verification is needed.
• A client who does not meet the definition of disability should be evaluated for fitness for employment. If it is obvious to the worker that the client is unfit for employment, then no further verification is needed, but thorough case comments must be entered explaining why the client is obviously unfit for employment.

• A client who does not meet the definition of disability and is not obviously unfit for employment will be requested to provide written verification from a licensed medical professional that the client is unfit for employment.

• Chronically Homeless Populations

**NOTE:** This only applies to ABAWD policy.

- The eligibility worker must evaluate chronically homeless populations for the ability to be fit for employment. The definition of chronic homelessness is the lack of consistent living arrangements, including homeless shelters, for a period of 90 days prior to the date of the determination or the client has an extended history that demonstrates a pattern suggesting the inability to find suitable, long-term housing. The definition of chronic homelessness is different from the homeless definition of SNAP found in Section 16.

- Being chronically homeless, by itself, is not an exemption to the ABAWD time limits, but may be a result of a potential mental or physical condition which renders the individual unfit for employment.

**Unfit for Employment Example 1:** During the interview with the client, the worker notices that the client has few or no teeth and a lack of access to regular personal hygiene, which would prevent the individual from being able to find employment. The worker could exempt the client due to being unfit for employment.

**Unfit for Employment Example 2:** During the interview with the client, the worker notices that the client’s thoughts and attention seem to be very scattered and the individual is unable to focus or complete basic fundamental tasks or answer questions. The worker could exempt the client due to being unfit for employment.
**Unfit for Employment Example 3:** During the interview with the client, the worker notices the client is chronically homeless. The client does not have any clear employment obstacles. The worker would not exempt this client from the ABAWD time limits.
When the individual's medical condition or diagnosis is not listed in this Appendix, refer to Section 13.6 regarding the presumptive approval process.

A.1 DISABILITY OF THE SKELETAL SYSTEM AND MUSCLES

The severity is determined by a physical examination, laboratory tests, and x-rays. The following are examples of disability of the skeletal system and muscles that would result in a presumptive medical approval:

- Rheumatoid arthritis with a history of joint pain, swelling of major joints, and limitation of motion of joints.
- Severe osteo or degenerative arthritis resulting in limitation of motion of both hips or both knees, or a combination of one hip or one knee. Severity results in difficulty in ambulation and may necessitate surgery (arthrodesis) of the hip and knee.
- Injuries to the spine with cord involvement, resulting in paraplegia or quadriplegia.
- Amputation of two limbs, amputation of a leg at the hip, or amputations due to vascular insufficiency or diabetes mellitus, with inability to use a prosthesis effectively.
- Non-union of a fracture of a major extremity, requiring continuing surgical management, with function not expected to be restored fully.
- Osteomyelitis of a major joint, as confirmed by x-ray, with persistent drainage, swelling, and redness that has not responded to medical treatment.
- Cerebral palsy, muscular dystrophy, or muscular atrophy and marked difficulty in walking (e.g., use of braces), speaking or coordination of the hands or arms.

A.2 DISEASES OF THE RESPIRATORY SYSTEM

These are confirmed by x-ray spirometry or pulmonary function studies, in addition to physical examination. The following are examples of diseases of the respiratory system that would result in a presumptive medical approval:
• Active pulmonary tuberculosis, verified by a positive culture and x-ray, that is expected to result in at least a 12-month disability.
• Severe chronic obstructive pulmonary disease (C.O.P.D.), or pneumoconiosis.
• Cor Pulmonale, enlargement of the right ventricle of the heart due to respiratory disease, in combination with congestive heart failure.

A.3 DISEASES OF THE HEART

Diseases of the heart will be established through physical examination, x-ray, electrocardiogram (EKG), treadmill tests, and other appropriate tests for cardiac function. The following are examples of diseases of the heart that would result in a presumptive medical approval:

• Congestive heart failure with cardiac enlargement, vascular congestion or pulmonary edema.
• Angina pectoris, confirmed by abnormal resting EKG, with chest pain relieved by nitroglycerin.
• Persistent heart block with recurrent arrhythmia as confirmed by abnormal EKGs.
• Two myocardial infarctions within a six-month period, necessitating use of nitroglycerin to relieve chest pain.

A.4 KIDNEY DISEASE

This is based on laboratory findings and a urological examination. The following are examples of kidney disease that would result in presumptive medical approval:

• Kidney disease, resulting in the need for removal of one kidney, and treatment of disease in the remaining kidney.
• Kidney disease requiring the need for a dialysis machine or renal transplant.

A.5 DISEASES OF THE BLOOD

This is confirmed by laboratory findings and physical examination. The following are diseases of the blood that would result in a presumptive medical approval:
- Acute leukemia, as established by bone marrow examination or blood smear.
- Chronic leukemia with recurrent hemorrhaging, low blood platelet count or organ enlargement.
- Human Immunodeficiency Virus (HIV) infection with T-cell CD4 count under 400.

**A.6 NEUROLOGICAL DISORDERS**

This must be confirmed by physical examination, preferably by a neurologist, with appropriate testing. The following are examples of neurological disorders that would result in a presumptive medical approval:

- Cerebrovascular accidents, with speech impairment or paralysis of two extremities, continuing for a period of four months after the stroke.
- Parkinson's Disease with tremor, rigidity and impairment of mobility.
- Cerebral Palsy with I.Q. of 59 or less, with speech impairment, motor deficiency in two extremities, or poor muscular coordination (ataxia).
- Multiple Sclerosis with moderate motor deficits in two extremities or poor muscular coordination (ataxia).
- Muscular Dystrophy with an incoordinate weakness or paralysis of shoulder area and limitation of arm motion.

**A.7 MENTAL DISORDERS**

These must be verified by psychological testing or psychiatric examination. The following are examples of mental disorders that would result in a presumptive medical approval:

- Chronic brain syndrome with a deterioration in intellectual functioning, such as marked memory defect or slow, confused or disoriented thinking.
- Chronic Schizophrenia with persistent depression, hallucinations, withdrawal from daily activities or illogical association of ideas.
- Mental deficiency with I.Q. of 59 or less, as established by psychological testing. If the I.Q. is above 59, there must be a combination of low I.Q. and another documented mental or physical impairment.
A.8 MALIGNANT DISEASES

These must be documented by physical examination, laboratory findings and post-operative notes, if available. The following are examples of malignant diseases that would result in a presumptive medical approval:

- Cancer of any organ of the body that has been diagnosed by a physician as being inoperable and not expected to respond to radiation or chemotherapy.
- Cancer that has spread from one organ of the body to another (metastasis), such as cancer of the lung that has spread to the brain.
- Recurrence of cancer after the initial successful treatment, with a medical opinion that the second treatment period will require at least 12 months.

A.9 ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS)

This must be documented by a physical examination and laboratory findings. The following are examples of AIDS that would result in a presumptive medical approval:

- HIV Positive and diagnosed by a physician as having AIDS based on the patient's having a disease indicative of AIDS or a T-helper/inducer lymphocyte (T-cell CD4) count under 400.
- Some common indicator diseases are: pneumocystis carinii, Kaposi’s sarcoma, bacterial infections, HIV encephalopathy, and lymphoma of the brain.
APPENDIX B: PRESUMPTIVE MEDICAL APPROVAL – SSI-RELATED MEDICAID AND M-WIN, UNDER AGE 18

When the individual’s medical condition or diagnosis is not listed in this Appendix, refer to Section 13.6 regarding the presumptive approval process.

B.1 MUSCULOSKELETAL SYSTEM DISORDERS

This must be confirmed by a pediatrician or orthopedist with x-rays. The following are examples of musculoskeletal system disorders that would result in a presumptive medical approval:

- Juvenile rheumatoid arthritis with joint inflammation, significant limitation of motion of two major joints or severe deformity of two major weight-bearing joints.
- Congenital deformities of the musculoskeletal system, such as dislocation of the hip, in that walking is possible only with crutches or a walker.

B.2 DISORDERS OF THE SPINE

This must be confirmed with reports from an orthopedist or pediatrician. The following are examples of disorders of the spine that would result in a presumptive medical approval:

- Fractured vertebra with spinal cord involvement, resulting in paralysis.
- Scoliosis with spinal curve measuring 60 degrees or greater, established by physical examination and x-ray.
- Chronic osteomyelitis, as confirmed by x-ray, with persistent drainage, despite treatment.

B.3 RESPIRATORY IMPAIRMENTS

This must be confirmed by physical examination, x-ray, and/or pulmonary function studies. The following are examples of respiratory impairments that would result in a presumptive medical approval:
• Bronchial asthma with recurrent intense attacks, or persistent prolonged wheezing and x-ray findings of bronchial disease.
• Cystic Fibrosis with poor response to treatment, diagnosed by specific laboratory tests.

B.4 CARDIOVASCULAR IMPAIRMENTS

This includes congenital or acquired heart disease, involving the arteries, valves, or cardiac muscles, as established by a cardiologist or pediatrician. The following are examples of cardiovascular impairments that would result in a presumptive medical approval:

• Chronic congestive heart failure with tachycardia and cardiac enlargement, or retention of pulmonary fluid and intolerance for exercise.
• Cyanotic congenital heart disease requiring surgery, with symptoms of dizziness, bloody sputum, and bluish discoloration of the skin.
• Cardiac arrhythmia, such as persistent or recurrent heart block and symptoms, such as exercise intolerance or pulmonary hypertension.
• Chronic rheumatic fever with heart enlargement and significant heart murmur.

B.5 DISORDERS OF THE DIGESTIVE SYSTEM

These may interfere with nutrition and growth of the child and are disabling, if treatment may be expected to extend to a 12-month period. The following are examples of disorders of the digestive system that would result in a presumptive medical approval:

• Chronic liver disease with destruction of the liver, or coma.
• Chronic bowel disease such as ulcerative colitis or regional enteritis.

B.6 URINARY DISORDERS

This must be evaluated by a pediatrician or urologist. The following are examples of urinary disorders that would result in a presumptive medical approval:

• Chronic renal disease resulting in the need for treatment over a 12-month period, or loss of one kidney and disease in the remaining kidney.
• Use of a dialysis machine.
• Need for renal transplant.

**B.7 DISORDERS OF THE BLOOD**

The following are examples of disorders of the blood that would result in a presumptive medical approval:

• Sickle cell disease with a severe, persistent anemia.
• Coagulation defects such as hemophilia, documented by laboratory tests with spontaneous bleeding or bleeding deformity.
• Acute leukemia as diagnosed by blood examination, bone marrow tests and lymph node biopsy.

**B.8 GLANDULAR DISTURBANCES**

These may result in growth impairments. Disability must be documented by laboratory tests and physical examination. The following are examples of glandular disturbances that would result in a presumptive medical approval:

• Thyroid disorders requiring a treatment of 12 months or longer, with impairment of growth.
• Insufficiency of the adrenal gland with episodes of circulatory collapse.
• Juvenile diabetes with poor response to insulin and difficulty with control, necessitating recent, recurrent hospitalization.
• Pituitary dwarfism with hormone deficiency documented by laboratory tests.

**B.9 SEVERE CONGENITAL ABNORMALITIES IN NEWBORNS**

These conditions may include severe mental and/or physical abnormalities that will necessitate total care for the life expectancy of the child.
B.10 NEUROLOGICAL DISORDERS

The following are examples of neurological disorders that would result in a presumptive medical approval:

- Major motor seizures (grand mal epilepsy) with documented recurrent seizures, despite medical treatment.
- Brain tumors that are either malignant or benign, with symptoms of motor dysfunction involving two extremities and difficulty with ambulation.
- Cerebral Palsy with motor dysfunction involving two extremities and difficulty with ambulation.
- Meningomyelocele (defect of the spinal column), resulting in motor dysfunction and urinary or fecal incontinence.
- Hydrocephalus that has not been treated or has not responded well to treatment, and that interferes with mental or physical development.

B.11 HEARING IMPAIRMENTS

The following are examples of hearing impairments that would result in a presumptive medical approval:

- Deafness with little or no response to a hearing aid and with associated speech defects.

B.12 EMOTIONAL AND MENTAL DISORDERS

This must be diagnosed by a physical examination, psychological testing, or psychiatric examination. The following are examples of emotional and mental disorders that would result in a presumptive medical approval:

- Mental retardation with an I.Q. of 59 or less as documented by psychological testing using intelligence tests for children. If the I.Q. is above 59, disability must also include another physical or mental impairment.
• Children with Down's syndrome as diagnosed by chromosome tests. These children are mentally retarded and may also have cardiac or pulmonary problems, along with growth retardation.

• Childhood psychosis, such as schizophrenia, must be documented by psychiatric reports. Symptoms include withdrawal from reality, bizarre behavior, panic or severe anxiety.

B.13 MALIGNANCIES

This must be diagnosed by physical examination, laboratory tests, x-rays, and post-operative surgical reports, if the child has had recent surgery. The following are examples of malignancies that would result in a presumptive medical approval:

- A diagnosis of cancer requiring a combination of surgery, radiation and chemotherapy that will result in disability for the child from both the carcinoma and the side effects from the treatment.
- A diagnosis of carcinoma that has spread from the primary site to another major organ of the body (metastasis).
- Cancer that has responded to treatment, but has since recurred and will require a new treatment plan.

B.14 ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS)

This must be documented by physical examination and laboratory findings. The following are examples of AIDS that would result in a presumptive medical approval:

- Human immunodeficiency virus (HIV) positive and diagnosed by a physician as having AIDS based on the patient's having a disease indicative of AIDS or a T-helper/inducer lymphocyte (T-cell CD4) count under 400.

Some common indicator diseases are: pneumocystis carinii, Kaposi’s sarcoma, bacterial infections, HIV encephalopathy, and lymphoma of the brain.
APPENDIX C: PRESUMPTIVE APPROVAL – WV WORKS

When the individual's medical condition or diagnosis is not listed in this Appendix, refer to Section 13.6 regarding the presumptive approval process.

C.1 INCAPACITIES OF THE SKELETAL SYSTEM

The severity is based on physical examination, laboratory tests, and x-rays. The following are examples of incapacities of the skeletal system that would result in a presumptive medical approval:

- Ruptured disc requiring conservative bed rest and traction, or surgery. Diagnosis should be confirmed by an orthopedist or neurosurgeon.
- Simple fracture of the arm or leg with a physician's report and x-rays.
- Amputations requiring healing time and period of adjustment, with prosthesis.

C.2 DISEASE OF THE HEART

This must be diagnosed by medical examination, x-rays, electrocardiogram (EKG), and other appropriate cardiac function studies. The following are examples of diseases of the heart that would result in a presumptive medical approval:

- Myocardial infarction as confirmed by physical examination and EKG.
- Acute rheumatic heart disease evaluated by a cardiologist or internist and necessitating a period of medical treatment prior to returning to work.

C.3 GENERAL SURGICAL PROCEDURES

This must be recommended by a surgeon through physical examination and appropriate laboratory tests. The following are examples of general surgical procedures that would result in a presumptive medical approval:

- Peptic, gastric, duodenal or jejunal ulcer requiring surgical intervention and recovery period.
- Hernia, if surgical repair is needed, as confirmed by physical examination.
- Splenectomy due to traumatic injury.
- Diverticulitis or polyps of the bowel requiring surgical intervention.
- Cholecystectomy due to gall bladder disease.
- Hysterectomy if needed in the treatment of fibrous tumors through removal of the uterus.
- Appendectomy due to inflammation of the appendix.

### C.4 DISEASE OF THE ENDOCRINE SYSTEM

This requires physical examination and laboratory tests. The following are examples of diseases of the endocrine system that would result in a presumptive medical approval:

- Hyperthyroidism or goiter resulting in the need for surgery or radioactive iodine as a part of the treatment plan.
- Brittle diabetes with poor control requiring a short-term incapacity period for stabilization of insulin.

### C.5 NEUROLOGICAL DISORDERS

This must be confirmed by a neurologist or neurosurgeon with electroencephalogram (EEG), if indicated, and other appropriate tests. The following are examples of neurological disorders that would result in a presumptive medical approval:

- Epileptic seizures that have not responded to medication and require a short period of time for medical control.
- Cerebral concussion with residual effects lasting 30 days or longer.
- Nerve injuries due to trauma and requiring neurosurgery.

### C.6 MENTAL ILLNESS

Mental illness must always be diagnosed by a psychiatrist, and mental retardation must be established through psychological testing. The following are examples of mental illness that would result in a presumptive medical approval:
• Acute schizophrenic reaction that is expected to respond to psychotherapy and medication.
• Mental retardation with an I.Q. of 65 or less, as documented with psychological testing.

C.7 ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS)

This must be documented by physical examination and laboratory findings. The following are examples of AIDS that would result in a presumptive medical approval:

• Human immunodeficiency virus (HIV) positive and diagnosed by a physician as having AIDS based on the patient’s having a disease indicative of AIDS or a T-helper/inducer lymphocyte (T-cell CD4) count under 400.
• Some common indicator diseases are pneumocystis carinii, Kaposi’s sarcoma, bacterial infections, HIV encephalopathy, and lymphoma of the brain.

14.1 INTRODUCTION

This chapter details work requirements for Supplemental Nutrition Assistance Program (SNAP) benefits, WV WORKS and Medicaid. It designates the member(s) of the assistance group (AG) to whom the requirements apply and the penalty or sanction for failure to meet the requirements. This chapter also discusses good cause.

There are no work requirements for the Medicaid Program.

For requirements and responsibilities related to the SNAP Employment and Training Program (SNAP E&T), see Chapter 17. All SNAP clients at least 16 years old may volunteer for SNAP E&T.
14.2 GENERAL SNAP WORK REQUIREMENTS AND EXEMPTIONS

All Supplemental Nutrition Assistance Program (SNAP) clients are subject to a work requirement, unless exempt. Two separate and distinct policies described in this section define these work requirements and the exemptions from these requirements.

14.2.1 SNAP WORK REQUIREMENTS FOR NON-WV WORKS CLIENTS

The following work requirements apply to all SNAP clients who:

- Do not receive and/or are disqualified from WV WORKS; or
- Do not receive WV WORKS, but do receive SNAP benefits in the same SNAP assistance group (AG) with WV WORKS clients.

The work requirements found in this section (Section 14.2.1 only) also apply to Able-Bodied Adults Without Dependents (ABAWD). These work requirements are in addition to, rather than a substitution for, the ABAWD work requirements.

NOTE: Applications which qualify for Expedited Service may require special considerations in meeting work requirements. See Section 1.4.

NOTE: When an applicant is ineligible until he meets one of the following requirements, this period of ineligibility does not count as a penalty period.

14.2.1.A Work Requirements

- Registration with WorkForce West Virginia
  Details are in Section 14.3 Failure of an individual to register within the time limits found in Section 14.3 and each 12 months thereafter, results in application of a penalty for not meeting the work requirement.

- Voluntary Quit, including Voluntary Reduction in hours
  Details are in Section 14.4. A voluntary quit or reduced hours of employment without good cause results in a period of ineligibility for non-exempt applicants and non-exempt
clients. The applicant who takes either of these actions is ineligible for the month of application and two calendar months following the month of application or until he reports a change which makes him exempt from the SNAP work requirement. This three-month period of ineligibility is not counted as one of the applicant’s SNAP penalties.

Voluntarily quitting employment after becoming a client results in application of a SNAP penalty for failure to meet the work requirement. Neither an applicant nor a client may be required to return to the same or comparable employment before eligibility is reestablished. Work-requirement eligibility is reestablished at the end of the three-month period of ineligibility for applicants, or at the end of the appropriate penalty period for clients, unless they report their exempt status earlier.

- Refusal of Employment
  Details are in Section 14.5. Applicants who refuse an offer of employment are ineligible to be included in the AG until they accept employment, or until they report a change that makes them exempt from the SNAP work requirement. Refusal of employment by non-exempt clients results in a penalty for failure to meet the work requirement.

- Providing Information about Employment Status and Job Availability
  Details are in Section 14.5. Refusal to provide information about employment and job availability to WorkForce West Virginia and/or the SNAP Employment and Training program (SNAP E&T) results in ineligibility for the non-exempt individual. The applicant who fails to provide such information is ineligible until the information is provided or he reports a change that makes him exempt. A client’s failure to supply this information results in a penalty for failure to provide information about employment and job availability.

14.2.1.B Exemptions from SNAP Work Requirements

NOTE: The SNAP work requirements are waived for individuals who complete a joint SNAP/Supplemental Security Income (SSI) application at the Social Security Administration (SSA) office until SSI eligibility is determined. See Section 1.4.17.

The following SNAP clients are exempt from the SNAP work requirements and are not subject to a SNAP penalty for failure to comply:

- A person under age 16.
- A person age 16 or 17 who is not the SNAP payee or primary person.
SNAP Work Requirement Exemption Example 1: An AG consists of two 17 year olds, Ms. Peony and Mr. Orchid. Ms. Peony is designated as the primary person and SNAP payee. She is, therefore, subject to the work requirements, unless another exemption is met. Mr. Orchid is exempt from the work requirements.

- A person age 16 or 17 who is attending school or enrolled in an employment training program on at least a half-time basis.

- A person enrolled at least half-time in any recognized school, recognized training program, or institution of higher education. If enrolled in an institution of higher education, the student must meet one of the exceptions to the restriction on student participation listed in Section 3.2. This exemption continues through normal periods of vacation, unless the person does not intend to register for the next term, excluding summer terms.

- A person age 60 or over.

- A parent, or other member of the AG who has the responsibility for the care of a child under the age of six, or of an incapacitated and/or disabled individual. The person receiving the care is not required to reside with the AG or be a member of the SNAP AG. Unborn children are not considered children under the age of six.

Separate families included in the same AG may have one person from each family exempted. Separate families, not in the same AG, but living together, may also have one person from each family exempted.

SNAP Work Requirement Exemption Example 2: Two sisters live together and are in the same AG. They each have two children under age six. Both women may be exempt for caring for a child under age six.

SNAP Work Requirement Exemption Example 3: A man and woman apply for SNAP benefits. They have one child, age five. The man receives Retirement, Survivors and Disability Insurance (RSDI) based on his disability and is, therefore, exempt from the SNAP work requirements. He is, however, able to care for the child, so the mother is not exempt from the requirements.

- Individuals receiving Unemployment Compensation Insurance (UCI) from any state. This includes persons receiving benefits under the Trade Readjustment Allotment (TRA).

If an individual’s UCI benefits are suspended, he becomes subject to the SNAP work requirements when the change is reported, unless a SNAP penalty is applied, or unless exempt for some other reason.

When a client reports the loss of UCI income, the Worker must evaluate the circumstances to determine if a penalty must be applied. A penalty is applied when the individual is exempt from SNAP work requirements due solely to the fact that the client
was receiving UCI, unless another exemption is met. Good cause for failure to comply with UCI requirements include all situations described in Section 14.4 for voluntary quit.

- Individuals who are physically or mentally unfit to engage in full-time employment. See Section 13.15.
- Regular participants in a drug addiction or alcoholic treatment and rehabilitation program, either on a resident or non-resident basis. Regular participation is defined by the drug addiction or alcoholic treatment and rehabilitation program.
- Individuals who are employed or self-employed and working a minimum of 30 hours per week, or who are receiving weekly earnings equal to the federal minimum wage multiplied by 30 hours. When the client is employed or self-employed for at least 30 hours per week, no consideration is given to the amount earned.
- Individuals who receive WV WORKS and do not meet any of the other SNAP exemptions listed above, so long as they are subject to, and complying with, a WV WORKS work requirement. These individuals would be required to meet the SNAP work requirements if they did not receive WV WORKS.

When a client loses eligibility for an exemption, the Worker must determine if the client meets any other exemption criteria prior to imposing a penalty.

If the exemption is lost during the certification period and clients are not required to report the change, they become subject to SNAP work requirements at redetermination. However, if the client reports losing the exemption, he becomes subject to SNAP work requirements at the time the change is reported.

**14.2.2 SNAP WORK REQUIREMENTS FOR WV WORKS CLIENTS**

The following requirements apply only to SNAP clients who are also WV WORKS clients. They do not apply to non-WV WORKS clients who are included in the SNAP AG with WV WORKS clients, or to individuals who would normally be included in the WV WORKS AG, but who have been disqualified or excluded by law. These individuals must meet the work requirements in 14.2.1.A, unless exempt, disqualified, or excluded by law from the SNAP program.
14.2.2.A Work Requirements

The SNAP work requirements for WV WORKS clients are outlined in Section 18.9. As long as an individual is subject to the WV WORKS work requirement and is meeting his work requirement, he is also meeting his SNAP work requirement.

14.2.2.B Exemptions from SNAP Work Requirements

14.2.2.B.1 Individuals Exempt from WV WORKS Work Requirements

WV WORKS clients who are temporarily exempt from meeting a WV WORKS work requirement, as found in Section 14.7, are also exempt from meeting the SNAP work requirements, as long as they receive WV WORKS benefits. These individuals are not subject to either a WV WORKS sanction or SNAP penalty for not complying with the work requirements when the individual meets a WV WORKS exemption found in Section 14.7 or a WV WORKS good cause requirement found in Section 14.9.

14.2.2.B.2 Individuals Exempt from SNAP Work Requirements

WV WORKS clients who are subject to the WV WORKS work requirement, and who fail, without good cause, to meet a WV WORKS work requirement, are not subject to a SNAP penalty for not meeting the work requirement if they meet an exemption listed above in Exemptions from SNAP Work Requirements.

14.2.2.B.3 WV WORKS Personal Responsibility Contract (PRC)/Self-Sufficiency Plan (SSP) Requirement

An individual who fails to meet a WV WORKS PRC requirement is not subject to a SNAP penalty, unless that PRC/SSP requirement is directly related to one of the following WV WORKS work requirements found in Section 18.9:

- Employment (Unsubsidized and Subsidized)
- On-the-job Training
- Job Search and Job Readiness Assistance
- Work Experience
- Community Service Programs
- Vocational Educational Training / College
- Providing Child Care for a Community Service Participant
- Non-Core Work Activities

Other PRC/SSP requirements that may result in a WV WORKS sanction, but not a SNAP penalty, include but are not limited to enumeration, immunizations and cooperation with the Bureau for Child Support Enforcement (BCSE).
14.3 SNAP WORK REGISTRATION

14.3.1 WORK REGISTRATION

14.3.1.A Registration Requirements

All individuals must register for employment with WorkForce West Virginia, within 30 days of the date of the original approval, unless exempt according to Section 14.2. Clients must register every 12 months thereafter, regardless of the length of time that WorkForce West Virginia considers the registration valid.

Actions which constitute a registration are defined by WorkForce West Virginia and the eligibility system must:

- Match with WorkForce West Virginia. Registration date updated.
- Match the date returned from WorkForce West Virginia is more than 12 months old. The client must register again.
- Match with WorkForce West Virginia with inactive job status and no job preference. The client must choose a job preference and become active to be considered registered.
- Match with WorkForce West Virginia with inactive job status and with job preference. The client must become active to be considered registered.
- Match with WorkForce West Virginia with active job status and no job preference. The client must choose a job preference to be considered registered.

Once the client registers with WorkForce West Virginia for Supplemental Nutrition Assistance Program (SNAP) purposes, he cannot be required to register more often than every 12 months, even when the benefit is opened and closed within the 12-month period. This is tracked through the eligibility system.

The client may register by visiting a WorkForce West Virginia office, or by registering online. The Worker must explain these requirements to the client and enter the registration date in the eligibility system.

**Work Registration Example 1:** An assistance group (AG) is approved for SNAP benefits on April 10. Mr. Hibiscus, the father, registers with WorkForce West Virginia as required by May 10. In June, a change is reported which makes the
AG ineligible and the benefit is closed effective for July. The AG reapplies in September and is determined to be eligible. Because Mr. Hibiscus registered with WorkForce West Virginia in May, he cannot be required to register again until the following May.

**Work Registration Example 2:** Mr. Freesia, a non-SNAP client, registers with WorkForce West Virginia in January. He later applies for SNAP in June. Since Mr. Freesia has not registered for SNAP purposes in the last 12 months, he is required to register with WorkForce West Virginia within 30 days of his SNAP approval.

The Worker must enter the appropriate information in the eligibility system at any point during the certification period when the client is due to register with WorkForce West Virginia. The eligibility system uses this information to send the client the notice to register 30 days prior to the due date.

When the Worker discovers the client was not notified that he must re-register during the certification period and is not currently exempt, the Worker must follow the same steps as noted above to establish a new registration due date and to ensure the client is notified 30 days prior to the new registration due date.

The Worker must not delay completion of a redetermination due to WorkForce West Virginia registration requirements.

If the applicant is currently in a SNAP penalty for failure to register and has completed his minimum penalty time, he must register prior to benefit approval. A second notice to register is not required. If he continues to refuse or fails to register, his penalty continues. See Section 14.5.

Prior to approval, an individual who verbally refuses to register with WorkForce West Virginia is ineligible until he registers or meets an exemption to the work requirements.

When an individual is added to the SNAP AG, or becomes subject to the SNAP work requirements due to the reported loss of an exemption, he is required to register with WorkForce West Virginia within 30 days of the date a notice to register is issued to the client, unless he has already registered for SNAP purposes within the past 12 months. See Section 14.2, General SNAP Work Requirements and Exemptions.

**Work Registration Example 3:** Juniper reports on August 10 that his brother Ficus moved in with him and requests that Ficus be added to the SNAP benefit. Ficus is otherwise eligible and the Worker takes action on August 12 to add him to the SNAP benefit effective September 1. The Worker sends a notice to register on August 12 to notify Ficus that he is required to register with
WorkForce West Virginia by September 12 since he has not registered for SNAP purposes in the last 12 months.

A client who fails to comply by the due date established on the notice to register is subject to a SNAP penalty and the Worker must send an adverse action notice. See Section 14.5. The penalty is not imposed and any lost benefits are restored if, before the end of the month in which the adverse notice expires, the following occurs:

- The client registers; and
- The client notifies the Department of Health and Human Resources (DHHR) that he has registered. If the Worker independently discovers before the penalty goes into effect that the client has registered before the end of the month in which the adverse notice expires, the penalty may be lifted and benefits restored. There is no requirement on the Department, however, to attempt to independently verify if the client has registered after the date the penalty is entered into the system.

**Work Registration Example 4:** Ms. Iris is added to an active SNAP case on August 12 and is notified she must register with WorkForce West Virginia by September 12. If Ms. Iris does not register by September 12, the Worker must send notification that she is subject to a SNAP penalty beginning October 1. If she registers by September 30 and notifies the Worker, the penalty is not imposed. Any lost benefits must be restored.

**Work Registration Example 5:** Mr. Daffodil is added to an active SNAP case on August 12 and is notified he must register with WorkForce West Virginia by September 12. If Mr. Daffodil does not register by September 12, the Worker must send notification that he is subject to a SNAP penalty beginning October 1. If Mr. Daffodil registers and notifies the Worker on or after October 1, the penalty is imposed.

---

### 14.3.1.B WorkForce West Virginia

During the application and redetermination process, the eligibility system will present a registration date obtained from WorkForce West Virginia. If the client is not registered, no date will be returned.

During the certification period, the Worker may request the registration date through the eligibility system. The client is required to register with WorkForce West Virginia every 12 months for SNAP purposes.
When the client is due to re-register, he must show activity to fulfill this requirement. The date of the re-registration is the date of the last action with WorkForce West Virginia or the due date of the re-registration, whichever is later.
14.4 SNAP VOLUNTARY QUIT

14.4.1 ACTIONS WHICH ARE VOLUNTARY QITS

Applicants who voluntarily quit employment without good cause are ineligible for three months, while a penalty is applied to an active client without good cause. See Section 14.2 and 14.5.

A voluntary quit has occurred when all of the following conditions exist without good cause:

- The individual left full-time employment of at least 30 hours per week, other than self-employment, of his own volition, or the individual voluntarily reduced his work hours to below 30 hours/week.
- The individual who left employment was not exempt from the work requirement at the time of the quit.
- The individual quit the most recent job of at least 30 hours per week within 60 days prior to the date of application, or anytime thereafter. See Section 14.4.
- Special Situations
  - An individual who is exempt from the work requirement due to employment loses this exemption immediately upon leaving employment. The client is, therefore, subject to the work requirement penalty even though he was exempt while employed, or while working 30 hours/week.
  - An individual exempt from the work requirement at the time of the quit due to receipt of, or registration for, Unemployment Compensation Insurance (UCI) benefits is exempt from the Supplemental Nutrition Assistance Program (SNAP) penalty. However, failure to comply with UCI requirements without good cause results in the penalties listed in Section 14.5.
  - An individual who meets the above conditions and is an employee of federal, state or local government is considered to have voluntarily quit a job without good cause when the individual participates in a strike against such government and is dismissed because of participation in the strike.

14.4.2 ACTIONS WHICH ARE NOT VOLUNTARY QITS

The following are not considered Voluntary Quit actions:
- Leaving a job of less than 30 hours per week.
- Reduction in the number of hours of employment for the same employer, at the request of the employee, as long as after the reduction he is still employed 30 hours or more per week.
- Termination of self-employment.
- Resignation or termination from the employment at the demand of the employer for any reason, including lay-offs and firings. Even when the reason for firing is failure of the client to follow rules that the employer can reasonably expect to be followed, being fired is not of the client’s own volition and is not, therefore, a voluntary quit. See 14.4.1.
- Leaving employment by a person who was exempt from work requirements at the time of the quit. See 14.4.1.
- For applicants: The quit did not occur within the 60-day period prior to the date of application and/or did not involve the most recent job of at least 30 hours per week.
- For clients: The quit did not involve the most recent job of at least 30 hours per week and/or the client is exempt from the work requirements at the time of the quit or at the time the voluntary quit is determined.

### 14.4.3 GOOD CAUSE FOR VOLUNTARY QUITS

Once a determination is made that the client voluntarily quit, the Worker determines if the individual had good cause for leaving employment. Good cause for leaving employment includes:

- Discrimination by the employer based on age, race, sex, color, disability, religious beliefs, national origin or political beliefs.
- Work demands or conditions were unreasonable, such as, but not limited to, working without being paid on schedule.
- Acceptance of employment by the individual, or enrollment by the individual at least half-time in any recognized school, training program or institution of higher learning on at least a half time basis, that requires the individual to leave employment.
- Acceptance by other assistance group (AG) members of employment or enrollment of at least half-time in any recognized school, training program or institution of higher learning in another area which requires the AG to move and, thereby, requires the individual to leave employment.
• Acceptance of a bona fide offer of employment of more than 30 hours per week which, through no fault of the individual, either does not materialize or results in employment of less than 30 hours per week.

• Leaving a job in connection with patterns of employment in which workers frequently move from one employer to another, such as construction work or migrant farm labor.

There may be times when a SNAP AG applies for benefits between jobs, particularly in cases where work may not be available at the new job site. Even though employment at the new site has not actually begun, the quitting of the previous employment is considered to have been with good cause when it is part of the pattern of that type of employment.

• Resignations by persons under the age of 60, which are recognized by the employer as retirement.

• Leaving employment due to circumstances beyond the client’s control, such as, but not limited to: illness, illness of another AG member requiring the presence of the client, a household emergency, the unavailability of transportation, or lack of adequate child care for a child who is at least age 6, but not yet age 12.

• The employment does not meet the suitability requirements.

Employment is considered unsuitable if any of the following conditions exist:

  o The wage offered is less than the highest of:

    ▪ The applicable federal minimum wage;
    ▪ The applicable State minimum wage; or
    ▪ Eighty percent (80%) of the federal minimum wage, if neither the federal nor the State minimum wage is applicable.

  o The employment in question is on a piece-rate basis and the average hourly yield the employee can reasonably expect is less than the applicable hourly wages specified above.

  o The individual, as a condition of employment, is required to join, resign from or refrain from joining any legitimate labor organization.

  o The work is at a site subject to a work stoppage as a result of a strike or lockout at the time of the offer, unless the strike has been enjoined under section 208 of the Labor-Management Relations Act (Taft-Hartley Act) or section 10 of the Railway Labor Act.

• In addition, employment is considered suitable unless the AG member can demonstrate, or the Worker otherwise becomes aware that:

  o The degree of risk to health and safety is unreasonable;
The AG member is physically or mentally unfit to perform the employment, as established by documented medical evidence or by reliable information provided from another identifiable source;

- The employment offered is not in the client’s major field of experience. This is applicable only within the first 30 days of becoming subject to the work requirements;

- The distance traveled to the employment from the AG member’s residence is unreasonable, considering the expected wage and the time and cost of commuting. Employment is not considered suitable if daily commuting time exceeds two hours per day, not including the transporting of a child to and from a child care facility. Nor is employment considered suitable if the distance to the place of employment prohibits walking and neither public nor private transportation is available to transport the individual to the job site;

Clients who move to a residence which renders the distance to the place of employment unreasonable are not subject to the work requirement penalty. This includes those who move to West Virginia from another state or country and those who move within the state; or

- The working hours or nature of the employment interferes with the AG member’s religious observances, convictions or beliefs.

### 14.4.4 ESTABLISHING GOOD CAUSE

See Section 7.3 for possible sources of verification of the reason for the quit. Verification of the reason is routinely required when the client claims good cause, except as follows.

The individual must not be penalized if the individual and the Worker are both unable to obtain the needed verification because the cause for the quit resulted from circumstances that, for good reason, cannot be verified, such as a resignation from employment due to discrimination, unreasonable demands by an employer, or because the employer cannot be located. The Worker must record all case activity.
14.4.5 WHEN TO APPLY A SNAP PENALTY FOR VOLUNTARY QUIT

Once a determination is made that the client voluntarily quit a job of at least 30 hours per week and did not have good cause for quitting, he may be subject to a SNAP penalty as described below.

14.4.5.A Applicants

When the Worker determines that an applicant has voluntarily quit a job 60 days prior to application without good cause, his period of ineligibility is the month of application and two calendar months following the month of application or until he reports a change which makes him exempt from the SNAP work requirement. This three-month period of ineligibility is not counted as a penalty for the applicant.

Eligibility for the individual is reestablished when an exemption is established or at the end of the three-month period of ineligibility.

14.4.5.B Clients

When the Worker discovers from the client that they have voluntarily quit employment, he must verify if it was with or without good cause to determine if the client is subject to a SNAP penalty. If sufficient information exists to determine that the client had good cause, the Worker records this information in case comments and on the appropriate eligibility system screen. If the Worker verifies that the client voluntarily quit without good cause and is not exempt from the work requirements, a penalty is applied.

If sufficient information is not available to determine that the client had good cause, the Worker must record the available information in case comments and explore good cause at the next redetermination, even when it appears the client does not have good cause. The client is not required to report that he quit a job and/or that he had good cause for quitting during the certification period.

**SNAP Penalty Example 1:** Mr. Begonia client calls to report that he quit his full time job because he has not been paid in over a month. The Worker acts on the change in income, grants the client good cause for the voluntary quit, and
records the information in case comments. No additional follow up for this voluntary quit is required at the next redetermination.

**SNAP Penalty Example 2:** Mr. Tansy, a SNAP client, applies for Emergency Assistance (EA) and reports that he quit his job of 30 hours a week because he had an argument with his boss. Since there is no voluntary quit provision for EA, the Worker acts on the income change, delays the good cause determination, and records this in case comments. At the next redetermination, if Mr. Tansy is not currently working at least 30 hours a week or meeting a SNAP WORK requirement exemption, the Worker discusses this voluntary quit with Mr. Tansy in order to determine if good cause existed.

### 14.4.5.B.1 Voluntary Quit Discovered at Redetermination

When the Worker determines at redetermination, based on information available in case comments and new information reported by the client during the normal redetermination process, that the client voluntarily quit employment without good cause during the prior certification period, he must determine if the client is subject to a SNAP penalty.

If the Worker determines at redetermination that the client did voluntarily quit without good cause at any time during the certification period and he is not currently working 30 hours a week and is not exempt from the work requirements, a penalty is applied. See Section 14.5.

The Worker must only explore the potential for voluntary quit using information previously recorded in case comments and information that the client reported in order to update the current information. Neither the Worker nor the client is required to explore the potential for voluntary quit when the job is not previously known to the Department.

Eligibility for the individual is reestablished when an exemption is established or at the end of the appropriate penalty period.
14.5 SNAP WORK REQUIREMENT PENALTIES

A Supplemental Nutrition Assistance Program (SNAP) penalty is imposed when clients do not comply with a work requirement and do not have good cause. See Section 20.2 for the effect of penalties on eligibility for Emergency Assistance (EA).

When determining the correct number of penalties, the Worker must look at the total number of penalties previously served, not just the number of penalties for each work requirement.

The penalty must be served unless the client meets an exemption. The penalty is never applied to an entire assistance group (AG), only to the client who does not comply. When the reported exemption ends, the client is subject to the original penalty, unless he has complied or meets another exemption.

Penalties are applied sequentially, regardless of the requirement not met. In addition, penalties are applied consecutively and one penalty must end before another one is imposed.

14.5.1 SNAP CLIENT NOT RECEIVING WV WORKS

When a SNAP client that does not receive WV Works fails to comply with the SNAP work requirements in Section 14.2, he is subject to the following penalties.

14.5.1.A Voluntary Quit and Voluntary Reduction of Hours Penalties

A client who voluntarily quits employment of at least 30 hours a week or voluntarily reduces his hours to below 30 hours a week is subject to the following penalty periods or until he reports an exemption. See Section 14.2 for exemptions. The client must not be required to return to the same or comparable employment before eligibility is established.

- First violation: The client is removed from the AG for three months or until he meets an exemption. If the client does not meet an exemption prior to the end of the penalty, he is added back into the active AG after three months. A one-person AG must reapply to establish eligibility.
Second violation: The client is removed from the AG for six months or until he meets an exemption. If the client does not meet an exemption prior to the end of the penalty, he is added back into the active AG after six months. A one-person AG must reapply to establish eligibility.

Third and subsequent violations: The client is removed from the AG for 12 months or until he meets an exemption. If the client does not meet an exemption prior to the end of the penalty, he is added back into the active AG after 12 months. A one-person AG must reapply to establish eligibility.

Voluntary Quit Penalty Example: Mr. Dogwood is a man in a three-person AG. Mr. Dogwood failed to register with WorkForce West Virginia in December. He was placed in a first penalty beginning in January. The length of the penalty was three months, but he did not register until April, so he was not added back into the active AG until May. In July, Mr. Dogwood quit a job of at least 30 hours a week without good cause. He was placed in a voluntary quit penalty beginning in August. Since this was his second penalty, the length of the penalty is six months. If he does not meet an exemption prior to the end of the six months, he is not eligible to be added back into the active AG until February.

14.5.1.B Non-Voluntary Quit Penalties

A client who refuses or fails to register with WorkForce West Virginia, refuses employment, or refuses to provide information about employment status and job availability is subject to the following penalties for the full penalty period or until he reports a change which makes him exempt from the work requirements. See Section 14.2 for exemptions.

First violation: The client is removed from the AG for at least three months or until he meets an exemption. If after three months, the client has not complied or met an exemption, the penalty continues until he does comply or meets an exemption for some reason other than Unemployment Compensation Insurance (UCI) related activities.

Second violation: The client is removed from the AG six months or until he meets an exemption. If after six months, the client has not complied or met an exemption, the penalty continues until he does comply or meets an exemption for some reason other than UCI-related activities.

Third and subsequent violations: The client is removed from the AG for 12 months or until he meets an exemption. If after the 12 months, the client has not complied or met an exemption, the penalty continues until he does comply or meets an exemption for some reason other than UCI-related activities.
Non-Voluntary Quit Penalty Example 1: In April, Mr. Zinnia, a client, fails to register with WorkForce West Virginia and refuses a job offer. He incurs the first penalty for failure to register and is disqualified for a minimum of three months beginning in May. In June, Mr. Zinnia registers with WorkForce West Virginia, but still has a month of the penalty left. Effective August 1, his first penalty ends, but his second penalty for refusing a job offer begins after expiration of the first penalty, taking into consideration advance notice requirements.

Non-Voluntary Quit Penalty Example 2: In June, Mr. Rose, a client, fails to register with WorkForce West Virginia and a penalty is imposed effective July 1. At the end of the minimum penalty period of three months, he still has not registered, so the penalty continues. In November, Mr. Rose reports he is working 35 hours a week. Since he meets an exemption, he is added back to the AG effective December. In February, he reports he was fired. He does not meet another exemption. He has still not registered with WorkForce West Virginia, so he remains subject to the original penalty. He is ineligible until he registers with WorkForce West Virginia or meets another exemption.

14.5.2 WV WORKS CLIENT

A WV WORKS client who is exempt from SNAP work requirements only because he is subject to, and complying with, a WV WORKS requirement in Section 18.9 is subject to the following penalties when he does not comply. A WV WORKS offense that involves a work requirement which results in application of a WV WORKS sanction may also result in a SNAP penalty. See Section 14.10.

- First violation: The client is removed from the AG until the client reports a change that makes him exempt according to Section 14.2.1.B for some reason other than UCI-related activities or for a maximum of three months. Following the end of the first penalty, the Worker must add the client to the active AG, if the client is otherwise eligible.

- Second violation: The client is removed from the AG until the client reports a change that makes him exempt according to Section 14.2.1.B for some reason other than UCI-related activities or for a maximum of an additional six months. Following the end of the second penalty, the Worker must add the client to the active AG, if the client is otherwise eligible.

- Third and subsequent violations: The client is removed from the AG until the client reports a change that makes him exempt according to Section 14.2.1.B for some reason other than UCI-related activities or for a maximum of an additional 12 months. Following
the end of the third penalty, the Worker must add the client to the active AG, if the client is otherwise eligible.
14.6 WV WORKS REQUIREMENTS: EFFECT OF THE WORK ASPECT ON ELIGIBILITY

The work component of WV WORKS is described in detail in Chapter 18. Failure or refusal to comply with the requirements of the work component may adversely affect the client’s WV WORKS eligibility or the amount of his WV WORKS benefit. The following sections provide information about those who are temporarily exempt from the work requirement, how eligibility and benefit amounts are affected, sanctions, determining good cause and the effect of a WV WORKS sanction on other programs.
14.7 WV WORKS EXEMPTIONS

The following are exemptions from meeting the work requirement. This does not automatically exempt appropriate individuals from the 60-month or 24-month time limits described in Sections 18.2 and 18.8. Individuals exempt from the work requirement may participate voluntarily. See Sections 1.5 and 3.21. However, no sanction is applied for failure to do so. The Case Manager must place participants who choose to participate in the appropriate work components, as well as the applicable exemption component.

- Undocumented aliens and aliens under the five-year ban
  This includes those aliens who are ineligible to receive assistance due to their immigration status and those who do not meet the necessary time requirements for living in this country;

- Parents, step-parents, or caretaker relatives receiving Supplemental Security Income (SSI)
  These individuals must be offered an opportunity to participate, if they so choose;

- Care for a disabled family member (TW)
  A participant who is providing medically necessary care for a disabled family member who resides in the home. Medical documentation must be provided to support the need for the participant to remain in the home to care for the disabled family member. See Chapter 18. Only one participant in the assistance group (AG) at a time can be temporarily exempt for this reason.

  The Case Manager must review this documentation at least once quarterly and it must be verified by a doctor’s statement. This care cannot be counted as participation hours under any activity. When medical documentation is obtained that the family member is no longer disabled, the exemption ends and the participant becomes a Work-Eligible Individual and must be assigned to a countable

NOTE: WV WORKS participants who have a documented disability must be placed in the “Participant with a Documented Disability” (AD) component in the case management system, in addition to other component codes.

NOTE: Because the time limit applies to participants in this component, the family should be encouraged to make other care arrangements. This includes an application for Medicaid Aged and Disabled Waiver (ADW), Intellectual Development Disabilities (I/DD) Waiver or Traumatic Brain Injury (TBI) Waiver services.
activity. Individuals under this exemption must be placed in TW component in the case management system;

- Minor parents who are not head of household; and
- Grandparents and other non-parent caretaker relatives

These individuals may choose to be included in the WV WORKS AG, and if so, must complete a Personal Responsibility Contract (PRC), complete a Self-Sufficiency Plan (SSP), attend orientation, and participate in work activities.

NOTE: Refer to Section 18.4 for those Work-Eligible Individuals who are excluded from the calculation of the federal work participation rate. This is not to be confused with any WV WORKS exemption in this section or any good cause reason listed in Section 14.9.
14.8 WV WORKS SANCTIONS

When a member of the assistance group (AG) or non-recipient Work-Eligible Individual does not comply with requirements found on his Personal Responsibility Contract (PRC) or Self-Sufficiency Plan (SSP), a sanction must be imposed unless the Case Manager determines that good cause exists. Information about development of the SSP is found in Chapter 18. Information about the PRC and SSP as an eligibility requirement is found in Section 1.5.

NOTE: When the person whose actions cause a sanction to be imposed becomes a Supplemental Security Income (SSI) recipient prior to imposition of the sanction, no sanction is imposed. In addition, the offense is not counted when determining the level of subsequent sanctions. If the family has already been sanctioned when the offender becomes an SSI recipient, the sanction is lifted as soon as possible. The partial sanction already served counts when determining the level of the subsequent sanctions.

NOTE: If a disabled client chooses to participate, no sanction is imposed for failing to meet the work requirements if the Case Manager or Supervisor determines the participant failed to meet the SSP requirements due to his disability. WV WORKS participants who have a documented disability must be placed in the “Participant with a Documented Disability” Aged and Disabled Waiver (ADW) component in the case management system, in addition to other component codes.

14.8.1 DEFINITION OF A SANCTION

Sanctions are applied in the form of termination of WV WORKS benefits. The duration of the sanction period is determined as follows:

- First Offense = Ineligibility for cash benefits for 1 month;
- Second Offense = Ineligibility for cash benefits for 6 months;
- Third and All Subsequent Offenses = Ineligibility for cash benefits for 12 months.

WV WORKS sanctions are applied to all Work-Eligible members of a WV WORKS case, not only to the member who causes the sanction.
A sanction is not imposed by having the client repay all or part of the benefit he has already received. A termination of cash assistance for at least one month is the only means by which a sanction is imposed.

Once the beginning of the sanction period has started, it cannot be stopped until the appropriate time has elapsed.

When two or more offenses, by the same or different participants, occur in the same month, it is treated as if only one offense has occurred. All offenses must be addressed in the client notification and only one sanction is imposed. If an additional offense, by the same or different participants, occurs in the same month after the Case Manager has mailed the notification of the preceding offense, an additional sanction may not be imposed.

The second and subsequent WV WORKS sanctions require supervisory approval. A Supervisor must confirm the sanction in the eligibility system. When a Supervisor is not available, a back-up Supervisor may confirm the sanction.

The third and subsequent WV WORKS sanctions must be approved by the Division of Family Assistance (DFA) Temporary Assistance for Needy Families (TANF) Policy Unit. The Supervisor must send an email to TANF Policy Unit members and his Regional Program Manager once the prospective sanction is placed in the eligibility system with the date and time of the scheduled case staffing, along with a detailed summary on a DFA-WW-75 outlining the reason for the sanction including:

- Case name, case number, PIN numbers;
- Current PRC;
- Number of referrals provided to the AG for help in removing barriers;
- Number of home/work site visits in the past 12 months. If a home visit has not been completed within 60 days of the third or subsequent sanction request, the Case Manager must schedule, attempt and document a home visit before a sanction approval will be considered. A site visit must not be completed for this purpose.
- Any special or unusual circumstances in the family; and
- Worker, Supervisor and/or Community Services Manager (CSM) decision, including reason, about whether or not the family should be sanctioned.

This process is to ensure all challenges identified have been addressed.

If good cause is granted, the Supervisor notifies the Policy Unit and Program Manager by email, and the sanction is lifted.

To be considered for future benefits, the individual will be required to re-apply for WV WORKS.
14.8.2 SUBSTANCE ABUSE SANCTION

Any applicant who refuses a Drug Use Questionnaire, DFA-WVW-DAST-1, or a drug test is ineligible for WV WORKS assistance.

Any applicant who provides false information on the Drug Use Questionnaire is ineligible for WV WORKS assistance for 12 months. He must also be referred to repayments for benefits overpaid due to the false information. The false information must be from evidence and not hearsay.

Any applicant who has a positive drug test and who fails to complete or refuses to participate in substance abuse treatment and counseling and job skills program is ineligible for WV WORKS until he is enrolled in these programs. Once he can document successful completion, he may reapply for those benefits six months after the completion and must submit to random drug testing.

Upon a second positive drug test, the individual must complete a second substance abuse treatment and counseling and job skills program. These individuals shall be ineligible for WV WORKS for twelve months or until he completes a substance abuse treatment and counseling program and a job skills program whichever is shorter.

Upon a third positive drug test, the individual is permanently ineligible for WV WORKS.

In any of the above situations the applicant is considered a non-recipient work-eligible individual and must choose a protective payee for the WV Works payment for the other members of the WV Works AG.

14.8.3 ADVANCE NOTICE

All benefit terminations due to imposition of a sanction require advance notice. See Chapter 9 the sanction is effective.

Once a period of ineligibility is imposed, i.e. after expiration of the 13-day advance notice period, the ineligibility remains in effect for the pre-determined number of months, regardless of case status.
14.8.4 CASE STAFFING

A case staffing is required before all sanctions start.

After a sanction has been imposed, the Worker must send a pending closure notice (DFA-WVW-5), which includes an appointment for a case staffing. The case staffing notice may be sent any time after notification that the sanction has been imposed, but before start of the sanction. It is recommended that the case staffing occur as soon as possible after the notification to try to avoid the sanction.

When the sanction is scheduled to start prior to the case staffing, the sanction must be delayed until the case staffing has been attempted. The Worker must document in comments the dates the case staffing was scheduled and also document the outcome of a completed case staffing on a DFA-WVW-6 and in comments. At the Supervisor’s discretion, a home visit may be made in addition to the case staffing. However, the home visit does not substitute for the case staffing.

During the case staffing, the Case Manager must discuss with the participant the reason(s) for the sanction. The Case Manager will explore with the participant why he has not complied with the PRC or SSP or otherwise participated and cooperated. During the visit, the Case Manager will explore any support services, other Department services or community resources that are available to the client to address any challenges to participation. Appropriate services and referrals will be arranged. The Case Manager must also discuss the following during the case staffing visit:

- Plans for how the children’s needs will be met when the WV WORKS benefit stops.
- How rent and utilities will be paid while the WV WORKS case is ineligible.
- Determine how extra expenses, such as, but not limited to, cleaning and laundry supplies, clothing, etc. will be covered.
- Explain that if a participant is in their first sanction, Emergency Assistance is not available for one month. For the second and subsequent sanctions, Emergency Assistance is not available for the first three months of a sanction period.
- Explain that Supplemental Nutrition Assistance Program (SNAP) benefits will not increase due to the loss of WV WORKS.
- Explain that the participant must establish good cause to avoid a sanction.

**NOTE:** Under no circumstances is the Worker to suggest or indicate that the loss of WV WORKS benefits will result in removal of the children from the home.
The case staffing does not substitute for advance notice of any additional sanctions or for any good cause appointments.

### 14.8.5 BEGINNING OF THE SANCTION PERIOD

The sanction period begins the month after expiration of the advance notice period. The date the Worker enters the pending sanction in the eligibility system determines the initial month of the sanction.

Imposition of a sanction may be delayed by a Fair Hearing request. When the Department of Health and Human Resources (DHHR) is upheld, the sanction begins in the month following the Fair Hearing decision. If the Fair Hearing decision is reached after the adverse action deadline date, the sanction begins two months after the decision.

### 14.8.6 EXPIRATION OF THE SANCTION PERIOD

The sanction periods expire when the participant has not received WV WORKS benefits for the appropriate number of months, whether the case remains active or not.

If the participant is not notified of the imposition of the sanction prior to a requested case closure, no sanction may be imposed until the client has received proper notice. Therefore, when the participant requests case closure before being notified of the imposition of the sanction, the Worker must still notify the client of the imposition of the sanction. The notification letter must explain that the sanction will be applied upon reapplication if the client chooses to reapply during the sanction period. Refer to Chapter 9 for client notification. The letter must specify the dates of the sanction period. The client may request a Fair Hearing on the sanction issue when the notification is received or upon reapplication within 90 days of closure notification.

The client may reapply at any time, but applications made prior to the expiration of the sanction are denied.

### 14.8.7 DETERMINING THE NUMBER OF SANCTIONS AND WHEN THE AG OR NON-RECIPIENT WORK-ELIGIBLE INDIVIDUAL SEPARATES
The following information is used to determine the number of sanctions when the sanctioned WV WORKS case separates into two or more cases, or when one or more household members leave the case.

- Each adult and emancipated minor included in the same WV WORKS AG, and each non-recipient Work-Eligible Individual, is assigned one sanction for each time the case is sanctioned. Sanctions are not assigned to children.

**Assigning WV WORKS Sanctions Example 1:** Mr. and Mrs. Pine receive WV WORKS for themselves and their two children. Mr. Pine refused an offer of employment without good cause and a sanction is applied to the case. The case has one sanction; therefore, Mr. Pine is assigned one sanction and Mrs. Pine is assigned one sanction.

- When an adult or emancipated minor leaves the home, he takes his assigned sanctions with him. Those adults and emancipated minors remaining in the home retain their assigned sanctions.

**Assigning WV WORKS Sanctions Example 2:** Continuation of the previous example. After application of the sanction, Mr. Pine leaves the home. Mrs. Pine is the only adult remaining in the AG. She carries the sanction that was assigned to her when Mr. Pine refused a job, so the sanction continues.

- When a Work-Eligible adult or emancipated minor leaves the home of one WV WORKS case and joins another one, all members of the new AG and any non-recipient Work-Eligible Individuals are assigned the same number of sanctions. This number is determined by assigning each adult/emancipated minor the highest number of sanctions assigned to any one of the adults/emancipated minors in the new AG or any non-recipient Work-Eligible Individuals.

**Assigning WV WORKS Sanctions Example 3:** Continuation of previous example. When Mr. Pine leaves Mrs. Pine, he moves in with a former fiancée, Nellie. Mr. Pine is the father of two of Nellie’s children. Nellie and her three children are WV WORKS clients. Nellie previously failed, without good cause, to cooperate with the Bureau for Child Support Enforcement (BCSE) in obtaining support for her third child. In addition, she failed, without good cause to continue her Community Work Experience Program (CWEP) placement. Nellie’s case has been sanctioned twice. When Mr. Pine joins her AG, he is assigned two sanctions, since Nellie has the higher number of sanctions. After six months, Mr. Pine decides to return to his wife. When he leaves, Nellie continues to have two sanctions. When Mr. Pine returns to his wife, he now has two sanctions that were assigned to him from Nellie’s case. Therefore, the case which includes Mr. and Mrs. Pine now has been assigned two sanctions. The next offense by Mr. or Mrs. Pine results in application of the third sanction.
Upon learning of his sanction status, Mr. Pine goes back to live with Nellie. Mr. Pine and Nellie each continue to have two assigned sanctions. Shortly after his return, Nellie fails to keep an appointment with a prospective employer. She tells the Case Manager that she wanted to stay home to be with the father of her children. The Case Manager determines that she did not have good cause and applies the third sanction. Mr. Pine immediately returns to his wife. This makes his wife and children ineligible when the third sanction was applied.

**Assigning WV WORKS Sanctions Example 4:** A household consists of Mr. and Mrs. Green and their two children. Mr. Green was convicted of a drug felony and is not included in the WV WORKS benefit. Mrs. Green has incurred two previous WV WORKS sanctions. Because Mr. Green was convicted of a drug felony, he is considered a non-recipient Work-Eligible-Individual. Mr. Green is immediately assigned two WV WORKS sanctions previously incurred by Mrs. Green.

**Assigning WV WORKS Sanctions Example 5:** Ms. Smith is a non-recipient Work-Eligible Individual because she is a parole violator. She fails to attend her assigned activity without good cause and a sanction is applied to the case. The case now has one sanction.

- Sanctions applied to a case are never assigned to dependent children.

**Assigning WV WORKS Sanctions Example 6:** Sam, one of Mr. and Mrs. Pine’s children, runs away to live with his grandmother. She applies for WV WORKS for Sam and herself and is approved. Because Sam is a dependent child, no sanctions are assigned to the new AG even though his previous AG has three sanctions.

**Assigning WV WORKS Sanctions Example 7:** Mr. and Mrs. Oak had four children and are notified that a third sanction will be imposed and the benefit amount will be reduced from $460 to $0. The WV WORKS amount counted for SNAP benefits is $460. The AG separates; Mr. and Mrs. Oak each will then have $230 of the WV WORKS benefit counted for the SNAP benefits in their separate AGs. If they reconcile before the end of the sanction period, $460 WV WORKS benefit will be counted for their SNAP benefit.
14.9 GOOD CAUSE FOR FAILURE TO PARTICIPATE FOR WV WORKS

All Work-Eligible Individuals must be placed into an allowable activity described in Chapter 18.10 – 18.18 on approval date after negotiation of the Self-Sufficiency Plan (SSP), unless a good cause reason discussed below exists. The participant must remain in that activity until either the case is closed at the end of the month or the Case Manager and participant agree to change the activity.

The Case Manager has considerable discretion in imposing a sanction or granting good cause. The Case Manager must determine whether or not the participant is meeting the requirements, attempting to comply with the best of his ability, understands the requirements, and the sanction process. The Case Manager may determine that the requirement was inappropriate based upon additional assessment. In addition, the Case Manager may determine that not applying a sanction in a particular situation provides more motivation for future participation than the imposition of a sanction.

The applicant may not claim good cause for failure to enroll in or complete a substance abuse treatment and counseling program and a job skills program following a positive drug test. Should unforeseen circumstances prevent the applicant from enrolling in a treatment and counseling program within seven business days, the Case Manager may allow additional time to enroll. Individuals who refuse to enroll in a substance abuse treatment and counseling program and a job skills program are ineligible for WV WORKS until enrolled.

The Case Manager must determine if good cause exists if a parent or a non-parent caretaker relative included in the payment or a non-recipient Work-Eligible Individual quits or refuses employment within the 30-day period prior to the date of application or when the client fails or refuses to meet his work requirement and/or adhere to his SSP requirements. Appropriate documentation must be provided and the circumstances must be recorded in comments, where applicable.

Some reasons for granting good cause for temporarily not meeting participation requirements, the beginning date of eligibility, the five-day eligibility period, and the 24-month eligibility requirement are life events or problems such as, but not limited to:

- The death of a spouse, parent, child, or stepchild.
- In accordance with the Family and Medical Leave Act (FMLA) of 1993, an acute, life-threatening illness of a spouse, parent, or child that requires the client’s immediate attention. This does not include individuals who are exempt from participation due to caring for a disabled family member as outlined in Section 14.7.
- The 12-week period following the placement of a child with the participant for adoption or foster care.
• The minimum suitability standards for the specific activity are not met. See Sections 18.10 – 18.18 for minimum requirements. If none are listed for the activity, the Case Manager must determine if the activity placed unreasonable requirements on the client. The Case Manager must schedule an appointment or home visit for individuals granted good cause for this reason to review the situation and possible SSP update.

• An appointment to update the SSP and place the individual in another component must be scheduled as soon as possible.

• The parent, an included non-parent caretaker, or a non-recipient Work-Eligible Individual quitting employment or fails to participate in his assigned activity due to enrollment and full-time attendance in school, training, or an institution of higher learning. The SSP must be updated and these individuals should be placed in the Vocational Educational Training (VT), Secondary School (AB), or College (CL) components as soon as possible.

• The participant is required to appear in court or for jury duty.

Failure or refusal to comply, without good cause, results in imposition of a sanction and a notice of adverse action must be issued, which includes scheduling the good cause interview. The appointment date for the good cause interview must be scheduled at least seven calendar days after the day following the date the letter is requested in the eligibility system or the day following the date a manual letter is sent. If the letter is hand delivered, case comments must be made indicating the date the letter was given to the participant. If the appointment is scheduled for a date prior to the seven calendar days, the participant and the Case Manager must agree on the appointment date. See Section 9.3.3 and Section 9.3.6. A system generated letter or a manual letter (DFA-WVW-NL-1) is used.

NOTE: A good cause determination is not required when the participant is exempt from participation in a work activity. See Section 14.7 for these exemptions. However, documentation is required for not being able to meet the minimum five hours per week work requirement or for referrals for assessment testing, or referrals to other appropriate services. See Section 18.8.

All of these good cause determinations must be recorded in the case management system. All good cause determinations must be reviewed monthly and the Case Manager must update the case comments with the information on the status of the participant. The Case Manager must enroll the participant in the Other Work Activities (OW) component to capture time spent with the customer during these monthly reviews. Once the good cause determination has been reviewed and the Case Manager determines that the good cause reason is still appropriate or the customer may be assigned to a countable work activity, the time spent for that review is entered as completed hours for the OW component. Comments are completed, and the participant is disenrolled from the OW component.
14.9.1 Good Cause Components

When the Case Manager determines that the client has good cause for failure to participate for one of the reasons listed in Section 14.9.1.A through Section 14.9.1.E below, the participant must be placed in the appropriate good cause component.

Clients in any of the good cause components listed below are still considered in the federal participation rate calculation.

14.9.1.A Age of Child (TF)

This component is used only for a single custodial parent caring for a child under the age of one. It is a good cause period for a maximum of 12 months lifetime and it ends when the child attains the age of 12 months. It does not apply during the pregnancy period. Any remaining months can be applied following the birth of another child. This good cause reason may be applied when an applicant has given birth to a child and the child is under 12 months of age. The Case Manager must check the number of months previously used in the TF component before using this good cause reason.

The 12 month good cause period begins the month that the child is born and extends to the end of the month preceding the child’s first birthday. The parent no longer has good cause for not meeting the participation requirements beginning with the month in which the child reaches 12 months of age.

Any individual who has had a positive drug test as a result of the Drug Use Questionnaire, DFA-WVW-DAST-1, is given good cause for not participating in job readiness and counseling / rehabilitation during the 12-week postpartum period only.

Time in this component before October 2006 is not counted towards the lifetime limit of 12 months.

Age of Child Good Cause Example: Ms. Dahlia, a WV WORKS single parent, had a baby on January 5, 2017. For this child she is eligible for the 12-month good cause exemption from meeting participation requirements. She must be placed in the TF component from January 5, 2017 through December 31, 2017. If she chooses to volunteer to participate in a work activity during this period, she is...
enrolled in a work component and disenrolled from the TF component. If she fails to meet her work requirement, she cannot be sanctioned. Remaining TF months may be used when she has another child while she is a WV WORKS participant.

If Ms. Dahlia has another child(ren) while she is a WV WORKS participant after using 12 months lifetime of TF, she will temporarily have good cause for not participating in an activity only for a 12-week postpartum period in accordance with the FMLA. The need for an extended good cause period must be verified by a doctor's statement.

14.9.1.B Domestic Violence (TV)

When domestic violence and/or the need to protect abused children makes participation impossible, dangerous, or embarrassing, in order for good cause to be granted for this reason, the participant must accept a referral to the Bureau for Children and Families (BCF) Division of Children and Adult Services or a local domestic violence agency. The participant must comply with the requirements of the domestic violence agency plan. This period is limited to six months but may be extended when extenuating circumstances exist and counseling continues at the recommendation of the domestic violence counselor. The Case Manager must maintain close contact with the domestic violence agency and monitor this plan regularly.

14.9.1.C Child Under Six / Unavailable Child Care (TD)

A single parent can prove that appropriate child care is unavailable for his child, under age six. The client must accept available child care unless it is an unreasonable distance from the individual's home or work site. Special needs children may require special child care arrangements. If so, the unavailability of suitable and appropriate care must be considered for special needs children. Circumstances involving unavailable child care must be reviewed monthly.

14.9.1.D Additional Parent (AP)

The AP component is only used when one parent is in the home caring for the children while the other parent is participating in a countable work activity for the required number of monthly hours.
14.9.1.E  Physical/Mental Incapacity (TI – Physical, TM – Mental Health Issues)

An individual is experiencing a physical or mental health condition or he is suffering from a temporary debilitating injury for which a reasonable accommodation cannot be made, the individual’s condition must be reevaluated within the time limits specified by his medical practitioner or at least quarterly. Form DFA-DIMA-1 must be requested to be completed by the medical provider.

For any period of disability or incapacity that is expected to last longer than six months, the case must be submitted to the Medical Review Team (MRT) for evaluation. MRT must also approve all individuals claiming permanent and total disability. See Section 13.3.3 for instructions to determine incapacity.

A Work-Eligible female may be placed in the TI component when her doctor places her on bed rest because of a high-risk pregnancy.

The 12-week postpartum period following the birth of any additional child after having used the 12 month lifetime Age of Child (TF) period. Any time other than the usual 12-week period requires medical documentation of the expected return to work date.

The individual refuses to accept surgery which would eliminate or significantly improve his condition, even if the refusal precludes participation.

NOTE: WV WORKS participants who have a documented disability must be placed in the AD component in Work Programs in addition to other component codes.

14.9.1.F  Disability/Incapacity – Definition Only for Temporary Good Cause

NOTE: A two-parent family with one parent disabled or incapacitated according to this section is still considered a two-parent family for minimum participation rate requirements. The family may be temporarily granted good cause for not meeting the minimum requirements. See Section 14.9. Meeting either definition does not automatically exempt the family or individual from the 60-month or 24-month time limits described in Section 18.2 and 18.8.

Disability and incapacity for a Work-Eligible Individual may be established with or without a physician’s statement as follows.
14.9.1.F.1 Establishing Disability without a Physician’s Statement

When the disability is obvious to the Worker, no verification is required. The Worker must record his findings and the reason for his decision in case comments.

If the disability is not obvious to the Worker, disability may be established according to other criteria below. If disability cannot be established according to this item (Section 14.9.1.F.1), see Establishing Disability With A Physician’s Statement below (Section 14.9.2.F.2).

- The individual receives benefits from a governmental or private source, and these benefits are based on his own illness, injury or disability.
  
  This includes, but is not limited to: Workers’ Compensation, Retirement, Survivors and Disability Insurance (RSDI), Supplemental Security Income (SSI), Veteran's Administration (VA) benefits, Black Lung benefits, Medicaid (incapacity, blindness, or disability), private insurance, sickness benefits, etc. However, if any of these conditions are questionable, such as a low percentage disability for VA benefits, a physician's statement may still be required.

  For SSI and RSDI purposes, being certified for these benefits (approved, but not yet receiving payment withheld to repay, etc.) is the same as receiving them.

- The individual is a veteran with a service-connected or non-service connected disability, rated or paid as total, under Title 38 of the United States Code (USC).

- The individual is a veteran who is considered by the VA to be in need of regular aid and attendance, or permanently housebound, under Title 38 of the USC.

- The individual is a surviving spouse of a veteran and is considered by the VA to be permanently incapable of self-support, under Title 38 of the USC.

- The individual has one of the following conditions:
  
  - Permanent loss of use of both hands, both feet or one hand and one foot;
  - Amputation of leg at hip;
  - Amputation of leg or foot because of diabetes mellitus or peripheral vascular diseases;
  - Total deafness, not correctable by surgery or hearing aid;
  - Statutory blindness, unless due to cataracts or detached retina;
  - IQ of 59 or less, which was established after attaining age 16;
  - Spinal cord or nerve root lesions resulting in paraplegia or quadriplegia;
o Multiple Sclerosis in which there is damage of the nervous system because of scattered areas of inflammation which recurs and has progressed to varied interference with the function of the nervous system, including severe muscle weaknesses, paralysis and vision and speech defects;

o Muscular Dystrophy with irreversible wasting of the muscles with a significant effect on the ability to use the arms and/or legs;

o Impaired renal function due to chronic renal disease, documented by persistent adverse objective findings, resulting in severely reduced function which may require dialysis or kidney treatment; or

o Amputation of a limb, when current age is 55 or older.

• Recipients of federal, state or local government disability retirement, who receive such benefits due to one of the conditions specified above. This includes, but is not limited to, payments under Civil Service Retirement (CSR) and Federal Employee Compensation Act (FECA).

• Those individuals who receive federally- or state-administered supplemental benefits under Section 1616 (a) of the Social Security Act (optional state supplementation to SSI payments) provided that eligibility to receive the benefits is based upon the disability or blindness criteria used under Title XVI of the Social Security Act or under Section 212 (a) or Public Law 93-66. West Virginia has no such program.

• Recipients of annuity payments, under Section 2,(a),(1),(iv) of the Railroad Retirement Act of 1974, who also have been determined eligible to receive Medicare under the Railroad Retirement Act.

• Recipients of an annuity payment, under Section (2),(1),(1),(v) of the Railroad Retirement Act of 1974, who have been determined to be disabled based on the criteria used under Title XVI of the Social Security Act.

• Recipients of benefits from the following Medicaid coverage groups:
  o SSI-Related Medicaid;
  o Medicaid Aged and Disabled Waiver (ADW);
  o Intellectual Developmental Disabilities (I/DD) Waiver; or
  o Traumatic Brain Injury (TBI) Waiver.

14.9.1.F.2 Establishing Disability with a Physician’s Statement

The following criteria must be met to establish disability when the individual does not qualify according to Section 14.9.1.F.1.
14.9.1.F.3 Definition of Physician's Statement

The term “physician's statement” means a medical report from a licensed medical professional, including, but not limited to:

- Physicians;
- Surgeons;
- Doctors of Osteopathy;
- Chiropractors;
- Licensed or certified Psychologist; and
- Nurse Practitioners.

Content of the Physician's Statement

Generally, the statement must contain enough information to allow the Worker to determine if the client is disabled. If the physician makes a definite statement that the client is permanently and totally disabled, no further information is needed. Usually, however, the physician describes the situation, and the Worker must make the determination. In these situations, the statement must contain:

- The type of condition, including the diagnosis if known;
- Any unusual limitations the condition imposes on the client's lifestyle; and
- The length of time the condition is expected to last. This is required only to set a control for reevaluation; there is no durational requirement for which the condition must exist or be expected to exist.

Making the Determination

Once the necessary information is received, the Worker makes the determination based on the following guidelines:

- If the condition is one listed in Appendix C of Chapter 13 as a guideline for presumptively approving an Aid to Families with Dependent Children (AFDC) Medicaid or AFDC-Related Medicaid case, disability is established. No durational time limits are imposed.
- Any other condition must impose limitations on the client's normal way of life. For example, a case of hypertension, requiring only a special diet and daily medication, does not substantially alter an individual's way of life, since eating is part of his daily routine, and taking medication does not significantly interrupt normal activities. However, a
diagnosis of hypertension requiring daily medication, special diet, frequent rest periods and avoidance of stress substantially limits a normal lifestyle.

Establishing Incapacity

The definition of incapacity and the procedures for making the determination found in Section 13.4 apply here.
14.10 EFFECT OF WV WORKS SANCTION ON SNAP BENEFITS

A WV WORKS sanction may result in application of a Supplemental Nutrition Assistance Program (SNAP) penalty when the WV WORKS sanction results from failure to comply with a requirement related to an activity which is listed in Sections 18.10 - 18.18.

Even though the WV WORKS benefit closes due to the sanction, SNAP benefits must not increase. See Section 4.4.4.H.2. This applies even when a SNAP penalty is also imposed. See Section 4.4.4.H.1 for the treatment of income for disqualified individuals.

WV WORKS sanctions are applied to all Work-Eligible members of a WV WORKS case, not just to the participant who causes the sanction to be imposed. However, only the participant who causes the WV WORKS sanction to be imposed may be subject to a SNAP penalty.

14.10.1 SNAP PENALTY

The appropriate SNAP penalties found in Section 14.5 are applied to a WV WORKS participant when:

- The participant is exempt from SNAP work requirements only because he is subject to and complying with a WV WORKS work requirement (i.e., if he did not receive WV WORKS, he would be subject to SNAP work requirements); and
- The participant failed to comply with a requirement related to an activity which is listed in Sections 18.10 - 18.18.
- Once the SNAP penalty begins, the full SNAP penalty period must be served, even if the WV WORKS benefit is closed. The penalty is only lifted if:
  - The participant is receiving WV WORKS and becomes exempt from WV WORKS work requirements; or
  - The participant meets one of the exemptions listed in Section 14.2.1.B, except for receipt of WV WORKS.

NOTE: The non-recipient Work-Eligible Individual who fails to comply with a requirement related to an activity which is listed in Sections 18.10 – 18.18 and who is subject to a WV WORKS sanction is not subject to a SNAP penalty when they are not included in the SNAP assistance group (AG).
14.10.2 SNAP PENALTY EXAMPLES

Example 1: A SNAP AG consists of: Mr. Hollyhock, his two children (ages three and four), Mr. Hollyhock’s brother and sister-in-law and their newborn child. Mr. Hollyhock receives a WV WORKS benefit and must meet the WV WORKS work requirements, unless temporarily exempt. The brother and sister-in-law do not receive WV WORKS and must meet the SNAP work requirements. The brother is 17 years old and just graduated from high school. At the last redetermination, the brother was exempted from the SNAP work requirement due to high school attendance. The sister-in-law, who is on extended maternity leave from her employment, is planning to return to work in three months. In October, Mr. Hollyhock and his brother are both offered jobs at the same work site. The work is manual labor and pays minimum wage. Both Mr. Hollyhock and his brother are able to perform the work, but they believe they can find better jobs; both refuse the employment. The Worker determines that neither had good cause for the refusal and applies the following penalties:

For Mr. Hollyhock: A sanction is imposed for WV WORKS and the benefit is closed. The amount of his previous WV WORKS benefit is counted as income for SNAP purposes. A SNAP penalty is not imposed because Mr. Hollyhock is responsible for the care of a child under age six. If he received SNAP only, he would be exempt from SNAP work requirements.

For the brother: No SNAP penalty is applied for the brother’s offense because he was exempt at the last redetermination and is not subject to the SNAP work requirements until the next redetermination.

Example 2: Ms. Aster receives a WV WORKS benefit for herself and her three children, ages 15, 12 and 7. She refuses without good cause to pursue child support for her last child and her WV WORKS case is sanctioned. Even though cooperation with the Bureau for Child Support Enforcement (BCSE) is a Personal Responsibility Contract (PRC) requirement, it is not a work-related requirement. Therefore, a SNAP penalty is not applied for this offense.

Example 3: Continuation of example above. After the first WV WORKS sanction has been applied, Ms. Aster fails to participate in her Community Work Experience Program (CWEP) assignment with no reason given. The Case Manager determines that she did not have good cause and applies a second WV WORKS sanction. Because this is a WV WORKS work requirement, a SNAP penalty is applied. Ms. Aster continues in her second WV WORKS sanction and her first SNAP penalty is applied.
Example 4: Ms. Carnation received SNAP for several years before starting to receive WV WORKS. One SNAP penalty was imposed and ended before the WV WORKS benefit started. After becoming a WV WORKS participant, Ms. Carnation is sanctioned for failure to have her 18-month-old child immunized without good cause. Since this is not a work-related activity, no SNAP penalty is applied, but she still has one WV WORKS sanction and one SNAP penalty. A year later, a second WV WORKS sanction is imposed due to failure without good cause to maintain her part-time job of ten hours per week. No SNAP penalty is imposed because she has a child under age six and is exempt from SNAP work requirements for that reason.

Example 5: Ms. Geranium and her three children begin receiving WV WORKS after receiving SNAP for several years; at that time they have already had two SNAP penalties applied. The children in the home are ages 13, 15 and 17. Ms. Geranium accepts part-time employment, but continues to receive a monthly WV WORKS benefit. Three months later, she quits her job and the Case Manager determines she did not have good cause. The first WV WORKS sanction is applied and this results in application of the third SNAP penalty because Ms. Geranium would not be exempt from SNAP work requirements if she received SNAP only.

Example 6: Mr. Tulip, a father who is a fleeing felon, is a non-recipient Work-Eligible Individual for WV WORKS. He receives a WV WORKS sanction for failure to participate in his CWEP assignment without good cause. Even though this is a WV WORKS work requirement, a SNAP penalty is not imposed because Mr. Tulip is not included in the SNAP AG. Mrs. Tulip returns to the household and is assigned the same number of WV WORKS sanctions as Mr. Tulip. Since Mrs. Tulip did not cause the WV WORKS sanction, no SNAP penalty is applied to the Mrs. Tulip.
14.11 EFFECT OF WV WORKS SANCTION ON MEDICAID

A WV WORKS sanction or ineligibility has no bearing on Medicaid eligibility, under any coverage group.

15.1 DEFINITIONS

ADMISSION NUMBER
An 11-digit number assigned to a noncitizen when he enters the United States (U.S.). This number is frequently found on the Arrival-Departure Record (Form I-94) and should not be confused with the Noncitizen Registration Number (A-Number) defined below.

ALIEN
Any person who is not a citizen or national of the U.S.; also referred to as a noncitizen.

ALIEN REGISTRATION NUMBER OR UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES NUMBER (USCIS/A-NUMBER)
A seven or eight-digit number assigned to a noncitizen at the time his Alien File is created.

ALIEN REGISTRATION RECEIPT CARD
An Immigration and Naturalization Service (INS) document that certifies lawful permanent resident status, commonly called a Green Card; older versions may be green, blue/white, salmon, or pink. It carries the INS form number I-151 or I-551.

ALIEN STATUS VERIFICATION INDEX (ASVI)
A database designed for the use of entitlement benefit agencies in verifying noncitizen immigration status in accordance with the Immigration Reform and Control Act of 1986 (IRCA).

AMERASIAN (VIETNAM)
Children born in Vietnam to Vietnamese mothers and American fathers and are admitted to the U.S. under P.L. 100-202 as immigrants, but are entitled to the same social services and assistance benefits as refugees. Spouses, children, and parents or guardians may accompany the noncitizen to the U.S.

ASYLEE
A noncitizen already in the U.S. or at a port of entry who is granted asylum in the U.S. Asylum may be granted to those persons who are unable or unwilling to return to their countries of nationality, or to seek the protection of those countries, because of persecution or a well-founded fear of persecution. This status is covered by Section 208 of the Immigration and Nationality Act of 1952 (INA).

See REFUGEE, which explains the difference between asylum and refuge in the U.S.

CENTRAL INDEX SYSTEM (CIS)
An automated system containing information on noncitizens. The CIS, from which ASVI is extracted, is the INS’ most complete database of information on noncitizens in the U.S.
CERTIFICATE OF CITIZENSHIP
An identity document proving U.S. citizenship.

CERTIFICATE OF NATURALIZATION
An identity document proving U.S. citizenship.

CHANGE OF NONIMMIGRANT STATUS
The action of changing a nonimmigrant's classification (e.g., from visitor to student).

CITIZEN
A person born in a country or who has become a naturalized citizen of that country.

CONDITIONAL ENTRANT
A refugee.

CONDITIONAL PERMANENT RESIDENT
A conditional permanent resident receives a Permanent Resident Card valid for two years. In order to remain a permanent resident, a conditional permanent resident must file a petition to remove the condition during the 90 days before the card expires. The conditional card cannot be renewed. The conditions must be removed or permanent resident status will be lost.

CONDITIONAL RESIDENT NONCITIZEN
A noncitizen granted conditional resident status based on marriage to a U.S. citizen or national, or a permanent resident noncitizen; conditional status is removed after two years if INS rules favorably on a petition by the noncitizen for retention of lawful permanent residence. (The noncitizen's children, under the age of 18, can also be granted this status.) During the pendency of any such petition not adjudicated by the end of the two years, the noncitizen can present his I-551 and an INS receipt for the filed petition as proof of work authorization.

CUBAN/HAITIAN ENTRANT
The status afforded to (a) Cubans who entered the U.S. illegally between April 15, 1980, and October 10, 1980, and to (b) Haitians who entered the country illegally before January 1, 1981. This status is covered by Section 520(e) of Public Law 96-422.

DOCUMENT VERIFICATION REQUEST (FORM G-845)
A form designed for use by entitlement benefit agencies to request secondary verification of noncitizen status from INS under the Immigration Reform and Control Act of 1986. This is used by the Systematic Alien Verification for Entitlement (SAVE) Coordinator for such requests to INS.
DOCUMENT NONCITIZEN
A noncitizen in the U.S. who is in possession of valid documents. See Section 15.2.3 for examples of valid documents.

ELIGIBLE LEGALIZED ALIEN (ELA)
A noncitizen who has been granted lawful temporary resident status under Section 245A or Section 210 of the Immigration Reform and Control Act (IRCA) of 1986 and who may apply for permanent resident noncitizen status.

ENGLISH AS A SECOND LANGUAGE (ESL) OR ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)
The use or study of English by speakers with different native languages.

FAMILY UNIT
Provides protection from deportation and eligibility for employment authorization to the spouses and children of noncitizens who were legalized under the IRCA.

GREEN CARD
A slang term describing the Permanent Resident Card (Form I-151 or Form I-551). Many versions of these forms are not green in color.

ILLEGAL NONCITIZEN
A foreign national who either entered the U.S. without inspection, entered with fraudulent documentation, or who, after entering legally as a nonimmigrant, violated status and remained in the U.S. without authorization. See the definition for undocumented noncitizen, which is one type of illegal noncitizen.

IMMIGRANT
A noncitizen who has been lawfully afforded the privilege of residing permanently in the U.S. with the right to eventually obtain citizenship. This status allows authorization for work and entitlement benefits. See the definitions for lawful permanent resident noncitizen and permanent resident noncitizen, which are terms used interchangeably with immigrant.

IMMIGRATION AND NATURALIZATION SERVICE (INS)
The federal agency under the Department of Homeland Security that administers immigration law.

IMMIGRATION STATUS
The legal status conferred on a noncitizen by immigration laws.
IMMIGRATION STATUS VERIFIER (ISV)
An INS employee who performs secondary verification duties at the local File Control Offices.

INELIGIBLE NONCITIZEN
See nonimmigrant. Exceptions are made for pregnant women and children 18 and under for Medicaid and the West Virginia Children's Health Insurance Program (WVCHIP); see Section 15.7.5.

LAWFUL PERMANENT RESIDENT ALIEN (LPRA)
A noncitizen who has been lawfully afforded the privilege of residing permanently in the U.S. See the definitions for IMMIGRANT and PERMANENT RESIDENT NONCITIZEN, which are terms used interchangeably with this term.

LAWFULLY PRESENT
For Medicaid and WVCHIP, a noncitizen who has been legally permitted to enter the U.S. and meets the state residency requirements in Section 2.2. See Section 15.7.5 for an inclusive list of lawfully present individuals.

NATIONAL OF THE U.S.
A citizen of the U.S. or an individual who, though not a citizen of the U.S., owes permanent allegiance to the U.S.

NATIONALITY
The state or country to which a person has legal allegiance. Note that the country of birth does not necessarily correspond to the nationality.

NATURALIZATION
The legal act of becoming a citizen, other than birth. A resident noncitizen married to a U.S.-born citizen must hold permanent resident noncitizen status for three years before petitioning for naturalization. Also, others must hold permanent resident status for five years before petitioning for naturalization.

NONCITIZEN
Any person who is not a citizen or national of the U.S.; also referred to as an alien.

NONIMMIGRANT
A noncitizen who is permitted to enter the U.S. for a specific purpose and for a limited period of time. Examples include tourists, students, and business visitors.
Chapter 15

Noncitizens, Refugees, and Citizenship

PAROLEE
A noncitizen who appears to be inadmissible to the inspecting officer, but who is permitted to enter the U.S. under emergency conditions or because that noncitizen's entry is determined to be in the public interest. Although parolees are required to leave when the conditions supporting their parole cease to exist, they may sometimes adjust immigration status.

PASSPORT
Any travel document issued by a competent authority showing the bearer's origin, identity, and nationality, if any, which is valid for the entry of the bearer into a foreign country.

PERMANENT RESIDENT NONCITIZEN
A person who enters the country with an immigrant visa or adjusts his status after entering as a nonimmigrant, refugee, or asylee. Persons with this status are entitled to live and work in the U.S. and collect entitlement benefits, if qualified. See the definitions for immigrant and lawful permanent resident noncitizen, which are terms used interchangeably with this term.

PRIMARY VERIFICATION
A query to validate noncitizen documentation using the ASVI system.

REFUGEE
Any person who is outside his country of nationality and who is unable or unwilling to return to that country because of persecution or a well-founded fear of persecution. Unlike asylees, refugees apply for and receive this status prior to entry into the U.S.

REPLENISHMENT AGRICULTURAL WORKER (RAW)
Any noncitizen who is granted temporary or permanent resident status under Section 210A(c) of the Immigration and Nationality Act, as amended by IRCA, based on prior agricultural employment within the U.S. The RAW program was implemented during a fiscal year from 1990 – 1993 only upon announcement by the Secretaries of Agriculture and Labor of a shortage of agricultural workers in the U.S. for that fiscal year.

SECONDARY VERIFICATION
A request to validate noncitizen documentation, after or in lieu of primary verification, using Form G-845. Secondary verification is performed by the ISV using various automated or manual sources. This is completed by the Division of Family Assistance (DFA) Systematic Alien Verification for Entitlement (SAVE) Coordinator.

SEVERE VICTIM OF TRAFFICKING AND VIOLENCE
An individual who has been used in severe forms of trafficking in persons. For example, sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the
person induced to perform such act has not attained 18 years of age; or the recruitment, harboring, transportation, provisions, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjecting to involuntary servitude, peonage, debt bondage, or slavery.

SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENT (SAVE)
An automated or manual information-sharing program whereby state agencies may verify the immigration status of noncitizen applicants for entitlement benefits. This verification is completed by the SAVE Coordinator upon request from the Worker.

TEMPORARY LAWFUL RESIDENT NONCITIZEN
A noncitizen granted a one-year period of lawful resident status based on his qualifications under the legalization or Special Agricultural Worker (SAW) programs. The temporary status may be removed after one year, when INS rules favorably or unfavorably on granting permanent lawful resident status to the noncitizen.

UNDOCUMENTED NONCITIZEN
A noncitizen in the U.S. without proper documentation. He is in violation of U.S. immigration law. (See also the definition for illegal noncitizen for a broader explanation of unauthorized noncitizens in the U.S.).

UNITED STATES
Defined in a geographical sense as the continental U.S., Alaska, Hawaii, Puerto Rico, Guam, U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands.
15.2 IMMIGRATION DOCUMENTS

15.2.1 INTRODUCTION

To determine eligibility for federal programs, the Worker must identify the noncitizen's immigration status based on information contained in immigration documents and then match that information to noncitizen eligibility guidelines. See Section 15.7.

Immigration documents should include the individual's name, date of birth, and a reference to the individual's noncitizen registration number (A-Number), which is assigned by the Immigration and Nationalization Service (INS).

Noncitizens age 18 years or older must have immigration documentation in their possession at all times. Noncitizens without documentation should be referred to the local INS office located in Pittsburgh, Pennsylvania, to request replacement documentation.

15.2.2 EXAMINING INS DOCUMENTS

All noncitizen applicants for benefits must present original documentation of noncitizen registration. A copy of the documentation must be kept in the case record. These documents should show the A-Number of the noncitizen, except for Form I-94, which does not always include an A-Number. Some forms, as noted, have expiration dates. These dates should be checked during initial viewing of the documentation.

15.2.2.A Sources of Verification of Noncitizen Status

Immigration documentation includes, but is not limited to, the following forms.

Samples for most of these documents with background information and coding keys for documents I-94, I-551, I-151, and I-688B are found in Section 15.2.3.
Some INS documentation does not contain a photograph of the bearer. When such documentation is presented, the Worker should ask for an additional identification document that includes a photograph, such as a driver's license or an employee's badge.

**NOTE:** An asterisk (*) indicates documentation for qualified noncitizens.

15.2.2.B Methods of Documenting U.S. Citizenship

The following documents may be used to verify U.S. citizenship of applicants when their noncitizen status is questionable:

- Birth certificate.
- Religious document, such as a baptismal record, recorded within three months of age and showing that the ceremony took place in the U.S. or its territories. The document must show either the date of birth or the individual’s age at the time the record was made.
- U.S. passports; limited passports that are issued for periods of less than five years are not acceptable.
- Form FS-240, Report of Birth Abroad of a Citizen of the U.S.
- Form FS-545, Certificate of Birth.
- I-197, U.S. Citizen I.D. Card.
- N-550 or N-0570, Naturalization Certificate.
- N-560 or N-561, Certificate of Citizenship.
- Northern Mariana Identification Card issued by INS to a collectively naturalized citizen of the United States (U.S.) who was born in the Mariana Islands before November 3, 1996.
- Current hospital record of birth in one of the 50 states, the District of Columbia, or Puerto Rico, on or after January 13, 1941; Guam, on or after April 10, 1899; the U.S. Virgin Islands, on or after January 17, 1917; American Samoa, Swains Island, or the Northern Mariana Islands, unless the person was born to foreign diplomats residing in such a jurisdiction.

NOTE: See Section 7.4 for additional information regarding the requirements for documentary evidence of citizenship and identity for Medicaid.
15.2.3 EXAMPLES OF IMMIGRATION DOCUMENTS, SOURCES OF VERIFICATION OF NONCITIZEN STATUS

15.2.3.A I-94 Arrival/Departure Record

Issued by INS to certain classes of noncitizens and nonimmigrant noncitizens. The I-94 does not include an A-Number and will not contain a photograph. The expiration date is noted on the Form I-94.

![I-94 Form Image]

Warning: A nonimmigrant who accepts unauthorized employment is subject to deportation.

Important: Retain this permit in your possession; you must surrender it when you leave the U.S. Failure to do so may delay your entry into the U.S. in the future.

You are authorized to stay in the U.S. only until the date written on this form. To remain past this date, without permission from Department of Homeland Security authorities, is a violation of the law.

Sample:
- By air or sea, to the transportation line.
- Across the Canadian border, as a Canadian Official.
- Across the Mexican border, to a U.S. Official.

Students planning to reenter the U.S. within 30 days to return to the same school, see “Arrival/Depart” on page 2 of Form I-103 prior to surrendering this permit.

Record of Changes

Part: Departure Record
Date: 
Carrier: 
Flight # / Ship Name: 

CZ-2150 (505)
15.2.3.B  I-94 W

15.2.3.C  I-134 Affidavit of Support

When a noncitizen applies for an immigrant visa, sometimes he needs a sponsor to submit an affidavit promising to financially assist the noncitizen should it be necessary. Whether a noncitizen has a sponsor is relevant for public benefit eligibility because the income of the sponsor may be “deemed” to the noncitizen when applying for certain federal programs.
Chapter 15

Noncitizens, Refugees, and Citizenship
15.2.3.D  I-151 Alien Registration Receipt Card

Issued in the past by INS to lawful permanent resident noncitizens, this card is no longer issued and is no longer considered a valid verification document. INS is conducting a program to replace Form I-151 with the more recent Permanent Resident Card, Form I-551. This program was extended to March 20, 1996. INS will continue to honor the I-151 cards in order to avoid confusion over employment rights and entitlement benefits, such as the Supplemental Nutrition Assistance Program (SNAP), for those lawful permanent residents who either have not yet applied for the new card or are awaiting receipt of the document. INS requests that workers urge noncitizen recipients to apply for the new I-551 Permanent Resident Card as soon as possible. Individuals seeking to replace their Permanent Resident Cards may be referred to the INS toll-free number, (800) 755-0777, for information on how and where to apply for the new card.

15.2.3.E  I-210 Voluntary Departure

"Voluntary Departure" is a status that allows a noncitizen to remain in the U.S. for either a specific or an indefinite period of time. The period of time given for voluntary departure varies. Voluntary departure can be granted by the INS before deportation proceedings have begun or by an Immigration Judge during deportation proceedings. A person who has been granted voluntary departure may be eligible for employment authorization.
15.2.3.F I-512 Parole Authorization

Noncitizens who are not eligible for a visa or for refugee status can be paroled into the U.S. for emergent or compelling reasons in the public interest. There are special parole procedures for Cubans paroled into the U.S. and those who have applied for lawful permanent resident (LPR) or another immigration status. They can apply for advance parole, if they must leave the U.S. If there was an application for advance parole before leaving the country, and the individual received it, then that will allow them to reenter the U.S. from short trips abroad. Persons granted parole status shall indicate why they were granted parole.

The card looks similar to the current Employment Authorization Document (EAD) but will include text that reads, "Serves as I-512 Advance Parole." A card with this text will serve as both an employment authorization and Advance Parole document.
15.2.3.G  I-197 U.S. Citizen Identification Card

Issued by INS to U.S. citizens. Although INS no longer issues this card, it is valid indefinitely.
15.2.3.H  I-179 Identification Card for Use of Resident Citizen in the U.S.

Issued by INS to U.S. citizens who are residents of the U.S. Although INS no longer issues this card, it is valid indefinitely.

15.2.3.I  I-221S Order to Show Cause

An Order to Show Cause (OSC) is a document that begins formal deportation proceedings. Anyone who has been issued an OSC can be taken into INS custody or released either on his own recognizance or after posting a bond. Information regarding the terms of release will be attached to the OSC. Noncitizens released from INS custody must attend their immigration hearings or they will be ordered deported.
## ORDER TO SHOW CAUSE AND NOTICE OF HEARING

**ORDEN DE PRESENTAR MOTIVOS JUSTIFICANTES Y AVISO DE AUDIENCIA**

In Deportation Proceedings under sections 242 of the Immigration and Nationality Act.

Chapter 15
Page 19
15.2.3.J  I-327 Reentry Permit

This document is given to an LPR who will be traveling outside of the U.S. for an extended period of time. It is given to the LPR prior to departure to facilitate reentry into the U.S.
15.2.3.K  I-551 Permanent Resident Card

This card is proof of LPR status. It is commonly called a Green Card, even though some cards are different colors. Until recently, these cards had no expiration date, but cards being issued currently expire 10 years after the date they are issued. At the end of the 10 years, the LPR does not lose his status, but must simply renew the card. Conditional permanent residents are issued cards that are coded “CR” and expire after two years. All I-551 cards contain codes showing how the noncitizen obtained LPR status—whether through work skills or as the relative of a U.S. citizen. Some codes are important in determining whether the noncitizen is eligible for public benefits. Noncitizens who legalized under the general amnesty program have codes W16, W26, or W36 on their cards. Noncitizens who legalized under the Special Agricultural Worker (SAW) program are issued cards containing codes S16 or S26. These codes indicate that the noncitizen may be disqualified for five years from receiving certain federal benefits.

[Images of Permanent Resident Card]

15.2.3.K.5  Revised May 1, 2017

[Images of Permanent Resident Card]
15.2.3.K.6 How to Read an Amnesty Alien’s I-551

The Immigration Reform and Control Act of 1986 (IRCA) created two amnesty programs to enable undocumented noncitizens to legalize their status. The Section 245A program legalized noncitizens unlawfully in the U.S. prior to January 1, 1982. The Section 210 program, also called the SAW program, legalized certain farm workers. Noncitizens who legalize their status under IRCA are issued I-551 cards after final adjustment to LPR status.

Ordinarily, the I-551 issued to amnesty noncitizens was a pinkish color and had no expiration date (the “old card” example below.) The INS then began issuing a salmon-colored I-551 with the person’s name, date of birth, alien number, and an expiration date. The salmon card expires 10 years after it is issued. After 10 years, the person does not automatically lose his status; instead, he must simply renew the card.

- “TEMP RES ADJ DATE” – month, day, and year when the person became a temporary resident (date on the example is November 16, 1876.) This is backdated to the date the alien filed for temporary residency. Add five years to calculate when the disqualification for receipt of certain benefits ends.
  
  If there is not TEMP RES ADJ DATE line, the person did not get LPR status through amnesty.

- Code that tells whether the legal status came under the 245A or the 210 SAW program.
  
  245A – codes W16, W26, or W36

  210/SAWs – code S16 or S26.

- Data adjusted to LPR status.
  

  On old card: month, day, year (in example: February 18, 1989).

  Use this date to calculate when the person will be eligible for naturalization.

  An LPR is eligible for naturalization five years after being granted LPR status (three years if married to a U.S. citizen.) For §245A amnesty aliens, this date is calculated from the date the alien applied for permanent resident status. For SAWs, it dates from either December 1, 1989, or December 1, 1990. The application for naturalization can be submitted three months before the five-year (or three-year) period expires.
15.2.3.K.7 I-551 Stamp in Foreign Passport

When a noncitizen is first admitted to the U.S. as an LPR, his passport is stamped with temporary proof of LPR status. This stamp will have an expiration date. This is proof of admission as a lawful permanent resident.

15.2.3.L I-571 Unexpired Refugee Travel Document

Issued by INS to noncitizens who have been granted refugee status. The expiration date is stated on page four.
### 15.2.3.M I-688 Temporary Resident Card

Issued by INS to noncitizens granted temporary resident status under the Legalization or SAW program. It is valid until the expiration date stated on the face of the card or on the sticker(s) placed on the back of the card.

![I-688 Temporary Resident Card](image)

### 15.2.3.N I-688A Employment Authorization Card

Issued by INS to applicants for temporary resident status after their interview for Legalization or SAW status. It is valid until the expiration date stated on the face of the card or on the sticker(s) placed on the back of the card.

![I-688A Employment Authorization Card](image)
15.2.3.O I-688 B Employment Authorization Card

Issued by INS to noncitizens granted temporary employment authorization in the U.S. The expiration date is noted on the face of the card.

15.2.3.P I-797 Family Unity Approval Notice

Amnesty noncitizens’ spouses and children who have been in the U.S. since before May 5, 1988, may be eligible for Family Unity. Noncitizens granted Family Unity will receive an I-797. Family Unity recipients can use the I-797 to apply for an I-688 B, employment authorization document.
15.2.3.Q N-560 or N-561 Certificate of U.S. Citizenship

Issued by INS to individuals who:

- Derived citizenship through parental naturalization; or
- Acquired citizenship at birth abroad through a U.S. parent or parent; or
- Acquired citizenship through application by U.S. citizen adoptive parent(s); and
- Pursuant to Section 341 of the Act, have applied for a certificate of citizenship.
15.2.3.R  
**N-550 or N-570 Certificate of Naturalization**

Issued by INS to naturalized U.S. citizens.
15.2.3.S Decision Granting Asylum

Both the INS and the judges of the Executive Office of Immigration Review, where deportation cases are heard, can grant asylum to an individual fleeing persecution. Below are examples of documents issued to noncitizens granted asylum. Not all documents are the same.

**UNITED STATES DEPARTMENT OF JUSTICE**
**EXECUTIVE OFFICE FOR IMMIGRATION REVIEW**
**OFFICE OF THE IMMIGRATION JUDGE**
Los Angeles, California

In the Matter of
Fulgencio F.

Respondent

IN DEPORTATION PROCEEDINGS

Order of the
Immigration Judge

This matter having been initiated by the Immigration & Naturalization Service upon the filing of an Order to Show Cause, and the Respondent having been found to be subject to deportation on the charge(s) set forth therein; and the Respondent having made application for relief from deportation under Sections 208(a) and 243(h) of the Immigration and Nationality Act; and a hearing having been held on said applications, and the Court being fully informed of the facts, and having made an oral decision at the conclusion of the hearing setting forth the basis upon which the Respondent is found QUALIFIED for the relief sought; therefore, upon this order being final,

IT IS ORDERED that the Respondent’s application for relief from deportation under Sections 208(a) and 243(h) OF THE Immigration and Nationality Act be and is hereby GRANTED, and

IT IS FURTHER ORDERED that deportation proceedings against the Respondent be TERMINATED.

Appeal Waived Reserved

Date: 3/27/91

ROY J. DANIEL
Immigration Judge

A copy of this Order has been served upon the Respondent and the Immigration Service.
A noncitizen in deportation proceedings who has been in the U.S. at least seven years, and can prove good moral character and extreme hardship, can be granted suspension of deportation and lawful permanent resident status. The documents used by immigration judges to grant suspension of deportation vary. An example is shown below.
In the matter of: Maria Guadalupe

Respondent

File: A 29-259-000

In Deportation Proceedings

SUMMARY OF THE ORAL DECISION AND ORDER OF THE IMMIGRATION JUDGE

This is a summary of the oral decision entered on 10/27/91.

If the proceedings should be appealed, the Oral Decision and Order will be transcribed and will become the official decision in this matter.

____ Respondent’s application for voluntary departure was denied and he/she was ordered deported to ________________ or ____________________.

____ Respondent’s application for voluntary departure was granted to ________________, with an alternate order of deportation to ________________ or ____________________.

____ Respondent’s application for asylum/withholding of deportation was granted denied.

____ Respondent’s application for section 212(c) waiver was granted denied.

____ Respondent’s application for ________________ was granted denied.

____ Proceedings were terminated.

____ Other:

____ Service/Respondent waived appeal.

____ Service/Respondent reserved appeal until ____________________.

ORDER: It is ordered that if an appeal is filed, the decision is to be implemented by the District Director of the Immigration & Naturalization Service.

10/27/91

Date

Nathan W. Gordon

Immigration Judge
15.3 CITIZENSHIP AND NONCITIZENS

15.3.1 INTRODUCTION

All noncitizens are subject to immigration laws that regulate their entry and set the conditions of their stay. There are various immigration documents that might be carried by a noncitizen who is legally in the United States (U.S.), and all noncitizens lawfully in the U.S. should have some kind of immigration document.

The first step in determining eligibility for federal benefits is the identification of the noncitizen's immigration status. Then, other considerations relevant to their specific situations have to be taken into account; if it appears that a noncitizen qualifies for a particular federal program, it should be insured that receipt of that benefit will not affect that person's immigration status.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (P.L. 104-193) significantly changed federal means-tested public benefit eligibility for individuals who are not citizens of the U.S. Federal means-tested public benefits must be provided to eligible citizens or nationals of the U.S. Individuals who meet the eligibility requirements for these benefits but who are not citizens or nationals of the U.S. are eligible only as provided in Section 15.7. Those noncitizens must also meet documentation and verification requirements as required.

15.3.2 DESCRIPTION OF IMMIGRATION CATEGORIES

15.3.2.A U.S. Citizenship

When determining U.S. citizenship, the U.S. is defined as it is in the Immigration and Nationality Act (INA). It includes the 50 states, the District of Columbia, Puerto Rico, Guam, U.S. Virgin

NOTE: See Section 7.4 for additional information regarding the requirements for documentary evidence of citizenship and identity for Medicaid.
Islands, and the Northern Mariana Islands. Nationals from American Samoa or Swains Island are also regarded as U.S. citizens.

15.3.2.B Noncitizens

Eligibility for noncitizens is based on whether the noncitizen is a qualified or non-qualified noncitizen, regardless of whether the noncitizen entered the U.S. on or after August 22, 1996 (the date of enactment of P.L. 104-193). The previous categories of lawful permanent residents and noncitizens with Permanent Residence Under Color of Law (PRUCOL) no longer apply.

The term “qualified noncitizen” includes noncitizens who are lawfully admitted for permanent residence in the U.S. under the INA, and certain refugees; asylees; individuals whose deportation has been withheld; Cuban or Haitian Entrants; and Amerasian immigrants. It also includes certain noncitizens who have been paroled into the U.S. or who have been granted conditional entry, and battered persons. See Section 15.7 for extended definition.

15.3.2.C American Indian Born in Canada

An American Indian born in Canada may freely enter and reside in the U.S. and is considered to be lawfully admitted for permanent residence if he is of at least one-half American Indian blood. As such he is a qualified noncitizen. This does not include a spouse or child of such an American Indian nor a noncitizen whose membership in an American Indian tribe or family is created by adoption, unless such person is of at least 50% or more American Indian blood. See Section 15.7.5, Medicaid.

The following documents can be used for proof of an American Indian bloodline:

- Birth or baptismal certificate issued on a reservation
- Tribal records
- Letter from the Canadian Department of Indian Affairs
- School records
15.4 SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENT (SAVE) AND 40 QUALIFYING QUARTERS OF COVERAGE

15.4.1 SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENT (SAVE)

At the time of application, all individuals who apply for benefits are required to declare in writing whether they are citizens or nationals of the United States (U.S) or noncitizens. This is accomplished by the completion of the Declaration of Citizenship/Noncitizen.

NOTE: If the applicant satisfies the eligibility requirements for the benefits requested, and if the applicant provides documentation of his status as a qualified noncitizen and completes the written declaration—under penalty of perjury—that he is a qualified noncitizen, the applicant’s eligibility for benefits must not be delayed, denied, reduced, or terminated under the program on the basis of the applicant's immigration status during the period of time it takes to verify his immigration status through the SAVE verification request to the Division of Family Assistance (DFA).

If the applicant is a noncitizen, he must present original documentation of noncitizen registration. Noncitizens without documentation must be referred to the Immigration and Naturalization Service (INS) Office in Pittsburgh, Pennsylvania.

NOTE: Acceptable verification may consist of the applicant or DFA submitting a request to a federal agency for verification of information, which bears on the status of the noncitizen. The individual must be certified pending the results of the investigation for up to six months from the date of the original request for verification.

15.4.1.A Determining Noncitizen Eligibility

The Worker should make every attempt to determine the client’s benefit eligibility prior to a request for noncitizen status verification.
15.4.1.B Verified Immigration Status

Immigration status must be verified for WV WORKS, the Supplemental Nutrition Assistance Program (SNAP), and Medicaid benefits. If any member of the household is a noncitizen, a copy of the front and back of the immigration identification documentation must be forwarded to the SAVE Coordinator.

The documentation is verified by the INS through automated or manual methods. All INS responses are sent to the requesting Worker with information regarding the noncitizen’s eligibility for benefits.

However, when the automated responses reads “Initiate Secondary Verification,” an email is sent to the Worker advising that an additional request has been sent for information.

When the response is received from SAVE, the information will be forwarded to the Worker.

15.4.2 40 QUALIFYING QUARTERS OF COVERAGE FOR SNAP

Only certain excepted classes of qualified noncitizens are eligible for SNAP. This exception includes noncitizens who are lawfully admitted to the U.S. for permanent residence and who have worked or can be credited with 40 Qualifying Quarters. Under certain conditions, the Qualifying Quarters of parents or spouses can be added to the noncitizen’s record to achieve the needed 40 Qualifying Quarters. Each noncitizen immigrant in the household is considered an applicant. Qualifying Quarters earned after December 31, 1996, cannot be counted if the noncitizen spouse or parent received certain federal means-tested public benefits during the period for which the Qualifying Quarters were credited.

NOTE: A Consent of Release of Information from Social Security Number (SSN) holders other than the applicant must be obtained.
15.4.2.A Determining the Number of Qualifying Quarters

15.4.2.A.1 Individuals Whose Qualifying Quarters Are Used

The Worker must determine which individuals with Social Security Numbers (SSNs) can be included in the Qualifying Quarters count. The following are individuals who may be included in the count of Qualifying Quarters, and the conditions under which their Qualifying Quarters are counted:

- The applicant
  Always use his Qualifying Quarters.

- The applicant's natural parents
  Unless the child was adopted by others, consider only quarters earned from the time of birth through the calendar quarter the applicant attains age 18.

- The applicant's adoptive parents
  Consider only quarters earned from time of birth through the calendar quarter the applicant attains age 18.

- The applicant's stepparent if the step relationship still exists
  Death of the stepparent does not terminate the relationship. Consider quarters earned only while the relationship was in existence and through the calendar quarter the applicant attains age 18.

  NOTE: The stepparent’s relationship to the child is based on the marital relationship to the child’s natural parent. If the martial relationship ends, other than by death, the step relationship ends and the stepparent’s Qualifying Quarters can no longer be counted.

- The applicant’s current spouse as long as the marriage exists
  Consider the spouses quarters earned only during the marriage. If the marriage ends in divorce, the applicant cannot use any quarters earned by the former spouse. If the only qualifying quarters were those of the former spouse, the noncitizen cannot use the quarters and may lose eligibility.

- The applicant’s former spouse(s), only if the marriage ended in death while still married
  Consider only the quarters earned during the marriage.
15.4.2.A.2 **Determination of 40 Qualifying Quarters**

The Worker must determine if it is possible for the applicant to meet the 40 Qualifying Quarters by using all applicable quarters for the applicant and each of the relevant individuals. Use the following process:

**Step 1:** Determine the number of years the applicant and each of the relevant individuals lived in the U.S., and add the number of years.

**Step 2:** If the total is less than 10 years, determine whether the applicant, his parents, or spouse ever commuted to work in the U.S. from another country before coming here to live, or if while a legal resident of the U.S., worked overseas for a U.S. company or in self-employment.

**Step 3:** If yes, determine the number of years and add to the total.

**Step 4:** If the total is at least 10 years, see Total Quarters for Relevant Individuals below. If the total is less than 10 years, the applicant does not meet the 40 Qualifying Quarters requirement.

15.4.2.B **Total Quarters for Relevant Individuals**

The Worker must determine how many years in the total are from each of the relevant individuals. Quarters can be used from more than one individual.

- Four quarters in each year can be credited from each individual. Credit the applicant’s own quarters first. If the applicant may meet or does in fact meet the 40 Qualifying Quarters exception by using his own and/or other relevant individuals’ Qualifying Quarters information, the Worker processes the case in the eligibility system and generates a 40 Qualifying Quarters data exchange. See Section 6.3.

- If the relevant individuals have possible Qualifying Quarters that can be used, see Requesting the Qualifying Quarters History below.

- If the applicant will not meet the 40 Qualifying Quarters, then verification of the appropriate information should be sent to the SAVE Coordinator. See Obtaining Consent of Release of Information below.

- If the process shows the applicant will not meet the 40 Qualifying Quarters, the applicant is ineligible.
15.4.2.C Requesting the 40 Qualifying Quarters History

When the applicant(s) is approved in the eligibility system, a 40 Qualifying Quarters data exchange is made.

- An automatic referral is made to the Social Security Administration (SSA) through the eligibility system.
- All responses are sent to the Worker with information regarding the noncitizen’s 40 Qualifying Quarters history.

15.4.2.D Obtaining Consent of Release of Information

- The Worker must obtain the Consent for Release of Information forms from individuals not in the assistance group (AG).
- To authorize release of Qualifying Quarters, when an individual refuses or cannot be located after reasonable efforts, only the pertinent quarters will be disclosed by the SSA. Therefore, a Request for Quarters of Coverage History Based on Relationship should be used to request this information.
- The completed form(s) must be forwarded to the SAVE Coordinator for verification with a cover memorandum.
  - The information is submitted to the SSA and all responses are sent to the Worker.

15.4.2.E Non-Covered Employment—Applicant Disabled

When an applicant does not meet the 40 Qualifying Quarters requirement with the SSA 40 Qualifying Quarters documentation and alleges he had additional work that is not included on the 40 Qualifying Quarters documentation, the following may be used to help establish the existence of earnings.

- Review the 40 Qualifying Quarters response with the applicant to determine if Qualifying Quarters are missing from the record.
- If Qualifying Quarters are not missing from the response, make a determination based on the information obtained.
If Qualifying Quarters are missing from the 40 Qualifying Quarters response, then obtain information from the individual for quarter of coverage determination. This information must be sent to the SAVE Coordinator for a determination.

15.4.2.F Information to Credit Qualifying Quarters

The following are examples that can be used to establish earnings. This information must be obtained from the applicant and sent to the SAVE Coordinator for a determination of covered/non-covered employment.

Questions to ask the applicant for documentation should include:

- Name and address of employer
- Date of employment
- Amount of earnings
- Type of business or self-employment
- Rate of pay
- Type of work performed
- Any evidentiary proof he has of employment/earnings

Documentation used to establish the earnings and the amount include the following:

- Form W-2 (Wage and tax statement) and W-2c (Statement of Corrected Income and Tax Amount)
- Employer-prepared earnings statement
- Statement of earnings signed by the custodian of the employer's records
- Internal Revenue Service (IRS) copy of the employee's tax return
- Timely filed tax return for a self-employed individual; be sure that the proof of filing, canceled check, money order, or copy of Schedule C bearing the IRS time stamp, indicates the return was filed within three years, three months, and 15 days after the year in which the self-employment income was derived
- Other evidence of self-employment that allows you to determine that a business did exist and that a profit was earned; comparison of bills, vouchers, and receipts are examples of evidence you may use to make a determination
- Pay envelopes, vouchers, and similar unsigned employer earnings statements to the employee, a state agency, or a federal agency
• Union records
• Individual’s copy of a federal or state tax return
• Records of state unemployment insurance agencies
• Individual’s personal records and statements
• Any other evidence of probative value

When the Worker establishes that non-covered earnings exist, send copies of documentation as described above to the SAVE Coordinator for a determination. Responses are forwarded to the requesting Worker.
15.5 SPONSORED NONCITIZENS

15.5.1 INTRODUCTION

The requirements for deeming income and assets do not apply to sponsors of immigrants who entered the United States (U.S.) before December 19, 1997.

Deeming of income and assets applies to immigrants with equally enforceable Affidavit of Support for sponsorship affidavits filed on or after December 19, 1997. All federal means-tested programs must count the income and resources of a noncitizen’s sponsor and that of the sponsor’s spouse in determining the noncitizen’s eligibility for WV WORKS, the Supplemental Nutrition Assistance Program (SNAP), and Medicaid. The sponsor’s/spoon’s spouse’s income and resources are considered to be available to the sponsored noncitizen in determining the sponsored noncitizen’s eligibility for these benefits.

NOTE: The sponsor is an individual, not an organization, institution, or group.

15.5.2 DEEMING THE SPONSOR’S INCOME AND ASSETS

The income and assets of the sponsor and his spouse are counted in their entirety and are considered available to the sponsored noncitizen in determining the sponsored noncitizen's eligibility for benefits. See Section 15.5.3.C for countable assets and income requirements of an ineligible sponsored noncitizen. No allowances are made for the needs of the sponsor, his spouse, the sponsor's family, or other sponsored noncitizen families. The sponsor's income and assets are counted in their entirety for all noncitizens sponsored by the specific sponsor. Deeming applies to all noncitizens sponsored by individuals.

Most noncitizens who are sponsored by an Affidavit of Support are not eligible for SNAP, Medicaid, and WV WORKS. Deeming ends when a noncitizen has 40 Qualifying Quarters of work. See Section 15.4.

- Deeming will apply for SNAP benefits purposes only to those who qualify under the military service provision.
• Medicaid and WV WORKS have no 40 Qualifying Quarters requirement, and deeming applies for WV WORKS. Deeming applies for Medicaid except for modified adjusted gross income (MAGI) groups.

**NOTE:** In Medicaid cases where the noncitizen is eligible by the MAGI methodology, no asset tests of any individual may be used.

After the five years, the income and assets of the sponsor, as well as the income and assets of the current spouse who is living with the sponsor, are deemed to the noncitizen to determine the noncitizen’s eligibility for benefits.

• Deeming the sponsor’s income usually makes the sponsored noncitizen ineligible for means-tested public benefits. The noncitizen is ineligible until all information needed to determine the income and assets of the sponsor and the sponsor’s spouse is provided.

• All other program eligibility requirements must be met.

### 15.5.3 EXCEPTIONS TO DEEMING

**15.5.3.A Battered Noncitizens/Noncitizens Subjected to Extreme Cruelty**

The phrase “battered or subjected to extreme cruelty” includes, but is not limited to, being the victim of any act or threatened act of violence, including any forceful detention, that results or threatens to result in physical or mental injury. Psychological or sexual abuse or exploitation, including rape, molestation, incest (if the victim is a minor), or forced prostitution are considered acts of violence.

• If the battered noncitizen lives in the same household as the batterer, there is no exemption.

• If the battered noncitizen is not living in the same household, there could be an exemption. Battered noncitizens and noncitizens whose child or parent has been battered may be exempt from the deeming provision. The exemption is for a 12-month period, provided that there is a substantial connection between the need for benefits and the battery.

• The sponsored noncitizen must provide documented proof that battery or extreme cruelty in the U.S. exists. Documented proof can include the following:
An applicant may submit his own affidavit, under penalty of perjury, that describes the circumstances of the abuse. The statement does not require notarization.

A petition filed with Immigration and Naturalization Service (INS) on behalf of the battered noncitizen.

A protection order issued against the abuser.

A record of criminal conviction of the abuser, with whom the applicant was living, for committing an act of violence against the applicant, or his child or family member with whom they were living.

Reports or affidavits from police, judges, and other court officials; medical personnel; school officials; clergy; social workers; counselling or mental health personnel; and other social service personnel.

Sworn affidavits from third parties who have personal knowledge of the battery or cruelty.

The sponsored noncitizen must provide documented proof of non-residency with the batterer. Relevant credible evidence supporting the claim of non-residency can include, but is not limited to, the following:

A civil protection order requiring the batterer to stay away from the applicant or the applicant's children or parent, or evicting the batterer from the applicant's residence.

Employment records, utility receipts, school records, hospital or medical records, rental records, or records from a building or property manager.

An affidavit from a staff member at a shelter for battered women or homeless persons, family members, friends, or other third parties with personal knowledge, or from the battered applicant.

Any other records establishing that the applicant or the applicant’s child or parent no longer resides with the abusive spouse, parent, or family member.

The applicant must meet the requirements for qualified noncitizen status by appropriate immigration documentation for which they are applying, and all other eligibility requirements for the specific benefits should be determined.

The Worker must provide the Systematic Alien Verification for Entitlement (SAVE) Coordinator with the documented proof from the noncitizen that battery or extreme cruelty exists regarding the abuse of the noncitizen, the noncitizen’s child, or the noncitizen child’s parent. If further action is needed, the SAVE Coordinator will notify the Worker.
15.5.3.B Indigent Noncitizens

After taking into account the noncitizen’s own income, plus any cash, food, housing, or other assistance provided by other individuals (including the sponsor), if the Worker determines that a sponsored noncitizen would—in the absence of the assistance provided by the agency—be unable to obtain food and shelter, then the amount of income and resources of the sponsor or the sponsor’s spouse attributed to the sponsored noncitizen shall not exceed the amount actually provided for a period of one year after the date such determination is made.

In this instance, the Worker must provide the SAVE Coordinator with the name of the sponsor and sponsored noncitizen(s) receiving benefits and the type of benefits received. If further action is needed, the SAVE Coordinator will notify the Worker.

NOTE: The Indigent Noncitizen must meet all other eligibility program requirements for the specific benefits, Medicaid, and/or WV WORKS; not have 40 Qualifying Quarters of work; and meet the requirement for qualified noncitizen status.

15.5.3.C Ineligible Sponsored Noncitizen

The assets and income of the sponsor and the sponsor’s spouse must not be included in determining the assets and income of an ineligible sponsored noncitizen.
15.6 DEEMING OF INELIGIBLE/ILLEGAL NONCITIZENS INCOME AND/OR ASSETS

15.6.1 METHOD USED IN DEEMING

The income and assets of ineligible or illegal noncitizens are considered when determining eligibility for those individuals for whom the noncitizens are financially responsible (spouses and children). The method to be used in deeming is based on the particular category of assistance being evaluated.

15.6.1.A SNAP

The ineligible noncitizen is not included in the assistance group (AG). The income of all ineligible noncitizens and/or illegal noncitizens is prorated to the Supplemental Nutrition Assistance Program (SNAP) AG using the method described in Section 4.4.4.

Assets of ineligible noncitizens and illegal noncitizens are counted in their entirety.

Ineligible noncitizens include:

- Noncitizens who were ineligible prior to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) due to noncitizen status; or
- Noncitizens made ineligible due to PRWORA; and
- Noncitizens made ineligible because the household was unable or unwilling to provide documentation of noncitizen status.

15.6.1.B WV WORKS

Ineligible/illegal noncitizens are excluded from the AG and the needs group (NG). They are included in the income group (IG).
15.6.1.C  Parents/Caretaker Relatives

The ineligible/illegal noncitizen is excluded from the AG and the NG. They are included in the IG.

15.6.1.D  AFDC-Related Medicaid and Other Medicaid Coverage Groups for Families and/or Children

See Chapter 23 for the specific coverage groups. Ineligible/illegal noncitizens are excluded from the AG. They are included in the NG and IG.

15.6.1.E  SSI-Related Medicaid and Other Medicaid Coverage Groups Based on Age, Blindness, and Disability

See Chapter 23 for the specific coverage groups. Ineligible/illegal noncitizens are excluded from the AG. The income and assets of the ineligible/illegal noncitizen who is the spouse or parent of an eligible individual are considered in the same manner as the income and assets of any other ineligible spouse or parent of an eligible individual. Follow the instructions in Section 4.14.4.D. When deeming is appropriate according to that section, the ineligible/illegal noncitizen is included in the NG and IG.
15.7 BENEFIT PROGRAMS

To be eligible for WV WORKS, Medicaid, the West Virginia Children’s Health Insurance Program (WVCHIP), or the Supplemental Nutrition Assistance Program (SNAP), an individual applying must be a resident of the United States (U.S.) as a citizen or a legal noncitizen and meet eligibility requirements for each program. Among those ineligible are noncitizen visitors, tourists, diplomats, and students who enter the U.S. temporarily with no intention of abandoning their residence in a foreign country. See Section 15.7.5, Medicaid, for exceptions for pregnant women and children age 18 and under.

An illegal noncitizen or ineligible noncitizen residing in the U.S. who requires emergency medical care may qualify for Medicaid for the length of time medically required to avert the medical emergency. See Section 15.7.6.

15.7.1 SNAP

A person must be a U.S. citizen, a national of the U.S., or a qualified noncitizen to qualify.

15.7.1.A Categories Eligible for SNAP

A qualified noncitizen for SNAP benefits is in one of the following categories, as determined by the Immigration and Naturalization Service (INS) of the U.S. Department of Homeland Security:

- An individual lawfully admitted for permanent residence (LPR) in the U.S. who has a Permanent Resident Card and has been in the U.S. for five years with this status. This category also includes Amerasian immigrants as defined under Section 584 of the Foreign Operations, Export Financing and Related Programs Appropriations Act of 1988 (FOEFRPAA);
- An individual granted asylum under Section 208 of the Immigration and Nationality Act (INA);
• A refugee admitted to the U.S. under Section 207 of the INA (including immigrants who have been certified by the U.S. Department of Health and Human Services (DHHS) to be victims of a severe form of trafficking in persons in accordance with the Victims of Trafficking and Violence Protection Act of 2000 (P.L. 106-386);

• An individual where deportation is being withheld under Section 243(h) of the INA as in effect before April 1, 1997, or removal is withheld under Section 241(b)(3) of the INA;

• A Cuban or Haitian entrant under Section 501(e) of the Refugee Education Assistance Act of 1980 (REAA);

• A battered immigrant spouse, battered immigrant child, immigrant parent of a battered child, or an immigrant child of a battered parent with a petition pending under 204(a)(1)(A) or (B) or 244(a)(3) of the INA;

• An immigrant from certain Hmong or Highland locations (and spouse and children); or

• An Amerasian immigrant under Section 584 of the FOEFRPAA.

• An LPR who can be credited with 40 Qualifying Quarters of work under the Social Security system; credits may be earned individually, in combination with a spouse, and in some circumstances a parent;

• An elderly individual who was born on or before August 22, 1931, and who was lawfully residing in the U.S. on August 22, 1996;

• Qualified noncitizen children under 18 are eligible without a waiting period regardless of when they entered the U.S. Continued eligibility will be reviewed once the noncitizen reaches the age of 18;

• Blind or disabled individuals receiving benefits or assistance for their condition as defined under Section 3(r) of the Food and Nutrition Act, regardless of when they entered the U.S.;

• An individual who has lived in the U.S. as a qualified noncitizen for five years from the date on entry; or

• An individual who is lawfully residing in a state and is on active duty other than for training in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard. This does not include full-time National Guard service members or honorably discharged veterans whose discharge is not because of noncitizen status. A discharge “Under Honorable Conditions” does not meet this requirement. This category includes the spouse or surviving spouse who has not remarried and unmarried dependent children of these individuals.
15.7.1.B Ineligible Noncitizens

All others are ineligible noncitizens and are prohibited from participating in SNAP. These include:

- Visitors, tourists, students, and diplomats who lawfully reside in the U.S. in a non-qualified status and are not exempt from the immigrant restrictions
- Undocumented immigrants, such as individuals who entered the country as temporary residents and overstayed their visa, or who entered without a visa
- Noncitizens who have applied for eligible status but who have not been approved. An exception is battered spouses and children with a military connection
- Noncitizens whose status is questionable or unverified
- The children of any of these individuals even those under the age of 18. If the child is a US citizen or they are an eligible alien then this does not apply to them.

NOTE: When the Worker believes that any member of a household applying for benefits is ineligible to receive SNAP benefits because the member is present in the U.S. in violation of the law, he must report this immediately in writing to the DFA Policy unit and/or SAVE Coordinator. The memorandum must include the name of the noncitizen involved, case name, address, the reason the Worker believes the client is an illegal noncitizen, and copies of any Immigration and Naturalization Service (INS) documents that have been presented. The SAVE Coordinator forwards this information to INS. The local office receives a copy of the letter sent to INS.

The Worker has reason to believe the household contains an illegal noncitizen when:

- Any household member or the authorized representative states that illegal noncitizens are present in the household, or INS documents presented by the assistance group (AG) are determined to be forged.
- A formal order of deportation is presented by an AG member during the eligibility determination process. When the Worker determines that a household member cannot be included in the AG because he is an ineligible noncitizen, the Worker must follow the procedure described above for reporting the illegal noncitizen to the SAVE Coordinator if the illegal noncitizen applies for benefits, even if the application is withdrawn.
15.7.2 WV WORKS

A person must be a U.S. citizen, U.S. national, or an eligible noncitizen qualified to receive benefits.

15.7.2.A Eligible Noncitizen

An eligible noncitizen must meet one of the following criteria:

- A noncitizen who is lawfully admitted for permanent residence under the INA and was admitted before August 22, 1996
- A noncitizen who is granted asylum under Section 208 of the INA, eligible for five years from entry to U.S.
- A refugee who is admitted to the U.S. under Section 207 of the INA, including immigrants who have been certified by the U.S. DHHS to be victims of a severe form of trafficking in persons in accordance with the victims of Trafficking and Violence Protection Act of 2000, P.L.106-386, eligible for five years from entry to U.S.
- A noncitizen whose deportation is being withheld under Section 243(h) of INA, eligible for five years from date of status
- An Amerasian immigrant under 584 of the FOEFRPAA who entered the U.S. within the last five years, participation limited to five years from entry into the U.S.
- A Cuban or Haitian entrant under Section 501(e) of the REAA who entered the U.S. within the last five years, participation limited to five years from entry
- An honorably discharged veteran, his spouse, and unmarried dependent children
- A noncitizen who is active in the U.S. Armed Forces, other than duty for training, his spouse, and unmarried dependent children
- A noncitizen who is lawfully admitted to the U.S. on or after August 22, 1996, and has been a qualified noncitizen for more than five years
- A noncitizen who is a battered spouse or battered child, the non-abusive parent of a battered child, or a child of a battered parent
- A veteran, his spouse, or unmarried dependent child
- A member of the U.S. Armed Forces, his spouse, or unmarried dependent child
15.7.2.B Ineligible Noncitizens

Ineligible noncitizens include all other noncitizens, and also include the following:

- Visitors, tourists, students, and diplomats
- Undocumented immigrants
- Noncitizens who have applied for eligible status but who have not been approved (except for battered spouses and children with a military connection)
- Noncitizens whose status is questionable or unverified
- The children of any of these individuals even those under the age of 18. If the child is a US citizen or they are an eligible alien then this does not apply to them.

15.7.3 LOW INCOME ENERGY ASSISTANCE PROGRAM (LIEAP)

All qualified noncitizens are evaluated for Low Income Energy Assistance Program (LIEAP) eligibility as any other LIEAP applicant. See Section 21.3.

15.7.4 EMERGENCY ASSISTANCE (EA)

All qualified noncitizens are evaluated for Emergency Assistance (EA) guidelines as any other EA applicant. See Section 20.2.

15.7.5 MEDICAID

15.7.5.A Medicaid Eligibility

A person must be a U.S. citizen, U.S. national, or an eligible noncitizen qualified to receive benefits.

- For the purposes of qualifying as a U.S. citizen, the U.S. as defined by the INA includes the fifty states, the District of Columbia, Puerto Rico, Guam, the U.S. Virgin Islands, and
the Northern Mariana Islands. Nationals from American Samoa or Swains Island are also regarded as U.S. citizens for purposes of Medicaid.

- Individuals who meet the eligibility requirements of Medicaid, but who are not citizen or nationals, are Medicaid eligible only as provided below.

Applicants for Medicaid whose presented documents raise questions about their noncitizen status must provide documentation of their citizen/noncitizen status before eligibility can be determined.

15.7.5.B Medicaid-Eligible Noncitizens

15.7.5.B.1 Qualified Noncitizen

An eligible (qualified) noncitizen is:

- A noncitizen who is lawfully admitted for permanent residence (LPR) under the INA and was admitted before August 22, 1996
- A noncitizen who is granted asylum under Section 208 of the INA, eligible for seven years from entry to U.S.
- A refugee who is admitted to the U.S. under Section 207 of the INA, including immigrants who have been certified by the U.S. DHHS to be victims of a severe form of trafficking in persons in accordance with the victims of Trafficking and Violence Protection Act of 2000 (P.L.106-386), and Afghan and Iraqi special immigrant visa holders eligible for seven years from entry to the U.S.
- A noncitizen whose deportation is being withheld under Section 243(h) of the INA, eligible for seven years from date of status
- An Amerasian immigrant under 584 of the FOEFRPAA who entered the U.S. within the last five years, participation limited to seven years from entry into the U.S.
- A Cuban or Haitian entrant under Section 501(e) of the REAA who entered the U.S. within the last five years, participation limited to seven years from entry
- An American Indian born in Canada to whom the provisions of 8 U.S.C. 1359 apply
- A member of an Indian tribe as defined in 25 U.S.C. 450B(e)
- An honorably discharged veteran, his spouse, and unmarried dependent children
• A noncitizen who is active duty in the U.S. Armed Forces, other than duty for training, their spouse, and unmarried dependent children

• The surviving spouse of a deceased veteran or service member, provided the spouse has not remarried and the marriage fulfills the following requirements:
  o Married for at least one year; or
  o Married before the end of a fifteen-year time span following the end of the period of military service in which the injury or disease was incurred or aggravated; or
  o Married for any period if a child was born of the marriage or was born before the marriage.

• Noncitizens receiving SSI

Eligible (qualified) noncitizens subject to a five year waiting period:

• A noncitizen who is lawfully admitted to the U.S. for permanent residence (LPR) on or after August 22, 1996, and has been a qualified noncitizen for more than five years

• A noncitizen who is paroled into the U.S. under Section 212(d)(5) of the INA for at least one year and has been a qualified noncitizen for more than five years

• A noncitizen who is granted conditional entry pursuant to Section 203(a)(7) of the INA and has been a qualified noncitizen for more than five years

• A noncitizen who is a battered spouse or battered child the non-abusive parent of a battered child, or a child of a battered parent and has been a qualified noncitizen for more than five years

**15.7.5.B.2 Lawfully Present Pregnant Women and Children Age 18 and Under**

Lawfully present pregnant women and children age 18 and under, who meet the State residency requirements in Section 2.2, and who are otherwise financially eligible, may qualify for Medicaid.

An individual is considered to be lawfully present if he resides in the U.S., and:

• Is qualified noncitizen as defined above and in 8 U.S.C. 1641 (b) and (c);

• Is a noncitizen with a valid nonimmigrant status, as defined 8 U.S.C. 1101(a)(15) or otherwise under the immigration laws, as defined in 8 U.S.C. 1101(a)(17);

• Is a noncitizen who has been paroled into the U.S. in accordance with 8 U.S.C. 1182(d)(5) for less than one year, except for an individual paroled for prosecution, for deferred inspection, or pending removal proceedings;
• Is a noncitizen who belongs to one of the following classes:
  o Granted temporary resident status in accordance with 8 U.S.C. 1160 or 1255a, respectively;
  o Granted Temporary Protected Status (TPS) in accordance with 8 U.S.C. §1254a, and individuals with pending applications for TPS who have been granted employment authorization;
  o Granted employment authorization under 8 CFR 274a, 12(c);
  o Family Unity beneficiaries in accordance with Section 301 of Pub. L 101-649, as amended;
  o Under Deferred Enforced Departure (DED) in accordance with a decision made by the President;
  o Granted Deferred Action status;
  o Granted an administrative stay of removal under 8 CFR 241; or
  o Beneficiary of approved visa petition who has a pending application for adjustment of status;
• Is an individual with a pending application for asylum under 8 U.S.C. 1158, or for withholding of removal under 8 U.S.C. 1231, or under the Convention Against Torture who:
  o Has been granted employment authorization; or
  o Is under the age of 14 and has had an application pending for at least 180 days.
• Has been granted withholding of removal under the Convention Against Torture;
• Is a child who has a pending application for special Immigrant Juvenile status as described in 8 U.S.C. 1101(a)(27)(J);
• Is lawfully present in American Samoa under the immigration laws of American Samoa; or
• Is a victim of severe trafficking in persons, in accordance with the Victims of Trafficking and Violence Protection Act of 2000, Pub. L. 106-386, as amended (22 U.S.C.7105[b]).

EXCEPTION: An individual with deferred action under the Department of Homeland Security’s deferred action for the childhood arrivals process, as described in the Secretary of Homeland Security’s June 15, 2012 memorandum, shall not be considered to be lawfully present with respect to any of the above categories in paragraphs one through nine of this definition.
Lawfully Present Noncitizen Example 1: A 23-year-old student is attending Marshall University on a valid student visa. She becomes pregnant and applies for pregnancy Medicaid. She is financially eligible for the program. She is lawfully present and intends to reside in West Virginia. Because she is also financially eligible, she would be approved for pregnancy Medicaid.

Lawfully Present Noncitizen Example 2: A 23-year-old student is attending Marshall University on a student visa. He has his three children listed on the visa. Their household monthly income is under 138% of the Federal Poverty Level (FPL). He would only be eligible for emergency Medicaid, as he does not meet the guidelines for pregnant women nor children 18 years or under. His children would be eligible for children's Medicaid, as they are here lawfully present and intend to reside in West Virginia.

Lawfully Present Noncitizen Example 3: A Worker receives an application for Medicaid from a 19-year-old here on a valid work visa. He lives and works in Ohio, but likes the hospitals in West Virginia better. He was told to apply at the local Department of Health and Human Resources (DHHR) office. The client is here lawfully present, but does not intend to lawfully reside in West Virginia. The Worker processes the application and appropriately denies the application for not intending to reside in West Virginia.

Lawfully Present Noncitizen Example 4: A woman was lawfully admitted for permanent residence two years ago. She is now applying for pregnancy Medicaid. She is lawfully present and residing with the intent to live in West Virginia. She is also financially eligible for pregnancy Medicaid. The worker approves the application.

15.7.5.C Reasonable Opportunity Period

All applicants and clients, who have made a declaration of satisfactory immigration status, must be given a reasonable opportunity period to provide documentation to establish their immigration status when the DHHR is unable to verify the immigration information through SAVE.

If the immigration status cannot be verified through SAVE, the client must be notified and given 90 days to provide the required immigration documentation. The client is provided 90 days from the date the notice is received to provide the required documentation.

The client is approved for Medicaid or WVCHIP during the 90 day reasonable opportunity period, if otherwise Medicaid or WVCHIP eligible.
If documentation is not supplied within the 90 day reasonable opportunity period, Medicaid or WVCHIP is stopped after advance notice.

15.7.5.D  Ineligible Noncitizens

Ineligible noncitizens are all other noncitizens and include the following:

- Visitors, tourists, students, and diplomats
  
  EXCEPTION: See Section 15.7.5.B.2 above for pregnant women and children 18 and under.

- Noncitizens who have applied for eligible status, but who have not been approved
  
  EXCEPTION: Battered spouses and children with a military connection.

- Noncitizens whose status is questionable or unverified

- Undocumented immigrants

15.7.5.E  Noncitizens Who Receive SSI

A noncitizen who receives Supplemental Security Income (SSI) receives Medicaid benefits as long as he meets all other eligibility requirements for SSI.

15.7.5.F  Qualified Medicare Beneficiaries (QMB)

The eligibility of a noncitizen who has Medicare coverage and meets the criteria to be a Qualified Medicare Beneficiary (QMB) is determined by whether or not the individual is a qualified noncitizen in one of the groups covered by Section 15.7.5.B above.
15.7.5.G Medicaid Emergency Service

Any noncitizen who is not an eligible qualified noncitizen can be considered for Medicaid emergency service. See Section 15.7.6 below.

15.7.6 EMERGENCY MEDICAID FOR ILLEGAL/INELIGIBLE NONCITIZENS

15.7.6.A Introduction

Any noncitizen who is not a qualified noncitizen is not eligible for Medicaid except in emergency situations.

15.7.6.B Eligibility of Non-Qualified Noncitizens

Illegal/ineligible noncitizens who meet the residence and other Medicaid policy eligibility criteria are eligible for Medicaid only for treatment of medical conditions meeting the following requirements.

15.7.6.B.1 Eligibility Requirement for Emergency Services

To be eligible for emergency services, a noncitizen must meet all eligibility requirements of the Medicaid group for which they are applying. See Section 23.13. Pregnant noncitizen women facing imminent delivery or other related problems are evaluated using Medicaid guidelines for all programs. The unborn child is considered as a child in the home.

NOTE: If a Social Security Number (SSN) is available, the noncitizen must provide it, but must not be required to apply for an SSN.
15.7.6.B.2 Care and Services for Emergency Services

Care and services are necessary for the treatment of an emergency medical condition of the noncitizen, provided such care and services are not related to either an organ transplant procedure or routine prenatal or post-partum care.

The noncitizen must have, after sudden onset, a medical condition (including emergency labor and delivery) showing acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in:

- Placing the patient’s health in serious jeopardy
- Serious impairment to bodily functions
- Serious dysfunction of any bodily organ or part

NOTE: If a noncitizen is in need of ongoing emergency medical services, this must be approved by the Bureau for Medical Services (BMS) prior to the continuation of medical benefits.
Chapter 15

15.8 REFUGEE AND ASYLEE ASSISTANCE PROGRAMS

15.8.1 INTRODUCTION

The Refugee Cash Assistance (RCA) program and the Refugee Medical Assistance (RMA) program provides cash and medical assistance to all eligible refugees, regardless of nationality.

Asylees are eligible to access RCA and RMA for eight months, beginning on the date they are granted asylum, if they do not meet all eligibility requirements for WV WORKS or Medicaid. For example, if an applicant were granted asylum on September 1, 2000, and applied on October 30, 2000, he would be eligible for RCA and RMA from the date of application through April 2001.

15.8.2 ASYLEE ELIGIBILITY SCREENING

All immigrants who have been granted asylum status will have in their possession Immigration and Naturalization Service (INS) documentation that shows proof of asylum status and the date asylum was granted.

15.8.2.A Asylee Status of Applicant

15.8.2.A.1 Documentation

In order to determine an asylee’s eligibility in accordance with the Office of Refugee Resettlement (ORR) regulations, the Worker must confirm the individual’s status and date of entry through appropriate INS documentation. The following documents will confirm both status and date of entry for asylees:

- INS Form I-94 Arrival/Departure Card, noting that the individual has been admitted under Section 208 of the Immigration and Nationality Act (INA)
- INS Form I-94 Arrival/Departure Card with the admission codes AS-1, AS-2 or AS-3
- INS Form I-94 Arrival/Departure Card with Visa 92 (or V-92)
• Order of an Immigration Judge granting asylum under Section 208 of the INA will serve as proof of asylee status if the INS has waived the right to appeal the case; the date on the Immigration Judge Order will serve as the date the individual was granted asylum.

**NOTE:** If the Immigration Judge Order shows the INS has reserved its right to appeal, there is a 30-day waiting period from the date of the order before an approval consideration can be made. The Worker must submit copies of the Immigration Judge Order to the SAVE Coordinator. The SAVE Coordinator will complete an inquiry on or after the 31st day from the date on the Immigration Judge Order to find out whether the INS has appealed the case, and then notify the Worker of the eligibility status of the individual.

• Asylum Approval Letter from an INS Asylum Office
• I-730 Approval Letter
• Written Decisions from the Board of Immigration Appeals (BIA)

### 15.8.2.A.2 Recommended Asylum Approval Letter

Recommended Asylum Approvals are not proof of asylee status. This letter is a notification from INS advising the applicant that his application has been recommended for approval and that an investigation of his identity and background will be conducted before final approval is issued.

### 15.8.2.B Asylee Status of Family Members

#### 15.8.2.B.1 Family Members Included in Principal Asylee’s Application

If the asylee includes his spouse and children on the asylum application, the family members have the same asylum grant date as the principal asylee.

Family members will be included on the principal asylee’s asylum documents.
15.8.2.B.2  Family Members Outside of the U.S.

The family members should receive INS I-94 Arrival/Departure Cards noting the “entry” date. The date that the family enters the United States (U.S.) will be the date to consider computing the benefit eligibility period.

15.8.2.B.3  Family Members in U.S.—Not Included on Principal Asylee’s Application

The family will receive an I-730 approval letter with the date the application is approved. The approval date is the date to consider as the date asylum was granted. INS should issue Form I-94 reflecting the approval date as “entry” date and status as asylee.

15.8.2.C  SAVE Verification

Copies of INS documentation should be submitted to the State Refugee/SAVE Coordinator for INS verification of noncitizen status. However, processing of applicants application is to be completed without waiting for SAVE verification. When the worker receives the SAVE verification, all copies should be filed in the case record.
15.8.3 REFUGEE ELIGIBILITY SCREENING

In order to be eligible for assistance for RCA and RMA, the refugee must meet the following requirements:

15.8.3.A Legally Admitted

15.8.3.A.1 Newly Arrived Refugees and Entrants

All newly arrived refugees or entrants will have in their possession an INS identification card. In order to determine that a refugee or entrant has entered the country legally, the Worker must request to see the INS identification card. This could be either an I-94 or an I-551.

The card should be reviewed for the following information.

➢ Classification

- All persons possessing an I-94 and who are eligible for RCA or RMA will have either the classification "refugee" or "entrant" on their I-94 or I-551.

- Amerasian, Vietnamese with American fathers, and their immediate relatives, spouse, children, mothers, siblings and sometimes stepfathers. The Amerasian teen and mother have AM codes, such as AM-1 or AM-3, on the I-94. Some relatives have "refugee" on the I-94 or I-551, and some also have AM codes.

- There are two classifications that could have questionable status. They are as follows:
  - Classification of "parolee" could be used, but most parolees are short-term admissions.
  - Individuals entering under "Private Sector Initiative" may have a refugee class, but the coding "Private Sector" normally prevents them from receiving RCA and RMA.

In these instances, the Worker should contact the State Refugee Coordinator.
Date of Entry

Programs for RCA and RMA are only offered for eight months from the date the person enters the country. Therefore, it is used to determine the periods of eligibility and federal reimbursement. The date of entry must be noted in the system or case record.

15.8.3.A.2 Household Composition

Make sure the file contains the correct Household Composition information. This includes the Alien Registration Number that is included on the I-94 or I-551.

15.8.3.A.3 Documentation of Noncitizen Identification

Submit copies of the identification card, front and back, and a copy of the Citizen/Noncitizen Declaration to the SAVE Coordinator, for verification of noncitizen status. Once noncitizen status is verified, the original verification and the information provided for verification, along with the copies of noncitizen identification card, must be filed in the case record.

15.8.3.B Permanent Resident

Refugees having permanent resident status are eligible to participate in the Refugee Programs, RCA, and RMA, as long as they have been in the U.S. less than eight months.

15.8.4 ELIGIBILITY DETERMINATION FOR AFDC/MEDICAID FOR REFUGEES

15.8.4.A Parents/Caretaker Relatives or AFDC-Related Medicaid

If the applicant meets all requirements for regular Parents/Caretaker Relatives or AFDC-Related Medicaid, the application should be made for those programs. However, participation is limited to five years from entry into the U.S. for WV WORKS and seven years for Medicaid. If the
applicant does not meet the requirements for one of these programs, then a determination should be made for RCA or RMA.

15.8.4.B Amount of Payment

The basic payment plan will be used in determining the amount of the assistance payment.

15.8.4.C Identification of Refugees in the Eligibility System

Individuals who are receiving assistance as refugees must be coded appropriately in the eligibility system.

It is extremely important that all refugees be coded appropriately.

15.8.4.D Registering for Employment Services

It is a condition of eligibility that all employable refugees who apply for the AFDC-Related Medicaid or the Refugee Assistance Program must register for work. All refugees applying for AFDC-Related Medicaid must register with the WorkForce West Virginia unless they are exempt from registration according to Section 15.8.4.F below.

15.8.4.E Procedures for Registering for Employment

Follow the same procedures that are found in Section 15.8.7.

15.8.4.F Work Registration Exemptions

The following individuals are exempt from registering for Employment Services:

- A child under 16 years of age.
- A child 16 – 18 and in school full time.
• A person who is ill, disabled, or over 65 years of age. The determination of illness or disability must be verified by a doctor’s statement.

• A person whose presence in the home is required because of illness or disability of another member of the household. This must be verified by a doctor’s statement.

• A caretaker who is caring for a child under the age of three. Only one parent or other relative in a case may be exempt.

• Any member of the assistance group (AG) who is enrolled and participating in a training program. The training program must be part of an employability plan that has been approved by the Division of Family Assistance (DFA) and/or Migration and Refugee Services and intended to have a definite short-term (less than one year) employment objective.

• Spouse of a registrant.

NOTE: Inability to communicate in English does not exempt the client from registering.

The following changes apply to the work registration exemption for the WV WORKS Program:

• The age of the child age three or older.

• A caretaker under the age of 20 without a high school diploma is mandatory, regardless of the age of the child.

• The spouse of a registrant is not exempt.

15.8.4.G  Refusal to Register for Employment Service

It is a condition of eligibility for AFDC-Related Medicaid that the refugee register with WorkForce West Virginia unless exempt. If a refugee who is a mandatory registrant refuses to register, the refugee is to be sanctioned.

15.8.4.H  Income

At the time of application and each re-determination, the sponsor should be contacted to determine the amount of income, if any, he voluntarily contributes to the refugee. Also, the name and address of the sponsor should be recorded in the case record.
If the refugee has excessive income for AFDC-Related Medicaid or RCA, the Worker will evaluate the client for the Medicaid or RMA programs.

15.8.4.I  Assets

Assets will be treated in the same manner as any other applicant. If an asset is located in the refugee's homeland and is not available to the refugee, then these assets would not be treated as assets available to meet the needs of the client.

15.8.5  ELIGIBILITY DETERMINATION FOR WV WORKS/MEDICAID FOR ASYLEES

- If the applicant meets all requirements for WV WORKS and/or Medicaid, the application should be made for those programs. However, participation is limited to five years from date granted asylum for WV WORKS and seven years for Medicaid.
- The amount of payment follows the basic payment plan of the assistance payment.
- Individuals receiving this assistance must be coded appropriately as asylees in the eligibility system.
- All other conditions of eligibility for these programs must be followed with the exception of counting assets.
- Assets will be treated in the same manner as any other applicant. However, if an asset is located in the asylee’s homeland and is not available to the asylee, then these assets would not be treated as assets available to meet the needs of the applicant.

15.8.6  ELIGIBILITY FOR REFUGEE CASH ASSISTANCE (RCA) AND REFUGEE MEDICAL ASSISTANCE (RMA)

The state must determine Medicaid and West Virginia Children’s Health Insurance Program (WVCHIP) eligibility under its Medicaid and WVCHIP state plans for each individual member of a family unit that applies for medical assistance.

A state that provides Medicaid to medically needy individuals in the state under its state plan must determine a refugee or asylee applicant’s eligibility for Medicaid as medically needy.
A state must provide medical assistance under the Medicaid and WVCHIP programs to all refugees/asylees eligible under its state plan.

If the appropriate state agency determines that the refugee/asylee applicant is not eligible for Medicaid or WVCHIP under its state plans, the state must determine the applicant's eligibility for refugee medical assistance.

A determination is made for RCA or RMA following the same guidelines as for AFDC-Related Medicaid. The difference in the Refugee Program is that certain eligibility requirements are waived.

### 15.8.6.A Eligibility Requirements

The following eligibility requirements are waived for individuals.

#### 15.8.6.A.1 Living With a Specified Relative

A child does not have to be living with a specified relative in order to be eligible for this program.

#### 15.8.6.A.2 Having an Eligible Child in the Home

Individuals are not required to have an eligible child in the home in order to be eligible for an assistance payment.

**No Eligible Children in Home Example:** If a husband and wife do not have any eligible children in the home, and they meet all other eligibility requirements, the case can be approved for this program.

#### 15.8.6.A.3 Assignment of Support Rights

The eligibility requirement of assignment of support rights is waived for this program. If the applicant has child support as income, it will be treated as a resource against the assistance check.
15.8.6.B Full-Time Students in Institutions of Higher Education

RCA shall not be made available to refugees or asylees who are full-time students in institutions of higher education, unless it is appropriate English-language and job-related training, approved under an individual employability plan, and has a definite short term of less than one year employment objective.

15.8.6.C Income

Income will be treated as it is treated for any other applicant, but only the income available to the refugee or asylee will be treated as income. Any income producing property that is in his homeland will not be considered available to meet the needs of the refugee/asylee.

Whenever a refugee or asylee applies for cash or medical assistance, the Worker must notify the Voluntary Placement Agency (VOLAG), or the Office of Migration and Refugee Services (OMRS) that provided for the initial resettlement of the refugee/asylee, of the fact that the refugee/asylee has applied.

The Worker needs to determine the following:

- Assistance the VOLAG is providing to the refugee/asylee.
- Whether the refugee/asylee has refused an offer of employment or has voluntarily quit a job without good cause.
- Name and address of the VOLAG, which may be obtained from the refugee/asylee.

The Worker can contact the OMRS at:

Office of Migration and Refugee Services
1116 Kanawha Boulevard, East
Charleston, West Virginia 25301
Phone: (304) 343-1036

This notification can be completed by telephone, but a recording must be included in case comments for audit purposes. The VOLAG should also be notified of any adverse action taken on a case.

*NOTE: If for some reason the refugee/asylee does not know the name of the VOLAG, contact the State Refugee Coordinator in the Division of Family Assistance.*
If the refugee or asylee has excessive income for WV WORKS or RCA, the Worker will evaluate the client for the Medicaid or RMA programs.

15.8.6.D Assets

Assets will be treated in the same manner as any other applicant, with one exception. If an asset is located in the refugee's or asylee's homeland and is not available to the refugee/asylee, then these assets would not be treated as assets available to meet the needs of the client.

15.8.6.E Identification of Refugees/Asylees in the Eligibility System and Case Record

Individuals who are receiving assistance as refugees or asylees must be identified for federal reporting purposes. Data must be coded appropriately in the eligibility system.

Refugees or asylees receiving RCA or RMA because the eligibility requirements were waived are to have appropriate controls established to terminate benefits at the end of the eighth month after the refugee/asylee's arrival into the U.S.

15.8.7 REGISTERING FOR EMPLOYMENT

NOTE: For asylees, the inability to communicate in English is not considered an exemption from work registration/participation.

15.8.7.A WorkForce West Virginia

Recipients of RDA are not eligible for WV WORKS; therefore, they must register with WorkForce West Virginia.

A referral must be made to the Office of Migration and Refugee Services (OMRS). The same sanctions and time limits apply when a refugee or asylee fails to register with WorkForce West Virginia as with failure to comply with Supplemental Nutrition Assistance Program (SNAP).
However, with RCA cases, the Worker must notify OMRS by memorandum of the refugee/asylee's failure to register at the address below.

Office of Migration and Refugee Services  
1116 Kanawha Boulevard, East  
Charleston, West Virginia 25301  
Phone: (304) 343-1036

Within three working days of the receipt of the memorandum, a Worker from OMRS will counsel with the refugee/asylee to explain the implication of his refusal and the sanctions that will be implemented as a result of his failure to register.

If the refugee/asylee agrees to register, he and his family will remain eligible for the program. If he still refuses to register, OMRS will notify the appropriate Worker by memorandum and the sanctions will apply the same as for all other applicants.

### 15.8.7.B Refusal to Cooperate With WorkForce West Virginia

In order to be eligible to receive assistance through RCA, the refugee or asylee must cooperate with WorkForce West Virginia.

The following situations constitute failure to cooperate:

- The refugee/asylee refuses to answer a "call-in" to WorkForce West Virginia or OMRS.
- The refugee/asylee fails to supply WorkForce West Virginia and OMRS with supplemental information regarding employment status.
- The refugee/asylee fails to report to an employer to whom he has been referred by WorkForce West Virginia or OMRS.
- The refugee/asylee fails to accept a bona fide offer of suitable employment to which he has been referred by WorkForce West Virginia or OMRS.
- The refugee/asylee fails to continue suitable employment.
- The refugee/asylee refuses to participate in an available and appropriate social service program, training program, or English as a Second Language (ESL) program.

If the refugee/asylee refuses to cooperate with WorkForce West Virginia, WorkForce West Virginia will send a notice to the Worker and the Refugee Social Service Agency. The following steps will be taken:
The Supervisor will send a memorandum to the service provider, OMRS, explaining the refugee/asylee’s refusal to cooperate with WorkForce West Virginia.

OMRS will then determine if the refugee/asylee had good cause for not cooperating. The reasons for good cause can be found below.

If the service provider determines that the client has good cause, then the Worker will send a memorandum to the Supervisor stating that fact and no negative action will be taken.

If OMRS determines that the refugee/asylee did not have good cause, then the sanctions will apply as applied to other applicants.

15.8.7.C Criteria for Determining Suitable Work

The following criteria should be taken into consideration when determining what is suitable work for the refugee or asylee:

- The wage should not be less than the state minimum wage. If the job is exempt from the wage laws, the wage shall correspond with normal wages for similar work, but never less than three-fourths of the state minimum wage.
- Daily and weekly hours of work shall not exceed those customary to the occupation.
- No individual shall be required to accept employment if the position offered is vacant due to a strike, lockout, or other bona fide labor dispute.
- The individual shall be required to work for an employer contrary to his existing membership in the union governing the occupation. However, employment not governed by the rules of a union in which he has membership may be deemed appropriate.
- Assignments shall not be made that are discriminating in terms of age, sex, race, color, national origin, handicap, religion, or political belief.
- The job or training assignment must be related to the physical and mental capability of the individual to perform the task on a regular basis.
- Total daily commuting time roundtrip shall not normally exceed two hours, not including the transportation of a child to and from a childcare facility, unless a longer commuting time and distance is normally accepted in the community.
- The work or training site must not be in violation of applicable federal, State, and local health and safety standards.
15.8.7.D English as a Second Language Training

If the refugee or asylee is employed less than 100 hours per month, he must accept part-time English language training to be eligible for refugee assistance. OMRS will see to the availability of this training.

It will be the responsibility of the service provider, OMRS, to keep in touch with the refugee to determine if he is still participating in training.

If the refugee/asylee has quit his English training, the service provider will then counsel the refugee to explain to him why it is important for the refugee to continue the training.

After counseling, the service provider will determine if the refugee/asylee has good cause for not accepting the training. If the service provider determines that he has good cause, no penalty will be applied.

If it is determined that good cause did not exist, the service provider will send a memorandum to the Worker, and the Worker will apply the appropriate action detailed in Chapter 14.

15.8.8 SPECIFIC ELIGIBILITY REQUIREMENTS FOR REFUGEE MEDICAL ASSISTANCE PROGRAM ONLY

Except for the provisions stated in this chapter, the eligibility requirements for the Refugee Medical Assistance Program are the same as for regular Medicaid.

If a refugee or asylee who is receiving refugee medical assistance receives increased earnings from employment, the increased earnings shall not affect the refugee/asylee’s continued medical assistance eligibility. The refugee/asylee shall continue to receive refugee medical assistance until he reaches the end of his time-eligibility period for refugee medical assistance, in accordance with CFR 400.100(b). In cases where a refugee/asylee obtains private medical coverage, any payment of RMA for that individual must be reduced by the amount of the third-party payment.
15.8.9 SNAP ELIGIBILITY

All refugees/asylees who apply for SNAP are considered as noncitizens lawfully admitted for permanent residence and are to be treated as any other SNAP applicant. However, participation is limited to five years from entry into the U.S.

For asylees only, the 40 Qualifying Quarters requirement is waived for the first seven years from granting of asylum status.

15.8.10 REFERRALS FOR SERVICE

The Worker will contact OMRS for all refugees and asylees, approved or denied for any program, and submit it to the SAVE Coordinator and the Refugee Resettlement Program.

The Department of Health and Human Resources has a purchase-of-services contract with OMRS. The purpose of this agreement is to provide necessary services to enable the refugee/asylee to become self-sufficient as soon as possible. Emphasis is placed on employment services, job placement, ESL training, counseling, translation by the bilingual staff, and cultural adjustment.

After the initial referral to the SAVE Coordinator, all referrals pertaining to service needs or to the refugee/asylee’s refusal to cooperate with WorkForce West Virginia by refusing to participate in any available and appropriate training programs, employment programs, or ESL classes, will be made directly to OMRS at the address below. This may be done by a brief memorandum or phone call. OMRS will respond to the local worker after counseling the refugee/asylee or providing the service requested.

    Office of Migration and Refugee Services
    1116 Kanawha Boulevard, East
    Charleston, West Virginia 25301
    Phone: (304) 343-1036

The local Social Service Coordinator or Supervisor is to be notified simultaneously with the OMRS whenever a serious problem, such as child abuse/neglect or the need for foster care, exists. While these and other emergency situations will require the expertise of the Department’s Office of Children and Adult Services staff, they may also require the involvement of the OMRS. Most refugees/asylees have a very limited understanding of the English language and our culture, and may need someone to translate for them.
The Supervisor should contact the OMRS in Charleston, directly, whenever assistance is needed in translating the language for the purpose of an application, redetermination, or in obtaining the necessary information. The telephone number is (304) 343-1036.

15.8.11  REFERRALS TO SSI

All refugees and asylees who appear to meet eligibility requirements for Supplemental Security Income SSI at the time of their arrival in this country are referred to the Social Security Administration.

Economic Service Workers will explore the refugee/asylee's potentiality of being eligible for SSI, and if the Worker determines that the refugee/asylee may be eligible, then the client should be referred to the Social Security Office to apply for SSI.

15.8.12  TIME LIMITS FOR PARTICIPATION

The "Date of Entry" to the U.S. is very important and must be recorded in the case record.

The RCA and RMA programs are limited to eight months from the day the refugee enters the U.S. The State can claim reimbursement for 100% of the cost of RCA and RMA for eight months. The State has no provisions for this program past the eight-month period. However, the refugee is not eligible for cash benefits their first month in the U.S., as they receive a resettlement allowance for their first month of arrival.

Refugees eligible for WV WORKS may receive these benefits as long as they meet all eligibility guidelines. The State must track all refugees.

15.8.13  SPECIAL STATUS FOR AFGHANS AND IRAQIS

15.8.13.A  SNAP, Medicaid, and WV WORKS

The Consolidated Appropriations Act (CAA) of 2008 grants Afghans and Iraqi noncitizens special immigrant status.
NOTE: Afghans and Iraqis no longer have a time limit to receive benefits. Benefits are the same as Refugees. See Section 15.8.

15.8.13.A.1 Iraqis

The CAA of 2008 grants certain Iraqi noncitizens special immigrant status under Section 101(a)(27) of the INA. Individuals and family members granted this special immigrant status are eligible for resettlement assistance, entitlement programs, and other benefits, the same as refugees admitted under Section 207 of the INA. Family members of Iraqi special immigrants must show their own documentation of special immigrant status under Section 207.

15.8.13.A.2 Afghans

Afghans also fall under the CAA of 2008 and are granted special immigrant status under Section 101(a)(27) of the INA. Individuals and family members granted this special immigrant status are eligible for resettlement assistance entitlement programs and other benefits, the same as refugees admitted under Section 207 of the INA. Family members of Afghanistan special immigrants must also show their own documentation of special immigrant status under Section 207. See Section 15.8.8.

15.8.13.B Date of Entry

The following documents confirm both status and date of entry for Afghan and Iraqi special immigrants.

**15.8.14 CUBAN AND HAITIAN ENTRANTS**

Cuban and Haitian entrants are eligible for ORR-funded benefits and services, such as refugee cash, medical assistance, and social services. They are also eligible for Federal Public Assistance for Needy Families to the same extent as refugees. See Section 15.8.4.

To determine if someone is a Cuban or Haitian Entrant, use the Refugee Education Assistance Act of 1980. The following documentation is acceptable for proof of status.

A national of Cuba or Haiti who was granted parole status as a Cuban/Haitian entrant, status pending, on or after April 21, 1980, or has been paroled into the U.S. on or after October 10, 1980, regardless of the status of the individual at the time assistance or services are provided.

15.9 VICTIMS OF HUMAN TRAFFICKING WHO ARE NON U.S. CITIZENS ELIGIBILITY FOR REFUGEE CASH AND MEDICAL ASSISTANCE

15.9.1 INTRODUCTION

The Trafficking Victims Protection Act (TVPA) makes victims of a severe form of trafficking in persons eligible for federally funded or administered benefits and services to the same extent as refugees. They are eligible for federally funded or administered benefits and services, such as the Refugee Cash Assistance (RCA) program and the Refugee Medical Assistance (RMA) program that provides cash and medical assistance, WV WORKS, Temporary Assistance for Needy Families (TANF), Medicaid, and Supplemental Nutrition Assistance Program (SNAP) benefits, provided they meet other program eligibility criteria. Victims of Trafficking are eligible to access RCA and RMA for eight months, from the beginning date of their certification as a trafficking victim, if they do not meet the eligibility requirements for WV WORKS and/or Medicaid.

15.9.2 ELIGIBILITY SCREENING

Immigrants who have been granted Trafficking Victims Protection will have documents termed “Derivative T-Visas” in their possession. Victims of Trafficking who provide a T-2, T-3, T-4, or T-5 visa (“Derivative T-Visas”), or have that status stamped on their I-94 Arrival Record or passport, are eligible for federally funded or administered benefits and services (RMA, RCA, WV WORKS, Medicaid, SNAP benefits) provided they meet program eligibility criteria. See Section 15.8.

15.9.2.A T-Visa Noncitizen Under 21 Years of Age

When a noncitizen is awarded a T-Visa and was under 21 years of age on the date the T-Visa application was filed, the Derivative T-Visas are also available to this noncitizen’s parents, spouse, children, and unmarried siblings who were under 18 years of age on the date on which such noncitizen’s T-Visa application was filed.
15.9.2.B  T-Visa Noncitizen 21 Years of Age or Older

When a noncitizen is awarded a T-Visa and was 21 years of age or older on the date the T-Visa application was filed, the Derivative T-Visas are available to this noncitizen’s spouse and children.

15.9.2.C  Date of Entry for Purposes of Eligibility for Some Benefits and Services

15.9.2.C.1  Refugee Cash Assistance (RCA) and Refugee Medical Assistance (RMA)

RCA and RMA are only available for the first eight months from the individual’s date of entry into the U.S., or the date the T-Visa status was established.

15.9.2.C.2  Individual Already Present in the U.S.

For an individual who is already present in the U.S. on the date the Derivative T-Visa is issued, the date of entry for federally funded or administered benefits and services is the Notice Date on the I-797.

15.9.2.C.3  Individual Entering the U.S. With T-Visa

For an individual who enters the U.S. on the basis of a Derivative T-Visa, the date of entry for federally funded and administered benefits and services is the date of entry stamped on that individual’s passport or I-94, Arrival Record.
15.9.2.D  Application for Benefits

15.9.2.D.1  Accepting Derivative T-Visa Related Documents

When a Derivative T-Visa holder applies for benefits or services, follow normal procedures for providing services and benefits to refugees, except that the nonimmigrant T-2, T-3, T-4, or T-5 visa is accepted, or the I-797, Notice of Action, or the I-94, Arrival Record, with date of entry and status.

15.9.2.D.2  Contacting the SAVE Coordinator

The Worker must email or fax the documentation the immigrant has provided to the Systematic Alien Verification for Entitlement (SAVE) Coordinator, including the benefits for which the individual has applied. The SAVE Coordinator will respond with eligibility/verification information and notify the Federal Office of Refugee Resettlement (ORR) of the benefits for which the individual applied.

**NOTE:** At this time, the SAVE system does not contain information about victims of a severe form of trafficking or nonimmigrant noncitizen family members.

15.9.2.D.3  Receiving Response From SAVE Coordinator

Once the response is received from the SAVE Coordinator, the Worker takes the appropriate action regarding eligibility as outlined in Section 15.8.

16.1 INTRODUCTION

This chapter sets forth specific policy and procedures which apply only to the Supplemental Nutrition Assistance Program (SNAP), including special living situations and emergency SNAP assistance for disaster victims.
16.2 SPECIAL LIVING SITUATIONS

Some living situations require special information, instructions, or procedures. Special living situations are involved in determining assistance group (AG) composition. The eligibility information necessary to determine AG composition is contained in Chapter 3. Other information about such special situations is presented in this section, including information about group living facilities (GLFs), residents of drug/alcohol treatment and rehabilitation centers, shelters for battered persons, and homeless persons and residents of homeless shelters.

16.2.1 GROUP LIVING FACILITY

Residents of GLFs may be eligible when the requirements in Chapter 3 are met.

16.2.1.A Definition of GLF

For its residents to qualify for Supplemental Nutrition Assistance Program (SNAP), the GLF must:

- House no more than 16 residents;
- Be a public or private non-profit group home; and,
- Be certified by the State under Chapter 1616e of the Social Security Act or be certified under standards comparable to Chapter 1616e as implemented by the appropriate West Virginia State agency and approved by the Secretary of the U.S. Department of Agriculture (USDA).

To obtain the approval of the Secretary of the USDA, the following information must be sent to the Division of Family Assistance (DFA) Economic Services Policy Unit: name and address of GLF, contact person for GLF, copy of State certification or approval of operation, name of contact person in the appropriate State agency. Upon receipt of this information, the DFA Economic Services Policy Unit will obtain a written statement of the standards used to approve operation and forward it to the Food and Nutrition Services (FNS) Regional Office. The DFA Economic Services Policy Unit will respond in writing with the USDA decision.

Most of the facilities involved are approved by the Office of Children and Adult Services as Adult Family Care Homes. However, there may be others licensed by the Division of Health which may qualify if they are certified under Chapter 1616(e) of the Social Security Act.
All Adult Family Care Homes approved within the Department of Health and Human Resources (DHHR) are non-profit and are certified under Chapter 1616(e) of the Social Security Act.

Most Personal Care Homes licensed by the Division of Health are for-profit organizations. To determine if the Personal Care Home is non-profit, verification of tax-exempt status is required.

Each county office is responsible for verifying that the GLF meets these requirements. The GLF is responsible for providing sufficient documentation. Documentation of USDA Food and Nutrition Service (FNS) authorization is verification of certification by the State. See 16.2.1.C below. When the GLF is authorized by FNS, but is unable to document this fact, the Worker must contact the DFA Policy Unit. The DFA Policy Unit will contact FNS to confirm the authorization.

16.2.1.B When the GLF Is the Authorized Representative

When the GLF is the client's authorized representative, the client is approved as a one-person AG.

SNAP benefits may be used to purchase food for communal meals or for meals distributed to the residents individually. The GLF may permit the resident to use his SNAP benefits to purchase meals supplied by the facility or to purchase food. The overriding consideration is that each resident's SNAP benefits must be used for meals intended for that resident.

With Electronic Benefits Transfer (EBT), an individual employee of the GLF may be an authorized cardholder to receive an EBT card and access the SNAP benefit account for the client. The same hierarchy for card issuance applies as for any SNAP AG. See Chapter 1.4.19.

The GLF is responsible for notifying the Department of any changes in the individual's circumstances, including when the resident leaves the GLF. The GLF is also responsible for all overpayments, losses, misuse and fraudulent acts that occur while the client is a resident of the facility.

When the Residents Apply for Themselves

If the residents of the GLF apply on their own behalf or through their own authorized representative(s) who does not represent the GLF, normal processing procedures are followed. The GLF determines if residents should make application as one-person or multiperson AGs.

If a resident or group of residents apply on their own, they assume liability for any overissuances they may receive. They also have all of the responsibilities of any other AG, including reporting changes.
SNAP benefits may be turned over to the GLF to purchase food for meals consumed communally or individually. The residents may also keep the SNAP benefits and use them to purchase meals supplied by the GLF or to purchase food for their own meal preparation. When the resident applies for himself, he decides who, if anyone, is an authorized cardholder for him to use his SNAP benefits.

16.2.1.C Authorization by FNS as Retail Food Stores

Before the GLF is permitted to redeem SNAP through wholesalers, it must be authorized by the FNS of USDA as a retail food store.

Any GLF not acting as an authorized representative for all of its eligible residents requires FNS authorization as a retail food store, if the facility wishes its residents to purchase meals with SNAP benefits.

When the GLF is authorized to accept SNAP benefits, it may qualify for a point of sale (POS) terminal to use EBT benefits. The GLF may also credit SNAP benefits when a resident leaves the GLF. See 16.2.1.G below.

The GLF does not have to be authorized as a retail store for its residents to qualify for SNAP benefits.

16.2.1.D Responsibilities of the GLF

For its residents to receive SNAP, the GLF must accept the following responsibilities:

- Determine whether the facility will act as the authorized representative for all or part of its residents and which residents may apply individually or in groups on their own behalf;
- Verify the qualifications in 16.2.1.A above;
- Provide a monthly list of all participating residents to the Community Services Manager (CSM);
- Meet the requirements in 16.2.1.C above, if applicable; and
- Agree to random on-site visits that may be made by State Office staff.

It is suggested that the CSM, or designee, explain these responsibilities to the GLF at the time of the first inquiry about participation.
16.2.1.E Responsibilities of the Worker

The Worker has the following responsibilities:

- Accept and process any application made by or on behalf of residents of GLFs;
- Accept the GLF’s determination of who will apply for the residents and how they are grouped into AGs;
- Explain how SNAP benefits and the EBT card may be used by eligible residents, and the requirements found in 16.2.1.D above, if applicable;
- Verify the GLF requirements 16.2.1.A above;
- Explain the responsibilities of the GLF; and
- Report any suspected misuse of SNAP benefits by the GLF to the DFA Policy Unit; complaints will be referred to the USDA.

16.2.1.F A Change in the Status of the GLF

When a GLF loses its FNS authorization as a retailer, the residents who applied on their own behalf continue to be eligible to participate. Those for whom the GLF was the authorized representative must be evaluated individually for eligibility. Upon loss of FNS authorization, SNAP benefits must not be used to purchase food or meals from the GLF.

16.2.1.G When the Resident Leaves the GLF

Residents who apply on their own behalf retain the use of their SNAP benefits and are entitled to take their remaining benefits with them if they subsequently leave the GLF at any time during the month.

A resident who applies on his own behalf and receives his benefits by EBT, requires no return of benefits. If, for some reason, he has a GLF employee as an authorized cardholder, he must request the removal of the cardholder or a change to another cardholder.

If a group of residents apply as one AG, and a resident leaves the GLF, that resident’s prorated monthly share of the remaining SNAP based upon the date the resident left the facility must be given to him by the facility or the other AG members, whichever is appropriate. The AG must decide how to let the individual who is leaving the GLF spend his portion of the SNAP benefits.
The individual’s share is determined by dividing the dollar value of the remaining SNAP benefits by the number of persons in the AG, then using the proration table in Chapter 4 Appendix D to determine the prorated amount for the rest of the month.

When the GLF is the authorized representative and the resident leaves, the GLF has specific responsibilities to:

- Notify the DHHR through a SNAP Change Reporting Form that the client has left the facility, the client’s new address if available and that the facility is no longer an authorized representative for the client.
- Provide the client with a SNAP Change Reporting Form once it becomes aware of the client’s intent to leave and advise the client to return the form to the DHHR within 10 days.
- Provide the client with his EBT card within 5 days of the client’s departure if the card was in possession of the facility. If the facility is unable to provide the EBT card to the client, then the facility must provide the EBT card to the DHHR within the same 5-day period.
- Refund a prorated amount of the household’s monthly allotment back to the client’s EBT account based on the number of days in the month that the client resided at the facility. If the facility is authorized as a SNAP retailer and has POS equipment, then the center must process a refund to the client’s EBT card. If the facility either (1) has an aggregate EBT card or (2) uses individual cards as an authorized representative, the DHHR must be notified so that the DHHR can transfer the prorated portion of the client’s monthly allotment from a bank account owned by the facility to the client’s EBT account.

**EXAMPLE:** GLF is authorized representative for a client in the facility. Client receives $100 for the entire month. The client leaves on the 18th. The current balance on the EBT card is $20. Since the prorated amount for $100 is $43, the GLF would have to refund the client the difference, or $23.

If the GLF has taken benefits out of the account which must be returned and the GLF has POS equipment, the benefits can be credited to the client’s EBT account. When the GLF is the authorized representative/payee for the client, the GLF’s access to the account must be stopped immediately and a new payee entered in RAPIDS. When the GLF does not have POS equipment and the transfer must be made, the DHHR must take action to add the benefits to the client’s EBT card within 5 days of the date the DHHR is notified by the facility or the client of the needed transfer and refund.
16.2.2 RESIDENTS OF DRUG/ALCOHOL TREATMENT AND REHABILITATION CENTERS

16.2.2.A Who Is Eligible

Residents of public or private, non-profit drug addiction or alcoholic treatment and rehabilitation centers and their children who live with them are eligible to participate in SNAP if all other eligibility requirements are met. They are required to use the center as an authorized representative and cardholder, when applying for and using SNAP benefits. Spouses who live with the residents in the center and who are not participants in a treatment program are ineligible to be included in the AG. See Chapter 2.2.

Drug addiction or alcoholic treatment and rehabilitation program means any drug addiction or alcoholic treatment and rehabilitation program under Part B of Title XIX of the Public Health Service Act, conducted by a private, non-profit organization or institution or a publicly operated community mental health center. "Under Part B of Title XIX of the Public Health Service Act" is defined as meeting the criteria which would make it eligible to receive such funds, even if it does not receive the funding.

The client must be a participant in the programs offered at the center to be eligible. Residence in one of the centers is presumed to mean participation, unless the Worker has reason to believe otherwise.

These programs need to be authorized by FNS to accept SNAP benefits as a retailer or operate under Part B of Title XIX of the Public Health Service Act, even though Title XIX funds may not be received by the program in order for the residents to qualify for SNAP benefits.

16.2.2.B Responsibilities of the Center

The center is responsible for notifying the Department of any changes in the individual’s circumstances and when the resident leaves the center. In addition, the center is responsible for any misrepresentation or fraud that it knowingly commits in the certification of its residents. The

NOTE: For special considerations involving alcoholic treatment and rehabilitation programs located on Indian reservations, contact the DFA Policy Unit.
center is also liable for all losses or misuse of SNAP benefits or EBT cards held for the residents and for all overissuances which occur while the individual is a resident of the center.

The center must provide the Department with a monthly list of all participating residents, and is subject to periodic on-site visits made by State Office personnel.

When the resident leaves the center, the center has the same responsibilities outlined in 16.2.1.G above. The actions which are taken when the center experiences a change in status are the same as those specified in 16.2.1.F above.

The worker must notify the DFA Policy Unit in writing when the worker has reason to believe that a Drug/Alcohol Treatment and Rehabilitation Center is misusing benefits and/or the EBT cards in its possession. The DFA Policy Unit is required to forward these suspicions to the USDA.
16.2.3 SHELTERS FOR BATTERED PERSONS

Residents of abuse shelters for battered persons and their children qualify for SNAP benefits under the following circumstances, provided all other eligibility requirements are met.

16.2.3.A Who Is Eligible

Adults and children residing in abuse shelters are exempt from the policy for residents of an institution in Chapter 2.2. Therefore, even residents who receive the majority of their meals from the shelter qualify, if otherwise eligible.

16.2.3.B Determining AG Composition

The AG composition is determined as for any other AG. See Chapter 3.2. Considerations such as food storage or sharing living space are not used to determine AG composition.

16.2.3.C County in Which the Application Should Be Made

Residents of abuse shelters must apply in the county where the shelter is located, since that is their current county of residence.

16.2.3.D When the Resident Is Already Included in a SNAP AG

The individuals who leave the original AG are eligible as a separate AG, beginning the month of the separation. They are certified solely on the basis of their income, assets, and the expenses for which they are responsible.
Chapter 16

16.2.3.E  Special Income and Asset Considerations

The income of other persons usually in the resident's AG is not counted, unless the income, or a portion of it, is paid directly to the resident of the shelter.

See Chapter 5.6 for special consideration of jointly owned assets.

16.2.3.F  Authorized Representatives and Cardholders

Some shelter residents are reluctant to leave the shelters because they fear for their safety. The resident may choose to use an employee of the shelter, another resident, or anyone else who is knowledgeable about the applicant's circumstances as an authorized representative to make application or conduct other business. The resident may select any individual as an authorized cardholder.

16.2.4  HOMELESS PERSONS AND RESIDENTS OF HOMELESS SHELTERS

Residents of shelters for the homeless are not considered residents of an institution and, if otherwise eligible, qualify for participation in SNAP. SNAP benefits may be used to purchase meals prepared by approved homeless meal providers.

16.2.4.A  Definition of a Homeless Individual

For the purposes of this policy, a homeless individual is a person who lacks a fixed or regular nighttime residence, or a person whose primary nighttime residence is one of the following:

- A supervised shelter designed to provide temporary accommodations, such as a congregate shelter;
- A halfway house or similar institution that provides temporary residence for persons who might otherwise be institutionalized;
- A temporary accommodation in the residence of another individual. Homeless is defined in this manner for up to a 90-day period. When the homeless individual(s) moves from
one residence to another, a new 90-day period begins. A 90-day period in one residence continues when there is a break in participation; or

- A place not designed for, or ordinarily used, as a regular sleeping accommodation for human beings, such as a vehicle, a hallway, a bus station, a lobby or similar places.

16.2.4.B Definition of a Homeless Meal Provider

A homeless meal provider is a public or private non-profit establishment, such as, but not limited to, a soup kitchen or temporary shelter which is approved by the State and feeds homeless persons.

To accept SNAP benefits as payment for prepared meals, the homeless meal provider must:

- Be a public or private non-profit organization as defined by Chapter 501(c)(3) of the Internal Revenue Code (IRC).

- Be an establishment or shelter that serves meals to homeless persons. The Department must certify to FNS that this is true. It is the responsibility of the CSM or his designee to provide this certification to DFA by memorandum.

- One on-site visit must be made by the CSM or designee to confirm that the facility does, in fact, provide meals to the homeless. Once confirmed, the approval continues unless there is reason to question the status. If this occurs, another on-site visit is made and the results reported to DFA.

- Serve meals that include food purchased by the meal provider. Homeless meal providers serving meals which consist entirely of donated foods are not eligible for authorization to accept SNAP benefits.

Meal providers must be certified by FNS to accept SNAP EBT benefits.

In determining the cost of prepared meals, the homeless meal provider may not require the client to pay more than the average cost of the food purchased in a meal served to the client. The average cost is determined by averaging food costs over a period of up to one calendar month. Costs incurred in the acquisition, storage, or preparation of the meals, as well as the value of donated food, are not used in determining the cost. However, voluntary payments in excess of the average cost may be accepted by the meal provider.
16.2.4.C SNAP Participation for Persons Who Are Homeless

Persons who are homeless qualify for participation in SNAP, if otherwise eligible, because there is no durational or fixed residency requirement.

16.2.4.D AG Composition

The AG composition is determined as for any other AG. See Chapter 3.2.

Considerations such as food storage or sharing living space are not used to determine AG composition.

Not all residents of the shelter are included in one AG, even though they may eat their meals together.

16.2.4.E Authorized Representatives and Cardholders

Homeless AGs have the right to choose an authorized representative or cardholder. However, the homeless meal provider may not be the authorized representative or cardholder, even if the client lives where he receives his meals.

16.2.4.F Use of SNAP Benefits

Homeless AGs may use their SNAP benefits to purchase prepared meals from homeless meal providers, as long as the meal provider has been authorized to accept SNAP benefits according to 16.2.4.B. However, homeless meal providers may only request voluntary use of SNAP benefits for payment. If others have the option of eating free or making a monetary donation, SNAP clients must be provided the same option of eating free or making a donation in money or SNAP benefits.
16.3 EMERGENCY SNAP ASSISTANCE FOR DISASTER VICTIMS

The decision to implement Disaster Supplemental Nutrition Assistance Program (D-SNAP), a modified version of the regular Supplemental Nutrition Assistance Program (SNAP), or to utilize regular SNAP depends on the nature of the disaster.

16.3.1 PRE-CONDITION FOR AUTHORIZATION OF THE DISASTER PROGRAM

The following pre-conditions must be met before the D-SNAP can be authorized:

- The President must sign a proclamation for an Individual Assistance Disaster Declaration in a designated area of West Virginia.
- Commercial channels of food distribution (wholesale and retail food outlets) must have been disrupted and subsequently restored.
- The regular SNAP must be unable to handle the increased number of households needing food assistance expeditiously.

Commercial channels of food distribution are disrupted under one or more of the following conditions directly caused by the disaster:

- Retail food outlets are closed.
- Normal operating hours of food outlets are reduced to the extent that a household’s opportunity to purchase food supplies is significantly reduced.
- Power failure significantly restricts the operation of food outlets.
- Household access to retail food outlets is limited because of disruption to transportation such as damage to roads, bridges or disruption of public transportation.
- Unusually heavy demand for food exists such that a household’s opportunity to purchase food supplies is significantly reduced.
- Delivery of food supplies to food outlets is disrupted to the extent that a household’s opportunity to purchase food supplies is significantly reduced.

Commercial channels of food distribution will be considered restored when conditions of operations have been improved to the extent that households have reasonable access to food outlets with sufficient food supplies.

Authorization of disaster SNAP benefits to affected areas is issued by the United States Department of Agriculture (USDA).
16.3.2 DISASTER DECLARATION PROCEDURES

The Department of Health and Human Resources (DHHR) must determine if the regular SNAP can meet the needs of the affected area when a part of the state has been affected by a disaster. When the regular SNAP cannot respond due to the number of affected households, the DHHR must request and receive approval from Food and Nutrition Services (FNS) to operate D-SNAP or a modified SNAP. Requests should be addressed to the SNAP Director of the FNS Regional Office.

FNS will approve or deny the request to implement disaster certification and issuance procedures based on the information provided in the application. If the request is denied, the DHHR may request that FNS review the decision based on additional information when appropriate.

The President must first sign a proclamation of an Individual Assistance Disaster Declaration in a designated area of the state before the DHHR can submit a request to operate D-SNAP. D-SNAP can only be operated within the specified geographic area. All other disaster-related SNAP needs will be addressed through either regular SNAP or a modified version of regular SNAP.

The request should include at least the following information:

- Date and type of disaster;
- Description of the geographic areas;
- Statutory prerequisites;
- Food needs cannot be met by the regular SNAP;
- Number of households expected to apply;
- Expected length of the application period;
- Expected length of the benefit period;
- Residency requirement;
- Security plan;
- Crowd control measures;
- Fraud control measures;
- Process by which applications will be processed and benefits issued; and,
- Description of planned post-disaster review activities.
16.3.3 SPECIFIC ELIGIBILITY CRITERIA

Specific eligibility criteria vary for each disaster. Eligibility guidance will be given as the DHHR prepares to implement D-SNAP.

16.3.4 CLIENT NOTIFICATION AND FAIR HEARINGS

The Worker must advise the D-SNAP applicant of his eligibility status at the time the application is completed. If eligible, the applicant must be advised of the amount of the allotment and the period the benefits are intended to cover. This information is provided verbally and must be followed up in writing.

The Worker must notify applicants who are denied in writing using form FS-D-2 or by completing an DFA-NL-A for each individual denial. As with any other Department action, the client has the right to request a Fair Hearing. The denied applicant must be offered an immediate, on the spot, supervisory review of the Worker's action. This supervisory review is in addition to the right to a Fair Hearing, not a replacement for it.

17.1 INTRODUCTION

The intent of the Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) program is to provide Supplemental Nutrition Assistance Program (SNAP) clients with opportunities to gain skills, training, or experience to improve their employment prospects and reduce their reliance on SNAP benefits. This is accomplished through the SNAP E&T Worker and participant developing a Personal Responsibility Plan (PRP), which includes an individualized Self-Sufficiency Plan (SSP). The PRP includes the DFA-SNAP E&T-1 and the SSP.
17.2 AREAS OF RESPONSIBILITY

To operate the Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) program, the Department of Health and Human Resources (DHHR) Worker and the SNAP E&T Worker are responsible for duties as outlined in this section. Referrals are made to the SNAP E&T Worker through the eligibility system. The SNAP E&T Worker focuses on providing SNAP E&T participants with opportunities to gain skills, training, or experience to improve employment prospects.

17.2.1 DHHR WORKER RESPONSIBILITIES

The DHHR Worker is responsible for:

- Processing Supplemental Nutrition Assistance Program (SNAP) applications and determining eligibility;
- Managing the SNAP case;
- Determining work registration exemptions;
- Making decisions on determination of exemption from participation based on recommendations from the SNAP E&T Worker;
- Informing those exempt from registration that it is possible to volunteer for SNAP E&T;
- Referring the case to the SNAP E&T Worker in the eligibility system;
- Referring all clients subject to the SNAP work requirements, including exempt SNAP E&T participants, to WorkForce West Virginia; and
- Representing the DHHR in hearings, pre-hearing conferences, and providing testimony and documentation.

17.2.2 SNAP E&T WORKER RESPONSIBILITIES

The SNAP E&T Worker is responsible for:

- Accepting mandatory referrals for non-exempt Able-Bodied Adults Without Dependents (ABAWD) and other exempt SNAP clients who request SNAP E&T services;
- Notifying participants of appointments for orientation/enrollment, initial assessment, and development of the Personal Responsibility Plan (PRP), which includes the responsibilities of the program and the Self-Sufficiency Plan (SSP);
• Screening and scheduling participants for SNAP E&T activities;
• Supporting and following up on SNAP E&T activities, including reviews of contact reports or participation documentation;
• Entering data into the eligibility system for appropriate reporting for all SNAP E&T cases after referral;
• Preparing information for DHHR for hearings and pre-hearing conferences and providing testimony as appropriate;
• Notifying the DHHR Worker when SNAP E&T participants are not complying with program requirements using the SNAP E&T Notification form (DFA-SNAP E&T-2); and
• Completing a monthly report that lists SNAP E&T participants served during each month of eligibility and the amount of money spent for each participant.
17.3 SNAP E&T ACTIVITIES

All participants will complete a Self-Sufficiency Plan (SSP), as part of the Personal Responsibility Plan (PRP). The activities available for placement are listed below. Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) funds may only be used to pay for activities after all other funding sources (Pell Grant, Workforce Innovation and Opportunity Act [WIOA], etc.) have been used. If the same activity is offered through multiple vendors, participants must be placed in free programs prior to using SNAP E&T funds.

Participants are to be paid a maximum of $25 transportation reimbursement per month of activity, not to exceed actual cost. Participants must provide receipts. For the Job Search activity only, payment will be made prior to, or when Job Search begins, and must be taken into consideration when scheduling the Job Search activity.

17.3.1 JOB SEARCH ACTIVITY

Job Search is a qualifying SNAP E&T activity only when it immediately precedes a qualifying placement. The duration of this activity must not exceed two consecutive months. Job Search may be utilized when an individual is initially enrolled in SNAP E&T and other activities are not currently available, but the duration of this activity must not exceed two consecutive months before the client is enrolled in another qualifying activity.

Participants who have satisfactorily completed another program activity are placed in this activity. With the exception of an individual being placed in this activity during initial enrollment due to a lack of currently available activities, a client must never be placed in this activity more than once within a 12-month period. This activity consists of counseling on an as-needed basis.

Participants are required to make a pre-determined number of employer contacts in a month, not to exceed 12 per month. Participants must record job contacts on the WorkForce West Virginia Department of Health and Human Resources (DHHR) Employer Contact Form (DFA-WVV-25), and return to the SNAP E&T Worker at the end of the Job Search period.

The SNAP E&T Worker must verify the job contacts on a random sample basis. When feasible, one contact should be with Job Service to register for work and to obtain WIOA and Work Opportunity Tax Credit (WOTC) certification. If the required contacts have not been made or if other questions arise, an interview is scheduled to determine good cause or to discuss other concerns when the DFA-WVV-25 is not returned.

It may not always be feasible for a participant to complete the required number of contacts. The SNAP E&T Worker must determine if good cause exists for not completing the required number
of contacts. An example of good cause would be a lack of employers within a reasonable distance to the participant. Also, the participant must possess the skills normally required by the local employers.

When the Worker determines that an insufficient number of employers are available, the participant satisfies the requirements for Job Search if he has contacted the available employers and attended the scheduled classroom training.

**17.3.2 EDUCATIONAL ACTIVITIES**

This activity includes placement in existing structured activities such as high school, high school equivalency classes, Adult Basic Education (ABE), Literacy, English as a Second Language, and post-secondary education. High school, high school equivalency, English as a Second Language, and ABE classes are operated by the County Board of Education. In some counties, private not-for-profit groups offer this type of activity with Workforce Investment Board (WIB) funding. Participants in college and other post-secondary activities must use private funds or existing grants such as the Pell Grant, to cover the cost of tuition, books, and fees before SNAP E&T funding may be used. Skills training may be paid after all other resources are exhausted for vocational training not including college.

Participants under the age of 30 without a high school diploma or high school equivalency are required to enter remedial or secondary education activities if they are not working part-time or involved in another activity. Participants who are already in college courses are expected to continue participating or, as required, participate in another activity.

Only those scheduled to attend classes at least 24 hours each month will receive reimbursement for transportation. Hours spent attending online classes from the participant’s home do not count toward the 24 hours.

The SNAP E&T Worker must refer participants to the appropriate program, and monitor progress on a monthly basis. A time sheet (DFA-TS-12) must be completed for each month’s participation and be signed by each service provider. The SNAP E&T Worker must also work with participants to help eliminate barriers to participation by making referrals to other services available in the community. The SNAP E&T Worker must work with each service provider to determine the level of progress being made.

Participants who participate in these activities are expected to improve basic functioning levels and/or obtain a high school equivalency. Upon completion, participants may be required to enter either the Vocational Training or another more advanced, educational activity.
In order for non-exempt Able-Bodied Adults without Dependents (ABAWD) to meet the SNAP E&T participation requirement, the participant must attend the educational facility 20 hours per week. The minimum number of hours all other participants must meet to be in good standing with the program is equal to the negotiated hours found on the participant’s SSP. For participants other than non-exempt ABAWDs, there is no minimum number of hours the participant must commit to on the SSP.

The following describes educational activities that may meet a participant’s work requirement.

17.3.2.A  Literacy Program

When the participant cannot read, he may be placed in a literacy program. To qualify for such placement, the participant must test at or below standards set by the literacy program.

17.3.2.B  High School

The participant must adhere to the established attendance policy of the institution.

When the participant is no longer eligible to be in the school system, or placing him back in the school system is inappropriate, he must be placed in ABE, vocational training, or an alternative school setting.

17.3.2.C  English as a Second Language

Participants who cannot read, write, and/or speak English, may receive education in English language skills.

17.3.2.D  Adult Basic Education (ABE)

ABE includes training in basic skills. It may also be used to help prepare for the high school equivalency test.
17.3.2.E Career and Technical Education

For non-exempt ABAWDs, attending undergraduate college classes part-time may meet the work requirement for a participant if the requirement of 20 hours per week is met. Otherwise, hours spent in class may help meet the requirement. If the 20-hour requirement is not met, the participant is not meeting the work requirement. For every credit hour the participant attends class, he will receive credit for one additional hour for study time. For participants not subject to ABAWD work requirements, there is no SNAP penalty for failing to meet the hours agreed upon in the SSP, but failure to meet obligations without good cause may lead to disenrollment from the SNAP E&T Program.

Some undergraduate courses require that student participants be placed in an unpaid work environment. Such undergraduate placements may also be used to meet the work requirement. These placements include, but are not limited to: student teaching, internships, clinical work assignments, and unpaid work experience. When the non-exempt ABAWD student participant does not participate in such activities for a sufficient number of hours to meet his participation requirement, he must also participate in another activity.

A release of information form may be used to obtain information about a participant's participation in education from institutions and other education activity providers. The form authorizes the SNAP E&T Worker to request such information.

The form must be read and explained to the participant prior to a specific placement or requirement. The form is signed by the participant at the time the SNAP E&T Worker needs to obtain specific information. After completion, the form is filed in the case record.

The program that a SNAP E&T participant may be placed in must meet the definition of career and technical education. Career and technical education is defined as a program that:

- Provides relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging fields;
- Provides technical skill proficiency, an industry-recognized credential, a certificate, or an associate degree; and
- Includes competency-based applied learning that contributes to the academic employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of an industry, including entrepreneurship, of an individual.
Any course or program of study that a client is placed into must be able to be completed in four years or fewer. While the client may take longer than four years to complete the program, the program must be designed to be completed in four or fewer years.

### 17.3.3 VOCATIONAL TRAINING

Vocational Training enables participants to acquire the necessary knowledge and skills to compete in a specific occupation. This component may only be used when the training is likely to lead to employment. This activity is provided through existing resources available in the community on a non-reimbursable basis, until the resources have been exhausted.

This training must be preparation for a specific occupation and conducted by an instructor in a non-work site or classroom setting. Entry into this activity is selective and training is authorized only for programs that can be completed in one year or less.

Non-exempt ABAWDs enrolled in Vocational Training are required to participate a minimum of 80 hours per month. The Vocational Training component is used to train participants in specific job skills for jobs that exist in the local labor market area. Participants in need of skill training must be referred to available vocational training schools, WIB sponsors, and industrial training programs that provide the training free to the participant. The participant may be referred to a facility that charges a fee, only after it is determined that cost-free training is not available.

The vocational training facility must report participant attendance and progress on a monthly progress report, DFA-TS-12. The SNAP E&T Worker must monitor and review the progress on a monthly basis. Vocational Training will vary according to training availability and the labor market needs of a particular area.

Participants who have obtained a high school equivalency or certification to become employed in a particular occupation, or to learn a skill in order to become employable, may be referred to Vocational Training facilities operated on the local level by the Board of Education.

### 17.3.3.A SNAP E&T Worker Responsibilities

The SNAP E&T Worker must:

NOTE: Exceptions may be made by the Division of Family Assistance (DFA) Policy Unit.
• Determine who should be referred to outside sources for training during the assessment process. See Section 17.4, and the development of the SSP;

• Make referrals to Vocational Training, WIB, third-party partners, and specific local programs;

• Monitor the attendance sheets, DFA-TS-12, monthly; and

• Maintain contact with the participant and service provider to ensure satisfactory progress is being made and to help eliminate barriers when needed.
  o Participants who fail to meet the required hours cannot be considered as making satisfactory progress, unless the participant is also in another component and meeting the hourly requirements.

17.3.3.B Placement Criteria

A participant, who is determined to have the ability to complete the course work and meets the entrance requirements, may participate when:

• The goal is to enter an occupation that requires completion of a vocational course prior to employment; or

• He has no job skills, obsolete or non-marketable skills, and must be retrained to find employment; or

• He does not have a High School Diploma/High School Equivalency, and the skill training has been identified as an alternative that will lead to employment.

17.3.3.C Placement Standards

The training institution and instructor must meet the licensing and certification standards of the appropriate governing agency. Unlicensed or uncertified instructors are not approved for training when licensing or certification standards exist.

17.3.3.D Contracts
Participants must be placed into training positions on a no-cost basis, if such positions are available through WIB, the Department of Education, Veterans Administration (VA), or other providers, before additional training positions may be considered. These providers are not reimbursed unless all existing training positions have been filled.

The SNAP E&T Worker may write contracts for participants, without DFA approval, for an amount not exceeding $600. Individual contracts exceeding $600 must be approved by DFA.

The SNAP E&T Worker uses the Training Agreement, DFA-TA-34.

### 17.3.3.E Payment Limitations

Payments are limited to tuition, books, supplies, and expenses associated with completing the course of study. Costs for medical procedures, such as Hepatitis B vaccines or physical exams, are not included. There is a limit of $600 per individual contract. This limit cannot be exceeded without approval from DFA. To obtain approval, a written request must be submitted to the Director of DFA and include the participant's name, address, SSN, name of the training facility, and the occupation for which training is sought. The request must also include the usual pay rate for the occupation, as well as the current employment prospects and labor demands.

### 17.3.4 COMMUNITY SERVICE PROGRAM (Non-exempt ABAWD only)

This program is for non-exempt ABAWD SNAP E&T participants. These participants must be placed with agencies described below in order to meet the work requirement. The primary purpose of Community Service is to provide work experience and training to assist a participant who has limited work experience, is under-employed, or has no immediate employment opportunities.

Placements are only made with private not-for-profit agencies or public agencies. The SNAP E&T Worker is responsible for approving all work positions and for collecting monthly time sheets for each participant.

Participation hours for Community Services are governed by the Fair Labor Standards Act (FLSA). The maximum monthly participation obligation is determined by dividing the amount of SNAP allotment by either of the state or federal minimum wage, whichever is higher.

Participants are deemed to have met the required number of hours in the component if they participate for the maximum number of hours permitted by FLSA.
The SNAP E&T Worker must work closely with the local WV WORKS staff in making Community Service Placements. A SNAP E&T participant cannot be placed with an existing Community Work Experience Program (CWEP) sponsor.
17.3.4.A Who May Be a Community Service Sponsor

Community Service sponsors are limited to public agencies, such as federal, local, state, and not-for-profit employers. Public service projects are limited to fields such as health, social services, environmental protection, education, urban and rural development and re-development, welfare, recreation, public activities, public safety, and child care. A Community Service sponsor must not place a SNAP E&T participant at a site that has employees in layoff status.

17.3.4.B Requirements of the Sponsor

The Community Service Sponsor must meet the following requirements:

- Provide the participant with guidance and supervision necessary to participate in the work experience project;
- Provide safety equipment, special clothing, and tools needed to perform the assigned duties;
- Assume the cost of any required pre-employment medical examinations;
- Provide medical coverage in the event the participant is injured while volunteering at the work site; and
- Not schedule participants to work split shifts during the work period.
17.4 SNAP E&T PROGRAM

The Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) Worker must assist the participant in achieving self-sufficiency. To accomplish this, the SNAP E&T Worker must assess the participant's knowledge and skills and work with the participant to make informed decisions about the appropriate course of action. The SNAP E&T Worker must enter into a mutual agreement with the participant called a Personal Responsibility Plan (PRP). This plan details:

- The process to achieving self-sufficiency;
- Monitoring the participant's progress;
- Determining changing needs;
- Determining the need for supportive services; and
- Appropriate follow-up action based on the participant's performance.

17.4.1 CASE MANAGEMENT

The SNAP E&T Worker must use Work Programs (WP) in the case management system.

At each face-to-face or telephone contact with a (SNAP E&T) participant, the SNAP E&T Worker must offer the participant an activity if he is currently not participating in any. Procedures have been developed to track the offer of a placement and the actual acceptance of a placement. These must be noted in the case.

At the time a SNAP E&T participant actually begins the activity, the appropriate component code must be entered in the case management system to reflect the status. The start date and an anticipated end date must also be entered.

To meet the goals of the SNAP E&T program, the SNAP E&T Worker performs the following activities:

- The participant and Worker need to determine the best means for the participant to achieve self-sufficiency, accept personal responsibility, and, if applicable, to meet the work obligation.
- Establishes for the participant reasonable and appropriate requirements related to the participant's capability to perform the tasks on a regular basis, including physical capacity, skills, experience, family responsibilities, and residence. Reasonable and appropriate requirements must be based on the participant's proficiencies and skills as assessed.
• Monitors compliance progress to achieve self-sufficiency.
• Provides continuous assessment of the participant's needs, goals, and negotiates adjustments to the Self-Sufficiency Plan (SSP) as necessary.
• Develops employment and other work activity opportunities for the participant within the community.
• Makes referrals to other community services, as needed.
• Provides payment for supportive services, i.e. transportation, as appropriate.
• Identifies potential resources and makes appropriate referrals to access them.

This case management process provides for substantial flexibility in administration of the work component of SNAP E&T.

Self-sufficiency is defined as being able to provide for one's basic needs without relying on Supplemental Nutrition Assistance Program (SNAP) benefits. When a participant is not able to become completely self-sufficient, the goal must, at a minimum, be to reduce reliance on SNAP benefits as much as possible or maintain eligibility for SNAP benefits for certain clients.

17.4.2 ASSESSMENT

Assessment is the ongoing process of determining each participant's goals, skills, needs, and challenges. Assessment begins at registration and continues until case management stops.

An in-depth assessment is necessary to discover the participant's abilities to meet goals and to develop an ongoing plan to meet his goals.

The assessment must focus on information useful to both the participant and the SNAP E&T Worker in evaluating the participant's abilities.

As the participant's circumstances change, it is necessary to change the terms of the SSP to assist the participant in becoming successful.

The assessment process must include a series of interviews and conversations with the participant. It may also include educational and/or aptitude or interest testing and interpretation of this information.

The SNAP E&T Worker must develop a plan to schedule educational, aptitude, and interest testing as appropriate and available. The test administrator is responsible for completing a release of information for each participant.
Upon receipt of test results, the SNAP E&T Worker must record the information in the eligibility system. An interview is scheduled with the participant, as soon as possible, to discuss the test results.

Participants who indicate substance abuse problems should be referred for evaluation and counseling prior to scheduling vocational testing. Determination of a substance abuse problem is based on statements made by the participant, not by the SNAP E&T Worker.

### 17.4.3 DEVELOPMENT OF THE SELF-SUFFICIENCY PLAN (SSP)

The SSP is the product of negotiations between the participant and the SNAP E&T Worker. It is subject to renegotiation throughout the participant's receipt of SNAP. Initial and ongoing assessments aide the SNAP E&T Worker in providing reasonable guidance to the participant to attain his goals as part of the SSP.

The SNAP E&T Worker must explore family situations, education, work history, skills, aptitudes, and attitude toward work, employment potential, possible social services, and/or other support systems. Individual circumstances may require more or less exploration.

The following assessments are mandatory and must be documented in the case management system:

- Education and Testing Assessment
- Job Readiness Assessment
- Employment History Assessment

The SNAP E&T Worker must explore all of the aptitudes, interests, and work goals presented by the participant to determine which are pertinent. The SNAP E&T Worker must determine what resources are available to the participant and to the Department of Health and Human Resources (DHHR). The SNAP E&T Worker must outline steps and establish benchmarks to lead to the participant's self-sufficiency. In addition, the SNAP E&T Worker must explore other possibilities not presented by the participant and offer these to the participant as alternatives. The SNAP E&T Worker is expected to facilitate the participant's wishes, provided they are reasonable and will lead to self-sufficiency.

The SNAP E&T Worker should clarify the participant's goals and the necessary actions to reach the goals.
17.4.4 JOB DEVELOPMENT

Job development and the subsequent placement of participants in employment is the focus of SNAP E&T Program. The SNAP E&T Worker must have knowledge of the local economic base, develop and maintain a job openings base, and participate in various employment-related activities and initiatives. The SNAP E&T Worker must communicate with private employers, related organizations, and third party partners to maintain a good working relationship within this group.

Job development and placement efforts must be coordinated closely with the local WorkForce West Virginia Office and with local WV WORKS staff. Participants must register with the WorkForce West Virginia office and keep registration current. The results of career-oriented testing are shared with the WorkForce West Virginia Office as needed. A Release of Information form, OFS-Release-1, must be signed by the participant prior to sharing information. The completed form must be placed in the case record. To increase the resources available to the participant, contacts are established and maintained with the Division of Rehabilitation Services (DRS), Department of Education, Community Action agencies, and other public and private organizations that could offer activities or support.

APPENDIX B – STATE-APPROVED SNAP EMPLOYMENT & TRAINING OCCUPATION CATEGORIES

- Accountants and auditors
- Aircraft mechanics/service technicians
- Cardiovascular technologist and technicians
- Computer occupations (all other)
- Computer programmers
- Computer use support specialists
- Construction laborers
- Customer service representatives
- Dental hygienists
- Diagnostic medical sonographers
- Elementary school teachers (except special education)
- Eligibility interviewers (gov't programs)
- Emergency medical technicians and paramedics
- First-line supervisors of office and administrative personnel
- General and operations managers
- Hairdressers, hairstylist and cosmetologists
- Health technologists and technicians (all other)
- Heavy and tractor-trailer truck drivers
- Home health aides
- Industrial machinery mechanics
- Licensed practical and license vocational nurses
• Maintenance and repair workers (general)
• Medical and clinical laboratory technologists
• Medical equipment repairers
• Medical records and health information technicians
• Nursing Assistants
• Occupational therapy assistants
• Office clerks (general)
• Operating engineers and other construction equipment operators
• Paralegals and legal assistants
• Personal care aides
• Pharmacy technicians
• Physical therapists assistants
• Physicians assistants
• Police and sheriff’s patrol officers
• Psychiatric technicians
• Radiological technologists
• Receptionists and information clerks
• Residential advisors
• Respiratory therapists
• Secretaries and administrative assistants (except medical and legal)
• Surgical technologists
• Web developers

If the student is enrolled in a program of study which meets the standards of the SNAP E&T program, but does not prepare the individual for an occupation listed above, exceptions may be
made by the Policy Unit in obtaining information necessary to approve or disapprove the program for SNAP E&T eligibility.

### 18.4 WV WORKS PARTICIPATION REQUIREMENTS

#### 18.4.1 INTRODUCTION

#### 18.4.2 REQUIRED PARTICIPATION

- **18.4.2.A All Family Household**
  - **18.4.2.A.1 Participation Requirement**
- **18.4.2.B Two-Parent Family**
  - **18.4.2.B.1 Participation Requirement**

#### 18.4.3 REQUIRED MONTHLY PARTICIPATION HOURS

- **18.4.3.A All Family Household**
  - **18.4.3.A.1 Single Parent of a Child under Age Six**
  - **18.4.3.A.2 Parent under Age 20**
- **18.4.3.B Two-Parent Households**
  - **18.4.3.B.1 Parent under Age 20**

#### 18.4.4 MISSED WORK ACTIVITY HOURS

- **18.4.4.A Planned School Breaks**
- **18.4.4.B Holidays**
- **18.4.4.C Absences**
  - **18.4.4.C.1 Excused Absences**
  - **18.4.4.C.2 Tracking Absences**
  - **18.4.4.C.3 Paid Vacation/Sick Leave**

#### 18.4.5 PARTICIPANT DOCUMENTATION

- **18.4.5.A Methods of Documenting Participation Hours**
- **18.4.5.B Participation Calculation**
  - **18.4.5.B.1 Self-Employment**
  - **18.4.5.B.2 Other Allowable Activities**
  - **18.4.5.B.3 Case Recordings**
  - **18.4.5.B.4 System Coding of Participation Hours**

#### 18.4.6 LIMITATIONS ON COUNTABLE HOURS

#### 18.4.7 DISABILITY/INCAPACITY – DEFINITION FOR TEMPORARY GOOD CAUSE

- **18.4.7.A Establishing Disability without a Physician’s Statement**

18.1 INTRODUCTION

This chapter describes the work requirements of WV WORKS and the services available to assist participants in meeting these requirements and maintaining independence from cash assistance.

18.1.1 PROGRAM BACKGROUND

WV WORKS is West Virginia’s Temporary Assistance for Needy Families (TANF) program. TANF is a cash assistance program funded under a block grant authorized by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) and is designed to help needy families achieve self-sufficiency. This cash assistance program replaced Aid to Families with Dependent Children (AFDC), which included cash assistance to families of unemployed parents (AFDC/U), on January 1, 1997. AFDC/U recipients were automatically eligible for Medicaid. All counties were phased into the WV WORKS Program by January 1998.

Through TANF, WV WORKS provides cash assistance along with a variety of employment and education related services to low income families with dependent children.

The emphasis of the PRWORA is on personal responsibility and employment. The purpose of WV WORKS is to help economically dependent, at-risk families become self-supporting. It is a work-oriented, performance-based, time-limited program that emphasizes employment and personal responsibility. Intensive interaction between the participant and the Case Manager is necessary to establish and maintain the Personal Responsibility Contract (PRC) between the Department of Health and Human Resources (DHHR) and the WV WORKS participant.

PRWORA prohibited any link between the block grant cash assistance program and automatic Medicaid eligibility. Therefore, only those WV WORKS participants who meet eligibility requirements for Medicaid are eligible.

The Deficit Reduction Act of 2005 (DRA) further defined what participation activities count towards meeting the federally-mandated TANF work requirements. The DRA defined specific acceptable core activities and the non-core activities that may be used to meet participation requirements over the core hours.

WV WORKS expects parents and other caretaker relatives to support their own dependent children and those in their care. Every parent and other caretaker who is included in a payment and any non-recipient Work-Eligible Individual in the household has a responsibility to participate in an activity to help prepare for, obtain and maintain gainful employment.
The goals of WV WORKS are to:

- Achieve more efficient and effective use of public assistance funds;
- Reduce dependency on public programs by promoting self-sufficiency; and
- Structure assistance to emphasize employment and personal responsibility.

This chapter discusses the requirement that all adults in the assistance group (AG) and all non-recipient Work-Eligible Individuals must meet a work requirement and describes minimum participation rates to which the State must adhere. Based on the participant’s participation in one or more of the activities described in Sections 18.10 - 18.18, the State’s participation rate is determined. However, the goals of WV WORKS do not include meeting a participation requirement. Instead, the foundation of WV WORKS is self-sufficiency. There are, therefore, some activities which allow the participant to meet his work requirement, but which do not lead to self-sufficiency. The Case Manager may allow the participant to continue in the activity which meets the participation requirement while developing plans with the participant to begin another activity which will accomplish or lead to self-sufficiency.

The eligibility system provides automated support for WV WORKS work requirements by tracking the participant’s involvement in employment and other activities and by providing for the storage and retrieval of information necessary for the assessment process.

### 18.1.2 DEFINITIONS

**WORK-ELIGIBLE INDIVIDUAL**

A Work-Eligible individual is a parent, a caretaker included in the WV WORKS AG, or a minor child head-of-household receiving WV WORKS assistance unless the individual is:

- A minor parent and not the head-of-household or spouse of the head-of-household; or
- A noncitizen who is ineligible to receive assistance due to his or her immigration status; or
- A recipient of Supplemental Security Income (SSI) benefits.

**NON-RECIPIENT WORK-ELIGIBLE INDIVIDUAL**

A non-recipient Work-Eligible Individual is not included in the WV WORKS benefit. He must still complete Orientation, a Personal Responsibility Contract (PRC)/Self-Sufficiency Plan (SSP) and be participating in a work activity; therefore is work-eligible. Non-recipient Work-Eligible individuals include:

- Individuals convicted in federal or state court of having made a fraudulent statement or representation about residence to receive Temporary Assistance for Needy Families (TANF), WV WORKS, Medicaid, SNAP benefits or SSI are ineligible for 10 years from
the date of the conviction. The conviction must have occurred on or after August 23, 1996.

- Individuals who are fleeing to avoid prosecution, custody or confinement after conviction, for a felony or an attempt to commit a felony.
- An individual convicted of a felony under federal or state law when the offense involves the possession, use or distribution of a controlled substance, as defined in Section 102(6) of the Controlled Substance Act and when the offense occurred on or after August 23, 1996; or
- Individuals who are violating a condition of probation or parole which was imposed under federal or state law.
- A parent or other caretaker who has not reported that their child will be or has been out of the home for at least 30 days.

PERSONAL RESPONSIBILITY CONTRACT (PRC)
The PRC (form DFA-PRC-1) is a contract between each of the adult or emancipated minor members of the WV WORKS AG, or non-recipient Work-Eligible Individual(s), and the Case Manager, as the representative of the DHHR. Completion and signature of the PRC form is required prior to approving the WV WORKS AG.

A separate PRC is completed and signed by each adult and emancipated minor in a WV WORKS AG, and any non-recipient Work-Eligible Individuals in the household. The participant’s signature indicates that he understands and accepts the responsibility inherent in the program. The PRC is the same for all WV WORKS participants. It states the purpose of the WV WORKS Program and lists the participant’s rights and responsibilities.

SELF-SUFFICIENCY PLAN (SSP)
The SSP (form DFA-SSP-1) is a negotiated contract between each of the adult or emancipated minor members of the WV WORKS AG, or non-recipient Work-Eligible Individual(s), and the Case Manager, as the representative of the DHHR. The SSP is specific to each participant. It lists the goals, as well as the tasks necessary to accomplish the goals, including specific appointments, assignments and activities for the adult/emancipated minor. In addition, the SSP identifies the circumstances which impede attainment of the established goals and specifies the services needed to overcome the impediments.

A separate SSP is completed for each adult and emancipated minor in a WV WORKS AG, and any non-recipient Work-Eligible Individuals in the household. Completion and signature of the SSP is required to be completed within 10 days of the initial contact when the client expresses an interest in applying for WV WORKS. The SSP is a working document and revisions are made when either the participant or the Case Manager believes it necessary. Frequent changes are expected as the participant progresses toward his goal.
18.2 LIFETIME LIMIT FOR RECEIPT OF CASH ASSISTANCE

18.2.1 SIXTY-MONTH TIME LIMIT

NOTE: For cases that were active cash assistance recipients in January 1997, the first month of the lifetime limit is January 1997.

There is a lifetime limit of 60 months that a family may receive cash assistance under Temporary Assistance for Needy Families (TANF) and/or WV WORKS. The presence of even one Assistance Group (AG) member who has reached the lifetime limit renders the entire AG ineligible. Children who continue to reside with an adult or emancipated minor who received TANF and/or WV WORKS for 60 months are not eligible. The amount of the payment received has no bearing on the time limit, so that a payment of $1 counts as one month toward the 60-month limit.

Sixty-Month Time Limit Example 1: A divorced woman and her two children have received WV WORKS for 60 months. The woman marries the father of one of her children and together they apply for a check. Although her husband has never received WV WORKS, the family is not eligible and the application is denied.

Sixty-Month Time Limit Example 2: A married couple and their three children receive WV WORKS. In the 54th month, one parent is approved for Supplemental Security Income (SSI). The rest of the family is eligible to receive a check for an additional 6 months. In the 59th month the non-SSI parent dies. The case becomes a child-only case with no time limit.

Sixty-Month Time Limit Example 3: A mother and children had received 30 months of WV WORKS when the father moves into household. The mother is approved for SSI at 32 months. At the time she is approved, the father has received two months of WV WORKS. He and the children may receive benefits for up to 58 additional months.

Sixty-Month Time Limit Example 4: A man and his child receive WV WORKS for 60 months. The father cannot find employment and relinquishes custody of the child to a grandmother. The grandmother no longer has a dependent child of her own, but received WV WORKS for 37 months before her youngest child
NOTE: Although an SSI parent is not included in the AG, the child(ren) is ineligible for child-only WV WORKS benefits if the parent(s) received 60 months of TANF benefits.

EXCEPTION: Any month during which the adult lived on an Indian reservation or in an Alaskan Native village is not counted toward the 60-month limit if:
- At least 1,000 individuals were living on the reservation or in the village; and
- At least 50% of the adults living there were unemployed.

18.2.2 BENEFITS WHICH COUNT TOWARD THE LIMIT

Receipt of any of the following benefits counts as one month toward the 60-month limit when an adult or emancipated minor is included in the AG.

- TANF check from West Virginia or from any state that used TANF block grant money for the payment. See Appendix C of Chapter 1 for a list of states and when they converted to TANF.

- WV WORKS cash assistance when the benefit is funded by federal TANF/MOE funds or by a West Virginia Solely State Funded (SSF) Program.

- Cash assistance from the post-employment option of the West Virginia Employment Assistance Program (EAP).

EXCEPTION: When a TANF or WV WORKS check was received ineligibly, and is repaid in full, that month does not count toward the 60-month limit. The WV WORKS benefit cannot be repaid or returned to the Department unless the AG was ineligible.

The limit is not 60 months for each state of residence. The time limit applies to all benefits received throughout the United States and its territories as long as the benefits were received under the TANF Block Grant. Therefore, when a participant indicates he has been a resident of another state, the Case Manager must determine if he received cash assistance and, if so, if the program was funded under the Block Grant authorized by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA). States had until July 1997 to convert from the former Aid to Families with Dependent Children (AFDC) Program to a program funded under
the Block Grant. Many states converted to the new program early. Therefore, the Case Manager must contact the other state to determine when the benefits were received and for how many months. These months must be documented in case comments and in the case management system. Case Managers must fax the DFA-WVW-Verif-1, TANF verification – months used form to the other state to obtain written verification of the TANF months received in that state. Agency printouts or other written verification obtained from the state are also acceptable. That verification must be placed in the case record. If months prior to July 1997 are involved, the Case Manager must also determine how many months of benefits the participant received under the Block Grant program. See Chapter 1, Appendix C for a list of states and their effective dates of conversion to TANF.

The calculation of the number of months of TANF benefits received must be completed at the time of application. At that time, the number of months listed in the case management system should be adjusted and case comments should document why the adjustment was made.

### 18.2.3 PROVISIONS FOR AN EXTENSION OF THE TIME LIMIT

There are provisions which may allow a family to receive benefits for more than 60 months. The federal government imposes a limit on the percentage of the state’s TANF caseload that is allowed to be exempt from the 60-month requirement.

- The limit is 20% of the average monthly number of WV WORKS AGs, minus the average monthly number of child-only AGs. This number is only valid on a statewide basis. Therefore, the percentage of extensions may vary greatly from county to county.

The Case Manager must not inform the participant that he is, or may be, exempt from the time limit during the 60-month eligibility period, unless written notice of approval has already been received from the 60-Month Extension Committee.

Once an extension is approved, the participant must continue to meet the criteria on which the extension was based each month of the extension period. In addition, the individual must be actively engaged in an activity or process designed to further the AG’s goal of self-sufficiency, such as pursuing other resources. The Case Manager may close the case at any time during the extension period when the participant fails to follow through on requirements established for receipt of the additional months of WV WORKS. The Case Manager must continue to monitor the case each month to determine if the participant continues to meet the extension criteria identified at the time of the Committee’s extension approval. Once the case is closed and the extension ends for failing to meet these requirements, the household is no longer eligible for the extension. The Case Manager must document the closure and notify the DFA Family Support Policy Unit.
A temporary extension of up to six months may be given only once for the adults and emancipated minors in the AG at the time the extension is approved, unless the extension is based wholly or in part on domestic violence. See Battered or Subjected To Extreme Cruelty below.

All extension requests must be made prior to the first day of the 60th month. Once an AG is closed due to receipt of TANF benefits for 60 months, every application that includes an individual who received benefits as an adult or emancipated minor for 60 months is denied. No extensions are approved after AG closure for this reason.

NOTE: Although the 60-month lifetime limit does not apply to a non-recipient Work-Eligible parent, if another parent is included in the AG, the time limit applies to the adult AG members.

EXCEPTION: Victims of domestic violence, who meet the criteria in Battered or Subjected to Extreme Cruelty below, may reapply for WV WORKS after the 60-month closure.

NOTE: All extensions are temporary. Unless specified below, an extension may only be approved for up to six months and may be approved only once.

A single parent household in which the parent meets one of the following criteria is eligible to be considered for an extension of the 60-month time limit. For a two-parent household, both parents must meet one of the following criteria for the AG to be eligible.
18.2.3.A  Battered or Subject to Extreme Cruelty

18.2.3.A.1  Participants

For extension purposes these conditions are defined as follows:

- Physical acts that result in, or threaten to result in, physical injury; or
- Sexual abuse; or
- Sexual activity involving a dependent child; or
- Being the caretaker of a dependent child and being forced to engage in non-consensual sex acts; or
- Threats of, or attempts at, physical or sexual abuse; or
- Mental abuse, including threats; or
- Neglect or deprivation of medical care.

The individual who meets the definition must accept a referral to a domestic violence program that operates under a State license or through an agreement with the Department of Health and Human Resources (DHHR). In addition, the participant must participate in and follow any plans developed with the program.

Once an extension is approved based on the above criteria, the Case Manager must monitor the case for compliance. The WV WORKS check continues until the situation is resolved or the AG is no longer eligible for a check for other reasons. Normal redetermination procedures apply.

NOTE: An extension based solely or in part on these criteria may be approved multiple times and may exceed the six-month limit. These multiple extensions need not be consecutive because participants may reapply after case closure.

18.2.3.A.2  Application after 60-Month Closure

The Case Manager may approve applications for individuals who have received 60 months of WV WORKS but who meet the criteria outlined above. The Case Manager must notify the Extension Committee of the approval and send a completed extension form for its review.

As in any extension, the Case Manager must monitor compliance and close the case when the participant is no longer following a plan or when the situation has been resolved and domestic violence is no longer an issue. The Case Manager must notify the 60-Month Committee when
the extension of benefits ends.

There is no limit to the number of times a household may reapply and be approved so long as the situation remains unresolved and the participant is in compliance.

18.2.3.B Providing Care for a Relative

For extension purposes, all of the following conditions must be met.

- It must be a single parent household, unless one parent is providing care for the other parent who is disabled; and
- The caregiver would normally be required to meet a work requirement; and
- Is needed at home to care for a disabled family member who resides in the home and is not a full-time student; and
- Medical documentation must be provided to support the need for the parent to remain in the home to care for and monitor the disabled family member; and
- No one else is available to provide this care; and
- Such care will not be necessary for more than six months, or the family has made other care arrangements that will be completed within six months, or the family is attempting to make other care arrangements, including application for a Medicaid waiver program.

18.2.3.C Late Onset of Incapacity

Participants who experience the onset of a temporary incapacity after the 55th month of WV WORKS may qualify for a one-time extension of up to six months while undergoing treatment for the injury or illness. The Case Manager must obtain a decision of incapacity from the Medical Review Team (MRT), and the decision must indicate that the individual will be able to engage in gainful employment following the period of incapacity. The MRT process must be started immediately upon receiving notice of the illness or injury so that a decision may be obtained from the MRT before the participant reaches his 60th month of benefits. Failure of the participant to accept or continue treatment for the illness or injury before the extension begins will result in denial of the request. Failure to cooperate following the beginning of the extension period will result in case closure.

If it is determined by the MRT or a doctor’s report that the individual will be temporarily unable to engage in gainful employment for a period of time on or following his 60th month of eligibility, he may qualify for an extension of up to six months. The number of months granted will depend on the length of time that the MRT has determined him to be unable to engage in a gainful activity.
The local office will be responsible for monitoring the medical status of the participant each month.

### 18.2.3.D Disabled

Disabled is defined as unable to engage in gainful employment, as determined by a medically qualified professional.

Because WV WORKS participants must be referred to the MRT if unable to participate for longer than a six month period, it is assumed that an individual who states he is disabled will already have medically established his disability by the 55th month of TANF/WV WORKS receipt. If not, he must apply for SSI and be referred to the MRT prior to approval of an extension. The Case Manager must complete the MRT application and evaluation as soon as possible before reaching the 60th month. An SSI denial based on failure to establish a disability does not automatically preclude an extension on this basis if the MRT finds the individual to be disabled. However, the individual must be actively appealing his SSI denial to qualify for an extension. If the individual has been found to be disabled by the MRT and his re-evaluation is due before his 60th month of benefit receipt, his case must be submitted for a re-evaluation by the MRT.

If it is determined that the individual is not disabled, or is able to engage in gainful employment with no limitations, he does not qualify for an extension.

If it is determined that the individual is able to engage in gainful employment with some limitations, he may qualify for an extension of up to six months to locate suitable employment and must be referred to the Division of Rehabilitation Services (DRS) for a vocational evaluation and assessment.

If the MRT has determined, before or during the 60th month of benefits, that the individual will be temporarily unable to engage in gainful employment for a period of time extending beyond the 60th month of eligibility, he may qualify for an extension of up to six months. The number of months granted will depend on the length of time that the MRT has determined him to be unable to engage in a gainful activity. The local office will be responsible for monitoring the status of the participant on a monthly basis.

If an MRT re-evaluation is due during the extension period and the decision again finds the individual unable to participate, the extension will continue up to six months. In this situation, if the extension is continued longer than initially approved by the committee, the Case Manager must detail the reason for extending the months in case comments, notify the 60-Month Extension Committee for approval, and adjust the appropriate number of months in the eligibility system, not to exceed six. During the extension period, the Case Manager must monitor the
case to make sure the participant continues to meet all other eligibility requirements.

**Disabled Example:** Ms. Bluebell receives her 60th month of benefits in January 2016 and has been found to be disabled or incapacitated by the MRT with a re-evaluation due in February 2016. The Committee approves a one month extension through February 2016. In February, the MRT determines that the disability continues and sets the next re-evaluation for August 2016. The extension may be extended through July 2016, which would be the sixth month of benefits over the 60-month time limit. The Case Manager will adjust five months in the eligibility system and document the decision and action in case comments. Ms. Bluebell must be placed in the AD component in Work Programs in addition to other component codes.

If it is determined that an individual is permanently unable to engage in gainful employment, he qualifies for consideration for an extension of up to six months to apply for, or appeal prior denials of, statutory benefits. Statutory benefits include, but are not limited to: Retirement, Survivors, and Disability Insurance (RSDI), SSI, Veterans Affairs (VA), and/or Railroad Retirement.

**NOTE:** The Case Manager must contact the extension applicant and give him information regarding the impact of receiving 60 months of TANF benefits. If the individual receives 60 months of WV WORKS benefits, he will be ineligible to receive child-only benefits if he is later approved for SSI. If the participant closes his case in the 59th month of benefits and is later approved for SSI, he may be eligible to receive child-only benefits for his child(ren). Comments regarding this discussion and the participant’s decision must be recorded in case comments before the case information is submitted to the 60 Month Committee.

**18.2.3.E Pregnancy/Age of Child**

An AG may qualify for an extension when both of the following conditions are met.

- There is only one adult or emancipated minor living in the household; and
- The pregnant woman will be in her last trimester of pregnancy in the 60th month of TANF receipt; or the AG includes a child who will be less than six months of age in the 60th month of TANF receipt.

**Pregnancy Example 1:** A pregnant woman with two children is approved for a six-month extension based on her pregnancy. The six-month period runs from January through June. The baby is born in February. Although the baby will not
be six months old until August, the extension must end in June when she has received 66 months of TANF.

**Pregnancy Example 2:** A pregnant woman with two other children lives with her boyfriend who is not the legal father of any of the children. She does not qualify for consideration under this extension criteria.

**Pregnancy Example 3:** A mother lives with her two children. The youngest child was born in July and the household receives its 60th month of benefits in August. An extension is granted based on the age of the child. The extension will end in January when the child turns six months of age.

When based on a verified pregnancy, the extension remains in effect for up to six months. When the pregnancy does not end in a live birth, the extension, if already approved, remains in effect for two months following the end of the pregnancy.

When based on the age of a child, the extension remains in effect through the month the child reaches six months of age.

---

**18.2.3.F In a Vocational Training/Education Activity**

The extension is based on maintaining satisfactory progress toward course completion in a vocational training or educational activity. Satisfactory progress is defined by the facility or course of study, but must be expected to result in a measurable outcome, such as a diploma, degree, or certificate which will assist in attaining self-sufficiency.

To qualify for consideration of this extension, one of the following situations must exist:

- In his 55th month of TANF receipt, the participant is attending a vocational training or an educational activity; or
- In his 55th month of TANF receipt, the participant is enrolled to begin vocational training or an educational activity.

Vocational training is preparation for a specific occupation. The training is conducted by an instructor in a non-work site or classroom setting.

Educational activities are limited to literacy programs, high school, Adult Basic Education (ABE), vocational, and two- and four-year college programs. They do not include on-line courses.

When the person who is participating in the training/educational activity has a disability affecting his ability to make progress or extending the time necessary to complete the program, the Case Manager must take this under consideration when granting an extension. If the Case Manager determines the individual is progressing more slowly due to the disability, he will grant an
extension. The participant is not required to graduate from the program within or by the end of the extension period.

The extension remains in effect for up to six months. The Case Manager is responsible for monitoring the attendance of the participant during the extension period. If his enrollment ends, the Case Manager must send notification and close the WV WORKS benefit.

18.2.3.G Agency Error

The 60-Month Extension Committee only may approve an extension based on agency error if during the extension request process, either the local office or the 60-Month Extension Committee does not act in a timely manner. This must occur between months 55 through 60. No repayment is required if the extension is not approved. This extension is limited to three months.

18.2.4 FORMAL CASE REVIEW IN 55TH MONTH

After a participant has received WV WORKS for 55 months, a formal case review must be conducted. The purpose of this review is to assess the progress of the household members towards achieving self-sufficiency and to determine what activities the participant needs to complete during the remaining months of WV WORKS eligibility. This review is not discretionary. The Case Manager must schedule the review. The participant's attendance at this conference should be included as an item on the last revision of the Self-Sufficiency Plan (SSP) completed before the meeting would normally be scheduled. The Case Manager must schedule the review by issuing a letter to the participant.

The review includes the participant, Case Manager, Supervisor, the Community Services Manager or his designee, Social Services, and any other representatives from agencies that might be of assistance to the participant. The participant may bring his own representative(s) to the meeting and is responsible for notifying anyone he wants to be involved in the process. This group determines what can be done before the participant reaches the 60-month time limit to move the family closer to becoming self-sufficient.

If the group decides an extension is appropriate and additional months are needed, all paperwork for an application for extension must be completed at this time. The group will review the extension categories and their definitions to determine the appropriate category to use for the participant's request. A statement from the 55 month review group may be submitted to the 60-Month Extension Committee along with the other extension documents.
In order to ensure time frames are met, if the participant indicates he would like to apply for an extension based on disability, and the case has not been submitted to the MRT, the MRT process must begin immediately so a decision may be made in a timely manner. If the participant is pursuing an extension based on disability, the Case Manager must explain that if the participant opts to receive 60 months, he will be ineligible to receive child-only benefits if he is later approved for SSI.

If the participant fails to appear at the first scheduled review, the Case Manager must call the participant and reschedule the meeting. If the participant later requests one, his request must be honored when the process can be accomplished prior to receipt of the 60th month’s benefit.

All scheduling, rescheduling and abandonment of the review process must be documented in case comments.

18.2.5 EXTENSION PROCEDURE

18.2.5.A Notify Participant

The process for determining if the AG is eligible for an extension begins in the 55th month of the 60-month lifetime limit when the participant is mailed a special notification letter about the end of his 60-month time limit.

18.2.5.B Return Form Requesting Extension

The participant must return the notice to the DFA Family Support Policy Unit as indicated on the notice for consideration of an extension of the time limit.

If the form is returned to any local DHHR office, the local office must forward it immediately to the DFA Family Support Policy Unit. If the Case Manager or Supervisor becomes aware of a participant who did not apply for an extension but who may be eligible for one, he must notify the DFA Family Support Policy Unit immediately by e-mail for consideration of an extension.

If the participant does not indicate he wants to be considered for an extension and the Case Manager and/or Supervisor do not recommend an extension for him, the family is ineligible after case closure due to the 60-month limit. Advance notice requirements apply, but benefits must not be continued pending a Fair Hearing decision should the AG request a hearing following case closure.
Chapter 18

18.2.5.C  Review Request for Extension

All requests for extension are made to a nine-member committee known as the 60-Month Extension Committee, consisting of four regional representatives and five appointees from various state offices, including Social Services, WV WORKS, Division of Planning and Quality Improvement (DPQI), the MRT, and the DFA Family Support Policy Unit.

Once the forms are received in the state office, they are logged in and tracked to make sure information is obtained and a timely decision is made. The participant’s Case Manager and the Case Manager’s Supervisor are notified of the request. The Case Manager completes the Extension Request Form (DFA-EX-1) and forwards it along with any other information requested to the DFA Family Support Policy Unit. If the participant is requesting an extension due to a late onset illness or disability, the packet should include the MRT decision. The DFA-EX-1 must be signed by the Case Manager and Supervisor and include the local office recommendation regarding the extension. All requested information must be submitted within 30 days or the local office should notify the DFA Family Support Policy Unit regarding the reason for the delay. All such extensions are approved at the state office level by the 60-Month Extension Committee.

18.2.5.D  Notify Parties of Request for Extension Review Result

18.2.5.D.1  Extension Approved

If an extension is approved, the Committee notifies the local office of the length of the extension and the requirements for compliance with the terms of the extension. The local office notifies the participant of the approval and the participant’s responsibilities once the extension begins. The local office is responsible for monitoring the time limit to assure that it is not exceeded and that the participant remains eligible for the extension. The Case Manager adjusts the months in the eligibility system and documents the Committee’s decision, reason for the extension, and number of months granted in case comments.

18.2.5.D.2  Extension Denied

If an extension is denied, the Case Manager must send notice of the decision, along with a Fair Hearing Request form to the participant. This must be documented in case comments. The participant may request a Fair Hearing, but benefits must not be continued pending the Fair
Hearing decision.

➢ **Pre-Hearing Conference**

During a pre-hearing conference, the Case Manager may determine that a verified change in the participant’s circumstances has occurred and that a reconsideration of the participant’s extension request is appropriate. The change must have occurred between the time of the initial request for extension and receipt of the 60th month of WV WORKS benefits. The Supervisor is responsible for approving the submittal of a request for reconsideration to the Extension Committee.

When such a change has occurred and been verified, or the Hearings Officer has ruled the county must request reconsideration, the Supervisor must notify the Committee over email that a reconsideration is being requested and include a description of the change, how it was verified, and the recommendation of the Supervisor for approval or denial.

➢ **Request for Reconsideration**

Submission of a request for reconsideration late in the 60-month time limit does not result in an automatic extension. No extension is applied unless the Committee approves an extension prior to case closure at the end of the 60th month, or criteria in Applications After 60-Month Closure above applies.

The Committee follows the same procedure for a reconsideration of an extension as for an original request. There is no limit on the number of times an extension request may be reconsidered, provided the AG has not received its 60th month of TANF/WV WORKS.

### 18.2.6 FAIR HEARING PROCEDURES

Any participant whose request for extension has been denied for any reason may request a Fair Hearing. Benefits, however, may not be extended beyond the 60th month or be reopened following a 60-month closure while a hearing or a decision by the Hearings Officer is pending.

The Hearings Officer may reverse the decision of the Extension Committee and grant an extension of up to six months, or he may rule that the Committee must reconsider the request.

The participant also has the right to a Fair Hearing when the reconsideration results in denial of an extension. The Hearings Officer may rule that the extension was denied in error and instruct the local office to extend benefits or reopen the case for the appropriate extension period.
18.3 PARTICIPATION RATES

West Virginia must meet established work participation requirements. Statewide standards are prescribed by federal law and rates increase over time.

- All Families – 50%
- Two-Parent Families – 90%

The State’s participation rate is determined by the Administration for Children and Families (ACF), based on the information from a random sample of cases submitted by the State Office.

Statutory standards of 50% for all families and 90% for two-parent families’ rates are adjusted by each state’s caseload reduction credit.

The participation rate is determined not only by the total number of hours of the participant’s participation, but also by the type of activity in which the adult(s) are engaged.

NOTE: See Sections 18.10 – 18.18 for clarifying details about work activities.

NOTE: No more than 20% of individuals, regardless of the number of parents in the home, may be considered to meet the work requirement by participation in Vocational Educational Training, Job Skills Training Directly Related to Employment, Education Directly Related to Employment, or Satisfactory Attendance at Secondary School or GED Program. Parents under the age of twenty, described in Section 18.4.3.A.2, are included in the count.
18.4 WV WORKS PARTICIPATION REQUIREMENTS

18.4.1 INTRODUCTION

Each adult and emancipated minor who receives WV WORKS benefits, and non-recipient Work-Eligible Individual, counts toward the state’s participation rate. These are known as “Work-Eligible Individuals.”

A Work-Eligible individual is a parent, a caretaker included in the WV WORKS AG, or a minor child head-of-household receiving WV WORKS assistance unless the individual is:

- A minor parent and not the head-of-household or spouse of the head-of-household; or
- A noncitizen who is ineligible to receive assistance due to his or her immigration status; or
- A recipient of Supplemental Security Income (SSI) benefits.

A non-recipient Work-Eligible individual is not included in the WV WORKS benefit. He must still complete Orientation, a Personal Responsibility Contract (PRC)/Self-Sufficiency Plan (SSP) and be participating in a work activity; therefore is work-eligible. Non-recipient Work-Eligible individuals include:

- Individuals convicted in federal or state court of having made a fraudulent statement or representation about residence to receive Temporary Assistance for Needy Families (TANF), WV WORKS, Medicaid, SNAP benefits or SSI are ineligible for 10 years from the date of the conviction. The conviction must have occurred on or after August 23, 1996.
- Individuals who are fleeing to avoid prosecution, custody or confinement after conviction, for a felony or an attempt to commit a felony.
- An individual convicted of a felony under federal or state law when the offense involves the possession, use or distribution of a controlled substance, as defined in Section 102(6) of the Controlled Substance Act and when the offense occurred on or after August 23, 1996; or
- Individuals who are violating a condition of probation or parole which was imposed under federal or state law.
- A parent or other caretaker who has not reported that their child will be or has been out of the home for at least 30 days.
Each adult and emancipated minor who receives WV WORKS benefits and non-recipient Work-Eligible Individual must meet a work requirement at a minimum rate of participation. The work requirement does not necessarily mean that the participant must be employed. Work, however, is the focus of WV WORKS. The activities that meet the work requirement are listed in Sections 18.10 – 18.18.

Work-Eligible Individuals are those whose participation in work activities contributes in determining if the family counts in the calculation of the state’s work participation rate, except for the following:

- Work-Eligible Individuals providing care for a disabled family member living in the home. Medical documentation must be provided to substantiate the need for the Work-Eligible Individual to provide this care.
- Single parents with a child under the age of one year. This is an exemption for a maximum of 12 months in a lifetime. See Section 14.9.

### 18.4.2 REQUIRED PARTICIPATION

The definitions below are used only for the Case Manager to determine the required level of participation, based on the family’s circumstances, and should not be used for any other purpose.

#### 18.4.2.A All Family Household

Families that do not meet the definition of a two-parent family are considered “All Family” Households regardless of the number of parents or other adults included in the household.

All Family Households include, but are not limited to, the following situations:

- Families with only one parent living in the home, whether he is included in the AG or is a non-recipient Work-Eligible Individual.
- Families with two parents with a common child living together and one is excluded from the WV WORKS payment due to one of the following reasons:
  - Minor parent who is not the head-of-household;
  - Ineligible noncitizen due to immigration status; or
  - SSI recipient.
- Families with one parent and one stepparent included in the benefit when they have no common child.
• Families with one or two non-parent caretaker relatives included in the WV WORKS payment.

18.4.2.A.1 Participation Requirement

➢ Family Has Minimum Requirement of 128 Hours

A minimum of 85 hours of minimum participation hours must be attributable to one or more of the Core Work Activities.

Therefore, no more than 43 of the minimum participation hours may be attributable to one or more of the Non-Core Work Activities.

NOTE: See Section 18.4.3.A.2 for requirements for parents under age 20. They are not subject to the 85-hour minimum rule.

NOTE: For single parents with a child under age six, the minimum participation requirement of 85 hours per month must be attributable to one or more of the Core Work Activities.

18.4.2.B Two-Parent Family

In a two-parent family, for these purposes only, neither parent is incapacitated or disabled according to the Social Security Administration (SSA) definition, and the family meets one of the following criteria:

• There are two natural or adoptive parents, who are Work-Eligible Individuals, of the same minor child living in the home and included in the same WV WORKS payment.

• There are two parents with a common child living together and one or both is excluded from the WV WORKS payment unless the exclusion is due to one of the following reasons:
  o Minor parent who is not the head-of-household;
  o Ineligible noncitizen due to immigration status; or
  o SSI recipient.
18.4.2.B.1 Participation Requirement

➢ Family Has Minimum Requirement of 150 Hours; Does Not Receive Federally-Funded Child Care

A minimum of 128 of the average minimum participation hours must be attributable to one or more of the Core Work Activities.

Therefore, no more than 22 of the average minimum participation hours may be attributable to one or more of the Non-Core Work Activities.

➢ Family Has Minimum Requirement of 236 Hours; Receives Federally-Funded Child Care

A minimum of 215 of the minimum participation hours must be attributable to one or more of the Core Work Activities.

Therefore, no more than 21 of the minimum participation hours may be attributable to one or more of the Non-Core Work Activities.

18.4.3 REQUIRED MONTHLY PARTICIPATION HOURS

Assistance Groups (AG) must complete federally-established monthly hours of approved work activities in order to meet the participation requirement.

Required monthly participation hours listed in this section are minimum hours only. The number of required participation hours must be included on the participant's SSP, and in the eligibility

NOTE: For the initial month of benefit receipt, required monthly participation begins the first full week after eligibility has been confirmed. As part of the Stronger Family Job Retention column of the WV Bridge Model, the Case Manager must address challenges to participation before the individual is required to begin participation in an allowable activity. To determine the scheduled hours of participation for the initial month, the remaining business days, Monday through Friday, beginning with the Monday after eligibility is confirmed, are used. Actual hours of participation from the participation time sheet, DFA-TS-12, are entered as the completed hours.
system. Additional hours of participation may be assigned when appropriate. However, no sanction is applied if the minimum monthly hours are met.

<table>

<tr>
<td>All Family Household</td>
</tr>
<tr>
<td>Single Parent, Child Under Age 6</td>
</tr>
<tr>
<td>Minimum Monthly Hours</td>
</tr>
<tr>
<td>85</td>
</tr>
</tbody>
</table>

18.4.3.A All Family Household

The minimum number of hours of participation is 128 hours per month unless the household meets one of the two situations described in the next two sections.

Changes in the hourly requirement due to the child’s age or changes in household composition are effective the month after the change occurs.

18.4.3.A.1 Single Parent of a Child under Age Six

A single Work-Eligible parent with a child under age six meets the work participation requirement by participating 85 hours/month. The scheduled hours in the eligibility system must not exceed the minimum monthly participation rate requirements. The parent may be required to participate more than 85 hours on their SSP, or may volunteer to participate more than the required hours, but no sanction may be imposed as long as the minimum level is met.

*NOTE: This situation only applies to households with only one adult parent living with a child.*
18.4.3.A.2  Parent under Age 20

A Work-Eligible parent who is under age 20 and who does not have a high school diploma or the equivalent meets the family’s work requirement as long as he:

- Maintains satisfactory attendance at a secondary school, or the equivalent, during the month for at least 85 hours/month; or
- Participates in vocational education for at least 85 hours/month.

When class is not available for 85 hours/month, an additional activity assignment must be made to meet the minimum required hours.

18.4.3.B  Two-Parent Households

The minimum hours of participation for two-parent households depend upon the receipt of federally-funded child care. The participation requirement may be met by one or both parents. There is no requirement for each parent to participate equally.

When the family does not receive federally funded child care, the minimum number of hours of participation is 150 hours per month. When the family receives federally-funded child care, the minimum number of hours of participation is 236 hours per month.

18.4.3.B.1  Parent under Age 20

In a two-parent household with a parent under the age of 20 who does not have a high school diploma, that parent must maintain satisfactory attendance at a secondary school (or the equivalent) or be enrolled in a vocational education program. If both parents are under the age of 20 and do not have a high school diploma, both must meet this requirement.

18.4.4 MISSED WORK ACTIVITY HOURS

This policy establishes the guidelines for the treatment of hours missed in participation under WV WORKS. All missed time whether excused or unexcused, must be made up within the month in which it is missed. When it is impossible to make up time missed, the Case Manager must decide if the absence is excused or unexcused.
Participation for Work-Eligible Individuals is calculated on the actual hours of attendance or participation each month.

**NOTE:** In order to receive planned school break hours, holiday hours, or excused absence hours for missed work, the participant must have been scheduled to attend the activity at that time. The hours credited must not exceed the activity hours scheduled for that day.

The Case Manager records the excused absences as a monthly total and records how the total hours were computed in the eligibility system.

The following guidelines are used to determine actual hours of attendance/participation for planned school breaks, holidays and individual absences.

---

**18.4.4.A Planned School Breaks**

School breaks are not counted as participation hours. Only federally-designated holidays which occur during the regular school year are counted as participation hours.

---

**18.4.4.B Holidays**

Only federally-designated holidays may be counted as days worked when the participant would normally have been scheduled. These include New Year’s, Martin Luther King Day, Washington’s Birthday (President’s Day), Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.

**Missed Work Activity Example 1:** Mr. Ivy is scheduled Monday through Thursday in his activity. A federal holiday falls on a Friday. He must not receive participation credit for this holiday.

**Missed Work Activity Example 2:** Mr. Ficus attends his activity six hours per day Monday through Friday. A federal holiday falls on a Monday. He receives six hours of participation credit for this holiday.
18.4.4.C Absences

18.4.4.C.1 Excused Absences

Excused absences of up to 16 hours/month, not to exceed a maximum of 80 hours in the 12-month period, including the current month and the preceding 11 months, may be counted as hours worked in that month.

Additional days/hours of absence may be considered excused if appropriate, but must not count as hours of participation. Inclement weather and states of emergency are included in the 16 hours per month, maximum 80 hours/year excused absences which may count as participation.

**Missed Work Activity Example 3:** Mr. Cactus attends his activity six hours per day Monday through Friday. He has a doctor’s excuse for an appointment on a Monday. He receives six hours of participation credit for this absence.

If the participant will not meet the participation requirement when including the absence hours, do not count these absence hours for participation. Participation credit for excused absences must not be entered when sufficient hours have been entered for the work or educational activity to meet the minimum required participation rate.

The hours worked include the excused hours when participation did not actually occur. An excused absence includes illness or other good cause which prevented participation. It is the responsibility of the Case Manager to determine if the absence is excused or unexcused based on contact with the employer/contractor and participant documentation. A determination of good cause may only be made by the Case Manager.

Absences must not be used toward calculating the monthly participation hours, unless the Case Manager has determined that the absences meet the definition of what may be excused and the participant was scheduled to work that day. The Case Manager must document in comments why the absences are being excused and how the reason for the absence was verified.

18.4.4.C.2 Tracking Absences

A fixed calendar year is not used (i.e., January – December). The running total of excused absence hours credited for the most recent 12 months (defined as the most recent month plus the preceding 11 months) must be calculated each month.

For each month the Case Manager must record in Work Program comments the number of
hours of excused absences counted towards participation for the current month. Each month, the preceding 11 months plus the current month must be reviewed to ensure the 80-hour limit is not exceeded in any 12-month period.

**Tracking Absences Example 1:** The timesheet for October 2016 is received. To determine the number of absence hours that may be used for October, the Case Manager must review all absence hours reported from November 2015 through September 2016.

**Tracking Absences Example 2:** During October, Mr. Oak was scheduled to attend vocational training 16 days at 8 hours per day for a total of 128 hours. Mr. Oak worked 13 days, missed 2 days and the school observed Columbus Day. He was ill one full day and had a doctor’s statement to verify the illness. He states he missed the second day because he overslept. Since excused absences and federal holidays may be counted and credited as participation hours, his total hours for October are 120. Eight hours are entered for the holiday and eight hours are entered for the excused absence. The second missed day was not excused and no credit is given. Since the client will not meet participation by allowing 8 hours for the excused absence, no hours will be entered for excused absences in the eligibility system.

These are separate entries in the eligibility system:

<table>
<thead>
<tr>
<th>Scheduled Hours</th>
<th>Completed Hours</th>
<th>Excused Hours</th>
<th>Federal Holiday Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>128</td>
<td>104</td>
<td>0</td>
<td>8</td>
</tr>
</tbody>
</table>

**Tracking Absences Example 3:** Ms. Pine was scheduled to participate 128 hours in a work activity for the month of October. She is scheduled to work 8 hours per day, Monday through Thursday, for the first four weeks of the month. There were no observed federal holidays for the month. Ms. Pine had medical appointments and was absent on the following dates: October 3 – 2 hours; October 11 – 4 hours; October 17 – 2 hours; and October 23 – 4 hours. These absences are all considered excused. Since she is scheduled to work 8 hours per day, up to 16 hours may be counted and credited as participation hours for the month. For October, she has 116 hours worked and 12 hours excused absences for a total of 128 hours. These are separate entries in the eligibility system:

<table>
<thead>
<tr>
<th>Scheduled Hours</th>
<th>Completed Hours</th>
<th>Excused Hours</th>
<th>Federal Holiday Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>128</td>
<td>116</td>
<td>12</td>
<td>0</td>
</tr>
</tbody>
</table>
Unexcused absences that cannot be made up during the month are not counted as hours of participation.

Absences that are made up during the month are not reported as excused or unexcused.

Record the results of all contacts with the employer/contractor concerning this issue in the eligibility system. At the end of the month the participant’s timesheet must correctly identify any absence. Any inconsistency or irregularity on the timesheet must be worked out with the employer/contractor.

18.4.4.C.3 Paid Vacation/Sick Leave

When the Work-Eligible Participant is on paid vacation, paid sick leave, or paid annual leave from work, the time he would normally have spent at work during that time is counted as hours worked.

18.4.5 PARTICIPANT DOCUMENTATION

18.4.5.A Methods of Documenting Participation Hours

All hours of participation in activities must be verified. The Participant Timesheet, DFA-TS-12, is the standard timesheet used to document participation. When used, it is given to participants to report attendance and satisfactory progress in the activity. Some employers/contractors have their own timesheets. These are acceptable means of verification as long as these timesheets provide the necessary information and are signed by the site supervisor. Documentation is required and must be available from the activity site at least monthly to support what is reported for participation and may include electronic records. Monthly timesheets must be filed in participants’ case records.

For Work-Eligible participants who are employed, other documents and methods may be used to verify work hours. Although timesheets and written confirmation from the employer may be used, the following alternative methods may also be used to document these hours:

- Pay stubs;
- Time cards signed by the employer;
- Sign-in/sign out sheets signed by the employer; or
• Work schedules signed by the employer.

For employment, based on valid documentation, hours may be projected for up to six months unless there is a change in the number of work hours. When this happens, then actual hours must be documented and hours may be projected for the remainder of the six month period. At the end of six months, current hours must be re-verified. The preferred method of verification of hours is 30 days of pay stubs to be used to project the participant’s participation for up to a six month period.

A timesheet signed by the participant and the employer listing the days worked must be submitted for transportation requests.

College attendance must be verified by provision of a timesheet, DFA-TS-12, signed by the Participant to determine days and hours of actual attendance.

18.4.5.B Participation Calculation

18.4.5.B.1 Self-Employment

The calculation of monthly participation hours for self-employed Work-Eligible Individuals (those owning/operating their own business/service, providing child care, etc.) is determined in the following manner:

\[
\text{Gross Monthly Income} - \text{Monthly Business Expenses} \quad \text{Federal Hourly Minimum Wage}
\]

If the number of recordable participation hours fall short of the minimum required hours, additional activity placement must be made by the Case Manager.

**Self-Employment Example:** Ms. Oak provides child care for her neighbor’s two children, Monday through Friday from 8 a.m. to 5 p.m. The neighbor pays Ms. Oak $170 per week. Ms. Oak claims no business expenses. Ms. Oak received $731 pay for August. Her hours of participation are:

\[
\frac{$731 - $0}{$7.25} = 100.83 \text{ (round to 101)}
\]

$731 divided by $7.25 = 100.83 \text{ (rounded to 101 hours.) In this example, Ms. Oak has a work requirement of 128 hours per month; therefore, she must participate in another work activity for no less than 27 hours per month.
To receive support service payments, self-employed Work-Eligible Individuals must complete and sign a self-reported timesheet, DFA-TS-12, to determine the days actually worked.

18.4.5.B.2 Other Allowable Activities

The calculation of hours of participation for other allowable activities is based on the following process:

Step 1: Determine the participant’s total monthly hours of participation, as reported on his timesheet.

Step 2: Add hours for paid vacation and paid sick leave. Do not include excused absences in this figure.

The result is the monthly participation hours which are entered by the Case Manager and recorded in Work Program comments.

NOTE: For informational purposes, EI, FB, FU, FV, OJ, PB, PU, and PV are considered paid work components. All other components are considered non-paid work components. For paid work components, the eligibility system will add actual monthly participation hours to the monthly excused absence hours and monthly holiday hours and then divide the result by 4.33. Round that result to obtain the weekly average for TANF reporting purposes. For non-paid work activities, the eligibility system will divide monthly completed hours by 4.33, excused absence hours and holiday hours by 4, and then round the number for each entry. These items will not be added together but will be reported as individual items for TANF reporting purposes. This process is completed for each component separately.

Time for excused absences as found in Section 18.4.4.C.1, up to 16 hours, is entered separately. Time for federally-designated holidays is entered separately and is not converted to a weekly average.

Non-Paid Work Activities Example 1: Ms. Daisy participated 41 hours in JR and 88 hours in VT.

\[
\text{JR} = \frac{41}{4.33} = 9.46 = 9 \\
\text{VT} = \frac{88}{4.33} = 20.32 = 20 \\
\text{29 hours average participation per week}
\]

Non-Paid Work Activities Example 2: Mr. Willow is required to complete 128 hours in a core activity. He actually participates 103 hours in JR and will receive 8 hours for federally designated holiday. Attached to his time sheet were 2
doctor’s statements for 16 hours of excused absences. Hours will be entered as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Scheduled Hours</th>
<th>Competed Hours</th>
<th>Monthly Excused Hours</th>
<th>Monthly Holiday Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JR</td>
<td>128</td>
<td>103</td>
<td>16</td>
<td>8</td>
</tr>
</tbody>
</table>

\[
103 \div 4.33 = 23.79 \approx 24 \text{ average hours/week attended} \\
16 \div 4 = 4 \text{ average hours/week excused absence} \\
8 \div 4 = 2 \text{ average hours/week for federal holidays} \\
= 30 \text{ weekly average (24 + 4 + 2)}
\]

### 18.4.5.B.3 Case Recordings

Appropriate case recordings are required in documenting participation hours for Work-Eligible Individuals and how support service payments are calculated (e.g., transportation).

### 18.4.5.B.4 System Coding of Participation Hours

Participation hours for months in which WV WORKS benefits were received must be entered in the eligibility system as soon as possible but no later than the last day of the following month. The Case Manager must be certain to enter the hours of participation for the correct month.

Activity component enrollment can be backdated to the date of WV WORKS benefit confirmation and participation hours which are received after the above deadline are entered by the following quarterly deadlines:

<table>
<thead>
<tr>
<th>New Component Entry Deadline</th>
<th>Participation Hours Entry Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jan, Feb, March</td>
<td>April 30</td>
</tr>
<tr>
<td>April, May, June</td>
<td>July 31</td>
</tr>
<tr>
<td>July, Aug, Sept</td>
<td>Oct 31</td>
</tr>
<tr>
<td>Oct, Nov, Dec</td>
<td>Jan 31</td>
</tr>
</tbody>
</table>

\[
\text{Scheduled Hours} = \frac{103}{4.33} = 23.79 \approx 24 \\
\text{Excused Hours} = \frac{16}{4} = 4 \\
\text{Holiday Hours} = \frac{8}{4} = 2 \\
= 30 \text{ weekly average (24 + 4 + 2)}
\]
18.4.6 LIMITATIONS ON COUNTABLE HOURS

The following limits must be used when entering hours of participation for Work-Eligible Individuals in the eligibility system.

- Truckers – Limited to entries of 240 hours/month, unless the participant is able to document more hours.
- Paid In-Home Care Providers – Limited to entries of 175 hours/month, even when 24-hour care is needed.
- All other allowable activities are limited to entry of 240 hours per month as completed.

18.4.7 DISABILITY/INCAPACITY – DEFINITION FOR TEMPORARY GOOD CAUSE

Disability and incapacity for a Work-Eligible Individual may be established with or without a physician’s statement as described in the following sections.

**NOTE:** A two-parent family with one parent disabled or incapacitated according to this section is still considered a two-parent family for minimum participation rate requirements. The family may be temporarily granted good cause for not meeting the minimum requirements. See Section 14.9. Meeting either definition does not automatically exempt the family or individual from the 60-month or 24-month time limits described in Sections 18.2 and 18.8.

18.4.7.A Establishing Disability without a Physician’s Statement

When the disability is obvious to the Case Manager, no verification is required. The Case Manager must record his findings and the reason for his decision in case comments.

If the disability is not obvious to the Case Manager, disability may be established according to other criteria below. If disability cannot be established according to this section, see Establishing Disability With A Physician’s Statement below.

- The individual receives benefits from a governmental or private source, and these benefits are based on his own illness, injury or disability.
This includes, but is not limited to: Workers’ Compensation, RSDI, SSI, VA benefits, Black Lung benefits, Medicaid (incapacity, blindness or disability), private insurance, sickness benefits, etc. However, if any of these conditions are questionable, such as a low percentage disability for VA benefits, a physician’s statement may still be required.

For SSI and RSDI purposes, being certified for these benefits (approved, but not yet receiving payment withheld to repay, etc.) is the same as receiving them.

- The individual is a veteran with a service-connected or non-service connected disability, rated or paid as total, under Title 38 of the United States Code.
- The individual is a veteran who is considered by the VA to be in need of regular aid and attendance, or permanently housebound, under Title 38 of the United States Code.
- The individual is a surviving spouse of a veteran and is considered by the VA to be in need of aid and attendance, or permanently housebound, under Title 38 of the United States Code.
- The individual is a surviving child of a veteran and is considered by the VA to be permanently incapable of self-support, under Title 38 of the United States Code.
- The individual has one of the following conditions:
  - Permanent loss of use of both hands, both feet or one hand and one foot.
  - Amputation of leg at hip.
  - Amputation of leg or foot because of diabetes mellitus or peripheral vascular diseases.
  - Total deafness, not correctable by surgery or hearing aid.
  - Statutory blindness, unless due to cataracts or detached retina.
  - IQ of 59 or less, which was established after attaining age 16.
  - Spinal cord or nerve root lesions resulting in paraplegia or quadriplegia.
  - Multiple sclerosis in which there is damage of the nervous system because of scattered areas of inflammation which recurs and has progressed to varied interference with the function of the nervous system, including severe muscle weaknesses, paralysis and vision and speech defects.
  - Muscular dystrophy with irreversible wasting of the muscles with a significant effect on the ability to use the arms and/or legs.
  - Impaired renal function due to chronic renal disease, documented by persistent adverse objective findings, resulting in severely reduced function which may require dialysis or kidney treatment.
  - Amputation of a limb, when current age is 55 or older.
- Recipients of federal, state or local government disability retirement, who receive such benefits due to one of the conditions specified above. This includes, but is not limited to,
payments under Civil Service Retirement (CSR) and Federal Employee Compensation Act (FECA).

- Those individuals who receive federally- or state-administered supplemental benefits under Section 1616 (a) of the Social Security Act (optional state supplementation to SSI payments) provided that eligibility to receive the benefits is based upon the disability or blindness criteria used under Title XVI of the Social Security Act or under Section 212 (a) or Public Law 93-66. West Virginia has no such program.

- Recipients of annuity payments, under Section 2,(a),(1),(iv) of the Railroad Retirement Act of 1974, who also have been determined eligible to receive Medicare under the Railroad Retirement Act.

- Recipients of an annuity payment, under Section (2),(1),(1),(v) of the Railroad Retirement Act of 1974, who have been determined to be disabled based on the criteria used under Title XVI of the Social Security Act.

- Recipients of benefits from the following Medicaid coverage groups:
  - SSI-Related Medicaid
  - Aged and Disabled Waiver (ADW)
  - Intellectual/Developmental Disabilities (I/DD) Waiver
  - Traumatic Brain Injury (TBI) Waiver

---

### 18.4.7.B Establishing Disability with a Physician’s Statement

The following criteria must be met to establish disability when the individual does not qualify according to Establishing Disability Without A Physician’s Statement above.

---

### 18.4.7.B.1 Definition of Physician’s Statement

The term physician's statement means a medical report from a licensed medical professional, including, but not limited to, Physicians, Surgeons, Doctors of Osteopathy, Chiropractors, licensed or certified Psychologist, and Nurse Practitioners.
18.4.7.B.2  **Content of the Physician’s Statement**

Generally, the statement must contain enough information to allow the Case Manager to determine if the participant is disabled. If the physician makes a definite statement that the participant is permanently and totally disabled, no further information is needed. Usually, however, the physician describes the situation, and the Case Manager must make the determination. In these situations, the statement must contain:

- The type of condition, including the diagnosis if known;
- Any unusual limitations the condition imposes on the participant's lifestyle; and
- The length of time the condition is expected to last. This is required only to set a control for reevaluation; there is no durational requirement for which the condition must exist or be expected to exist.

18.4.7.B.3  **Making the Determination**

Once the necessary information is received, the Case Manager makes the determination based on the following guidelines:

- If the condition is one listed in Appendix C of Chapter 13 as a guideline for presumptively approving an AFDC-Related Medicaid case, disability is established. No durational time limits are imposed.

- Any other condition must impose limitations on the participant's normal way of life. For example, a case of hypertension, requiring only a special diet and daily medication, does not substantially alter an individual's way of life, since eating is part of his daily routine, and taking medication does not significantly interrupt normal activities. However, a diagnosis of hypertension requiring daily medication, special diet, frequent rest periods and avoidance of stress substantially limits a normal lifestyle.

18.4.7.C  **Establishing Incapacity**

The definition of incapacity and the procedures for making the determination found in Section 13.3.3 apply here.
18.5 REQUIREMENTS FOR PARENTS UNDER AGE 18

There are special requirements for parents under the age of 18 to be eligible for WV WORKS cash assistance. The individual who is not age 18, is not married, has a minor child at least 12 weeks of ages in his or her care, and has not successfully completed a high-school education (or its equivalent) must meet the following two requirements:

- Remain in an educational activity to complete high school, obtain a high school equivalency diploma or vocational training. See Chapter 3 for more details; and
- Live with parent(s) or in other adult-supervised living arrangement. See Chapter 3 for more details.

Failure to meet the educational requirement results in ineligibility for an unmarried parent under age 18.

Failure to live with parent(s) or in another adult-supervised setting results in ineligibility for an unmarried parent under age 18 and the child(ren) of such parent.

NOTE: When another parent of the child who is age 18 or over resides in the home, the child may be eligible.

Parents Under Age 18 Example 1: A 16-year-old mother lives with the 19-year-old legal father of her baby. The father and the baby may be eligible, although the mother is ineligible.

Parents Under Age 18 Example 2: A 16-year-old mother is married to the 21-year-old father of her child. All members of the assistance group are eligible to be included in the check. As a parent under 20, the mother must meet the educational requirements required on the Personal Responsibility Contract/Self-Sufficiency Plan (PRC/SSP) or the case would be sanctioned.
18.6 CHILD SUPPORT REQUIREMENTS

Federal law mandates that efforts be made to locate absent parents, establish paternity and/or obtain support for the children. The specified relative receiving WV WORKS must cooperate with child support activities and redirect to the Bureau for Child Support Enforcement (BCSE) any child support payments received.

The major responsibility for this effort rests with the BCSE through its Child Support Specialists.

18.6.1 BCSE REFERRALS

Referrals to the BCSE are automated in the eligibility system. Participants who claim good cause are not required to cooperate with BCSE, but a referral is made.

All WV WORKS AGs which include a child under age 19 with at least one absent parent must be referred to BCSE. In addition, a currently unmarried minor parent who is unable to live with a parent(s) must be referred.

The Case Manager must appropriately code the eligibility system and complete the Acknowledgement of Automatic Assignment of Support Rights and of Cooperation Requirements, DFA-AP-1, to complete the referral to BCSE.

18.6.2 GOOD CAUSE

The WV WORKS participant is required to cooperate with BCSE unless good cause is established.

If the participant who refuses to cooperate asserts that one or more of the factors listed below is the reason for non-cooperation, a good cause claim has been made. A participant who refuses to cooperate and who gives as the reason some factor other than one of those listed below is considered to have refused to cooperate without claiming good cause.

18.6.2.A Definition of Good Cause

The participant has good cause for refusal to cooperate with BCSE if one of the following conditions exists:
• The child was conceived as the result of incest or forcible rape.
• Legal proceedings for the adoption of the child are pending.
• The participant is currently being assisted by the Department or by a licensed private social agency to resolve the issue of whether to keep the child or to relinquish him for adoption and the discussions have not gone on for more than three months.
• The participant’s cooperation in establishing paternity or securing support is reasonably anticipated to result in:
  o Physical or emotional harm to the child for whom support is being sought; or
  o Physical or emotional harm to the parent or other specified relative with whom the child lives, which would reduce such person's capacity to care for the child adequately. A finding of good cause for emotional harm may only be based upon evidence of an emotional impairment that substantially affects the parent or other relative's functioning.
  o In determining good cause based in whole or in part upon the anticipation of emotional harm to the child, the parent or the other specified relative, the Case Manager must consider the following:
    ▪ The present emotional state of the individual;
    ▪ The emotional health history of the individual;
    ▪ The intensity and probable duration of the emotional impairment; and
    ▪ The extent of involvement of the child in the paternity establishment of support enforcement activity to be undertaken.

18.6.2.B Procedure to Determine Good Cause

The procedure to determine good cause is as follows:
• The child was conceived as the result of incest or forcible rape.
• Form DFA-AP-1A, Notice to Individual Who Has Claimed Good Cause for Refusal to Cooperate in Child Support Activities, must be completed by the Case Manager during a face-to-face contact with the participant who signed or was interviewed about the DFA-AP-1A.

The Case Manager must be sure the participant understands the information on Form DFA-AP-1A. Two original forms must be completed and signed by the Case Manager and the participant. One original is given to the participant and the other filed in the case record.
The participant has the primary responsibility for obtaining the verification needed to establish good cause. Refer to Chapter 7. The participant must provide the verifications within 20 days of the date good cause is claimed.

In certain situations, it is acceptable to make a determination of good cause without verification. These situations are:

- The claim of good cause is based on the anticipation that cooperation will result in physical harm to the specified relative or the child; and
- The Case Manager believes, from the information provided by the participant, that:
  - The claim is credible without corroborative evidence;
  - Corroborative evidence is not available; and
  - The Case Manager and Supervisor agree that good cause exists.

The Case Manager must determine if good cause exists within 45 days of the date good cause is claimed.

If good cause is established, the Case Manager must refer the case to the Child Support Specialist in writing (DHS-1) and indicate the basis for good cause. The case is not acted on by BCSE. At each redetermination of eligibility, the Case Manager determines if good cause still exists. If good cause no longer exists the Case Manager must notify the participant and take appropriate action.

If good cause is not established, the Case Manager initiates the PRC penalty by sending the participant a DFA-NL-C. The Case Manager notifies the Child Support Specialist that good cause was claimed, but not established, and that the penalty or sanction for refusal to cooperate has been applied.

---

18.6.2.C Data System Pending Good Cause

---

A letter is automatically generated to the absent parent(s) from the BCSE data system as soon as the case is referred through the eligibility system. Therefore, it is important that the participant be given the opportunity to establish good cause for not cooperating prior to the exchange between the two data systems.

When the participant refuses to cooperate or when the participant claims good cause before the BSCE referral, the claim of having good cause that is pending verification will prevent the automatic production of a notice to the absent parent.

If the case is approved or benefits are added to an existing case, prior to verification of the good cause claim, the claim of having good cause that is pending verification will prevent the
automatic production of a notice to the absent parent by the BCSE data system.

**18.6.3 WHEN THE PARTICIPANT REFUSES TO COOPERATE, OR CLAIMS GOOD CAUSE FOR REFUSAL TO COOPERATE**

If the participant indicates to the Case Manager that he does not intend to cooperate in BCSE activities, the Case Manager must determine if good cause exists for the refusal.

If good cause does exist, no BCSE action is required or taken and no penalty is applied to the participant. A DFA-AP-1A, Notice to Individual Who Has Claimed Good Cause for Refusal to Cooperate in Child Support Activities, must be completed. When there is evidence to immediately establish good cause, the Case Manager notifies BCSE at the time of the referral that good cause has been established.

If good cause does not exist or is not established, the WV WORKS case is referred to BCSE. The Case Manager must record in the eligibility system the circumstances involved in the determination of good cause. The Case Manager notifies BCSE at the time of referral that good cause was claimed but not established. If BCSE then notifies the Case Manager that the participant has failed to cooperate, the Case Manager sends the notification of sanction.

**18.6.4 CASE MANAGER RESPONSIBILITIES**

In addition, the Case Manager has the following responsibilities:

- To explain the requirements and benefits of BCSE services, including the right of the specified relative to claim good cause for refusal to cooperate.
- To refer appropriate cases to the Child Support Specialist. Referral is accomplished by data system exchange or DHS-1, Referral and Communications Form.
- To evaluate evidence presented if the participant claims good cause.
- To determine if good cause for failure to cooperate with BCSE exists.
- To apply the Personal Responsibility Contract (PRC) penalty for refusal without good cause to cooperate or redirect child support payments for WV WORKS.
- To respond to eligibility system alerts and take the required action.
18.6.5 DFA-AP-1, ACKNOWLEDGEMENT OF AUTOMATIC ASSIGNMENT OF SUPPORT RIGHTS AND OF COOPERATION REQUIREMENTS

The purpose of the DFA-AP-1 is to assure that affected participants know of the automatic assignment of support rights to the State and understand the benefits, requirements and rights associated with BCSE.

18.6.5.A Who Is Required to Complete the DFA-AP-1

18.6.5.A.1 Applicants

The DFA-AP-1 must be completed when there is at least one child included in the AG who has an absent parent(s). This includes children who receive Supplemental Security Income (SSI) and are included in the WV WORKS AG.

18.6.5.A.2 Participants

The DFA-AP-1 must be completed for active cases as follows:

- When a child is in an assistance group (AG) with no parent and a parent is then added, that parent must sign.
- When a child who has an absent parent, including a child who receives SSI, is added to the AG.

18.6.5.A.3 Minor Parent

When a major parent, minor parent and the minor’s child are included in the AG, the major parent is required to sign the DFA-AP-1 to assign support rights of the minor’s child.
18.6.5.B Instructions for Completion

Instructions for completion are as follows:

- Complete in triplicate.
- Enter the case name and case number in the indicated spaces on the form.
- Enter a check mark in the block beside each paragraph number to indicate that the participant understands the information.
- The specified relative must sign the form. If the parent is also in the home, he must sign the form.
- The Case Manager and participant must sign all copies.
- Distribute copies to the participant, BCSE Child Support Specialist, and file one in the case record.

18.6.5.C Procedures When the Participant Refuses to Sign

When the participant refuses to sign the DFA-AP-1, the action taken depends upon the reason for the refusal. When the participant indicates that he will not sign the DFA-AP-1 and, in doing so, indicates that he will not cooperate with BCSE, the Case Manager must determine if good cause exists for the refusal.

If good cause does exist, no BCSE action is required or taken and no penalty is applied to the participant. If good cause does not exist, the WV WORKS case is referred to BCSE and a sanction is applied. The Case Manager must record in the eligibility system the circumstances involved in the determination of good cause.

When the participant indicates that he will not sign the DFA-AP-1, but indicates that he will cooperate with BCSE after referral, the WV WORKS case is referred to BCSE and no penalty is applied. The Case Manager must record in the eligibility system that the content and purpose of the form were explained to the participant, that he refused to sign, the reason given for the refusal, and that the participant has indicated that he will cooperate with BCSE after the referral. The Case Manager must provide the participant with an unsigned copy of the DFA-AP-1 and this must also be recorded in the eligibility system.

Refusal or other failure to sign the DFA-AP-1 does not constitute failure to cooperate with BCSE requirements as shown on the PRC. The above instructions are followed and no sanction is applied.
18.6.5.D  When the Participant Claims Good Cause for Refusal to Cooperate after a BCSE Referral

When the participant claims good cause after the referral, the Child Support Specialist refers the case back to the Case Manager for a determination of good cause. The Case Manager enforces the cooperation requirement; however, the Child Support Specialist must participate in the good cause determination in an advisory capacity. The Case Manager must give the Child Support Specialist an opportunity to review and comment on the good cause investigation and the decision. The Case Manager must consider the recommendation of the Child Support Specialist in making the final decision.

18.6.6 REDIRECTION OF CHILD SUPPORT PAYMENTS

All child support payments made on behalf of children who receive WV WORKS must be redirected to BCSE. The first $100 in child support collected for families with one child and $200 for families with more than one child eligible for Temporary Assistance for Needy Families (TANF) will pass through to families and will not count against WV WORKS, WV WORKS solely state-funded programs, Diversionary Cash Assistance (DCA), or Employment Assistance Program (EAP).

Exceptions are as follows:

- The case is exempt from referral to the Child Support Specialist due to good cause.
- The specified relative refused to cooperate with child support activities after referral to BCSE and good cause was established.
- If paternity has not been established, but the putative father voluntarily makes child support payments, such payments are not required to be redirected.

NOTE: While there is no penalty for Medicaid recipients who refuse to redirect support payments, they must be instructed that being referred to BCSE automatically triggers income withholding, whenever there is an existing court order for support and an identifiable source of income.

After receiving a referral, the Child Support Specialist arranges for support payments to be sent directly to BCSE rather than the specified relative. If direct payments to BCSE cannot be arranged, the participant must forward the payment to BCSE. Failure to do so will result in application of a sanction for WV WORKS for failure to cooperate with child support activities.
18.6.7 REDIRECTION OF SPOUSAL SUPPORT

Spousal support must be redirected when:

- The spousal support (alimony or separate maintenance) is court-ordered; and
- It is paid by the absent parent to the parent who is the caretaker relative.

All policies and procedures applicable to child support which must be redirected also apply to spousal support which must be redirected to BCSE.

See Chapter 4 for counting redirected support.

Spousal support is not redirected when any of the following conditions exist:

- The parent is not included in the payment;
- The caretaker relative receiving the spousal support is not the parent of the children receiving WV WORKS;
- The parent who is the caretaker relative is receiving spousal support from a spouse who is not the parent of the children receiving cash assistance; or
- The spousal support is not court-ordered.

Spousal support which is not required to be redirected is considered unearned income and is counted as income.

18.6.8 REDIRECTION OF CHILD/SPOUSAL SUPPORT IN SPECIAL SITUATIONS

If the absent parent is ordered by the court to make child support payments in the form of in-kind payments, such as provision of food or clothing, or third-party payments, such as direct payment of the rent or mortgage, the payment cannot be redirected.

If the court order specifies that part of the child support obligations is to be paid in cash and part by third-party or in-kind method, the portion paid in cash must be redirected.

A child may receive statutory benefits such as Retirement, Survivors and Disability Insurance (RSDI) or Veteran’s Administration (VA) benefits, on the basis of his own entitlement, as a dependent of the absent parent who is the primary beneficiary. This benefit amount is not considered child support and is not redirected even though the court order may refer to such income as a source of support to the child, or even as child support.
18.6.9 PENALTIES FOR FAILURE TO CooperATE

The Case Manager makes the decision about the application of a sanction. The case is sanctioned for failure to cooperate with BCSE requirements based on the PRC. If good cause does not exist, the WV WORKS case is referred to BCSE and a sanction is applied.

A minor parent (mp), who is included in the payment, must always cooperate for the mp’s included child(ren) or a sanction is imposed, unless good cause exists. An included major parent (MP), or other caretaker, must cooperate for the mp and the mp’s siblings, if any, or a sanction is imposed, unless good cause exists. In addition, an included MP must cooperate for the mp’s included child(ren), as required by BCSE. Failure to comply, without good cause, results in application of a sanction.

Failure, without good cause, of either the mp or the MP to meet the cooperation requirements results in one sanction. Failure, without good cause, of both to cooperate may result in two sanctions. However, if there is more than one absent parent for either the mp or the MP, or both, failure, without good cause, results in one sanction for the case.

The WV WORKS benefit is sanctioned in the eligibility system.

18.6.10 COMMUNICATION BETWEEN THE CASE MANAGER AND THE CHILD SUPPORT SPECIALIST

Communication between the Case Manager and the Child Support Specialist continues until the case is closed or the child whose parent(s) is absent is removed from the AG.

The Case Manager must notify the Child Support Specialist, in writing, of the following:

- A good cause determination is being made and the Child Support Specialist comments and recommendations are being requested prior to a final decision.
- The participant has requested a Fair Hearing as the result of the Department of Health and Human Resources’ (DHHR) finding that good cause for non-cooperation is not established.
- Should the Case Manager become aware of information which could help the Child Support Specialist in obtaining support, this information must be shared.

The Child Support Specialist must notify the Case Manager, in writing, of the following:

- The participant refuses to cooperate in child support activities and the reason for the refusal.
• Information which affects eligibility or the amount of the payment.
• Change of address.
• Paternity is established.
• Participant refuses to redirect child support payments and/or refuses to repay child support payments which were not redirected.

Changes in case circumstances are automatically referred to BCSE through the data systems. When health insurance information is entered by BCSE, an eligibility system alert is sent to the Case Manager.

18.6.11 BCSE CASE CLOSURE OF WV WORKS CASES

BCSE closes a case after referral for reasons such as, but not limited to, the following:

• The non-custodial parental rights and responsibilities are terminated and no arrears are owed.
• The non-custodial parent or alleged father is deceased and no further action, including a levy against the estate, can be taken.
• Paternity cannot be established because the alleged father’s identity is unknown.
• The non-custodial parent’s location is unknown and BCSE has been unsuccessful in locating the person after exhausting all efforts.
• The non-custodial parent is a citizen of, and lives in, a foreign country, does not work for the federal government or a company with headquarters or offices in the United States, and has no reachable domestic income or assets; and there is no reciprocity with the other country.
• The non-custodial parent cannot pay support for the duration of the child’s minority and the person has no income or assets which can be levied or attached for support for one of the following reasons:
  o The non-custodial parent is incarcerated and there is no chance for parole for the duration of the child’s minority;
  o The non-custodial parent is receiving SSI and there is no income or assets to pay support and a doctor’s statement or statement from SSA is provided to state that the non-custodial parent is permanently and totally disabled; or
  o The non-custodial parent has a medically verified permanent and total disability with no evidence of support potential.

When BCSE closes a case for one of the above stated reasons, the BCSE Child Support Specialist enters the appropriate absence code and information about the absent parent is no longer exchanged with the BCSE data system. The code cannot be changed by the Case Manager.
Manager. The code is retained in the eligibility system and no entry is required at redetermination. If the Case Manager receives information about the absent parent which he believes is pertinent and which may require action by BCSE, he sends a DHS-1 to the Child Support Specialist.
18.7 LOCAL OFFICE RESPONSIBILITIES

In addition to the responsibilities contained in other chapters of the Income Maintenance Manual (IMM), the Case Manager has responsibilities related to the work program aspect of WV WORKS.

The Case Manager must assist the participant in all reasonable ways to achieve self-sufficiency. The West Virginia Bridge Model is designed to emphasize family stability, well-being, job development and job readiness, employment, job retention and stronger families. By using this model, it is a full family, holistic approach to eliminate challenges and barriers, while focusing on the family dynamic to promote job readiness and employment in order to lead to stronger families and self-sufficiency. To accomplish this, the Case Manager must assess the participant’s knowledge and skills, work with the participant and make informed recommendations about courses of action appropriate for each individual to develop a plan that is expected to lead to self-sufficiency. In addition, he must enter into an agreement with the participant concerning his involvement in the process of becoming self-sufficient, monitor the participant’s progress to determine changing needs and the need for support service payments and take appropriate follow-up action based on the participant’s actions.

The eligibility requirements of the Personal Responsibility Contract (PRC) and Self-Sufficiency Plan (SSP), is detailed in Chapter 1. Other requirements, particularly those dealing with the participant’s continuing eligibility, are found throughout the IMM. Chapter 14 contains other information about the eligibility aspect of the work requirements. The following sections in this chapter are devoted to work activities and follow-up actions and contain information necessary for the Case Manager to assist the participant in becoming self-sufficient and in developing opportunities for him.

18.7.1 CASE MANAGEMENT

This case management process provides for substantial flexibility in administration of the work component of WV WORKS. Each Work-Eligible Individual must meet a work requirement and the State must meet, and maintain, an established participation rate. The Case Manager has the discretion to tailor the work requirements to the needs and goals of each family. Therefore, there are no mandatory procedures or processes that must be applied to each family. Instead, the Case Manager’s reasonable and appropriate guidance and discretion are used to assist the participant in accepting personal responsibility and achieving self-sufficiency.

Self-sufficiency is defined as being able to provide for the family’s basic needs without relying on WV WORKS monthly cash assistance. It is recognized that some families will not be able to become completely self-sufficient. For these families, the goal is to reduce the reliance on cash
assistance as much as possible and to find additional resources before the family reaches the 60-month lifetime limit.

To meet the goals of WV WORKS, a Case Manager performs the following activities for WV WORKS families:

- Determines initial and ongoing case and individual eligibility. When the WV WORKS family also receives Supplemental Nutrition Assistance Program (SNAP) and/or Medicaid, eligibility for these programs is also determined and maintained by the same Case Manager.

- Negotiates the SSP with the participant to determine the best means to achieve self-sufficiency and accept personal responsibility. The Case Manager may complete the initial SSP manually using a shelf document (DFA-SSP-1) or in the eligibility system. When the initial SSP is completed on a paper form, the eligibility system must be updated as soon as possible.

- Completes the initial SSP within 10 working days of the initial contact when the participant expresses an interest in applying for WV WORKS. The Case Manager may complete Work Program (WP) information after that time, but must not require the participant to visit the office again to be present during the WP enrollment process.

- When the Case Manager determines that the participant has a potential disability and wishes to participate in the WV WORKS program activities, negotiates the SSP in a way that is appropriate for that individual and his needs to help him move toward self-sufficiency. In these cases, the SSP must be developed to address not only tasks that lead to employment but also considers the disabled individual’s need for health care. Referrals should be made for all services and benefits for which the assistance group (AG) may be eligible, even if those services are available only through other agencies. These referrals are made on the DFA-WVV-ADA-1 and the outcomes of these referrals are tracked on the DFA-WVV-ADA-1A. WV WORKS participants who have a documented disability must be placed in the participant with a documented disability (AD) component in addition to other component codes.

- Uses the eligibility system to make changes to the initial SSP and attaches changes to the initial SSP. All changes must be saved in the case management system.

- Establishes, for the participant only, reasonable and appropriate requirements related to the participant’s capability to perform the tasks on a regular basis, including physical capacity, psychological fitness, maturity, skills, experience, family responsibilities and place of residence. In addition, reasonable and appropriate requirements take into account the participant’s proficiency and child care and other support services needs

- Monitors compliance with the PRC and SSP.

- Provides continuous assessment of the participant’s needs and goals, and negotiates
adjustments to the SSP as necessary.

- Determines which participants are temporarily exempt from meeting the work requirement and assists the participant in becoming able to participate.
- Determines good cause for failure to comply with the PRC and SSP.
- Applies sanctions as appropriate.
- Develops employment and other work activity opportunities for the participant within the community.
- Makes referrals to other community services.
- Provides payment for support services, as appropriate.
- Identifies potential resources and makes appropriate referrals to secure them.
- Conducts a home visit or a work/activity-site visit a minimum of once each 12 months for all Work-Eligible Individuals requiring a PRC and SSP. Records results of these visits in the eligibility system.

18.7.2 OTHER WORK ACTIVITIES

As part of the Family Stability Well-being column of the West Virginia Bridge Model, the Other Work Activities (OW) component is to be used to track time spent on tasks leading to self-sufficiency or family stability. Individuals placed in this component are considered in the federal participation rate calculation. The OW component will also document the extent in which individuals are involved in other work-related activities that do not count toward the federal participation rates, but lead to their self-sufficiency or family stability.

Allowable activities include all of the following, but may include other documented SSP activities, agreed upon by the participant and the Case Manager:

- Appointments with local resources that may be assisting with overcoming challenges;
- Arranging for child care;
- Arranging for housing;
- Arranging for transportation or working with Good News Mountaineer Garage;
- Child Support meetings or hearings;
- Development of the SSP;
- Emotional Health Inventory (EHI);
- Learning Needs Screening;
- Legal Aid appointments;
• Orientation;
• Referral process for post-secondary education prior to enrollment;
• Self-Sufficiency Evaluations with Case Manager;
• Test of Adult Basic Education (TABE) testing;
• Time spent with Case Manager during home visit;
• Work Keys testing;
• Working with Child Protective Services (CPS) for multi-disciplinary treatment (MDT) meetings;
• Working with local agencies; or
• Any other family stability service needed to improve the family’s circumstances.

Assignment of any of these activities must be recorded in eligibility system comments. All OW activities must be reviewed monthly. The Case Manager must update the case comments with the information on the status of the participant. Hours of participation may be documented using a Participation Time Sheet (DFA-TS-12) or by the Case Manager's notes. The suggested amount of time a participant may be placed in the OW component is 60 days. For placement beyond 60 days, the Division of Family Assistance (DFA) may be contacted for additional case management guidance. Certain support payments will be allowable with this component.

Every effort must be made to obtain countable hours for these participants (contacting a school for educational hours, anticipating hours from employer statement, contact a provider for substance abuse or mental health treatment, etc.). When there are absolutely no countable participation hours to enter for these participants, a minimum of one hour of OW should be entered and documented in comments for making these contacts to obtain countable participation hours.

**NOTE: There should be no zero hour cases. Every Work-Eligible case should have at least one participation hour.**

---

**18.7.3 ASSESSMENT**

The assessment of the Work-Eligible Individual's goals, skills, needs and challenges naturally centers on the participant. However, any assessment completed must be a family assessment since the participant is part of the family and is often considered head of the family. In addition, making life better for the family can be a motivational factor in the case management process. Assessment is an on-going process that occurs throughout case management.
18.7.3.A Family Assessment

A Family Assessment means evaluation of work skills, prior work experience, employability, education, and challenges to become self-sufficient, but not limited to, mental and physical health issues, lack of transportation, and child care.

An in-depth assessment of the participant and his family is necessary to discover the family’s challenges to meeting their goals and to develop plans to overcome them.

The assessment is limited to producing information useful to the participant, his family, and the Case Manager in evaluating the participant’s and his family’s challenges to meeting their goals.

Rather than being a fixed process with mandated procedures, assessment is an ongoing activity. As the participant’s and family’s circumstances change, their goals and/or challenges may change, resulting in changes in the actions or activities necessary for him and the family to succeed.

The assessment process necessarily includes a series of interviews/conversations with the participant. It may also include educational and/or aptitude/interest testing and interpretation of this information; identification of the participant’s skills, abilities and interests; use of community resources; and research into possible employment opportunities.

The following information must be entered in the eligibility system:

- Education and Testing Assessment
- Employment History
- Self-Sufficiency Goals
- Job Readiness Assessment
- Family Strengths and Challenges

The WV WORKS Self-Sufficiency Appraisal Form, DFA-WVW-3A, is essential to the assessment process and its use is mandatory for all Work-Eligible Individuals. The purpose of the form is to gather pertinent information about the participant: work experience, what type of work the participant desires, educational background, family information and family support system, individual and family health, participant’s finances, life situations, and goals. This information, along with testing and other assessment information, is used to negotiate the participant’s SSP. It is expected that the SSP will be a step-by-step plan to lead the participant and his family toward his goal of self-sufficiency.
18.7.3.B  Referrals for Participants with Disabilities

If at any time during case management, the participant indicates he is disabled or has a disability as outlined in Section 1.5, the Case Manager must use the DFA-WVW-ADA-1 to make any appropriate referrals to agencies that may be able to provide appropriate services to the participant. The DFA-WVW-ADA-1A is completed to follow-up on the referral and records the outcomes and services received. The DFA-WVW-ADA-1A is placed in the participant file.

18.7.3.C  Home Visit

In order to gain as much information as possible prior to negotiation of the first full SSP, a home visit is required within 30 days of the date of application.

At a minimum, the Case Manager must review the completed DFA-WVW-3A (appraisal) form with the participant during the home visit. Results of the initial home visit must be documented in the eligibility system. The first full SSP and the appraisal form must also be completed within 30 days of the date of application, so the home visit must not be delayed until the last day. When the WV WORKS case is re-opened within three months of a home visit, a new initial home visit is not required. The DFA-WVW-3A must also be reviewed at site visits, applications, reviews, case staffing’s and after any reported changes which would change a response. A home visit is also required within 60 days prior to the third sanction. Those responses must be captured by updating the eligibility system.

**EXCEPTION:** When the participant is fully participating in an allowable work activity, the initial visit may be a site visit if the participant agrees. The Case Manager must protect the participant’s confidentiality when completing any site visit.

The DFA-WVW-3A is designed for either the participant or Case Manager to complete and may be completed in the office or at the participant’s home. Allowing the participant to take it home to complete gives him the opportunity to think about his strengths, what he wants to change about his life, and what he would like to obtain for himself and his family. If the Case Manager asks the participant to complete the form at home and return it prior to the home visit, there is no penalty for failure to return the self-completed form. Instead, the Case Manager will take another form to the home visit and complete it at that time.

If desired, the Case Manager may complete the first full SSP in the participant’s home during the home visit. After reviewing the appraisal form and all other assessment information, the eligibility system must be updated with this information as soon as possible after this.
The product of the ongoing assessment process is a series of SSPs that reflect the participant’s changing circumstances and tasks that move him toward self-sufficiency.

The Case Manager must complete an updated DFA-WVW-3A form with the participant during the annual home visit and/or case review.

The annual home visit is marked as completed in the case management system when a home visit and DFA-WVW-3A is completed within 60-days of the WV WORKS annual redetermination.

Types of home visits include but are not limited to: a visit within 30 days of application, visits for third and subsequent sanctions, annual home visits, and scheduled and unscheduled visits as needed for case management purposes.

18.7.3.D Missed Appointments

Failure, without good cause (see Chapter 14.9), to keep appointments to initiate or continue the assessment process indicates a failure/refusal to cooperate or participate.

The Case Manager may provide written notice of the appointment by including it on the initial SSP or by using any approved appointment forms. The written notice may be given to him during the interview or may be mailed. If no record of the issuance of the notice will be shown in the eligibility system or on a signed SSP, the Case Manager must record that such a notice was issued and include the date/time of the appointment. When a letter is mailed scheduling the appointment, the Case Manager must allow no less than seven calendar days. This period begins the day following the date the letter is requested in the eligibility system or when a manual letter is sent.

When an appointment is scheduled in writing and the applicant misses the appointment, a sanction may be imposed without making a second appointment, unless the applicant has good cause or contacts the Case Manager to reschedule the appointment. When an appointment is unscheduled, a sanction may not be imposed for failure to be available. Instead, the Case Manager must schedule a second appointment in writing. Failure, without good cause, to keep the second appointment or reschedule it results in a sanction.

18.7.4 ASSESSMENT TESTING

In assessing the participant’s current situation and negotiating the SSP, the Case Manager must explore family situations, education, work history, skills, aptitudes, attitude toward work, employment potential, possible social services or other support systems including physical,
mental and emotional fitness, and the need for support service payments. Form DFA-WVW-3A may be used as an interviewing guide, but the areas explored are not limited to those on the form. Individual circumstances may require varying degrees of exploration. The Case Manager may include educational assessment testing. Assessment testing consists of the Learning Needs Screening, Mental Health Screening, TABE, and Work Keys. All Work-Eligible Individuals must be scheduled for assessment testing unless one of the exceptions exists below.

Assessment testing is administered by the Department of Education Assessment Specialists. Copies of assessment testing results will be forwarded to the Case Manager by the Assessment Specialist. However, under certain circumstances the assessment testing (TABE) may be administered by an Adult Basic Education (ABE) teacher, or other appropriate agency. An example of this would be expediting placement of a participant in an activity such as an ABE class, training, or employment. In this situation the Case Manager must request a copy of the assessment testing results. Test results must be filed in the participant’s record.

18.7.4.A Referral for Assessment Testing

The Case Manager completes referrals for assessment testing by forwarding a list of participants scheduled for testing to the Assessment Specialist. The test administrator is responsible for completing a release of information for each participant.

18.7.4.B Learning Needs Screening

The Learning Needs Screening, may be completed at the time TABE is administered. This is used to screen for possible learning disabilities. Based on the results of the Learning Needs Screening, referrals may be made to the Division of Rehabilitation Services (DRS) for further assessment and diagnosis of possible learning disabilities and/or for accommodations to be made in an ABE/or high school equivalency class, training program, or work site.

Completion of the Learning Needs Screening by the participant is voluntary. Participants declining to complete the Learning Needs Screening will be asked by the West Virginia Department of Education Assessment Specialist to sign the waiver form, DFA-WVW-40. The original waiver will be returned to the Case Manager for the participant’s file and a copy will be given to the participant. The Case Manager will record in the eligibility system that the Learning Needs Screening has been offered to the participant but he has declined.

If the participant indicates to the Case Manager that he wishes to decline to have the Assessment Specialist or full-time ABE teacher complete the Learning Needs Screening, the Case Manager must ask the participant to sign the DFA-WVW-40. However, the Case Manager
must explain to the participant the importance of completing this screening and explain that the results of this screening could help provide further referrals and services to him. Refusal to sign the DFA-WVV-40 will not result in a sanction.

### 18.7.4.C TABE Testing

The purpose of TABE testing is to measure basic academic skills such as reading, math, language, and spelling through real-life and academic questions. Scores are given in grade level equivalents.

The Case Manager must schedule all Work-Eligible Individuals for TABE unless one of the exceptions listed below exists.

Based on the elements measured by each test, as found below, the Case Manager determines which test is more appropriate.

Copies of test results are to be requested for participants who have completed TABE, Work Keys, or other similar assessment testing at WorkForce West Virginia, ABE, One-Stop Centers, vocational training centers, etc.

### 18.7.4.C.1 Exceptions to Completing TABE Testing

Exceptions to completing TABE testing include:

- Participant has completed two or more years of college, or is currently attending or is enrolled in the next scheduled term at a college or vocational/technical program which requires a high school diploma or equivalency. Under certain circumstances, however, testing may be warranted if the student has a known learning disability or his basic academic skills are deficient; or

- Participant is scheduled to begin a job which will make the family financially ineligible for a monthly WV WORKS check; or

**NOTE:** If a part-time ABE teacher administers the TABE, the Case Manager must schedule the participant in to have the Assessment Specialist administer the Learning Needs Screening. Besides the Assessment Specialists, only full-time ABE or Temporary Assistance for Needy Families (TANF) ABE teachers will complete the Learning Needs Screening. WV WORKS staff must not administer the Learning Needs Screening under any circumstances.
• Other documented conditions exist that prevent effective assessment. These reasons must be documented in the case recording; or
• Participant completed TABE or other appropriate assessment testing at another agency, training facility, such as WorkForce West Virginia, ABE, or other agency unless one of the conditions listed below exists.

18.7.4.C.2  TABE Retesting Conditions

After the initial basic skills assessment (TABE), Work-Eligible Individuals are referred for re-testing under the following conditions:

• Two years have elapsed since the initial assessment;
• More than one year has elapsed and the participant wants to enroll in an education or training program; or
• Specific instances have occurred, such as a head injury that could impact learning ability.

18.7.4.D  Work Keys

Work Keys assessment measures basic skill levels and determines how they compare to the skills required for specific jobs. Skill areas include Reading for Information, Locating Information, and Applied Math. Work Keys can be used to match participants to specific jobs for which they are qualified, determine skill gaps for desired jobs, and/or serve as an effective tool in employment portfolios.

Work Keys Occupational Profiles are available online at ACT WorkKeys Job Profiling. In addition, certain companies in West Virginia have specified those Work Keys skill levels required for their occupations. Participants falling below the specified skill level required in one of the three skill areas may be referred to an ABE classroom to upgrade that specific area or areas.

18.7.4.D.1  Scheduling Work-Eligible Individuals for Work Keys

All Work-Eligible Individuals are to be scheduled for Work Keys testing under the following circumstances:
Assessment testing indicates participant has a ninth grade or higher level in reading and math; and
Guidance is needed to effectively determine appropriate job placement.

18.7.4.D.2  Referring Work-Eligible Individuals for Work Keys Retesting

All Work-Eligible Individuals are referred for Work Keys retesting as follows:

- Participant has successfully completed vocational skills training, or college; or
- Participant has upgraded basic skills in ABE or has passed the Test Assessing Secondary Completion (TASC); or
- Skill areas from initial Work Keys testing have been successfully upgraded as a result of referral and attendance in an ABE class or other training facility.

18.7.4.E  Mental Health Screening – EHI

All Work-Eligible Individuals must be referred for mental health screening. The EHI will be completed by the West Virginia Department of Education Assessment Specialists at the time the TABE testing is scheduled. The purpose of this screening is to check for possible indicators of mental health and substance use issues. This screening is not a diagnosis. Positive results will require a referral to the appropriate mental health professional for a diagnosis and possible treatment. All EHI screening must be completed by the Assessment Specialists.

Completion of the EHI Screening is voluntary. Participants declining to complete the EHI must be asked by the Assessment Specialist to sign the waiver form, DFA-WVW-40. The original waiver is returned to the Case Manager. A copy is given to the participant. The Case Manager must record in the eligibility system that the EHI was offered to the participant, but he declined. The Case Manager must have the participant sign the DFA-WVW-40 when the participant declines to complete the EHI screening.

If the participant wishes to decline to have the Assessment Specialist complete the EHI, the Case Manager must ask the participant to sign the DFA-WVW-40. However, the Case Manager must explain to the participant the importance of completing this screening and explain that the results of this screening could help provide further referrals and services to him. Refusal to sign the DFA-WVW-40 will not result in a sanction.
NOTE: If the participant fails to show up for the EHI and/or Learning Needs Screening, the Case Manager must attempt to have the participant complete them or sign the DFA-WVW-40 at the first opportunity.

Work-Eligible Individuals are referred for additional EHI screening(s) under the following conditions:

- The Case Manager becomes aware of changes in the participant’s mental health condition which indicate that new or additional mental health issues may exist.
- The participant previously declined to complete the EHI, but is now willing to complete the screening.

The Case Manager must notify the Assessment Specialist when participants are scheduled to complete the EHI only.

Results of the EHI must be scored and returned to the local Case Manager for follow-up with the participant. If the screening indicates a referral is needed in one or more of the areas listed on the scoring key, The Case Manager must go over the results with the participant. If indicated, the Case Manager must offer the participant a referral to the appropriate available mental health agency or professional for diagnosis and follow-up unless the participant is already receiving services from a mental health professional. A face-to-face meeting between the Case Manager and the participant is the preferred method of reviewing the EHI. If the participant declines a referral and/or follow-up services the Case Manager must record this in the eligibility system.

18.7.4.F Case Manager Follow-Up

When the test results are received, the Case Manager records the information in the eligibility system and schedules an interview with the participant as soon as possible to discuss the test results as appropriate. At this interview, the Case Manager may provide the participant with a copy of the test results.

Staff may contact the Department of Education Assessment Specialist for questions or help in evaluating the results of TABE, Learning Needs Screening, or Work Keys. Special attention should be paid to the recommendations made by the Assessment Specialist for possible referral to programs and services. Recommendations by the Assessment Specialist must be addressed and appropriate referrals made by the Case Manager.
18.7.4.G Referrals to the DRS

Referrals to the DRS may be considered when either mental or physical disabilities are indicated.

The Case Manager may make a referral to DRS if the psychological evaluation/report from the mental health professional indicates there is a disability and the participant indicates he is willing to work. This also applies to participants with physical disabilities who want to work.

18.7.4.H Referral to the Medical Review Team (MRT)

If the Case Manager and/or Supervisor is unable to make a determination as to the participant’s ability to participate in work activities based on the medical documentation available, they must submit the case to the MRT. See Chapter 13.8.1. Any participant who has had good cause for not participating for more than six months, due to a doctor’s statement, must be referred to the MRT.

A MRT referral is made for adults not Medicaid eligible who’s EHI indicates a referral is needed. The MRT referral must be made after the results of the EHI have been discussed with the participant. The MRT will confirm if a referral is needed. This is necessary in order to refer the participant to a mental health professional for a diagnosis.

NOTE: WV WORKS participants who have a documented disability must be placed in the AD component in the eligibility system, in addition to other component codes.

18.7.4.I Referrals to WorkForce West Virginia - Assessment Testing Results

Workforce Innovation and Opportunity Act (WIOA)-funded employment and training programs require that TABE, and if appropriate, Work Keys be completed by participants referred to and enrolled in those programs. Therefore, the Case Manager must schedule participants for the appropriate assessment testing whenever possible. Case Managers making referrals to WorkForce West Virginia must forward copies of participants’ TABE scores and Work Keys (if completed).

The release of information provided by the West Virginia Department of Education (DOE) Assessment Specialists at the time of the assessment testing (and filed in the WV WORKS
record) authorizes the release of this information to the WorkForce West Virginia centers. Release of assessment testing results to other agencies when appropriate requires completion of the OFS- Release-1.

18.7.4.J Assessment Testing Participation/Support Service Payments

Assessment testing (Learning Needs Screening, EHI, TABE, and Work Keys) administered by the Assessment Specialist in the local office or other designated testing location counts as OW hours. Transportation support service payments may be made for assessment testing attendance/completion.

18.7.4.K Substance Abuse

If the participant indicates substance abuse problems, the Case Manager should make a referral for evaluation and counseling prior to scheduling assessment testing. Any determination of substance abuse problems is based on statements made by the participant, not on the feelings or perceptions of the Case Manager.

18.7.5 THE PRC AND DEVELOPMENT OF THE SSP

The PRC contains information and requirements applicable to all Work-Eligible Individuals. The eligibility system allows for the recording and printing the SSP. Changes must be saved in the case management system.

The promotion of self-sufficiency is accomplished primarily through the use of the SSP. The SSP is completed during a negotiation between the Case Manager and the adult(s) and/or emancipated minor(s) in each AG or non-recipient Work-Eligible Individual. During the negotiation, the participant and his family must be encouraged to provide information about the participant’s and his family’s goals for becoming self-sufficient and the means by which the goals may be achieved. If the participant does not have defined self-sufficiency goals, the Case Manager must encourage him to consider such goals in consultation with his family before the SSP is updated.

The Case Manager must explore all of the desires and work goals presented by the participant and his family to determine which are possible, which can be accomplished with the resources
available to them and to the Department of Health and Human Resources (DHHR), which can be accomplished in an appropriate time and, ultimately, which is most likely to result in self-sufficiency for the participant and his family. In addition, the Case Manager must explore other possibilities not presented by the participant and offer these to the participant as alternatives. At all times, the Case Manager is expected to balance the participant’s wishes with his need to achieve self-sufficiency and the DHHR’s goal of meeting federally-established participation rates.

The SSP outlines the objectives and the steps needed to achieve self-sufficiency, as well as a time frame for the completion of program requirements. Specific duties are required. All requirements listed on the SSP must be reasonable and appropriate for the participant.

The SSP is subject to renegotiation throughout the household’s receipt of cash assistance. Initial and ongoing assessment produces information that allows the Case Manager to provide reasonable guidance to the participant to attain his goals and forms the basis of the SSP.

The SSP must be specific enough to provide direction for the participant and must reflect careful analysis of the participant’s needs and potential. It must also be flexible enough to change as opportunities and situations warrant. Changes in occupational goals or activities to meet the participant’s work requirement require revisions to the SSP. Each time the SSP is revised on a paper form, the participant and the Case Manager must initial and date the changes. When a new SSP is completed, both must sign and date the form.

The participant must be provided with a copy of the SSP each time a new one is completed or a revision is made to an existing one.

It may be possible for the participant to achieve self-sufficiency without a document defining specific activities. However, clarifying goals and actions to reach the goals helps the participant and Case Manager to focus on the most appropriate actions. This makes their efforts more productive. Although the primary concern should be the development of a meaningful SSP, the form itself is helpful to the participant in understanding the expectations. Committing the plan to writing also helps the Case Manager be more specific about his responsibilities. By signing the PRC and SSP, each party agrees to fulfill his respective responsibilities.

**NOTE:** See Chapter 1 for information about the PRC as an eligibility requirement and about completion of an initial SSP and the first full SSP.

### 18.7.6 PERIODIC SELF-SUFFICIENCY EVALUATION (PSSE) 12/24/36/48 MONTHS

After a participant has received WV WORKS for 12 months, 24 months, 36 months, or 48 months, periodic self-sufficiency evaluations are required to be conducted in either one of two
ways:

- Face-to-face meeting with the participant; or
- A Supervisor/Case Manager meeting to review the case.

It is the decision of the WV WORKS Supervisor after a formal consultation with the WV WORKS Case Manager about whether or not a face-to-face meeting is required at the 12/24/36/48 month self-sufficiency evaluation point. At its discretion, the local office may choose to include the Community Services Manager (CSM) in any decision about a face-to-face meeting. At a minimum, the Supervisor and Case Manager must meet and review the case; discuss the participant’s progress, barriers, and other issues affecting the family’s self-sufficiency; make necessary recommendations’ and arrange appropriate referrals to other agencies and services as needed.

The Case Manager must arrange an office visit or home visit with the participant if the assessment and/or SSP forms need to be updated as a result of the 12/24/36/48 month evaluation meeting with the Supervisor. A full case recording must be made in comments with details of the face-to-face meeting or Supervisor/Case Manager consultation and recommendations from these 12/24/36/48 month evaluation.

NOTE: Failure, without good cause, of the participant to attend or otherwise cooperate in the scheduled evaluations results in application of a sanction only when a face-to-face meeting is scheduled. It is suggested that the evaluations be listed specifically on the SSP to avoid questions about notification of the requirement. However, the general statement on the SSP form about keeping all appointments will usually serve for application of a sanction.

18.7.6.A 12-Month PSSE

After a participant has received WV WORKS for 12 months, a self-sufficiency evaluation must be conducted as described above. If a face-to-face meeting is chosen, the evaluation must include all Work-Eligible adults or emancipated minors in the household to evaluate the effectiveness of the self-sufficiency plan and to develop a new plan as needed.

The meeting must occur during the 12th or 13th month of receipt of WV WORKS benefits. The purpose of this meeting is to complete a mandatory case staffing which must include the participant, other parent in the household (even if the other parent is excluded from the AG), the Case Manager, the Supervisor, other DHHR staff as needed, any community resource person(s) directly working with the participant, and a representative of the participant’s choosing.
At this meeting, any additional barriers to self-sufficiency should be identified and solutions to overcome those barriers explored. The participant should be encouraged to make decisions regarding those barriers and the solutions. At this meeting, the Case Manager must review the SSP and DFA-WVW-3A must be reviewed and updated as needed. The SSP must be printed for the updates to be saved and for the eligibility system generated report to be updated.

Any initial doctor’s statement that indicates the participant is disabled longer than six months must result in a referral to the MRT. If the Case Manager receives a medical statement indicating the participant is disabled six months or less, an MRT referral must be made if the participant is still claiming he is disabled at the time the statement expires. Staff must not wait until the 24 months PSSE to refer an individual to the MRT. This should be done any time the participant claims a disability lasting longer than six months from the application date forward.

**18.7.6.B 24-Month PSSE**

A face-to-face evaluation or Supervisor/Case Manager meeting to review the case must be completed during the 24th or 25th month of receipt of WV WORKS following the same procedure as the 12-month evaluation.

**NOTE:** WV WORKS participants who have a documented disability must be placed in the AD component in Work Programs in addition to other component codes.

**NOTE:** If the requirements in Section 14.9.1.E regarding submitting a MRT application are not met by this time, it must be completed as necessary during the 24 month evaluation.

**18.7.6.C 36-Month PSSE**

Another face-to-face evaluation or Supervisor/Case Manager meeting to review the case must be completed after the participant has received WV WORKS for 36 months.

This evaluation must occur during the 36th or 37th month of WV WORKS receipt. It will serve the same purpose and follow the same pattern as the 12- and 24-month evaluations. The 36-month meeting must also include the CSM or his designee.
18.7.6.D  48-Month PSSE

An additional face-to-face evaluation or Supervisor/Case Manager meeting to review the case must be completed after the participant has received WV WORKS for 48 months. This evaluation must occur during the 48th or 49th month of receipt. It follows the same pattern as the 36-month evaluation.

18.7.6.E  PSSE Exceptions

When an AG is receiving Employment Assistance Program (EAP), the 12/24/36/48 month evaluations are not required as long as the participant remains employed. When an AG is closed prior to the 12th, 24th, 36th or 48th month and reappears in the month an evaluation would normally be due, the evaluation is not completed prior to approval. Instead, the AG will be evaluated at the next scheduled interval that is three or more months in the future. This also applies when the AG is closed in the 12th, 24th, 36th or 48th month before the evaluation takes place. The Supervisor may decide on a case-by-case basis that the evaluation that is due in the month of application or within three months of that date needs to be completed.

**NOTE:** When a parent included in the AG resides with a non-recipient Work-Eligible Individual, both must attend the 12th, 24th, 36th, and 48th month evaluation meetings.

**PSSE Exception Example 1:** An AG is closed effective August when the father finds full-time employment. He gets laid off at the end of September and reappears for WV WORKS in October. The AG is due for a 24-month evaluation in October, but it is postponed until the 36th month because it is the next evaluation interval that is three or more months ahead.

**PSSE Exception Example 2:** An AG is due for its 48-month evaluation in November 2016, but the AG is closed effective November before the evaluation takes place. The AG reappears in February 2017. The Case Manager does not back up and complete the missed 48-month evaluation. Instead, the 55th month case review is the next required contact. See Section 18.2.4 for information regarding the 55th month case review.
18.7.7 JOB DEVELOPMENT

Job development and the subsequent placement of Work-Eligible participants in employment are the primary focus of WV WORKS. The WV WORKS staff is expected to be visible in the community and participate in various employment-related activities and initiatives. The WV WORKS staff is expected to relate to private employers and related organizations professionally, honestly, and with integrity.

Job development and placement efforts must be coordinated closely with the local WorkForce West Virginia office. As appropriate, Work-Eligible participants are required to register with WorkForce West Virginia and to keep their applications current. To increase the resources available to the participant, contacts are established and maintained with DRS, Department of Education, Community Action Agencies, and other public and private organizations which could offer activities or support.

18.7.8 CHILD CARE REFERRAL

Child care must be made available to any Work-Eligible participant who needs it in order to accept employment or to participate in another work activity. The participant must be referred to the appropriate Resource and Referral agency. Child care must be arranged before placement.

18.7.9 MENTORING

When the Case Manager and the Work-Eligible Individual agree that the participant could benefit from a mentor for counseling and guidance, the participant may be assigned to a mentor. Mentoring may be accomplished by assigning a mentor to work individually with one or more participants. In addition, a mentor or team of two or more mentors may provide assistance to one or a group of participants. The method selected is based on the participant’s needs and the resources available.

Being a mentor does not allow access to or knowledge of confidential information about the participant. The Case Manager must obtain the participant’s written permission prior to providing such information to the mentor. A general waiver allowing information to be shared with the mentor is not sufficient; a waiver is required for each piece of information shared or one waiver may identify each piece of information. The participant may provide any personal or confidential information to the mentor that he chooses.
A mentor must:

- Be gainfully employed or retired from gainful employment;
- Have sufficient time available to provide guidance for the participant;
- Set the boundaries of the relationship, so that the participant is guided by, but not dependent upon, the mentor;
- Consult frequently with the Case Manager about guidance provided to the participant;
- Notify the Case Manager immediately upon deciding to terminate the relationship with the participant; and,
- Adhere to the DHHR’s standards of confidentiality regarding case record information.

Being a mentor may include:

- Counseling and guidance in decision making;
- Handling crises;
- Providing reminders to keep medical appointments;
- Providing assistance in accessing resources;
- Arranging transportation;
- Arranging child or elder care;
- Providing emergency child or elder care;
- Planning so that household tasks are done in spite of work schedules and children;
- Improving employability;
- Learning to shop wisely;
- Planning meals; and,
- Providing guidance related to any other aspects of the participant’s life that can lead him toward self-sufficiency.

A mentor must not:

- Be a relative or married to a relative of the participant;
- Have a relationship with the participant prior to becoming a mentor;
- Have a physically intimate relationship with the participant; or,
- Loan or give the participant money.

Mentoring may be particularly beneficial to minor parents or other young parents.
18.7.10 COURT FEES

When court fees are required for the appointment of a committee, the full amount of the court costs, excluding attorney fees, may be paid on a one-time-only basis.

Upon receipt of a written notification from the County Clerk's office, the Case Manager issues the supplemental payment.

18.7.11 DOMESTIC VIOLENCE ASSISTANCE

The Case Manager must inform each applicant/program participant of the availability of services related to prevention of domestic violence. To protect the abused person when the information is offered to more than one adult or emancipated minor in the family at the same time, it must be stressed that the Case Manager is required to provide the information to all participants. The instructions about domestic violence assistance in Sections 1.2.3.E and 1.5 must be followed.

18.7.12 WV WORKS DONATED VEHICLE PROGRAM

The purpose of the WV WORKS Donated Vehicle Program is to assist in eliminating transportation as a barrier to participation by providing the participant with an opportunity to obtain and own a vehicle. The Case Manager initiates the process by referring appropriate participants to the WV WORKS Donated Vehicle Program. Supervisor approval is required.

18.7.12.A Appropriate Referrals

WV WORKS Work-Eligible Individuals and those eligible for continued support service payments may be referred. The following requirements must be met when determining an appropriate referral:

- Possession of a valid West Virginia driver’s license; and
- The unavailability of public transportation; this includes but is not limited to:
  - The public transportation schedule and proximity to the residence
  - Child care
o Work or educational activities; and

- No road-worthy vehicle, or two-parent household when another vehicle is necessary; and
- The need to meet a work activity or continue employment; and
- No criminal driving record. This includes, but is not limited to, a DUI conviction in the past 3 years, a hit and run or flight to avoid arrest. Participants who have completed a State-approved driving class and have had their licenses restored may be referred; and
- Verification of proof of vehicle liability insurance; and
- An agreement to pay the vendor $1 for the appropriate donated vehicle.

Participation in any WV WORKS Donated Vehicle Program is limited to once per individual in a lifetime. Extenuating circumstances may be sent to the DFA Family Support Policy Unit for special consideration. If a household contains two parents and two vehicles are required, each may be referred to the program.

The participant must be a Work-Eligible Individual in an active WV WORKS case or eligible for continued support service payments at the time of referral and receipt of the vehicle. When the referral for a donated vehicle is made near the end of a continuation of services period, the receipt of the vehicle must still occur even if the participant’s continuation of services period has ended.

If the participant already has a vehicle(s) registered in his name, he must provide documentation that:

- The vehicle(s) is junked; or
- The cost of repairs exceeds the limit specified in Section 18.19; or
- The other parent needs the vehicle for employment or to participate in an activity.

18.7.12.B Referral Process

Referrals to the WV WORKS Donated Vehicle Program vendor are made using form DFA-CARS-1 and must include a copy of the participant’s driver’s license or Division of Motor Vehicles (DMV) printout. The form is self-explanatory and all requested information on the form is mandatory.

When the vendor notifies the Case Manager of approval or denial for participation in the program, the Case Manager must record the appropriate information in the eligibility system. If the vendor notifies the Case Manager that the participant is not a suitable candidate for the program, the vendor must provide a written explanation.
18.7.12.C Vendor Responsibilities

Upon receipt of the DFA-CARS-1, the vendor completes an evaluation process with the participant, and if the participant is determined eligible, the vendor completes the transfer of a roadworthy vehicle to the participant within a reasonable time frame after receipt of the completed referral. The vehicle will be under a mandatory 30-day warranty period as required under State law. Once the warranty period has expired or is voided, supportive services may be used, if otherwise eligible.

18.7.13 VISION AND/OR DENTAL SERVICES

Providing dental and vision services are a cooperative effort between the WV WORKS Program and the Office of Maternal, Child and Family Health (OMCFH).

The WV WORKS staff’s responsibility is limited to:

- Completion of form DFA-R-1 to refer Work-Eligible Individuals to OMCFH;
- Certifying that the participant is eligible to receive vision and/or dental services; and
- Explaining to the participant the importance of keeping his scheduled appointments and the deadline for obtaining services.

Referrals for both dental and vision services are made on a single form, the DFA-R-1, Pre-Employment Services Project Referral. The distribution of the color copies is shown on the bottom of the form. The Case Manager must ensure that the bottom copy of the referral form is legible when the form is completed. If it is not, the Case Manager must write over the information on the bottom copy and scan into the case record.

The referral for vision/dental services is time-limited. Services must be completed within one year of the referral date shown on the DFA-R-1. The Case Manager must enter the date (mm/dd/yy) on the form at the time the referral is made. Distribution of copies of the form in a timely manner is crucial. The Case Manager must check to ensure a referral has not been made within the last year. If one has been made within the last year, a copy of the previous referral is given with current balances updated. No new referral form is given.

The Case Manager must also enter the amount of the maximum dental service on an initial referral. This amount is $3,300 and is shown as the balance following Dental Services. Vision Services are limited to an exam, one pair of frames, and lenses for the first year, and an exam and lenses every other year following.
After a referral expires, the Case Manager may issue the participant another one, provided the participant meets eligibility criteria as explained below and has not received the maximum allowable benefit. On a second or subsequent referral for dental services, regardless of the date of the first referral, the Case Manager must obtain the amount of the remaining balance by contacting OMCFH and enter it on the DFA-R-1. Vision referrals may be made annually for qualified individuals.

OMCFH has signed agreements with service sites which detail the allowable services, reimbursements, scope of services, etc. In addition, OMCFH will provide a list of all providers to the appropriate county. The participant may choose his own provider from this list and must make his own appointments.

There is a maximum lifetime limit on the payment for these services. This limit is monitored by OFMCH. Closure of the vision and/or dental services case by OFMCH occurs when services are completed or the maximum allowable benefit is reached. An appropriate notice is sent to the local office to file in the case record.

To be eligible to receive vision and/or dental services, the participant must be in either of the two following groups, described below.

18.7.13.A Participating

To qualify based on participation in an activity, the participant must meet both of the following requirements:

- The participant must be a Work-Eligible Individual in an active WV WORKS case, Poverty Level (PL) period, or EAP participant, when the referral is made. Receipt of Diversionary Cash Assistance (DCA) does not qualify the individual for these services. Once the referral is made, it is valid for one year whether or not the WV WORKS case remains open or is sanctioned; and

- The individual is participating in an activity listed in Sections 18.10 through Section 18.18. The participation rate required to qualify for these services is the rate shown on the individual’s SSP.

18.7.13.B Sole Barrier to Participation

When the sole barrier to the participant’s participation in a work activity listed in Section 18.9 is the need for vision and/or dental services, a referral may be made. Once the referral is made, it is valid for one year, whether or not the WV WORKS case remains open or is sanctioned.
18.7.14 LEGAL AID OF WV (LAWV) WV WORKS LEGAL SUPPORT PROJECT

The purpose of the WV WORKS Legal Support Project is to assist in eliminating the need for legal services as a barrier to work or self-sufficiency.

### 18.7.14.A Appropriate Referrals

Work-Eligible Individuals in an active WV WORKS case and those eligible for continued support service payments may be referred for legal matters including, but not limited to:

- Obtaining Supplemental Security Income (SSI) or Retirement, Survivors, and Disability Insurance (RSDI);
- Issues surrounding domestic violence situations;
- Employment related rights;
- Housing (landlord-tenant issues);
- Visitation orders or parenting plan compliance;
- Expungement of criminal records; or
- Driver's license suspension or fines.

**NOTE:** LAWV does not pay fines or fees.

If the Case Manager has questions regarding other possible services, he should contact LAWV at 304-343-3013 or 1-866-255-4370.

Child-only TANF cases with legal obstacles may also be referred for legal matters including, but not limited to:

- Obstacles to work;
- Obstacles to self-sufficiency; or
- Legal issues involving child safety and welfare.

### 18.7.14.B Referral Process

Referrals to the WV WORKS Legal Support Project are made by using the Referral to Legal Service Provider Referral Form located on the DFA Intranet site. The form is self-explanatory and all requested information on the form is mandatory. The Case Manager must fax, email, or mail the Legal Service Provider Referral Form to:
18.7.14.C Vendor Responsibilities

LAWV will fax an Action Form to the local office within 30 working days of receiving the referral. When the vendor notifies the Case Manager of approval or denial for participation in the program, the Case Manager must record the appropriate information in the eligibility system. LAWV will be responsible for determining the level of representation and services rendered.

18.7.15 COMMUNITY AND TECHNICAL COLLEGE PROJECT

The Community and Technical College Project places a Student Service Specialist at each West Virginia Community & Technical College (WVCTC). The primary goal of the Student Service Specialist at each WVCTC is to help students successfully navigate the enrollment process, find and select an appropriate higher education academic program, and to offer ongoing support of those students. The secondary goal is to help these same students make a successful transition into the workforce and/or continued post-secondary education.

18.7.15.A Appropriate Referrals

Work-Eligible Individuals in an active WV WORKS case must have a high school diploma or equivalent to be referred to the Student Service Specialist, even when the WVCTC does not require this for admission. Receipt of EAP, PL, or DCA does not qualify the individual for this service. The goal of the referred participant must be employment in an occupation that requires completion of a WVCTC program of study.

First priority for available slots should be given to any WV WORKS participant who is currently enrolled and attending the WVCTC. Once the participant is no longer enrolled, attending, or has made unsatisfactory progress at the WVCTC, the slot is opened and a new referral may be...
sent. If the participant later re-enrolls, a new referral may be made as long as slots are available. It is recommended the Case Manager include a requirement for the participant to contact the Student Service Specialist a minimum of twice per month on the SSP. At no time shall any participant be sanctioned for failure or refusal to comply with or accept a referral to the Student Service Specialist.

18.7.15.B Referral Process

Referrals to the WVCTC are made by using the DFA-WVW-70 Form. The Case Manager must fax or scan the DFA-WVW-70 to the Student Service Specialist. The WVCTC may also require additional releases of information under the Family Educational Rights and Privacy Act (FERPA) and those should also be submitted to the Student Service Specialist.

18.7.15.C Participation and Supportive Services

Participation for this activity is coded and reported per Sections 18.10 - 18.18. All supportive services available for these activities are available to participants in the WVCTC project. Additional support services for challenges faced by participants in the WVCTC project must be sent to the DFA for consideration of payment approval.

18.7.15.D Vendor Responsibilities

The Student Service Specialist will assist with:

- Completion of the application for admission to the WVCTC, the Free Application for Federal Student Aid (FAFSA), and any other grant or scholarship for which the student may qualify.
- Completion of Boot Camp and with connecting the student with appropriate study skills, test taking strategies, time management, and organization needed to successfully complete the academic program.
- Connecting the student with supportive services offered through the DHHR or other agencies as needed to overcome barriers to program completion.
- Monitor class attendance and ensure signed participant time sheets are submitted by the fifth of each month to the local DHHR.
Once the maximum enrollment has been reached for each Student Service Specialist, the vendor must notify the DHHR contacts to advise that the maximum number of referrals has been reached for the current semester.

### 18.7.16 SUBSTANCE ABUSE TESTING AND REFERRAL

All adult and emancipated minor applicants who would be included in the WV WORKS Assistance Group (AG) must complete a Drug Use Questionnaire, DFA-WW-DAST-1, or are ineligible for this benefit. An applicant for these purposes means any individual who has not received WV WORKS for a full calendar month. This questionnaire must be completed within ten business days of the initial contact showing interest in applying for this benefit in addition to all other eligibility requirements. Any applicant who provides false information on the Drug Use Questionnaire is ineligible for WV WORKS assistance for 12 months. The false information must be from evidence and not hearsay. Any individual who scores one or more points or answers “Yes” to question eleven must be referred for drug testing; all other applicants are treated in the same manner as any other WV WORKS applicant. Responses of N/A on the DFA-WVW-DAST-1 are not counted as a point and must not be used towards the total points.

The cost of the initial drug test is not the responsibility of the applicant. The Drug Use Questionnaire is the only method which may be used to determine reasonable suspicion for drug use.

The Case Manager must add any individual who answers “Yes” to question eleven and who has a negative drug test to the WV WORKS AG. These individuals are added retroactive to the date of application for WV WORKS.

### 18.7.16.A Drug Testing

Individuals who have been determined to have reasonable suspicion for drug use must register for drug testing within two business days. The Case Manager must give a Chain of Custody Form to the applicant with the case number entered and this form must be taken to the testing site. Should unforeseen circumstances prevent the applicant from registering for drug testing within two business days, the Case Manager may allow additional time.

**NOTE** Question eleven: “Have you been convicted of a drug-related offense within the last three years?” refers to felonies and misdemeanors.
Drug test results from Children and Adult Services are also accepted.

Negative results will be posted to the county’s account on the vendor’s website. When the results of the drug testing are negative, no further action is needed by the participant. He is then treated in the same manner as any other WV WORKS participant. Positive results are emailed directly to the county contact person and are not posted online. Once drug testing results are received, WV WORKS benefits are approved retroactive to the date of application for WV WORKS.

18.7.16.A.1 Applicant Disagrees with Results

When the results of any drug testing are positive and the individual does not agree with those results, the individual can:

- Provide a valid prescription, current prescription bottle, or written verification by a health care provider authorized to prescribe the controlled substance to the address listed on the chain of custody form within 24 hours of the positive test. Applicants should be encouraged to provide this verification when completing the drug test. Once a valid prescription is presented, the vendor will update the results to negative. When a valid prescription is not presented, the positive results will stand; or

- Request retesting using the same drug panel at an alternative site at his own expense. The alternative site must be comparable to the approved vendor and must not be the applicant’s primary physician. Retesting must be completed within two business days of the positive result. When the results of the drug retesting are negative, no further action is needed by the participant.

These individuals are then treated in the same manner as any other WV WORKS participant.

18.7.16.B First Positive Drug Testing Result

All positive drug testing results require the Case Manager to refer the individual to a substance abuse treatment and counseling program and a job skills program. The participant must enroll in the substance abuse treatment and counseling program and the job skills program within seven business days. Should unforeseen circumstances prevent the applicant from enrolling in a treatment and counseling program within seven business days, the Case Manager may allow additional time to enroll.
If the individual fails to complete or refuses to participate in the substance abuse treatment and counseling program and job skills program as required, he is ineligible for WV WORKS. They are considered a non-recipient work-eligible individual and must choose a protective payee for the WV Works payment for the other members of the WV Works AG. This ineligibility will continue until the time the individual enrolls and is successfully attending a substance abuse treatment and counseling program and job skills program. Once he can document successful completion, he may reapply for these benefits six months after the completion and must submit to random drug testing.

Upon completion of the substance abuse treatment and counseling program and job skills program, the individual is subject to a random post-treatment drug test. These individuals are then treated in the same manner as any other WV WORKS participant.

The protective payee must satisfactorily complete the Drug Use Questionnaire within seven business days of this choice and is chosen by the parent. When there are two parents in the home, the second parent may be the payee if the Drug Use Questionnaire was successfully completed. The second parent is not required to complete a Protective Payee Verification. The designated person shall be an immediate family member, or if an immediate family member is not available or declines the option, another person may be designated. The protective payee must submit a form monthly, DFA-WVW-Verif-2, documenting how the benefits were spent.

Job readiness classes in existence throughout the state will be the skills programs these individuals are required to attend.

18.7.16.C Second Positive Drug Testing Result

Any individual who tests positive after a second drug test will be required to participate in a second substance abuse treatment and counseling program and job skills program. The participant must enroll in the substance abuse treatment and counseling program and the job skills program within seven business days. Should unforeseen circumstances prevent the applicant from enrolling in a treatment and counseling program within seven business days, the Case Manager may allow additional time to enroll.

These individuals will be ineligible for WV WORKS for a period of 12 months or until they have completed a substance abuse treatment and counseling program and job skills program, whichever is shorter. The 12-month period of ineligibility is the current month plus the 11 previous months.

If the individual fails to complete or refuses to participate in the substance abuse treatment and counseling program and job skills program as required, he is ineligible for WV WORKS. They are considered a non-recipient work-eligible individual and must choose a protective payee for
the WV Works payment for the other members of the WV Works AG. This ineligibility will continue until the time the individual enrolls and is successfully attending a substance abuse treatment and counseling program and job skills program.

Upon completion of the substance abuse treatment and counseling program and job skills program, the individual is subject to a random post-treatment drug test. During the period of ineligibility due to the second positive drug test, he is considered a non-recipient work-eligible individual and must choose a protective payee for the WV WORKS payment for the other members of the WV WORKS AG.

The protective payee must satisfactorily complete the Drug Use Questionnaire within seven business days of this choice and is chosen by the parent. When there are two parents in the home, the second parent may be the payee if the Drug Use Questionnaire was successfully completed. The second parent is not required to complete a Protective Payee Verification. The designated person shall be an immediate family member, or if an immediate family member is not available or declines the option, another person may be designated. The protective payee must submit a form monthly, DFA-WWW-Verif-2, documenting how the benefits were spent.

Once the period of ineligibility has ended, these individuals are then treated in the same manner as any other WV WORKS participant.

18.7.16.D  Third Positive Drug Testing Result

Any individual who tests positive for a third drug test is permanently ineligible for WV WORKS. They are considered a non-recipient work-eligible individual and must choose a protective payee for the WV WORKS payment for the other members of the WV WORKS AG.

The protective payee must satisfactorily complete the Drug Use Questionnaire within seven business days of this choice and is chosen by the parent. When there are two parents in the home, the second parent may be the payee if the Drug Use Questionnaire was successfully completed. The protective payee shall be an immediate family member, or if an immediate family member is not available or declines the option, another person may be designated. The protective payee must submit a form monthly, DFA-WWW-Verif-2, documenting how the benefits were spent.

18.7.16.E  Required Referral to Children and Adult Services

The following individuals require a referral to Children and Adult Services by calling the Child Abuse Hotline in addition to the above requirements:
• Any individual who refuses to submit to drug testing as a result of a drug use questionnaire.

• Any individual who fails to complete or refuses to participate in substance abuse treatment and counseling program and job skills program as required; or

• Any individual who has had their benefits suspended and has not designated a protective payee or whose benefits have been terminated due to a failed drug test.

The Case Manager must make a comment only that a referral has been made.

18.8 REQUIREMENT FOR BEING ENGAGED IN WORK

18.8.1 WORK PARTICIPATION AS AN ELIGIBILITY REQUIREMENT

WV WORKS is a work participation program. Starting on the first day that WV WORKS benefits are received, a Work-Eligible Individual is subject to the work requirement. Therefore, the participant must be placed in a work activity as soon as possible. This placement should occur when the benefit is approved, concurrently with the initial assessment of the participant’s skill, prior work experience, and determination of employability.

18.8.1.A Job Ready

Job readiness is defined as being able to find, acquire, and keep a job or attend an activity with little or no outside help.

When the Case Manager determines that the participant is ready to participate at application, he approves the application, enrolls the participant, requests any necessary support payments, and makes any necessary referrals. The participant and Case Manager must develop a plan that is based on the participant’s interests, needs and abilities.

The activities in which the participant may be enrolled are outlined in Sections 18.10 - 18.18.

If the participant initially has good cause for not participating, or has challenges which must be first addressed, he is temporarily excused from participating. See Good Cause below.

18.8.1.B Good Cause
An individual who has applied and is approved for WV WORKS benefits must have good cause for not participating in a work activity no later than the end of the second month of benefit receipt or is ineligible. If the participant is determined to have good cause, the situation must be reviewed and documented monthly.

When the participant initially has a documented good cause for not participating, or has challenges which must be first addressed, he is temporarily excused from participating. The Case Manager approves the benefit, enrolls the individual in the appropriate component, and makes any referrals needed to overcome the exemption or good cause reason.

See Sections 14.7 and 14.9 for temporary exemptions and good cause. See Section 18.7.2 for Other Work Activities.

The Case Manager closes the WV Works benefit by the end of the second month of benefit receipt when the initial home visit has been scheduled, attempted and documented; and the WV Works recipient has:

- Not verified the good cause reason, or
- Is not engaged in a work activity

Upon reapplication after closure for this reason, the participant will be evaluated for appropriate placement, if good cause does not exist.

**Work Participation Example 1:** Mr. Spruce applies for WV WORKS benefits for himself and his two children on August 2. He completes the application, orientation, and initial Personal Responsibility Contract (PRC) and SSP on August 6 and the case is confirmed on August 6. The Case Manager determines Mr. Spruce needs to arrange child care. Mr. Spruce states that his mother will provide child care for his children while he completes his activity. He is given two working days to arrange for child care and he is assigned to begin a Community Work Experience Program (CWEP) activity on August 8. On the first day of his scheduled placement, his Case Manager contacts the CWEP sponsor and finds that he did not report for his placement.

The Case Manager schedules a good cause interview for August 19. The Case Manager continues to follow up with the sponsor and determines Mr. Spruce failed to report. Mr. Spruce comes in for his good cause interview and states his son had a cold and he chose to stay home with him. Since the grandmother was available to provide care and he failed to contact the sponsor or his Case Manager regarding his absence, and there is no verification of the illness, he is determined not to have good cause. The advance notice requirements apply and his WV WORKS benefit is closed.
Work Participation Example 2: Ms. Lilac, a Work-Eligible Individual, applies for WV WORKS on January 3. The PRC, SSP, orientation, and application are completed on January 10. The benefits are confirmed and backdated to January 3. Ms. Lilac shows up for her placement on January 14 and January 15, but then fails to report again. A good cause appointment is scheduled for January 26. Ms. Lilac fails to keep the good cause appointment and the WV WORKS benefit is closed. Since the good cause letter was requested by the Case Manager after adverse action deadline, February benefits are issued. Ms. Lilac receives a closure notice and comes in to reapply on February 5. She goes to the placement as scheduled beginning February 7. Because Ms. Lilac has already received February benefits, the Case Manager has time to check on her progress and ensure she is attending the activity before March benefits are approved. If she fails to participate and complete her assigned hours, the benefits are not approved for March.

Work Participation Requirement Example 3: Ms. Tulip, a 19-year-old single parent with one child, applies for WV WORKS on September 26. She completes her application, orientation, SSP, and PRC on October 3 and opts not to receive benefits for September. She completes the assessment process and she has not graduated from high school. The only transportation available is a neighbor who has agreed to transport her to the library once a week so she can work on her high school equivalency diploma. She can attend the class once a week for six hours.

She is scheduled to this activity for six hours a week. Although this activity does not meet the federal requirements for her work participation hours, she is assigned to this activity because she has good cause for not meeting her required hours. She must attend this activity by November 1 or she is ineligible for WV WORKS. Her transportation issues must be reviewed monthly until the situation is resolved and she can meet her full participation requirement.

18.8.2 WORK PARTICIPATION AS AN ELIGIBILITY REQUIREMENT AT 24 MONTHS OF BENEFIT RECEIPT
All work-eligible parents or caretakers whose households are receiving WV WORKS cash assistance are required to participate in a work activity when the participant is ready to engage in work, or when the participant has received program benefits for 24 months, whichever is earlier. When a participant has received 24 months of WV WORKS benefits, being engaged in work is an eligibility requirement. The months of WV WORKS benefits do not have to be consecutive. Work, for the purpose of meeting the 24-month limit, is defined as participation in one or more activities for a minimum of five hours per week (averaged).

**NOTE:** The five-hour requirement that applies to 24-month limit cases does not apply to applicants who have received less than 24 months of WV WORKS benefits. If a participant demonstrates good cause for not meeting his work requirement, the situation must be re-evaluated monthly. If he does not continue to have good cause for not meeting his participation hours, he must be assigned to an activity and meet his required participation hours or the sanction process begins.

The activities in which the parent or caretaker may participate and be considered engaged in work include, but are not limited to, the following:

- Unsubsidized employment;
- Subsidized public or private sector employment;
- Job Search and Job Readiness Assistance;
- On-The-Job Training (OJT) programs, such as Employer Incentive Program (EIP) contracts, may be utilized as long as the participant is assigned a number of hours that will meet his participation requirements;
- Community Work Experience, such as Joint Opportunities for Independence Program (JOIN), CWEP, or other work experience programs available in the community;
- Community Service programs are those structured programs in which WV WORKS participants perform work that provides a direct benefit for the community and are supervised directly by a community agency;
- Provision of child care for another TANF recipient engaged in a Community Service activity; or
• Enrollment in any educational activity including high school, high school equivalency training, college, technical or vocational school, or job skills training.

**NOTE:** Although the 60-month lifetime limit normally does not apply to a non-recipient Work-Eligible parent, if another parent is included in the assistance group (AG), the time limit applies to the adult AG members. The 24-month work requirement may be met by one or both parents, including any non-recipient parent in the household.

Any activity must be structured so that documentation is possible. A combination of these activities may be utilized to meet the participation requirements.

Good cause for not being engaged in work which meets the above definition at the end of the 24-month limit is determined according to the criteria in Section 14.9. Participants are not automatically exempt from the five-hour per week participation requirement due to being in one of the exemption components in Section 14.7. Good cause must be reviewed monthly and documentation is required.

**NOTE:** The WV WORKS benefit is not stopped and no notice of pending closure is sent for failure to meet the 24-month work requirement without first completing the evaluation procedure outlined below.

The procedure to follow prior to notification of AG closure is as follows:

**Step 1:**  The Case Manager must conduct a home visit to discuss the 24-month work requirement, explain the consequences of failing to meet this requirement and to gather information described below. An office visit or telephone call cannot be substituted for the home visit.

**Step 2:**  After the home visit, the Case Manager and/or Supervisor must file a written report in the case record and a detailed recording about the circumstances surrounding AG closure. This report must contain, at a minimum, the following information. Any other information deemed appropriate should be included.

- Case name, case number, county of residence, address, telephone number
- Number of parents and number of children in the home
- Number of office visits in the past 12 months

**NOTE:** SNAP and Medicaid eligibility must be evaluated separately, based on the policy of those programs.
• Number of home/work site visits in the past 12 months
• Number of referrals provided to the AG for help in finding their own placement(s) of five hours or more, and date(s) of those referrals
• Number of sanctions that have been or are currently being imposed and information about sanctions still pending
• Whether or not the participant met his work participation requirement in any of the past 12 months, and if so, which months and why the participation ended
• Any special or unusual circumstances in the family
• Case Manager and/or Supervisor decision, including reason, about whether or not the family should continue to be eligible beyond 24 months without meeting the minimum five-hour work requirement.

Step 3: If the decision is to close the WV WORKS AG, the appropriate notice procedures are followed.

When the case is closed due to failure to meet the work requirement at the end of the 24-month limit, the parent or caretaker must actually be engaged in work, according to the above definition, prior to approval for the 25th month. See Section 1.5, to determine the beginning date of eligibility when the participant reapplies after losing eligibility because the 24-month work requirement was not met.

**EXCEPTION:** A parent with a newborn child has good cause while the child is less than 12 weeks of age for failure to meet the 24-month work requirement.

When the AG is closed at or after the end of 24 months for some reason other than failure to meet the 24-month work requirement, and a reapplication is made, the AG must be approved, if otherwise eligible, and the caretaker(s) given the opportunity to engage in a work activity for at least the minimum five hours per week. If the AG does not comply, a home visit must be completed prior to case closure.

### 18.9 WORK REQUIREMENT ACTIVITIES
To meet the State’s participation rate found in Section 18.3, participants must be engaged in certain work activities listed below for the number of hours specified in Section 18.4.3. More details on each type of activity are in Sections 18.10 – 18.18.

Questions about participant participation in programs or activities not clearly identified in Sections 18.10 – 18.18 must be forwarded to the DFA Family Support Policy Unit for clarification and, if appropriate, guidance for placement in the correct Work Programs (WP) component.

A participant may participate in more than one work activity simultaneously.

A participant’s activity must not include the sale/distribution of alcohol, tobacco, or firearms.

### 18.9.1 DEFINITION OF ACTIVITIES

#### 18.9.1.A Core Work Activities

For purposes of meeting the minimum required core hours of participation, following are the nine Core Work Activities, which are described in detail in the subsequent sections:

- Unsubsidized employment
- Subsidized private sector employment
- Subsidized public sector employment
- On-the job training (OJT)
- Job Search and Job Readiness Assistance
- Work Experience
- Community Service Programs
- Vocational Educational Training
- Providing Child Care to an Individual who is participating in a Community Service Program

**NOTE:** The definitions of All Family Households and Two-Parent Families in Section 18.4.2 apply here.
18.9.1.B Non-Core Work Activities

If the minimum required core activity hours are met, following are the three Non-Core Work Activities which may be used to meet the remaining hours of required participation:

- Job Skills Training Directly Related to Employment
- Education Directly Related to Employment
- Satisfactory Attendance at Secondary School or in a Course of Study Leading to a High School Equivalency Diploma

18.9.1.C Federal and State Law for Educational Activities

Educational activities may be a Core or Non-Core Work activity, including but not limited to:

- Vocational Training
- Literacy Skills
- English as a Second Language (ESL)
- College (does not include graduate school)
- Job Skills Related to Employment
- Education Related to Employment
- Adult Basic Education (ABE) to improve basic skills (for those already possessing a high school diploma or high school equivalency diploma)
- Attendance in a Secondary Schools or High School Equivalency Program

Federal law and West Virginia State law differ in the way educational activities are used.

18.9.1.C.1 Federal Law

Under federal law, an educational activity is mandatory for these two groups:

- Parents under the age of 20, who do not have a high school diploma or its equivalent.
- Unmarried minor parents under age 18 who do not have a high school diploma or its equivalent, when the infant is at least 12 weeks old. See Section 3.4.1.B.

Any individual who does not fall into either of these two groups is restricted in the number of education hours which can be used to meet the federal participation requirement.
18.9.1.C.2 State Law

Under West Virginia State law, those who are not mandatory under federal law for participation in educational activities may select other educational options which do not meet federal work participation requirements.

Any WV WORKS participant may elect to participate in any educational activity, regardless of any federal restrictions described above.

- The participation must be full-time as defined by the institution or course of study, regardless of the number of hours of actual participation.
- The participant must not be required to participate in any other activity to increase his participation hours to the minimum federal requirement.
- However, the participant may voluntarily participate in any other activity, but no sanction may be imposed for failure to participate in that other activity.
- If the educational activity is college, it is limited to one two- or four-year undergraduate degree program unless otherwise agreed upon by the Case Manager and the supervisor that the further addition of the education will help the employability of the participant in finding employment and becoming self-sufficient.
- Participants in educational activities must be making satisfactory progress as determined by the program in which they are enrolled.
18.10 EMPLOYMENT (UNSUBSIDIZED AND SUBSIDIZED)

The long-term goal of WV WORKS is placement of the participant into appropriate full-time unsubsidized employment. When this is not possible, part-time unsubsidized, part-time or full-time subsidized employment and other activities must be explored.

For the sole purpose of entering full- or part-time designations in the eligibility system, the following definitions apply:

- Part-time employment is working an average of under 30 hours per week.
- Full-time employment is working an average of at least 30 hours per week.

The participant’s entry into employment may be the result of job development by the Department of Health and Human Resources (DHHR) staff, the efforts of other employment agencies, or the result of the participant’s own efforts. If the number of hours of employment does not meet the participant’s work requirement, additional activities must be required. Hours of employment count toward the participant’s work requirement each month that he actually works and receives a WV WORKS benefit.

18.10.1 UNSUBSIDIZED EMPLOYMENT

Unsubsidized employment is work with earnings provided by an employer who does not receive a subsidy for the creation and maintenance of the employment position, or through self-employment.

Self-employment activities include individuals who have earned income. This includes but is not limited to those who for example: own/operate a business/service, sell products on commission, or provide child care. See Section 18.4.5.B for calculation of participation hours for these individuals. If the minimum required participation hours cannot be met following this monthly calculation, then assignment to additional core and/or non-core activities will be necessary.

NOTE: An employer who receives only a tax credit is considered to be providing unsubsidized employment.
18.10.1 A  Employment Standards

The following describes employment standards for Unsubsidized Employment:

- Unsubsidized employment is appropriate when the starting wage is at or above the applicable state or federal minimum wage.

18.10.2 SUBSIDIZED PRIVATE AND PUBLIC SECTOR EMPLOYMENT

The WV WORKS components for Subsidized Employment are:

- Full-time subsidized private sector employment (FV)
- Part-time subsidized private sector employment (PV)
- Full-time subsidized public sector employment (FB)
- Part-time subsidized public sector employment (PB)

Subsidized employment is work with earnings provided by an employer who receives a subsidy for the creation and maintenance of the employment position.

To place an individual in subsidized employment, the displacement/replacement policy found below and the employment standards found below apply.

18.10.2.A Displacement/Replacement

Placement of WV WORKS participants into subsidized employment must not dislocate, displace, or otherwise have an adverse effect on an employer’s regular labor force. The following apply:

- The regular employees must not suffer a reduction in work hours, overtime, fringe benefits or the opportunity for advancement.
- The employer must not decline to hire a regular employee in anticipation of a WV WORKS placement.
- The employer must not have employees in lay-off status.
- The employer must not allow a reduction in his regular labor force with the intent of increasing the labor force with WV WORKS placements.
• WV WORKS placements must not cause a relocation of employees from one geographical area to another.
• The regular employees at a work site must be informed that WV WORKS placements may not cause any dislocation and that they may file a grievance if they feel their job has been adversely affected by WV WORKS placements. See Appendices A and B.
• WV WORKS placements must not be made at job sites involved in any abnormal labor condition, such as a strike or lockout.
• Subsidized employment placements must not provide more than 50% of the employer's labor force.

18.10.2.B Employment Standards

Subsidized employment must meet the employment standards listed below. When the subsidized employment does not meet all of the criteria, the participant has good cause for refusing or failing to take action to secure the position.

• The employer must not be in violation of the Civil Rights Act, the Americans with Disabilities Act or any other law governing the equal treatment of employees in the workplace.
• The employment must not impair existing contracts for service or collective bargaining.
• The starting wage must be at or above the applicable state or federal minimum wage.
• A participant must receive the same benefits as a non-subsidized employee who performs similar work.

18.10.2.C Employment Subsidy Program

The Employment Subsidy Program (ESP) is a statewide subsidized employment placement program. Local WV WORKS staff or Regional Job Developers refer work-ready WV WORKS participants to employers for placement in full-time private or public subsidized employment positions.

Priority is to be given to those WV WORKS participants who require necessary work experience and job skills in order to enter unsubsidized employment. ESP placements will be for up to six months. Reimbursement will be 100% of the individual's wage.
Work-Eligible and non-recipient Work-Eligible Individuals in active WV WORKS cases may be referred for an ESP placement. The ESP placement cannot begin until the ESP agreement is signed by all parties.

WV WORKS staff will negotiate and sign the ESP Agreement, DFA-ESP-1, when placing individual WV WORKS participants in ESP positions. WV WORKS staff will distribute the ESP Agreement in the following manner:

- One original provided to the ESP Employer
- One copy to local WV WORKS staff for filing
- One copy to the DFA Family Support Policy Unit

Copies of all ESP contracts must be scanned to the Division of Family Assistance (DFA) to ensure the available funding is not exceeded.

All ESP placements will be at least 30 hours per week.

The Participant Time Sheet, DFA-TS-12, and the Employer Reimbursement Request, DFA-ESP-2, will serve as the employer’s request for an ESP reimbursement. Both forms will be provided monthly by the employer to the local DHHR office. Payment is made to the business/vendor via support services with copies going to DFA Family Support Policy Unit. A BA-67 is not required.

The DFA-ESP-1A, the ESP addendum, is used when there is a contract change required. For example, the participant has received a raise in pay.

### 18.10.3 JOB RETENTION FOLLOW-UP

Job retention interviews are designed to monitor the participant’s progress towards self-sufficiency, current employment situation, and to discuss any barriers or challenges being experienced by the participant that could result in job loss or fewer work hours. The goal is to prevent the loss of employment and to intervene should the participant face any crisis. The results of the interviews are recorded on form DFA-WWW-JR-1. The form must be completed at the 30-day job retention interview and may be simply reviewed at the 90-day retention period interview. At the Supervisor’s discretion, a new form may be used for each interview.

As part of the West Virginia Bridge Model, the Case Manager must complete follow-up contacts with the employed Work-Eligible Individual in the closed WV WORKS case at the 30-day, 90-day, 9-month and 12-month intervals following assistance group (AG) closure and placement in PL component or Employment Assistance Program (EAP) starting date.

The participant has the right to refuse to participate in the job retention follow-up process and is
not required to respond to the Case Manager’s request for a visit.

- The 30-day follow-up contact may be made by a face-to-face contact which may be held at the participant’s home, work site, at a location agreed upon by the participant and the Case Manager, or by phone. The Case Manager will decide if the 30-day job retention follow-up is done face-to-face or by phone. If after three attempts the Case Manager is unable to reach the participant by phone, a full case recording must be made.

- The 90-day job retention contact will be accomplished by a letter which the Case Manager requests in the eligibility system.

- The 9-month job retention contact must be accomplished by a face-to-face contact which may be held at the participant’s home, work site, local DHHR office, or at a location agreed upon by the participant and the Case Manager.

- The 12-month job retention contact may be made by phone. If after three attempts the Case Manager is unable to reach the participant by phone, a full case recording must be made.

18.10.3.A 30-Day Job Retention Contact

The 30-day job retention interview must include, but is not limited to the following:

- Current employment situation, status and progress.
- Concerns such as transportation, child care, ability to pay current living expenses, possible emergencies, health, family’s health, and other family situations.
- Discussion of necessary support services, vision and dental services, and if other agency services are being provided as necessary and appropriate.
- Information regarding other agency and community services available to address any identified needs.

Form DFA-WVW-JR-1 must be filed in the participant’s case record. The Case Manager must also complete eligibility system recordings. In addition, any pertinent information not shown on the form must be recorded.

When possible, the Case Manager must contact the participant’s employer during the job retention process. It is recommended the employer contact be made only after discussion with the participant. The Case Manager must not contact the employer if the participant expressly asks that this not be done. This prohibition does not apply when the Case Manager needs to determine the reason a participant was terminated from a job or verify employment information such as pay rate, hours scheduled, and start date to determine eligibility for DHHR programs. The Case Manager must still be careful not to jeopardize the participant’s job or adversely affect his work environment. A signed Release of Information is recommended.
18.10.3.B  90-Day Job Retention Contract

If the participant responds to the 90-day follow-up letter indicating he needs additional assistance or services, the Case Manager must contact the participant to address these issues.

The 90-day follow-up review must be made before the case is transferred to an Economic Service caseload. In addition, those cases due for Supplemental Nutrition Assistance Program (SNAP) redetermination in the third month after case closure must have the redetermination completed prior to transferring the case to an Economic Service caseload.

EXCEPTION: WV WORKS cases which are eligible for continued support services payments must remain in the WV WORKS caseload.

18.10.3.C  9-Month Job Retention Contact

As part of the West Virginia Bridge Model, the Case Manager must complete a follow-up contact with the employed Work-Eligible Individual in the closed WV WORKS case in the ninth month following AG closure or EAP starting date.

The 9-month job retention contact must be accomplished by a face-to-face contact which may be held at the participant’s home, work site, local DHHR office, or at a location agreed upon by the participant and the Case Manager.

This contact is required to determine if any community referrals are needed to continue progress towards self-sufficiency and must have been completed before the 12-month self-sufficiency bonus is issued.

18.10.3.D  12-Month Job Retention Contact

The 12-month job retention contact may be made by phone. If after three attempts the Case Manager is unable to reach the participant by phone, a full case recording must be made.

This contact is required to determine if any community referrals are needed to continue progress towards self-sufficiency and must have been completed before the 12-month self-sufficiency bonus is issued.
18.11 ON-THE-JOB TRAINING

On-the-Job Training (OJT) means training in the public or private sector that is given to a paid employee while he is engaged in productive work and that provides knowledge and skills essential to the full and adequate performance on the job. OJT programs must be supervised daily by an employer, work site sponsor, or other responsible party. Upon satisfactory completion of the training, the employer is expected to retain participants as regular employees without receiving a subsidy.

There are two types of OJT programs:

- Employer Incentive Program (EIP); and
- Other Agency OJT Programs.

18.11.1 EMPLOYER INCENTIVE PROGRAM (EIP)

The EIP is administered by the West Virginia Department of Health and Human Resources (DHHR). The EIP contracts are negotiated by local WV WORKS staff.

The EIP provides participants, hired by either public or private employers, with subsidized training and employment. Prior to the placement, the employer must make a commitment to retain the employee after the completion of the contract. It is the “a hire-first program,” with training paid for by the DHHR.

The EIP provides participants with structured skill training, the opportunity to improve skill level, and provides those who are marginally-employable with an opportunity to become employed. The expected outcome at the conclusion of the contract is unsubsidized employment.

18.11.1.A Who May Be an EIP Employer

Any employer, including a public agency, not-for-profit organization, and private business which is licensed to conduct business in West Virginia, is eligible to be an EIP employer, provided all business tax payments are current. In addition, the employer must agree to the requirements specified below.
18.11.1.B Requirements of the Employer

To become an EIP employer, the employer must abide by the following requirements:

- The employer must guarantee appropriate standards for employment. See Section 18.10.2.B.
- The employer must guarantee there will be no displacement/replacement. See Section 18.10.2.A for the definition of displacement/replacement. Also see Appendix A and B.
- EIP placements must not provide more than 50% of the employer’s labor force.
- The employer must make a commitment to retain the participant at the conclusion of the contract.
- The employment must not be temporary or seasonal.
- The employer must pay wages, not commissions. However, commissions may be paid in addition to the wage specified in the EIP contract.
- The working conditions and fringe benefits of the EIP employee must be the same as for any other employee in the same class.
- The occupation must require a training period of at least 200 hours.
- The job must be within the scope of the participant’s assessment and must be one he may be reasonably expected to learn.
- The employer must guarantee at least 30 hours of employment per week. The maximum number of hours per week is 40.
- The employer must not have employees in lay-off status in the occupation/job title for which the contract is being negotiated.
- Employers must keep daily attendance records for each participant. When the DFA-TS-12 is used, it must be completed in its entirety and signed by both the participant and supervisor monthly when all training/work hours have been completed. The participation documentation must be received by the Case Manager by the fifth working day of the following month. A copy is retained by the contractor for audit purposes.

The DFA-TS-12 may also serve as the employer’s request for an EIP payment or the employer may submit a request for payment on the business letterhead. The Case Manager must review the DFA-TS-12 for accuracy prior to issuing payment.
18.11.1.C Standards for Contract Development

The standards for contract development are:

- An EIP contract may be written for one job slot only.
- The EIP contract may be written for a minimum of 200 hours and a maximum of 600 hours.
- The starting wage must be equal to or above the current minimum wage.
- The cost of an EIP contract depends on the length of training and the participant’s starting hourly wage. The maximum EIP payment allowed the employer is 50% of the participant’s hourly rate of pay times hours worked.

**Contract Development Example:** $9 per hour x 300 training hours = $2,700 x 50% = $1,350, the total cost of EIP contract.

The number of EIP training hours are based upon the starting wage as shown in the following chart.

<table>
<thead>
<tr>
<th>Beginning Hourly Wage</th>
<th>EIP Training Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>$8.75 through $8.99</td>
<td>200</td>
</tr>
<tr>
<td>$9.00 through $9.99</td>
<td>300</td>
</tr>
<tr>
<td>$10.00 through $10.99</td>
<td>400</td>
</tr>
<tr>
<td>$11.00 through $11.99</td>
<td>500</td>
</tr>
<tr>
<td>$12.00 or more</td>
<td>600</td>
</tr>
</tbody>
</table>

When the training site is outside of West Virginia, the EIP contracts are only written with private employers.

Contracts are not written for employers in a highly mobile industry.

Contracts are not written for occupations that require certification and/or licensure, such as for a certified nursing assistant (CNA), licensed practical nurse (LPN), or registered nurse (RN), if the schooling/training results in the certificate or license.

The EIP placement cannot begin until the EIP agreement is signed by all parties.
18.11.2 OTHER AGENCY OJT PROGRAMS (OJ)

This would include any OJT programs or contracts that may exist for individuals written by other local, county, or state agencies such as WorkForce West Virginia, Division of Rehabilitation Services (DRS), etc.

Programs offered by other agencies must be submitted to the Division of Family Assistance (DFA) Family Support Policy Unit to ensure they meet the statutory definition of OJT as outlined in the Federal Register. Questions or clarifications regarding OJT programs must also be submitted to the DFA Family Support Policy Unit.
18.12 JOB SEARCH AND JOB READINESS ASSISTANCE (JR)

Job Search and Job Readiness Assistance (JR) means the act of seeking or obtaining employment and preparation to seek or obtain employment. Strategic Planning in Occupational Knowledge for Employment and Success (SPOKES) and EXCEL are the primary programs for this work activity. Programs are designed to improve work attitudes and behavior, center on general workplace expectations to help participants prepare for work, and to help participants to successfully compete in the labor market.

This activity must be supervised no less frequently than daily. Daily supervision does not necessarily mean daily in person. The Case Manager or other responsible party provides oversight, knows what the participant is supposed to be doing, and is responsible for ensuring that the participant is actually performing these tasks. Contact may be by phone or electronic where available.

Programs offered by other agencies must be submitted to the Division of Family Assistance (DFA) Family Support Policy Unit to ensure they meet the statutory definition of JR as outlined in the Federal Register. Questions or clarifications regarding JR programs must also be submitted to the DFA Family Support Policy Unit.

18.12.1 TIME LIMITS

There is a limit on the number of weeks that JR may be used to meet the individual's work requirement.

- The limit is six weeks for the last 12-month period; no more than four weeks may be consecutive.
- The six week limit is 120 completed hours for an individual with 20 hours per week work requirement or 180 completed hours for an individual with 30 hours per week work requirement.
- A week of participation may begin any day of the week and ends 20 or 30 hours later, regardless of the number of days the individual participated during those hours.
- Each time an individual uses 20 or 30 hours, a week is used up.
- If a participant participates longer than this period, the participation hours will not count in meeting the work requirement.
- The 12-month period is the current month plus the 11 previous months.
- Any holiday or excused absence hours that are used for participation credit for the JR component count toward the time limits.
Due to the four consecutive week limit, each month that a participant is enrolled full-time in this component, he must also be enrolled in another allowable component for an average of five or eight hours monthly to meet required monthly participation.

Participants in substance abuse treatment and counseling programs and job skills programs required as a result of a positive drug test are placed in this component for the duration of the programs regardless of time limits for this component.

### 18.12.2 DETERMINING PARTICIPATION HOURS

Participants assigned to JR full time will have their participation hours counted in the same manner.

The customer service portion of Job Search and Job Readiness Assistance programs is considered Vocational Training (VT) for participation purposes.

**Consecutive Weeks Example 1:** Mr. Holly has a 13-year-old son and is assigned to SPOKES for 30 hours per week. SPOKES is a revolving ten week course. He begins SPOKES class on October 1 and the class is in the third week of the ten-week course. He must be placed in the JR component for the first two weeks of the month and then placed in the VT component for the last two weeks of the month. If he had 10 excused hours during the second week of the month, and attended the remainder of his hours, his time would be entered as below. The Case Manager must also add study hours during the VT class time.

<table>
<thead>
<tr>
<th>Component</th>

<td>60</td>
<td>60</td>
<td>10</td>
<td>0</td>
</tr>
<tr>
<td>JR</td>
<td>60</td>
<td>60</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

**Consecutive Weeks Example 1.1:** Continuation from above. In November, Mr. Holly would still be in the VT component for the first two weeks of November since this will be class weeks seven and eight of the SPOKES class. He would then be placed back in the JR component for the following four weeks. These four weeks include class weeks 9, 10, 1, and 2 of the SPOKES class. At the end of the four weeks of JR, Mr. Holly will need to be placed in a new component as he has used up his six weeks of JR.
18.12.3 ADMINISTRATION FOR CHILDREN AND FAMILIES (ACF) DECLARATION OF NEEDY STATE

West Virginia may qualify to count up to six additional weeks for participation credit in JR when declared a needy state by the ACF. When this occurs the time limit will be 12 weeks for the last 12 month period; 240 completed hours for an individual with 20 hours per week work requirement or 360 completed hours for an individual with 30 hours per week work requirement. No more than four of these weeks may be consecutive. All other activity requirements and restrictions remain the same.

Changes in the hourly requirement due to changes in West Virginia’s status as a needy state are effective the month after the change occurs.

**JR Time Limit Example 1:** Mr. Pine has a 20 hours per week participation requirement. He attends substance abuse treatment five hours per week and works 15 hours per week for a total of 20 countable participation hours. The substance abuse treatment is counted as JR and may be counted as participation for up to 120 or 240 hours.

Participation for JR may be counted as follows: Five hours of participation could be counted for each week and recorded in the eligibility system. This would total 20 hours of participation or the first week of the 6- or 12-week limit of JR.

<table>
<thead>
<tr>
<th>Component</th>
<th>Scheduled Hours</th>
<th>Completed Hours</th>
<th>Monthly Excused Hours</th>
<th>Monthly Holiday Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PU</td>
<td>65</td>
<td>65</td>
<td></td>
<td></td>
</tr>
<tr>
<td>JR</td>
<td>20</td>
<td>20</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** Each parent in a two-parent household has his own limit.

**JR Time Limit Example 2:** Mr. Elm has a child age three and he participates in JR for 40 hours each week for two weeks; this uses the four consecutive weeks of his 6- or 12-week limit and any participation hours in JR for the next week must not be counted toward meeting his work requirement.

**JR Time Limit Example 3:** Ms. Birch’s youngest child turns six in March. Beginning in April, she will be required to complete 30 hours per week and the Case Manager may count up to 180 or 360 hours of participation for the last 12-month period.
**JR Time Limit Example 4:** Ms. Maple is a single parent with a seven-year-old daughter. She has a participation requirement of 30 hours per week. In January, she has a new baby. If 120 or 240 hours have already been counted in JR in the last 12 months, then participation in JR cannot be counted again until the total is less than 120 or 240 hours in the last 12-month period.

### 18.12.4 JOB READINESS

Job Readiness must be a structured and supervised program and includes two types of activities.

- Preparation for seeking or obtaining employment. This includes activities such as preparing a resume or job application, training in interviewing skills, instruction in workplace expectations, training in effective job seeking, parenting, financial literacy, relationship education, and life skills training.
- Substance abuse treatment, mental health treatment, or rehabilitation activities.

### 18.12.5 JOB SEARCH

Job Search must be a structured and supervised activity which may include the following:

- Making contacts with employers by phone
- Making contacts in person
- Use of the internet to learn of suitable job openings, applying for jobs, and interviewing for jobs

The Employer Contact Form, DFA-WVW-25, may be used to verify time spent on self-directed job search.

*NOTE: Travel time to and from job interviews does not count as participation hours. However, the travel time between multiple interviews on the same day at different locations may be counted as participation.*

Structured Job Search follows a recognized Job Search model that is provided by a contractor, another agency, or by Case Managers. Existing programs offered through WorkForce West Virginia, the Department of Education (DOE), and other agencies must be used first when
services are available without cost. These providers are not reimbursed, unless all existing training positions have been filled and it is necessary to create additional positions for WV WORKS participants, or if there is a contractual agreement between the Department of Health and Human Resources (DHHR) and a grantee.

Referrals to SPOKES are limited to those participants who have at least a fourth grade academic level in reading and math. Exceptions to this requirement may be made only after WV WORKS staff consults with, and receives approval from, the local SPOKES staff.

**Job Search Example:** Mr. Oak attends a structured job search activity from October 6 to October 31 at the WorkForce West Virginia Center and completes four weeks of supervised job search for 30 hours each week. On December 4, he is placed in a SPOKES class full-time. Although his Case Manager may leave him in the SPOKES activity through completion, his attendance in SPOKES may only count for the first two weeks in meeting the federal work participation requirement unless West Virginia had been declared a needy state, then his attendance may count for up to eight more weeks, no more than four of which may be consecutive.

---

**18.12.6 JOB RETENTION**

The job retention component of SPOKES and EXCEL is designed for participants who have completed or nearly completed that program and who have returned due to losing employment. When a participant returns due to loss of employment and has not completed the initial modules, then he should be referred for the entire program.
18.13 WORK EXPERIENCE

Work Experience is defined as a work activity, performed in return for cash assistance, which provides an individual with an opportunity to gain the general skills, training, knowledge, and work habits necessary to obtain employment. All Work Experience activities must be supervised daily by an employer, work site sponsor, or other responsible party. The Work Experience components are governed by the Fair Labor Standards Act (FLSA). See Section 18.15.

In addition to other structured Work Experience opportunities that may be available in the community, the following two Work Experience programs are offered by the Department of Health and Human Resources (DHHR).

18.13.1 COMMUNITY WORK EXPERIENCE PROGRAM (CW)

The Community Work Experience Program (CWEP) is a work activity for parents or other caretaker relatives age 18 and older. The primary purpose is to provide work experience and training to assist a client who has limited work experience, is under-employed or has no immediate employment opportunities.

NOTE: WV WORKS clients must not participate as a volunteer with Community Service at any active CWEP contract site regardless of whether or not there is a current CWEP placement at that site.

18.13.1.A Who May Be a CWEP Sponsor

CWEP sponsors are limited to public agencies, such as federal, local, state and not-for-profit employers. It is limited to public services projects in fields such as health, social services, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public activities, public safety and child care.

18.13.1.B Requirements of the Sponsor

The CWEP sponsor must abide by the following requirements:

- The sponsor must provide the client with guidance and supervision necessary to participate in the work experience project.
The sponsor must provide safety equipment, special clothing and tools needed to perform the assigned duties.

The sponsor must assume the cost of any required pre-employment medical examinations.

The sponsor must guarantee that the client is not expected to work more than 8 hours/day, unless the normal work day exceeds 8 hours.

The sponsor must schedule the client for a minimum of 4 hours/day. An exception to this is the last day of the contract, the last day of the week or month to even out the work requirement, or a make-up day.

The sponsor must not schedule the client to work split shifts.

The sponsor must pay the client for any work in excess of his obligation. The rate of pay and overtime rate must be the same as for regular employees.

The client may not volunteer to work for the assigned sponsor in excess of his obligation without pay.

The sponsor must adhere to the displacement/replacement policy in Section 18.10.2.A.

The sponsor must provide Worker’s Compensation or comparable coverage.

---

The standards for contract development are as follows:

- The nature of the placement must meet the requirements of local employers and must involve skills needed in the local work force.

- Placement at the same site must not exceed 12 consecutive months. Reassignment to another CWEP site may occur immediately. However, reassignment to the same site may only occur after 6 months of not participating in CWEP at that site.

- The contract form, DFA-CWEP-3 with attachments, is an agreement between a sponsor and local WV WORKS staff and establishes the number and type of positions to be filled by the employer.

- The contract number will begin with the word CWEP. Each contract is assigned a 6-digit control number. The first 2 digits are the fiscal year; the second 2 digits are the county number. The last two digits are assigned sequentially beginning with 01.

| Contract Number Example: | CWEP-04-22-14 (CWEP contract negotiated in FY 2004 by Lincoln County, contract number 14). |
• Contracts are completed in triplicate. One copy is distributed to each of the following: the sponsor, the client’s case record, and the DFA Family Support Policy Unit.

• A detailed job description, form DFA-JD-1, Job Experience Description, must be attached to each contract for each position.

• All contracts are renegotiated annually. If the circumstances warrant it, a contract may be renegotiated earlier.

• Renewal (renegotiation) of CWEP contracts are completed using the CWEP Addendum/Renewal, DFA-CWEP-3A. Renewals are to be completed prior to July 1. In addition to the Addendum/Renewal, staff must have Job Experience Descriptions, DFA-JD-1, completed and signed by the sponsor if there are any new or changed job descriptions. These job descriptions must be attached to the Addendum/Renewal. It is not necessary to complete an entire contract, DFA-CWEP-3, on renewals. In addition, the fiscal year and contract sequence number does not change on renewed contracts. Placements must not be continued with a CWEP sponsor past June 30 if there is not a signed CWEP Addendum/Renewal contract with that sponsor. Contracts not negotiated within 90 days after the expiration date of the existing agreement require a new contract, DFA-CWEP-3.

• A contract may be terminated by either party with 30 days written notice.

18.13.1.D Determining the Hours of Participation

The Department of Labor (DOL) has mandated that the requirements of the Fair Labor Standards Act (FLSA) of 1938 be applied when determining the maximum hours of CWEP participation.

NOTE: A CWEP Individual Participation Agreement, DFA-CWEP-1, must be completed as a condition of placement in a CWEP position. The original DFA-CWEP-1 is provided to the contractor, the second copy is placed in the participant’s case record, and the bottom copy is given to the participant. The client must not work more hours for the CWEP sponsor, regardless of the amount calculated below. A new DFA-CWEP-1 is required to increase or decrease hours when the client’s WV WORKS and/or SNAP benefits increase, decrease, or there is a change in the state or federal minimum wage used to calculate the number of participation hours assigned.
18.13.1.E Placement in DHHR Offices

The Supervisor to whom the CWEP participant is assigned is responsible for ensuring that the client understands and abides by all agency rules, regulations, and policies regarding confidentiality, security of records, information, and property. The Supervisor must provide an orientation which includes, at a minimum:

- What constitutes confidential information; CWEP participant must sign a Confidentiality Agreement
- Penalties for Breach of confidentiality
- Discussion of public laws dealing with document integrity and penalties for altering, destroying, or concealing or making false statements
- Responsibilities for maintaining program integrity

CWE participants may not be assigned to work in areas which provide access to sensitive data as defined in the Common Chapters. These restrictions are as follows:

- May not be assigned to job duties that require face-to-face interaction with other agency clients
- Not authorized to use computers to scan or transmit data
- May not handle negotiables or be assigned duties in the financial area
- May not be involved in policy decisions
- May not type confidential memoranda, letters, or other communication, or provide direct service to other clients
- May not complete or process applications

Participants may be assigned to perform the following functions:

- Answer phones and take messages for staff
- Pull and re-file physical records, but may not insert or remove information from files in offices which Social Services and Income Maintenance records are in the same area.
- Schedule appointments
- Prepare and review letters or any pre-printed notification letters
- Open/sort/distribute mail and file printouts
- Complete and maintain logs
- List scheduled appointments on staff calendars
- Prepare packets of training or orientation materials
- Schedule meetings and notify attendees of date, time, and location
- Alphabetize any loose filing
• Type routine form letters
• Operate a copy machine for materials not related to individual clients
• Arrange appointments with outside agencies
• Distribute policy manual materials and update manuals
• Assist with stocking supplies throughout the office.
• Keep interviewing areas stocked with supplies

The participant must possess the following skills and abilities:

• Is literate and knows the alphabet. High School education or equivalent preferred, but must have completed the eighth grade
• Can follow simple instructions
• Good communication skills
• Cooperative attitude, friendly
• Ability to operate office machines
• Typing skills preferred
• Neat, clean appearance
• Dependable
• Must not have an active DHHR Social Service case such as an Adult or Child Protective Services record.

18.13.2 JOINT OPPORTUNITIES FOR INDEPENDENCE PROGRAM (JOIN)

The Joint Opportunities for Independence Program (JOIN) is a State-operated employment program that provides clients the opportunity to participate in a work program that closely resembles full-time employment. The participant may receive work experience in the private or public sector to improve his present job skills or to train him in new job skills. The work experience must meet local labor market demands.

A client is eligible if he has the necessary motivation, employment potential, education, previous work history and skills to benefit from the program. A placement should match the client’s interests as determined during the assessment process. No client may participate in JOIN for more than 12 months, nor for more than 40 hours per week.

Prior to placement, a JOIN participation agreement must be completed. The client must be given copies of the job description and informed of the job requirements and general working conditions.
A review of the client’s progress must be conducted at the end of the first 6 months of participation or earlier, to determine if there is satisfactory progress toward the goal of employment. The expected result of JOIN participation is employment, either at the JOIN training site or with another employer. The possibility of obtaining employment at the JOIN training site must be evaluated.

Any contractor who repeatedly fails to commit to hiring placements may be denied future contracts. The client must be given the opportunity to evaluate his own placement and be involved in the review process.

NOTE: WV WORKS participants must not participate as a volunteer with Community Service at any active JOIN contract site regardless of whether or not there is a current JOIN placement at that site.

18.13.2.A  Who May Be a JOIN Contractor

Any employer licensed to conduct business in West Virginia is eligible to be a JOIN contractor, provided all business tax payments are current. In addition, the potential contractor must agree to the requirements specified below.

18.13.2.B  Requirements of the Contractor

To become a JOIN contractor, the following requirements must be met:

- JOIN placements may not exceed the number of full-time employees already on the contractor's payroll.
- The contractor must provide an orientation for the client that outlines the work schedule, job description, contractor's expectations, pay schedule, holidays and the workplace standards for special clothing, reporting absences, breaks and mealtimes.
- The contractor must report all attendance problems immediately to the DHHR.
- The contractor must not assign the client to work more than an eight hour day, unless the normal work day exceeds eight hours.
- The contractor must not schedule split shifts.
- The contractor must schedule the client to work the appropriate number of hours per week. Hours worked in excess of the established number must be paid solely by the contractor, at the prevailing wage rate. All such income must be reported to the Case Manager.
• Contractors must keep daily attendance records for each client using form DFA-TS-12. It must be completed in its entirety and signed by both the client and supervisor monthly when all work hours have been completed. The DFA-TS-12 must be received by the Worker by the 5th working day of the following month. A copy is retained by the contractor for audit purposes.

• The contractor must provide a representative, when requested, to attend any Pre-Hearing Conference or Fair Hearing the client may request.

• The contractor must advise his regular employees of their right to file a grievance, if they feel their job has been adversely affected by the JOIN program and must adhere to the displacement/replacement policy.

• The contractor must guarantee appropriate standards for employment.

• The contractor must provide Workers’ Compensation or comparable coverage and pay into Social Security.

• The contractor must agree to provide safety equipment, special clothing, or tools not covered by the JOIN contract.

• The contractor must guarantee adequate supervision.

• The contractor must provide the JOIN client $1.00 for each hour of participation. This training allowance must be paid on the regularly scheduled payday. The contractor must withhold applicable local, state or federal wage taxes.

18.13.2.C Contract Requirements

A contract must be negotiated between the local WV WORKS staff and the contractor.

The contract, form DFA-J-3, is completed in triplicate, and signed by the authorized representatives of the contractor and the Department. The original is placed in the client’s case record, a copy is forwarded to DFA Family Support Policy Unit, and the contractor receives a copy.

The contract number will begin with the word JOIN. A contract number of six digits is assigned. The first two digits are the current fiscal year; the second two digits are the county number. The last two digits are consecutively-assigned numbers beginning with 01.

JOIN Contract Number Example: JOIN-03-33-15 (JOIN contract negotiated in FY 2003 by McDowell County, contract number 15).

A job description must be attached to each contract. The job description must be written by the contractor and must describe a job in the workplace that the client may qualify for at the end of the contract period, using form DFA-JD-1.
The job description(s) must include the following items:

- Job title
- Minimum educational level required for the position
- Weekly work schedule
- Special licenses required
- Special physical requirements
- Tools required
- Description of the job duties and responsibilities
- Special safety concerns or hazardous conditions
- Name of the supervisor
- Name of the individual responsible for evaluations and time sheets

Case Managers must monitor each placement to ensure that the contractor is in compliance with the contract. Any contract may be canceled with 30-days’ notice when the contractor does not comply. Any contractor who shows a pattern of non-compliance may be denied future contracts. Renewal (renegotiation) of JOIN contracts are completed using the JOIN Addendum/Renewal form, DFA-J-3A. These renewals are to be completed prior to July 1 or the new state fiscal year. In addition to the Addendum/Renewal, staff must have Job Experience Descriptions, DFA-JD-1, completed and signed by the sponsor if there are any new or changed job descriptions, which must be attached to the Addendum/Renewal. It is not necessary to complete an entire contract, DFA-J-3, on renewals. In addition, the fiscal year and contract sequence number does not change on renewed contracts. Under no circumstances will placements be continued with a JOIN sponsor past June 30 if there is not a signed JOIN Addendum/Renewal contract with that sponsor. Contracts not negotiated within 90 days after the expiration date of the existing agreement require a new contract, DFA-J-3.

18.13.2.D  Determining the Hours of Participation

The Department of Labor (DOL) has mandated that the requirements of the Fair Labor Standards Act of 1938 be applied when determining the maximum hours of participation.

NOTE: A JOIN Individual Participation Agreement, DFA-J-1, must be completed as a condition of placement in a JOIN position. The original is provided to the JOIN sponsor, one copy is placed in the participant’s case record, and the bottom copy is given to the participant.
NOTE: There may be some fluctuation in the number of hours worked each week to meet the requirements of the contractor. This is acceptable as long as the total number of hours per month is met, but not exceeded.

18.13.3 OTHER WORK EXPERIENCE PROGRAMS (WE)

This would include any other Work Experience programs offered in the community. Programs offered by other agencies must be submitted to the DFA Family Support Policy Unit for review and approval to ensure they meet all requirements for the Work Experience component. Other Work Experience programs are regulated by the Fair Labor Standards Act (FLSA).
18.14 COMMUNITY SERVICES PROGRAMS (CS)

Community Service Programs (CS) are those structured programs in which WV WORKS participants perform work for the direct benefit of the community through public or nonprofit organizations. This could include public or private volunteer organizations. CS is limited to projects that serve a useful community purpose in fields such as health, social service, environmental protection, education, urban and rural redevelopment, welfare, recreation, public facilities, public safety, and child care. CS must be supervised daily.

The CS component is governed by the Fair Labor Standards Act (FLSA). Participants assigned to this component must also be enrolled in the FLSA (FL) component.

CS participation is a self-initiated volunteer activity on the part of WV WORKS participants. Participant selection of a volunteer position with a community agency is acceptable if the agency and position meet the definition of Community Service under the first paragraph of this section. The Case Manager may provide participants with a known list of local appropriate Community Service sites. However, the Case Manager must not direct or “place” participants at any particular volunteer site.

The Case Manager is responsible for contacting the community agency selected by the participant in order to confirm what tasks the volunteer work entails, how the placement will enhance the participant’s job skills and experience, the days and number of hours of work which will be completed each week, and what service is being provided to the community.

The Case Manager must then complete a Volunteer Job Description which will include the information above in addition to the expected length of time of participation for the participant and how the participation will enhance the ability of the participant in his transition to employment. A copy of the Volunteer Job Description must be placed in each participant’s case record. Volunteer positions should be reviewed on a monthly basis to determine the usefulness of the participant’s participation and if placement in another activity may be more appropriate. A template of the Volunteer Job Description is in Appendix E.

Under no circumstances will Community Service participation be allowed at active Community Work Experience (CWEP) and Job Opportunities for Independence Program (JOIN) contract sites, nor at a site which has employees in layoff status.
18.15 FAIR LABOR STANDARDS ACT (FLSA)

The Department of Labor (DOL) has mandated that the requirements of the Fair Labor Standards Act (FLSA) of 1938 be applied when determining the maximum hours of CWEP, JOIN, Other Work Experience, and Community Service participation.

In this section is the explanation of determining the appropriate hours to be assigned to an FLSA regulated component and how the case management system is used to track these requirements.

18.15.1 DETERMINING THE HOURS OF PARTICIPATION

The following procedure is used to determine the monthly maximum number of hours of participation. The monthly placement obligation for all FLSA regulated components is based on the amount of SNAP benefits and WV WORKS cash assistance a family is eligible to receive during a month, including any amount withheld from the check to repay a previous overpayment and any amount not paid due to a sanction.

**NOTE: The minimum wage used for the calculation is the federal or state minimum wage, whichever is higher.**

The maximum monthly participation obligation is based on the following process:

Step 1: Determine the amount of the WV WORKS benefit prior to any previous overpayments.

Step 2: Determine the amount of the assistance group’s (AG) Supplemental Nutrition Assistance Program (SNAP) benefit. This is the amount actually received by the AG, plus any amount withheld to repay a previous over-issuance.

**NOTE: When WV WORKS participants are included in the same SNAP AG with non-WV WORKS clients, a separate calculation must be performed, as follows, to determine the share of the SNAP benefits belonging to the WV WORKS participants.**

- Divide the SNAP allotment by the number of people in the SNAP AG.
- Multiply this amount by the number of people in the WV WORKS AG. Drop all cents. The result is the amount of SNAP benefits used to determine the obligation.

Step 3: Add the WV WORKS benefit and SNAP benefit.
Step 4:  Add Child Support Incentive (CSI) and pass-through payment to the result of Step 3.

Step 5:  Subtract the amount of current child support retained for the month by the Bureau for Child Support Enforcement (BCSE) from the result of Step 4. Only current support payments are subtracted, not arrearages or other payments. Use the amount of child support retained by BCSE two months prior to the month for which the obligation is calculated.

Step 6:  Divide the result of Step 5 by the federal or state minimum wage, whichever is higher. This is the client’s maximum monthly obligation. The resulting figure is rounded down to the nearest whole number.

**Determining Hours of Participation Example 1:** The household consists of Mr. and Mrs. Rhododendron and their two children. Mrs. Rhododendron receives Supplemental Security Income (SSI) and she is not included in the WV WORKS AG. When determining Mr. Rhododendron’s CWEP obligation, Mrs. Rhododendron’s portion of the SNAP allotment is not included. The family’s total SNAP allotment is divided by the number of people in the SNAP AG and this amount is multiplied by the number of people in the WV WORKS AG. Drop all cents, and this amount is what is used to determine Mr. Rhododendron’s CWEP obligation.

<table>
<thead>
<tr>
<th>Description</th>
<th>Calculation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rhododendron family’s SNAP allotment</td>
<td>$640.00</td>
</tr>
<tr>
<td>Number of people in the SNAP AG</td>
<td>÷ 4</td>
</tr>
<tr>
<td>Individual SNAP allotment</td>
<td>$160.00</td>
</tr>
<tr>
<td>Number of people in the WV WORKS AG</td>
<td>x3</td>
</tr>
<tr>
<td>SNAP amount used to determine Mr. Smith’s CWEP obligation</td>
<td>$480.00</td>
</tr>
</tbody>
</table>

Add the AG’s monthly benefits of:

- WV WORKS Benefit: $374
- SNAP Benefit Used: $480

Total: $854

$854 ÷ $8.75 = 97.6 hours = 97 core participation obligation hours

</tr>
<tr>
<td>Total</td>
<td>$1,237</td>
</tr>
<tr>
<td>$8.75</td>
<td></td>
</tr>
</tbody>
</table>

141.37 hours = 141 assigned participation obligation hours

Under no circumstances is the client required to participate more than 40 hours in one week.

Participants assigned to CWEP, JOIN, Other Work Experience, or Community Service components must also be enrolled in the FLSA (FL) component. FL is not a work component, it is an eligibility system reporting mechanism which indicates the point where the individual is deemed to be meeting his Core participation requirements based on the FL calculation. The actual hours are scheduled using the WV WORKS FLSA Computation Sheet, DFA-WVW-FLSA-1 or in the eligibility system and are entered in the FL and Work Experience components and documented in Work Program comments.

Required hours based on the FLSA calculation are entered as scheduled hours for the FL component unless the FLSA calculation exceeds the minimum participation requirements. The scheduled hours in the eligibility system must not exceed the minimum monthly participation rate requirements. The participant may be required on their SSP to participate for the FLSA computed hours, but no sanction may be imposed as long as the minimum level is met. Thorough case comments must be made.

At the end of the reporting period, the Worker must record the actual hours completed in the appropriate Core components, CW, JN, WE, or CS, and the hours scheduled by FLSA computations are re-entered in the FL component as completed hours. The scheduled and completed hours entered for FL component will be the same as the FLSA calculation. Refer to the FSPU-12 desk guide or Appendix E.

There may be some fluctuation in the number of hours worked each week to meet the requirements of the contractor. This is acceptable as long as the total number of hours per month is met, but not exceeded.

If the hours reported in the Core work activity equal the number of hours assigned in the FLSA-related activity component, the participant will be deemed to be meeting the Core participation...
requirement, and no additional core hours may be required.

</tbody>
</table>

The minimum monthly required core hours of 85 (Single Parent, All Family) and 128 or 215 hours/month (Two-Parent Household) are met if the calculation of the CWEP obligation hours equals less than the minimum average core hours requirement. When this occurs, the Worker must assign additional core or non-core work activities not regulated by FLSA to meet the applicable minimum total of 128, 150, or 236 average participation hours/month.

**Minimum Core Hours Example 1:** Ms. Violet is required to complete 85 hours in a Core activity. She is assigned 67 hours monthly in CWEP using FLSA calculations. The assigned monthly hours of 67 are entered for the work activity, CW, as well as the FL component. When the timesheet is received, actual hours are entered for the work activity, CW. The scheduled hours are re-entered for the FL component. If Ms. Violet completes the 67 hours as scheduled, she is deemed to be meeting her Core requirement.

**Minimum Core Hours Example 2:** In the same scenario as above, Ms. Violet is assigned 67 monthly hours. She actually participates 50 hours for the month and has 12 hours of excused absence for the month. There were no holidays.

The following figures are entered in the eligibility system:
Because she did not complete the number of hours scheduled, she is not deemed to be meeting her Core requirement. If she would have worked the 67 hours as assigned, she would have been deemed to have worked the 85 required core hours. The 12 hours excused would not actually be used, since the addition of these hours would not meet the participation requirement of 67 hours.

**Minimum Core Hours Example 3:** An All Family Household with children over age six for participation purposes:

- WV WORKS Benefit: $374
- SNAP Benefit: +$504
- Total: $878

\[ \frac{878}{8.75} = 100.34 \text{ hours} = 100 \text{ core participation obligation hours} \]

The required core hours are 100. The required total participation hours are 128.

Since the participant in this example is required to participate 128 hours per month, and the FLSA calculations permits this individual to complete 100 hours/month, the participant must be assigned 100 hours per month in the CWEP activity and 28 additional hours in another activity not regulated by the FLSA, such as JT. There were no excused absences or holidays. The participant participates his required hours.

The following figures are entered in the eligibility system:

<table>
<thead>
<tr>
<th>Component</th>
<th>Scheduled Hours</th>
<th>Completed Hours</th>
<th>Monthly Excused Hours</th>
<th>Monthly Holiday Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CW</td>
<td>100</td>
<td>100</td>
<td>--</td>
<td>--</td>
</tr>
<tr>
<td>FL</td>
<td>100</td>
<td>100</td>
<td>--</td>
<td>--</td>
</tr>
<tr>
<td>JT</td>
<td>28</td>
<td>28</td>
<td>--</td>
<td>--</td>
</tr>
</tbody>
</table>
When the time sheet indicates the client participated the monthly assigned CWEP hours (including applicable excused absences and holidays) and this equals the required hours, the Case Manager must record that the required core activity hours are deemed to be met. When the actual hours participated are less than required, the Worker must record that the core hours are not deemed to be met.

NOTE: The participant’s SSP must include the number of monthly obligation hours required while in this activity. The monthly obligation hours must be recalculated whenever benefit amounts or minimum wage changes occur and the Personal Responsibility Contract (PRC) must be updated accordingly.
18.16 VOCATIONAL EDUCATIONAL TRAINING/COLLEGE

18.16.1 VOCATIONAL EDUCATIONAL TRAINING (VT)

Vocational Educational Training includes organized educational programs that are directly related to the preparation of participants for employment in current or emerging occupations requiring training other than a baccalaureate or advanced degree. This activity is limited to those programs that prepare participants for one specific trade, occupation, or vocation. This training is conducted in a non-work site or classroom setting.

Vocational Educational Training programs should be limited to activities that give participants the knowledge and skills to perform a specific occupation. These programs, while they may last longer than 12 months, and are in an approved Vocational Educational Training program, may not be counted for participation purposes for more than 12 months. Participants in Vocational Educational Training must be supervised daily.

For distance learning, countable participation hours only include classes which allow for monitoring of the participant while logged in and summarize what is achieved during the period engaged.

Although Vocational Educational Training may only be used for 12 months to meet federal participation requirements, a participant in one program that lasts longer than 12 months who continues to make good progress must be allowed to complete the course of training. Participants meeting these requirements must not be placed in additional activities while they continue to make satisfactory progress in their course of study. Vocational training exceeding 18 months must be approved by the Division of Family Assistance (DFA) Family Support Policy Unit.

For two-parent households where one parent is attending vocational educational training or college, the additional parent must not be required to engage in more than ten hours per week in a work activity. Good cause may be granted to the second parent for not participating in an allowable activity depending on household circumstances or if he is providing child care for a child who is under the age of six.

Some Vocational Associate Degree Programs may combine coursework with actual work. For these courses, the actual work placements may be counted as On-the-Job Training (OJT), if paid, or Work Experience if unpaid.

Masters or Doctorate programs must not be counted as Vocational Educational Training or college for any period of time.
Vocational Educational Training must be provided by education or training organizations, which include but are not limited to:

- Vocational-technical schools
- Community colleges
- Postsecondary institutions
- Proprietary schools
- Non-profit organizations
- Secondary schools that offer vocational education

Attendance in all two-year or four-year college programs must be counted under Vocational Educational Training for a maximum of 12 months lifetime. Previously counted months of vocational training for individuals must be considered towards the 12 months allowable.

The customer service portion of Job Search and Job Readiness Assistance programs is considered Vocational Educational Training for participation purposes.

**NOTE:** Minor parents attending high school in a vocational educational track should be counted as participating under “satisfactory attendance at secondary school or in a course of study leading to a certificate of general equivalence” to avoid triggering the lifetime 12-month limit on the use of Vocational Educational Training.

Questions regarding types of training allowable under Vocational Educational Training are to be directed to the DFA Family Support Policy Unit.

**18.16.1.A Placement Criteria**

An individual, who has demonstrated the ability to do the course work and who meets the entrance requirements, may participate in Vocational Educational Training when:

- His goal is an occupation that requires completion of a vocational course prior to employment;
- He has no job skills, or has only obsolete or non-marketable skills and must be retrained to find employment; or
- He does not have a high school diploma/or equivalent, and the skill training has been identified as an alternative which can lead to employment.
The training institution and instructor must meet licensing and certification standards of the appropriate governing agency. Unlicensed or uncertified instructors are not approved for training when licensing or certification standards exist.

A participant’s evaluation for an appropriate skill training situation must include appropriate testing when the individual does not have a high school diploma or equivalent.

No participant may be assigned to Vocational Educational Training unless the Case Manager is assured the participant will accept training-related employment upon completion of the training.

Participants in educational activities must be making satisfactory progress as determined by the institution in which they are enrolled. Once the participant has made unsatisfactory progress as defined by the institution, an educational activity may no longer be counted as the work activity until the participant regains satisfactory progress. The Case Manager should use discretion in activity placement. Strategic Planning in Occupational Knowledge for Employment and Success (SPOKES) and EXCEL are allowable educational activities.

### 18.16.1.C Training

Participants must be placed into training positions on a no-cost basis if such positions are available through WorkForce West Virginia, Department of Education (DOE), Veterans Affairs (VA) and other providers, before additional training positions are developed.

Case Managers staff may write training contracts for individuals without the DFA approval for an amount up to $600. Individual contracts which exceed $600 must be approved by the DFA. Group contracts are written by county staff, but must be approved by the DFA, regardless of the amount. The training contract must be completed before the participant’s first day.

### 18.16.1.D Payment Limitations

Payments are limited to the cost of tuition, books, supplies and expenses associated with completing the course of study. Costs for medical procedures, such as Hepatitis B vaccines or physical exams, are not included. There is a cost limit of $600 per individual. This cost may be exceeded only with approval from the DFA.

To obtain approval to exceed the limit, a written request must be submitted to the Director of DFA and must include:

- Participant’s name;
- Participant’s address;
- Participant’s Social Security Number (SSN);
- Name of the training facility;
- The occupation for which training is sought;
- The usual pay rate for the occupation; and
- The current employment prospects and labor demands.

18.16.1.E Calculation of Participation Hours

The calculation of hours for Vocational Educational Training follows the process below:

Step 1: Determine the participant’s total monthly hours as reported on his timesheet. This may include only the number of actual hours spent in class as well as time spent performing clinical requirements or lab time required for approved programs.

Step 2: Add one hour of unsupervised homework time for each hour of class time. One hour of unsupervised homework time for each hour of class time may be counted as participation. No additional hours of study may be reported, unless they are monitored hours in an approved educational program.

Step 3: Add supervised homework hours, if applicable. The total hours for unsupervised plus supervised homework time must not exceed the homework time required or advised by the educational program.

Step 4: Add the actual monthly classroom hours plus all homework time and enter the sum.

Step 5: Enter allowable time for excused absences if necessary.

Step 6: Enter hours for any classes missed due to a federal holiday that occurred during that month separately as a monthly total.

**Calculation of Participation Hours Example:** Ms. Fern attended class 59 hours for the current month. In addition, she had four hours of excused absence and six hours credit for a federal holiday.

<table>
<thead>
<tr>
<th>Calculation of Participation Hours Example: Ms. Fern attended class 59 hours for the current month. In addition, she had four hours of excused absence and six hours credit for a federal holiday.</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>118</td>
</tr>
<tr>
<td>+4</td>
</tr>
<tr>
<td>+6</td>
</tr>
<tr>
<td><strong>128</strong></td>
</tr>
</tbody>
</table>
18.16.1.F Verification of Hours and Payment of Support Services

The participant must submit a monthly timesheet, DFA-TS-12, to document the number of days and hours he has attended during the month. The timesheet must be signed by the participant and the educational supervisor. Faculty, instructors, student service specialists, instructional aides, lab supervisors, study hall supervisors, contractors, and educational providers are examples of educational staff that may be responsible for the daily supervision of participants for verification of hours.

The Case Manager will request enrollment and schedule information at the beginning of each term. Copies of grades are required at the completion of each term to ensure the participant is maintaining satisfactory progress. Enrollment, schedule, and grades must be included on the Self-Sufficiency Plan (SSP).

**NOTE:** Use of one day in any month in the time limited component of VT uses one month of the 12 month lifetime limit. Support payments made after VT component closure for VT activities may be made under the current component for this reason.

**Use of One Day in Any Month Example:** Ms. Pine’s summer class ends on June 30; her case manager disenrolls her from the VT component at that time and enrolls her in JR. After her time sheet is received in July, her Case Manager opens the VT component for one day to make the transportation payment. The month of July will then count as one of her 12 lifetime months in VT. To keep from using one of Ms. Pine’s months, the Case Manager pays her June transportation under the JR component and makes thorough case comments.

18.16.2 COLLEGE (CL)

Although college attendance does not count toward meeting the federal participation requirements, the West Virginia State Code specifies that full-time college enrollment and attendance is an acceptable participation activity for the WV WORKS program. See Section 18.9.1.C.2, “Under West Virginia State Law” regarding full-time attendance and satisfactory progress requirements.
Care must be made to correctly identify 18-month or two-year vocational programs being provided by colleges and community colleges and that participants in those programs are enrolled in the Vocational Educational Training.

Some undergraduate courses require that students be placed in an unpaid work environment. Such undergraduate placements may be used to meet the federal work requirement. These placements include, but are not limited to: student teaching, internships, clinical work assignments and unpaid work experience. The portion including actual work must be counted as OJT if paid, or Work Experience if unpaid.

Participants in all other four-year degree programs must be enrolled in the College component and no additional hours are assigned to the participant as long as they are enrolled full-time and continue to make satisfactory progress.

Participants in educational activities must be making satisfactory progress as determined by the institution in which they are enrolled. Once the participant has made unsatisfactory progress as defined by the institution, an educational activity may no longer be counted as the work activity until the participant regains satisfactory progress. The Case Manager should use discretion in activity placement.

Hours of participation for college are assigned according to the number of hours they attend class, plus one hour of study time per class hour.

School holidays that are not federal holidays must be counted as one of the excused absences. Summer breaks and semester breaks must not be counted toward participation. All other absences must meet the excused absence policy of no more than 16 hours per month and not more than 80 hours per 12-month period.
18.16.2.A Meeting the State Requirement

The participant in the College component must not be assigned to participate in any other activity to meet the federal work requirement when he chooses to attend college, as long as he attends full-time as defined by the institution.

18.16.2.B Participation Calculation

The calculation of College hours of participation follows the same process as Vocational Educational Training. See Section 18.16.1.E.

**Participation Calculation Example:** Mr. Hickory attends class 60 hours for the month. The following hours of participation are entered in the eligibility system:

- 60 attendance hours
- +60 unsupervised study hours
- 120 total monthly participation hours

**NOTE:** Please note that some College students may actually attend more hours than enrolled credit hours. This may occur when the student is required to participate in a lab, library activity, etc. which does not count towards his semester credit hours. This is significant when the credit hours are less than full-time during the current semester. In this case, the Case Manager must count all participation hours, confirm the details with the participant, and make a full case recording in the eligibility system regarding the circumstances.

18.16.2.C Payment of Support Services

The participant must submit a monthly timesheet, DFA-TS-12, to document the number of days he has attended during the month. The timesheet must be signed by the participant in order to receive support services.

The Case Manager will request enrollment and schedule information at the beginning of each term. Copies of grades from each grading period will be obtained to ensure the participant is maintaining satisfactory progress towards program completion. Enrollment, schedule, and grades must be included on the SSP.
18.17 PROVIDING CHILD CARE FOR A COMMUNITY SERVICE PARTICIPANT (CC)

Providing child care services without payment to an individual who is participating in a community service program means providing child care to enable another Temporary Assistance to Needy Families (TANF)/WV WORKS participant to participate in a community service program. Participants must be supervised daily.

Participants in this component must be working closely with a Child Care Agency to obtain certification to become a certified West Virginia Child Care Provider. This certification should be obtained within six months. The Child Care Agency must supervise the participant’s activity on a daily basis and submit the DFA-TS-12 timesheet each month. If the participant is not working with a Child Care Agency to obtain certification, then the activity must not be counted towards participation.

In addition to the timesheet provided by the Child Care Agency, the participant must also submit a timesheet each month. Parents for whom the participant is working must sign this timesheet each day that care is provided for their child. The Case Manager may use information on this timesheet to check against the timesheets being provided by the Community Service Agencies for which the parents are working. This will ensure that the information being reported is complete and correct.

NOTE: This activity does not include providing child care to enable a TANF/WV WORKS participant to participate in any of the other allowable work activities.

NOTE: In a two-parent family, or in a family with a parent and stepparent, one parent or stepparent cannot count as participating in a work activity by providing child care for his or her own child or stepchild while the other parent or stepparent participates in Community Service. Also, no more than one Work-Eligible Individual may receive credit for caring for the child(ren).
18.18 NON-CORE WORK ACTIVITIES

Job Skills Training Directly Related to Employment, Education Directly related to Employment and Satisfactory Attendance at Secondary School or High School Equivalency Program are allowable work activities in which participation hours are allowed as long as the minimum core hours of participation are met in one or more of the nine core activities.

The following policies apply to all three work activities described below:

- For distance learning, countable participation hours only include classes which allow for monitoring of the participant while logged in and summarize what is achieved during the time period engaged.

- One hour of unsupervised homework time must be counted as participation hours for each hour of class time under any of the three activities listed below. Supervised homework may count if the hours of participation can be documented.

- The total number of homework hours credited towards participation must be documented in Work Programs comments and must be based on the number of homework hours required or advised by the educational program.

Participants in educational activities must be making satisfactory progress as determined by the institution in which they are enrolled. Once the participant has made unsatisfactory progress as defined by the institution, an educational activity may no longer be counted as the work activity until the participant regains satisfactory progress. The Case Manager should use discretion in activity placement.

**NOTE:** If the participant is under the age of 20 and does not have a high school diploma or its equivalent, the requirement to participate in educational activities must be included in the Self-Sufficiency Plan (SSP). The three activities listed below, although they do not meet the federal definition of Core Work Activities, are acceptable full-time activities for WV WORKS participants under State Law. See Section 18.9.1.C.2, regarding full-time attendance and satisfactory progress requirements.

18.18.1 JOB SKILLS TRAINING DIRECTLY RELATED TO EMPLOYMENT

This activity is defined as education and training for job skills required by an employer to provide an individual with the opportunity to obtain employment or to advance or adapt to the changing demands of the workplace. Job skills training can include customized training to meet the needs of a specific employer or general training that prepares an individual for employment. This
training can include literacy instruction or language instruction when such instruction is focused on skills needed for a job or combined in a unified whole with job training.

NOTE: Education leading to an associate or baccalaureate degree may also be counted under job skills directly related to employment so long as it is directly related to a specific job or occupation. Participants attending such programs part-time must be coded under this component.

18.18.2 EDUCATION DIRECTLY RELATED TO EMPLOYMENT

Education directly related to employment, in the case of a participant who has not received a high school diploma or a certificate of high school equivalency, means education related to a specific occupation, job, or job offer. This activity includes training courses designed to provide the knowledge and skills for specific occupations or work settings and may also include adult basic education and English as a Second Language (ESL). Literacy skills and tutoring fall under this activity. When required as a pre-requisite for employment by employers or occupations, it may also include education leading to a high school equivalency diploma.

18.18.3 SATISFACTORY ATTENDANCE AT SECONDARY SCHOOL OR HIGH SCHOOL EQUIVALENCY PROGRAM

Satisfactory attendance at secondary school or in a course of study leading to a certificate of general equivalence, in the case of a participant who has not completed secondary school or received such a certificate, means regular attendance, according to the requirements of the secondary school or equivalent program.

NOTE: For parents under 20 who do not have their high school diploma or equivalency, attendance at a secondary school or high school equivalency program is a requirement.

This activity, unlike education directly related to employment, is not restricted to those for whom obtaining a high school diploma or equivalent is a prerequisite for employment. It may include other related educational activities, such as adult basic education or language instruction if it is linked to attending a secondary school or leading to a high school diploma or equivalent.
Participants must be making “good or satisfactory progress” in order for this activity to count. A standard of progress established by the educational institution must be monitored such as grade point average and a time frame in which the participant is expected to complete such education. The Case Manager must collaborate with the teacher(s) or instructors to monitor this standard of progress.
18.19 PAYMENT FOR SUPPORT SERVICES

Payment for support services is authorized to assist WV WORKS participants in securing or maintaining employment or participating in other activities.

The type and amount of any payment made must be based on need, i.e., without receiving the payment in that amount the participant is not able to participate in an activity. The Case Manager and the participant must discuss available services and assess needs during the interview and assessment process, and at reviews. The participant may also request services as needs arise. Disposition to approve or deny the application for supportive services must be made within 10 working days of receipt of the signed time sheet or request.

Support services may be issued during any month for which a WV WORKS payment is made. In addition, some former Work-Eligible Individuals in a previous WV WORKS case continue to be eligible for support service payments as long as the conditions in Section 18.22 are met. This Section contains information about support services available to active assistance group (AG) members and non-recipient Work-Eligible Individuals in the household.

18.19.1 WHO IS ELIGIBLE

Those who meet all of the following criteria are eligible for payment of support services:

- Work-Eligible Individual in an active WV WORKS case for the month for which the support service payment is intended.
- Non-recipient Work-Eligible Individuals who are not in the AG, as long as they meet all other eligibility requirements.
- A non-recipient parent, stepparent, or caretaker relative receiving Supplemental Security Income (SSI) who has chosen to volunteer to participate in a work activity.
- Participating, or preparing to participate, in a work activity listed in Sections 18.10 – 18.18.
- For individuals who are preparing to participate, certain support service payments may be made under Other Work Activities to remove challenges to participation.
- Has not received and is not expected to receive a Diversionary Cash Assistance (DCA) payment which covers the month for which the support service is requested.
- Did not receive WV WORKS fraudulently or is not subject to repayment for the total monthly allotment.
The following general information applies to all support services payments, whether provided to an active participant or to a former participant eligible for continued support services according to Section 18.22:

- The amount of the payment is based on the need, but may not exceed the maximum amounts.
- When the participant participates in more than one activity, payment may be made for each activity. However, the total may not exceed the maximum payment for each type of expense.

**Support Services Requirement Example:** The lifetime limit for clothing is $1,000. During an earlier eligibility period, Ms. Orchid received $400 in support payments for clothing. She reapplys for WV WORKS and during the next 12 months, she then receives $100 for clothing during a Community Work Experience Program (CWEP) placement and then a $100 payment for clothes during Job Search which is her total allowable amount for the 12 month period. She finds employment and only has $400 of her lifetime limit for clothing remaining because the maximum payment cannot exceed $1,000. ($400 + $100 + $100 + $400 =1,000)

- The Case Manager must make a recording in the eligibility system each time a payment is made, explaining the need for the payment and the reason for the amount issued. This comment must include the calculations used to determine the correct payment. For transportation, recordings must include the daily rate and the number of days for which the payment is made.
- Support service maximum time limits and amount limits are usually based on each individual participant, not on each family. Therefore, if two parents are participating, each is eligible for a maximum payment amount in the time-limited period, except for vehicle repairs and relocation payments.
- Requests for any support service payment or bonus payment received more than three months past the month of participation or achievement are ineligible. Requests for exceptions due to extenuating circumstances may be sent to the DFA Family Support Policy Unit for consideration.
- Multiple payments may be issued for the same category of support services as long as the maximum amount is not exceeded.
• Payments must be made by vendor payment when possible. A vendor may be a private individual or a licensed business. Each vendor must be assigned a number to allow payment to be made through the eligibility system. Self-employed participants who render services to other participants are also assigned a vendor number to be paid for those services.

When using vendor payments, the Case Manager must protect the participant’s confidentiality. No referral form to a vendor may specify that the participant is a recipient or how the goods or services obtained with the vendor payment are used. Agreements with some employers or other activity providers may require that this information be included and the terms of that agreement must be followed. However, it is expected that vendor payments and referrals for goods or services not associated with employers or activity providers will protect the participant’s confidentiality.

In situations where a payment must be made directly to the WV WORKS participant, the individual’s personal identification number (PIN) is the vendor number. In these situations, the Case Manager must also document why the payment must be made to the WV WORKS participant.

• All payments are requested in the eligibility system.

• Any payment made to a vendor requires an itemized invoice or written estimate of the charges. The invoice must be on the vendor’s invoice form, or on his business letterhead. The invoice is filed in the case record.

• When payment is made to a vendor, the invoice or estimate must not include sales tax. When payment is made to reimburse the participant, sales tax is included.

• Recoupment of overpayments is made by reducing subsequent support service payments regardless of the category of payment, until the amount of the overpayment has been repaid. The amount withheld and the reason must be documented in the case record.

• Misdirected, lost or stolen checks are handled according to Section 15.3.

• Support service payments cannot be made by direct deposit.

• Support service payments may not be made for ongoing living expenses, such as rent/mortgage and utilities. This includes the cost of installing new utilities and telephone hook-ups.

**EXCEPTION:** Pre-paid phone cards may only be purchased to enable the participant to make activity-related calls when the participant has no home telephone.
The BA-67 form must be used when guaranteeing or promising payment for support services such as clothing, payment of rent for relocation, etc. The procedures outlined by the Bureau for Children and Families (BCF) Office of Finance and Administration for issuing and tracking the BA-67 must be followed.

**EXCEPTION: The BA-67 form is not required when there is a contract for payment signed by a vendor such as Employer Incentive Program (EIP), Employment Subsidy Program (ESP), or Training Contract.**

When a request for a support service payment has been made, but no payment is issued, the Case Manager must notify the participant of the denial using form DFA-WVW-NL-2. The Case Manager must provide a narrative explanation of the reason the payment is denied in terms the participant can easily understand. The action must be recorded in the eligibility system.

Under no circumstances is it correct to give or mail a DFA-WVW-NL-2 to a participant without a Case Manager-composed explanation of the reason for the denial. The DFA-WVW-NL-2 offers the participant the right to a Fair Hearing on this denial and must be mailed or given to the participant with a Hearing request form.

### 18.19.3 ALLOWABLE SUPPORT SERVICE PAYMENTS

The Case Manager must determine whether or not a need for support services exists. When the Case Manager identifies a need, it is the Case Manager’s responsibility to inform the participant about available support services and to follow through to ensure the need is met when possible. Under no circumstances must the participant be required to identify the specific support service he needs as a condition of receipt. All actions related to support service payments must be recorded in the eligibility system.

Additional information about the specific types of support services that are allowed is contained in this item. No other support service payments may be made.

All support service payments, except transportation, must be approved by a Family Support Supervisor or a person designated to complete supervisory functions in the eligibility system (back-up Supervisor). Supervisors and back-up Supervisors cannot approve support payments which they have entered into the system themselves. A back-up Supervisor may not approve payments entered by a Supervisor. Payments entered by a Supervisor must be approved by another Supervisor. Each Supervisor, back-up Supervisor, or Case Manager may cancel their own payment requests in the eligibility system.
Support Service payments may be cancelled prior to the close of business on the same day of the week in which it was requested.

Work-Eligible Individuals may be participating in more than one activity simultaneously and entered as such in the eligibility system.

The following sections include tables showing the categories of support service payments available and listing the WV WORKS activities and eligibility system components for which such payments may be made.

18.19.3.A Collateral Expenses

Collateral payments may be made for items such as grooming expenses, testing fees, Criminal Identification Bureau (CIB) checks, or other expenses necessary to obtain employment or to participate in a work activity.

Payments for collateral expenses must not be used to pay for medical treatment or items such as eyeglasses, dentures, physical examinations, doctor visits, prescriptions, etc.

Under no circumstances may a collateral payment be made to assist a participant with traffic fines.

Collateral payments are not issued for ongoing household expenses such as rent, deposits, utilities, property taxes, etc.

When a specific support service, such as transportation, commercial driver’s license (CDL), etc., shows that such payment is not allowed for the participant’s approved work activity, collateral funds must not be used to pay the expense. In addition, payment may not be made from collateral expenses to supplement other allowable support services when the participant has reached the maximum amount.

Collateral Expenses Example: Payment for a CDL is not permitted for those in the Joint Opportunities for Independent Program (JOIN). Therefore, the CDL needed must not be paid for from collateral expenses for the JOIN participant.
Payment may be made for **collateral** expenses as follows:

18.19.3.B **Clothing**

Clothing may be authorized for a verified offer of employment, or to attend short-term training that is expected to lead directly to employment.

This expense includes uniforms or work clothing, including shoes or boots, but may include dress clothing when the participant accepts a job that requires it.

Payments must be made incrementally, as long as the maximum amount is not exceeded. Layaway payments for clothing must not be made under any circumstances.

Requests for exceptions due to extenuating circumstances may be sent to the DFA Family Support Policy Unit for consideration.
Payment may be made for *clothing* as follows:

### 18.19.3.C Tools and/or Equipment

Tools and equipment may be purchased when there is a verified offer of employment, the need for the tools has been verified by the employer and the employer does not furnish them. The purchase of tools may also be authorized for training and education activities. Verification of the cost must be provided.

Payment may be made for *tools and equipment* as follows:

</table>

18.19.3.F  Professional License

A professional license may be paid for when required to work in a specific occupation. The participant must have a job offer, or the Case Manager must be reasonably certain that the participant can obtain employment after obtaining the license.

Payment is limited to the cost of the license when not included in the cost of the course and obtaining the license is part of the course completion. Payment may be made for a professional license as follows:

<table>
<thead>
<tr>
<th>WV WORKS Activity</th>
<th>System Component</th>
<th>Limitations</th>
</tr>
</thead>
<tbody>
<tr>
<td>College</td>
<td>CL</td>
<td></td>
</tr>
<tr>
<td>Continued Support Services/Job Retention</td>

<td></td>
</tr>
<tr>
<td>Vocational Educational Training</td>
<td>VT</td>
<td></td>
</tr>
</tbody>
</table>
A participant may be relocated to a different area of the State or to a different state when an offer of unsubsidized employment has been verified.

- The move must be more than one hour in normal traffic before relocation payments may be approved.
- The payment may include such items as a rental vehicle, mileage for a personal vehicle, and initial living expenses in the new employment area.
- These expenses must be verified and documented in case comments. For any cost that cannot be verified, the Case Manager must justify why the payment was made and the calculations used to determine the payment.

In addition, payments may be made to relocate victims of domestic violence when the safety of the participant and/or the children is compromised. To qualify for payment, the requirements in Section 14.9.1.B must be met and the current living situation must be unsafe. Funds may not be used to move someone to a shelter but may be used to move from a shelter to a residence.

Payment may also be made for relocation within the same general vicinity only when relocating to an area where public transportation is available. Proximity to public transportation must be one mile or more and be reduced to one mile or less. Relocation for this reason does not require an offer of employment. The Case Manager must take the participant’s system of support into consideration when relocating to access transportation. Once the participant has relocated to an area where public transportation is available, transportation must no longer be considered a challenge to participation. Relocation for this purpose must be sent to DFA Family Support Policy Unit for approval.

The lifetime limit applies, regardless of the reason for the relocation. If the available relocation amount has been used and domestic violence becomes an issue for the family, contact the DFA Family Support Policy Unit regarding approval.

When both parents in a two-parent household have verified offers of employment, the household may receive a payment up to the $1,500 lifetime limit to meet their moving expenses. The amount paid is divided between the two parents and half of the payment is disbursed equally between the two parents.

A participant’s receipt of relocation services through support payment does not make that individual ineligible for the continued service options (EAP/PL). Nor does it make the participant ineligible for TANF for 3 months, unless associated with DCA payment. See 1.5.18.
Payment may be made for *relocation* expenses as follows:

<table>

</tr>
</tbody>
</table>

### 18.19.3.H Transportation

The participant must attend an allowable activity for each day that a transportation payment is issued.

- Payments are made to a participant who is beginning to participate in an activity to ensure that transportation is not a barrier. A prepayment of $60 may be authorized for the month of approval only for travel. This prepayment must be deducted from the subsequent transportation payment requested for the initial month.

- Transportation payments may be authorized only if expenses have been incurred or are reasonably expected to be incurred. The full amount does not have to be issued.

- Payments made for private transportation are intended to cover more than the cost of fuel. Daily payments for travel include a portion of the following expenses: fuel, insurance, vehicle maintenance, minor repairs and parking.

- General limitations, in addition to those in Section 18.18.2, are as follows. Limitations specific to an activity are shown in the chart below.
  - Participants who must travel one mile or less to their place of employment or other participation site are not eligible for payment. In making this determination, consideration must be given to the distance traveled to deliver children to day care.
  - Those who ride school buses or other conveyances without cost are not eligible for transportation payments for the days such conveyances are used.
  - Those who use public transportation are reimbursed for the actual cost of the service.
  - Transportation stipends received from another source must be deducted from any transportation payments requested.
  - When participants share private transportation, only the owner of the vehicle is entitled to a payment. However, if the owner of the vehicle charges the other
passengers, the passengers may be reimbursed for their charges. Members of the owner’s AG may not be reimbursed when traveling in the same vehicle.

- Requests for transportation received more than three months past the month of participation are ineligible. Requests for exceptions due to extenuating circumstances may be sent to the DFA Family Support Policy Unit for consideration.
- Payment may be made under Other Work Activities to applicants who need transportation assistance to complete required drug testing.

**NOTE:** Participants in temporary barrier components may receive $15 daily transportation to attend assessment testing or to meet with a resource agency assisting with barrier removal activities.

- A BA-67 is not required for transportation payments made to a vendor.

Payments may be made for **transportation** as follows:

18.19.3.I  Vehicle Repair

For vehicle repairs, the vehicle to be repaired must be titled or leased in the State of West Virginia in the name of a Work-Eligible adult included in the household. The vehicle may be jointly owned as long as a Work-Eligible adult in the household is one of the joint owners.

- Funds must not be used to purchase a vehicle.
- Funds may be used for state inspection stickers and license plates.
- Funds may be used to pay for driver’s education for those without a driver’s license.
- Any support service payment plus other available resources for repairs must make the vehicle roadworthy.
- Insurance is not paid under this category.

Payment may be made for vehicle repair as follows:

<table>

18.19.3.J Vehicle Insurance

The vehicle for which insurance is paid must be titled or leased in the State of West Virginia in the name of a Work-Eligible Individual. The vehicle may be jointly owned as long as a Work-Eligible adult in the household is one of the joint owners.

Each insurance payment made on behalf of a participant to a vendor or to reimburse a participant for a payment that has been made is limited to:

- State minimum liability;
- Uninsured motorist; and
- Underinsured motorist coverage.

Each payment to a vendor is limited to a six-month coverage increment and must list the State as the payee. Any additional insurance coverage requested by the participant is only paid or reimbursed when there is a lien on the vehicle and the participant provides verification that the bank requires additional coverage.

**NOTE:** The insurance purchased must meet state minimum coverage requirements. The participant may purchase enhanced coverage at his own expense.

A BA-67 is not required for vehicle insurance payments made to a vendor.

Payment may be made for **vehicle insurance** as follows:

<table>

</tbody>
</table>
18.19.3.K  DUI Offenses

Payment may be made for costs related to reinstatement of driver’s licenses which have been revoked due to substance abuse.

- Allowable expenses include, but are not limited to:
  - DUI classes
  - Licenses reinstatement fee
  - New licenses
  - Ignition interlock systems.

- Expenses that may not be paid are:
  - Test for drug/alcohol use
  - Treatment programs
  - Any other medical cost.

- The participant must be enrolled in and attending a substance abuse treatment program conducted by a certified treatment specialist. However, treatment cannot be paid.

- Payment limited to costs related to one offense only. All paid costs must be related to the same offense.

- Payment for Ignition Interlock is limited to the initial Division of Motor Vehicles (DMV) fee and three months of service.

This supportive service may also be used to make an up-front payment to work-eligible individuals whose only barrier to obtaining their driver’s license is unpaid fines. This applies to
any work-eligible individual with a transportation barrier to attend school or work.

The participant must have been denied for the West Virginia Second Chance Driver's License Act by the WV Division of Justice and Community Services and have accepted a referral for Legal Aid of West Virginia for assistance with fines before payment may be made for this purpose.

The payment must be paid directly to a vendor to ensure the elimination of the fine when possible. The participant may be reimbursed only after a receipt of the fine payment is provided.

Use of this support payment must be to pay for fines and fees related to traffic, moving, and parking violations only.

Once the fine has been paid, the participant must then obtain their driver’s license. For individuals who receive a prepayment of this supportive service and then do not subsequently participate, future prepayments from supportive services must not be made.

Payment may be made for **DUI-Related expenses** as follows:

18.19.3.L High School Diploma or Equivalency Diploma Achievement Bonus

Any Individual or their dependent child included in an active WV WORKS case or either of the continuation of services options who passes the high school equivalency diploma, graduates from Adult Basic Education (ABE) class or obtains his high school diploma is eligible for an achievement bonus. This includes dependent children in child-only cases.

This is a one-time only payment. Payment may be made only to those individuals without a high school diploma or equivalent, who pass the Test Assessing Secondary Completion (TASC) or obtain a high school diploma. It is not necessary to wait until the diploma is issued.

Parents who are under age 18 and unemancipated at the time the TASC is passed or the high school diploma is received are also eligible for this bonus.

The full amount of $100 must be paid for each individual or their dependent child who obtains their high school diploma or equivalent. Payment for dependent children is issued to the primary person in the case. A dependent child eligible for this bonus must be included in the WV Works payment.

Payment may be made for the high school equivalency diploma or High School Diploma Achievement Bonus as follows:

<table>
<thead>
<tr>
<th>WV WORKS Activity</th>
<th>System Component</th>
<th>Limitations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applies to any active WV WORKS participant or their dependent child who obtains a high school equivalency diploma or high school diploma. This includes dependent children in child only cases.</td>

<td>$100 per individual</td>
</tr>
</tbody>
</table>

18.19.3.M Self-Sufficiency Achievement Bonuses

An achievement bonus is paid for retaining employment. To be eligible for this payment, the participant must maintain West Virginia residency during the entire employment period.

- For receipt of these bonus payments only, gross family income must be 200% or less of the current Federal Poverty Level (FPL), excluding Supplemental Security Income (SSI).
- Paid to each former Work-Eligible Individual who is employed full-time during each of the months following AG closure.
- Payment is made at the end of the specified month. The WV WORKS case must have been closed for the entire post-employment period.
• Full-time employment is defined as 100 hours per month.
• The amount of the payment must be equal to the maximum payment for the specified time period, the employment hours may be averaged over the time period as 100 hours per month.
• The person employed is not required to be working for the same employer as when the AG was closed.
• Any full-time employment qualifies.
• There is no minimum earnings level to qualify for this bonus.

There are no supportive services issued between the 6-month self-sufficiency payment and the 12-month self-sufficiency payment, however referrals to community agencies must be made if a situation is presented which would result in job loss or fewer work hours. In addition, the Case Manager is required to contact the participant during the ninth month of employment for a job retention follow-up to determine if any community referrals are needed to continue progress towards self-sufficiency.

Payment may be made for the **Self-Sufficiency Achievement Bonuses** as follows:

---

### 18.19.3.N Vocational Educational and Employment Achievement Bonus

Any Work-Eligible Individual in an active WV WORKS case who completes a Vocational Educational Program is eligible for an achievement bonus if he accepts an offer of full- or part-time employment within 90 days of graduation. For receipt of this bonus, part-time employment is defined as a minimum of 20 hours per week.

The employment does not have to be related to the field of study to be eligible for the bonus.

This is a one-time only payment. Payment may be made only to those active participants who complete vocational educational training and who accept full- or part-time employment. It is not necessary to wait until the vocational certificate or diploma is issued, however written verification of the employment must be obtained.

The full amount of $250 must be paid.

Payment may be made for the **Vocational Educational Training Achievement Bonus** as follows:
Chapter 18

18.19.3.0 Participation Achievement Bonus

Participation achievement bonus is described below:

- Participant may use Holiday or Excused Absence Hours to meet minimum participation hours for receipt of this bonus.
- In a two-parent household where both parents are participating to meet the minimum requirement, each parent may receive the bonus. Refer to Section 18.4.2.B for minimum participation requirements.
- Time sheets received more than three months past the month of participation are ineligible for this payment.

The full amount of $50 per month per participant must be paid.

Payment may be made for participation achievement bonus as follows:

<table>

18.19.4 CORRECTING THE SUPPORT SERVICE CHECK AMOUNT

When the Case Manager discovers that a support service payment has been requested for less than was intended, an additional payment for the difference is requested in the eligibility system.

18.19.5 SUPPORT SERVICE CHECK RETURNED BY THE PARTICIPANT TO THE LOCAL OFFICE

For any support service check returned to the local office, the Case Manager must complete an ES-14. The Financial Clerk or their designee attaches the check and mails both to the Accounts Receivable, Office of Accounting. The Accounts Receivable, Office of Accounting Unit disposes of the check according to the instructions on the ES-14.

18.19.6 SUPPORT SERVICE CHECK AND BA-67 REPLACEMENT PROCEDURES

See Section 12.3 for instructions.
18.19.7 RECOUPEMENT OF SUPPORT SERVICE PAYMENTS

Recoupment of support service overpayments is accomplished by adjusting subsequent support service payments. When adjusting subsequent payments is not possible, the Case Manager must contact the participant to request repayment. If the payment is returned, it is sent with an ES-14 to:

   Accounts Receivable
   Office of Accounting
   321 Capitol Street, 1 Davis Square
   Charleston, WV 25301

The Case Manager must identify the returned payments by indicating “Work Support” in the upper right corner. Do not include an account number for deposit of the funds.

When a Case Manager discovers a participant has received an improper cash refund of support service monies instead of goods or services, the amount of the refund will be considered an overpayment of support services and must be recouped.

For individuals participants who receive a prepayment of supportive services under Other Work Activities and then do not subsequently participate, future prepayments from supportive services must not be made.
18.20 PAYMENTS TO EMPLOYERS AND TRAINING FACILITIES

The following instructions apply to issuing payments to employers and providers of skills training.

18.20.1 EMPLOYER INCENTIVE PROGRAM (EIP) EMPLOYERS

EIP employers are reimbursed up to 50% of the participant’s gross wages. Payments are issued monthly and are based on information from the time sheet, DFA-TS-12.

18.20.2 EMPLOYMENT SUBSIDY PROGRAM (ESP) EMPLOYERS

ESP employers are reimbursed 100% of the participant’s gross wages. Payments are issued based on information from the time sheet, DFA-TS-12 and Employer Reimbursement Request, DFA-ESP-2.

18.20.3 PROVIDERS OF VOCATIONAL SKILLS OR LIFE SKILLS TRAINING

A training contract payment can be made only in response to an invoice from the service provider and payment must be made directly to the vendor. Care must be taken to ensure that the payment limit is not exceeded for any contract. Supervisors must monitor the negotiation of these contracts and the payments made to vendors to determine if problems exist and to take corrective action, as necessary.

Payment may be made for life skills training such as, but not limited to: parenting and financial literacy. Existing programs offered by other agencies must be used first when available without cost.
18.21 CORRECTIVE PAYMENT PROCEDURES

18.21.1 CORRECTIVE PAYMENTS

Corrective payments may be requested by WV WORKS Supervisors for the following:

- Support Services for which a participant is eligible.
- Training contracts approved by the Division of Family Assistance (DFA) Family Support Unit exceeding $600.

The individual for whom the payment is being requested must be enrolled in the case management system at the time the payment is requested. The individual must have been previously enrolled in the activity associated with the request.

18.21.2 CORRECTIVE PAYMENT PROCEDURE

The procedure for requesting corrective payments by the WV WORKS Supervisor is as follows:

- Email the DFA Family Support Unit with the following information:
  - Name of participant
  - PIN number
  - Type of corrective payment - training contract or Support Service payment type
  - Payment amount requested
  - Reason for request/explanation of circumstances

  The Case Manager must make a full recording regarding the circumstances surrounding the request for a corrective payment.

- Place documentation in the participant's case record. The DFA Family Support Unit may request copies of these documents prior to approval of a corrective payment.

  **Documentation Example:** A copy of the bill or receipt for payment, copy of training contract.

- Complete case management system actions.
18.21.3 REASONS FOR CORRECTIVE PAYMENTS

Corrective payments for Support Services and training contracts may be made only under the following circumstances:

- The maximum support service payment amount has been exceeded and a promise of payment has been made to a vendor using a BA-67.
- Payment made to incorrect vendor and vendor will not return the payment to the Department of Health and Human Resources (DHHR).
- The local office has been billed for transportation payments for multiple months by the vendor exceeding the current month maximum.
- Payment due to Fair Hearing decision.
- Transportation payment is owed to the participant for a previous month or months and will exceed the current month maximum.
- Payment made to but never received by the participant and the maximum has been or will be reached (Investigations and Fraud Management (IFM) fraud investigation related only).
- State Office approved Vocational Training Contract exceeds $600.
- Other reason approved by State office.

Replacement of Support Services checks to participants must not be made by Supervisors or Case Managers under any circumstances. The procedure that is listed in Section 15.3 for replacement of undelivered, lost, stolen, or destroyed checks must be followed.

For any additional situations not listed above, please contact the DFA Family Support Unit.

18.21.4 DISPOSITION OF CORRECTIVE PAYMENT

The DFA Family Support Unit will notify the WV WORKS Supervisor, via email, regarding the approval or denial of the corrective payment.
18.22 CONTINUATION OF SERVICES

Work-Eligible Individuals may choose between two employment support options any time the WV WORKS case is closed due to employment and the participant has reported employment within ten days of the employment begin date. The closure may be at the participant’s request, but the participant must be employed.

When the participant accepts employment and the WV WORKS benefit is closed, the Case Manager advises the participant regarding the benefits of each option and the participant chooses the one best suited to the needs of his family. The participant signs the WV WORKS Post-Employment Services Option form, DFA-WVV-15, to document the decision. The participant has 30 days from the effective date of closure to sign the DFA-WVV-15 to document his decision. The participant is ineligible to receive either option if the form is not returned in the specified time frame or if the employment is not reported timely. The Case Manager must note which option the participant has chosen in the eligibility system. The participant receives one copy of the form and another is placed into the case record. This participant’s decision is binding for the post-employment period.

Both options are considered post-employment supportive services. If an individual reapplies for WV WORKS within three months of the last day of the effective month of the closure due to employment, the assistance group (AG) members or non-recipient Work-Eligible are not required to complete another orientation or Personal Responsibility Contract (PRC). An updated Self-Sufficiency Plan (SSP) is still required.

Any individual who has had a positive drug test as a result of the Drug Use Questionnaire, DFA-WVV-DAST-1, is encouraged to continue attending counseling / rehabilitation during the continuation of services period. Substance abuse sanctions in Section 14.8.2 are not applied for failure to continue with this requirement once employed.

The options are described below:

- Option 1 – This option is a continuation of support services and payments any time a WV WORKS benefit is closed due to employment which meets the requirements outlined below. Services include case management; support service payments; continuation of and payment for activities such as, but not limited to, job search, job readiness, and skills training. Employed former WV WORKS participants must apply to receive continued support service payments, see Section 18.22.

- Option 2 – This option is the West Virginia Employment Assistance Program (EAP). This program enables the employed former WV WORKS participant to continue to receive the Temporary Assistance for Needy Families (TANF) payment he received prior to becoming employed by use of a 100% earned income disregard for the EAP period. The family must elect to receive the EAP payment instead of continued support service payments. Participation hours for this employment may be projected for up to six months.
by using either pay stubs or a written statement from the employer. If it is apparent that the hours may vary substantially, the EAP participant must provide a time sheet or pay stubs each month to verify the hours. A PRC or SSP is not required for the post-employment period.

**Continuation of Services Example:** Ms. Peony, a WV WORKS participant reports employment. The income reported is greater than the program limit, so the WV WORKS benefit closes for March. The Case Manager contacts Ms. Peony and explains the two employment support options; she chooses the EAP option. The Case Manager mails the DFA-WVV-15 to Ms. Peony to obtain her signature, but she fails to return the completed form. In May, Ms. Peony comes in for a Supplemental Nutrition Assistance Program (SNAP) review with the completed form and returns it to the Case Manager. Ms. Peony is not eligible for EAP benefits since she did not return the form within 30 days from the date of closure in March.

When the AG is closed due to imposition of a sanction, no continued support service payments are issued. Because the participant was not employed at the time the benefits ended, he is not eligible for either employment option even if he later becomes employed during the continuation of services period.

When there is no break in receipt of WV WORKS, such as closures due to a late review or during a good cause period and the individual reports employment, he may still receive a continuation of services period.

**NOTE:** If he meets all eligibility requirements, an employed, non-recipient Work-Eligible Individual who was living with a child who was receiving assistance is also eligible to choose one of these employment support options. These services, support payments, and employment assistance are handled in the same manner as for former participants who were included in the WV WORKS AG.

### 18.22.1 ELIGIBILITY REQUIREMENTS FOR EMPLOYMENT SUPPORT OPTIONS

Individuals who meet all of the following requirements may choose a post-employment option:

- Gross family income is 150% or less of the current Federal Poverty Level (FPL), excluding Supplemental Security Income (SSI); and
- The family resides in West Virginia; and
- The family's countable assets must be below the TANF asset limit; and
• One adult in the family, who lives in the household, meets all of the following requirements:
  o Is employed;
    For the EAP, this must be full-time employment defined for a one-parent family as 128 hours or more per month or 85 hours for a single parent with a child under six; and defined for a two-parent family as 150 hours or more per month or 236 hours when the family receives federally funded child care. For a two-parent household, the hours required may be met by combining the work hours of both parents.
  o Due to employment, the AG exceeds the program income limit or requested the benefit be closed due to employment;
  o Received a monthly WV WORKS benefit, not solely a Diversionary Cash Assistance (DCA) payment, as a Work-Eligible Individual or was in the household as a non-recipient Work-Eligible Individual; and
  o Has a dependent child in the home.

**NOTE:** When the Case Manager determines that the AG exceeds the income limits for the continuation of services period or no longer meets the above requirements, the family is notified that the period is ending taking adverse action notification requirements into consideration. Refer to each program section in Chapter 10 for action needed on reported changes when verification is not returned.

**Employment Support Options Example 1:** Ms. Heather receives WV WORKS for herself and her two children. She marries a man who is employed and his earnings close the case effective April. The six-consecutive-month period begins on May 1 and ends October 31. In August, the family requests support services to fix the husband’s car. Even though the family is within the continuation of services period, the request must be denied. The household is not eligible for either of the employment support options because the working adult has not received WV WORKS.

**Employment Support Options Example 2:** Mr. Balsam has been receiving WV WORKS for himself and his two children. He acquires some equipment and begins his own lawn service. He begins receiving income from his business and requests that his benefit be closed. He reports his weekly income and the Case Manager determines that he is working the equivalent of 15 hours per week. Since he is a single parent with a child under six, he must be working at least 20 hours to qualify for EAP, but he is still eligible to receive support services through the support services option after he signs the DFA-WVW-15.
Employment Support Options Example 3: A husband and wife receive WV WORKS for their four children. The 16-year-old child quits school and moves out on his own effective October. He starts working at a fast-food restaurant in October and requests support services to help maintain his employment. Even though he is within the time frame for receipt of employment support services and is working, he is ineligible for either program because he was not included in the AG as an adult and there is no dependent child living with him.

Employment Support Options Example 4: Rose receives WV WORKS for herself and her two children. She is working part-time and marries a man who is working full-time. Counting his income makes the AG ineligible for WV WORKS effective November. She signs the DFA-WVW-15 and opts to receive employment support payments. The six-consecutive-month period begins December 1 and continues through May 31.

In February, the husband has a wreck and they request support services to repair the vehicle. He meets all of the requirements except he was not a WV WORKS participant. However, because the wife was working and was a Work-Eligible Individual, she meets all of the requirements, so the family qualifies for support services to repair his vehicle.

18.22.2 DETERMINING THE CONTINUATION OF SERVICES PERIOD

The post-employment services eligibility period begins the month after the effective month of closure and continues through the end of the sixth month. Case management services must be provided throughout the continuation of support services or employment assistance period. However, only cases eligible for WV WORKS support service payments or EAP must remain in the WV WORKS caseload.

Determining the Continuation of Services Period Example 1: A WV WORKS AG is first closed effective November. Mr. Birch chooses the Support Service Payment option. He receives support service payments for transportation for December and January. In March, he begins riding with another employee and support service payments for transportation stop. The employee who was providing transportation to the participant leaves his job in April and Mr. Birch has no reliable transportation to get to work. The Case Manager and Mr. Birch agree to repairs to the vehicle he drove before he began carpooling. He receives a support service payment for repairs and begins receiving transportation payments again in late April. In June, his car needs new brakes and he requests help to pay for the repairs. His six consecutive months ended on May 31 so his request for payment must be denied. Transportation payments also end in May.
Determining the Continuation of Services Period Example 2: An AG is closed effective May 30 due to the receipt of a lump sum payment. At the time of closure, it is determined that the family will remain ineligible for WV WORKS through September. The family has already spent all of the lump sum payment by the end of June. The parents reapply for WV WORKS in June and are denied. In July, the mother and father both begin working part-time. They both request support services in July to help with transportation. Neither is eligible because the family remains in a period of ineligibility due to receipt of the lump sum payment. They ask for assistance again in August and September and remain ineligible for support services. In October, they again request assistance, although their period of WV WORKS ineligibility is over, they are ineligible to receive support payments because they do not meet the eligibility requirements since closure reason was not due to employment.

For participants who choose the Employment Assistance option, the EAP payments must be stopped before adverse action in the final month so that no payment is issued for the next month. Advance notice requirements apply. The Case Manager must update the eligibility system.

18.22.3 SUPPORT SERVICE PAYMENTS

Although the participant must actually request support services and apply for a support payment prior to the issuance of the payment, it is the Case Manager’s responsibility to ensure that the participant is aware he is eligible for continued support service payments and inform the participant of the services available. The Case Manager must note in the eligibility system that the individual has opted to receive support service payments and place the DFA-WVW-15 into the case record. The decision is binding for the post-employment period.

The Case Manager is responsible for identifying or for soliciting from the participant his statement of need.

All support service payments for the post-employment services period must be entered in the eligibility system by the last work day in the month following post-employment services closure. Payment may be made in the month after post-employment services closure for expenses from the final month of post-employment eligibility. Payment may not be made for any expenses from the month following post-employment closure.
All requests for continued support service payments must be made on application form DFA-SS-2. Multiple payments of the same type of support service require a DFA-SS-2 for each payment. Multiple payments of different types of support services may be requested using one DFA-SS-2 form.

\textbf{EXCEPTION: Payments for transportation require completion of a DFA-TS-12. Families choosing the support service option are eligible for support service payments relating to employment only.}

### 18.22.3.A Application Form, DFA-SS-2

Form DFA-SS-2 may be completed in a face-to-face interview, mailed, scanned, faxed, or left at the front desk to give to the Case Manager. A supply of these forms must be available to the participant without having to see a Case Manager. It is suggested that a supply of forms be provided to the participant to mail in as needed. Any additional information may be obtained by telephone or by mail.

Except for ongoing transportation needs, the Case Manager is required to talk to the participant prior to acting on the DFA-SS-2 to confirm the identity of the person making the request and to discuss the need for the payment. Failure to be available at a pre-determined time for these confirmations does not result in application of a sanction; it results only in denial of the requested payment.

\textit{NOTE: Although non-recipient Work-Eligible Individuals are not included in the AG, they are eligible to receive continued support services and payments as long as they meet all other eligibility requirements.}

### 18.22.3.B Participant Notification, DFA-WVV-NL-3

If any support service payment is issued to, or on behalf of the participant, the participant is sent a notice at the end of that month that identifies all payments made to the participant, or on behalf of the participant. This letter is automatically generated and sent from the eligibility system.

If payment is denied the participant must be notified using form DFA-WVV-NL-3.

The Case Manager must issue this notice upon denial and provide a narrative explanation of the
reason the payment is denied, in terms the participant can easily understand.

**Participant Notification Example 1:** A non-recipient Work-Eligible individual’s family last received WV WORKS in January and applies for payment for vehicle repairs in August.

The Case Manager includes the following statement in the letter:

Your last WV WORKS benefit was for January. Payments may be made to former WV WORKS participants for only six months after the last benefit. Since you applied for the payment in August, you are not eligible to receive this payment. Your eligibility for these payments ended in July.

**Participant Notification Example 2:** Crocus, a former participant, last received WV WORKS four months ago. Five months ago, her youngest child turned 19.

The Case Manager includes the following statement in the letter:

Our records show that Ficus is your youngest child and he turned 19 on ____. Since he is now an adult, you do not meet the requirement of having a dependent child in your home.

Under no circumstances is it correct to give or mail a DFA-WVW-NL-3 to a participant without a narrative Case Manager-composed explanation of the reason for the denial.

The DFA-WVW-NL-3 offers the participant the right to a Fair Hearing on this denial and must be mailed or given to the participant with a Hearing request form.

**NOTE:** Continued support service payments are made to those who exhaust 60 months receipt of TANF if an adult in the household was employed during the 60th month of receipt and they otherwise meet the qualifications in this section.

---

**18.22.4 EMPLOYMENT ASSISTANCE PROGRAM (EAP)**

The Employment Assistance Program allows the employed former WV WORKS participant to continue to receive benefits through a 100% earned income disregard for the post-employment period following WV WORKS closure.

EAP recipients must continue to cooperate with the Bureau for Child Support Enforcement (BCSE) and child support must continue to be redirected while receiving the EAP payment.

Additions to the AG after the EAP has begun do not increase the EAP payment amount. The unearned income of the added individual(s) must be considered. Home visits and self-
sufficiency evaluations are not required during the EAP period.

The Case Manager must explain that EAP payments count against the 60-month time limit for receiving TANF and explain the effect of the EAP on other benefits the family may receive.

The family may decide at any time during the post-employment period that they no longer wish to receive the EAP payment and may not receive support service payments instead. Once the EAP is discontinued, no additional EAP may be issued unless the individual is found eligible for a new post-employment period.

While receiving EAP, the employed parent must be placed in an employment activity in addition to the EAP. The other parent in a two-parent household must be enrolled in the EAP and may be enrolled in any other activity they are participating in.

All support service payments for the post-employment services period must be entered in the eligibility system by the last work day in the month following post-employment services closure. Payment may be made in the month after post-employment services closure for expenses from the final month of post-employment eligibility. Payment may not be made for any expenses from the month following post-employment closure.

**EXCEPTION:** When a participant’s hours are reduced by the employer to below what is required for EAP, the participant may receive support services for the remainder of his original post-employment period only when the following conditions are met:
- He remains over income for WV WORKS benefits; and
- His hours were reduced through no fault of his own.

Once the participant has chosen the EAP benefit and has signed the DFA-WVW-15, the Case Manager must update the eligibility system to lock in the post-employment period. If the participant reports a reduction of hours or a job loss and no longer meets the requirements of Section 18.22.1, then the Case Manager must adjust the months of eligibility in the eligibility system to end the EAP benefit. The Case Manager enters the last month of EAP eligibility, taking adverse action deadlines into consideration.

**NOTE:** This program is not available to participants who will reach their 60-month time limit within the post-employment period of eligibility.

---

### 18.22.4.A Projecting Hours of Participation in the EAP

The hours of participation for participants in the EAP may be projected for up to six months. The number of hours projected are based on the 30 days of pay stubs or signed wage statements.
from the employer. These hours may be used to project the participant’s hours for up to the six-month limit, unless the Case Manager becomes aware of a change or the participant reports a change in circumstances that requires recalculation. The pay stubs or wage statements must be from the preceding 30-day period and may include hours for which the participant was paid, but did not work, including paid leave and paid holidays. If the wage statements/pay stubs available are not representative of continuing circumstances, the actual hours must be reported each month by using a time sheet, employer’s statement, or pay stubs and participation hours are not projected. See Section 4.5.1 for WV WORKS budgeting methods.

**Projecting Hours of Participation Example:** Ms. Juniper has been receiving WV WORKS for 15 months. She obtains employment and requests that her WV WORKS benefits be closed for February. The Case Manager receives an employer’s statement that Ms. Juniper is expected to work 30 hours per week. She chooses to receive the EAP and signs the DFA-WW-15. The Case Manager enters 128 hours monthly in the eligibility system for each of the following six months. Any car repair payments, insurance, transportation or bonuses are issued through the EAP component.

### 18.22.4.B Calculating the EAP Benefit Amount

**Step 1:** Add the countable unearned income of the AG and any disqualified person(s). The resulting amount is the countable income.

The amount of child support pass-through is excluded as unearned income for EAP. See Section 4.5.2.B.

**Step 2:** Determine the maximum WV WORKS benefit amount for the AG size, using Chapter 4, Appendix A.

**Step 3:** If the amount arrived at in Step 1 equals or exceeds the amount in Step 2, the AG is ineligible.

If the amount arrived at in Step 1 is less than the amount in Step 2, the AG is income eligible and the amount from Step 1 is subtracted from the amount in Step 2.

**Step 4:** Subtract any repayment amount from the amount remaining. This amount is found in the eligibility system. The result is the EAP benefit amount. The Case Manager must send an email to the Repayment Investigator (RI) for his county so the repayment amount will be credited to the participant’s account.

**Calculating the EAP Benefit Amount Example:** Mr. Rose was eligible for a WV WORKS benefit of $340, but was receiving a payment of $306 due to a
A repayment amount of $34. When calculating his EAP benefit amount, $34 is subtracted in Step 4 and an email is sent to the RI for that county.
APPENDIX A: GRIEVANCE RIGHTS FOR REGULAR EMPLOYEES OF CWEP, JOIN AND EMPLOYER INCENTIVE PROGRAM

A.1 DEFINITION

The Department of Health and Human Resources (DHHR) acknowledges that CWEP, JOIN, EIP, and ESP work assignments shall not:

- Result in the displacement of currently employed Case Managers, including partial displacement such as a reduction in hours of non-overtime work, wages, or employment benefits;
- Impair existing contracts for services or collective bargaining agreements;
- Result in the employment or assignment of a participant or the filling of a position when any other person not supported under this program is on layoff from the same or a substantially equivalent job within the same organizational unit, or when an employer has terminated any regular employee or otherwise reduced its workforce with intention of filling the vacancy so created by hiring a participant whose wages are subsidized under this program;
- Shall not infringe in any way upon promotional opportunities of persons currently in jobs not funded under this program; and
- Shall not result in the filling of any established unfilled position vacancy by a participant assigned to the WV WORKS program. (This applies to CWEP and JOIN only.)

A.2 PROCEDURES TO FOLLOW IN ORDER TO RESOLVE REGULAR EMPLOYEE GRIEVANCES

- The grievance must be filed within 90 days of the date that the perceived displacement occurred.
- Each worksite will be provided with Employee Grievance Posters and grievance procedures and forms. The posters shall be placed in locations conspicuous to employees.
- The procedures for resolving complaints by regular employees or their representatives that a work assignment of a WV WORKS participant violates the above prohibition are as follows:
Step 1: The grievant attempts to resolve the complaint with his/her immediate supervisor within two (2) days of the alleged occurrence. A conference or hearing can be held. The supervisor shall give a written response to the grievant within three (3) days. The grievant may accept the decision or proceed to:

Step 2: The grievant requests a review from the employer within two (2) days. The employer gives a written response to the grievant within five (5) days. Grievant accepts the decision or proceeds to:

Step 3: Written WV WORKS Grievances form is forwarded by the employer within two (2) days to the local WV WORKS Supervisor. The WV WORKS Supervisor will forward the grievance form to the DHHR Hearing Officer within two (2) days of receipt of the form from the employer. The Hearings Officer will generally render a decision within fifteen (15) days. The Case Manager will record case comments for the participant’s statement concerning the date, and will also record why it cannot be reasonably anticipated.

Step 4: The decision of the Hearings Officer may be appealed by the grievant within 30 days after the receipt of the Hearings Officer’s decision. The appeal must be sent to the:

Office of Administration Law Judges
U.S. Department of Labor
Vanguard Building
Room 600
1111 20th Street, N.W.
Washington, D.C. 20036

The Appeal Shall Contain:
- The full name, address and telephone number of the appellant;
- The provisions of the Statute or regulations believed to have been violated;
- A copy of the original complaint filed by the appellant with the State; and
- A copy of the State’s funding and decision regarding the appellant’s complaint.

The Office of Administrative Law Judges will request the following from the Hearings Officer:

- Upon receipt of an appeal the Office of Administrative Law Judge shall request from the State agency and the State shall, within 30 days of such request, certify and file with the Office of Administrative Law Judges the entire administrative record of the matter under appeal. The DHHR shall send copies of this record to the Assistant Secretary for
Employment and Training and the Assistant Secretary for Family Support at the addresses set forth in Step four of this section.

- Upon receipt of the above information, the Assistant Secretary for Employment and Training shall review the record and through the Office of the Solicitor of Labor, file, if appropriate, a brief or a report with the Office of Administrative Law Judges for that office’s consideration. DHHR and the Assistant Secretary for the Family Support may also file a report with the Office of Administrative Law Judges.

- The decision of the Office of Administrative Law Judges outlined in Step four of this section shall be the final decision of the Secretary of Labor on the appeal.
APPENDIX B: GRIEVANCE RIGHTS FOR CWEP AND JOIN PARTICIPANTS WITH RESPECT TO ON-THE-JOB WORKING CONDITIONS, WORKERS’ COMPENSATION COVERAGE AND WAGE RATES

B.1 DEFINITION

The Department of Health and Human Resources acknowledges that CWEP and JOIN participants will have the right to request a Grievance with respect to:

- On-the-job working conditions which include:
  - Employment or training be related to the capability of the participant to perform the tasks on a regular basis, including physical capacity, skills, experience, family responsibilities and place of residence.
  - The total daily commuting time to and from home to the work or training site to which the participant is assigned shall not normally exceed two (2) hours, not including the transporting of a child to and from child care, unless a longer commuting distance and time is generally accepted in the community, in which case the round trip commuting time shall not exceed the generally accepted community standards without the participant's consent.
  - No participant shall be required, without his or her consent to remain away from his or her home overnight.
  - The conditions of participation are reasonable, taking into account in each case the proficiency of the participant and the child care and other supportive service needs of the participant.
  - For training to be appropriate, the nature of the training shall meet local employers' requirements so that the participant will be in a competitive position within the local labor market. The training must also be likely to lead to employment which will meet the appropriate working conditions identified above.
  - Health and safety standards. Participants are subject to the same health and safety standards established under State and Federal law, that otherwise apply to other individuals in similar assignments.
  - Non-discrimination. No persons shall be discriminated against on the basis of race, sex, national origin, religion, age or handicapping condition, and all participants will have such rights as are available under any applicable Federal,
State or local law prohibiting discrimination.

- Workers’ Compensation And Tort Claims Protection
  - Each participant must be covered by Workers' Compensation

- Wage rates used in calculating the hours of participation for CWEP

### B.2 PROCEDURE TO FOLLOW RESOLVE A CWEP OR JOIN PARTICIPANTS GRIEVANCE

- The grievance must be filed within 90 days of the date that the perceived infraction occurred.
- At the time of the placement each CWEP or JOIN participant will be advised of their right to the Grievance Procedure.
- The procedure for resolving complaints by CWEP or JOIN participants or their representatives that a work assignment of a CWEP or JOIN participant violates the above prohibitions are as follows:

**Step 1:** The grievant attempts to resolve the complaint with his/her immediate supervisor within two (2) days of the alleged occurrence. A conference or hearing can be held.

The supervisor shall give a written response to the grievant within three (3) days. The grievant may accept the decision or proceed to:

**Step 2** The grievant requests a review from the employer within two (2) days. The employer gives a written response to the grievant within five (5) days. Grievant accepts the decision or proceeds to:

**Step 3** Written JOBS Grievance for is forwarded by the employer within two (2) days to the local WV WORKS Supervisor.

The Work and Training Supervisor will forward the grievance form to the DHHR Hearing Officer within two (2) days of receipt of the form from the employer. The Hearing Officer will generally render a decision within fifteen (15) days.

**Step 4** The decision of the Hearings Officer may be appealed by the grievant within 30 days after the receipt of the Hearings Officer’s decision. The appeal must be sent to the:
Office of Administration Law Judges  
U.S. Department of Labor  
Vanguard Building  
Room 600  
1111 20th Street, N.W.  
Washington, D.C. 20036

The Appeal Shall Contain:

- The full name, address and telephone number of the appellant;
- The provisions of the Statute or regulations believed to have been violated;
- A copy of the original complaint filed by the appellant with the State; and
- A copy of the State’s funding and decision regarding the appellant’s complaint.

The Office of Administrative Law Judges will request the following from the Hearings Officer:

1. Upon receipt of an appeal the Office of Administrative Law Judge shall request from the State agency and the State shall, within 30 days of such request, certify and file with the Office of Administrative Law Judges the entire administrative record of the matter under appeal. The DHHR shall send copies of this record to the Assistant Secretary for Employment and Training and the Assistant Secretary for Family Support at the addresses set forth in Step four of this section.

2. Upon receipt of the above information, the Assistant Secretary for Employment and Training shall review the record and through the Office of the Solicitor of Labor, file, if appropriate, a brief or a report with the Office of Administrative Law Judges for that office’s consideration. DHHR and the Assistant Secretary for the Family Support may also file a report with the Office of Administrative Law Judges.

3. The decision of the Office of Administrative Law Judges outlined in Step four of this section shall be the final decision of the Secretary of Labor on the appeal.
APPENDIX C: INSTRUCTIONS FOR COMPLETING DFA-EIP-1

An DFA-EIP-1 must be completed for each individual placed into the Employer Incentive Program (EIP). Group contracts are not acceptable. In addition, all agreements must be negotiated and signed by all parties prior to the initial start date. Payment to the employer will be based on the hours of work shown on the appropriate time sheet.

Section I

WV DHHR Office Address: Local DHHR Office address and telephone number

Agreement Number: Authorized Representative: Person authorized by employer to sign EIP Agreement

The agreement number shows agreement, the State Fiscal Year, the county number and the sequential agreement number for that county

**Agreement Number Example:** EIP-06-01-05 is for Fiscal Year 2006 (06), Barbour County (01), sequential EIP Agreement number 5 (05)

Participant Name: Name of person being assigned

Social Security Number (SSN): Participant’s SSN

PIN: Participant’s PIN

Section II

Employer: Names of Employer

Address: Address where reimbursement is to be mailed and phone number.

Vendor Number: Assigned by fiscal office

FEIN: Federal Employer TAX Identification Number

Worker’s Comp Number: Employer’s Worker’s Compensation Number
### Chapter 18

#### Section III

<table>
<thead>
<tr>
<th>Effective EIP Training Dates:</th>
<th>Date the placement is to begin and the estimated ending date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Employer’s Product or Service:</td>
<td>The business in which the employer is engaged</td>
</tr>
<tr>
<td>Payment Schedule:</td>
<td>Monthly itemized invoice. EIP payments are made monthly upon receipt of the OFS-TS-12 or other appropriate time sheet</td>
</tr>
</tbody>
</table>

#### Section IV

Identify the total fixed price the EIP Agreement cannot exceed. Enter the dollar amount the Agreement cannot exceed. (Example: $5.15 x 200 ÷ 50% = $515.00)

#### Section V

Signatures: Enter signatures, titles, date signed

#### Section VI

Location and Person in Charge: Enter the location of the placement and the person in charge

Statement of Employer’s Need for EIP: A brief statement of the Employer’s need for the EIP is to be entered here. (If additional space is needed attach a separate sheet of paper.)

Job Description: A brief job description is to be entered here. (If additional space is needed attach a separate sheet of paper or the OFS-JO-1 may be used.)

#### Section VII

Concurrence of the Collective Bargaining Agent: If the occupation is subject to collective bargaining, enter the name, title and union affiliation of the bargaining representative.

#### Section VIII

General Provisions to the EIP Agreement: The employer’s authorized representative must read this section. His signature signifies that these conditions will be followed.
APPENDIX D: INSTRUCTIONS FOR COMPLETING TRAINING AGREEMENT DFA-TA-34

An DFA-TA-34 must be completed for each individual placed into a jobs skills/vocational training activity. The agreement must be negotiated and signed by both parties prior to the enrollee/participant training start date. Invoices for payment will be on the training facility’s regular invoice form or letterhead. Invoices should be submitted to correspond with Part V of the agreement payment schedule. Payments will be made via RAPIDS supportive service to the provider for the cost of the course. Expenses incurred by a participant will be completed according to instructions in Chapter 24. An original and one copy of the DFA-TA-34 is to be completed. The original should be filed in the participant’s case record with the second copy being given to the contractor. If desired, the WV WORKS Supervisor may also keep a copy in an office file.

D.1 INTRODUCTION

- Contract Number- The contract or agreement number is entered here. Each WV WORKS Unit is responsible for maintaining a register of numbers to avoid duplication in the numbering system. The numbers will consist of four parts. The first part will be the letters ST which denote Skills Training. The second part will be the last two digits of the fiscal year. The third part will be the county number. The fourth part will be the number of the contract in sequence. Thus the sixth Skills Training agreement negotiated by Barbour County during fiscal year 2004 will be numbered ST-04-01-06.

- Rapid Vendor Number- Enter the RAPIDS Vendor number. The contract cannot be signed until this vendor number is recorded on the DFA-TA-34.

- Subcontractor/Authorized Representative- Enter the name of the training facility and the name and address of the individual authorized to sign the agreement on its behalf.

D.2 SECTION I

- Enter the beginning and ending dates of the training program and the number of weeks this agreement will cover.

- Registrant’s name, social security number and case number.
D.3 SECTION II

- Enter name or type of training.
- Enter number of weeks required for completion of the course.
- Enter number of hours the registrant will be required to attend each week.
- Enter the address of the facility.
- Enter the name of the person in charge of the training.
- The Subcontractor must provide a description and outline of the training to be provided which is to be attached to the DFA-TA-34.

D.4 SECTION III

- Enter the total dollar amount that the sum of the payments cannot exceed.

D.5 SECTION IV

- All costs to provide the training must be identified. (For example: books, cost of the course, etc.)

D.6 SECTION V

- Payments are to be made based on the itemized invoice provided by the Subcontractor for the expenses incurred each month.

D.7 SECTIONS VI-XIII

- The Subcontractor must read and signify by signing that these statements are understood.
D.8 CONCLUSION

- The WV WORKS Supervisor or designee signs for the WV WORKS Program. The authorized representative of the training facility signs for the Subcontractor.
### APPENDIX E: WV WORKS VOLUNTEER JOB DESCRIPTION TEMPLATE

This template should be used by the local office to determine the job description for a self-initiated Community Service volunteer placement found by the client. The Worker should obtain this information from the agency for which the participant will be working. The information may be obtained via phone or in person. A copy of this job description must be placed in the case record.

#### Agency Information

APPENDIX F: FLSA DESK GUIDE

<table>
<thead>
<tr>
<th></th>
<th>Single Parent, Child Under Age 6</th>
<th>All Family Household</th>
<th>Two-Parent Household</th>
<th>Two-Parent Household Receiving Federally-funded Child Care</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Hour Requirement</td>
<td>85</td>
<td>20</td>
<td>128</td>
<td>215</td>
</tr>
<tr>
<td>Work Components: Participation Requirements</td>
<td>85</td>
<td>20</td>
<td>128</td>
<td>215</td>
</tr>
</tbody>
</table>

The minimum monthly required core hours of 85 (Single Parent, All Family) and 128 or 215 hours/month (Two-Parent Household) are met if the calculation of the CWEP obligation hours equals less than the minimum average core hours requirement. When this occurs, the Worker must assign additional core or non-core work activities not regulated by FLSA to meet the applicable minimum total of 128, 150, or 236 average participation hours/month.

- The scheduled hours in the eligibility system must not exceed the minimum monthly participation rate requirements.
- The parent may be required on their Self-Sufficiency Plan (SSP) to participate for their FLSA computed hours, but no sanction may be imposed as long as the minimum level is met.
- The scheduled and completed hours entered for the FL component will be the same as the FLSA calculation.
- At the end of the reporting period, the Case Manager must record the actual hours completed in the CS Core component and the scheduled hours as assigned by FLSA computations are recorded as completed in the FL component.
- If the hours reported in the CS component match the hours reported in the FL component, the participant will be deemed to meet the Core participation requirements.
- The Case Manager must make thorough case comments.

19.1 INTRODUCTION

This chapter sets forth specific policy and procedures which apply to the WV WORKS School Clothing Allowance (SCA) program and the West Virginia School Clothing Allowance (WVSCA) program.
19.2 WV WORKS SCHOOL CLOTHING ALLOWANCE INFORMATION

19.2.1 APPLICATION PROCESS

The application process for WV WORKS School Clothing Allowance (SCA) is the same as for WV WORKS applicants, with the following special considerations, described below.

19.2.1.A Open WV WORKS Assistance Groups (AG) and Employment Assistance Program (EAP) AGs

When a WV WORKS or EAP AG is open before the last working day of June and benefits are issued for July, an SCA voucher for each eligible child is automatically issued to the primary person in the case. Vouchers for these cases are issued during the initial mailing in mid-July.

19.2.1.B WV WORKS Applications Approved During July of The Current Program Year

When a WV WORKS application is approved, effective on or after July 1 of the current program year, and includes a benefit for July, SCA must be requested in the eligibility system in order for vouchers to be issued to SCA-eligible children included in the AG.

The procedure for voucher issuance is as follows:

- The eligibility begin date must be no later than July 31 of the current program year to request the voucher on the benefit request screen.
- For WV WORKS AGs approved during July, and for which a voucher has been requested, vouchers are mailed on the first working day of the week following confirmation of the benefit.
- After the initial mailing, vouchers are mailed on a weekly basis on the first working day of the next week.
19.2.1.C Applications Approved after Deadline in June and Prior to Last Working Day in June of the Current Program Year

For AGs with an eligible child included and approved for WV WORKS between the June system deadline and the last working day in June, vouchers will be mailed by mid-July.

19.2.1.D The Benefit

All eligible AGs will receive vouchers only. The voucher cannot be returned for cash. The vouchers must be used at participating retailers.

AGs with one eligible child will receive two vouchers, each for one-half of the benefit amount. Households with more than one eligible child will receive one voucher for each eligible child.

Vouchers are printed with the case name and address, denomination of the voucher and the individual benefit and voucher number assigned by the data system. Up to five vouchers are mailed in each envelope. If the SCA AG includes six or more children, additional envelopes are mailed.

NOTE: Foster parents receive one check for all children in the foster home. This is handled by the Bureau for Children and Families (BCF) Office of Child and Adult Services. No Division of Family Assistance (DFA) application is necessary.

NOTE: Vouchers must be redeemed by October 31 of the program year. See Section 1.4.17.C for Categorical Eligibility for the Supplemental Nutrition Assistance Program (SNAP).

19.2.2 NOTIFICATION

Notification is required.
19.2.2.A Approvals

Instructions to the client and the Governor’s letter are included with all SCA vouchers upon approval.

19.2.2.B Denials

WV WORKS denials result in consideration of eligibility for SCA when the response to the request for SCA is “Y” in the eligibility system.
19.3 WEST VIRGINIA SCHOOL CLOTHING ALLOWANCE

19.3.1 APPLICATION PROCESS

An Application for West Virginia School Clothing Allowance (WVSCA), form DFA-WVSC-1, will be mailed to families with school-age children who received WVSCA in the previous program year and who are included in an active Supplemental Nutrition Assistance Program (SNAP) or Medicaid assistance group (AG) in June of the current program year. Active SNAP AGs who have indicated they want to be evaluated for automatic issuance of School Clothing Allowance (SCA) if determined eligible by the deadline for the current program year will not be mailed WVSCA application forms and will be included in the automatic issuance. When there is a child in the case who is less than 5 or older than 17, the eligibility system will send a DFA-WVSC-1 during the regular mass mailing. All other applicants must complete a DFA-WVSC-1, DFA-2, or use inROADS to apply for WVSCA.

19.3.1.A Application Forms

The Application/Redetermination form, DFA-2, or the Application for West Virginia School Clothing Allowance, DFA-WVSC-1, is used. When a DFA-2 is used, a DFA-WVSC-1 is not required. A DFA-2 may only be required when application is made for another benefit at the same time. Applicants may also use inROADS to apply over the internet at www.wvinroads.org. Applicants who receive their applications through the mass mailing completed in mid-June may use the information accompanying the application to electronically sign the application. Individuals submitting applications using inROADS must electronically sign the application.

19.3.1.B Requests for Applications

The Department of Health and Human Resources (DHHR) responds to requests for applications to be mailed to potential applicants and accepts applications submitted by mail. If an individual requests the application by telephone, the application is mailed on the date of the telephone call. If the individual requests the application by letter, an application form is mailed on the day the request for the application is received in the local office.
19.3.1.C  Complete Application

The application is considered complete when the client signs a DFA-WVSC-1, DFA-2, or the Document for Protection of Application Date (DFA-5), which contains, at a minimum, his name and address.

When the inROADS application is submitted with an electronic signature, the application is complete.

NOTE: This includes applications received by electronic means, such as fax, email, or scan.

NOTE: If the applicant has completed the interactive interview, and there is a technical failure that prevents printing the DFA-2, form DFA-5 must be signed by the applicant and filed in the case record with the subsequently printed DFA-2. He must not be required to return to the office to sign the DFA-2 when a DFA-5 has been signed. In this instance, the application is considered complete when the DFA-5 is signed.

For a paper application, the application is complete.

19.3.1.D  Date of Application

The date of the application is the date that the DFA-2 or DFA-WVSC-1 was submitted with at least the applicant’s name and address, or the date the electronic signature is submitted in inROADS.

If the DFA-WVSC-1 is received by mail, the date of application is the date the form is received in the local office. When the form is received prior to July 1 of the program year, it may not be processed in the eligibility system before July 1.

19.3.1.E  Interview Required

No interview is required when the DFA-WVSC-1 or inROADS is used. When the client is being interviewed for an application or redetermination for another program, form DFA-2 is used.
19.3.1.F Who Must Be Interviewed

No interview is routinely required, but when an interview is conducted, a specified relative with whom the child lives with must participate in the intake interview.

If the child is living with only one specified relative who is unable to participate in the interview, a representative may participate in the intake interview. A written statement, signed by the specified relative, which gives the representative authority to apply on his behalf, is required.

19.3.1.G Who Must Sign

The specified relative with whom the child lives must sign the DFA-WVSC-1 or submit an electronic signature.

Only one signature is required.

19.3.1.H Content Of The Interview

In addition to the requirements outlined in Section 1.2, the following specific requirements apply:

- An applicant for WVSCA only is not required to cooperate with the Bureau for Child Support Enforcement (BCSE), but must be made aware of the services and referred, if appropriate.
- An explanation of Categorical Eligibility for SNAP benefits must include that, if approved for WVSCA, the AG is Categorically Eligible until the voucher expiration date. See Section 1.4.17.C.

19.3.1.I Due Date of Additional Information

The client and the Worker agree on the date by which additional verification must be obtained. The client must be given at least 10 days to return requested additional information.
19.3.1.J  Agency Time Limits

As long as the application is made by the last day of July and the applicant returns the requested information in the time frame specified by the Worker, the WVSCA is approved, if the family is otherwise eligible. All applications must be processed by August 31. inROADS will accept applications from July 1 through July 31. Offices should make every effort to complete the applications in the order in which they are received. Applications must be processed within 30 days of the date of application.

19.3.1.K  Agency Delays

If an application has not been acted upon within the required time limit due to agency error, corrective action must be taken immediately.

19.3.1.L  Payee

The vouchers list the payee as the primary person in the case. This person must be the specified relative with whom the child lives.

19.3.1.M  Beginning Date of Eligibility

Eligibility is determined for the month of July only. When additional information is required, the applicant must return the requested information within the time limit specified on the request for verification.

The eligibility system generates vouchers in a weekly cycle when eligibility is confirmed. WVSCA AG’s confirmed on July 1 are mailed by mid-July. After that, vouchers are mailed on a weekly basis on the first working day of each week.
19.3.1.N The Benefit

All eligible AGs will receive vouchers only, and the voucher cannot be returned for cash assistance.

AGs with one eligible child receive two vouchers, each for one-half of the benefit amount. AGs with more than one eligible child receive one voucher for each eligible child.

Vouchers are printed with the case name and address, denomination of the voucher and the individual benefit and voucher number assigned by the data system. Up to five vouchers are in each envelope. If the WVSCA AG includes six or more children, additional envelopes are mailed. An instruction sheet and a letter from the Governor accompany the vouchers.

NOTE: Vouchers must be redeemed by October 31 of the current program year. The payee should take identification with them at the time the vouchers are redeemed. See Section 1.4.17.C for Categorical Eligibility for SNAP.

19.3.2 NOTIFICATION

Notification is required.

19.3.2.A Approvals

The eligibility system automatically issues an approval notice. In addition, instructions to the client and the Governor’s letter are included with all WVSCA vouchers mailed from the State Office. Approval letters must not be used in place of a voucher to purchase clothing or piece goods.

19.3.2.B Denials

The eligibility system automatically issues a denial notice.
19.4 COMMON ELIGIBILITY INFORMATION

19.4.1 COMMON ELIGIBILITY REQUIREMENTS

All appropriate WV WORKS requirements in Chapter 2 apply.

19.4.2 ELIGIBILITY DETERMINATION GROUPS

The Eligibility Determination Groups are the same as for WV WORKS. See Section 3.4.

19.4.3 SPECIFIC REQUIREMENTS

19.4.3.A Age and School Attendance

To be eligible for the WV WORKS School Clothing Allowance (SCA) or West Virginia School Clothing Allowance (WVSCA), the child must meet all of the following criteria:

- Be a resident of West Virginia, not visiting or on vacation.
- Meet the eligibility requirements or be eligible for WV WORKS for July of the current program year,
- For WV WORKS SCA only, be included in the WV WORKS benefit as a dependent child.

**NOTE:** The WV Works policy for including 18-year-olds requires that the 18-year-old be enrolled in secondary school, i.e., high school, high school equivalency, vocational training that substitutes for high school, etc. College is not secondary school. Therefore, the following apply:
- An 18-year-old in college is not eligible for the SCA.
- A 17-year-old in college meets the school enrollment requirement.
- An 18-year-old in high school meets the school enrollment requirement.
- Be enrolled in public Kindergarten through 12th grade, private Kindergarten through 12th grade that has been approved by the Board of Education, or a WV Public Prekindergarten that could be housed in a child care or Head Start center.

- Homeschooling must be approved by the county Board of Education.

An individual who is included in the assistance group (AG) as a caretaker relative is not eligible for SCA, even when he meets the age and enrollment requirements.

Minimum age requirement is met for WV Public Prekindergarten when the child will be age 4 by July 1 of the program year. Kindergarten age requirement is met when the child will be age 5 by July 1 of the current program year.

Maximum age requirement is met when the child is not yet age 19 on July 1 of the current program year.

The following activities are not considered school enrollment:

- Nursery School
- Correspondence or internet courses

School enrollment for children ages five through 17 is presumed by the eligibility system. Children who have attained the age of five by July 1 of the current program year are assumed to be enrolled in kindergarten. West Virginia State law also permits four-year-olds who will attain the age of four by July 1 of the current program year to enroll. The statement of a parent or other specified relative is sufficient and no other verification is required to document enrollment.

The eligibility system will provide a voucher for any four-year-old enrolled when the system shows an enrollment status of full-time, less than half-time, or half-time.

NOTE: A five-year-old not enrolled in kindergarten is not eligible for the SCA just because the eligibility system presumes enrollment. Since so many five-year-olds are enrolled, the choice was to include five-year-olds and make those not enrolled the exceptions. The eligibility system should indicate if the five-year-old is not enrolled.

NOTE: See below for instructions on how to return the vouchers when the child is not eligible.

The instruction sheet directs the SCA payee to return the voucher(s) when the child is not enrolled in school, is no longer in the home, or will not be returning to school.
19.4.3.B Requirements Specific to WV WORKS Eligibility and Diversionary Cash Assistance (DCA) Clients

An applicant determined eligible for a WV WORKS payment is not required to accept the benefit to receive WVSCA. An applicant who does not wish to receive WV WORKS may withdraw his application and apply only for WVSCA.

An applicant who is approved for DCA for a time period that includes July is not automatically eligible for SCA. The DCA household must apply for WVSCA and be determined eligible.

19.4.4 REFUGEES AND CITIZENSHIP

The noncitizen and refugee requirements for WV WORKS in Chapter 15 apply.

19.4.5 INCOME

All WV WORKS income requirements in Chapter 4 apply. No deductions or disregards are applied. For SCA, income eligibility is based only on the month of July, the program month. When income has been previously verified within the last two months, additional income verification is not required. If appropriate, income must be updated in the eligibility system. If the gross non-excluded income is equal to or greater than 100% of the federal poverty level (FPL), the family is ineligible for WVSCA.

19.4.6 ASSETS

There is no asset limit for SCA or WVSCA.
19.4.7 POTENTIAL RESOURCES

For WV WORKS SCA, all appropriate WV WORKS resource development requirements in Chapter 8 apply.

There are no potential resource requirements for WVSCA.

19.4.8 VERIFICATION

All appropriate WV WORKS verification requirements in Chapter 7 apply.

19.4.9 CORRECTIVE ACTION

Procedures regarding issuing vouchers that were not automatically generated or not issued due to an incorrect birth date, relationship code, enrollment status, or when a child enters the household after SCA or WVSCA issuance can be found in the SCA Desk Guide issued for the current program year.

Corrective action is required in the following circumstances:

- When, as a result of Departmental error, the WV WORKS client did not receive the WV WORKS benefit and, therefore, no SCA;
- When the error is due to an incorrect birth date in the eligibility system;
- When an SCA-eligible child is added to an active WV WORKS AG after SCA vouchers have been issued;
- When a WVSCA-eligible child is added to a case after WVSCA vouchers have been issued;
- When the primary person changes after issuance but before the voucher is redeemed; or
- When an eligible child comes under the parental control of another responsible adult that is not a member of the household, before the voucher is received.
When the payee changes after issuance, but before the voucher is redeemed, and the new responsible adult is not the payee on the voucher, the Worker must use the SCA Payee Change Form, DFA-SCA-3, to identify the new payee. This form is completed by the Worker and sent with the client to the participating retailer. The SCA Payee Change Form may also be faxed to the retailer. This form grants permission for the merchant to allow a person other than the payee named on the voucher to redeem the voucher.

When a client returns clothing purchased with an SCA or WVSCA voucher, he must not receive a cash refund or store credit. He must exchange for purchases allowed by the SCA or WVSCA program.

### 19.4.10 OVERPAYMENT OF SCA

When SCA or WVSCA is received in error, it is subject to repayment according to the WV WORKS repayment policy. If the Worker learns, for example, that a child is no longer in the home or that a child who is a caretaker relative has received SCA or WVSCA, the overpayment of SCA or WVSCA must be repaid.

Whenever possible, repayment of the overpayment must be accomplished by the return to the local office of the voucher(s) for which the client was not eligible. Vouchers which are returned by the client must be voided and forwarded with a DFA-SCA-1 to:

- Bureau for Children and Families (BCF)
  - Office of Operations
  - 350 Capitol Street, Room 730
  - Charleston, WV 25301

Otherwise, normal repayment procedures apply. The following sub-sections outline actions which are taken to recover an overpayment by returning the voucher.
19.4.10.A Client Returns All Vouchers

- The Financial Clerk gives the client a receipt for the vouchers and returns the vouchers to BCF Office of Operations with a completed DFA-SCA-1.
- The vouchers are returned by completing the necessary steps in the system.
- If appropriate, the Worker takes action to correct the case.
- The Worker records comments in case comments to document case activity.
- The Worker must release, re-mail, or cancel the returned vouchers in the system.

19.4.10.B Client Returns a Portion of the Vouchers

- The Worker asks the client to return the number of vouchers to which he was not entitled.
- The Financial Clerk issues a receipt to the client.
- The Financial Clerk attaches a completed form DFA-SCA-1 and forwards the vouchers to BCF Office of Operations.
- The vouchers are returned by completing the necessary steps in the system.
- The Worker records information in case comments to document the return of the voucher(s).
- The Worker must release, re-mail, or cancel the returned vouchers in the system on the release/re-mail voucher screen.

19.4.11 VOUCHER REPLACEMENT

Outlined below are situations in which the SCA or WVSCA vouchers may be replaced. If replaced prior to September 30 of the current program year, this may be done in the eligibility system. For replacements after September 30, the Worker must contact the DFA Family Support Policy Unit for additional instructions. Agency error and hearings are the only reasons corrective action may be taken after December 31 of the program year.

NOTE: For corrective procedures for vouchers issued to an incorrect payee see above.
Situations not addressed below, or any situations that arise after October 31 of the current program year, must be sent to the Division of Family Assistance (DFA) Family Support Policy Unit for an evaluation of a replacement on a case-by-case basis.

19.4.11.A Undelivered or Damaged Vouchers

If a voucher is stolen or lost in the mail prior to receipt, the Worker must secure an affidavit of loss (form DFA-SCA-2) from the client and issue the replacement voucher through the eligibility system.

Only the following situations result in a replacement SCA or WVSCA voucher and must be documented in the eligibility system:

- The voucher was not delivered by the United States Postal Service (USPS). The Worker must check for postal return status before replacement.
- A voucher that was incorrectly voided by a vendor may be replaced after the client returns the voided voucher to the local office. The local Financial Clerk’s office returns it to the BCF Office of Operations and the Worker requests new vouchers through the eligibility system.
- Vouchers completely destroyed in a disaster, such as a house fire or flood, may be replaced if verification of the disaster is provided.
- When the voucher is torn, water damaged, etc., to the extent that a vendor will not accept it, the voucher may be replaced. The remnants of the voucher must be brought to the local office and returned to BCF Office of Operations. The Worker issues the replacement through the eligibility system.

Instructions on procedures to replace the vouchers are found in the eligibility system user guide.

19.4.11.B Vouchers Returned to BCF Office of Finance and Administration

NOTE: The worker does not have to wait for notification or receive an alert to replace vouchers in these situations. The worker must not issue the amount to be replaced from Emergency Assistance funds.
Vouchers which cannot be delivered by the USPS are returned to the BCF Office of Finance and Administration State Office. In this situation, the following will happen:

- The Worker will receive a voucher returned alert.
- The Worker will update the case with the correct address if needed.
- The Worker will release, re-mail, or cancel the SCA voucher on the release/re-mail special payment screen in the system.
- The State Office Clerk will then take the requested action.

After two instances of postal return of the voucher, the voucher must be mailed to the local office and picked up by the payee. Postal returns with an out-of-state forwarding address must be canceled and must not be forwarded.

19.4.11.C Application Denial Is Reversed in a Fair Hearing

When a Hearings Officer rules in a Fair Hearing that the SCA or WVSCA denial was inappropriate, the Worker must issue the vouchers to the applicant.

19.4.11.D Agency Delay/Error

If an application has not been acted on within the required time limit due to agency delay/error, corrective action must be taken immediately if the applicant is eligible. The Worker must issue the vouchers to the applicant. However, the Worker must first contact the DFA Family Support Policy Unit for additional information.

19.4.11.E Destroyed Clothing Purchased With Vouchers

When clothing that has been purchased with vouchers is destroyed, such as in a house fire, replacement vouchers cannot be issued. Instead, Emergency Assistance policy concerning replacement of clothing is followed if the AG is otherwise eligible.
19.4.12 VENDOR INFORMATION

To become a registered vendor for SCA or WVSCA, contact:

   BCF Office of Operations
   350 Capitol Street, Room 730
   Charleston, WV 25301

The BCF Office of Operations is responsible for paying vendors who accept vouchers.

APPENDIX B: SCHOOL CLOTHING ALLOWANCE PROGRAM

INSTRUCTIONS

WV DEPARTMENT OF HEALTH AND HUMAN RESOURCES WEST VIRGINIA
SCHOOL CLOTHING ALLOWANCE PROGRAM

INSTRUCTIONS

(Please read carefully before using vouchers.)

You should receive vouchers for each of your eligible school-age children. If you do not, please contact your Worker in your local Department of Health and Human Resources Office as soon as possible.

Vouchers can be used only for the purchase of your children’s clothing and shoes. If you sew, you may purchase materials appropriate for making clothing.

All of your vouchers do not have to be used in the same store. You cannot, however, use part of a voucher in one store and the rest of the same voucher in another store.

If you purchase less than the amount of a voucher, the remainder cannot be refunded to you. Store policy will apply when your selections exceed the value of the voucher.

Make your selections and present the voucher to the clerk or store manager. You will be asked to sign the statement on the voucher certifying that you have received these purchases.

You must present the entire voucher at the store. Do not separate the form.

ALL VOUCHERS MUST BE USED BY THE EXPIRATION DATE PRINTED ON THE FORM.

# 20.1 DEFINITIONS

## AVAILABLE RESOURCES
Cash-on-hand, checking or savings account balances or other readily accessible funds not already obligated for food, shelter, or home heating.

## BULK FUEL
Home heating or cooking fuel such as coal, fuel oil, liquefied petroleum gas (LPG), or kerosene which must be purchased in certain quantities and stored on site.

## BURIAL RATE
The maximum allowable payment that the Department of Health and Human Resources (DHHR) will make toward the cost of a funeral.

## CASH
For the purposes of Chapter 20, funds or money in the form of currency or any negotiable instrument that is in the possession of the applicant or any member of the assistance group (AG) at the time of application.

## ELIMINATE THE EMERGENCY
Delaying or preventing the emergency from occurring for a period of not less than 30 days from the date the vendor is made aware of and accepts the DHHR’s offer.

## EMERGENCY
Being without or in immediate danger of being without a basic necessity, such as food, shelter, heat, etc., and having no available resources with which to obtain it.

## FAMILY
For the benefits covered in Chapter 20, a group of two or more persons related by birth, marriage, or adoption who live together.

## TIME LIMITATION
The federally-mandated requirement that Emergency Assistance (EA) can be authorized just once to an eligible client for emergency situations during one 30-consecutive day period in any 12 consecutive months.
20.2 EMERGENCY ASSISTANCE

20.2.1 INTRODUCTION

The Emergency Assistance (EA) program is used to assist individuals and families in meeting a financial crisis when they are without available resources. EA is designed to provide short-term emergency financial assistance with which eligible individuals and families may obtain certain items or services needed to eliminate an emergency or crisis. Those who are in need of and qualify for EA may already be participating in an economic or social service program.

Individuals and families who receive EA may also be in need of and be eligible to receive regular ongoing medical, financial and/or social services from the Department of Health and Human Resources (DHHR).

As contained in the provisions under Title IV-A, as established by Section 406(e) of the Social Security Act, federal matching funds are available to assist families with eligible children under the age of 21 who are destitute because they are without immediate resources to meet their needs.

20.2.2 GENERAL ELIGIBILITY REQUIREMENTS

20.2.2.A Emergency Need Requirement

An applicant who meets the definition of being faced with an emergency need is one who:

- Is faced with an existing or imminent crisis of a nature that threatens the physical health, safety, and well-being of the applicant and his family; and
- Is without available resources with which he can immediately eliminate an existing crisis or prevent an imminent crisis.

When the applicant fails to meet either or both requirements indicated above, the application is denied. See Specific Items of Need in Section 20.2.4 for specific requirements.
20.2.2.B Time Limitation

EA can be authorized during one period of 30 consecutive days in any 12 consecutive months. Payments may be made to meet needs which arose before this 30-day period or needs which may extend beyond the 30 day period. The first day of the 30 day period of eligibility begins with the date the first Authorization for Payment (DFA-67) is approved for payment and ends 29 days later.

This limitation does not mean that only one item of need may be authorized during one period of 30 consecutive days in any 12 consecutive months. The applicant may request and be found eligible for more than one item of need during that period. However, when the applicant reapplies during the 30-day period of eligibility for an item of need for which he has already received the maximum allowable payment, the application is denied.

**Time Limitation Example:** Mr. Ivy made an application for EA on May 5, 2016, because he received a notice of eviction for June 1, 2016. His application was approved and the DFA-67 was approved on May 6, 2016. Later, he returns on June 1, 2016 to request food and payment of a utility bill. Mr. Ivy is found eligible for payment of both items of need. He is not eligible to receive an additional authorization for EA until May 7, 2017.

20.2.2.C Time Limitation Exception

The time limitation policy applies only to authorizations for EA. If an application is denied or withdrawn, the applicant may receive an authorization for EA within twelve months provided he meets the eligibility requirements. The eligibility system maintains a control for all EA applications.

**NOTE:** The only exception to this is when the applicant qualifies for EA based upon natural or man-made disaster, and/or fire. See Emergency Needs Created by Natural or Man-Made Disasters in Section 20.2.2.N.

**NOTE:** EA applicants can receive Title IV-A funded benefits from only one program, either EA or Homeless, during one 30 consecutive day period in any 12 consecutive months.
20.2.2.D Residency and Citizenship

An applicant for EA must be a resident of West Virginia with the exception of transient individuals. See Specific Items of Need in Section 20.2.4 for specific requirements. The applicant must also be a United States (U.S.) citizen, a national of the U.S., or an eligible noncitizen (qualified noncitizen) as defined in Section 15.7.

20.2.2.E Assistance Groups (AG) Subject to a Penalty

When the applicant is a member of an AG for which any DHHR program benefit was reduced, denied, or closed because of a penalty for fraud, non-cooperation, or failure to pursue potential resources, the applicant and members of that program’s AG are ineligible to receive EA.

In making this determination, the following guidelines apply:

- The applicant and members of the EA AG must have been an applicant for or client of the DHHR’s program that was reduced, denied, or closed.
- The other DHHR program AG is in a penalty period at the time the application for EA is made.
- This policy applies to all other DHHR programs that apply penalties for non-cooperation, fraud, or failure to pursue potential resources.

NOTE: The above stated guidelines include all WV WORKS sanctions. AGs subject to WV WORKS sanctions are ineligible for EA only during the first three months of the sanction.

NOTE: For Supplemental Nutrition Assistance Program (SNAP) penalties, the AG is only ineligible for EA during the first three months of the penalty.

NOTE: For Medicaid penalties, the AG is ineligible until the day the failure to cooperate ceases.

When any of the situations described above exist, the AG is ineligible to receive EA until the penalty period ends or action is taken to pursue potential resources. This policy does not apply
to applicants who are denied because of failure to provide required information to establish eligibility.

In addition, this policy does not apply to persons who are excluded by law and are ineligible to receive benefits. See Section 3.2 for specific information about individuals excluded by law for SNAP. These individuals may apply in their own right for EA benefits.

---

20.2.2.F Income

---

20.2.2.F.1 Income Policy

The Worker must determine availability of income to the applicant and all other members of the AG. All countable gross income received by any member of the AG, beginning with date of application and ending 29 days later, must be counted in determining eligibility for EA.

When considering countable income to determine eligibility, the Worker must use the following guidelines:

- Verification must be requested for the following:
  - Income that has not been verified in the 30 days prior to the date of application; and
  - Changes in income.
- The total countable gross income of all members of the AG is compared to the Monthly Allowable Income Schedule in Appendix A.
- Income received prior to the 30-day period of consideration is an available asset if retained in the 30-day period of consideration.

**NOTE:** When an AG is determined income eligible and is authorized for payment, the AG is considered to be eligible as of the date of authorization and for the next 29 days. Income eligibility is not redetermined within that period if the AG identifies an additional item of need. AGs who were determined ineligible for payment must have their eligibility redetermined each time they reapply until determined eligible.
20.2.2.F.2  Determination of Countable Income

Income Exclusions

The following sources of income are excluded for determining eligibility for EA:

- All student loans, grants, scholarships, and college work study programs.
- Any payments made to volunteers under Title II, Retired Senior Volunteer Program (RSVP), Foster Grandparents, Title III SCORE and AmeriCorps Community Enrichment Programs (ACE), and other programs of the Domestic Volunteer Service Act of 1973.
- Payments, allowances, or reimbursements for participants in programs administered by the Corporation for National and Community Service (CNCS) These programs may include, but are not limited to: ACTION, Action Programs, AmeriCorps, Sumer Youth Programs, University Year of Action, Urban Crime Prevention Program, Volunteers in Service to America (VISTA), and VISTA ACTION.
- Payments under the Alaskan Native Claims Settlement Act.
- Any payments received or funds held in trust for members of any Indian tribe under Public Laws: 98-64, 97-458, 98-123, and 98-124 referred to as "Indians Judgment Funds." Also, any funds from payment of relocation assistance to members of the Navajo and Hopi tribes under Public Law 93-531.
- Payments to Nazi Persecution Victims, which may include, but are not limited to: Austrian Social Insurance Payments, German Reparations payments or the Netherlands WUV payments.
- Payments from the Radiation Exposure Compensation Trust Fund.
- Payments from the Senior Companion Program funded under Title XX.
- SNAP benefits.
- The value of supplemental food program for Women, Infants, and Children (WIC) Public Law 94-105.
- Japanese-American and Aleutian Restitution payments.
- North Vietnam – Department of Defense payments to certain persons captured or interned.
- Payment, allowances, or reimbursements for transportation and attendant care costs Under Title VI of the Rehabilitation Act of 1973, Title II, and Public Law 95-607.
- Payments from Community Service Employment Program (CSEP) as authorized under Title V of the Older Americans Act.
- Income tax refunds and rebates.
- Reimbursement for expenses incurred in connection with employment and/or training, limited to mileage, tools and clothing.
- Reimbursement for medical expenses or transportation costs incurred to obtain medical treatment.
- Grants and loans from the U.S. Department Housing and Urban Development (HUD) Community Development Block Grant Funds made to individuals to rehabilitate their private residence.
- All Workforce Innovation and Opportunity Act (WIOA) payments, except those considered as wages for on-the-job training.
- Victim Compensation Payments.

➢ **Income Deductions**

The only income deductions permitted are for those persons who are self-employed. After the Worker determines the amount of gross income to be received by the AG within the next 29 days after the date of application, 25 percent is deducted from the gross amount as the cost of doing business. The remainder is countable income which is compared to the income chart.

Self-employment consists of persons who receive regular income from self-employment or in a service type business, persons involved in seasonal self-employment, cash-crop farmers, and persons who care for other persons such as, but not limited to, personal care and adult family care.

➢ **Total Countable Income of the Assistance Group**

The total countable income of the entire AG must be considered, regardless of when the income is actually received in the 30-day period of income consideration.

**Countable Income Example 1:** An individual who made application on November 1 received a paycheck on October 31 and will receive another paycheck on December 1. These two paychecks are not considered countable income. Only income received between November 1 and November 30 is considered as countable income. Any income received prior to the date of application and retained in the 30-day period may be considered an available asset.
Countable Income Example 2: An individual makes application for EA on November 1. His anticipated countable income exceeds the maximum, but will not be received until November 15. His emergency will occur on November 10, but he is ineligible because his income exceeds the maximum.

The Worker must use care in determining the actual dates the income is to be received.

20.2.2.G Assets

In determining eligibility for EA, the Worker must evaluate the availability of assets owned by members of the AG.

20.2.2.G.1 Excluded Assets

The following assets owned by AG members are excluded and not considered potentially available to eliminate or prevent the emergency:

- Homestead real property.
- Property which is producing income consistent with its current market value (CMV).
- Proceeds from the sale of a home or insurance received as a result of a destroyed home, when these proceeds are to be retained for the purchase or rebuilding of a new home or for repairs to a partially destroyed home.
- Assets not readily available because of legal proceedings.
- Burial trust fund up to $2,000 for each person in the AG.
- General household belongings such as furniture, appliances, clothing, etc.
- One automobile per AG.

20.2.2.G.2 Potentially Available Assets

The following assets owned by members of the AG are considered potentially available unless, as explained below, the assets cannot be converted or accessed in time to eliminate or prevent the emergency:

- Cash
• Savings and checking accounts, certificates of deposit (CDs), Christmas Clubs, and any other account in a financial institution.
• Stocks and bonds
• Livestock not being used to produce income consistent with its sale value nor house pets
• Automobile(s) when there is more than one automobile owned per AG
• Cash surrender value of life insurance policies
• Personal collections of value such as firearms, paintings, coin collections, etc.
• Non-homestead real property
• Business equipment not being used to produce income consistent with its current market value
• Recreational vehicles and equipment. See Section 5.1 for the definition. Personal recreational equipment such as toys, fishing equipment, etc., are excluded.

### 20.2.2.G.3 Determining the Availability of Assets

After the Worker determines that the applicant or any other AG member owns countable assets, he must evaluate whether such assets can actually be used in time to eliminate or prevent the emergency.

In making this evaluation, the Worker must consider the type of asset(s) involved and whether or not it can be used toward the item of need(s) in time to eliminate or prevent the emergency.

Assets, such as, but not limited to, cash on hand, checking or savings accounts, CDs or any other liquid instrument or account must be considered available as an asset and the AG is expected to use these assets toward the emergency.

Cash is defined as funds or money in the form of currency or any negotiable instrument that is in the possession of the applicant or any member of the AG at the time of application.

Income received prior to the date of application, and still available at the time of application, is considered cash. The Worker may request verification such as receipts or verbal statements that such cash is unavailable for use toward the emergency.

**Cash Example 1:** A member of the AG receives a $400 paycheck the day before the application date. This paycheck is not counted as income; however, the Worker can request verification of how much of the $400 is available in the form

---

**NOTE:** The application is denied if members of the AG refuse to use this asset.
of cash. If the Worker determines that cash is available, the member must use the cash toward the amount required to eliminate the emergency.

Cash must always be considered an asset and must not be confused with income. However, the Worker must make sure that the AG is not faced with an additional emergency as a result of using the asset toward the emergency.

**Cash Example 2:** The applicant reports having $75 cash at the time of application. He has requested payment of an overdue electric bill and submitted a termination notice in the amount of $75. The Worker must deny the application for the electric bill because the cash must be used to pay the bill. However, the Worker must determine that the applicant is not faced with an additional emergency need during the 30-day period as a result of using the cash to pay his electric bill.

**Cash Example 2.1:** Using the example above, if the applicant states that he has budgeted $50 of the $75 for food for the next 30 days and will be faced with a food emergency if he uses it for the electric, the Worker will only consider $25 as available toward the emergency.

> **Non-Liquid Assets**

Assets such as recreational vehicles, non-income producing livestock, and business equipment usually must be sold and converted into cash to use toward the emergency.

The Worker must consider the following guidelines before he requests that the applicant convert a non-liquid asset into cash:

- Can the asset be converted into cash?
- If the AG makes a reasonable effort to pursue this action, will the resource be available in time to prevent an imminent emergency or immediately eliminate an existing emergency?

After giving careful consideration to the guidelines above, the Worker must decide whether or not to request a conversion of the AG’s assets.

When the applicant or AG member is required to convert his assets to cash, he must receive a reasonable return or the fair market value rather than just the amount needed to eliminate or prevent the emergency.

---

**NOTE:** "Reasonable effort" is defined as the AG actively attempting to convert the asset into an available resource to eliminate or prevent an emergency.
If the AG member agrees to convert the asset, but fails in his attempt to do so, the Worker may request that he verify his attempt.

**NOTE:** *The application must be denied if the AG member fails to cooperate in the conversion of non-liquid assets.*

---

### 20.2.2.H Available Community Resources

Meeting the emergency needs of individuals and families without resources is a responsibility for the community in which they reside. This includes all social welfare related agencies and certain individuals within the community.

**20.2.2.H.1 Role of the DHHR**

The DHHR will assume a major role in meeting the emergency needs of eligible applicants through emergency financial assistance funds and/or referral of the applicant to other agencies or individuals within the community that have available resources which can prevent or eliminate the emergency.

In some communities, arrangements have been made for cooperative efforts between the DHHR and other community agencies in meeting emergency needs. Such arrangements should be maintained and similar efforts established in other communities where they currently do not exist.

**20.2.2.H.2 Worker Responsibilities**

In evaluating the referral of an applicant for EA to a community resource, the Worker must determine that the resource is available to the applicant and will eliminate or prevent the emergency. In some situations, the applicant, after being referred to a community resource, may be required to make application for benefits from the agency to which he was referred. However, the Worker must consider the resource available until the applicant is refused or found ineligible to receive the benefits for which he applied.

The Worker must follow up with the applicant and/or the agency to determine if the benefits were actually received. If the agency or individual to which the applicant was referred cannot
eliminate or prevent the emergency, even through a cooperative effort with the DHHR, the Worker uses EA funds, provided all other eligibility factors are met. When a referral is made to a community agency, the Worker cannot make a final decision on the application until it is determined that the applicant actually received the benefits and that the emergency was eliminated or prevented.

When a referral is made to a community agency, the Worker must provide the following written notification to the applicant:

"You are being referred to (name of agency or person) to pursue potential assistance to alleviate any need you may have for Emergency Assistance. If you do not receive assistance or the amount of the assistance fails to eliminate your emergency, please contact (name of local office) by (month, date and year) for a decision on your application."

The date entered on this notification must be within three days of the date of the application. The date of the application is counted as the first day. A copy of this notification must be retained.

When the emergency need is met by community resources, the application is denied.

### 20.2.2.H.3 Applicant Responsibilities

All applicants for EA must cooperate in a reasonable manner by accepting a referral to a community resource in order to eliminate or prevent an emergency.

EXCEPTION: When the community resource is likely to be a friend or relative of the applicant or a church he attends, permission must be obtained from the applicant before the Worker may contact this resource. This procedure gives consideration to the applicant's privacy.

All applicants who are referred to a community resource, but who do not receive the resource, must contact the Worker by the due date on the referral notification form.

Based on his knowledge of the applicant's capability, the Worker is required to make judgment on whether or not the applicant can follow through with a referral to community resources.

The Worker should not refer an applicant to a community resource if he is unable because of illness, physical or mental handicap, lack of transportation, etc., to follow through with the referral. However, the applicant is expected to take any action necessary to follow through with the referral, provided he is capable to do so.
The Worker must assist the applicant by contacting the receiving agency to make an appointment, if appropriate. In addition, the Worker must provide any other instructions, as appropriate, including directions to the agency's location, information needed for the application process, person to be contacted, etc.

Any applicant who is capable, yet refuses to cooperate or follow through in a reasonable manner when referred to an available community resource, is denied EA.

20.2.2.I  Other DHHR Benefits

If there is an indication that the applicant may be eligible for Medicaid and/or SNAP, the Worker must explore this as a way to eliminate or prevent the applicant's emergency. WV WORKS must not be used to eliminate or prevent the applicant's emergency.

If the applicant is found eligible for Medicaid or SNAP and he can obtain the benefits in time to prevent the emergency, the applicant is expected to accept this as a resource instead of EA. If the applicant refuses to cooperate, his application for EA is denied.

If the applicant is eligible for Medicaid and/or SNAP, but cannot obtain this assistance in time to prevent the emergency, the Worker completes the EA application and authorizes payment if the applicant is found eligible.

20.2.2.J  Referrals to Office of Children and Adult Services

Individuals who request EA are often in need of other services administered by the Bureau for Children and Families (BCF) Office of Children and Adult Services. However, the client's refusal to accept ongoing services is not considered in determining the client's eligibility for EA.

**Referral Example:** The Worker has determined a client is eligible to receive EA and that the client is in need of money management counseling. The Worker may offer to refer the client, but the application is not denied if the client refuses the referral.
20.2.2.K Work Stoppage and Strikes

The fact that the individual is participating in a work stoppage is not considered when determining eligibility for EA. All applicants for EA who are voluntarily or involuntarily participating in a work stoppage or strike are evaluated as any other applicant.

20.2.2.L Specific Eligibility Requirements for Federally-Matched EA (Title IV-A)

If an AG meets certain eligibility requirements, a percentage of the cost of emergency financial assistance will be reimbursed to the DHHR by the U.S. Department of Health and Human Services (HHS). The DHHR may receive this reimbursement for any AG which includes children under the age of 21, providing the child lives with a specified relative.

Special coding in the eligibility system is required.

20.2.2.M Defining the Elimination of the Emergency/Vendor Refuses to Eliminate the Emergency

“Eliminate the Emergency” is defined as delaying or preventing the emergency from occurring for a period of not less than 30 days from the date the vendor is made aware of and accepts the DHHR’s offer. The client must be informed of this so there is no misunderstanding about how long the emergency will be delayed. This time period is most important for rent and utilities. The client must be informed that the DFA-67 voucher must be taken to the vendor without delay, if applicable.

When the client is otherwise eligible for or approved for EA, yet the vendor refuses to eliminate the emergency, payment must be denied to the vendor. This may occur when the vendor is not satisfied with the amount of payment. Payment is not made to any vendor who refuses to eliminate the emergency.

If payment has already been made to the vendor, reimbursement must be requested from the vendor. If the vendor refuses to reimburse the DHHR, a fraud summary must be completed and sent to Investigations and Fraud Management (IFM). The client must locate a new vendor with assistance from the Worker, if necessary. When a vendor refuses to eliminate the emergency, the application is denied only when another vendor cannot be located by the applicant and/or Worker to eliminate the emergency.
20.2.2.N  Emergency Needs Created by Natural or Man-Made Disasters

Natural disasters are catastrophic events and are limited only to floods, high winds, severe electric storms, earthquakes, hail, blizzards, heavy snowfall, and sub-zero temperatures.

Man-made disasters are catastrophic events and are limited only to fire, explosions, falling objects, exposure to toxic elements such as gas, chemicals or other poisonous substances and dangerous situations created by automobile, airplane, and train crashes.

In order to be eligible for payment, the emergency need must have been created by any of the catastrophic events referred to above.

When an applicant requests EA as a result of a fire that has destroyed the applicant’s living quarters, the Worker must verify through a collateral contact with the local fire department that the fire did occur and that the item of need was destroyed.

When an applicant requests EA as a result of natural or man-made disaster, the Worker must determine, as in any application for EA, the existence of resources available to the applicant prior to the approval and authorization for payment of the request for assistance.

The Worker must determine whether or not insurance benefits are available prior to the authorization of EA. In addition, the Worker must determine that disaster related resources through such agencies as HUD, Red Cross, Community Services Administration, Rural Housing Service, Federal Emergency Management Agency (FEMA), Volunteer and other local organizations, etc., are not available prior to the authorization of EA.

When such resources are available, the Worker must refer the applicant to these resources. The Worker, therefore, provides a referral service to eliminate or prevent an emergency.

When an area or locale has been declared a disaster area and Federal and/or State aid is forthcoming, but not immediately available to eliminate emergencies, the Worker must carefully evaluate the nature of the applicant's emergency to determine if the Federal and/or State aid will eliminate or prevent the emergency.

If the Worker feels that authorization for payment of EA must be made, he must obtain verification of need through a collateral contact with the responsible local agency or person who is in charge of assessing the damages or loss to the community.

Applicants who have received EA within the last 12 consecutive months, including the current month of application are not denied EA as a result of natural or man-made disasters if they are otherwise eligible for such benefits. However, EA payments are made from 100 percent state funds.
20.2.3 APPLICATION PROCESS

20.2.3.A Application Forms

20.2.3.A.1 DFA-2 and DFA-EA-1

These forms are used for all EA applications. See Section 1.3 for use of the DFA-2 forms and the proper use of the DFA-5 form.

20.2.3.A.2 DFA-RR-1

The sections of this form titled “Emergency Assistance” and “For All Programs” must be completed and signed, when using the DFA-2. The DFA-RR-1 is not required when using the DFA-EA-1. See Section 1.3.

20.2.3.A.3 Completion of Form DFA-6 and/or Verification Checklist

When the Worker does not have sufficient information to make a decision, it is necessary to complete Form DFA-6 or verification checklist to inform the applicant of the additional information needed. All requests for verification must be made using the DFA-6 form and/or verification checklist.

The Worker must clearly state on the form what items must be returned by the applicant, as well as the date by which the information must be returned.

The failure to return information or the return of incomplete or incorrect information that prevents a decision from being made on the application will be considered failure to provide verification and will result in a denial of the application.
20.2.3.B The Intake Interview

The Worker must conduct the intake interview for the purpose of obtaining a thorough knowledge of the applicant's current financial situation, determining if the applicant meets the EA eligibility requirements, and determining the specific item(s) of need for which he is requesting payment.

The time limitations must be explained to the applicant during the intake interview. When the applicant is not currently receiving any type of assistance from the DHHR, the Worker should give particular attention to the possibility of the applicant's eligibility for regular financial assistance, Medicaid, and/or SNAP. The intake process ends when the Worker has gained sufficient information from which he can make a decision on the application.

20.2.3.C Who Must Complete the Application

The person who applies for EA must be an adult AG member, preferably one in whose name the bills are listed or the adult who handles the financial matters of the AG. In most situations, this person is the head of the household or the person who has accepted responsibility for and is knowledgeable about other members of the AG.

When the person who should apply for benefits is unable or unwilling to do so, the Worker must determine if someone else appointed by the AG in writing can apply for the AG. The Worker must consider the nature of the crisis and if a suitable person is available to apply.

20.2.3.D The AG

The AG consists of one or more persons who live together. One exception to this is when a person pays for the privilege of living in the household. In this situation, that person and his income are not considered in determining eligibility of the AG. However, the payment made to the AG is counted as income of the AG.

AG members receive a communal benefit from the EA payment. This means that everyone in the group benefits from the payment, even when payment is made for such items as pharmacy or medical treatment for an individual. The AG must include at least one member who has not benefited from an EA payment during the last 12 months to be eligible for payment.

**AG Eligibility Example:** Ms. Cedar was a member of an AG that received an EA payment. Six months later, she is a member of another AG who has not received
EA. The second AG applies for EA and is approved, if otherwise eligible, because not all members have received EA.

---

### 20.2.3.E Action on the Application

The Worker must approve or deny the application in the eligibility system. A decision must be made on all applications as soon as possible, if the emergency currently exists, or prior to an imminent emergency but no later than three business days from the date of application.

**Action on the Application Example 1:** An applicant submits a notice of termination from a utility provider on Monday which states that the service will end in five days. A decision must be made on the application no later than Wednesday. The date of application is counted as the first day.

**Action on the Application Example 2:** An individual applies for payment of a utility bill on Friday. He does not have the notice of termination to verify the emergency and is given a DFA-6 by the Worker to submit the termination notice no later than Tuesday. The applicant fails to submit the notice. The Worker must make a decision on Tuesday. In the absence of verification, the application is denied. The applicant may reapply immediately.

---

### 20.2.4 SPECIFIC ITEMS OF NEED

The following section describes the specific eligibility requirements of the various emergency needs and services provided by the EA program. Verification requirements and instructions for determining the amount of payment are also included.

Only the items listed below qualify as items of need for EA.

A description of the maximum allowable payment for each item is included. The AG is not automatically eligible for the maximum allowable payment when other resources are used with the EA payment or when the amount required to eliminate the emergency is less than the maximum allowable payment amount. Applicants who refuse to accept the benefit which is offered by the DHHR are denied.

Since the EA program, administered by the Division of Family Assistance (DFA), and the Homeless Program, administered by the Office of Children and Adult Services, offer the same or similar services, it is important to define the relationship between these two programs in order to best serve the client in the most efficient manner.
“Homeless” applicants who are referred to the EA must be:

- Facing or in immediate danger of becoming homeless; or
- Homeless transients for which transportation arrangements to their communities are incomplete; or
- Applicants rendered homeless because their living quarters have been destroyed.

All other applicants who are identified as homeless using the definition provided in Chapter 33,000 of the Social Services Manual, are referred to the Homeless Program. That definition of homeless is when a person does not have access to nor the resources to obtain shelter.

Clients receiving benefits from one program as identified above shall not be eligible for concurrent benefits from the other.

20.2.4.A Shelter

The applicant must be a resident of West Virginia.

A tenant-landlord relationship must have existed for payment of rent on behalf of applicants who are facing eviction. This relationship exists when rent or room and board payments are made by the applicant to the landlord or family who are the original tenants. Payment must be cash or in-kind.

The maximum allowable payment for the AG is determined at the time of application and remains the same during the 30-day period of eligibility. Therefore, when the AG is found eligible for more than one shelter payment within the 30-day period of eligibility, the original maximum allowable payment cannot be exceeded.

20.2.4.A.1 Rent

 applies to homeless applicants. See Applicants Who Are EA Eligible Homeless below.

Applicants Facing Eviction

The applicant must provide verification that a legal notice of eviction or wrongful occupation has been filed with the local magistrate. The hearing will typically be scheduled seven to 10 days from the date the notice is served. The client must be encouraged to apply before the hearing date to avoid further legal action. This includes action taken against mobile home owners who are forced to vacate their rental space.
If the client does not apply until after the hearing and must vacate the residence, alternative housing must be explored, if the client is otherwise eligible. If he is rendered homeless before the date of application, he is not eligible for EA and must be referred to the Homeless Program.

**NOTE:** Applicants facing eviction due to condemnation of their property must provide a legal notice of eviction from the appropriate authority condemning the property. Appropriate authorities include, but are not limited to, Health Departments or the State Fire Marshall’s Office.

### Applicants Facing Eviction from a Motel or Hotel Room

In addition to the requirement of a legal notice of eviction or wrongful occupation, the applicant must have paid for lodging at the hotel or motel for at least 30 days prior to the date of the notice.

### Applicants Who Are EA Eligible Homeless

The definition of EA eligible homeless shall include only the following circumstances:

- Homeless transients for which transportation arrangements to their communities are incomplete; or
- Applicants rendered homeless because their living quarters have been destroyed.

The Worker must obtain the following types of verification to substantiate this situation:

- A collateral contact with the appropriate local agency or responsible person who is responsible for making damage assessment of destroyed living quarters.
- Verification of homeless stranded transients may be obtained through a collateral contact with the appropriate agency or responsible person in the community.

### 20.2.4.A.2 Mortgage

When the applicant is faced with foreclosure because of delinquent mortgage payments, he must verify his emergency by submitting a signed statement from the lending institute that indicates imminent foreclosure. The term "mortgage" is used here to define payments made by the applicant for his home or mobile home with the intent of obtaining ownership of such property.
20.2.4.A.3 Overnight Lodging

Authorization for payment of overnight lodging is only made for homeless applicants as defined in Applicants Who Are EA Eligible Homeless above.

The Worker must thoroughly explore available resources, such as alternate temporary housing with friends and relatives. The Worker must obtain permission from the client to pursue such resources.

When resources of this type are not available, payment is made only pending the completion of a plan for permanent housing.

The plan for permanent housing must include how the transient will complete his travel arrangements and how applicants who are homeless will obtain permanent housing.

20.2.4.A.4 Determining the Amount of Payment

➢ Rent

▪ Eviction, Lockouts and Homeless

Regardless of the type of shelter or the time unit by which it is being paid, the maximum allowable payment for shelter cannot exceed:

- One month of rent when the client pays on a monthly basis, or
- Four weeks of rent when the client pays on a weekly basis, or
- Thirty days of rent when the client pays a daily rate.

▪ Delinquent Rent

Depending on the number of months the rent is delinquent, the Worker will proceed as follows:

- One Month Only: In this situation, the Worker will authorize payment for the appropriate amount to the vendor (landlord) for one month of rent. No dollar limit is placed on the value of one month's rent since amounts vary considerably.

- More than One Month: In this situation, the Worker, before authorizing payment, must evaluate the existence of alternate housing for the applicant. The existence of alternate housing facilities must fulfill all of the following guidelines:
When the above conditions exist, the Worker will negotiate with the present landlord to obtain the least possible payment to eliminate or prevent the eviction.

The Worker must use care in handling this type of situation. Available alternate housing must exist before such negotiations are initiated. Factors affecting the alternate housing, particularly the cost, availability, etc., must be thoroughly evaluated. When alternate housing does exist, the Worker may add the cost of a reasonable deposit to the amount of rent to be authorized not to exceed one month’s rent.

**NOTE:** When alternate housing does not exist for individuals who are more than one month delinquent in their rent payments, the Worker may offer payment to avoid the eviction up to a maximum of two month’s rent to the original landlord.

As indicated above, no limits are placed on the amount of one month’s rent. If either the landlord or client refuses to make arrangements to pay the remaining balance of rent to the landlord, the application is denied.

**Examples**

**Delinquent Rent Example:** Mr. Geranium and his family are facing eviction. Mr. Geranium is delinquent for five months’ rent at $150 per month. The landlord is demanding the total rent bill of $750 to be paid. Satisfactory alternate housing for Mr. Geranium and his family is available for $160 per month. The Worker will offer the landlord $160 toward the total delinquent rent of $750 with the remainder of the rent ($590) to be worked out between landlord and Mr. Geranium. If the landlord refuses to accept this payment, the Worker will authorize payment of $160 to the new landlord of the alternate housing. If the present landlord accepts the payment of $160 toward the delinquent rent bill, it must be understood that the landlord and Mr. Geranium will make the arrangements regarding payment of the remaining balance.

**Eviction Example 1:** Ms. Magnolia, an applicant, has an eviction notice and was paying $50 per month for rent. She is not behind in her rent, but can no longer live there. Ms. Magnolia has found an apartment for $550 a month and also needs a $550 deposit. The Worker has determined that a customary amount for
rent in the area is $250 per month. The landlord does not accept HUD. This is not considered acceptable alternative housing as it does not approximate the current living quarters in cost and is considered an unreasonable amount for the area.

**Eviction Example 1.1:** Same situation as above except the landlord does accept HUD. Once Ms. Magnolia is approved, her rent will be $100 per month. This is acceptable alternative housing as it does approximate the current cost and is a reasonable amount for the area.

➢ **Security and Damage Deposits**

When alternative housing is used, the Worker will authorize payment for one month of rent and a reasonable security and/or damage deposit, if necessary, to the landlord when suitable housing is obtained.

**NOTE:** A reasonable security and/or damage deposit is defined as the amount that is customary to the community up to, but not exceeding, the amount of one month of rent.

➢ **Mortgage**

The Worker must contact the lending institution and first offer payment of the past due interest, not to exceed the total monthly mortgage amount, to eliminate the emergency.

If the lending institution refuses to prevent foreclosure, the Worker may offer payment of both interest and principal or the total monthly mortgage amount for a maximum payment of one month.

The procedure of alternate housing is not used when the foreclosure of a mortgage is involved. However, if the applicant becomes homeless, as a result of actual foreclosure, the Worker must evaluate his eligibility for an emergency rent or overnight lodging payment as in any homeless applicant situation when the client and his family are EA Eligible Homeless.

➢ **Overnight Lodging**

The Worker authorizes payment to the facility at the going per diem weekly or monthly rate up to a maximum of one week of lodging.
When overnight lodging must be extended beyond one week, alternate temporary housing must be explored. If alternate temporary housing cannot be arranged, Supervisory approval must be obtained for payment beyond one week, up to a maximum of 30 days.

---

20.2.4.B Utilities and Bulk Fuel

---

20.2.4.B.1 Services Covered

The payment of utility services included under the EA program include those services needed by the AG for heating, cooking, lighting, and sanitation. Telephone service is included only when the AG is in need of telephone service because everyone living in the home is 65 years of age or older, or is disabled or temporarily incapacitated for at least the next 30 days. See Section 13.15.

---

20.2.4.B.2 General Requirements

Payment may be authorized for clients who are without utility services or who face imminent termination of these services. When a utility service, other than telephone service, has been disconnected, the application for EA must be made within 30 days of the date the service was terminated to meet the emergency need requirement described in Section 20.2.2.A. Supervisory approval is required to make an exception to this requirement when the AG is otherwise eligible and the service has been terminated for more than 30 days. Exceptions may only be granted on a case-by-case basis when the extenuating circumstances warrant it. These include, but are not limited to, delayed application due to illness or disability, and other situations that are beyond the client’s control.

In determining whether or not the applicant is eligible for payment of utility services, the following requirements must be met:

- The applicant must submit a written notice of termination from the provider that indicates a specific date on which the service was or will be terminated, and the amount of the overdue bill; or

- The applicant must submit a written statement from the provider, such as fuel oil, bottled gas, or coal company, that indicates no future orders will be filled; and

**NOTE:** An electronic notice may be accepted in place of termination notice or written statement from the provider.
The utility services must be in the name of the applicant or a member of the AG except, in the following situations:

- When the Worker determines that the utility service is not in the name of the applicant or AG member because that person is deceased, has left the household with no intention to return, or the applicant is unable to pay the security deposit; or
- The Worker determines that the utility service is in the name of the landlord, mobile home park owner/manager, etc., this person becomes, in effect, the utility provider. Therefore, the applicant must obtain a written notice of termination as specified above from this provider.

- The service address must be in West Virginia.
- When the water and sewage is billed separately, it is legal for the supplier to terminate water service for the non-payment of sewage even when the water bill is current. In these situations, a notice of termination for water service may be submitted by the applicant for an overdue sewage bill. This is accepted as verification of the emergency.

### 20.2.4.B.3 Determining the Amount of Payment

In determining the amount of payment, the Worker must consider the following:

- The type of utility service being requested for payment.
- The amount of the overdue utility bill which covers a billing period up to 30 days.
- The average daily amount of the overdue bill when the overdue billing period exceeds 30 days.
- Reconnection charges required by the utility provider when the service was terminated in the 30 days prior to the date of application.
- Service charges required by the utility provider to start service in new living quarters when the applicant moved to new housing due to eviction, fire, condemnation, etc., or some other emergency that has forced the applicant to move.

**NOTE:** Utility deposits are not included as an item for payment by the EA program.

- Late fees added to delinquent or overdue payments are considered as part of the overdue bill and are not deducted from the overdue bill when computing the average daily amount.
- Payments made by the client in an attempt to reduce or eliminate the overdue bill are not deducted from the ongoing overdue bill when computing the average daily amount.
• The amount of any one-time payment, such as from the Low Income Energy Assistance Program (LIEAP) or a community agency made or that will be made, but not yet credited to the account, is not deducted from the ongoing overdue bill when computing the average daily amount. It is subtracted from the minimum payment due before determining the amount the DHHR will pay through the EA program. The Worker must inform the company of the pending payment from the other source and determine if this will prevent the emergency. If so, the EA application is denied. However, the receipt of EA does not affect eligibility for Emergency LIEAP.

• Regular monthly payments made on behalf of the client from other agencies, plus reductions from the 20% utility discount program are deducted from the ongoing overdue bill before computing the average daily amount.

➢ Payment Amount for Gas, Electric, Water and Sewage

**NOTE:** Sewage utility service does not include garbage pick-up service.

When the client is eligible to receive payment for any of the utility services indicated above, the Worker must consider the following:

• When the overdue amount covers a billing period up to 30 days, the Worker shall authorize payment for the 30-day amount to the vendor.

• When the overdue amount covers a billing period greater than 30 days, the Worker determines the average daily amount of the overdue bill. The average daily amount multiplied by 30 days is the maximum amount of the EA payment. Utility bills often have an overdue amount and an amount labeled "due." The "due" amount is not considered for payment nor is this amount used to calculate the amount of the payment.

**Payment Amount Example:** An applicant submits an overdue utility bill in the amount of $235 which accumulated over a period of 93 days. Since the overdue bill is over 30 days, it is necessary to determine the average daily amount multiplied by 30 days. The amount of payment is computed as follows: $235 divided by 93 days = $2.53 x 30 days = $75.90.

The Worker must explain to the applicant that payment may be made up to the calculated maximum amount. The Worker must contact the utility provider to determine if this payment will eliminate the emergency.

The Worker must inform both the applicant and the provider that payment of the remaining balance must be worked out between the provider and the applicant. The Worker is not involved in these negotiations.
• When the overdue amount has a Budget Accrual Reconciliation or Settlement amount, this is the amount of a bill in excess of the monthly budget bill which accumulates during the length of the budget period, usually 12 months. The client is responsible for paying that amount of the total annual bill not covered by the monthly budget payments.

The amount of payment is determined by dividing the number of days over which a budget overrun occurred into the total amount of the overdue budget settlement bill. It is necessary to contact the utility company to determine the number of days in which overruns occurred, unless the applicant can supply this information.

If the utility company or the applicant cannot or refuses to provide this information, the total number of months in the entire budget period is used to determine the amount of payment.

The length of the budget period is usually 365 days unless information otherwise is obtained.

Complicating this procedure are situations in which the overdue budget settlement bill is combined with or added to a routine overdue bill on the same notice of termination. In these situations, the amount of the overdue budget settlement bill must be separated from the amount of the routine overdue bill. A daily average is then determined for each overdue bill in excess of 30 days. The two amounts are multiplied by 30 and the two are added to determine the amount of payment.

**Overdue Bill Example:** The total amount of the overdue bill on the termination statement is $235.50. The overdue budget settlement bill is $85.50. Budget overruns occurred during 243 of the 365 day budget period.

The regular overdue bill is $150, accumulated over a period of 45 days.

**Computation of overdue budget bill:**

\[ \frac{85.50}{243} \times 30 = 10.50 \]

**Computation of regular overdue bill:**

\[ \frac{150.00}{45} \times 30 = 99.90 \]

The amount of payment is $110.40 ($10.50 + $99.90).

• When the applicant has made a partial payment(s) toward the original overdue bill, the Worker must consider the following:
  - The average daily cost of the original overdue bill must first be computed.
  - The average daily cost multiplied by 30 equals the maximum amount of payment.

**Partial Payments Example:** An applicant submits an overdue utility bill in the amount of $211.72. This bill was the remainder of an original overdue bill which
accumulated over a period of 183 days and totaled $296.73. The applicant made a partial payment of $85.01 which left a balance of $211.72.

$296.73 divided by 183 days = $1.62 average cost/day.

$1.62 x 30 = $48.60 maximum amount of payment.

**NOTE:** When the utility bill balance remaining after the applicant has made a partial payment is less than the average cost/day times 30 days, that is the payment amount.

➢ **Payment Amount for Telephone Service**

When an applicant meets the criteria for telephone services, the Worker authorizes payment only for basic charges for up to 30 days, plus federal tax. Payment is not authorized for long-distance calls, wires, or other special services. There is no time limit for disconnected telephone service when the requirements in Section 20.2.4.B.1, Services Covered, above are met. However, eligibility for the telephone assistance programs in Sections 20.5 and Section 20.6 must be explored first.

➢ **Payment Amount for Bottled Gas, Fuel Oil, Coal and Wood**

When the applicant uses energy that is not regulated by the Public Service Commission (PSC), the Worker must determine the amount of payment by referring to the chart below for a 30-day supply of fuel.

<table>
<thead>
<tr>
<th>Type</th>
<th>Unit</th>
<th>Maximum Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bottled Gas</td>
<td>Gallons</td>
<td>135</td>
</tr>
<tr>
<td>Bottled Gas</td>
<td>Pounds</td>
<td>300</td>
</tr>
<tr>
<td>Coal</td>
<td>Tons</td>
<td>1</td>
</tr>
<tr>
<td>Fuel Oils</td>
<td>Gallons</td>
<td>150</td>
</tr>
<tr>
<td>Wood</td>
<td>Cords</td>
<td>1</td>
</tr>
</tbody>
</table>

**NOTE:** A cord of wood, when neatly stacked, occupies a volume of 128 cubic feet.
When the client has an emergency need for wood pellets or any other type of bulk fuel not listed in the chart, the Worker will work with the vendor to determine a reasonable amount.

The following statement must be entered on all DFA-67 forms authorizing any type of liquid fuel: "The client must specify the correct grade and type of fuel."

When the provider refuses to make a delivery because of an existing unpaid balance, the Worker must allow the client and provider to determine what item will be paid. Payment cannot be authorized for both items. If the client and vendor agree to payment of the unpaid balance, the amount authorized cannot exceed the equivalent cost of the maximum amount of fuel shown in the chart above.

If either or both parties refuse to accept payment as outlined in this section, the application is denied.

---

### 20.2.4.C Food

Payment may be authorized for applicants who have an emergency need for food. However, in the majority of instances, emergency food needs can be met by using SNAP benefits, provided the applicant meets the eligibility requirements of SNAP. If the applicant refuses to accept SNAP as a resource to meet his emergency food needs, the application for EA is denied.

When the applicant is found eligible for SNAP, the SNAP application must be processed as soon as possible to prevent or eliminate the emergency. If the applicant needs food prior to the receipt of his SNAP benefits, the Worker may authorize payment for emergency food if the applicant is otherwise eligible.

When the applicant is ineligible for SNAP, for a reason other than failure to meet the residency requirement, the Worker will authorize payment for emergency food, provided the applicant is otherwise eligible.

When SNAP clients apply for emergency food, the Worker must carefully evaluate the reason for the request. The Worker must determine if the need was created by an unusual or catastrophic event, such as when food which was purchased with SNAP is destroyed. In this case, the Worker must first evaluate the replacement of food purchased with SNAP. See Section 12.2. If the need was created by the misuse of the benefits, the Worker must determine if an actual emergency need for food exists.

To determine the amount of payment, the Worker uses the SNAP allotments in Chapter 4, Appendix A. Only the maximum monthly allotment, based on the AG size, is used to determine
the daily food allowance. Payment may only be authorized for a maximum period not to exceed seven days.

**Food Emergency Example:** A seven-person AG is approved for SNAP benefits. The Worker anticipates the receipt of benefits in seven days. The AG has an immediate need for food and meets the eligibility criteria for EA. The Worker computes the amount of payment as follows:

**Step 1:** Determine the maximum monthly allotment for a seven-person AG.

**Step 2:** Divide this amount by 30 days to determine the daily amount.

**Step 3:** Multiply the daily amount times seven days to determine the amount of payment that may be authorized.

If the applicant cannot prepare food where he resides, authorization may be made for payment to purchase food at a cafeteria or a low-cost restaurant. This method may also be used to provide meals for a transient AG returning home.

To determine the payment, the Worker needs to consider the following:

- The maximum payment per day must not exceed the maximum monthly allotment divided by 30 days.
- The number of days for which the AG may be approved is up to, but not exceeding, seven days.
- The Worker must thoroughly discuss this arrangement with the client to ensure he understands how the funds can be used.

When the AG must use a local restaurant or cafeteria, the Worker authorizes payment to the local vendor.

When the clients are transients returning home and must use non-local restaurants or cafeterias, the Worker authorizes payment so that a check can be issued to a responsible AG member.

**20.2.4.D Household Supplies or Furnishings**

Household supplies or furnishings are considered items of need for EA only when a fire or some other man-made or natural disaster has destroyed such items. The only exception to this is when household supplies or furnishings are needed for a homeless person or family for whom the DHHR is seeking, or has located, housing. The applicant must be a West Virginia resident. Requests for non-residents must be sent to the DFA Policy Unit prior to approval.
Emergency household supplies or furnishings may include one or more of the following basic items: bedding, eating and cooking utensils, towels and linens, soap, and/or a necessary good used appliance, limited to a refrigerator or stove.

A maximum payment of up to $100 per eligible AG may be authorized to a vendor for household supplies and furnishings. Because of the limited maximum payment, the Worker must assist the client in planning his purchases wisely. The client should be discouraged from selecting convenience items rather than basic needs. The Worker must carefully evaluate the client’s actual need for the items requested.

20.2.4.E Clothing

An applicant may receive payment for emergency clothing only when his clothing was destroyed by a fire or some other man-made or natural disaster, or when a child, not yet age 18, is abandoned without adequate clothing.

A maximum payment of up to $75 per eligible AG member may be made to a vendor for clothing.

20.2.4.F Child Care

EA funds may be authorized to help an eligible AG arrange temporary child care when immediate arrangements are required.

Situations in which emergency child care may be authorized include hospitalization and/or incarceration of the parent(s), or the abandonment of children when immediate arrangements for care must be made, pending the development of a more appropriate and permanent plan.

Payment may be authorized for children from birth through age 13. Exceptions may be made by the Supervisor on a case-by-case basis to include children ages 14 – 17 to keep siblings together or when the child has special needs.

Payment may be authorized to a neighbor, friend, or relative at the rate of $1.08 per hour per child or $26 per day (24 hours) per child. Payment may be made for varying amounts of time to 24-hour care for a period not to exceed seven days.

Emergency child care arrangements must be of limited duration and only used when other approved child care plans cannot be developed in time to meet the emergency. This is to ensure protection for the children.
20.2.4.G  Transportation

Payment for emergency transportation service may be authorized as described below.

20.2.4.G.1  Transients

A transient is an individual who is traveling or passing through a locality and experiences an emergency that makes it necessary to return to his home community. The home community does not need to be in West Virginia. The definition of transient does not include individuals who are visiting within the locality or who arrived with the intent to obtain temporary to permanent employment or otherwise remain within the locality on a temporary or permanent basis. In addition, an individual who finds temporary or permanent employment within a locality, but later decides to return to his home community does not meet the definition of a transient.

A transient must be without resources with which to purchase the item or service that will enable him to return to his community. Prior to authorizing payment, the Worker must verify by a collateral contact that the transient has a place to live or that another agency will assist him to become reestablished in the community to which he wishes to return. Applications for transportation by transients must not be denied if the maximum payment does not complete the travel arrangements. However, the Worker must determine how far they can travel and whether or not there is another agency in that location to help them.

20.2.4.G.2  To Obtain Medical Assistance

Clients in need of transportation to a medical provider may obtain benefits for this purpose. Medicaid clients are not eligible when the medical service is billed to and paid by Medicaid.

20.2.4.G.3  Determining the Amount of Payment

➢ Transients

The amount of payment depends upon the type of transportation to be used and the one-way distance. However, the maximum payment cannot exceed $50 per AG member, regardless of the type of transportation used or the one-way distance.
Chapter 20

Emergency and Special Assistance Program

Payment may be authorized for the cost of gasoline, oil, and minor auto repairs for a privately owned automobile or for use of a common carrier, restricted to bus, train, or taxi.

If a common carrier must be used, payment up to $50 of the established one-way fare per AG member is made to the vendor.

If an automobile is used, payment may include mileage one way for the cost of gasoline and oil, based on the current State reimbursement rate, and minor automobile repair. The total payment for either mileage or minor repairs or a combination cannot exceed $100 per AG. Form DFA-67 is completed and made payable to the recipient. If payment is authorized only for minor automobile repairs, the check is made payable to the vendor.

➢ To Obtain Medical Assistance

Payment may be authorized for the use of a privately-owned automobile or common carrier, restricted to a bus, train, or taxi. The amount of payment depends upon the type of transportation to be used and the round-trip distance.

If a common carrier must be used, payment is made to the vendor for a round-trip fare. The cost of waiting time is included when travel from city to city is required. The client and taxi driver must be informed that waiting time is permitted only to secure medical services. When the cost of waiting time is included, the Worker must obtain a dated and signed statement indicating the rate, elapsed time, and total charges for waiting time from the taxi company. When travel within the city limits is required, the cost of waiting time is not included in the payment. The client and the taxi driver must be informed of this. Prior to authorizing payment to a common carrier, the Worker must determine that no other transportation resources are available, unless he determines that the cost of a common carrier is less.

When an automobile is used, payment is made at the State reimbursement rate for one round trip. When the transportation provider is not the client or someone who lives in the client's household, the total cost of the round trip mileage to the nearest medical facility is computed from the provider’s point of departure.

For any transportation method, the Worker authorizes payment only to the nearest appropriate medical facility.

20.2.4.H Emergency Medical Care

The cost of emergency outpatient medical care may be authorized for clients when such care is not otherwise available from resources such as Medicare, Medicaid, or any other local or state
program. The Worker must determine that these resources are not available to an applicant in time to eliminate or prevent an emergency prior to authorization.

In addition, the Worker must also consider whether the applicant may qualify for medical services from the DHHR’s medical programs.

20.2.4.H.1 Outpatient Medical Service

Specifically, this includes emergency room, emergency outpatient hospital services, and emergency outpatient physician's services. Emergency outpatient dental or oral surgery is included. A written statement signed by the attending physician is required for the approval of emergency room and emergency outpatient hospital services. When emergency outpatient physician's services are requested, a statement signed by the physician that indicates emergency treatment was rendered must be obtained. When outpatient diagnostic tests are required, the physician must specifically indicate the type of tests needed.

20.2.4.H.2 Prescription Medication and/or Medical Equipment

Emergency prescription service involves situations in which prescription medicine and/or medical equipment is needed on an emergency basis due to illness or to prevent death. This may be related to emergency outpatient medical treatment, as described above, or in situations when the individual needs prescription medicine without medical treatment.

The need for prescription medicine or medical equipment must be verified by a qualified health professional. In determining whether or not the prescription is required to prevent an emergency, the Worker may contact the attending physician or pharmacist. If this is not possible, the Worker must determine the purpose for or type of medicine and/or medical equipment being requested. If it cannot be determined from medical sources that the prescription is needed to prevent an emergency, the applicant's statement that an emergency exists is accepted.

20.2.4.H.3 Determining the Amount of Payment

➢ Outpatient Medical Services

Payment may be made for treatment or services up to, but not exceeding, a period of 30 days.
➢ Prescription Medication and/or Medical Equipment

The following describes payment amounts for prescription medication and/or medical equipment:

- Medication may be authorized for up to, but not exceeding, a 30-day supply per different prescription medication, per person, within the 30 day period of eligibility.

  **Prescription Payment Amount Example:** Only one 30-day supply of Promethazine can be authorized during the period of eligibility. Additional requests for this specific drug are denied when a 30-day authorization was previously made. Other types of prescription medicine can be authorized if the client meets the eligibility guidelines.

- Payment for medical equipment may be authorized for up to, but not exceeding, a 30-day supply per different equipment type, per person, within the 30-day period of eligibility. This may include insulin testing supplies and durable medical equipment. The total payment for medical equipment per AG may not exceed $100. Requests exceeding $100 must be sent to the DFA Policy Unit for exemption approval.
20.3 INDIGENT BURIAL PROGRAM

20.3.1 INTRODUCTION

The purpose of the Indigent Burial Program is to provide a decent burial for persons who die and have no resources to pay for the interment costs at the time of death.

20.3.2 ELIGIBILITY REQUIREMENTS

When making the decision regarding the eligibility for payment of the burial rates, the Worker must give consideration to the following criteria.

20.3.2.A Residence

The deceased must have been a resident of West Virginia at the time of death in order to be eligible for a burial payment. (See exception below.) Individuals who have left West Virginia for the purpose of residing in other states, or who have become residents in other states, and later decease are ineligible for Burial Program benefits.

The Worker must verify residency of the deceased. Examples used to verify residency include, but are not limited to, current state issue Driver’s License/ID card, current utility bill, current rent, or mortgage receipts, current landlord’s statement, current written statement from neighbors and employment records.

**EXCEPTION:** One exception applies to the residence requirement. This occurs when a non-resident of West Virginia deceases while traveling or visiting in the state and has no family, friends, or institution in the state of his residence that will assume responsibility for the funeral arrangements or otherwise claim the body. The Worker must verify that this situation exists before the case may be found eligible for payment.
20.3.2.B  Need

Resources of the deceased shall consist of readily available liquid assets such as, but not limited to, life insurance policies, burial trust funds, cash, checking and/or savings accounts, certificates of deposits, etc.

The Worker must verify the availability of these liquid assets prior to approval of the burial application. If the information is not known by the responsible relative it must be explained to the responsible relative they are attesting there are not sufficient resources by signing the DFA-67-A and DFA-BU-1, and that a claim will be placed against the estate of the deceased.

If the applicant indicates that, for an adult burial, the deceased had at least $2,200 in available resources, the Worker must find the application ineligible for benefits. The income limit for the deceased must not have been more than 133% of the FPL. The income in verification would just be for the deceased. The income counted would be for the past 30 days from the date of death. The SNAP budgeting rules would be followed for counting the deceased’s income.

20.3.2.C  Applicant

If an applicant (i.e., one who is liable or one who simply wishes to pay the allowable amount) indicates that he agrees to make the allowable payment of $2,200 to the funeral home, the Worker must deny the application for payment of burial. See Section 20.3.5

If the applicant agrees to pay any amount less than the allowable amount or indicates that he cannot make any payment toward the allowable amount, the Worker must approve application for a burial payment providing all other eligibility requirements are met.

20.3.2.C.1  Responsible Relative

A responsible relative is a relative who is liable for the burial costs of the deceased, i.e., spouse, children, parents or siblings. If the applicant is a responsible relative then the Worker must check their readily available liquid assets such as, but not limited to cash, checking, savings, proof of income.
20.3.2.D **Maximum Allowable Payment**

The income limit for the indigent burial program is 133% of the federal poverty level. This would be the income limit of the responsible relative. The household size and income would include all individuals that reside in the same household as the responsible relative. The deceased and their income would not be included in this. There is no asset test for the responsible relative.

If the responsible individual is not also considered a responsible relative (spouse, child, parents, siblings) then the income does not need to be verified. The income limit applies to responsible relatives only.

If a responsible relative applies and is over the income limit someone else cannot reapply in place of the responsible relative. The burial would remain denied once a responsible relative come forth and is found over the income limit.

The maximum allowable payment is the limit on the amount of payment that can be received by the funeral home when the Department of Health and Human Resources (DHHR) participates in the payment of a burial. The extent of the DHHR’s participation, or the amount of the program benefit, is determined by the burial rate and, when applicable, the amount which exceeds the maximum allowable payment.

The maximum allowable payment is not to be confused with the burial rate. The maximum burial rate is the amount the DHHR will make toward the cost of all funeral-related expenses.

The maximum allowable payment is also used to establish eligibility for a burial payment in relation to the resources of the deceased and to contributions made by responsible relatives.

Finally, the maximum allowable payment is used to establish the amount of resources (i.e., payment received from sources other than the DHHR) that may be received by the funeral home before the maximum burial rate is reduced.

The maximum allowable payment for burials may not exceed $2,200. The amount of resources that are exempted before being applied to the burial rate is $1,200 (exempted resources amount of $1,200 + burial rate of $1,000 = $2,200). Therefore, the DHHR will not participate in the burial costs when the total amount of resources received by the Funeral Home Director for a burial is $2,200 or more. When the amount of resources exceeds $1,200 but is less than $2,200, that amount, the excess, is less than $2,200 this amount will be deducted from the burial rate from the $1,000. The income limit is 133% of the FPL.

**Example:** The Funeral Home Director receives payment of resources on a burial for $1,450.

| $1,450 | Resources |
20.3.2.E  Interment Plans

The following instructions describe the casket and merchandise that must be used when the DHHR makes payment for burial. In addition, certain types of allowable interment plans are described.

The burial rate will include the casket and transportation. There is no extra allowance for local or long distance transportation for the deceased. The burial is to be direct burial. Direct burial means the removal of the remains from the place of death, casket for the deceased and transportation to a West Virginia cemetery.

20.3.2.E.1  Casket

The following is a description of the type of casket which must be used when the DHHR is making payment of the burial rate.

The casket shall be at least, but shall not exceed, a flat top or oval top constructed with wood or wood products and covered with such exteriors as doeskin, lambskin, moleskin, plain or embossed cloth.

No casket other than that which is described above shall be used unless the Funeral Home Director does not have an appropriate casket or outside container available and he agrees to absorb the higher cost of the more expensive casket or outside container.

If anyone (e.g. relative, friend, etc.) provides a better or more expensive casket than that which is described above, the DHHR will not participate in the payment of the burial expenses.
20.3.2.E.2  Direct Cremation

Direct cremation is the preferred method under the indigent burial program. Direct burial is used in place of cremations pursuant to the decedent’s religion or otherwise prohibited by federal law, state law or regulation in which case, burial will be substituted in place of cremation. Direct cremation includes the removal of the remains from the place of death; container; and crematory fees. The applicant and Funeral Home Director must understand that the burial rate ($1,000) and maximum allowable payment ($2,200) will apply to cremations as well as any other interment plan.

20.3.2.E.3  Burial of Two or More Bodies in One Casket

In certain rare situations, when it is warranted by the condition of the bodies, or when it is desired by the family, the DHHR will make payment for the burial of two bodies in one casket, but this payment is the same amount for a single body.

The next of kin or any persons who may be chargeable with the burial expenses of the deceased, or the person taking responsibility for making the burial arrangements, and the Funeral Home Director must agree to this type of interment. The Funeral Home Director also must notify the DHHR prior to the burial that two or more bodies are placed in the same casket and state the reason given for this type of arrangement.

**Burial of Two or More Bodies in One Casket Example:** Two infants are buried in a casket. The DHHR will pay only the burial rate of $1,000 and apply the maximum allowable payment of $2,200.

20.3.2.E.4  Green Burial

Green Burials are no longer covered under the indigent burial program.

20.3.2.F  Application Submittal Deadline

Payment for burial expenses cannot be made unless the application form, DFA-BU-1, has been completed and the applicant found eligible for payment and the date of interment or cremation
did not occur more than 30 days prior to the date of application. The application form must be signed in blue ink.

### 20.3.3 DIRECT BURIAL RATE

The direct burial rate of $1,000 is the maximum amount that will be paid by the DHHR. This rate applies to all burials. Under no circumstances is this rate negotiable regardless of the specific burial plan desired by the applicant.

### 20.3.4 DEVELOPMENT OF RESOURCES

The development of resources is a joint responsibility of both the DHHR and the Funeral Home Director. However, the DHHR’s activity in the development of resources is limited to the estate of the deceased and only in situations when the estate is sufficiently valued to obtain up to the $1,000 reimbursement to the DHHR.

The Funeral Home Director may develop resources from many different sources. Whenever the Funeral Home Director develops an amount of resources that exceeds the exempted resource amount of $1,200, the DHHR will deduct this amount from the burial rate. When the Funeral Home Director receives resources which exceed the exempted resource amount after payment is received from the DHHR, the DHHR must be reimbursed by the Funeral Home Director.

**Development of Resources Example 1:** The Funeral Home Director receives payment of resources on a burial for $500.

<table>
<thead>
<tr>
<th>$500</th>
<th>Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>- $1,200</td>
<td>Exempted resource amount</td>
</tr>
<tr>
<td>$0</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Burial rate</td>
</tr>
<tr>
<td>- $0</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Amount of payment received by the Funeral Home Director from the DHHR</td>
</tr>
<tr>
<td>$500</td>
<td>Resources</td>
</tr>
<tr>
<td>+$1,000</td>
<td>Burial payment</td>
</tr>
</tbody>
</table>

**Development of Resources Example 2:** The Funeral Home Director receives payment of resources on a burial for $1,500.

<table>
<thead>
<tr>
<th>$1,500</th>
<th>Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>- $1,200</td>
<td>Exempted resource amount</td>
</tr>
<tr>
<td>$300</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Burial rate</td>
</tr>
<tr>
<td>- $300</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Amount of payment received by the Funeral Home Director from the DHHR</td>
</tr>
<tr>
<td>$500</td>
<td>Resources</td>
</tr>
<tr>
<td>+$1,000</td>
<td>Burial payment</td>
</tr>
</tbody>
</table>

**Development of Resources Example 3:** The Funeral Home Director receives payment of resources on a burial for $2,000.

<table>
<thead>
<tr>
<th>$2,000</th>
<th>Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>- $1,200</td>
<td>Exempted resource amount</td>
</tr>
<tr>
<td>$800</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Burial rate</td>
</tr>
<tr>
<td>- $800</td>
<td>Excess</td>
</tr>
<tr>
<td>$1,000</td>
<td>Amount of payment received by the Funeral Home Director from the DHHR</td>
</tr>
<tr>
<td>$500</td>
<td>Resources</td>
</tr>
<tr>
<td>+$1,000</td>
<td>Burial payment</td>
</tr>
</tbody>
</table>
$1,500  Maximum allowable payment (total payment received by the Funeral Home Director)

In this example, the Funeral Home Director is entitled to receive $700 in additional resource before the maximum allowable payment of $2,200 is reached. Assume further that the Funeral Home Director receives $800 in additional resources after the burial payment from the DHHR was received. The Funeral Home Director must reimburse the DHHR $100 because the maximum allowable payment was exceeded by $100.

---

### 20.3.4.A  Resources Obtained for Burials

Resources of up to $1,200 may be obtained toward the cost of a burial for a total maximum payment of $2,200 before the resources are deducted from the burial rate.

<table>
<thead>
<tr>
<th>Resource Payment</th>
<th>Program Benefit</th>
<th>Total Payment to Funeral Home</th>
</tr>
</thead>
<tbody>
<tr>

<td>$1,800</td>
<td>$2,200</td>
</tr>
<tr>
<td>Example 2</td>
<td>$1,000</td>
<td>$2,000</td>
</tr>
</tbody>
</table>

---

### 20.3.4.B  Resources Due to the DHHR

The DHHR is entitled to receive resources from the following sources:

- The deceased's estate; and
- The amount of resources developed by the Funeral Home Director which exceeds the exempted resource amount.

---

#### 20.3.4.B.1  Form DFA-BU-3, Affidavit of Burial Costs and Supporting Documentation

The DHHR will seek reimbursement of burial costs by filing an Affidavit of Burial Costs with the Office of the County Clerk having jurisdiction of the deceased's estate (the county in which the deceased maintained his residence or the county in which the deceased owned real estate). The Worker must attempt to obtain sufficient information about the deceased's estate in order to make decisions to seek reimbursements. If the Worker determines that the minimum value of the estate is $1,000 after the costs of administration are deducted, the Worker must seek reimbursement.
According to the West Virginia Code, supporting documentation must be included with the DFA-BU-3 form when it is submitted to the Office of the County Clerk. This documentation will be a copy of the DFA-67-A, Burial Billing Form, (refer to Section 20.3.6, Burial Payment Process) and a copy of the Accounts Payable Monthly Burial Report.

The Monthly Burial Report is a list of names of the deceased for each county with the vendor name, document I.D. number, warrant number, warrant date, and the amount of payment made by the DHHR to the vendor. This document fulfills the requirement that verification of an actual payment must be made just as the DFA-67-A form verifies that an actual request for payment was made by the vendor. The DFA-BU-3 form establishes that the DHHR has filed a claim against the estate. Each month, Accounts Receivable, Office of Accounting will prepare the Monthly Burial Report showing a list of deceased persons based on the DFA-67-A forms submitted for that month. The Financial Clerk will submit to the Office of the County Clerk one copy of the Monthly Burial Report, one copy of the DFA-67-A, and the original DFA-BU-3, Affidavit of Burial Costs, for each name on the list. When it has been determined that an estate does not exist or insufficient resources in the estate precludes the necessity of establishing a claim, the Financial Clerk will cross out the deceased's name on the list and not submit supporting documentation for that burial.

**20.3.4.B.2 Instructions for Completing Form DFA-BU-3**

The Financial Clerk will complete the DFA-BU-3 form on all cases. The Affidavit of Burial Costs is a form letter and is completed as follows:

- **Introductory Statement**

  The Financial Clerk will enter the name and address of the County Clerk. The name of the deceased and the amount of the claim is entered in the spaces provided. The amount of the claim cannot exceed $1,000.

- **Affidavit and Verification**

  The affidavit and verification process includes the following:

  - The Financial Clerk enters his name, the amount of the claim against the deceased's estate, and the name of the deceased in the spaces on the form.
  - The Financial Clerk signs his name in the "Affiant" space and obtains the signature of the Notary Public.
• The DFA-BU-3, plus a copy of the DFA-67-A, Burial Billing Form, is attached to the Monthly Burial Report and submitted to the Office of the County Clerk.

20.3.4.B.3 Reimbursement from the Deceased’s Estate

When the Financial Clerk receives reimbursement from the deceased’s estate for the amount of the burial costs paid by the DHHR, he will make a direct deposit of this reimbursement to the burial program for the fiscal year in which the burial was paid.

20.3.4.B.4 Release of Lien against Estate

Following deposit of the reimbursement check from the deceased’s estate for the amount of the burial costs paid by the DHHR, the Financial Clerk will forward a copy of a lien release packet. The lien release packet consists of the following:

• A copy of the DFA-67-A;
• A deposit ticket;
• A copy of the completed DFA-BU-3; and
• A copy of the warrant report.
• Date of death of client

A notarized release nullifying the lien against the estate is signed, and copies are sent to the Office of the County Clerk, the Financial Clerk, and the Office of Accounting.

20.3.4.C Resources Due to the Funeral Home Director

20.3.4.C.1 Types of Resources

It is the responsibility of the person who made the burial arrangements and the Funeral Home Director to apply for and develop the following potential resources which may be available to meet burial expenses:

• Statutory Death Benefit Plans
  o Social Security Administration
20.3.4.C.2  Treatment of Resources

All resources are treated the same, regardless of whether or not the deceased was a recipient of public assistance or any other type of benefit from the DHHR or other agencies. Please note that the treatment of resources discussed in this section is exclusive of resources received by the DHHR from the deceased's estate as discussed above.

20.3.5 APPLICATION PROCESS

20.3.5.A  General Instructions

Although it is preferable that the application for payment of burial expenses be made by the surviving spouse or other close relative, the application may be made by the person who has accepted responsibility for making burial arrangements. This includes, but is not limited to, the Funeral Home Director, friends, and neighbors. All applicants must be at least the age of 18.

- Form DFA-BU-1, Application for Burial Expenses, will be used in taking applications for payment of burial expenses.

- Form DFA-BU-2, Affidavit of Responsible Relative, is used to determine whether certain relatives, who are designated under State Law as liable for burial expenses, are financially able to make payment of all or part of the maximum payment allowed by the
Department. In order to maintain the Department's policy of developing all possible resources, other relatives who are not designated under State Law as liable for burial expenses are also evaluated as to their ability and willingness to pay all or part of the appropriate burial rate.

20.3.5.B Liability of Responsible Relatives

As indicated in the Public Welfare Law §9-5-9, liability of relatives for support, certain relatives of the deceased who are financially able shall be responsible to pay the expenses of burial. These relatives are listed in the order of priority:

- The spouse (even if living apart, if they are still legally married)
- The children
- The parents
- The siblings

"Financially able" is defined as the responsible relative’s financial ability to make payment toward or the entire maximum payment allowed by the DHHR. The income of the responsible relative must be verified. The income limit is 133% of the FPL. The needs group and income group would consist of the responsible relative and those living with the responsible relative, at the time of application. The most recent 30 days of income would be counted starting with the date of application. The budgeting rules would follow SNAP Policy. The applicant has 3 days to provide income verification or the application will be denied if income is not verified within that time.

In many situations, other relatives (spouse, nephew, niece, etc.) who are not legally liable for payment of burial costs will take the responsibility for arranging the burial and make applications for burial expenses.

20.3.5.C Completion of Form DFA-BU-1, Application for Burial Benefits

Form DFA-BU-1 must be completed when an individual is applying for burial assistance. Payment for burial expenses cannot be made unless this form has been completed, the applicant found eligible for payment, and the date of interment or cremation did not occur more than 30 days prior to the date of application.

Generally, the county in which the individual resided at the time of death will assume the responsibility for accepting the application and making payment for eligible individuals. When the individual did not die in the county of his residence, the following instructions will apply:
• When the deceased dies in another county or state while visiting or receiving medical treatment, the county of residence will assume responsibility for accepting the application and making payment.

• When the deceased dies in a state institution or nursing home, that facility will contact relatives who will take charge of the burial arrangements. In most situations, the relatives will have the deceased returned to the county in which he resided prior to his death. When this occurs, the county in which the deceased has been returned will accept the application and process payment.

• Situations may occur, however, when the person who has taken charge of the burial arrangements, including the institution or nursing home administration, may wish to inter the deceased within the county in which the institution or nursing home is located. When this occurs, that county will accept the application and process payment.

• When a non-resident of West Virginia dies while visiting or traveling through the state, the county in which he dies will assume the responsibility for accepting the application and, if eligible, process payment. This procedure applies only when the deceased's interment will take place in West Virginia.

• However, situations may occur when someone from another county has taken responsibility for the burial arrangements and wishes to have the deceased interred in that other county. When this occurs, the other county will accept the application and process payment.

• If so desired by the applicant, a burial application can be received via the mail. If the applicant wants to apply through the mail, the Worker will mail the application forms with an accompanying letter of instructions that include a deadline for returning the completed application through the mail. The instructions will also request a copy of the death certificate and the deceased's social security number if not included on the certificate. After the application is received through the mail, the Worker will carefully review the completed application form and make a decision regarding eligibility or request the applicant to supply additional information.

The following instructions must be followed when completing Form DFA-BU-1:

• Section A and B, Identifying Information: The required identifying information in these two sections is self-explanatory. If the deceased was a non-resident of West Virginia at the time of death, the applicant must explain why the deceased is to be buried in West Virginia. This explanation is needed in order to assure that family and relatives have been notified and are aware that the deceased will be buried in West Virginia.

• Section C, Your Relationship to the Deceased: If the applicant indicates that he is a child, parents or siblings of the deceased (liable relative), he must complete Form DFA-BU-2, Affidavit of Responsible Relative. If the applicant indicates that he is not a liable
relative, he will be requested to complete Form DFA-BU-2 for the purpose of developing potential resources.

- Section D Need and Estate of the Deceased: The applicant must place an "X" on the line next to the statement which indicates his knowledge of whether the deceased's estate had sufficient resources equal to the maximum allowable payment. When the applicant indicates the estate has at least $1,000 in resources to pay for the burial costs, the case will be found ineligible for a burial assistance.

- Section E, Heirs of the Deceased: The applicant must complete this section which involves questions about the heirs of the deceased.

- Section F, Resources: The applicant must indicate the type and amount of resources received or to be received toward the burial expenses. It will be the responsibility of the applicant to report this accurately and completely. It may be necessary for the applicant to contact the Funeral Home Director regarding this item to insure accuracy. Finally, the Worker should inform the applicant that the DFA-67-A, Burial Billing Form, submitted by the Funeral Home Director will be compared with Section F for discrepancies.

- Section G, Signatures: The applicant must read each of the three statements and place an "X" in "Yes" or "No" prior to signing and dating the application form. The Worker should ask the applicant if he understands each of the three statements and verbally explain any of the statements that the applicant does not understand.

The applicant must sign and date the application form. The Worker must enter the following information in the recording section:

- Action taken on the application - This will include approval, denial, or pending status of the application. In addition, the Worker will indicate if the DFA-BU-2 form was completed by a responsible relative and any other information as required.

- The Worker must also indicate whether the deceased was receiving any program benefits from the DHHR at the time of his death.

20.3.5.D Completion of Form DFA-BU-2, Affidavit of Responsible Relative

The purpose of the DFA-BU-2, Affidavit of Responsible Relative is used to determine financial ability of those responsible relatives who are liable for the burial costs of the deceased and to determine sufficient ability of other relatives who wish to contribute to the burial costs but are not liable.

The DFA-BU-2, will be completed by the applicant in the following manner:
• When the applicant is a relative who is liable for the burial costs of the deceased, Form DFA-BU-2 must be completed. If the relative refuses to complete the form, the application is denied.

• When the applicant is a relative who is not liable for the burial costs, the Worker will request the relative to complete the form for the purpose of developing resources. He may refuse to complete the form and the application is not denied.

• When the applicant is not a relative of the deceased, he completes the form for the purpose of developing resources, but does not sign the form.

The completion of the form is self-explanatory. The Worker shall explain to the person signing the form that witness signatures are required only when the person signs the form with his "mark". In this situation, the persons who act as witnesses must actually see the person place his "mark" on the form.

20.3.5.E Decision on the Application

After the applicant has completed the application form, DFA-BU-1, and the Affidavit of Responsible Relative, DFA-BU-2, the Worker can take the appropriate action on the application:

• All questions on the application form must be answered by the applicant and signed and dated by the applicant when appropriate. The DHHR will not make payment if the DFA-BU-1 form is not completed or completed improperly.

• When the applicant is a liable relative, the DFA-BU-2 must be completed. If not, the application must be denied.

• If the relative who signed the DFA-BU-2 form agrees to pay for the burial costs, the application must be denied.

• If the applicant indicates in Section D of the DFA-BU-1 form that the deceased had sufficient resources to pay for the burial costs, the application must be denied.

• If the applicant indicates in Section F of the DFA-BU-1 form that sufficient resources will be applied toward the burial that is equal to or exceeds $1,000, the application must be denied.

After consideration is given by the Worker to the above items, he will make a decision regarding the eligibility for payment of burial costs and make a recording on the application form to support his decision.

When the Indigent Burial application is denied, the Worker must send a completed DFA-BU-4 notification to the person who made application for the burial. In addition, a copy of the DFA-BU-4 must be sent to the funeral home that provided burial services for the deceased. If the
application was made by the Funeral Home Director or staff, when no relatives, friends, or other persons are available, the original DFA-BU-4 is sent to the funeral home directly. The DFA-BU-4 form is found on the Division of Family Assistance (DFA) intranet site.

The reason for the denial must be stated on the notice. In addition, the Fair Hearing and/or Conference Request form, DFA-FH-1, must be included with the denial letter and sent to the applicant. A copy of the denial letter must be placed in the deceased’s file.

### 20.3.6 BURIAL PAYMENT PROCESS

The DFA-67-A, Burial Billing Form, is completed by the Funeral Home Director and submitted to the DHHR. It is used in the payment process for the purpose of determining the amount of payment to be made by the DHHR to the Funeral Home Director.
20.3.6.A Responsibilities of the Funeral Home Director

As indicated above, the Funeral Home Director will complete the DFA-67-A form. The signature must be in blue ink. If any questions arise in completing the form, the Funeral Home Director should consult the Funeral Home Director Handbook or contact the Worker for questions about form completion.

20.3.6.B Responsibilities of the Worker

The Worker and his Supervisor will enter their signatures and date upon the completed DFA-67-A form in blue ink. In addition, the Worker must compare the resources reported by the Funeral Home Director on the DFA-67-A form with the resources reported by the applicant on the DFA-BU-1 application form. Any discrepancies must be resolved by contacting the applicant and Funeral Home Director. Approval will be withheld until the discrepancies are resolved. If necessary, the Worker may request verification of statements or claims made by the applicant or the Funeral Home Director.

The purpose of this procedure is to provide authorization for payment since payment to the Funeral Home Director is handled through the Office of Accounting.

Red Ink on the original document is reserved for Auditors use only.

20.3.6.C Responsibilities of the Financial Clerk

The Financial Clerk will receive the DFA-67-A, Burial Billing Form, from the Funeral Home Director. Upon receipt of this invoice, the Financial Clerk will be responsible for pre-auditing and editing. Items to be reviewed before submittal for payment are:

- Federal Employer Identification Number (FEIN) in the upper right-hand corner
- County number and mailing address
- Legible vendor name and mailing address
- Correct payment amount on Line Item 7 or Item 9
- Date of death

NOTE: The Worker, his Supervisor, the Financial Clerk, and the Funeral Home Director or his designee, must sign their appropriate sections on the original DFA-67-A in blue ink only.
• Date of interment
• Proper signatures and dates entered (blue ink on original)

Upon completion of the audit, the Financial Clerk must stamp the DFA-67-A with a certification stamp and sign and date the spaces made by the stamp in blue ink. The original and two copies of the DFA-67-A will be submitted to the DFA in the burial packet. The burial packet consists of the DFA-67-A (original and two copies), DFA-BU-1, and DFA-BU-3. The completed packet must be submitted to the DFA Policy Unit no later than 3 business days after the receipt from the customer. All back-up material pertaining to the burial will remain in the local office.

In order for the Financial Clerk to have a record of burials submitted for payment, a Log for Burial Payments must be maintained in each local office. On this log, the following items are suggested:

• Date the DFA-67-A was received for payment
• Name of vendor
• Name of deceased
• Date the DFA-67-A was submitted to the DFA
• Date the Accounts Payable Monthly Burial Report was received from the DFA

When the Funeral Home Director indicates on the DFA-67-A form (Item 10) that he has applied for, but did not receive, certain resources at the time of burial, the Financial Clerk must develop a control to contact the Funeral Home Director every 60 days from the date entered on the DFA-67-A form to determine if he received the resource.

If the Funeral Home Director receives any resources at a later date, he is required to reimburse the DHHR if these resources:

• Are in excess of the exempted resource amount; or
• When added to the resource received at the time of burial are in excess of the exempted resource amount.

**Reimbursement Example:** A Funeral Home Director submits a DFA-67-A for a burial. Resources received at the time of burial are $550. Since the resource of $550 did not exceed the exempted resource amount of $1,200, the Funeral Home Director received a check for $1,000 from the DHHR. Later, the Financial Clerk has determined that the Funeral Home Director received additional resources in the amount of $1,300.

Total resources received by the Funeral Home Director comes to $1,850 ($550 + $1,300 = $1,850). The exempted resource amount was exceeded by $650 ($1,850 - $1,200 = $650).

The Funeral Home Director must reimburse the DHHR for $650.
Computation procedures when the actual cost of burial is less than the amount of payment requested from the DHHR and/or resources due to the Funeral Home Director.

In order to use this computation procedure, it is necessary to compute the amount of payment requested from the DHHR as outlined on the DFA-67-A, Burial Billing Form, Item 2 through Item 7.

The actual cost incurred in providing the burial is used in computing the amount of payment entitled to the funeral home.

---

**20.3.7 CORRECTIVE ACTION**

Corrective Action must be taken, regardless of who made the error. When the funeral home receives payments above the allowed resource amount of $1,200, the funeral home must reimburse the DHHR any amount which exceeds the allowed resource amount.
20.4 SPECIAL REDUCED RESIDENTIAL SERVICE RATE (20% UTILITY DISCOUNT PROGRAM)

20.4.1 GAS AND ELECTRIC COMPANIES

20.4.1.A Introduction

During the months of November through March, clients of one of the following benefits are eligible for a 20% discount from their gas and electric companies:

- Supplemental Nutrition Assistance Program (SNAP) and over age 60
- Supplemental Security Income (SSI) and at least 18 years old
- WV WORKS

The Department of Health and Human Resources' (DHHR) role is to send application packets to clients of the qualifying benefits and to supply the utility companies with lists of clients who have become ineligible for the discounts because they are no longer eligible for one of the qualifying benefits.

20.4.1.B Operation

In October, application packets are mailed to SNAP clients who are age 60 or older, SSI recipients who are at least 18 years old, and WV WORKS clients.

During the program months of November through March, application packets are mailed to new and reopened assistance groups (AG) that are approved for at least one of the qualifying benefits.

In addition, an application will be mailed to a client upon request if he is a client of a qualifying benefit and has lost or failed to receive his original application packet. If he is not a client of a qualifying benefit, he will receive a notice from the Division of Family Assistance (DFA) explaining why he is not eligible for the discount.

The client completes the application and submits it to the utility company. The utility company determines eligibility for the discount and applies the reduced rate to the eligible client's account. Approved applications are sent by the utility company to the DFA.
Each month, the DFA sends each participating utility company a list of its customers who have become ineligible for the discount because they are no longer receiving a qualifying benefit. The company removes the discount from those accounts.

Dependent upon the company, all discounts are removed by the end of March or April.

20.4.1.C Application

When the client receives the application, it contains the name and birth date of all eligible persons in the AG, effective date, case number, address, the Social Security Number for the primary person, and a date by which the application should be returned to the utility company. In addition, a waiver at the bottom of the form must be signed by the payee to allow the DHHR to verify eligibility of the AG for the gas and electric utility company.

20.4.1.D Role of the Local Office

The local office must:

- Refer inquiries about the program from utility companies to the DFA.
- Send the DFA the name, address, case number and Social Security Number of clients claiming to be qualified for the discount who reported they did not receive an application packet or whose original packet was lost or destroyed.

NOTE: If the client claims the original application has been lost or stolen and does not report a new address, the Worker must issue a duplicate form in the eligibility system. If a new address is reported by the client, then the new address, along with the case name, number, and Social Security Number must be forwarded to the DFA so the address can be updated and a new form issued by the DFA.
20.4.2 WATER COMPANY [WEST VIRGINIA AMERICAN WATER (WVAW) ONLY]

20.4.2.A Introduction

WVAW customers who receive one of the following benefits are eligible to receive the 20% utility discount. This program operates year-round:

- SNAP and over age 60
- SSI and at least 18 years old
- WV WORKS

The DHHR’s role is to send application packets to clients of the qualifying benefits and to supply the water company with lists of clients who have become ineligible for the discount because they are no longer eligible for one of the qualifying benefits.

20.4.2.B Operation

Initial application packets have been mailed to the above clients. Application packets are mailed to new and reopened AGs that are approved for at least one of the qualifying benefits.

In addition, an application will be mailed to a client upon request if he is a client of a qualifying benefit and has lost or failed to receive his original application packet. If he is not a client of a qualifying benefit, he will receive a notice from the DFA explaining why he is not eligible for the discount.

The client completes the application and submits it to the water company. The water company determines eligibility for the discount and applies the reduced rate to the eligible client’s account. Approved applications are sent by the water company to the DFA.

Each month, the DFA sends WVAW a list of its customers who have become ineligible for the discount because they are no longer receiving a qualifying benefit. The company removes the discount from those accounts.
20.4.2.C  Application

When the client receives the application, it contains the name and birth date of all eligible persons in the AG, effective date, case number, address, the Social Security Number for the primary person, and a date by which the application should be returned to WVAW. In addition, a waiver at the bottom of the form must be signed by the payee to allow the DHHR to verify eligibility of the AG for the water company.

20.4.2.D  Role of the Local Office

The local office must:

- Refer inquiries about the program from WVAW customers to the DFA.
- Send the DFA the name, address, case number and Social Security Number of clients claiming to be qualified for the discount who reported they did not receive an application packet or whose original packet was lost or destroyed.

**NOTE:** If the client claims the original application has been lost or stolen and does not report a new address, the Worker must issue a duplicate form in the eligibility system. If a new address is reported by the client, then the new address, along with the case name, number, and Social Security Number must be forwarded to the DFA so the address can be updated and a new form issued by the DFA.
20.5 TEL-ASSISTANCE

20.5.1 INTRODUCTION

The Tel-Assistance Program allows reduced rate telephone service to qualified low-income clients. The monthly cost for Tel-Assistance service is lower than other local telephone services offered. Only one Tel-Assistance service is permitted per household and the household is not allowed to receive services from multiple providers. For example, a household may have Tel-Assistance service on their landline OR their wireless phone, but not both.

The Department of Health and Human Resources (DHHR) has the following responsibilities for the programs:

- To inform clients of their eligibility;
- To assist clients in verifying their eligibility;
- To determine continuing eligibility of clients; and
- To inform the telephone company of a client’s eligibility.

20.5.2 STATE ADMINISTRATION

The Tel-Assistance Program is administered at the State level by the Division of Family Assistance (DFA) Policy Unit. The DFA has the final responsibility of program planning, implementation, operation, and management.

20.5.3 LOCAL OFFICE RESPONSIBILITY

The local offices are responsible for distributing an application form, DFA-TA-2, and a fact sheet, DFA-TA-3, to any client who makes a request.
20.5.4 ELIGIBILITY REQUIREMENTS

To be eligible for Tel-Assistance service, the client must be receiving at least one of the following benefits:

- Emergency Assistance (EA)
- Federal Public Housing Assistance (FPHA)
- Low Income Energy Assistance Program (LIEAP)
- Medicaid
- National School Lunch Program, free program only
- Supplemental Nutrition Assistance Program (SNAP)
- School Clothing Allowance (SCA)
- Temporary Assistance for Needy Families (TANF)
- West Virginia Children’s Health Insurance Program (WVCHIP)
- Any other means-tested state or federal program

NOTE: To qualify, the telephone bill must be in the name of the client receiving the service.

NOTE: Any adult member of the AG may apply for Tel-Assistance service.

20.5.5 APPLICATION PROCESS

20.5.5.A Eligibility System Issued Applications

The eligibility system includes a notice on each approval letter informing the client that, if interested in applying for Tel-Assistance, he may obtain an application from the local DHHR office or by using his inROADS My Benefits account.

20.5.5.B Walk-In Applications

Local offices are supplied with the applications and fact sheets for distribution to any client who makes a request. The following procedure is used when an application is received:
• The Application and Fact Sheet are obtained by the client from the local office and completed.
• The application is forwarded to the telephone company.
  o The client is responsible for sending or taking the application to their selected telephone company.
  o The telephone company certifies service.

20.5.6 CLOSURE PROCESS

It is the responsibility of the client to notify the telephone company if he ceases to receive benefits from the DHHR or any other means-tested state or federal program that deemed him eligible for Tel-Assistance service, or if his annual income exceeds the income guidelines.

20.5.7 TELEPHONE COMPANY RESPONSIBILITY

20.5.7.A Notification of Eligibility

Participating telephone companies are responsible for notifying the client of eligibility, cost of service, denials, or termination of benefits.

20.5.7.B Question of Eligibility

The telephone companies are responsible for answering all questions of eligibility.

20.5.7.C Hearing Process

Establishing, maintaining, and conducting hearings which may result from the denial of benefits are the responsibility of the participating telephone companies.
20.5.8 FORMS

One or more of the following forms may be used to determine eligibility:

- Application, DFA-TA-2
- Fact Sheet, DFA-TA-3

20.5.9 PARTICIPATING TELEPHONE COMPANIES

Each participating telephone company may offer its own individual enhanced plan.
20.6 LIFELINE

20.6.1 INTRODUCTION

The Lifeline Program allows reduced rate telephone service to qualified low-income clients. The monthly cost for Lifeline service is lower than other local telephone services offered. Only one Lifeline service is permitted per household and the household is not allowed to receive services from multiple providers. For example, a household may have Lifeline service on their landline OR their wireless phone, but not both.

The Department of Health and Human Resources (DHHR) has the following responsibilities for the programs:

- To inform clients of their eligibility; and
- To assist clients in verifying their eligibility; and
- To determine continuing eligibility of clients; and
- To inform the telephone company of a client’s eligibility.

20.6.2 STATE ADMINISTRATION

The Lifeline Program is administered at the State level by the Division of Family Assistance (DFA) Policy Unit. The DFA has the final responsibility of program planning, implementation, operation, and management.

20.6.3 LOCAL OFFICE RESPONSIBILITY

The local offices are responsible for distributing an application form, DFA-TA-2, and a fact sheet, DFA-TA-3, to any client who makes a request.
20.6.4 ELIGIBILITY REQUIREMENTS

To be eligible for Lifeline service, the client must be receiving at least one of the following benefits:

- Federal Public Housing Assistance (FPHA)
- Medicaid
- Supplemental Nutrition Assistance Program (SNAP)
- Supplemental Security Income (SSI)
- Veterans Affairs (VA) Pension or Survivors Pension
- Income-based Eligibility

Clients residing on tribal lands may also use eligibility documentation from one of the following programs if their household income is at or below 135% of the Federal Poverty Guidelines:

- Bureau of Indian Affairs (BIA) General Assistance
- Tribal Administered Temporary Assistance for Needy Families (TANF)
- Head Start
- Food Distribution Program on Indian Reservations
- Supplemental Nutrition Assistance Program (SNAP)
- Supplemental Security Income (SSI)

**NOTE:** Any adult member of the AG may apply for Lifeline service.

20.6.5 APPLICATION PROCESS

20.6.5.A Eligibility System Issued Applications

The eligibility system includes a notice on each approval letter informing the client that, if interested in applying for Lifeline, he may obtain an application from the local DHHR office or by using his inROADS My Benefits account.
20.6.5.B Walk-In Applications

Local offices are supplied with the applications and fact sheets for distribution to any individual who makes a request. The following procedure is used when an application is received:

- The Application and Fact Sheet are obtained by the client from the local office and completed.
- The application is forwarded to the telephone company.
  - The client is responsible for sending or taking the application to their selected telephone company.
  - The telephone company certifies service.

20.6.6 CLOSURE PROCESS

It is the responsibility of the client to notify the telephone company if he ceases to receive benefits from the DHHR or any other means-tested state or federal program that deemed him eligible for Lifeline service, or if his annual income exceeds the income guidelines.

20.6.7 TELEPHONE COMPANY RESPONSIBILITY

20.6.7.A Notification of Eligibility

Participating telephone companies are responsible for notifying the client of eligibility, cost of service, denials, or termination of benefits.

20.6.7.B Question of Eligibility

The telephone companies are responsible for answering all questions of eligibility.
20.6.7.C  Hearing Process

Establishing, maintaining, and conducting hearings which may result from the denial of benefits are the responsibility of the participating telephone companies.

20.6.8  FORMS

One or more of the following forms may be used to determine eligibility:

- Application, DFA-TA-2
- Fact Sheet, DFA-TA-3

20.6.9  PARTICIPATING TELEPHONE COMPANIES

Each participating telephone company may offer its own individual enhanced plan.

21.1 INTRODUCTION

The Low Income Energy Assistance Program (LIEAP) provides financial assistance to eligible assistance groups (AG) responsible for a home heating cost. It is not the purpose of this program to meet the entire cost of home heating during the winter season; it is designed to partially offset the cost.

The program is time-limited and dependent on the availability of federal funds. It is subject to closure without prior notice when funds are deemed to have been exhausted. Funds are normally disbursed on a first-come, first-served basis, but may also be subject to disbursement based on need. When this occurs, priority is given to those groups of clients with the greater energy burden as demonstrated by income, AG size and heating cost.

Program operation is accomplished by automatic payments, mail-out applications, outreach, and an open application intake period for both Regular and Emergency LIEAP. Regular LIEAP assists eligible households with the cost of home heating through direct cash payments or payments to utility companies on their behalf. Emergency LIEAP is a crisis component available for households without resources facing the loss of a heating source.
21.2 LIEAP FORMS

One or more of the following forms may be used in connection with the application itself (DFA-LIEAP-1) and the processing of the LIEAP payment.

- The DFA-LIEAP-1a, Instructions for Completing the Application Form, also provides the current LIEAP income guidelines and directions for mailing the form and obtaining additional assistance.
- The DFA-LIEAP-1b, Supplemental LIEAP Form shelf document, is used to document the application process.
- The DFA-LIEAP-ERR-1 application for assistance with repair or replacement of a heating unit.
- The DFA-LIEAP-3, Repayment Agreement, is used to initiate the repayment process when a LIEAP payment has been issued in error.
- The DFA-LIEAP-4, Zero Income/Home Heating Cost Verification form, is used when the client reports zero income.
- The DFA-67, Authorization for Payment, is used to authorize Regular LIEAP payments on behalf of the client experiencing a heating emergency.
- The DFA-LIEAP-5, Authorization for Delivery and Payment of Emergency/Regular LIEAP, is used as an option to the DFA-67 when desired by the local LIEAP staff and accepted by the vendor.
- The DFA-67, Authorization for Payment, is an eligibility system-generated voucher for the authorization and payment of Emergency LIEAP.
- The DFA-LIEAP-6, LIEAP Application Log, can be used by the county DHHR office to track LIEAP applications and ensure timely processing and issuance of checks. Use of this form is optional, but the use of some type of log is mandatory.
- DFA-LIEAP-8, LIEAP Repayment Tracking Form, is used by the Repayment Investigator (RI) to track LIEAP overpayments.

In addition to the forms listed above, the LIEAP Fact Sheet is provided to local offices for distribution to the public.
21.3 ELIGIBILITY REQUIREMENTS

This section contains the eligibility requirements for both Regular and Emergency Low Income Energy Assistance Program (LIEAP), as well as other information about LIEAP.

21.3.1 REGULAR LIEAP

Eligibility for Regular LIEAP is based on a number of factors, including income, assistance group (AG) size, vulnerability to the cost of home heating, residence, and citizenship.

21.3.1.A Income

The total monthly gross income of the AG must not be more than the maximum allowable gross income amounts in the chart in Chapter 4, Appendix A. No income deductions or disregards apply, except in the determination of gross profit for self-employment. When the gross monthly income of the AG exceeds the maximum allowable income amounts, the group is ineligible for LIEAP and the application is denied.

21.3.1.A.1 Determining the Month Income Is Counted

Income received or expected to be received during the month of application is used to determine eligibility.

**Determining the Month Income is Counted Example 1:** Application for LIEAP is made on December 30. The income the AG received during the month of December is used to determine eligibility.

**Determining the Month Income is Counted Example 2:** Application for LIEAP is made by mail on November 16. The income received or expected to be received in the month of November is used to determine eligibility.
### 21.3.1.A.2 Determining Gross Monthly Income

When the AG has income which is received on a regular basis and no changes are expected during the application month, the amount of earned and unearned income from each source must be converted to a monthly amount as follows:

- Convert weekly income by multiplying by 4.3.
- Convert biweekly (every two weeks) income by multiplying by 2.15.
- Convert semimonthly (twice per month) income by multiplying by 2.

When the client is not expected to receive a full month’s income during the application month, the gross income is multiplied by the number of times it is anticipated that it will be received.

**Determining Gross Monthly Income Example 1**: Ms. Daisy begins working on the third Monday of a month and she earns $300 per week. She expects to be paid only once during the month of application. Ms. Daisy’s countable gross income for the month is $300.

**Determining Gross Monthly Income Example 2**: Ms. Tulip, a per diem worker paid weekly, reports she is off work caring for a sick child. She has received only two paychecks during the month of application for $300 each and does not know when she will be able to go back to work. Ms. Tulip’s gross monthly income is $600.

### 21.3.1.A.3 Sources of Income

All sources of income are considered in determining income eligibility.

- Self-employed clients are entitled to a 20% deduction from gross sales or receipts to determine monthly gross income.
- Non-recurring lump sums received in the month of application are excluded.

**Non-Recurring Lump Sums Example**: Child support arrearages are non-recurring lump sums. As such, they cannot be anticipated.

- Recurring lump sums are prorated over the period they are intended to cover.

**Recurring Lump Sums Example**: A yearly check for mineral rights is divided by 12 to determine the countable monthly income for LIEAP.
21.3.1.A.4 Income Exclusions

The following payments received by members of the LIEAP AG are not counted as income in determining eligibility for LIEAP:

- All student loans, grants, scholarships and college work study programs.
- Payments, allowances or reimbursements for participants in programs administered by the Corporation for National and Community Service (CNCS). These programs may include, but are not limited to: ACTION, Action Programs, AmeriCorps, Summer Youth Programs, University Year of Action, Urban Crime Prevention Program, Volunteers in Service to America (VISTA) and VISTA ACTION.
- Payments under Alaska Native Claims Settlement Act.
- Any payments received or funds held in trust for members of any Indian tribe under Public Laws: 98-64, 97-458, 98-123, 98-124 referred to as “Indians Judgment Funds.” Also any funds from payment of relocation assistance to members of the Navajo and Hopi tribes under Public Law 93-531.
- Payments to Nazi Persecution Victims, which may include, but are not limited to: Austrian Social Insurance Payments, German Reparations payments or the Netherlands WUV payments.
- Payments from the Radiation Exposure Compensation Trust Fund.
- Supplemental Nutrition Assistance Program (SNAP) benefits.
- Value of supplemental food program for Women, Infants and Children (WIC), Public Law 94-105.
- Payments, allowances or reimbursements for transportation and attendant care costs under Title VI of the Rehabilitation Act of 1973, Title II, Public Law 95-607.
- Payments from Community Service Employment Program (CSEP) as authorized under Title V of the Older Americans Act.
- Income tax refunds and rebates.
- Reimbursement for expenses incurred in connection with employment and training limited to mileage, tools and clothing.
- Reimbursement for medical expenses or for transportation costs incurred to obtain medical treatment.
21.3.1.B Assistance Group (AG)

The AG consists of any individual or group of individuals who are living together in the same dwelling and for whom residential home heating is customarily purchased in common or for whom home heating is included in a rent or mortgage payment as a specified amount.

It is the responsibility of the client to list all individuals who are living in the home, regardless of whether or not they are family members or whether or not they share the cost of home heating. For the purpose of LIEAP eligibility, all household members are considered one AG.

When the AG includes a person(s) who has already received a LIEAP payment as part of another AG, he is not included in the AG and his income is not counted in determining eligibility.

Inclusion in the AG Example: An employed woman and her two children are included in her mother’s AG. The mother applies for and is approved for a LIEAP payment for an AG of four. Her daughter and grandchildren then move out of her home to live with the children’s father. The father applies for LIEAP and reports an increase in AG size and income. His LIEAP application is approved for an AG of one and only his income is counted.

When an AG includes an illegal noncitizen, that person’s income must be counted even though he cannot be included in the LIEAP AG.

21.3.1.C Vulnerability to the Cost of Home Heating

In order to qualify for a LIEAP payment, an AG must be determined vulnerable or partially vulnerable to the cost of home heating.
**21.3.1.C.1 Vulnerable AGs**

Vulnerable AGs are those which must pay the primary heating cost for the home in which they reside. The expense for heating must be billed separately from the rent or mortgage payment of the residence, even if the AG combines these payments. When payments are combined, the amount billed for the heating cost must be stated on a rent receipt, lease, or other documentation.

*NOTE: AGs that have utilities included in their rent but are not billed separately for a heating cost are not eligible for LIEAP.*

AGs may also be considered vulnerable if there has been a documented increase in a rent or mortgage payment due to increased fuel costs. The increase does not have to be permanent if the only reason for the increase is winter heating.

Clients who are temporarily away from home for medical, educational, or employment purposes, and who still must pay a heating cost for the dwelling, are considered vulnerable. This includes nursing home residents who are still maintaining a home and have a heating cost.

Vulnerability also exists when the AG must pay at least a part of the cost of home heating, whether they pay just part of the cost each month or alternate payments with a third-party.

The AG is partially vulnerable when a surcharge for excessive usage is already added or can reasonably be anticipated to be added to the rent amount.

**21.3.1.C.2 Invulnerable AGs**

Invulnerability means the AG has no home heating costs or is not responsible for payment of the heating cost. Clients who live in state institutions, hospitals and certain group living facilities, such as halfway houses and domestic violence centers, and those whose home heating costs are paid by a third-party, are considered invulnerable.

*NOTE: Questions as to whether an AG is vulnerable or invulnerable should be directed to the State LIEAP Coordinator.*
21.3.1.C.3  Terminated Service

AGs in dwellings where home heating service has been terminated and the account has been closed prior to the date of application are considered vulnerable if the home heating supplier agrees to restore service upon the approval of LIEAP or in combination with other payment(s).

NOTE: The Worker must not obligate a payment until all other needed payments have been obtained. Any payment obligated to a vendor, whether verbal or in writing, must be honored if the vendor restores service and it is later determined that other payments were never received.

21.3.1.C.4  Portable Heaters

Portable heating devices such as, but not limited to, electric and kerosene space heaters, are not considered primary sources of heating except when an emergent life-threatening situation exists, the dwelling is totally without a heating source, and the AG has no alternate housing available.

It is considered dangerous to AG members and detrimental to program goals to heat a dwelling with space heaters. Such use must not be encouraged. Exceptions require supervisory approval.

21.3.1.C.5  Public Housing Facilities

AGs residing in subsidized public housing facilities can be considered vulnerable or invulnerable depending on how they pay their home heating costs:

- Vulnerability exists when home heating costs are paid separately or directly to the utility, fuel supplier, or building operator. These costs usually reflect total monthly usage.
- Vulnerability may also include those situations in which surcharges for excess usage are already added to the rent or the addition to the rent can be reasonably anticipated.
- Invulnerability exists when home heating costs are included in the rent and based upon a fixed percentage of income or paid by the housing authority.
21.3.1.C.6 Zero Income Clients

When zero income clients report that their home heating costs are being paid by someone else, vulnerability can be determined by the manner in which the heating costs are being paid.

- Clients who report zero income but have someone else not living in the household who makes payment for the entire cost of home heating to the vendor on behalf of the client are considered invulnerable and therefore ineligible for LIEAP benefits.

*NOTE:* When a client for whom a third-party has been making home heating payments receives a termination notice, the Worker must determine why the bill is no longer being paid, whether future bills will be paid, and whether or not the third-party intends to pay the disconnect if LIEAP is denied.

- Clients whose only income is a contribution for heating costs from an individual outside of the AG are considered vulnerable and are not considered zero income clients.

21.3.1.D Residence and Citizenship

21.3.1.D.1 Residence

See Section 2.2 for the residence requirement.

21.3.1.D.2 Citizenship

See Chapter 15 for the eligibility requirements of citizenship or permanent noncitizen status.

*NOTE:* Only citizens and/or qualified noncitizens may be included in the LIEAP AG, but the income of the entire household is counted.
21.3.1.E Duplicate Payments

All eligible AGs are entitled to one Regular LIEAP payment per season only. Subsequent applications received from persons who have already been found eligible for or who have received a Regular LIEAP payment in that season are denied. Cases requiring corrective or supplemental payments must be referred to the Office of Client Accounts as provided in Section 21.6.

**NOTE:** Supplemental LIEAP funds may be made available during the program year, therefore, it is possible that eligible AGs may be entitled to receive an additional LIEAP payment. The Division of Family Assistance (DFA) Policy Unit will notify the local offices if supplemental funds become available.

21.3.1.F Customer Account Number

The customer account number of the utility or heating vendor must be provided at the time of application or within 15 calendar days following the date the information is requested. A list of Public Service Commission (PSC)-regulated utility vendors is provided in Appendix B. Customers of vendors not listed must be issued a direct payment.

21.3.1.G Time Limits

Action must be taken to approve or deny a Regular LIEAP application within 30 days of the date it is received for processing by the Department of Health and Human Resources (DHHR). Verification is due within 15 days of the date the information is requested.

**NOTE:** Workers may deny an application after expiration of the verification due date when the information is not received. If the client returns the information within 30 days of the application date, the benefit may be approved without a new application. After 30 days, the client must reapply.
21.3.2 EMERGENCY LIEAP

Emergency LIEAP is the program component which assists clients in eliminating home heating emergencies.

Eligibility requirements are the same as Regular LIEAP, except for the additional requirement of verifying a heating emergency.

NOTE: An electronic notice may be accepted in place of a termination notice or written statement from the provider.

21.3.2.A Income

The income guidelines for Emergency LIEAP are the same as those for Regular LIEAP.

21.3.2.B Assistance Group (AG)

The AG guidelines for Emergency LIEAP are the same as those for Regular LIEAP.

21.3.2.C Vulnerability to the Cost of Home Heating

AGs must meet the same definition of vulnerability as outlined in Section 21.3.1.C above. The conditions outlined below must also be met.

21.3.2.C.1 Emergency Home Heating Need

To qualify for Emergency LIEAP, the client must have an emergency home heating need, defined as being without home heating or in immediate danger of being without home heating and being without resources to eliminate the emergency. Clients must be informed that a
termination notice or a low bulk fuel supply alone does not constitute an emergent need, and that fraudulent claims may result in fines and/or loss of future eligibility for LIEAP. Vendors may report when they have been unable to make a delivery because the client was not low on fuel.

When determining if the client meets this eligibility requirement, no consideration will be given to whether or not a Regular LIEAP application was previously approved, unless it is determined the vendor has failed to credit the payment. When this happens, the Worker must contact the vendor to determine what must be done to correct the problem.

In situations where the Regular LIEAP application is pending for additional information, the Worker must attempt to either approve or deny the Regular LIEAP application before taking action on the application for Emergency LIEAP.

The Worker must also contact the vendor to determine if the amount of the Regular LIEAP payment will eliminate the emergency. If not, the Worker may approve an Emergency LIEAP payment in an amount equal to the balance needed to eliminate the emergency.

**Emergency Home Heating Example 1:** Application for Regular LIEAP is received on the day before the component closes.

The application is pended for a copy of the heating bill to verify the account number. The client returns the information within the allotted period in the form of a termination notice and states he wants to apply for Emergency LIEAP. The Worker contacts the vendor and learns that the past-due amount is $89.50. The client is eligible for a Regular LIEAP payment of $200. The vendor agrees to stop the termination. The Worker approves the Regular LIEAP application. No Emergency LIEAP application is processed.

**Emergency Home Heating Example 2:** Mr. Rose applies for Emergency LIEAP and has a termination notice in the amount of $315. The Worker discovers that a Regular LIEAP application was approved within the last month in the amount of $210. The vendor has not yet credited the payment to Mr. Rose’s account. It is further discovered that an error in entering the account number has caused the delay.

The Worker is able to give the vendor the correct number and the payment is credited. The Worker then processes an Emergency LIEAP application in the amount of $105, the amount the vendor verifies is now the past-due amount.

**Emergency Home Heating Example 3:** Ms. Sunflower applies for Emergency LIEAP and has a termination notice in the amount of $400. The Worker had previously approved Regular LIEAP in the amount of $220 for her. Upon contacting the vendor, the Worker learns that the payment has not yet been received. The Worker obligates the full amount of the termination and approves Emergency LIEAP in the amount of $180.
Emergency Home Heating Example 3.1: Same as above, except the amount of the termination exceeds the maximum allowable payment. The Worker cannot obligate the full amount unless he and Ms. Sunflower are able to obtain contributions for the remaining balance if it is below the maximum allowable payment for the current program year. If the contributions for the remaining balance are not obtained or obligated, the Emergency LIEAP application must be denied.

In those instances when it cannot be immediately determined that a vendor has received but not yet credited a Regular LIEAP payment, the Worker must approve the Emergency LIEAP payment for the full amount of the termination notice, provided it does not exceed the amount for which he is eligible.

21.3.2.C.2 Verifying Use of Direct Payments

Clients who receive direct payment of Regular LIEAP benefits must verify that the payment was used for home heating by submitting a receipt with the Emergency LIEAP application. Failure to submit this verification of payment for home heating may result in denial of the Emergency LIEAP application unless verification can be otherwise obtained by the Worker.

NOTE: Receipts for the purchase of bulk fuel must be dated prior to the date of application for Emergency LIEAP. The Worker must consider the date of the receipt(s) when determining if an emergency exists.

Verifying Payment Example 1: A client applies for Emergency LIEAP on February 22. She does not have receipts for the purchase of bulk fuel with her, but returns the next day with a receipt for 104 gallons. The receipt is dated February 22 and is in the amount of the Regular LIEAP check issued January 5. The Worker denies the application because the date of the receipt is not prior to the date of the Emergency LIEAP application.

Verifying Payment Example 1.1: Same situation as above, but the receipt is dated February 15, which is prior to the date of the Emergency LIEAP application. However, the client received 104 gallons of bulk fuel just one week before applying for Emergency LIEAP. According to the client, she uses about 150 gallons per month. Based on her statement, the Worker determines that the fuel should last at least another two weeks. The client has not claimed extenuating circumstances (leak in tank, fuel stolen, etc.). The Worker denies the Emergency LIEAP application.
21.3.2.C.3 Determining the Emergency LIEAP Benefit

➢ Home Heating Suppliers Regulated by the PSC

In order to be eligible for an Emergency LIEAP payment, the client's home heating supplier must agree to provide a minimum of 30 days of service beginning the date the vendor is made aware of and accepts the DHHR's offer. Payment will be denied if the supplier fails to agree to or otherwise does not carry out this requirement.

NOTE: Clients must be made aware that charges continue to accrue during this 30-day period and that failure to make subsequent payments may result in another termination notice at the expiration of this time period. Emergency LIEAP payments are for past-due amounts and are not intended to cover future fuel use.

➢ Bulk Fuel Suppliers

The amount of bulk fuel required to eliminate an emergency is the minimum amount the bulk fuel supplier will deliver.

The minimum delivered amount may or may not last for 30 days or may last for more than 30 days, depending on such variables as severity of weather, size and degree of insulation of living quarters, etc.

The amount of the Emergency LIEAP payment is based on the minimum fuel delivery cost and the amount of the maximum household benefit. See Section 21.4.11.

➢ Determining the Amount of Self-Delivered Bulk Fuel

Emergency LIEAP clients who must self-deliver bulk fuel are eligible for the same amount as the minimum required by the vendor to deliver the bulk fuel.

Self-Delivered Bulk Fuel Example: The minimum delivered amount of propane in Mr. Pine's area is 100 pounds. He will self-deliver 100 pounds, since the amount of his Emergency LIEAP payment is sufficient to purchase that amount.

Payment terms may be arranged with the vendor by means of a credit purchase or prepayment. A credit purchase means payment will be made after the fuel is delivered.
The supplier must be instructed in the recording section of form DFA-67, Authorization for Payment, to notify the local DHHR office of the final delivery. Transmittal of the payment is made upon notification.

Prepayment is made if the vendor refuses to permit a credit purchase, and the DFA-67 must indicate in the recording section that prepayment is being made for the specified amount of fuel. If possible, the unit amounts of fuel per delivery must also be indicated.

Approval is made for the total amount of payment and the vendor is paid in advance.

In either arrangement outlined above, only one payment is made for the total amount.

➢ Non-Elimination of the Emergency

In many situations, the amount required by the vendor to eliminate the emergency will exceed the amount of Emergency LIEAP entitlement. See 21.4.11.

When this occurs, the Worker must determine if the client is eligible for other programs in addition to LIEAP, such as, but not limited to, Emergency Assistance (EA), Community Resource Referrals, etc., in order to meet the vendor's demands.

If the vendor refuses to observe the guidelines set forth in this section, the LIEAP application is denied.

21.3.2.D Residence and Citizenship

21.3.2.D.1 Residence

See Section 2.2 for the residence requirement.

21.3.2.D.2 Citizenship

NOTE: Only citizens and/or qualified noncitizens may be included in the LIEAP AG, but the income of the entire household is counted.

See Chapter 15 for the eligibility requirements of citizenship or qualified noncitizens.
21.3.2.E Duplicate Payment

Eligible AGs are entitled to one Emergency LIEAP payment per season only. However, the payment does not have to be for the primary source of heat, provided the client can show that a heating emergency will result from the scheduled termination. If termination notices have been received on both electric and gas, Emergency LIEAP may be approved for the larger amount, providing the AG lacks the resources to pay the bill. Under no circumstances is the LIEAP payment split to cover both terminations, regardless of the amount for which the client is eligible.

Cases requiring corrective or supplemental payments must be referred to the Office of Client Accounts as provided in Section 21.6.

NOTE: Supplemental LIEAP funds may be made available during the program year, therefore, it is possible that eligible AGs may be entitled to receive an additional LIEAP payment. The DFA Policy Unit will notify the local offices if supplemental funds become available.

21.3.2.F Customer Account Number

This requirement is satisfied by the termination notice.

21.3.2.G Time Limits

The DHHR must ensure assistance is offered to resolve the home energy emergency to all eligible clients no later than 48 hours from the time of application. In most situations, fuel delivery can be made or home heating service continued to prevent an emergency from occurring when the vendor has been informed that the client is eligible for Emergency LIEAP benefits.

NOTE: Some vendors require an extra delivery charge for deliveries outside the normal times or routes. This charge is added to the cost of the fuel to determine the payment amount.
When the eligible AG is faced with a life-threatening emergency, the DHHR must ensure assistance is offered to resolve the emergency no later than 18 hours from the time of application.

The Worker must indicate that this time limit was met by the date entered on the DFA-67 or by a recording on the application.

When verification is requested, the customer is given five days to return the information.

### 21.3.3 OTHER PROGRAMS

Regular or Emergency LIEAP payments are not considered in determining eligibility for or the amount of a benefit for any public assistance program except Emergency Assistance (EA).

#### 21.3.3.A Emergency Assistance (EA)

When an EA client requests benefits to eliminate a home heating emergency, the amount of any LIEAP payment made but not yet credited to the account, or that will be made, is not deducted from the ongoing overdue bill when computing the daily average amount. It is subtracted from the minimum payment due before determining the amount the DHHR will pay through the EA program. However, the receipt of EA does not affect eligibility for Emergency LIEAP.

#### 21.3.3.B 20% Utility Discount Program

The receipt of benefits under the 20% Utility Discount Program does not affect eligibility for Emergency LIEAP.
21.4 APPLICATION PROCESS

21.4.1 MAIL-OUT APPLICATIONS

The LIEAP mail-out contains an application form (DFA-LIEAP-1), an instruction sheet (DFA-LIEAP-1a). It is mailed to any household which received LIEAP during the previous LIEAP season. These applications are mailed prior to the program start date. The client may choose to return the completed form and information by mail or complete it online by use of West Virginia inROADS.

The process below outlines guidelines for submitting the application through inROADS:

- The client receives certain information in the mail-out which must be entered online in order to complete the inROADS process.
- inROADS brings current basic demographic information from the eligibility system into the online application.
- No signature page is required and the application is considered electronically signed when the client uses this process and enters information from the letter and other requested identifying information.
- The online process is available for use through the end of the Regular LIEAP season.
- When an application is received through inROADS, the signature and identity is considered verified. The application is considered complete when all verification is received, in addition to the electronically signed application.

21.4.2 OUTREACH

21.4.2.A DHHR Role

Outreach is a federal requirement to ensure that potentially eligible, low income AGs are made aware of and encouraged to apply for benefits. Outreach is accomplished as follows:
• DHHR mails applications as described above.
• DHHR provides LIEAP informational leaflets to all appropriate agencies and interested individuals.
• DHHR contracts with Area Agency on Aging (AAA) offices and the West Virginia Office of Economic Opportunity (WVOEO), which permit senior citizen centers, local Community Action Agencies, homeless shelters, and other interested parties to receive LIEAP applications and information and referral services as desired. These are referred to as Sub-Grantee Agencies.
• Information and referral service organizations.

21.4.2.B The Role of the Sub-Grantee Agency

If the sub-grantee organization wishes to participate in LIEAP, the outreach role may consist of providing and accepting applications, reviewing the applications for completeness, obtaining required verification, and forwarding the completed applications to the local DHHR office for final disposition. This service may also include home visits as needed.

Instead of receiving or accepting applications, the sub-grantee agency may simply inform interested persons about LIEAP. Such activity involves providing the LIEAP Fact Sheet and referring those who wish to apply to the local DHHR office.

Sub-grantees interested in expanding their role may also provide follow-up counseling in energy conservation and/or money management.

21.4.3 OPEN APPLICATION INTAKE PERIOD

During the annual open application intake period, clients who did not receive a LIEAP mail-out application may apply for LIEAP at their local DHHR office or at any of the outreach locations listed above. The application is also available and may be completed through inROADS.

21.4.4 SUB-GRANTEE AGENCY RESPONSIBILITIES

When an individual applies for LIEAP through an agency other than DHHR, the application process consists of:
• Assisting clients in filling out applications;
• Verifying income and other information as needed;
• Attaching copies of heating bills to the form; and
• Submitting the application to the local Department of Health and Human Resources (DHHR) office for processing in the eligibility system.

Completed applications received from sub-grantee agencies must be accompanied by a list showing the name and address of each client and the total number of applications submitted. This list must be signed and dated by an authorized employee of the sub-grantee agency. The sub-grantee must keep a copy of the list for his records.

Clients who have received termination notices or indicate they are experiencing a heating emergency must be referred to their local DHHR office.

21.4.5 DHHR RESPONSIBILITIES

The Worker’s responsibilities are to:
• Process the application in the eligibility system;
• Determine if case has previous unpaid repayment;
• Determine eligibility;
• Determine the amount of the payment; and,
• Notify the client of the action taken.

When the Low Income Energy Assistance Program (LIEAP) client wishes to apply for another program in addition to LIEAP, the DFA-2 may be used instead of the DFA-LIEAP-1 form to prevent the need to complete two application forms. Otherwise, the DFA-LIEAP-1 must be completed for all LIEAP clients.

In order to maintain controls for receiving, processing and completing follow-up on applications to ensure checks are issued, the local office must retain a LIEAP application register or log that indicates, at a minimum, the client’s name, how and when the application was received (e.g., mail, office visit or from another agency) and if the application is for Regular or Emergency LIEAP. The DFA-LIEAP-6 form may be used for this purpose.
21.4.6 APPLYING FOR BENEFITS

Although it is not mandatory, the head of household should be encouraged to apply for benefits.

- Regular LIEAP applications may be mailed or delivered to the local DHHR office. Applications may also be submitted by use of inROADS on the DHHR website. The Worker may request additional information if needed for eligibility determination, but incomplete applications must be denied.

- Emergency LIEAP applications require a face-to-face interview at a DHHR office, but may be taken in the home for clients who meet certain requirements.
  - Home visits are limited to those persons age 60 and over or disabled persons of any age who live alone and have no means of transportation to the local DHHR office in order to apply for Emergency LIEAP.
  - The Community Services Managers (CSM) can permit outreach workers from a senior citizen center or Community Action Agency to take the application and/or DFA-67 forms to the client for completion and to obtain the necessary documentation to verify the emergency.
    - If the CSM permits employees from other agencies to take applications in the home, the employees must be trained to assist the homebound client to complete the application form, obtain the required verification and otherwise perform the necessary tasks required for DHHR to make a decision on the application.
  - The DHHR will make the final decision regarding eligibility for and the amount of Emergency LIEAP benefits. Personnel from other agencies are not permitted to make this decision or inform the client about his eligibility.

21.4.7 COMPLETION OF FORM DFA-LIEAP-1

The DFA-LIEAP-1 consists of three sections, described below.
21.4.7.A Section I – Identifying Information

This section collects information about the client and the assistance group (AG) and is self-explanatory. All questions must be answered.

21.4.7.B Section II – Home Heating Information

The client circles the correct number which applies to his circumstances. Item F of the DFA-LIEAP-1 must be completed, regardless of whether or not the client’s home heating supplier is a Public Service Commission (PSC)-regulated utility or a bulk fuel supplier. The client must provide information for their primary heating and electric source.

A LIEAP client may indicate a different primary source of home heating from the source indicated on previous applications. When this occurs, the Worker must carefully review the reasons for the change. If the client is changing heat sources to avoid payment of a home heating bill that exceeds the amount of the Regular LIEAP payment, the LIEAP application must be denied. Otherwise, the difference may result from a change in residence, with the home heating bill at the old residence settled, or a change in the heating source at the same residence. In these situations, the change is permitted.

Item E of the DFA-LIEAP-1 must be completed and a copy of the bill or a current receipt or invoice must be attached. Failure to supply this information will result in denial of the application.

Item F of the DFA-LIEAP-1 must be completed for data collection purposes. If the client does not complete this section, the Worker must attempt to collect this data. The Worker is required to record in case comments all actions taken to collect this data.

NOTE: After processing the application, the Worker must record in case comments the account number, the name on the account, and, if not the client, the relationship of this person to the client. Vendors cannot correctly credit an account when the name of the LIEAP client and the name on the account do not match.
21.4.7.C Section III – Signatures and Statements of Liability

Items A through G of the DFA-LIEAP-1 must be completed. If the client marks No on any item, the Worker must resolve any confusion or misunderstanding. If the client continues to answer No to any item, he should be informed that his benefits may be delayed or possibly denied.

The client must sign and date the application. If someone else assisted the client, that person must also sign and date the form.

21.4.8 COMPLETION OF FORM DFA-LIEAP-1b

Section I of the DFA-LIEAP-1b is provided for the use of sub-grantee staff. If the application was received by another agency or by mail, the appropriate space must be marked.

NOTE: The Worker or Other Agency must use shelf document DFA-LIEAP-1b to document the application process.

When the application is received by the DHHR directly from the client (via mail or office visit), the Worker skips Section I of the shelf document DFA-LIEAP-1b and goes on to complete Section II.

Section II is provided for the use of the DHHR Worker only. Other agencies do not complete this section.

When the application is received by the DHHR directly from the client (via mail or office visit), the Worker completes this section. Items C through G are intended for completion after the application is processed in the eligibility system.

When the application is received initially by another agency, Section I must be completed and the other agency staff must enter his signature, title and the date before sending the form to the DHHR. The other agency never completes Section II.

In receiving applications for Regular LIEAP, workers from other agencies must observe the following guidelines:

- All questions on the application form must be answered, and all program policy must be followed.
• The application must be signed and dated by the client and the agency staff.

**NOTE: If the application is not signed by both parties, it must be returned to the other agency for completion.**

• If verification is required, the instructions outlined in Section 21.4.9 below must be followed. A copy of the heating bill must be attached to the application.

• Clients must be allowed no more than 10 working days to submit verification.

• Applications ready for processing by the local DHHR office must be sent to that office on a daily basis with a signed and dated word-processed or typewritten list with the name and address of each client.

• Applications held in excess of 30 days by any outside agency are not accepted.

• Clients must be informed that the DHHR staff will determine eligibility, provide written notification of the decision, and make payment to or on behalf of eligible AGs.

### 21.4.9 VERIFICATION

Verification is the process of documenting statements and information provided by the client. Although specific guidelines for verifying certain eligibility criteria are indicated below, the Worker may request verification of any information provided by the client in determining eligibility for LIEAP benefits.

The responsibility of the client in the eligibility determination process includes the effort to obtain required verifications. However, if the client is unsuccessful in his attempt to obtain the verification or if he has physical or mental impairments which limit his ability to perform this responsibility and he has no family members or other persons who will help him, the Worker will assist the client to obtain the verification.

The Worker must decide when and what information must be verified or when additional information must be obtained, particularly when information provided by the client is questionable or more information is needed to complete the eligibility determination or payment process.

Failure or refusal on the part of the client to obtain verification when required or requested by the Worker as outlined in the instructions below will result in a denial of the application.
21.4.9.A Income

Income from all sources for the AG must be verified when the client indicates a source of income for any AG member.

Income Verification Example: The application form indicates Supplemental Security Income (SSI) as the source of income for one AG member and employment for another. The client must verify the amount of employment and the SSI income.

Documentation may include pay check stubs, award letters, and written statements from employers.

Although documentation should include earnings from the month of application, the Worker may use pay check stubs and other documents showing earnings during the month prior to the month of application, provided the client indicates no change is expected. No verification from an earlier period is used.

When the client reports the AG has zero income during the month of application, he must verify how living expenses of the AG, defined as food, clothing, shelter, light, heat and incidentals, have been paid or how the AG members have managed without income for 30 days prior to the date of application. Form DFA-LIEAP-4, Zero Income Heating Cost Verification Form, must be completed by the client.

NOTE: The income verification policy referred to above is not required if current information in an open WV WORKS, Medicaid, Supplemental Nutrition Assistance Program (SNAP), or other DHHR case can substantiate the amount of income submitted by the client on the application form. For LIEAP purposes only, current is defined as verified within the two calendar months prior to the month of application.

21.4.9.B Vulnerability

Verification of vulnerability for clients who have home heating vendors regulated by the PSC is satisfied when the customer account number is entered on the application form and verified by the attached bill, provided the account is active.
This account number must be entered on the application unless the client can demonstrate that other circumstances exist (i.e., home heating costs are paid to the landlord).

**EXCEPTION:** Verification of vulnerability is mandatory for all zero income clients. Failure to provide this verification will result in the denial of the LIEAP application.

Bulk fuel users must submit a signed and dated bill from the bulk fuel vendor which indicates that a delivery was or will be made. When such verification cannot be provided, the client must submit the name, address or telephone number of a vendor who can verify that fuel deliveries have been made in the past or will be made for the current winter season.

The Worker must obtain written verification of all other arrangements not referred to above. Statements must be dated and signed.

Otherwise, the decision to verify vulnerability is at the Worker's discretion. In some instances it will be necessary for the LIEAP Supervisor or Worker to contact managers of public housing authorities in their areas to determine if the tenants are vulnerable or invulnerable to the cost of home heating. A screening procedure must be established with the Housing Authority to verify whether or not certain clients live in public housing. The housing authority managers should be informed that the client signs a release (item C in section III of the LIEAP application) which protects them from violating confidentiality.

### 21.4.9.C  Social Security Number (SSN)

Verification of SSNs is at the discretion of the Worker. When a client indicates he has no SSN, the Worker must refer that person to the Social Security Administration (SSA) to apply for an SSN.

### 21.4.9.D  Emergency Home Heating Need

An emergency home heating need must be verified with a written notice of termination from a PSC-regulated utility. When the home heating provider is a bulk fuel distributor, verification must be a written statement certifying that no future deliveries will be made without assurance of payment. If the bulk fuel provider refuses to provide such verification, the Worker may contact the provider by phone and note the results of the conversation in the recording block of the application and in case comments.
In situations involving bulk fuel users, the Worker may question whether the AG is actually or nearly without fuel. Since there is no written notice of service termination, the Worker may need to check with the vendor to determine when the last delivery or purchase was made. The only other method of resolving this question is to make an on-site inspection of the fuel supply. Such action is permissible at the discretion of the CSM or the person acting on his behalf. Prior to taking such action, the Worker must obtain the client’s written permission and must place documentation of the client’s permission in the case record. It is appropriate at this point to remind the client that fraudulent claims could result in loss of future LIEAP benefits.

When home energy costs are included in the rent or some other special arrangement exists between the tenant and landlord, a written eviction notice dated and signed by the landlord is sufficient.

21.4.9.E Age of the Head of the Household

Verification of the age of the head of the household is also at the Worker’s discretion. This information is used solely for statistical purposes and has no bearing on eligibility.

21.4.9.F Customer Account Number

The client is required to provide the customer account number. Failure to provide this information will result in denial of the LIEAP application.

21.4.9.G Home Heating Payments in Shared Situations

Customers who indicate they share a utility meter or bulk fuel tank with another AG in a separate dwelling may qualify for Regular LIEAP.

When an Emergency LIEAP client indicates he shares either a utility meter or bulk fuel tank, the Worker must have his Supervisor contact the LIEAP Coordinator at the Division of Family Assistance (DFA) for guidance. In most cases, eliminating the emergency for one will eliminate it for the others sharing the meter or tank, but special circumstances may apply.
21.4.10 DETERMINING ELIGIBILITY

21.4.10.A Regular LIEAP Benefits

When the client has met all eligibility requirements outlined in Section 21.3, and has complied with the verification instructions in Section 21.4.9 above, the client may be found eligible for Regular LIEAP benefits.

Regular LIEAP payments are intended for the primary source of home heating only. In a heating emergency, however, the payment may be applied to an old bill or to a reconnect and/or deposit to reinstate service, provided the client is guaranteed 30 days of service.

The Worker or Supervisor must contact the State LIEAP Coordinator for approval of Regular LIEAP for any other purpose.

21.4.10.B Emergency LIEAP Benefits

When the client meets all eligibility requirements outlined in Section 21.3, and has complied with the verification instructions in Section 21.4.9 above, the client may be found eligible for Emergency LIEAP benefits.

Emergency LIEAP payments are intended for the primary source of home heating, as well as for back bills, reconnect charges and/or deposits required to reinstate service, and extra delivery charges, as needed to provide or reinstate service.

NOTE: When a client files a complaint and is granted a temporary suspension of a termination as a result of a PSC complaint, it does not affect eligibility for Emergency LIEAP and must not be used as a reason to deny an application.
21.4.10.C Alternate Use of LIEAP Benefits

With the approval of the State LIEAP Coordinator, an emergency Regular LIEAP (LIEAP requested for a utility that has an impending termination) or Emergency LIEAP payment may be approved for electricity when termination of this utility will result in a total inability to use the primary source of heat. For example, a gas furnace may not have a manual override to permit its use when electricity is not available.

**NOTE:** In order to be eligible for an alternate LIEAP payment, the AG must first be vulnerable to the cost of home heating.

In addition, Emergency LIEAP payments may be authorized to cover the cost of furnace repair or propane tank replacement when the client reports there is no acceptable alternate heat source or that space heaters are the only alternate source of home heating and alternate housing is not available.

**NOTE:** The Worker must make every attempt to verify the AG will be without home heating if the alternate source of heat is terminated.

21.4.11 DETERMINING THE AMOUNT OF PAYMENT

After the client is determined eligible for LIEAP, the Worker must determine the amount of the LIEAP payment.

21.4.11.A Maximum Allowable Payment

The maximum allowable payment of a combined Regular and Emergency LIEAP benefit cannot exceed the maximum per AG established for each program year, currently $700.
21.4.11.B  Regular LIEAP Payment

The chart in Appendix A shows the base amount of the Regular LIEAP benefit. Regular LIEAP benefits are automatically determined by the eligibility system based upon the income, the number of persons in the AG, and the type of energy used for home heating.

Percentage increments for certain types of energy are applied to the base amount to arrive at the amount of increment for each type of energy. The base amount plus the incremental amount represents the Regular LIEAP benefit. These percentage increments can now be found on the DFA intranet site.

NOTE: Emergency LIEAP payments are not affected by the percentage increments.

21.4.11.C  Emergency LIEAP Payment

Emergency LIEAP payments cannot exceed the maximum allowable payment for the program year. To determine if a payment can be made, the Worker must compare the amount available to the client and the amount needed to eliminate the emergency, as shown in the following examples.

NOTE: These examples are based on the maximum allowable payment of $700. The maximum allowable payment is subject to change each program year.

Determining the LIEAP Payment Example 1: Ms. Iris receives a Regular LIEAP payment of $225 in January. In March, she applies for Emergency LIEAP. The amount required to eliminate the emergency is $100, and the maximum allowable amount for the AG is $700.

$700 - $225 = $475 (amount available to the AG)

$100 (the amount of the emergency) is less than $475.

$100 is the amount of the Emergency LIEAP payment.

Determining the LIEAP Payment Example 1.1: Same as above except the amount required to eliminate the emergency is $475. $700 - $225 = $475.
$475 is equal to the remainder.  
$475 is the amount of the Emergency LIEAP payment.

Determining the LIEAP Payment Example 1.2: Same as above except the amount required to eliminate the emergency is $570.

$700 - $225 = $475.  
$570 is greater than $475.  
$570 - $475= $95. (Client Obligation)

The amount of the Emergency LIEAP payment is $475, provided the client can pay the $95 or otherwise obtain that amount from other agencies.

**NOTE:** A Regular LIEAP payment issued to and correctly credited to the client’s account is never subtracted from the amount required to eliminate the emergency. Regular LIEAP payments issued to the wrong vendor are likewise not subtracted from the amount of the emergency. If it is determined that the vendor has received the payment but has not yet credited it to the AG’s account, the Worker must first try to correct the problem. The vendor must then inform the Worker of the adjusted amount of the emergency.

When the amount required to eliminate the emergency exceeds the amount of the Emergency LIEAP payment, the application for Emergency LIEAP benefits is denied if the emergency is not eliminated. The client must find other resources or negotiate with the home heating supplier to accept the Emergency LIEAP benefit.

### 21.4.12 CLIENT NOTIFICATION

Clients must be notified of the eligibility decision within 30 days of the date of application. Notification is accomplished by an eligibility system-generated letter.

#### 21.4.12.A Pending Regular LIEAP Applications

Regular LIEAP clients must be allowed 15 calendar days to respond to requests from the Worker for additional information. Failure to respond results in denial of the application. The Worker must notify the client of the eligibility decision within 30 days of the date of application.
21.4.12.B Pending Emergency LIEAP Applications

If verification and/or additional information is needed in order to make a decision on an Emergency LIEAP application, the appropriate request form must be completed and given to the client at the time of the intake interview. The client must be given five working days to return the requested information. The client must be notified of the eligibility decision as soon as possible but no later than 30 days from the date of application.

NOTE: Copies of all correspondence not completed in the eligibility system must be placed in the case record.
21.5 PAYMENT AND AUTHORIZATION PROCESS

Payments are made either to the vendor on behalf of the client or by direct payment to the assistance group (AG) as specified below.

21.5.1 REGULAR LIEAP BENEFITS

21.5.1.A Direct Payment

Direct payment to the AG of Regular LIEAP is made only in the following situations:

- The primary source of home heating is a bulk fuel such as fuel oil, liquefied petroleum gas, coal, kerosene or wood, and the client does not indicate that an emergency exists.
- Heating costs are included in the rent or mortgage payment as a specified amount.
- The Public Service Commission (PSC)-regulated home heating supplier which services the household has not entered into a contractual agreement with the Department of Health and Human Resources (DHHR).
- Home heating costs are paid separately to a landlord or other entity.

21.5.1.B Special Payments

There may be situations in which a vendor payment is not possible or appropriate. With the approval of the State LIEAP Coordinator, the Supervisor may authorize direct payment to the client or a mutually acceptable third-party. Approvals are made on a case-by-case basis only and may not be used to create a precedent for future payments.

21.5.1.C Vendor Payment

Vendor payments are made only in the following situations:

- The home heating provider is a PSC-regulated heating supplier that has entered into an agreement with DHHR.
- The heating bill is in the name of someone not living in the AG.
• A bulk fuel user is without or in immediate danger of being without fuel for home heating, the time required for a regular LIEAP issuance would not eliminate the emergency, and the following conditions apply:
  o The amount required to eliminate the emergency is equal to or less than the Regular LIEAP benefit; and,
  o The client verifies he will be without fuel for home heating prior to the receipt of a direct payment check and states he has no resources with which to purchase a temporary supply; and,
  o The bulk fuel supplier will not make a delivery unless it is pre-authorized by the Worker, but agrees to provide fuel for at least 30 days from the date he is made aware of and accepts the DHHR's payment; and,
  o The client agrees to the vendor payment instead of the direct payment.

21.5.1.D Use of Form DFA-67 for Regular LIEAP Payments

It may sometimes be necessary to use the DFA-67 to make vendor payment of Regular LIEAP benefits to prevent bulk fuel emergencies. When this occurs, the following instructions apply:

• Form DFA-67 is used to authorize the delivery in almost the same manner as described above for Emergency LIEAP. The difference is that no voucher is eligibility system-generated. Instead, the Worker completes the DFA-67 as required to authorize delivery of the home heating service.

• Vendor payment is then made to the home heating supplier when the DFA-67 voucher is returned and is properly signed.

When completing this form, the dollar amount authorized must be identical to the amount of the correct LIEAP benefit payment chart at Appendix A.

**NOTE:** This procedure is also used to make payment to utility companies which did not enter into an agreement with the DHHR and a DFA-67 is demanded prior to the delivery.

The DFA-LIEAP-5 form, Authorization for Delivery and Payment of Emergency Regular LIEAP, may be used instead of the DFA-67 form, as follows:

• The Worker must first determine that the vendor accepts the form instead of the DFA-67 and guarantees delivery.
• The Worker must ensure that vendor payment and not direct payment is made.
The vendor is not required to return the form to the county office to process payment.

The Worker must use only the amount of the Regular LIEAP payment which the client is eligible to receive.

The client’s signature must be entered in the space on the form before the Worker can authorize payment on the client’s behalf.

The form may be faxed to the utility as appropriate.

### 21.5.2 EMERGENCY LIEAP BENEFITS

Payment of Emergency LIEAP benefits is made by vendor payment only, except as described in 21.5.1.B above.

---

#### 21.5.2.A Authorization of the Emergency LIEAP Payment

The following procedure is used to authorize Emergency LIEAP vendor payments:

- Form DFA-67 must be completed as instructed below in item B, Completion and Processing of Form DFA-67.
- The completed form is given to the vendor to authorize the delivery of bulk fuel or to restore or continue the heating service.

**NOTE:** When payment is being authorized to PSC-regulated heating providers or to landlords, the first day of the 30-day period of service begins on the date the vendor is made aware of and accepts the DHHR’s payment. The client must sign the form on the date he receives it from the Worker.

- The vendor signs and returns the form to the county office and the payment is processed by the DHHR Financial Clerk or designee.
21.5.2.B  Completion and Processing of Form DFA-67 for Emergency LIEAP Payments

21.5.2.B.1  Case Identification Information

The Worker enters the necessary case identification information and the return address of the county DHHR office in the eligibility system.

21.5.2.B.2  Quantity of Fuel

The Worker must enter the quantity of fuel in the eligibility system. When bulk fuel deliveries are being authorized, the Worker, client and vendor must agree on the exact amount of fuel to be delivered. When electric or gas service is being authorized, the time period of the overdue bill must be entered. For all PSC-regulated heating providers or landlords, the Worker must also enter the beginning and ending dates of the 30-day period of service. The period of service begins on the date the vendor is made aware of and accepts the Emergency LIEAP payments and ends 29 days later.

21.5.2.B.3  Payment Authorization

The Worker must enter the dollar amount of the delivery in the eligibility system. All signatures and dates must be entered as indicated at the bottom of the DFA-67.

After the vendor returns the voucher to the county office, the Financial Clerk or designee clears it for payment in the eligibility system.
21.6 CASE MAINTENANCE AND CORRECTIVE ACTION

Adjustments in Low Income Energy Assistance Program (LIEAP) payment amounts result from Worker or client errors or decisions from Fair Hearings.

NOTE: Corrections or changes in payment amounts are not permitted at the county level after the check has been written. Workers or Supervisors must contact the State LIEAP Coordinator before taking any action resulting in the issuance of a payment other than the initial approval. Financial Clerks and designees must contact the State LIEAP Coordinator before attempting to enter payment information which does not match the amount of LIEAP approved for the assistance group (AG).

All changes affecting the amount of payment must be made by the Office of Client Accounts.

Corrective action must be initiated on all cases in which an error has occurred, regardless of who made the error.

21.6.1 CASES DENIED IN ERROR

When a case has been denied in error, the case must be re-entered in the eligibility system as an approval in order to generate payment. The Worker must notify the client in writing that his Regular and/or Emergency LIEAP application was denied in error and include the amount of the payment and to whom payment will be made. The Worker must record the corrective action in the recording space in Section IV of the application form and in the eligibility system case comments, as appropriate.

21.6.2 UNDERPAYMENTS

When a case has received an underpayment, the Worker must send a memorandum to the Office of Client Accounts that indicates the case name, address, case number, amount of the underpayment, amount of the correct payment, and the type of payment (vendor or direct) to be made on behalf of or to the AG, including the vendor number, as appropriate. The Worker will also notify the client in writing that an error has been made and is being corrected.
The Office of Client Accounts will write a check as instructed in the memorandum and make the necessary corrections in the eligibility system. Under no circumstances must staff in the local DHHR office attempt to issue a corrected payment.

**21.6.3 CASES APPROVED IN ERROR**

When an ineligible case is approved, an overpayment occurs, or an incorrect payment is made, regardless of who makes the error, the Worker must take the action outlined in Section 21.6.4 below. The State must be reimbursed for all payments issued in error.

An inappropriate payment results when a client incorrectly states the primary method of home heating on page 2 of the DFA-LIEAP-1 or during the intake interview. If it is determined prior to the Emergency LIEAP approval that the client received an inappropriate Regular LIEAP payment, the Emergency LIEAP application is denied. Otherwise, the client must repay the LIEAP benefit.

**21.6.4 REPAYMENT**

The repayment process involves notifying the client that repayment is necessary for a certain amount, obtaining the client's signature on an agreement form to repay a certain amount, receiving the funds from the client, and returning the funds to the Office of Client Accounts.

**21.6.4.A Repayment Agreement**

When the client and the Worker discuss repayment, the client must agree to repay by any of the three methods indicated on the DFA-LIEAP-3 form. The Worker must enter the client's name, the amount of repayment, type of payment (Regular or Emergency LIEAP), and the type of error (overpayment, incorrect payment, duplicate payment, case approved in error, etc.).

The Worker must ensure the client understands the statement concerning the disposition of the remaining balance when not paid by the due date. The client must sign and date the form along with the Worker and Supervisor. The original goes to the client and the copy is placed in the case record.
When repayment involves the energy needs of another AG, the repayment process is not complete until that AG receives the LIEAP benefit. The Worker must send a copy of the completed LIEAP repayment agreement to the Office of Client Accounts with instructions to write a check to the correct case.

21.6.4.B Refusal to Sign the Repayment Agreement or Make a Repayment

The Worker must explain the Fair Hearing process to the client if he refuses to sign the DFA-LIEAP-3 form. In addition, the Worker must follow up the discussion with a letter which states that certain LIEAP benefits the client may otherwise be entitled to receive will be affected by his refusal to sign the repayment agreement.

When the client refuses to make repayment, the amount owed is deducted from future LIEAP benefits. These deductions are assessed only after the Worker has completed the instructions outlined above. Repayment deductions can only be imposed during a program year following the program year in which the client refused to repay.

The Worker must record in the eligibility system case comments that the client may be eligible for LIEAP but that payment must be reduced or withheld to satisfy repayment for a previous year.

21.6.4.C Tracking the Penalty

All Regular LIEAP cases must be screened to determine if repayment is due from a previous year. When a case is approved for Regular LIEAP and identified as one in which repayment is due, the Worker must ask the client to come to the office to discuss repayment. After the Worker explains the need for repayment, the client is given the following options:

- When the repayment amount is equal to the Regular LIEAP payment, the client makes repayment in full or the Regular LIEAP payment is withheld.
- When the repayment amount is less than the Regular LIEAP payment, the client makes repayment in full or the Regular LIEAP payment is reduced by the amount of the repayment and the balance is paid to the client.
- When the repayment amount is more than the Regular LIEAP payment, the client makes payment in full or the Regular LIEAP payment is withheld and deducted from the amount of the repayment. The client then receives written notice from the Worker of the balance due.
NOTE: Once payment arrangements are made with the client, the Worker must send a copy of the DFA-LIEAP-3 and the eligibility system-generated letter to the Repayment Investigator (RI) for their respective county so the payment may be tracked.

21.6.4.D Withholding the Regular LIEAP Payment

When it is necessary to withhold a LIEAP payment, the Worker must contact the State LIEAP Coordinator at the Division of Family Assistance (DFA) for instructions.

21.6.4.E Making Adjustments in the Regular LIEAP Payment

Adjustments to the LIEAP payment must be made by the Office of Client Accounts. In a memorandum addressed to the Office of Client Accounts, the Worker must provide the identifying information and explain how the Regular LIEAP payment must be adjusted.

21.6.4.F Client Notification

The client must receive written notification of all decisions made on the Regular LIEAP payment or repayment, any adjustments to the Regular LIEAP payment, and/or fulfillment of the repayment.

21.6.4.G Repayment by the Vendor

When the error involves payment to the wrong vendor, the vendor must return the payment to the State. The Office of Client Accounts notifies the Worker of the returned payment, and the Worker must provide the correct vendor number and instructions for reissuing the check.

When the vendor is unaware he has received a payment in error, the Worker must contact the vendor and request repayment. If the Worker is unable to effect repayment, the case is referred to the Office of Client Accounts and/or the State LIEAP Coordinator.
When the vendor has received a payment for an AG which subsequently is determined ineligible due to an error of any type, the vendor must be asked to return the payment. If the vendor refuses or otherwise fails to refund the money to the State, the client is responsible for making repayment as outlined above.

21.6.5 RETURNED CHECKS

Checks are sometimes returned by clients, vendors, or the United States Postal Service (USPS). The following sections provide instructions regarding these situations.

21.6.5.A Check Returned by the USPS

Checks returned by the USPS are sent to the Office of Client Accounts. The Office of Client Accounts will contact the local office requesting disposition of the check. The Worker must attempt to contact the client to obtain a new address or other information.

21.6.5.B Change of Payee

Supervisory approval is required to change the name of the payee. When the payee is deceased and the check needs to be rewritten in the name of a survivor (usually the spouse), a copy of the death certificate and a court order naming the survivor as administrator of the estate must be submitted to the Office of Client Accounts. A memorandum stating the case number, name and address of the old payee and the name and address of the new payee must accompany these documents.

21.6.5.C Check Returned by the Vendor

Checks are often returned by the vendor to the local office and to the Office of Client Accounts.
When this occurs, the reason for the check return must be obtained and an effort made to ensure the client receives the benefits to which he is entitled. The check may be rewritten by the Office of Client Accounts as a direct or vendor payment depending upon the client's wishes, provided he is eligible for the payment. This also applies when the vendor has returned only part of the LIEAP payment.

21.6.5.D Client Refuses to Accept the LIEAP Check

When the client refuses to accept the LIEAP or a vendor payment, the Worker must determine the reason for refusal and clarify any confusion on the part of the client. If the client continues to refuse the payment, it is returned to the Office of Client Accounts with a memorandum explaining why the check is being returned.

21.6.6 LOST, STOLEN OR DESTROYED CHECKS

LIEAP clients who claim that their checks were lost, stolen, or destroyed must complete an affidavit attesting to the specific occurrence. Form DFA-36, with the appropriate changes in terminology to reflect the LIEAP check, is used for this purpose. This request for a stop payment action must be made as soon as possible by sending the affidavit with a memorandum of explanation to the Office of Client Accounts. This action cannot be requested by telephone and no action will be taken without the written affidavit.

The client must be informed that he must wait up to 30 days from the date of the stop payment action in order to receive his check. No checks are written at the local level to replace lost, stolen or destroyed checks. After the check has been cleared by the State Treasurer’s office, payment is made promptly to the client. If the client is placed in an emergency situation as a result of the stop payment action, the client may submit an Emergency LIEAP application.

NOTE: Checks received in the local office must be forwarded to the Office of Client Accounts.
21.6.7 CLIENT REFUSES EMERGENCY LIEAP DELIVERY OF BULK FUEL

When the client refuses to accept a bulk fuel delivery, the Worker must first allow the client and vendor to work out a solution. The decision about what action will be taken must be made primarily by the client.

21.6.8 FRAUD

All suspected fraud situations involving clients and/or vendors must be referred to the State LIEAP Coordinator.

21.6.9 FAIR HEARINGS

Clients who apply for LIEAP have the right to a Fair Hearing if:

- The application is denied.
- The client believes the payment amount is in error.
- There was a delay in processing the application.
- The client believes that he has been discriminated against because of race, color, national origin, sex, age, disability, religion, or political beliefs.

The client must request a hearing within 60 days of receipt of the notification. The DHHR has 30 days after the hearing request is received to schedule the hearing, arrive at a decision, and initiate the appropriate action.
21.7 ADDITIONAL LIEAP SERVICES

21.7.1 Repair or Replacement

If a client wants to apply for assistance with repair or replacement of their heating unit or cooling unit, he must notify the Worker at the local office. This application, the DFA-LIEAP-EER-1, is not available on inROADS. The application can be mailed to the client or the client can pick up an application at the local office.

- When the client comes in to the local office to apply for assistance, the Worker should have the client complete form DFA-LIEAP-EER-1. The Worker must date stamp and log the application, and fax or email the completed form to the State LIEAP Coordinator for processing. This application will not be processed in the eligibility system, but the Worker needs to make a note in the case comments that the application was received and was sent to the State LIEAP Coordinator.

- The client can also mail the completed application to the State LIEAP Coordinator per the application instructions.

The income limit for the heating and cooling unit repair and replacement is 150% of the Federal Poverty Level (FPL) based on gross income. There is no asset test. The household size is also used in determination of eligibility. This is for heating and cooling unit repair or replacement.

In addition to income and household size a client must have in their household for cooling unit:

- An individual that is disabled, or
- An individual that is age 60 or over, or
- A child that is age 5 years or younger

It will run from May 1st to September 30th or until funds are exhausted. The cooling unit repair or replacement program will not be done in the winter months.

All applications will be reviewed at the Division of Family Assistance (DFA) Office by the State LIEAP coordinator. Applications will be accepted until funds are exhausted. A notice will be sent to the local DHHR offices once the funds have been exhausted and no more applications can be accepted. All questions regarding the repair and replacement program would need to be referred to the DFA office at 304-356-4619.
21.7.2 Emergency Repair and Replacement Guidelines

This is separate from Weatherization Assistance Program (WAP).

The gross income limit is 150% of the FPL.

See Appendix D for the maximum allowable gross income levels for LIEAP FY 2019.

APPENDIX B: PSC-REGULATED LIEAP VENDORS

The following gas and electric vendors are regulated by the Public Service Commission (PSC) and have signed an agreement with the Department of Health and Human Resources (DHHR) to accept LIEAP payments. These vendors are shown on the PSC web page as authorized to do business in West Virginia. Regular LIEAP payments must be issued to these vendors on behalf of their customers.

22.1 INTRODUCTION

The West Virginia Children’s Health Insurance Program (WVCHIP) is administered through the Children’s Health Insurance Agency within the Department of Health and Human Resources (DHHR, the Department). WVCHIP is a means-tested health insurance program for children from birth to age 19. Applications are received through the Federally-Facilitated Marketplace (FFM), the DHHR, or any entity approved to take applications on behalf of the DHHR. Eligibility determination by the FFM or the Department are equally valid.

Eligible clients are assigned to one of the following WVCHIP enrollment groups based on the countable income of the Income Group (IG):

- WVCHIP Gold – up to 150% of the federal poverty level (FPL) with limited co-payments
- WVCHIP Blue – over 150% of the FPL and up to 211% of the FPL with full co-payments
- WVCHIP Premium – over 211% of the FPL and up to 300% of the FPL with monthly premiums and full co-payments
- Exempt – Federal regulations exempt Native Americans/Alaska Natives from cost sharing

Even though some policies and procedures for WVCHIP are the same as those for Medicaid, medical coverage under WVCHIP is not Medicaid. WVCHIP policies and procedures have been placed in this chapter to differentiate WVCHIP from Medicaid. Where policies and procedures duplicate those for Medicaid, reference is made to the appropriate Income Maintenance Manual (IMM) chapter.
22.2 APPLICATION/REDETERMINATION PROCESS

22.2.1 GENERAL INFORMATION

Applicants may apply or reapply for the West Virginia Children’s Health Insurance Program (WVCHIP) through the Federally-Facilitated Marketplace (FFM, the Marketplace), the Department of Health and Human Resources (DHHR), or the DHHR’s designee. An eligibility determination made by the FFM is accepted by the DHHR and enrollment in WVCHIP is facilitated without delay.

For assistance, applicants may access the WVCHIP website or by contacting the WVCHIP Helpline at 1 (877) 982-2447.

Prior to approval for WVCHIP, the applicant must be determined ineligible for all Modified Adjusted Gross Income (MAGI) Medicaid coverage groups; therefore, the Children Under Age 19 Group procedures are applied when determining eligibility for WVCHIP. See Section 1.7 for details regarding the application process for the Children Under Age 19 Group. See Section 23.8, Medicaid Eligibility Between Coverage Groups, for consideration of all MAGI and non-MAGI Medicaid coverage groups.

When a denial occurs due to gross income more than 300% of the federal poverty level (FPL), the applicant’s electronic account will be transferred to the Marketplace for an evaluation for other healthcare benefits.

22.2.2 SHARED POLICIES – WVCHIP AND CHILDREN UNDER AGE 19 GROUP

The policies listed below are the same for WVCHIP as the Children Under Age 19 Group. The IMM citations for the Children Under Age 19 Group are included in the table.

<table>

<td>Citizenship Requirements</td>
<td>Section 7.4</td>
</tr>
</tbody>
</table>
### 22.2.3 POLICIES THAT DIFFER BETWEEN WVCHIP AND THE CHILDREN UNDER AGE 19 GROUP

Differences between the Children Under Age 19 Group Medicaid and WVCHIP include the following:

- WVCHIP is not Medicaid. It is health insurance coverage. WVCHIP has more limited coverage. Once eligible and enrolled, WVCHIP staff will notify the payee of coverage specifics.
- WVCHIP clients are ineligible for Non-Emergency Medical Transportation (NEMT).
- A child cannot have creditable private insurance and WVCHIP in the same month. See Appendix A to determine if private insurance is creditable.

**NOTE:** The Worker must inform the family of its option to drop a child’s existing health insurance, but must not advise them about which choice to make, or about other healthcare coverage choices.
An applicant who indicates he has other insurance coverage on the date of application is denied WVCHIP unless the applicant indicates that coverage will terminate soon after application. The application is accepted and enrollment in WVCHIP occurs the first of the month after other coverage is terminated.

Eligibility is not backdated up to three months as is permitted for Medicaid. The only instances of allowable backdated WVCHIP coverage are identified in Section 22.16.4.C.

Even though pregnancy services are not covered by WVCHIP, a pregnancy and birth of a child born to a woman receiving WVCHIP should be reported. Her newborn is deemed WVCHIP eligible and eligible for 12 months of WVCHIP coverage without an application.

The WVCHIP Helpline at 1 (877) 982-2447 and the DHHR’s fiscal agent are the contacts for replacement of the WVCHIP member card, or to answer questions about services and/or the level of coverage. The WVCHIP staff mails a “Summary Plan Description” to all WVCHIP eligibles upon approval.

Failure to cooperate or accept Bureau for Child Support Enforcement (BCSE) services does not affect WVCHIP eligibility, but is offered on a voluntary basis.

Reimbursement for out-of-pocket expenses due to agency delays does not apply to WVCHIP.

### 22.2.4 AGENCY DELAYS

No application is denied solely because the processing time limit has passed and the Worker has failed to act.

Eligibility begins on the first day of the month of application, regardless of the reason for the delay. See Section 22.16.4.C for situations that result in backdating WVCHIP coverage.

*NOTE: See Section 22.16 for procedures regarding WVCHIP Premium payment.*

If the Worker decides that additional information is required, the Worker must immediately send a request for information. This includes notification that the application is pending receipt of that information and the start date of the WVCHIP coverage may be delayed if the information is not received by the due date.
22.2.4.A BEGINNING DATE OF ELIGIBILITY

The beginning date of eligibility is the first day of the month of application. When the case is pending termination of other health insurance coverage, the earliest date of eligibility is the first day of the month when the other health insurance is not in effect.

Health Insurance Termination Example 1: On September 5, 2013, Ms. Pine requests that her personnel department terminate her health insurance coverage. She applies for WVCHIP on November 5, 2013, and indicates private insurance coverage through November 30, 2013. The application is approved for WVCHIP and the start date is December 1, 2013.

Health Insurance Termination Example 2: On September 5, 2013, Ms. Pine requests her personnel department terminate her health insurance coverage. Coverage terminated on October 31, 2013. She applies for WVCHIP on November 5, 2013. Because other coverage was not effective on the date of application, the application is approved for WVCHIP and the start date is November 1, 2013.

The Worker cannot backdate eligibility up to three months as is permitted for Medicaid. The only instances of allowable backdated coverage are identified in Section 22.16.4.C.

22.2.5 DEEMED WVCHIP NEWBORN

A child born to a WVCHIP client is deemed WVCHIP eligible when:

- The child’s mother was eligible for, and receiving, WVCHIP on the date of the child’s birth; and
- The child is not eligible for Medicaid.

The child is deemed to have applied as of the date of the birth and is not required to submit an application.

The child receives WVCHIP continuously, regardless of changes in circumstances until his first birthday, unless:

- The child moves out of state.
- The child dies.
- The adult voluntarily requests closure of the child’s eligibility.
The child becomes Medicaid eligible or gains other healthcare coverage. Coverage begins from the first day of the month of the child’s birth.

### 22.2.6 REDETERMINATION SCHEDULE AND SPECIAL PROCEDURES

#### 22.2.6.A Redetermination Schedule and Procedures

See Section 1.7.7; the schedule and procedures are the same as those for the Medicaid Children Under Age 19 Group.

#### 22.2.6.B Clients Found Ineligible at Redetermination

At the annual redetermination, when income exceeds the allowable income limit, the Assistance Group (AG) is closed and the electronic account will be transferred to the Marketplace for an evaluation for other health coverage benefits.

#### 22.2.6.C Special Procedures – Rolling Redeterminations

When a change is reported during the certification period that affects eligibility, the Department must only request the information on the change reported. When the Worker receives the information, the client is evaluated for rolling redetermination. If the agency has enough information available to renew eligibility with respect to all the eligibility criteria, the agency must begin a new 12-month certification period.

The following scenarios are possible when a client reports a change in income:

<table>
<thead>
<tr>
<th>Change</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>An increase in income to a level above the WVCHIP eligibility level</td>
<td>The client remains eligible through the end of his 12 months of continuous eligibility and must be reevaluated at that time.</td>
</tr>
</tbody>
</table>
Chapter 22

<table>
<thead>
<tr>
<th>Change</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>An increase in income to a level that would lead to an increase in cost sharing</td>
<td>The client remains at the current plan level through the end of his current 12 months of continuous eligibility and must be reevaluated at that time.</td>
</tr>
<tr>
<td>A decrease in income that makes the client eligible for Medicaid</td>
<td>The client has the option to change to Medicaid or keep WVCHIP. See Section 22.11.2.B.</td>
</tr>
<tr>
<td>A decrease in income that makes the client eligible for a lower level of cost sharing</td>
<td>The Worker must redetermine eligibility that will result in a new plan level being assigned and start a new 12-months of continuous eligibility.</td>
</tr>
<tr>
<td>A change in income that does not affect eligibility or cost sharing level</td>
<td>The client has no change in benefits and starts a new 12-months of continuous eligibility.</td>
</tr>
</tbody>
</table>

**Change of Income Example:** Cosmo Lotus is determined eligible from February 1, 2014, through January 31, 2015. On June 2, 2014, Ms. Lotus calls and reports a change in income. The information is provided to the Department on June 6, 2014. The Worker evaluates the information and determines enough information is available to renew eligibility. The benefit is given a new 12 months of continuous eligibility effective July 1, 2014 through June 30, 2015.

**SNAP Redetermination Example:** A redetermination for Supplemental Nutrition Assistance Program (SNAP) benefits is completed on May 14, 2014. The WVCHIP certification period is April 1, 2014 through March 31, 2015. After the SNAP redetermination is completed, the Worker finds the information provided is enough to recertify. The WVCHIP certification period is renewed from June 1, 2014 through May 31, 2015.

When the determination is completed and the individual(s) remains eligible, the new eligibility period must begin the month immediately following the month of redetermination.

---

**22.2.6.D Client Notification**

The WVCHIP staff is responsible for all notifications related to medical coverage and payment of benefits once a child is enrolled.

The eligibility system automatically sends a notice to the child’s household mailing address when:

- A WVCHIP application is approved or denied.
• Eligibility for a WVCHIP child continues at redetermination.
• A child loses WVCHIP eligibility.

See Chapter 9.

**EXCEPTION: See Section 22.11 when advance notice requirements do not apply.**

Eligibility is continued, pending a hearing, when the AG requests a hearing within the advance notice period.

Hearing requests related to health plans are referred to the WVCHIP Helpline at 1 (877) WVA-CHIP or 1 (877) 982-2447.

**NOTE: See Section 22.16 for procedures regarding WVCHIP Premium coverage.**

**22.2.6.E The Benefit**

Once the case information is forwarded to WVCHIP, WVCHIP is responsible for providing enrollment materials, such as the benefit plan description, WVCHIP member cards, client rights and responsibilities, etc.

The West Virginia Office of Technology (WVOT) determines the level of cost sharing for which the client is responsible (Blue, Gold, or Premium), based on countable income. The WVCHIP Help Line at 1 (877) 982-2447 handles any questions concerning co-payments.

**EXCEPTION: Children who are members of a federally recognized American Indian or Native Alaskan tribe are exempt from premiums, deductibles, and co-payments. American Indian/Alaska Native (AI/AN) means: 1) a member of a Federally recognized Indian tribe, band or group; 2) an Eskimo or Aleut or other Alaska Native enrolled by the Secretary of the Interior pursuant to the Alaska Native Claims Settlement Act, 43 U.S.C. 1601 et. Seq.; or 3) a person who is considered by the Secretary of the Interior to be an Indian for any purpose. The client can claim this exemption by calling the WVCHIP Help Line at 1 (877) 982-2447 to declare his tribal designation and confirm that it is listed as a federally recognized tribe.**
The WVCHIP member card is produced and mailed to the client by WVCHIP. Only one card is produced for the 12-month financial eligibility period. The WVCHIP member card cannot be replaced through the eligibility system. When the client needs a replacement member card, he must contact the WVCHIP Helpline or the Department’s fiscal agent. If the client contacts the Department instead of the WVCHIP Office, the Worker must refer him to 1 (877) WVA-CHIP or 1 (877) 982-2447, or the Department’s fiscal agent for a replacement.

Copies of client Explanation of Benefits (EOB) can be obtained from the Department’s fiscal agent. The fiscal agent can also provide information about the status of medical claims or problems related to medical payments.

In compliance with the requirements of the Patient Protection and Affordable Care Act, Public Health Service Act, effective July 1, 2011, WVCHIP clients do not have an annual and/or lifetime benefit maximum.

22.2.6.F Agency Time Limit

The policy in Section 1.7.4 regarding Children Under Age 19 applies to WVCHIP. A child must first be determined ineligible for MAGI Medicaid before being eligible for WVCHIP.
22.3 COMMON ELIGIBILITY REQUIREMENTS

22.3.1 RESIDENCE

The child must be a West Virginia resident. See Section 2.2.3. The requirements are the same as those for Medicaid.

22.3.2 CITIZENSHIP STATUS

The Medicaid policy/procedures in Section 15.7.5 apply to the West Virginia Children’s Health Insurance Program (WVCHIP). See Section 7.4 for citizenship verification requirements for WVCHIP.

22.3.3 COOPERATION WITH QUALITY CONTROL

Selected WVCHIP assistance groups (AG) are subject to the Payment Error Rate Measurement (PERM) review process. There is no penalty for clients for non-cooperation.

22.3.4 LIMITATIONS ON RECEIPT OF OTHER BENEFITS

WVCHIP coverage may be provided to individuals who receive any benefit administered by the Division of Family Assistance (DFA), except full-coverage Medicaid. An individual cannot receive full-coverage Medicaid and WVCHIP benefits at the same time.

At application and redetermination, ineligibility for MAGI Medicaid is an eligibility requirement for WVCHIP. If the applicant chooses to pursue eligibility for a non-MAGI Medicaid coverage group while enrolled in WVCHIP, and is found to be eligible for a non-MAGI Medicaid coverage group, the applicant is no longer eligible for WVCHIP. See Section 23.8. The WVCHIP eligibility must be closed after advance notice.
Limitations on Receipt of Other Benefits Example: Mr. Oak and Ms. Dahlia are married and Ms. Dahlia has two children under age 19. The family applies for healthcare, listing Mr. Oak’s wages from employment as the only household income. The children are over the income limit for Modified Adjusted Gross Income (MAGI) Medicaid, but under the limit for WVCHIP. The family asks to be considered for other healthcare benefits. The Worker knows that a stepparent’s income cannot be used to determine Aid to Families with Dependent Children (AFDC)-Related Medicaid, and runs eligibility based on these rules, pending for asset information. WVCHIP is continued while the information is gathered on the supplement to the application, the DFA-SLA-S1, Application for Health Care Coverage. If the DFA-SLA-S1 is returned and the children are found eligible, the children are approved for AFDC-Related Medicaid and the WVCHIP eligibility is closed after advance notice. If the family is over the asset limit, or fails to provide the required information to determine AFDC-Related Medicaid eligibility, the WVCHIP continues for the children.

22.3.5 NON-DUPLICATION OF BENEFITS

A WVCHIP client is prohibited from receiving WVCHIP benefits in more than one West Virginia county and/or more than one state at the same time. There is no disqualification penalty for receipt of duplicate benefits.

22.3.6 ENUMERATION

Only the individual seeking WVCHIP benefits is required to provide a Social Security Number (SSN). Other members of the household or tax filing unit may provide this information on a voluntary basis after the Worker explains the reason for the request and how the SSN will be used. Regardless of whether they provide their numbers, their disclosure is not a condition of eligibility.

When an individual seeking WVCHIP benefits does not have an SSN, or has applied but not yet received one, the eligibility decision is not delayed for this reason alone. The DHHR staff is responsible for obtaining the number.

SSN Example: A family applies for WVCHIP for their three-month old daughter who does not yet have a SSN. The application process continues without this non-financial verification and it is not necessary for either parent to provide his or
her own number. The Worker explains that financial information is needed in order to determine if the household’s income is under the allowable income limit for WVCHIP and an SSN may allow him to match data regarding income from the federal Hub. For this reason, the father volunteers his SSN. Internal Revenue Service (IRS) information is returned that is reasonably compatible with the client’s self-attestation and the child is approved.
22.4 ELIGIBILITY DETERMINATION GROUPS

22.4.1 THE ASSISTANCE GROUP (AG)

Only the West Virginia Children’s Health Insurance Program (WVCHIP) child is included in the WVCHIP AG as an eligible client of WVCHIP coverage.

22.4.2 THE MODIFIED ADJUSTED GROSS INCOME (MAGI) HOUSEHOLD INCOME GROUP (IG)

See Section 4.7 for the MAGI methodology used for determining the MAGI household income group.

22.4.3 THE MAGI HOUSEHOLD NEEDS GROUP (NG)

See Section 4.7 for the MAGI methodology used for determining the MAGI household needs group.

For the WVCHIP MAGI household, a pregnant woman is counted as herself, plus the number of unborn children she is expected to deliver.
22.5 INCOME

22.5.1 MODIFIED ADJUSTED GROSS INCOME (MAGI) METHODOLOGY

The Patient Protection and Affordable Care Act, enacted March 23, 2010, amended by the Health Care and Education Reconciliation Act of 2010, enacted March 30, 2010, are together referred to as the Affordable Care Act (ACA). The ACA required a new methodology for determining how income is counted and how household composition and size are determined when establishing financial eligibility for all three Insurance Affordability Programs (IAP)—Medicaid, Children’s Health Insurance Program (CHIP) and Advance Premium Tax Credits (APTC) through the Marketplace.

MAGI Methodology is used to determine financial eligibility for the West Virginia Children’s Health Insurance Program (WVCHIP) and the following Medicaid eligibility groups:

- Adults
- Parents and Other Caretaker Relatives
- Pregnant Women
- Children Under Age 19

The same methodology is used to determine WVCHIP eligibility as is used for MAGI Medicaid groups. See Section 4.7.

22.5.1.A Determining the Household Size for WVCHIP

For the WVCHIP MAGI household, a pregnant woman is counted as herself, plus the number of unborn children she is expected to deliver.

22.5.1.B MAGI Income Disregard for WVCHIP

Note that the 5% federal poverty level (FPL) disregard is not applied to every MAGI eligibility determination and should not be used to determine the MAGI coverage group for which an individual may be eligible. The 5% FPL disregard will be applied to the highest MAGI income limit for which an individual may be determined eligible.
**MAGI Income Disregard Example:** A WVCHIP applicant has MAGI household income of 216% FPL. The 5% MAGI income disregard will not be applied because the highest income limit of any WVCHIP enrollment group for which the child may be eligible is 300% FPL. If the WVCHIP applicant’s income is 305% FPL, then the 5% MAGI income disregard would be applied to bring the child’s household income to below 300% FPL. WVCHIP coverage is approved.
22.6 ASSETS

There is no asset test for the West Virginia Children’s Health Insurance Program (WVCHIP) eligibility.
22.7 DATA EXCHANGE

The data exchanges and matches described in Chapter 6 are applicable to the West Virginia Children’s Health Insurance Program (WVCHIP). Changes in income during the 12-month continuous period of eligibility do not affect WVCHIP eligibility unless the client becomes Medicaid eligible as the result of a decrease in income, and the client chooses Medicaid instead of WVCHIP. However, information from the matches must be recorded in case comments in the eligibility system.
22.8 VERIFICATION

The verification policy and procedures described in Chapter 7 are applicable to the West Virginia Children’s Health Insurance Program (WVCHIP).

WVCHIP-deemed newborns are exempted from citizenship verifications. See Section 7.4.2.
22.9 RESOURCE DEVELOPMENT

The Resource Development policies and procedures in Chapter 8 do not apply to WVCHIP cases.
22.10 CLIENT NOTIFICATION

See Section 22.2.6.D for the Worker’s responsibilities for client notification related to the West Virginia Children’s Health Insurance Program (WVCHIP).
22.11 CASE MAINTENANCE

Although West Virginia Children’s Health Insurance Program (WVCHIP) issues the benefit to the client, action is taken on changes reported to the Department of Health and Human Resources (DHHR). Updated information can be reported to WVCHIP through the eligibility system.

22.11.1 CLOSURES

WVCHIP is notified of members’ ineligibility through an exchange of information with the eligibility system.

Eligibility under all Medicaid coverage groups must be explored for members for all who become ineligible for WVCHIP prior to the end of the 12-month period of continuous eligibility. This does not mean that applications for all coverage groups must be taken and processed. See Section 23.8. If the Medicaid evaluation results in an approval, the member receives a new Medicaid certification and redetermination period.

A child may be determined ineligible prior to the expiration of the 12-month period of continuous eligibility only if the child:

- Moves out of state;
- Dies;
- Reaches age 19. The child is eligible until the end of the month in which he reaches the age limit. A child who reaches age 19 on the first day of the month remains eligible until the end of that month;

**NOTE:** If a child is receiving inpatient hospital services on the date he would lose eligibility due to attainment of the maximum age, eligibility must continue until the end of that inpatient stay.

- Becomes eligible for Medicaid and the caretaker chooses Medicaid. Medicaid eligibility starts the first of the month after the WVCHIP closure;
- Chooses to enroll in individual, private or public group health insurance coverage (see Appendix A for definitions) after WVCHIP approval;
- Becomes eligible for Supplemental Security Income (SSI);
- Was approved or redetermined for WVCHIP in error and is not currently eligible; or
• Becomes an inmate of a public institution.

When one member’s circumstances result in closure of the WVCHIP assistance group (AG), other WVCHIP member in the household, if otherwise eligible, continue to be eligible for the rest of their 12-month period of continuous eligibility, and are unaffected.

22.11.2 CHANGE IN INCOME OR NEEDS GROUP

22.11.2.A Increase in Income or Reduction in Needs Group (NG)

Any change in circumstances not listed in Section 22.11.1 above does not affect eligibility once the 12-month period of continuous eligibility is established. This includes an increase in income or a reduction in the number of people included in the Needs Group. See Section 22.11.2.C below for instructions on updating case information.

**Increased Income Example:** A child is approved for WVCHIP beginning in March. His 12-month period of continuous eligibility ends in the following February. In August, his father changes jobs and the income of the family now exceeds 300% of the federal poverty level (FPL). The child’s eligibility under WVCHIP continues through February.

**Return of Absent Father Example:** A child is approved for WVCHIP Premium beginning in September and ending the following August. A week after approval, his absent father returns to the family. The father works and his income exceeds 300% of the FPL. The child’s eligibility under WVCHIP continues through August.

**Reduction in Size of Needs Group Example:** A man and woman with two children apply for WVCHIP coverage for the children, ages 12 and 18, in April. The children are approved for coverage from April through the following March. In October, the 18-year-old attains the age of 19. His WVCHIP coverage must be stopped October 31st. At the point that the 19-year-old loses coverage and is removed from the Needs Group, the income of the parents exceeds 300% of the FPL for a Needs Group of three. However, the 12-year-old child’s WVCHIP eligibility continues through March.
22.11.2.B Newly Eligible for Medicaid

When a WVCHIP child becomes income eligible for Medicaid during the 12-month period of WVCHIP continuous eligibility, notification of Medicaid eligibility is sent to the member. If the client chooses Medicaid, he must sign and return the second page of the notice to the local DHHR office and the WVCHIP AG is closed and Medicaid is approved.

The Worker may accept verbal or written confirmation from the parent requesting a change to Medicaid. Case comments must be entered to explain how the choice was communicated. No application is required. If the parent chooses Medicaid, Medicaid is approved for a new 12 months of continuous coverage.

If the parent chooses WVCHIP, the original redetermination date remains.

**NOTE:** See Section 22.16 for procedures regarding WVCHIP Premium coverage.

22.11.2.C Updates in Assistance Group (AG) Information

The case information in the eligibility system must be updated based on changes reported by the client and by other valid sources, even though the client is eligible for 12 continuous months of coverage. The Worker must evaluate changes made outside of the required annual redetermination cycle so that the child may be correctly evaluated for Medicaid.

Any change in the family’s circumstances that could result in Medicaid eligibility for the child requires the Worker to reevaluate Medicaid eligibility.

22.11.2.D Pregnancy of a WVCHIP Client

When the Worker is notified that the WVCHIP child is pregnant, the Worker must evaluate eligibility for Pregnant Woman Medicaid coverage.

When a WVCHIP child becomes eligible for Medicaid as a Pregnant Woman, she may be determined Medicaid eligible as of the first day of the month of application, or up to three months prior to the month of application, provided all eligibility requirements were met. The
client may choose the beginning date of eligibility and Medicaid eligibility may be established for the earliest month in which expenses not paid by WVCHIP were incurred. All case circumstances (including income, AG composition, marital status of the pregnant woman, etc.) are used as they existed in the month that the pregnant woman first met all Medicaid eligibility requirements.

WVCHIP eligibility must be closed at the end of the month of the determination of Pregnant Woman coverage prior to opening any backdated coverage under Medicaid.

If the pregnant WVCHIP child is not found eligible for Medicaid, she remains on WVCHIP, which continues to pay for all services except pregnancy services. The Worker should refer the pregnant woman to the Office of Maternal, Child and Family Health (OMCFH) for possible coverage for these services.

The newborn is automatically eligible for WVCHIP. See Section 22.16.2.
22.12 BENEFIT REPAYMENT

Medicaid Estate Recovery provisions do not apply to the West Virginia Children’s Health Insurance Program (WVCHIP) clients.

Repayment by the client of incorrectly paid medical claims is the responsibility of WVCHIP and/or the Department of Health and Human Resources’ (DHHR) fiscal agent.

Provider fraud determination is the responsibility of WVCHIP.
22.13 BENEFIT REPLACEMENT

The West Virginia Children’s Health Insurance Program (WVCHIP) is responsible for the replacement of WVCHIP member cards. WVCHIP member cards are not replaced through the eligibility system. The Worker or client may contact the WVCHIP Helpline at 1 (877) 982-2447 or the Department of Health and Human Resources’ (DHHR) fiscal agent.
22.14 DETERMINING DISABILITY, INCAPACITY AND BLINDNESS

Disability, incapacity, and blindness are not eligibility requirements for the West Virginia Children’s Health Insurance Program (WVCHIP) client or his parent(s) or other caretaker(s).
22.15 WORK REQUIREMENTS

There is no work requirement for the West Virginia Children’s Health Insurance Program (WVCHIP) client or his parent(s) or other caretaker(s).
22.16 SPECIFIC WEST VIRGINIA CHILDREN’S HEALTH INSURANCE PROGRAM (WVCHIP) REQUIREMENTS (Codes: MNCH-deemed newborn, MGCH-regular CHIP, MGCP-CHIP premium)

22.16.1 REQUIREMENTS FOR WVCHIP CHILDREN

Income: 211% of the federal poverty level (FPL)  
300% of the FPL WVCHIP Premium

Assets: N/A

No Spenddown Provision

Individuals are eligible for WVCHIP when all the following conditions are met:

1. At the time of application or redetermination, the child must not be financially eligible for a Modified Adjusted Gross Income (MAGI) Medicaid coverage group. An individual interested in receiving WVCHIP, but eligible for MAGI Medicaid, cannot choose WVCHIP instead of Medicaid, but he can refuse MAGI Medicaid.

   If the applicant chooses to pursue eligibility for a non-MAGI Medicaid coverage group while enrolled in WVCHIP, and is found to be eligible for a non-MAGI Medicaid coverage group, the applicant is no longer eligible for WVCHIP. See Section 23.8.

2. The child is not yet age 19, regardless of school attendance or course completion date. He becomes ineligible the end of the month in which he attains age 19. Emancipation does not impact eligibility.

   EXCEPTION: When a child is receiving inpatient services on the date he would lose eligibility due to age, coverage continues until the child is discharged.

3. Household income, determined according to, is less than or equal to 300% FPL. See Chapter 4, Appendix A.

4. The child is not an inmate of a public institution.

5. The child is not a patient in an institution for mental diseases.

6. The child meets the Medicaid citizenship and related requirements found in Chapter 7. See Section 22.8.6 regarding enumeration.
7. The child does not have creditable individual, public or private employer group health insurance coverage. Most children with other health coverage will not qualify for WVCHIP. See Appendix A Definitions.

Requirements for WVCHIP Children Example: Mr. Oak works for a grocery store and is eligible for individual or family health insurance coverage through his employer. He chooses not to enroll. His choice does not affect his children’s eligibility for WVCHIP.

When an applicant drops his health insurance coverage, if otherwise eligible, his child may receive WVCHIP without a penalty the month after the insurance is no longer in effect. The parent is only required to drop the health insurance for the WVCHIP-eligible child.

A child who starts receiving other creditable health insurance coverage after WVCHIP approval loses WVCHIP coverage prior to the expiration of the current 12-month continuous eligibility period.

22.16.2 DEEMED WVCHIP NEWBORN

Income: NA  Assets: NA

A child born to a WVCHIP client is deemed WVCHIP eligible when:

- The child’s mother was eligible for, and receiving, WVCHIP on the date of the child’s birth, and
- The child is not eligible for Medicaid.

The child is deemed to have applied as of the date of the birth and is not required to submit an application.

Coverage begins the first day of the month of the child’s birth.

22.16.3 MEDICAID REQUIREMENTS APPLICABLE TO WVCHIP

Consideration for all Medicaid groups must be made prior to closure of WVCHIP. This does not mean that applications for all coverage groups must be taken and processed; eligibility is determined based on case record information. See Section 23.8.
22.16.3.A  Relationship to Children with Special Health Care Needs (CSHCN)

A child may be enrolled in both WVCHIP and CSHCN. WVCHIP follows the same policy as Medicaid. See Section 23.7 for additional detail.

22.16.3.B  Child Support Requirements

WVCHIP children are not referred to the Bureau for Child Support Enforcement (BCSE) and are not required to pursue or accept child/spousal support as a condition of eligibility. The Worker must explain the availability of child support services on a voluntary basis. The eligibility system automatic referral to BCSE is blocked for WVCHIP children.

22.16.4  MEDICAID REQUIREMENTS THAT ARE DIFFERENT FOR WVCHIP

The policies listed below do not apply to WVCHIP or there is a difference in application of the policy.

22.16.4.A  Assignment of Medical Support Rights

There is no requirement for the family to assign medical support rights to the Department.

22.16.4.B  Certificate of Coverage When WVCHIP Coverage Ends

The Worker is not required to issue a DFA-HIP-1, Certificate of Medical Coverage, to the family.
22.16.4.C  Backdating Coverage

The policy that allows Medicaid coverage to be backdated up to three months prior to the date of application does not apply to WVCHIP benefits.

Only the following situations require the Worker to backdate WVCHIP coverage:

- A newborn was born on or after the 21st of the month and the application for that child is not submitted until the following month. The Worker must backdate eligibility to include the first day of the birth month;

  **Newborn Backdating Example 1:** The baby is born April 27 and the application is submitted May 13. Coverage should be backdated to April to include the baby's birth.

  **Newborn Backdating Example 2:** The baby is born on May 15 and the application is submitted June 2. Coverage will not be backdated to May to include the birth month.

- Failure of the Worker to request additional information in a timely manner and the delay results in a loss of coverage;

- Failure of the Worker to approve a complete application within 13 days of receipt and the delay results in a loss of coverage;

- Inability of the Worker to approve coverage beginning the first of the following month when the applicant applies and/or establishes eligibility too late in the month, and the data system deadline for next month approval has passed;

- At the request of WVCHIP administration; or

- When a redetermination cannot be completed automatically and the client does not provide the additional information requested within 30 days, the benefit is closed. If the client provides the information within 90 days of the effective date of closure, the agency will determine eligibility in a timely manner without requiring a new application. If the client is found eligible, the coverage must be reinstated to the effective date of closure.

When approval is delayed due to Worker error and results in eligibility for backdated coverage, the client must be given the following options:

- Accept the backdated coverage for any period for which the child was eligible.

- Begin the coverage at a later time, if there are not incurred medical expenses for the past period.

Once an option is chosen and the AG is approved, the beginning date of eligibility cannot be changed.
Delay in Processing Example: A client applies for WVCHIP for her children. Her application is received in the local office on September 4 and placed in the client's file instead of being processed. The client calls on October 20 to check the status of her application. On October 21, the application, date-stamped September 4, is found in the file and processed. The client has the option of accepting 12 months of coverage beginning in either September, October, or November. Because the children incurred no medical expenses for September, she chooses to begin coverage in October. The 12 months of coverage begins in October and ends in September of the following year. After approval, the 12-month eligibility period cannot be changed.

Spenddown Example: On December 15, 2013, a child's family applies for Medicaid and the child is ineligible for all Medicaid coverage groups except AFDC-Related Medicaid. There is a $3,000 spenddown. Allowable bills equal to or greater than $3,000 must be provided to meet the spenddown by January 14, 2014, to be eligible for Medicaid. All other verifications and information necessary to determine eligibility is provided by the client on January 1. Bills in the amount of $2,345 were submitted on January 10, 2014, and failed to establish Medicaid financial eligibility. All requirements for WVCHIP were met January 1; therefore, coverage begins February.

22.16.4.D Relationship Between WVCHIP and Medicaid Coverage Groups

An individual cannot receive both program benefits at the same time. If the child is eligible for Medicaid, he must enroll in Medicaid. Both programs provide healthcare benefits, but services and/or amount of services differ. Certain medical providers will accept only one program's enrollees but not the other's.

An individual must first be determined ineligible for a MAGI Medicaid coverage group before he can receive WVCHIP. If the applicant chooses to pursue eligibility for a non-MAGI Medicaid coverage group while enrolled in WVCHIP, and is found to be eligible for a non-MAGI Medicaid coverage group, the applicant is no longer eligible for WVCHIP; see Section 23.8. The WVCHIP eligibility must be closed after advance notice.

22.16.4.E Long Term Care

If the child requires long-term care services, and qualifies for an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID), Aged and Disabled Waiver (ADW), Children with Disabilities Community Service Program (CDCSP), or Intellectually/Developmentally
Disabled (I/DD) Waiver coverage groups, the child is then eligible for full coverage Medicaid and ineligible for WVCHIP.

WVCHIP does not qualify an individual for Medicaid payment of long term care services, and long-term care services are not covered WVCHIP services.

### 22.16.5 NON-EXCEPTED HEALTH INSURANCE

When the Worker receives an application showing that the family has non-excepted health insurance (see Appendix A), he must:

- Determine if the client is otherwise eligible for WVCHIP, except for having current non-excepted health insurance coverage.
- Inform the client in writing when he meets WVCHIP requirements except for having the non-excepted health insurance coverage.
- Inform the client that WVCHIP coverage continues for 12 months and that if the family’s income increases, there is a possibility the child may not be eligible at redetermination.
- Advise the client that it is his decision whether or not to drop the health insurance for WVCHIP, that the client is only required to drop coverage for the WVCHIP eligible child, and that WVCHIP coverage begins only after the health insurance coverage ends.
- Once proof is submitted that insurance is dropped, WVCHIP eligibility can start without the need for a new application as long as the current application is not older than 60 days.

### 22.16.6 WVCHIP PREMIUM PAYMENT

The premium amount is based on the number of children in the family approved for WVCHIP Premium coverage. The premium amount for one child is $35 per month. The premium amount for two or more children is $71 per month. The Department’s fiscal agent issues a monthly invoice with the amount due.

The initial and ongoing premium payments may be made by check or money order, or online at the WVCHIP website. The client’s Personal Identification Number (PIN) or guardian’s PIN should be included on the check. Premiums are due by the first of the month.
Local offices must not accept premium payments. Clients must mail payments to the West Virginia Treasurer’s Office with the appropriate payment invoice or pay online. Send to:

WVCHIP
Post Office Box 40237
Charleston, WV 25364
APPENDIX A: DEFINITIONS OF INSURANCE FOR WVCHIP

CREDITABLE (NON-EXCEPTED) INSURANCE BENEFITS

Benefits that affect WVCHIP eligibility include, but are not limited to, the following:

- A group health plan
- Health Insurance Coverage
- Medicare
- Medicaid
- Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA), Tricare or other health benefit plans for the United States uniformed services
- A medical care program of the Indian Health Service or of a tribal organization
- A state health benefits risk pool
- The Federal Employees Health Benefits Program
- A public health plan established or maintained by a state, county or other political subdivision of a state that provides health insurance coverage
- A health insurance benefits program for Peace Corps volunteers

EXCEPTED INSURANCE BENEFITS

Benefits that do not affect WVCHIP eligibility are as follows:

- Coverage only for accident, or disability income insurance, or any combination of the two
- Coverage issued as a supplement to liability insurance
- Liability insurance, including general liability insurance and automobile liability insurance
- Workers’ compensation or similar insurance
- Automobile medical payment insurance
- Credit-only insurance
- Coverage for on-site medical clinics
- Limited scope dental or vision benefits when offered separately from other insurance
- Benefits for long-term care, nursing home care, home healthcare, community-based care, or any combination of these when offered separately from other insurance
- Coverage only for a specified disease or illness if offered as independent, non-coordinated benefits
Other benefits, similar to those above, under which benefits for medical care are supplemental or incidental to other insurance benefits and are provided under a separate policy

GROUP HEALTH INSURANCE COVERAGE
Health insurance coverage offered in connection with a group health plan.

GROUP HEALTH PLAN
An employee welfare benefit plan that provides medical care and services to employees or their dependents, as defined under the plan, directly or through insurance, reimbursement, or otherwise. Can be public or private.

HEALTH INSURANCE COVERAGE
Benefits consisting of medical care, provided directly, through insurance or reimbursement, or otherwise, and including items and services paid for as medical care under any hospital or medical service policy or certificate, hospital or medical service plan contract, or health maintenance organization (HMO) contract, offered by a health insurance issuer.

INDIVIDUAL HEALTH INSURANCE COVERAGE
Health insurance coverage offered to individuals. It does not include short-term, limited-duration insurance.

MEDICAL CARE
Amounts paid for any of the following:
- The diagnosis, cure, mitigation, or prevention of disease, or amounts paid for the purpose of affecting any structure or function of the body
- Transportation primarily for and essential to medical care
- Insurance covering medical care as defined above

23.1 INTRODUCTION

The West Virginia Medicaid Program provides payment for covered medical services to certified medical providers for eligible individuals, including adults, eligible members of families with dependent children, and those who are aged, blind, or disabled.

The determination of which medical services are covered under Medicaid and which medical providers are certified to accept Medicaid patients is the responsibility of the Bureau for Medical Services (BMS) and is not addressed in this Manual. Unless otherwise specified, the coverage group receives all services covered under Medicaid and is considered “full Medicaid.”

This chapter provides an overview of the Medicaid Program. In addition, each coverage group has specific requirements that must be met and procedures to follow that may not apply to other Income Maintenance programs or other Medicaid coverage groups. This includes income and asset criteria. No group is subject to a spenddown unless specifically noted. Information for West Virginia Children’s Health Insurance Program (WVCHIP) and AIDS Drug Assistance Program (ADAP) is also contained in this chapter.

In addition to the coverage groups described in this chapter that make up the Medicaid Program, WVCHIP, and ADAP, the Department of Health and Human Resources (DHHR) has special procedures in place to pay for certain necessary drugs for individuals not eligible for other benefits. See Chapter 28, Special Pharmacy.

Refer to Chapter 24 for information regarding eligibility for long-term care services, which include nursing facilities and intermediate care facilities for individuals with intellectual disabilities (ICF/IID) services and aged and disabled (ADW), traumatic brain injury (TBI) and intellectual and developmental disabilities (I/DD) waiver coverage groups, as well as Children with Disabilities Community Services Program (CDCSP).

Certain programs, including long-term care programs, require a medical and/or other determination by a community agency or government organization other than the Division of Family Assistance (DFA) and a financial determination by an Income Maintenance Worker. When an applicant's medical eligibility for, or enrollment in, these programs is pending, he must be evaluated for any or all DFA programs.
23.2 ASSIGNMENT OF MEDICAL SUPPORT RIGHTS

Provided they are legally able to do so, all adult Medicaid applicants and clients must assign to the Department of Health and Human Resources (DHHR) any right to medical support and payments for medical care from any third party. All other adults who have the legal rights to make assignment of medical support for themselves or for any other individual eligible for Medicaid must do so. An applicant for Supplemental Security Income (SSI) is required to assign third-party rights to the Department as part of his application for SSI.

NOTE: Applicants must provide accurate health insurance information at application and redetermination. Workers must enter any third-party insurance into the eligibility system.
23.3 CHILD SUPPORT REQUIREMENTS AND PROCEDURES

Medical support rights exist as a court order directed to the absent parent to provide monetary contributions or insurance for the benefit of the child. Any monetary contributions will be collected by the Bureau for Child Support Enforcement (BCSE) and then returned to Medicaid.

Clients may voluntarily request BCSE services. The client must complete a signed application to be returned to BCSE to process these services. The Worker must explain to the client the process for voluntarily requesting BCSE services.

Services provided by BCSE may be found on the WV BCSE website. Federal law mandates that efforts be made to locate absent parents, establish paternity, and obtain medical support for dependent children who receive Medicaid. These services are provided by the BCSE at no charge to the client. The client may apply by submitting a paper application, App-1-Interactive, to the BCSE. Enrollment into Medicaid coverage must not be delayed for an otherwise eligible individual pending cooperation with BCSE.

The legally responsible adult included in the case with the dependent child must be offered the opportunity to voluntarily receive BCSE services.

The Worker has the following responsibilities:

- When the responsible adult, who can legally assign rights, expresses an interest in voluntarily receiving services, provide a BCSE application, the App-1-interactive, and an explanation of where the application is submitted.
- To respond to any eligibility system alert indicating health insurance information has been entered by BCSE.

23.3.1 BCSE REFERRALS

Referrals to the BCSE are voluntary, free of charge, and must be made by paper application. The BCSE will ensure that information regarding their services and methods of application will be provided to all applicants.

23.3.2 BCSE CASE CLOSURE OF MEDICAID

BCSE closes a case after voluntary referral for reasons such as, but not limited to, the following:
• The non-custodial parent or alleged father is deceased and no further action, including a levy against the estate, can be taken.

• Paternity cannot be established because the alleged father’s identity is unknown.

• The non-custodial parent’s location is unknown and BCSE has been unsuccessful in locating the person after exhausting all efforts.

• The non-custodial parent is a citizen of, and lives in, a foreign country; does not work for the federal government or a company with headquarters or offices in the United States; has no reachable domestic income or assets; and there is no reciprocity with the other country.

• The non-custodial parent cannot pay support for the duration of the child’s minority and the person has no income or assets that can be levied or attached for support for one of the following reasons:
  o The non-custodial parent is incarcerated and there is no chance for parole for the duration of the child’s minority.
  o The non-custodial parent is receiving SSI and there is no income or assets to pay support, and a doctor’s statement or statement from the Social Security Administration (SSA) is provided to state that the non-custodial parent is permanently and totally disabled.
  o The non-custodial parent has a medically verified permanent and total disability with no evidence of support potential.

When BCSE closes a case for one of the above stated reasons, the BCSE Child Support Specialist updates the system. After update, information about the absent parent is no longer exchanged with the child support enforcement system. The Worker cannot change the update. The code is retained in the eligibility system. If the Worker receives information about the absent parent that he believes is pertinent and that may require action by BCSE, he sends a Referral and Communications Form DHS-1, to the Child Support Specialist.

23.3.3 REDIRECTION OF SUPPORT AND INCOME WITHHOLDING

When a Medicaid referral is made to BCSE, the Child Support Specialist immediately implements income withholding for any child support the child may be receiving, whenever possible. This action may not be declined or terminated by the Medicaid client. Collection of support must, thereafter, be made through BCSE and distributed as non-public assistance (NPA) payments.
23.3.4 COMMUNICATION WITH THE CHILD SUPPORT SPECIALIST

Communication between the Worker and the Child Support Specialist continues until the case is closed and/or the child whose parent(s) is absent is removed from the benefit group.

The Worker must notify the Child Support Specialist, in writing, if any information is discovered in establishing paternal and/or medical support.

The Child Support Specialist must notify the Worker, in writing, of the following:

- Information that affects eligibility or the amount of the payment
- Change of address
- Paternity is established
- Information regarding a change in the cause of absence, if applicable, is secured

When health insurance information is entered by BCSE, an interface between the child support enforcement system and the eligibility system occurs and the eligibility system sends an alert to the Worker.

The eligibility system automatically refers changes in case circumstances to BCSE.
23.4 DATA SYSTEM INTERACTION

When health insurance information is entered by BCSE, the eligibility system alerts the Worker. Bureau for Child Support Enforcement (BCSE) and Bureau for Medical Services (BMS) data systems do not interface. The Worker must enter the health insurance information on the eligibility system, which will interface with BMS.

BMS must verify health insurance with the carrier before entering it in the BMS Third-Party Liability (TPL) data system. The eligibility system notifies the Worker when BMS updates TPL information, when there is an insurance carrier or policy number mismatch, or when the TPL information is not verified. If the Worker has any information that conflicts with the BMS-verified information, he must provide the information to the BMS TPL Unit by email or fax so that BMS can resolve any discrepancy. This ensures accurate information is entered in both data systems.
23.5 CERTIFICATE OF COVERAGE WHEN MEDICAID ENDS

All Medicaid clients who so request must be issued a Certificate of Coverage DFA-HIP-1 when Medicaid coverage stop.
23.6 HEALTH INSURANCE PREMIUM PAYMENT (HIPP)

This program is used to assist Medicaid-eligible individuals who cannot afford available employer group health coverage. The Bureau for Medical Services (BMS) pays health insurance premiums, along with deductibles and co-payments, for Medicaid-eligible individuals when the available policy is determined cost effective.

This program can also assist recently unemployed individuals with Consolidated Omnibus Budget Reconciliation Act (COBRA) benefits available from a former employer. Under COBRA provisions, most employees have 60 days to decide if they want to pay to continue under the employer’s health plan after employment is terminated. Once an individual chooses to continue benefits, the benefits can be renewed for the next 18 months.

In addition to premiums, deductibles, and copayments, Medicaid pays for services not included in the insurance policy, but covered under Medicaid. To qualify for HIPP, there must be group health insurance available that covers at least one person who is Medicaid-eligible in West Virginia.

The individual may also call the DHHR’s Third Party Liability (TPL) contractor at (304) 342-1604 to request an application or to obtain additional information about program requirements and the eligibility determination process.
23.7 RELATIONSHIP WITH THE CHILDREN WITH SPECIAL HEALTH CARE NEEDS PROGRAM (CSHCN) (FORMERLY OFFICE OF HANDICAPPED CHILDREN)

The Children with Special Health Care Needs (CSHCN) program provides specialized medical care and care coordination services to children under 21 with certain chronic, debilitating conditions who meet financial and medical eligibility criteria. A child may be simultaneously eligible for, and receiving services from, the Medicaid Program and CSHCN. A child may be a CSHCN client when he applies for a Division of Family Assistance (DFA) Program. The West Virginia Children’s Health Insurance Program (WVCHIP) uses the same policies and procedures with respect to CSHCN as Medicaid does. See Chapter 22 for further details about WVCHIP.

When an applicant’s eligibility for, or enrollment in, this program is pending, he must not be refused the right to apply for DFA Programs due to his pending status with the CSHCN Program, but must be evaluated for any or all DFA Programs.

23.7.1 NON-CSHCN CLIENTS WHO ARE APPLICANTS FOR DFA PROGRAMS

During the application process, when a Worker refers a child to the CSHCN Program, he gives the applicant the CSHCN-1 application form. A referral to the CSHCN Program must include the Medicaid eligibility status. If Medicaid is approved, the referral includes eligibility dates and, and if denied, it includes the reason for the denial.

If the child is approved for CSHCN and the Medicaid eligibility status changes from the time of referral, the Worker calls the CSHCN Program with the reason for the change.

Any time a Worker determines that a child may benefit from CSHCN services, the Worker makes a referral by telephone at (304) 558-5388, or toll-free at 1-800-642-9704 or 1-800-642-8522. The eligibility determination for CSHCN services is made by a CSHCN Specialty Consultant.

Covered CSHCN medical conditions are listed in the table below.

<table>

<tr>
<td>Heart Defects</td>
</tr>
</tbody>
</table>
### 23.7.2 CSHCN CLIENTS WHO ARE APPLICANTS FOR MEDICAID

When a CSHCN client applies for Medicaid, the Worker must call the CSHCN Program with the eligibility decision and eligibility dates or reason for the denial.

When a CSHCN client’s Medicaid assistance group (AG) is closed and the client is no longer eligible for Medicaid, the CSHCN Program is notified by telephone and the reason for the closure is given.

The Children with Special Health Care Needs Program may be contacted at:

Children with Special Care Needs  
Office of Maternal, Child and Family Health  
West Virginia Bureau for Public Health  
350 Capitol Street, Room 427  
Charleston, WV 25301-3714

23.8 MEDICAID ELIGIBILITY BETWEEN COVERAGE GROUPS

The Worker must consider all the following information in determining eligibility and in establishing eligible cases.

23.8.1 CONSIDERATION OF ALL MEDICAID COVERAGE GROUPS

The client cannot be expected to know which Medicaid coverage group to apply for. When the client expresses an interest in applying for Medicaid, the Worker must explore eligibility for all Medicaid coverage groups.

The Worker does not have to take and process applications for all coverage groups, but Medicaid eligibility cannot be denied until the client has been considered for each coverage group. If the client is eligible under more than one coverage group, he is approved for the one that will provide him with the most benefits in the shortest time frame.

Certain programs, including long-term care programs, require a medical and/or other determination by an agency other than Division of Family Assistance (DFA) as part of the eligibility process. The financial determination is made by the Department of Health and Human Resources (DHHR). When an applicant’s medical eligibility for, or enrollment in these programs is pending, he must not be refused the right to apply, but must be evaluated for any or all DFA programs.

23.8.2 CONSIDERATION OF MAGI AND NON-MAGI COVERAGE GROUPS

Applicants who have income below the Modified Adjusted Gross Income (MAGI) standard and are determined eligible for coverage in a MAGI coverage group should be promptly enrolled into the MAGI coverage group. MAGI Medicaid groups are:

- Adult Group
- Parents/Caretaker Relatives
- Pregnant Women
- Children Under Age 19

West Virginia Children’s Health Insurance Program (WVCHIP) is also a MAGI group.
The client may also pursue eligibility for non-MAGI Medicaid coverage groups while enrolled in the MAGI group.

Clients who are determined to meet the eligibility requirements for coverage in both a MAGI category and a non-MAGI category at application may choose to enroll in the non-MAGI category.

The DHHR must request all additional information needed to evaluate the client’s potential eligibility for a non-MAGI group when the client:

- Requests such a determination;
- Submits the application developed for non-MAGI coverage groups;
- Indicates potential eligibility on the single-streamlined application or renewal form; or,
- If the DHHR otherwise has information indicating such potential eligibility. For example, a referral for long-term care services from a community agency.

23.8.2.A Eligible for Non-MAGI Group

If the client is determined eligible for a non-MAGI coverage group, they are enrolled into this coverage group and the MAGI group is closed.

23.8.2.B Ineligible for Non-MAGI Group

If the client is ineligible for a non-MAGI coverage group, or a determination cannot be made because all necessary information was not provided, the client remains enrolled in the MAGI coverage group. The client is not required to provide any additional information needed to make a full eligibility determination for the non-MAGI coverage group.

23.8.2.C Notification

Information regarding potential eligibility for non-MAGI coverage groups, and the benefits and services afforded to the applicant in the non-MAGI coverage groups, will be provided to the applicant in the MAGI notice. Information regarding additional information needed to determine eligibility and how to apply will be provided to the applicant. The information should be sufficient to enable the applicant to make an informed choice.
When the applicant is determined ineligible for Medicaid or WVCHIP, their electronic account will be transferred to the Marketplace for a determination of eligibility for Advanced Premium Tax Credits (APTC) or Cost-Sharing Reductions (CSR).

The following tables show the coverage groups included in this chapter.

23.8.3 WHO RECEIVES LIMITED COVERAGE

All Medicaid coverage groups receive the full services the State offers to its Medicaid clients except the following coverage groups: QMB, SLIMB, QI-1, QDWI, and illegal Noncitizens. The state also provides two other limited healthcare benefits, Special Pharmacy and ADAP. In addition, if applicable, any coverage group’s long-term care services can be limited when a penalty for an uncompensated transfer of resources is applied. Refer to Chapter 24 to determine when to apply such a penalty.

23.8.4 BACKDATING MEDICAID COVERAGE

Unless specifically stated under the appropriate coverage group, Medicaid coverage may be backdated for up to three months prior to the month of application, provided all eligibility requirements were met at that time, and provided the client has accrued medical expenses.
23.9 RELATIONSHIP BETWEEN COVERAGE GROUPS

All Medicaid coverage groups are assigned to one of two categories: Categorically Needy and Medically Needy.

- **Categorically Needy Medicaid** clients are families and children; aged, blind, or disabled individuals; and pregnant women who are eligible to receive Medicaid because they fall into a certain category and meet financial criteria.

  The federal government mandates West Virginia to cover some Categorically Needy coverage groups; other coverage groups are optional.

- **Medically Needy Medicaid** clients are those who would be eligible for Categorically Needy benefits except that their income and/or assets are too high. Even though their resources are too high for Categorically Needy Medicaid eligibility, they have high medical needs and cannot afford to pay their medical bills. These individuals are allowed to “spenddown” their excess income to the Medically Needy Income Level (MNIL) by incurring medical expenses. The spenddown process is explained in Chapter 4.

The following tables show the relationship between the categories and coverage groups.

States do not have to provide coverage for any Medically Needy groups; they are optional. West Virginia has elected to cover the Medically Needy. When a state elects to provide coverage to the Medically Needy, the federal government mandates coverage of some individuals; other individuals are optional, as described in the table below.

(States Choose to Cover Certain Groups/Individuals Only When Medically Needy Option Is Selected)
23.10 ADULTS, FAMILIES AND/OR CHILDREN

23.10.1 PARENTS/CARETAKER RELATIVES

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Parent/Caretaker Relative Medicaid Limit</td>
<td>N/A</td>
</tr>
</tbody>
</table>

The Affordable Care Act (ACA) simplified eligibility categories by combining certain existing mandatory and optional eligibility groups. Effective January 1, 2014, the Parents/Caretaker Relatives coverage group replaced the former Aid to Families with Dependent Children (AFDC) Medicaid coverage group for parents and other caretaker relatives.

A parent or caretaker relative is eligible under this coverage group when the following requirements are met:

- The parent or caretaker relative must be living in the household with a dependent child for whom he assumes primary responsibility. See Chapter 3 for the definition of a dependent child and specified caretaker relative.
- The income eligibility requirements described in Chapter 4 are met.

23.10.2 CHILDREN UNDER AGE 19

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Children &lt; 1</td>
<td>158% FPL</td>

<td>141% FPL</td>
</tr>
<tr>
<td>Children 6 – 19</td>
<td>133% FPL</td>
</tr>
<tr>
<td></td>
<td>N/A</td>
</tr>
</tbody>
</table>

Effective January 1, 2014, the Affordable Care Act combined prior coverage for children under the AFDC group, Qualified Child, and Poverty-Level Children coverage groups into one Children Under Age 19 coverage group. Twelve months of continuous Medicaid eligibility applies.

If a child is receiving inpatient services on the date he would lose eligibility due to age, eligibility must continue until the end of that inpatient stay.

A child is eligible for Medicaid coverage in this group when all of the following conditions are met:
• The child is not eligible for Supplemental Security Income (SSI) Medicaid;
• The child is under age 19, regardless of school attendance or course completion date; and,
• The income eligibility requirements described in Chapter 4 are met.

23.10.3 PREGNANT WOMEN

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>158% FPL</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Effective January 1, 2014, as a result of the ACA, the Pregnant Women coverage group combines prior coverage for pregnant women, Poverty-Level Pregnant Women, and Deemed Poverty-Level Pregnant Women into one coverage group.

A pregnant woman is eligible for Medicaid coverage in this when the income eligibility requirements described in Chapter 4 are met. Changes in income after eligibility has been established have no effect on continuing eligibility.

23.10.3.A Postpartum Coverage

This coverage applies only to the mother. The child must be covered as a Continuously Eligible Newborn (CEN).

23.10.3.A.1 Eligibility for Postpartum Coverage

The pregnant woman is eligible for postpartum coverage provided that during the pregnancy or within three months of the end of the pregnancy, the woman met all the following requirements:

• She applied for Medicaid (any coverage group);
• She was eligible for Medicaid (any coverage group);
• She received Medicaid services (any covered service, not limited to pregnancy services); and,
• She was determined eligible for coverage in West Virginia, regardless of coverage in other states.
If the mother applies within three months after the end of the pregnancy, and is determined to have been eligible in one of the past months, she is eligible for postpartum coverage. This is true even if income increases above the income eligibility limits in any month after she is determined eligible.

Postpartum coverage is required if the pregnancy ends in a live birth, miscarriage, abortion, or if the child is stillborn.

A Pregnant Woman is not referred to, or required to cooperate, with child support activities while pregnant nor during the postpartum period.

A Pregnant Woman cannot have Medicaid terminated or denied for failure to cooperate with Quality Control (QC) until the end of the postpartum period. After the postpartum period the sanction is applied, even if she qualifies under another coverage group.

### 23.10.3.A.2 Duration of Postpartum Coverage

A woman continues to be eligible for Medicaid for 60 days postpartum, and the remaining days of the month in which the 60th day falls. The last day of pregnancy is counted as day one of the 60-day postpartum period, and a redetermination is completed in the second month of the postpartum period. If eligible for other Medicaid, or WVCHIP, that coverage must not begin until expiration of the postpartum period.

If no review takes place, Medicaid coverage will automatically close after the advance notice period.

The postpartum period begins on the last day of the pregnancy. In some instances, postpartum coverage extends into the third calendar month after the month of birth to assure the client receives advance notice.

**Advance Notice Example:** A woman with a pregnancy due date of August 7 reports on September 9 that her child was born on July 28. The redetermination date remains October to assure she receives advance notice of her scheduled eligibility redetermination. This also assures advance closure notice if she fails to complete the eligibility redetermination.
23.10.4 ADULT GROUP

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>133% FPL</td>
<td>N/A</td>
</tr>
</tbody>
</table>

As a result of the ACA, the Adult Group was created effective January 1, 2014. Eligibility for this group is determined using Modified Adjusted Gross Income (MAGI) methodologies established in Section 4.7.

Medicaid coverage in the Adult Group is provided to individuals who meet the following requirements:

- They are age 19 or older and under age 65;
- They are not eligible for another categorically mandatory Medicaid coverage group:
  - SSI
  - Deemed SSI
  - Parents/Caretaker Relatives
  - Pregnant Women
  - Children Under Age 19
  - Former Foster Children
- They are not entitled to or enrolled in Medicare Part A or B; and
- The income eligibility requirements described in Chapter 4 are met.

Parents or other caretaker relatives living with a dependent child under the age of 19 are not eligible for Medicaid in the Adult Group unless the child is receiving benefits under Medicaid, WVCHIP, or otherwise enrolled in minimum essential health coverage (MEC).

23.10.4.A.1 Pregnant Women

If a woman indicates at application that she is pregnant, she is not eligible to be included in the Adult Group; she must be evaluated for the Pregnant Women coverage group. If a woman currently receiving Medicaid in the Adult Group later reports a pregnancy to the Department of Health and Human Resources (DHHR), follow instructions in Section 10.8.4. However, there is no requirement for a woman to report her pregnancy to the DHHR.
### 23.10.5 FORMER WV FOSTER CHILDREN

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

The ACA established a new coverage group called the WV Former Foster Children group effective January 1, 2014.

Applicants must meet the following requirements:

- They are under 26 years of age;
- They are not eligible for another categorically mandatory coverage group:
  - SSI
  - Deemed SSI
  - Parents/Caretaker Relatives
  - Pregnant Women
  - Children Under Age 19
- They have been in foster care under the responsibility of the State of West Virginia; and,
- They were receiving Medicaid on their 18th birthday, or the date they aged out of foster care, up to age 21.

Individuals eligible for both the WV Former Foster Children group and the Adult Group must be enrolled in the WV Former Foster Children group.
23.10.6 CONTINUOUSLY ELIGIBLE NEWBORN CHILDREN (CEN)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

23.10.6.A Eligibility Criteria

A CEN (birth –12 months) is eligible for Medicaid until he reaches age 1, when all the following conditions are met:

- The child is not eligible for SSI Medicaid;
- If the child's mother was eligible for and receiving Medicaid from West Virginia in the month the child was born, an application is considered to have been made for the child. The application may be made up to three months after the child's birth; and,
- The child resides continuously in West Virginia during the entire CEN period. If the child leaves WV and returns, CEN coverage cannot be reinstated.

23.10.6.B Special Conditions

- Under SSI, a child born to an institutionalized woman is eligible on the date of birth only. Eligibility under all other Medicaid coverage groups must be explored immediately for these children.
- CENs must not be required to live with a specified relative.
- The child is not required to have a social security number (no enumeration requirement).
- There is no requirement that the CEN be evaluated for the Children Under Age 19 group. He must remain a CEN until he reaches age 1, as long as all CEN eligibility requirements are met.
- If a child is receiving inpatient services on the date he would lose eligibility due to attainment of age 1, eligibility must continue until the end of that inpatient stay.
23.10.7  AFDC-RELATED MEDICAID

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medically Needy Income Level (MNIL)</td>
<td>$2,000 – 1 person</td>
</tr>
<tr>
<td>Possible Spenddown</td>
<td>Increases $50 for each additional coverage group member</td>
</tr>
<tr>
<td>$3,000 – 2 people</td>
<td></td>
</tr>
</tbody>
</table>

Only children under 19, who would be eligible for Medicaid except that countable income/assets are too high, are required to be covered under AFDC-Related Medicaid. However, West Virginia has elected to cover caretaker relatives of such children. The caretaker relative(s) and the dependent children for whom they care are treated as a family unit.

Parents or Other Caretaker Relatives and dependent children and pregnant women are eligible for Medicaid when all the AFDC-Related Medicaid eligibility requirements are met, except as follows:

- No AFDC-Related case is denied due only to excess income. Instead, incurred medical bills are deducted from the family's income for the six-month Period of Consideration. This process is called spenddown and details of this procedure are in Chapter 4.
- Eligibility and the amount of the spenddown, if any, are determined using the MNIL, not the cash assistance payment level. The level of the MNIL is determined by each state, according to federal guidelines. By law, the MNIL cannot exceed 133% of the State's cash assistance payment level, rounded to the nearest $100 for a family of the same size.

Individual family members may be eligible for SSI-Related Medicaid as aged, blind, or disabled. Refer to Chapter 13. The Worker must take the action that will most benefit the client.
23.10.8 DEEMED PARENTS/CARETAKER RELATIVES

23.10.8.A Extended Medicaid

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

An assistance group (AG) is eligible for Extended Medicaid for four months when both of the following conditions are met:

- The AG lost eligibility for Parents/Caretaker Relatives Medicaid due to receipt of new or increased spousal support; and,
- The AG received Parents/Caretaker Relatives Medicaid in at least three of the months during the six-month period that immediately preceded the first month of ineligibility for this coverage group Medicaid.

Extended Medicaid clients are not required to cooperate with or referred to Bureau of Child Support Enforcement (BCSE).

23.10.8.B Children Covered Under Title IV-E Adoption Assistance and Title IV-E Foster Care

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Families that receive Title IV-E Adoption Assistance or Foster Care payments from West Virginia receive a Medicaid card for the child only. This is provided by Social Services. Unless the child is also an SSI recipient, the Income Maintenance staff has no responsibilities related to determining this coverage.

When a child receives Title IV-E Adoption Assistance or Foster Care, and is also an SSI recipient, the Worker must determine which coverage group is appropriate for the child, as follows:

- When the child receives Title IV-E Adoption Assistance or Foster Care from West Virginia, medical coverage is provided as a recipient of Title IV-E payments.
• When the assistance is provided by another state, coverage is provided as an SSI recipient.

23.10.9 TRANSITIONAL MEDICAID (TM)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase I – N/A</td>
<td>N/A</td>
</tr>
<tr>
<td>Phase II – 185% FPL</td>
<td>N/A</td>
</tr>
</tbody>
</table>

This coverage group consists of families losing eligibility for Parents/Caretaker Relatives Medicaid because of earned income. When a child loses eligibility as a Child Under Age 19 and his family is receiving TM, he is included in the AG, if otherwise eligible.

TM provides continuing medical coverage after Parents/Caretaker Relatives Medicaid eligibility ends and occurs in two phases, as described below.

There is no application required for Transitional Medicaid. When a Parents/Caretaker Relatives Medicaid case becomes ineligible, the Worker must automatically determine eligibility for TM. If the case is closed in error instead of being converted to a TM case, the case must be reopened without reapplication by the client.

Clients of TM are not referred, or required to cooperate with BCSE.

23.10.9.A Phase I Coverage

23.10.9.A.1 Eligibility Requirements

To be eligible for Phase I coverage, all the following conditions must be met:

• The AG became ineligible for Parents/Caretaker Relatives Medicaid due to the amount of income from employment;

• In determining ineligibility for Parents/Caretaker Relatives Medicaid, the Worker must consider income of the AG and any individual who would normally be included in the AG, but who has been penalized;
The AG received Parents/Caretaker Relatives Medicaid in any three or more months during the six-month period immediately preceding the first month of ineligibility for Parents/Caretaker Relatives Medicaid;

The AG did not receive Parents/Caretaker Relatives Medicaid fraudulently during any of the six months prior to the first month of Parents/Caretaker Relatives Medicaid ineligibility; and,

The family has a dependent child who would be included in the Parents/Caretaker Relatives Medicaid AG, if the family were eligible.

When the AG becomes ineligible for Medicaid for a combination of reasons, the Worker must determine if the amount of earned income (or the addition of an individual with earnings who has received Parents/Caretaker Relatives Medicaid in three of the past six months) had an effect on the ineligibility. Only when this is the case is the AG eligible for TM.

The steps below are to be followed to determine if such factors had an effect on ineligibility for Parents/Caretaker Relatives Medicaid:

**STEP 1:** Determine if the increase in earned income would have resulted in loss of Parents/Caretaker Relatives Medicaid if all other factors in the case remained the same (i.e., there was no other change in income, no change in family composition, no change in Parents/Caretaker Relatives Medicaid standards.).

**IF YES:** The AG meets the requirement.

**IF NO:** Go to **STEP 2**.

**STEP 2:** Determine if events other than the increase in earned income would have resulted in loss of Parents/Caretaker Relatives Medicaid if earned income had stayed the same.

**IF YES:** The AG does not meet the requirement.

**IF NO:** Go to **STEP 3**.

**STEP 3:** Determine if the AG is ineligible for Parents/Caretaker Relatives Medicaid when all changes are considered.

**IF YES:** The AG meets the requirement. The increase in earnings was essential to the loss of Parents/Caretaker Relatives Medicaid eligibility. Without that increase, the AG would not have lost eligibility.
23.10.9.A.2  Loss of Eligibility Before Expiration of Full Phase I Coverage

The following circumstances result in case closure (after advance notice) before the expiration of the Phase I coverage. There is no provision to discontinue Phase I coverage for failure of the parent to continue working.

➢  **No Dependent Child**

When there is no child in the home who would be eligible for Medicaid, the AG loses eligibility. Eligibility ends at the end of the first month in which the AG no longer includes such a child.

**No Dependent Child Example:** Last dependent child leaves the home on February 10. The case is closed effective February. Advance notice is required.

➢  **Fraud**

When it is determined that Parents/Caretaker Relatives Medicaid benefits received in one or more of the six months prior to the start of Phase I coverage were received fraudulently, the AG is ineligible. Eligibility ends on the last day of the month in which the advance notice period expires.

➢  **Enrollment in Free Employer’s Plan**

When the person whose employment caused ineligibility for Parents/Caretaker Relatives Medicaid does not enroll or maintain enrollment in the employer’s health plan, provided such coverage is free to the client, the AG becomes ineligible. Eligibility ends on the last day of the month in which the advance notice period expires. Benefits are not delayed pending compliance with this requirement. The client must be allowed 30 days to prove he has taken the steps necessary to comply.

23.10.9.A.3  Eligible Situations

Provided the AG meets all of the eligibility requirements identified above, it is eligible for Phase I TM in the following situations:
• The AG was eligible for and receiving Parents/Caretaker Relatives Medicaid and the beginning of employment or change in payment rate had an effect on Parents/Caretaker Relatives ineligibility.

• The earned income of an individual who received Parents/Caretaker Relatives Medicaid in three of the last six months, and who is added to the AG, has an effect on the AG’s Parents/Caretaker Relatives Medicaid ineligibility.

• The case becomes ineligible for Parents/Caretaker Relatives Medicaid due to failure to report or provide verification of new earnings, provided that fraud is not indicated.

• The case becomes ineligible for one month only due to a temporary increase in hours worked or rate of pay.

### 23.10.9.A.4 Ineligible Situations

The AG is not eligible for Phase I coverage in the following situations:

• The AG becomes ineligible because of the earnings of an individual being added to the AG who has not received Parents/Caretaker Relatives Medicaid in three of the last six months.

• The AG becomes ineligible for a reason other than those listed above.

• There is an indication, with supporting evidence, that the AG received Parents/Caretaker Relatives Medicaid fraudulently during at least one of the six months prior to the first month of Parents/Caretaker Relatives Medicaid ineligibility. The Worker must determine from the case record if a referral has been made to Investigations and Fraud Management (IFM) or if an IFM decision has been rendered on any fraud claim. If there is a substantive indication that fraud was involved, the AG is not eligible for Phase I coverage.

There is no provision to discontinue Phase I coverage due to the AGs becoming eligible for Parents/Caretaker Relatives Medicaid again. Instead, the AG is dually eligible for Parents/Caretaker Relatives Medicaid and TM. See below for the significance of dual eligibility.

### 23.10.9.A.5 Beginning Date of Phase I Coverage

An AG is eligible for Phase I coverage beginning the month following the last month of Parents/Caretaker Relatives Medicaid eligibility. When Parents/Caretaker Relatives Medicaid is
continued beyond the month ineligibility occurs because of an agency or client error, the beginning date of TM is the first month after advance notice would have expired and the client should have lost eligibility.

23.10.9.A.6 Client’s Reporting Requirements/Periodic Review Letters

The client is required to report his gross earnings and day care costs for the first three months of Phase I coverage by the first workday after the 20th of the fourth month. He is also required to report the earnings and day care costs of any person in the home who is included in the Parents/Caretaker Relatives Medicaid Income Group. In addition, he must report his gross earnings and day care costs for the last three months of Phase I coverage by the first workday after the 20th of the first month of Phase II coverage.

The client reports using Periodic Review Letters. The periodic review letter dates throughout this section will vary due to adverse action deadline and non-work days. See Appendix A.

The eligibility system mails the client the first required periodic review letter by the third Friday of the third month.

If the client returns the completed letter, he has met one of the eligibility requirements for Phase II coverage.

Failure to return the completed letter, without good cause, by the first workday after the 20th of the fourth month, automatically renders the AG ineligible to participate in Phase II, after advance notice, but has no effect on Phase I coverage.

The Worker must notify the client of the consequences of his actions when the letter is not returned by the due date without good cause or is returned but is incomplete. The client has a right to a Fair Hearing on this issue because future eligibility is involved. The Worker must not wait until the end of Phase I coverage to notify the client of his ineligibility for Phase II. The process of determining eligibility or ineligibility, based on this reporting requirement, is completed prior to the end of Phase I coverage.

The Worker and Supervisor make the good cause determination and must be based on reasonable expectations. Good cause generally will involve situations over which the client has little control.

The eligibility system notifies the Worker when the form is due. If the client provides the completed form within the 13-day notice period, he has met this part of the eligibility requirement for Phase II.
23.10.9.A.7 Special Agency Notification Requirements

During the fourth month of Phase I eligibility, the client is notified of the availability of Phase II coverage and what he must do to continue coverage.

23.10.9.B Phase II Coverage

When all eligibility factors for Phase II coverage are met, eligibility continues, without interruption, from Phase I to Phase II, unless the client has indicated he does not wish to continue such coverage.

23.10.9.B.1 Eligibility Requirements

In order to be eligible for Phase II coverage, all of the following conditions must be met:

- The AG received Phase I coverage for the entire six-month Phase I period. The six-month period includes months for which the client was dually eligible for Phase I and Parents/Caretaker Relatives Medicaid, if applicable;
- The client completed and returned, in a timely manner, the periodic review letters sent to him, or had good cause for not returning it. The form is considered to be returned in a timely manner when it is received within the advance notice period;
- The family has a dependent child living in the home;
- The earned income amount meets the financial test as described in Chapter 4. For Phase II coverage, information from the PRL3 is used. Information from the PRL3 determines eligibility for months 7 – 12 of Phase II TM coverage. Information from the PRL8 determines continued eligibility for months 9 – 12 of Phase II and the PRL9 determines eligibility for month 12 of TM;
- The client continues to have earnings, unless the lack of earnings is due to involuntary loss of employment, illness, or unless good cause is established; and,
- The client applies for and maintains enrollment in his employer's health plan, provided such coverage is free to the client.
23.10.9.B.2  Beginning Date of Phase II Coverage

An AG is eligible for Phase II coverage beginning the first month after Phase I coverage ends. When Phase II coverage is, in error, not begun in the correct month, coverage begins upon discovery of the error and is backdated to the date coverage should have begun. In no instance is Phase II coverage extended beyond six months past the end of Phase I coverage.

23.10.9.B.3  Client’s Reporting Requirements

The client is required to report his gross earnings, the gross earnings of other Income Group adults in the home, and actual out-of-pocket day care costs. This information is used to determine financial eligibility for Phase II coverage. The PRL3 is mailed by the third Friday of the third month and must be completed and returned by the first workday after the 20th of the fourth month, unless the client establishes good cause.

The PRL8 is mailed by the third Friday of the sixth month and the completed form is due by the first workday after the 20th of the seventh month. The PRL9 is mailed by the third Friday of the 9th month and the completed form is due by the first workday after the 20th of the 10th month. All PRL forms must be returned by the due date, unless the client establishes good cause.

The Worker and Supervisor make the good cause determination, which must be based on reasonable expectations. Good cause generally will involve situations over which the client has little control.

The Worker must file the PRL forms in the case record. An eligibility system alert notifies the Worker that the forms are due.

23.10.9.B.4  Automatic Termination of TM

The eligibility system will automatically terminate TM eligibility at the end of eighth month if the PRL8 is not returned by the due date.

The eligibility system will automatically terminate TM at the end of the eleventh month if the PRL9 is not returned by the due date.
At the end of the TM Phase II, the eligibility system will automatically terminate coverage.

**NOTE:** When TM eligibility ends for any reason other than expiration of the time period, the Worker must evaluate eligibility of the AG for all other Medicaid coverage groups.

### 23.10.9.C Return to Parents/Caretaker Relatives Medicaid, Phase I and II

If an AG returns to Parents/Caretaker Relatives Medicaid during Phase I or Phase II, but otherwise meets the requirements for TM, the AG is dually eligible for Parents/Caretaker Relatives Medicaid and TM. If the AG again becomes ineligible for Parents/Caretaker Relatives Medicaid, Worker action depends upon the case circumstances at the time of the subsequent case closure as follows:

#### 23.10.9.C.1 Otherwise Eligible for TM

If the AG meets all of the eligibility requirements listed in Section 16.10.9.A.1 above, the family is eligible for a new TM period, beginning with Phase I for six months and continuing through Phase II, if the Phase II requirements are met.

#### 23.10.9.C.2 Not Otherwise Eligible for TM

When either of the two following conditions is met at the time of the subsequent case closure, the AG is eligible only for the remainder of the original TM period.

- The AG loses eligibility for a reason not related to employment.
- The AG loses eligibility for a reason related to employment, but does not meet the requirement of having received Parents/Caretaker Relatives Medicaid in three of the preceding six months.

**Dual Eligibility Example:** A Parents/Caretaker Relatives Medicaid AG becomes ineligible when the parent obtains full-time employment. The family receives TM for seven months, from March through September, but returns to Parents/Caretaker Relatives Medicaid for two months, October and November. At the time the parent’s job starts again, at the end of November, he has no longer...
received Parents/Caretaker Relatives Medicaid in three of the six months prior to ineligibility. One of the eligibility requirements for TM is no longer met. However, because the AG was dually eligible for TM and Parents/Caretaker Relatives Medicaid, TM coverage continues for December, January, and February.

23.10.10 ADOPTION ASSISTANCE OTHER THAN IV-E

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Special-needs children under age 21 who have State adoption assistance agreements (other than those under Title IV-E) in effect and who cannot be placed for adoption without Medicaid coverage are eligible for Medicaid.

The Office of Children and Adult Services is responsible for eligibility determination for this coverage group for producing the Medicaid card. The Worker has no responsibilities related to this coverage group.

23.10.11 FOSTER CARE OTHER THAN IV-E

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Persons who receive foster care payments through the Department, but from a funding source other than Title IV-E, receive a Medicaid card for the foster child only. The Office of Children and Adult Services is responsible for eligibility determination for this coverage group and for producing the Medicaid card. The Worker has no responsibilities related to this coverage group.
Chapter 23

23.10.12 WOMEN WITH BREAST CANCER OR CERVICAL CANCER (BCC)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

A woman is eligible for BCC Medicaid if she is diagnosed with a breast or cervical cancer or certain pre-cancerous conditions, regardless of income. She must also be receiving active treatment for her condition and currently enrolled in the Breast and Cervical Cancer Screening Program through a screening provider to be eligible for this type of Medicaid coverage. Coverage is not limited to charges related only to cancer treatment, and there is no limit to the number of eligibility periods for which a woman may qualify.

Clients are first screened for eligibility for other mandatory Medicaid coverage groups, and, if found eligible, are approved for the other group. Failure to apply for Medicaid or to assist in the eligibility determination process results in case closure.

A woman who meets the following requirements may be eligible for full-coverage Medicaid if:

- She has been diagnosed with breast or cervical cancer through the Centers for Disease Control (CDC) program administered by the Office of Maternal, Child and Family Health (OMCFH).
- She has no medical insurance or insurance that meets an exception listed in Chapter 22, Appendix A under Excepted Insurance Benefits. No penalty applies for discontinuing insurance.
- There are limited situations in which a woman with creditable coverage can receive BCC coverage. Examples include, but are not limited to:
  - No coverage for breast or cervical cancer.
  - Periods of exclusion, such as for a preexisting condition.
  - Having exhausted lifetime or annual benefits for all services or for breast or cervical cancer.
- She is under age 65.
- She is not receiving Medicare benefits.
23.10.13  **AFDC/NON-CASH ASSISTANCE**

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>185% Need Standard</td>
<td></td>
</tr>
<tr>
<td>100% Need Standard</td>
<td></td>
</tr>
<tr>
<td>AFDC Payment Level</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

Caretaker Relatives and pregnant women are eligible for Medicaid under this coverage group when all of the following conditions are met. Eligibility determination groups are determined according to AFDC methods detailed in Chapter 3.18.

- Countable income is under the AFDC Payment level. The income eligibility determination methodology detailed in Chapter 4.16 applies to this coverage group.
- Countable assets do not exceed the limits for the AFDC program described in Chapter 5. All AFDC asset methodologies found in Chapter 5 apply to this coverage group.
- The AG includes a dependent child, living with a specified relative.
23.11 AGED, BLIND, OR DISABLED

23.11.1 SSI RECIPIENTS

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
<tr>
<td></td>
<td>$3000 Couple</td>
</tr>
</tbody>
</table>

Supplemental Security Income (SSI) is a public assistance program administered by the Social Security Administration (SSA), which provides cash benefits to eligible aged, disabled, or blind individuals. There is no spenddown provision.

States have some options regarding Medicaid coverage for SSI recipients. West Virginia elected to cover all SSI recipients and to accept SSA's determination of eligibility for SSI as the sole eligibility determination for Medicaid. West Virginia is referred to as a “1634 state,” based on the section of the Social Security Act that permits this.

Consequently, there is no application or eligibility determination process for SSI Medicaid. The Department depends upon SSA for the information needed to open, evaluate, and close continuing eligibility for SSI Medicaid cases. SSI Medicaid eligibility ends when SSI ends in most situations. See Section 10.14 for exceptions and closure procedures.

The Worker uses information from a data exchange between Department of Health and Human Resources (DHHR) and SSA to open the SSI Medicaid benefit.

Trust provisions apply to SSI Medicaid and must be explored prior to SSI Medicaid approval and at redetermination. Chapter 24 contains provisions related to an SSI recipient entering a nursing facility.
23.11.2 DEEMED SSI RECIPIENTS

23.11.2.A Disabled Adult Children (DAC)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

An individual is eligible for Medicaid as a Disabled Adult Child (DAC) when all of the following conditions are met:

- He is at least 18 years old;
- He became disabled or blind before reaching the age of 22;
- He was eligible for SSI based on disability or blindness; and,
- He lost SSI eligibility as a result of becoming entitled to or receiving an increase in child's insurance benefits.

Eligibility is determined by SSA and communicated to the DHHR through data exchange.

The client must not be required to apply for this coverage group.

23.11.2.B Blind, Disabled – Substantial Gainful Activity (SGA)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Persons who receive SSI due to a disabling impairment, but who also engage in substantial, gainful activity, are eligible for Medicaid even though their SSI payments may stop. Eligibility for this coverage group is determined by SSA.

There are no special procedures for this coverage group and the client is not required to apply for Medicaid.
23.11.2.C Essential Spouse of SSI Recipients

Under West Virginia’s former Old Age Assistance (OAA), Aid to the Disabled (AD), and Aid to the Blind (AB) Programs, Essential Spouses are spouses of the aged, disabled, or blind person, who were not themselves aged, disabled, or blind. Essential Spouses were "grandfathered" into the SSI program based on eligibility for benefit categories that no longer exist. This means that the SSI benefit received by the eligible individual is based on the payment level of eligible spouses and is intended to meet the needs of husband and wife.

Essential Spouses are included in the SSI Medicaid case with their eligible spouses as long as they are included in the SSI payment.

Individuals continue to qualify as Essential Spouses until one of the following occurs:

- The eligible spouse becomes ineligible for SSI. Once the eligible spouse goes into a non-payment or terminated status, his spouse can never again qualify for SSI or Medicaid as an Essential Spouse of an SSI recipient.
- The eligible spouse and the Essential Spouse are no longer living together. The Essential Spouse becomes ineligible when SSA determines that the separation is not temporary or after 90 days, whichever occurs first. The Essential Spouse status cannot be regained if the couple begins living together again.
- The Essential Spouse becomes eligible for SSI in his own right.

Eligibility for this coverage group is determined by SSA. There are no special procedures for this coverage group and the client is not required to apply for Medicaid.
### 23.11.2.D Pass-Throughs

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSI Payment Level</td>
<td>$2,000</td>
</tr>
</tbody>
</table>

Former SSI recipients who meet all of the following conditions are eligible for Medicaid:

- In August, 1972, the individual was entitled to Retirement, Survivors, and Disability Insurance (RSDI) benefits.
- The individual would currently be eligible for SSI except that the increase in RSDI benefits that occurred on July 1, 1972, under Public Law 92-336, raised his income over the limit allowed under the SSI Program.

The central Buy-In Unit in BMS is responsible for identifying Pass-Through cases and for taking action necessary to continue Medicaid coverage for them. Refer to Chapter 25 for a more complete explanation of the Buy-In Unit's responsibilities. If a Pass-Through case is not enrolled in Medicare, the Buy-In Unit notifies the Worker to refer the client to SSA for Medicare enrollment.

The Worker accomplishes the referral using an SSA-1610, Public Assistance Agency Information Request and Report, with the following notation in red in the top right-hand corner of the form: "Referral for Medicare Enrollment - Buy-In."

It is possible that the Buy-In Unit will not identify a case that could be a Pass-Through case. When this happens, the Worker notifies the Buy-In Unit.

### 23.11.2.E Pickle Amendment Coverage (PAC)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
<tr>
<td></td>
<td>$3000 Couple</td>
</tr>
</tbody>
</table>

An individual is eligible for Medicaid coverage under Pickle Amendment Coverage (PAC) if all of the following conditions are met:

- He was eligible for and received RSDI and SSI at the same time, for at least one month after April 1977.
An individual who received SSI, and was found retroactively eligible for RSDI for a month in which SSI was received, is considered to have received SSI and RSDI concurrently. RSDI payments are received the month following the month of entitlement. For example, the RSDI entitlement for December is received in January.

- He lost SSI for any reason, but would currently be eligible if the total amount of all RSDI Cost of Living Adjustments (COLAs) since the loss of SSI were deducted from his RSDI. This includes a COLA that results in the loss of SSI.
- The individual currently receives RSDI benefits.

When determining the COLAs to be deducted, include the increases received by the individual and his financially responsible spouse or parent. The procedure used is detailed in Section 4.11.
23.11.2.F  Disabled Widows and Widowers

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>$2,000</td>
</tr>
</tbody>
</table>

A widow or widower who loses SSI benefits when RSDI benefits begin is eligible for Medicaid when all of the following conditions are met:

- The client is a widow or widower who is at least age 50, but not age 65;
- He is no longer eligible to receive SSI benefits due to receipt of RSDI;
- He is receiving RSDI as an eligible widow/widower or is receiving any other type of RSDI benefits, but is also otherwise eligible for widow/widower benefits;
- He would be eligible for SSI benefits were it not for the receipt of RSDI;
- He received SSI benefits in the month prior to the first month of RSDI benefits; and,
- He is not entitled to Medicare, Part A.

The widow/widower remains eligible until entitled to Medicare, Part A. Eligibility is determined by SSA and communicated to the Department through data exchange. The client must not be required to apply for this coverage group. The Worker’s only eligibility responsibility is to verify entitlement to Medicare, Part A.

NOTE: The Worker may discover other widows/widowers in his caseload that are eligible in this category but who do not meet the requirements listed above. These are widows/widowers who lost SSI eligibility due to changes in the SSA reduction formula as part of the Social Security Amendments of 1983. Intake for this second group of widows/widowers ended 7-1-88. These individuals are eligible as long they reside in West Virginia.
23.11.2.G Drug Addicts and Alcoholics (DA&A)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
</tbody>
</table>

Drug addicts and alcoholics who meet one of the following conditions are eligible for Medicaid:

- They were found by SSA to be disabled, and drug addiction or alcoholism was material to the disability determination;
- They would be eligible for SSI except that they are suspended due to non-compliance with the treatment requirements or for the mandatory period for demonstrating compliance; or,
- Their SSI benefits were terminated due to the 36-month limit for SSI benefits provided under the SSI drug addiction and alcoholism provisions.

Potential eligibility is determined by SSA and communicated to the DHHR through data exchange. The client must not be required to apply for this coverage group.

23.11.3 SSI-RELATED

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>MNIL</td>
<td>$2,000 Individual</td>
</tr>
<tr>
<td>Subject to Spenddown</td>
<td>$3,000 Couple</td>
</tr>
</tbody>
</table>

Individuals who meet the SSI definition of aged, blind or disabled are eligible for Medicaid when all of the following conditions are met. Aged means 65 years or over.

- Countable income is under the Medically Needy Income Limit (MNIL).
  
  The income eligibility requirement is detailed in Chapter 4. However, no SSI-Related case is denied due only to excess income. Instead, the Worker must deduct incurred medical bills from countable income for the six-month Period of Consideration. This process is called spenddown and details of this procedure are in Chapter 4.
Eligibility and the amount of the spenddown, if any, are determined using the MNIL. The level of the MNIL is determined by each state according to federal guidelines. By law, the MNIL cannot exceed 133% of the State's former AFDC cash assistance payment level, rounded to the nearest $100, for a family of the same size.

NOTE: Under some circumstances the MNIL for two people is used when determining eligibility for only one person. This is also explained in Chapter 4.

- Countable assets do not exceed the limits described in Chapter 5.

An aged, blind, or disabled person may also be eligible as a member of an AFDC-Related family. The Worker must take the action that will most benefit the client.

### 23.11.4 SSI-RELATED/ NON-CASH ASSISTANCE

<table>

<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
<tr>
<td></td>
<td>$3,000 Couple</td>
</tr>
</tbody>
</table>

NOTE: This coverage group is not subject to the spenddown provision.

Individuals who meet the SSI definition of aged, blind, or disabled are eligible for Medicaid when all of the following conditions are met. Aged means 65 years or over. All requirements in Chapter 13 for determining disability or blindness for SSI-Related coverage groups apply to this coverage group:

- Countable income must be under the SSI Maximum Payment level; see Chapter 4, Appendix A. The SSI-Related income eligibility determination methodology detailed in Section 4.14 applies to this coverage group. Income sources are the same as those in the SSI-Related column in the chart of income sources in Section 4.3 for this coverage group.

- Countable assets do not exceed the limits for the SSI-Related program described in Chapter 5. All SSI-Related asset methodologies found in Chapter 5 apply to this coverage group. Assets are the same as those in the SSI-Related group’s column in the list of assets in Chapter 5.5 for this coverage group.
Chapter 23

23.11.5  LONG TERM CARE

23.11.5.A  Nursing Facility (Code: MLTN) and Intermediate Care Facility/Individuals with Intellectual Disability (ICF/IID) (Code: MLTI)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>300% SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
<tr>
<td></td>
<td>$3,000 Couple</td>
</tr>
</tbody>
</table>

The Department of Health and Human Resources (DHHR) provides Medicaid to institutionalized individuals who would not otherwise be eligible for Medicaid if not in an institution. To qualify, an individual must meet the medical criteria for nursing facility or ICF admission, as well as financial criteria. SSI-Related Medicaid disability guidelines also must be met.

The determination of which income to count is the same as SSI-Related Medicaid, see Chapter 4. No income is deemed to the client. The client's monthly gross non-excluded income is compared to 300% of the maximum SSI payment for a single individual.

The determination of countable assets is the same as for SSI-Related Medicaid, see Chapter 5. The SSI-Related Medicaid asset limit for one person is used. When both spouses are institutionalized and apply for nursing facility services, the SSI-Related Medicaid asset limit for a couple is used to determine eligibility.

Details are found in Chapter 24.

23.11.5.B  SSI-Related/Monthly Spenddown Group

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>MNIL for one person</td>
<td>$2,000 Individual</td>
</tr>
</tbody>
</table>

An aged, blind or disabled individual residing in a nursing facility may have his eligibility determined as an SSI-Related/Monthly Spenddown Group client as another way to receive financial assistance for the cost of nursing facility services, see Section 24.7.

All SSI-Related policies and procedures apply to these cases, including the determination of a spenddown amount, with the following exceptions:
• Income is not deemed.
• The MNIL for one person is always used.
• The spenddown amount is determined on a monthly basis.

When the monthly Medicaid rate for the facility in which the client resides equals or exceeds his monthly spenddown amount, the spenddown is assumed to be met and Medicaid eligibility is established. The Medicaid daily rate for the facility is multiplied by 30 to determine the average monthly rate. The daily rates for all Medicaid are found only on the DFA intranet page. The rates are updated semi-annually.

23.11.5.C Individuals Receiving Home and Community Based Services under Title XIX Waivers

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>300% SSI Payment Level</td>
<td>$2,000 Individual</td>
</tr>
</tbody>
</table>

The DHHR has elected to provide Medicaid to individuals who would be eligible for Medicaid if institutionalized and who would require institutionalization was it not for the availability of home and community-based services. To qualify, an individual must be aged/disabled, intellectually/developmentally disabled, or have a traumatic brain injury. The three waiver programs are:

- ADW (Aged and Disabled Waiver) (Code: MALH, MALW – pending waiver slot)
- I/DD (Intellectual/Developmental disability) Waiver (Code: MALM)
- TBI (Traumatic Brain Injury) Waiver (Code: MALH w/reason code 709)

Details about the AD (aged/disabled) Waiver, I/DD (intellectual/developmental disability) Waiver, and TBI (traumatic brain injury) Waiver are found in Chapter 24.

The determination of which income to count is the same as SSI-Related Medicaid, see Chapter 4. No income is deemed to the client. The client's monthly gross non-excluded income is compared to 300% of the maximum SSI payment for a single individual.

The determination of countable assets is the same as for SSI-Related Medicaid, see Chapter 5. The SSI-Related Medicaid asset limit for one person is used.
23.11.5.D  Children with Disabilities Community Service Program (CDCSP)

The DHHR has chosen the option of providing Medicaid to disabled children, up to the age of 18, who require an institutional level of care but can receive necessary medical services while residing in their family (natural or adoptive) homes or communities. The medical services must not be more expensive for the State than placement in a medical institution, such as a nursing facility, ICF/IID facility, and acute care hospital or approved Medicaid psychiatric facility for children under the age of 21.

This coverage group allows children to remain with their families by providing medical services in the home or community that are at least as cost-effective as care in a medical institution. It also eliminates the SSI requirement that the income and assets of parents and/or legal guardians be deemed to the children.

A child is eligible for Medicaid as a CDCSP client when all the following conditions are met:

- The child has not attained the age of 18.
- The child’s own gross income does not exceed 300% SSI payment level.
- The child has been determined to require a level of care provided in a medical institution, nursing facility, ICF/IID, hospital, or psychiatric facility.
- The child is expected to receive the necessary services at home or in the community.
- The estimated cost of services is no greater than the estimated cost of institutionalization.
- The child would be eligible for an SSI payment if in a medical institution.
- The child has been denied SSI eligibility because the income and assets of his parent(s) were deemed to him, and as a result, the SSI income or asset eligibility test was not met.

Details for CDCSP are found in Chapter 24.
23.11.6 MEDICAID WORK INCENTIVE PROGRAM (M-WIN)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>

<td>below the SSI Payment Level</td>
<td></td>
</tr>
<tr>
<td>No Spenddown Provision</td>
<td>$3,000 – Individual with</td>
</tr>
<tr>
<td></td>
<td>Spouse</td>
</tr>
</tbody>
</table>

The Medicaid Work Incentive (M-WIN) full-coverage Medicaid group was established to assist individuals with disabilities in becoming independent of public assistance by enabling them to enter the workforce without losing essential medical care.

To be eligible, the individual must:

- Be at least age 16, but not yet age 65;
- Be disabled as defined by the SSA;
- Be engaged in competitive employment; and,
- Pay all required enrollment fees and premiums.

See Chapter 26 for details.
23.12 MEDICARE PREMIUM SUBSIDIES

Individuals who meet all other Qualified Medicare Beneficiaries (QMB), Specified Low-Income Medicare Beneficiaries (SLIMB), and Qualified Individuals (QI) eligibility requirements, but who are not yet enrolled in Part B, must be referred to the Bureau of Medical Services (BMS) Medicare Buy-In Unit by sending an email to: dhhrmedicarebuyin@wv.gov. The message must contain the applicant’s name, address, date of birth, and Social Security Number. The Buy-In Unit contacts Social Security to facilitate enrollment. This avoids any late enrollment penalty that may apply to the individual and permits enrollment outside the yearly open enrollment period.

23.12.1 QUALIFIED MEDICARE BENEFICIARIES (QMB)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>100% FPL</td>
<td>$7,730 – Individual &lt;br&gt; $11,600 – Couple</td>
</tr>
</tbody>
</table>

Medicaid coverage is limited to payment of the Medicare, Part A and Part B premium amounts and payment of all Medicare co-insurance and deductibles, including those related to nursing facility services. The Buy-In Unit pays the Medicare premium. Refer to Chapter 25 for details.

An individual or couple (spouses) is eligible for this limited Medicaid coverage when all the following conditions are met:

- The individual must be enrolled in Medicare, Part A. He must be entitled in any of the following three ways:
  - By being age 64 years and 9 months old or older;
  - By having been totally and continuously disabled and receiving RSDI or Railroad Retirement benefits for 24 months or longer; or,
  - By having end-stage renal disease;
- The individual or spouses must meet the income test detailed in Chapter 4; and,
- The individual or spouses must meet the asset test detailed in Chapter 5.
23.12.1.A Medical ID Card Issuance

The Medical ID card is included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

23.12.1.B Period of Eligibility

The beginning date of QMB eligibility is the first day of the month following the month the application is approved.

The usual three-month period for backdating eligibility does not apply to QMBs. However, Section 1.16 describes some situations in which backdating applies.

When the individual falls within the QMB income range and qualifies for that coverage, he cannot be approved for SLIMB to obtain backdated premium payment.

23.12.1.C Reimbursement of Medicare Premium Amount

Once the Buy-In Unit includes the QMB client in the State Buy-In process, and thus begins the State's payment of the client's Medicare premium to the Social Security Administration (SSA), SSA refunds all the Medicare premiums withheld during the time that the State should have paid the premium.

Such reimbursement to the client does not affect the client's eligibility.

23.12.1.D Changes to Buy-In Status

The eligibility system notifies the Buy-In Unit when the case is closed.
23.12.1.E  Nursing Facility Services

Those eligible as QMBs are eligible to have their QMB coverage pay the Medicare deductible and/or co-insurance for nursing facility services if Medicare is paying for nursing facility services.

If the client applies for Medicaid nursing facility services as described in Chapter 24 and is found eligible, he is treated as a dual eligible. However, if the client does not apply for Medicaid nursing facility services or is not eligible for them, his QMB coverage pays the Medicare co-insurance and/or deductibles related to nursing facility costs without a client contribution for his cost of care. See Section 24.7.2.A for additional information.

23.12.2  SPECIFIED LOW-INCOME MEDICARE BENEFICIARIES (SLIMB)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>101 – 120% FPL</td>
<td>$7,730 – Individual</td>
</tr>
<tr>
<td></td>
<td>$11,600 – Couple</td>
</tr>
</tbody>
</table>

Medicaid coverage is limited to payment of the Medicare Part B premium. An individual or couple (spouses) is eligible for this limited Medicaid coverage when all of the following conditions are met:

- The individual must be enrolled in Medicare, Part A. He must be entitled in any of the following three ways:
  - By being age 64 years and 9 months old or older;
  - By having been totally and continuously disabled and receiving RSDI or Railroad Retirement benefits for 24 months or longer; or,
  - By having end-stage renal disease;
- The individual or couple must meet the income test detailed in Chapter 4; and,
- The individual or couple must meet the asset test detailed in Chapter 5.

23.12.2.A  Medical ID Card Issuance

No Medical ID card is issued to those whose sole Medicaid coverage group is SLIMB. The Buy-In Unit is responsible for buying-in to Medicare, Part B, for the client. See Chapter 25 for details.
23.12.2.B Period of Eligibility

The beginning date of SLIMB eligibility may be backdated up to three months prior to the month of application, provided all eligibility requirements were met. When SLIMB eligibility ends, it ends effective the first day of the month following the month in which ineligibility occurs, or whenever the advance notice period ends.

When the individual falls within the QMB income range and qualifies for that coverage, he is not approved for SLIMB to obtain backdated premium payment.

23.12.2.C Reimbursement of Medicare Premium Amount

The information in Section 23.12.1.C above also applies to SLIMB cases.

23.12.2.D Changes in Buy-In Status

The information in Section 23.12.1.D above also applies to SLIMB cases.
23.12.2.E Nursing Facility Services

Eligibility for SLIMB alone does not cover the Medicare co-insurance and/or deductibles associated with nursing facility services. However, the client may be dually eligible for SLIMB and Medicaid nursing facility services as described in Chapter 24.

23.12.3 QUALIFIED INDIVIDUAL (QI)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>121 – 135% FPL</td>
<td>$7,730 – Individual</td>
</tr>
<tr>
<td></td>
<td>$11,600 – Couple</td>
</tr>
</tbody>
</table>

Medicaid coverage is limited to payment of the Medicare Part B premium. An individual or couple (spouses) is eligible for limited* Medicaid coverage when all the following conditions are met:

- The individual must be enrolled in Medicare, Part A. He must be entitled in any of the following three ways:
  - By being age 64 years and 9 months old or older;
  - By having been totally and continuously disabled and receiving RSDI or Railroad Retirement benefits for 24 months or longer; or,
  - By having end-stage renal disease;
- The individual or couple must meet the income test detailed in Chapter 4;
- The individual or couple must meet the asset test detailed in Chapter 5; and
- The individual or couple is not eligible for any full-coverage Medicaid group

Medicaid coverage is limited to payment of the Medicare, Part B premium. The Buy-In Unit pays the Medicare premium. Refer to Chapter 25 for details.
23.12.3.A  Medical ID Card Issuance

No Medical ID card is issued to those whose sole Medicaid coverage group is QI. The Buy-In Unit is responsible for buying-in to Medicare, Part B, for the client. See Chapter 25 for details.

23.12.3.B  Period of Eligibility

Eligibility may be backdated up to three months prior to the month of application. However, under no circumstances may eligibility be backdated prior to January of the calendar year of application. When QI eligibility ends, it ends effective the first day of the month following the month in which ineligibility occurs, or whenever the advance notice period ends.

23.12.3.C  Reimbursement of Medicare Premium Amount

Once the Buy-In Unit includes the QI client in the State Buy-in process, and, thus begins the State's payment of the client's Medicare premium to SSA, SSA refunds all of the Medicare premiums withheld during the time that the State should have paid the premium.

Such reimbursement to the client does not affect the client's eligibility.

23.12.3.D  Changes in Buy-In Status

The eligibility system notifies the Buy-In Unit when the case is closed.

23.12.3.E  Nursing Facility Services

Nursing facility services are not covered under QI.
23.12.4 QUALIFIED DISABLED WORKING INDIVIDUALS (QDWI)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>200% FPL</td>
<td>$4,000 Individual</td>
</tr>
<tr>
<td></td>
<td>$6,000 Couple</td>
</tr>
</tbody>
</table>

Medicaid coverage is limited to payment of the Medicare, Part A, premium when the client is not eligible for premium free Part A. An individual is eligible for this limited Medicaid Coverage when all of the following conditions are met:

- He is under age 65;
- He is disabled and no longer entitled to Social Security disability benefits and Medicare because he is employed full time and his earnings exceed the SSA limits. Disability is established by verification of the reason for RSDI and Medicare termination;
- He is eligible to purchase Medicare, Part A, as determined by SSA;
- His income meets the limits detailed in Chapter 4;
- His assets meet the limit detailed in Chapter 5; and,
- He is not eligible under any other full-coverage Medicaid group.

The Buy-In Unit is responsible for payment of the Medicare, Part A, and premium amount. To begin this process the Worker must forward to the Supervisor, Buy-In Unit, BMS, the following items:

- A copy of the application with "QDWI" written at the top of the form. A copy must be retained in the case record.
- A copy of the Medicare termination notice. The original must be retained in the case record.
- A copy of the client's Medicare card, whether or not Medicare entitlement has expired. A copy must also be retained for the case record.

Once the Buy-In Unit completes the buy-in process and the client is accepted by SSA, SSA will notify the individual that the State is now paying his Medicare premium.
23.13 INELIGIBLE NONCITIZENS – EMERGENCY COVERAGE

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Income limit of the Medicaid group for which the noncitizen is applying (i.e., would otherwise be eligible)</td>
<td>Asset limit of the Medicaid group for which the noncitizen is applying</td>
</tr>
</tbody>
</table>

A noncitizen who is not otherwise eligible for Medicaid as a Qualified Noncitizen, refer to Chapter 15 is eligible when all of the following conditions are met.

- The noncitizen must meet the income, asset, and non-financial considerations (except for noncitizen status) of any full-coverage Medicaid group, with the exception of the long-term care groups; and,

- He must be diagnosed as having a severe medical condition that could reasonably be expected to result in one of the following, without immediate medical attention:
  - Serious jeopardy to the noncitizen’s health
  - Serious impairment to bodily functions
  - Impaired or abnormal functioning of any body part or organ

  Such medical conditions include labor and delivery. In judging sufficient severity, severe pain must be considered.

Applications from or on behalf of these noncitizens must be made within 30 days of the need for emergency medical care.

Individuals who apply based on disability must be approved by MRT, unless they receive a statutory disability benefit. See Chapter 13.
23.14 NON-MEDICAID HEALTH PROGRAMS

23.14.1 WV CHILDREN’S HEALTH INSURANCE PROGRAM (WVCHIP)

WVCHIP is not Medicaid. See Chapter 22 for WVCHIP policy, including deemed newborns.

23.14.2 PHARMACY PROGRAMS

23.14.2.A AIDS DRUG ASSISTANCE PROGRAM (ADAP)

<table>
<thead>
<tr>
<th>Income</th>
<th>Assets</th>
</tr>
</thead>
<tbody>
<tr>
<td>325% FPL</td>
<td>N/A</td>
</tr>
</tbody>
</table>

The ADAP is also referred to as the AIDS Special Pharmacy Program or the ADAP WV Special Pharmacy Program.

Medicaid coverage is limited to payment for medications listed on the current WV ADAP Formulary for HIV/AIDS treatment. An individual is eligible for this limited Medicaid coverage when all the following conditions are met:

- The individual must have been diagnosed as HIV positive;
- The income of the individual, his spouse, and his dependent children who live with him must meet the income limits detailed in Chapter 4; and,
- He must be ineligible for any other Medicaid full-coverage group or be eligible as a Medically Needy client who has not met his spenddown.

Except for acceptance of the initial DFA-2 Medicaid and the two-page ADAP applications, eligibility determination for this coverage group is administered by BMS. Potential eligibility for or receipt of Medicare, Part D, does not affect the application or referral process for ADAP eligibility determination. The resource development policies in Chapter 8 do not apply to ADAP. For information related to special communication between the Worker and BMS, refer to Chapter 1.

If the client becomes eligible under any other coverage group or meets his spenddown, the Worker must notify BMS immediately and must specify the beginning date of Medicaid eligibility.
23.14.2.B Special Pharmacy

The Special Pharmacy Program helps pay for certain necessary drugs for individuals not eligible for Medicaid. These costs are paid from State funds and cover only the costs of immunosuppressant (antirejection) drugs after a patient has received a transplant and antipsychotic (atypical) drugs.

See Chapter 28 for details.
APPENDIX A: GUIDE TO TRANSITIONAL MEDICAID

PHASE I

Parents/Caretaker Relatives

1. Received Parents/Caretaker Relatives Medicaid in at least three of the last six months.
2. No indication of Parents/Caretaker Relatives Medicaid fraud.
3. Assistance group (AG) has a dependent child.
4. Enroll and maintain enrollment in employer’s free medical plan, if available.

PHASE II

1. Received Phase I coverage for entire six months.
2. All Periodic Reporting Letters (PRL) forms are returned.
3. AG has a dependent child.
5. Parent continues to have earnings – unless good cause exists.
6. Enroll and maintain enrollment in employer’s free medical plan, if available.

TRANSITIONAL MEDICAID (TM) FLOW

PHASE I

FIRST MONTH: Start TM.
SECOND MONTH: No action necessary.
THIRD MONTH: PRL3 mailed to client on the 25th of the month.
FOURTH MONTH: Alert that PRL3 is due by 21st to report earnings and day care expenses for first three months of Phase I. If not received send advance notice to client of ineligibility for Phase II.
FIFTH MONTH: Alert that Phase I ends next month. No action necessary.
SIXTH MONTH: PRL8 mailed to client on 25th of the month. Due by the 21st of the first month of Phase II.
NOTE: There is no provision to discontinue Phase I for failure to continue working.

NOTE: Failure (without good cause) to return completed PRL3 by due date results in ineligibility for Phase II. No effect on Phase I.

PHASE II

FIRST MONTH (Total of 7 mos.): Alert that PRL8 due by 21st of month. Send advance notice to terminate TM if completed form is not received.

SECOND MONTH (Total of 8 mos.): No action necessary. Phase II termination if PRL8 not received and good cause not established.

THIRD MONTH (Total of 9 mos.): PRL9 mailed to client on 25th of month. Due by 21st of fourth month.

FOURTH MONTH (Total of 10 mos.) Alert that PRL9 is due by 21st of month. Send advance notice to terminate TM if completed form is not received.

FIFTH MONTH (Total of 11 mos.): No action necessary. Phase II termination if PRL9 not received and good cause not established.

SIXTH MONTH (Total of 12 mos.): Alert that Phase II, TM is ending. Benefits automatically terminate. Determine eligibility under other Medicaid coverage groups.

Chapter 24

24.1 INTRODUCTION

This chapter describes the Department of Health and Human Resources’ (DHHR) policies and procedures related to eligibility for long term care (LTC). LTC includes both institutional care and non-institutional home and community-based services (HCBS).

- Institutional care includes nursing facilities (NF) and intermediate care facilities for individuals with intellectual disabilities (ICF/IID).
- West Virginia’s HCBS include four programs. These are for people who would otherwise need institutional level of care, but have chosen to receive care in the community.

West Virginia has been granted waivers by the Centers for Medicare and Medicaid Services (CMS) to provide HCBS to several target populations:

- Aged or disabled people under the Aged and Disabled Waiver (ADW)
- Intellectually or developmentally disabled individuals under the Intellectual Disabilities and Developmental Disabilities (I/DD) Waiver
- Individuals with traumatic brain injury under the Traumatic Brain Injury (TBI) Waiver

Additionally, West Virginia has opted to implement the Children with Disabilities Community Services Program (CDCSP) eligibility category, which allows for children who would otherwise need an institutional level of care to receive services in the community.

This chapter covers policies relating to individuals in two different situations:

- Clients who are already enrolled in or eligible for Medicaid who have a new need for LTC.
- Applicants who were not eligible for Medicaid at the time of application, but who may have become eligible because of their need for LTC.

All LTC programs require a determination of medical eligibility, as well as a determination of financial eligibility conducted by the Worker.

This chapter also sets out policies and procedures for determining if clients found eligible for institutional care must contribute to their cost of care.

This chapter is organized as follows:

- Section 24.1 – 24.3 applies to all LTC programs.
- Sections 24.4 – 24.15 cover information related to Nursing Facility services.
- Sections 24.16 – 24.27 cover information related to ICF/IID services.
- Sections 24.28 – 24.36 cover information common to the HCBS programs.
- Sections 24.37 – 24.40 provide information about the ADW.
- Sections 24.41 – 24.44 provide information about the I/DD waiver.
- Sections 24.45 – 24.48 provide information about the TBI waiver.
- Sections 24.49 – 24.58 provide information about CDCSP.

24.1.1 INFORMATION PROVIDED TO THE CLIENT

In determining eligibility for payment of LTC, the Worker must ensure that the client, or his authorized representative, is fully informed of the policies and procedures. This is necessary so that the client, his family, or his authorized representative is able to make informed decisions about the client's financial affairs. A face-to-face interview is not required, but there may be circumstances where the Worker may need to contact a client.

When an applicant's medical eligibility for, or enrollment in, LTC programs is pending due to a waitlist for services or another reason, he must still be allowed to apply and must be evaluated for any or all assistance programs.

The applicant may designate an authorized representative to act on his behalf. Such a designation must be in writing and include the applicant’s signature. See Section 24.4.1.C.5 for more information about authorized representatives.

The Worker must not, under any circumstances, suggest or require that the client or authorized representative take any specific action in financial matters. The Worker must not act as a financial planner or make suggestions about the client's current or future financial actions, including those that could affect estate recovery. The Worker may respond to general estate recovery questions, but must refer the client or his authorized representative to the Bureau for Medical Services (BMS) or its contract agency for specific information. The Worker must not contact the BMS or their contract agency on behalf of the client, but must refer the client or authorized representative to the BMS contract agencies listed in Appendix E.

24.1.2 INQUIRIES FROM PROVIDERS AND STAFF

The Worker must refer all inquiries about billing issues from the nursing or ICF/IID facility to the BMS contract agency listed in Appendix E. The Worker must not contact BMS on behalf of the provider.

Questions from county staff about any aspect of LTC cases must be directed to BMS Medicaid Eligibility Policy Unit.
24.2 VERIFICATION

Routine verification requirements are outlined in Chapter 7. Additional verification requirements for long term care services are included in this chapter.

For Intellectual and Developmental Disabilities (I/DD) waiver services, follow the instructions for Supplemental Security Income (SSI)-Related Medicaid in Chapter 7.
24.3 RESOURCE DEVELOPMENT

When Medicaid eligibility is established, clients are required to retain or develop resources that can reduce Medicaid costs. See Chapter 8.
24.4 APPLICATION/REDETERMINATION

Payment for nursing facility care is a service available to eligible Medicaid clients. Eligibility for payment for nursing facility services is determined in any of the following four ways, in priority order; also see Section 24.7.2.

1. Qualified Medicare Beneficiary (QMB) clients, when Medicare is participating in the nursing facility payment, or will participate when the client enters the nursing facility.
2. Full coverage Medicaid clients.
3. Nursing Facility coverage group – nursing facility residents who meet a special income test.
4. Supplemental Security Income (SSI)-Related/Monthly Spenddown – when the monthly Medicaid rate for the facility in which the client resides equals or exceeds his monthly spenddown amount, the spenddown is assumed to be met and Medicaid eligibility is established.

24.4.1 THE APPLICATION PROCESS

24.4.1.A QMB Clients

When a client needs nursing facility services and Medicare participates in payment, it may be to the client’s advantage to receive payment for nursing facility services as a QMB-eligible until Medicare no longer participates. See Section 24.7.2 for additional information.

See Chapter 1 for the application process for QMB.

24.4.1.B Full Coverage Medicaid Clients

When the individual is a client under a coverage group which provides full Medicaid coverage at the time he is determined to need nursing facility services, his Medicaid eligibility has already been determined; however, the transfer of resources, trusts and annuities provisions outlined in
Section 24.8 apply. These additional eligibility requirements for payment of nursing facility services apply to all Medicaid clients, including SSI, Deemed SSI, and Modified Adjusted Gross Income (MAGI) coverage group clients, and require the client to submit an additional application form for payment of nursing facility services.

### 24.4.1.B.1 Application Form

All full coverage Medicaid clients who need Medicaid payment for nursing facility services must complete and return the Application for Long Term Care Services for Current Medicaid Recipients (DFA-LTC-5), at the initial application for nursing facility services. The DFA-LTC-5 is used to evaluate annuities, trusts, and resource transfers to determine if a transfer penalty applies.

### 24.4.1.B.2 Date of Application

The date of application for payment of nursing facility services for current Medicaid clients is the date the applicant submits a DFA-LTC-5 in person, by electronic transmission, or by mail, which contains, at a minimum, his name, address, and signature. Payment for nursing facility services is not approved until the DFA-LTC-5 form is completed, signed, and returned to the local office.

### 24.4.1.B.3 SSI and Deemed SSI

SSI and Deemed SSI Medicaid clients who need Medicaid payment for nursing facility services must complete the DFA-LTC-5 application form at initial application and annual redetermination. SSI and Deemed SSI clients were determined asset eligible for Medicaid by the Social Security Administration (SSA), however, the client must disclose information about transfer of resources, trusts, and annuities. Payment for nursing facility services is not approved until the DFA-LTC-5 form is completed, signed, and returned to the local office.

When the DFA-LTC-5 form is not returned at the annual redetermination, the payment for long term care (LTC) services is closed after advance notice.
24.4.1.C.1 Application Forms

The following application forms may be used:

- DFA-2;
- inROADS;
- DFA-MA-1, Application for Long Term Medicaid and Children with Disabilities Community Service Program; or
- DFA-SLA-1 or DFA-SLA-2, Single-Streamlined Application (SLA) with supplement DFA-SLA-S1.

The DFA-RR-1 is required with the DFA-2.

24.4.1.C.2 Complete Application

The application is complete when the client or his authorized representative signs a DFA-2, inROADS application, DFA-5, DFA-MA-1, or SLA which contains, at a minimum, the client's name and address.

24.4.1.C.3 Date of Application

The date of application is the date the applicant submits a DFA-2, inROADS application, DFA-MA-1, or SLA, in person, by electronic transmission, or by mail, which contains, at a minimum, his name, address, and signature. When the application is submitted by mail or fax, the date of application is the date that the form with the name, address, and signature is received in the local office.
NOTE: When the applicant has completed the interactive interview, and there is a technical failure that prevents the printing of the DFA-2, Form DFA-5 must be signed by the applicant, attached and filed in the case record with the subsequently printed DFA-2. The DFA-RR-1 must also be completed when the DFA-5 has been signed.

If a Medicaid client loses eligibility and does not receive payment for nursing facility services for one month, he must reapply and is subject to the current application requirements unless the loss of eligibility or payment was due to a delay or error caused by the Department of Health and Human Resources (DHHR).

If an individual transfers to a nursing facility in West Virginia, he must submit an application and his eligibility must be evaluated as any other applicant.

**24.4.1.C.4 Interview Required**

No interview is required.

**24.4.1.C.5 Who Must Sign**

The application must be signed by the applicant, the spouse, or the authorized representative. When the applicant is a child under age 18, the parent(s) or legal guardian must sign.

➢ **Authorized Representatives**

The applicant may designate an authorized representative to act on his behalf. Such a designation must be in writing and include the applicant’s signature.

Authority for an individual or entity to act on behalf of an applicant or beneficiary accorded under state law, including but not limited to, a court order establishing legal guardianship or a power of attorney, must be treated as a written designation by the applicant or beneficiary of authorized representation.

The power to act as an authorized representative is valid until the applicant or beneficiary modifies the authorization to the DHHR.
The authorized representative is responsible to the same extent as the client being represented, including confidentially of any information regarding the client provided by the agency and agreeing to the terms of the Rights and Responsibilities.

Examples of documents the applicant may submit with the Medicaid application to verify he has designated an authorized representative include, but are not limited to:

- Single Streamlined Application (DFA-SLA-1, Appendix C)
- Application for Long Term Care Medicaid and Children with Disabilities Community Service Program (DFA-MA-1)
- Durable power of attorney (POA) and/or medical power of attorney documentation, unless limited in scope
- Court orders designating a guardian or conservator (signed by court)
- Healthcare surrogate documentation for an incapacitated applicant (signed by physician and surrogate)

### 24.4.1.C.6 Agency Time Limits

The Worker must give the applicant at least 10 days for any requested information to be returned.

The Worker must take eligibility system action to approve, deny, or withdraw the application within 30 days of the date of application.

### 24.4.1.C.7 Agency Delays

If the DHHR failed to request necessary verification, the Worker must immediately send a verification checklist or form DFA-6 and DFA-6a, if applicable, to the client and note that the application is being held pending. When the information is received, benefits are retroactive to the date eligibility would have been established had the DHHR acted in a timely manner.

If the DHHR simply failed to act promptly on the information already received, benefits are retroactive to the date eligibility would have been established had the DHHR acted in a timely manner.

For these cases, timely processing may mean acting faster than the maximum allowable time. If an application has not been acted on within a reasonable period of time and the delay is not due
to factors beyond the control of the DHHR, the client is eligible to receive direct reimbursement for out-of-pocket medical expenses. See Chapter 10.

24.4.1.C.8  Payee

The client is the payee.

24.4.1.C.9  Repayment and Penalties

This does not apply to the Nursing Facility coverage group and SSI-Related/Monthly Spenddown Medicaid.

24.4.1.C.10  Beginning Date of Eligibility

- Medicaid Eligibility

Medicaid eligibility begins on the first day of the month in which eligibility is established. Eligibility may be backdated up to three months prior to the month of application, when all eligibility requirements were met, and the client has medical expenses for which he seeks payment.

- Payment for Nursing Facility Services

Payment for nursing facility services begins on the earliest date the three conditions described below are met simultaneously. Payment for nursing facility services may be backdated up to three months prior to the month of application when all the conditions described below are met for that period.

- The client is eligible for Medicaid; and
- The client resides in a Medicaid-certified nursing facility; and
- There is a valid pre-admission screening (PAS) or, for backdating purposes only, physician’s progress notes or orders in the client’s medical records. Section 24.12 contains information about the PAS and details specific situations in which the progress notes or orders are used.
Examples

Expired PAS Example: Mr. Birch is a patient in a hospital. The physician recommends nursing facility care to Mr. Birch’s family and completes a PAS dated June 5, 2016. The family is undecided about placing Mr. Birch in a nursing facility and takes him home to provide care. They do not apply for Medicaid until August 16, 2016, which is the date Mr. Birch enters the nursing facility. Medicaid eligibility is established beginning August 1, 2016. The original PAS has expired. A new PAS is not completed until August 22, 2016. The Worker can request the physician’s notes to verify Mr. Birch’s medical necessity from August 16, 2016, through August 22, 2016. Medicaid nursing care payments begin August 16, 2016 using physician’s notes.

Delayed Entry Example: Same situation as above except that the PAS is dated June 25, 2016. A new PAS is not required, but nursing facility payments cannot begin until August 16, 2016, which is the date Mr. Birch entered the nursing facility.

Excess Assets Example: Ms. Dahlia enters a nursing facility on August 16, 2016, and the PAS is signed August 16, 2016. However, she does not become Medicaid eligible until September 1, 2016, due to excess assets. Payment for nursing facility services begins September 1, 2016.

Backdating Example: Mr. Pine enters a nursing facility on October 10, 2016, and a PAS is signed on that date. On November 25, 2016, his family applies for Medicaid to pay for his nursing care costs. Medicaid eligibility is backdated to August 1, 2016, to cover the cost of his recent hospitalization. Payment for nursing facility services begins on October 10, 2016.

24.4.1.C.11 The Benefit

A Medical ID card is issued for each eligible individual.

Ongoing Benefits

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.
Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.

➢ Ending Date of Eligibility

The ending date of eligibility is the last day of the month of the effective month of closure.

24.4.2 REDETERMINATION PROCESS

Redeterminations are completed annually, and no interview is required. The eligibility system alerts the Worker when a redetermination is due and automatically sends a redetermination form to the client.

The redetermination may be completed by the client or his authorized representative.

24.4.3 SPECIAL PROCEDURES RELATED TO APPLICATION AND REDETERMINATION PROCESSING

24.4.3.A Authorized Representative Resides in Another State

If the authorized representative does not reside within the state of West Virginia, he may submit any required documentation electronically, or by mail, to the appropriate Worker in the appropriate county office. The authorized representative may also ask a nursing facility staff member who has knowledge of the client’s financial circumstances to communicate with the Department and submit documentation on the client’s behalf. However, applications and redeterminations must still be signed by the applicant, the spouse or the authorized representative.

24.4.3.B Authorized Representative Resides in Another County

---
When the authorized representative resides in another county, he may submit any required documentation electronically, or by mail, to the Worker in the county responsible for the case. The authorized representative may also choose to communicate with and submit documentation to the Department in his own county of residence. In this situation, the county receiving the documentation should forward it securely to the county responsible for the case the same day it is received.

24.4.3.C Correct County of Residence for Nursing Facility Applicants

Nursing facility residents are considered to reside in the county where the nursing facility is located. However, there may be instances when the client applies before entering the nursing facility.

The county in which the individual resides on the date of application will accept responsibility for processing the application.

- When the applicant resides in a nursing facility at the time of application, the county where the facility is located accepts responsibility for processing the application.

- When the applicant still resides in their home county at the time of application, the current county of residence accepts responsibility for processing the application. Once eligibility has been determined, the case and record should be transferred to the county of the nursing facility.

The county responsible for the application responds to all inquiries related to the application until an eligibility decision is determined. Once the application process is complete and eligibility is determined, the case is housed in the county of the nursing facility.
24.5 COMMON ELIGIBILITY REQUIREMENTS

Individuals receiving payment for nursing facility services must meet all common eligibility requirements in Chapter 2. This section contains additional residency requirements for nursing facility eligibility.

The client meets the residency requirement when he is living in, not visiting, West Virginia with the intention of remaining permanently or for an indefinite period.

24.5.1 EXPRESSION OF INTENT TO LIVE IN WEST VIRGINIA

Only a competent adult can express intent. An individual age 21 or over is presumed competent unless there is medical evidence to establish:

- An IQ of 49 or less; or
- A mental age of 7 or less; or
- Legal incompetence.

When the client is institutionalized, the client's intent is used to determine the state of residence.

For any institutionalized individual age 21 or over who is incapable of expressing intent and was not placed by a state agency, the state of residence is the state in which the individual is living.

24.5.2 MINORS

The state of residence for an institutionalized individual under age 21 is the state of residence of the child's parent(s) or legal guardian, if they currently live in the same state. If the child and his parent(s)/legal guardian do not live in the same state, the state the parent(s)/legal guardian lived in at the time the child was institutionalized is the child's state of residence. If a minor child has married or in some other way becomes emancipated, the child is considered capable of expressing intent.
24.5.3 PLACEMENT BY OUT OF STATE AGENCY

When an individual is placed in a nursing facility or institution in one state by a state agency in another state, he retains his residence in the state making the placement.
24.6 ELIGIBILITY DETERMINATION GROUPS

Eligibility may be determined under any full Medicaid coverage group using the eligibility determination groups for the appropriate coverage group. See Section 24.7.2 and Chapter 3. If the client is not eligible for a full Medicaid coverage group, the client is assessed for eligibility under the Nursing Facility coverage group and the SSI-Related/Monthly Spenddown group using the following guidance.

24.6.1 THE ASSISTANCE GROUP (AG)

Only the institutionalized individual is included. A Medicaid-eligible spouse must be in his own AG, whether he is also institutionalized or not.

24.6.2 THE INCOME GROUP (IG)

Only the countable income of the institutionalized individual is used to determine his eligibility.

24.6.3 THE NEEDS GROUP (NG)

The NG is composed only of the institutionalized individual. See Section 24.7 for applicable income standards.

24.6.4 CASE COMPOSITION

The case is composed of the institutionalized individual, a spouse living in the community, and any of the individual’s dependents. A Medicaid-eligible spouse receives benefits in his own case, whether he is also institutionalized or not.
24.7 INCOME FOR ELIGIBILITY DETERMINATION

There is a two-step income process for providing Medicaid coverage for nursing facility services to individuals in nursing facilities. The client must be eligible for Medicaid and there must be a determination to see if the client must contribute to the cost of care.

Medicaid eligibility can be established by virtue of being a Qualified Medicare Beneficiary (QMB) client, of being a member of a full Medicaid coverage group, by meeting a special income test for the nursing facility coverage group, or by meeting a SSI-Related/Monthly Spenddown. See Chapter 23 to determine which coverage groups provide full coverage Medicaid.

Once Medicaid eligibility is established, if applicable, the client's contribution toward his cost of care in the facility is determined in the post-eligibility process. The post-eligibility process is described in Section 24.7.3 below.

24.7.1 BUDGETING METHOD

See Section 4.6 for generally applicable information about determining income. Monthly income is determined based on averaging income over multiple months, if applicable, and converting or prorating income for time periods other than monthly from each source.

For each month of residence in a facility, all countable income must be used in determining eligibility and in post-eligibility calculations, even if he resides only one day in the facility. No deductions or exclusions are allowed for income already spent in the month the client enters the nursing facility or for expenses he anticipates in the month he leaves.

24.7.2 FINANCIAL ELIGIBILITY PROCESS

Eligibility for payment for nursing facility services is determined in any of the following four ways, in priority order.

24.7.2.A QMB Clients

When a client needs nursing facility services and Medicare is participating in the payment or will participate when the client enters the nursing facility, it may be to the client's advantage to
receive payment for nursing facility services as a QMB-eligible, until Medicare no longer participates. QMB covers all Medicare co-insurance and deductibles. QMB clients are exempt by law from the post-eligibility process and, therefore, have no contribution toward their cost of nursing facility services, as long as Medicare participates in the payment. See Chapter 23.

However, the Worker must use one of the following ways to determine eligibility, if it would be more beneficial to him than QMB. In addition, when Medicare stops participating in the cost of care, QMB eligibility no longer covers nursing care costs and eligibility must be redetermined according to the options below.

24.7.2.B Full Coverage Medicaid Clients

When the individual is a client under a coverage group that provides full coverage Medicaid at the time he is determined to need nursing facility services, his Medicaid eligibility has already been determined.

For all full coverage groups, the client must complete the Application for Long Term Care Services for Current Medicaid Clients (DFA-LTC-5) at application for LTC services to evaluate any annuities, trusts and/or other potential resources or transfers so the Worker can determine if there will be a penalty period. See Section 24.8.

All Medicaid coverage groups listed in Chapter 23 are full Medicaid coverage groups, unless there is a statement specifically to the contrary.

SSI-Related or AFDC-Related individuals who are required to meet a six month spenddown must have previously met their spenddown to be determined eligible under this provision.

Those SSI-Related or AFDC-Related individuals who have no spenddown are Medicaid eligible. Those who meet their spenddowns prior to the need for nursing facility care have met the requirement to be eligible, through the current period of eligibility (POE). After the POE during which nursing facility services begin, the client’s eligibility is reviewed according to Section 24.7.2.C or Section 24.7.2.D below. Those who do not meet their spenddowns prior to the need for nursing facility care are reviewed for eligibility according to the two options described in Section 24.7.2.C and Section 24.7.2.D below.

These clients’ contribution toward cost of care is determined in the post-eligibility process. There are no post-eligibility calculations for Modified Adjusted Gross Income (MAGI) coverage groups.

When an applicant is not receiving full coverage Medicaid, the following test is made to determine eligibility.
24.7.2.C  Nursing Facility Coverage Group, Gross Income Test

If the client is not currently eligible by having QMB or full coverage Medicaid, Medicaid eligibility may be established as follows:

- If the client’s gross countable monthly income is equal to or less than 300% of the current maximum Supplemental Security Income (SSI) payment for one person and the client is institutionalized, he may be eligible.

- SSI-Related Categorical Medicaid requirements (aged, blind or disabled) and asset guidelines must be met.

These clients’ contribution toward cost of care is determined in the post-eligibility process. There is no spenddown amount for these clients.

24.7.2.D  SSI-Related / Monthly Spenddown

If the client is not otherwise eligible by having QMB, full coverage Medicaid, or Nursing Facility coverage group, his eligibility as an SSI-Related Medicaid client with a monthly spenddown must be explored. All policies and procedures in effect for other SSI-Related cases apply to these cases, including the determination of a spenddown amount.

**EXCEPTIONS:**

- *Income is not deemed.*
- *The Medically Needy Income Level (MNIL) for one person is always used. See Chapter 4, Appendix A.*
  - *The spenddown amount is a monthly period of consideration, rather than a six-month period.*

24.7.2.D.1  Spenddown Calculation

When the monthly Medicaid rate for the facility in which the client resides equals or exceeds his monthly spenddown amount, the spenddown is assumed to be met and Medicaid eligibility is established.
If the monthly spenddown amount exceeds the monthly Medicaid rate for the facility, the client may become eligible for Medicaid based on a six-month period of consideration (POC), but not for payment of nursing facility services.

The Medicaid daily rate for the facility is multiplied by 30 to determine the average monthly rate. The daily rates are found only on the Division of Family Assistance (DFA) intranet page. The rates are updated at least semi-annually. Any requests for the rates must be made under the Freedom of Information Act (FOIA) to the Department of Health and Human Resources (DHHR) Office of the Deputy Secretary, Division of Accountability and Management Reporting.

Case examples of the entire process of determining eligibility and the amount of the client's contribution are found below in Section 24.7.7.

### 24.7.3 POST-ELIGIBILITY PROCESS

The post-eligibility process does not apply to the MAGI Medicaid coverage groups – Adult Group, Parents/Caretaker Relatives, Pregnant Women, Children Under Age 19, or certain QMB clients. MAGI Medicaid coverage groups and QMB clients for whom Medicare pays a full month do not contribute to the cost of their nursing facility care.

Income sources that are excluded for the coverage group under which eligibility is determined are also excluded in the post-eligibility process for nursing facility services. See Section 4.3 for excluded sources for the appropriate coverage group.

In determining the client's contribution toward his cost of nursing facility care, the Worker must apply only the income deductions listed below. This is the post-eligibility process. The remainder, after all allowable deductions, is the resource amount, which is at least part of the amount the client must contribute toward his cost of care.

The client's spenddown amount, if any, as determined above, is added to the resource amount to determine the client's total contribution toward his nursing care, except when there is a community spouse. In cases with a community spouse, the spenddown is not added to the computed resource amount. The spenddown is used only to compare to the nursing facility’s Medicaid cost of care to determine eligibility. See Section 24.7.6.
24.7.3.A Income Disregards and Deductions

Only the items in the following sections may be deducted from the client's gross income in the post-eligibility process.

24.7.3.A.1 Client’s Personal Needs Allowance (PNA)

This amount is subtracted from income to cover the cost of clothing and other personal needs of the nursing facility resident. For most residents, the monthly amount deducted is $50. However, for an individual who is receiving the reduced Veterans Affairs (VA) pension of $90, the monthly PNA is $90. Similarly, an individual receiving SSI will have his monthly allocation reduced to $30, which is his monthly PNA if he is in the facility for at least three months.

24.7.3.A.2 Community Spouse Maintenance Allowance (CSMA)

When the institutionalized individual has a spouse living in the community, a portion of his income may be deducted for the support of the spouse at home. The community spouse must be included as part of the case and his living expenses taken into consideration to calculate the CSMA.

To determine the CSMA, the income of the community spouse is subtracted from a Spousal Maintenance Standard (SMS) which is either:

- The minimum SMS. This is 150% of the monthly FPL for 2 persons; or
- The minimum SMS, increased by excess shelter/utility expenses, but not exceeding the maximum SMS.

See Chapter 4, Appendix A for the minimum and maximum Spousal Maintenance Standard amounts.

The remainder is the amount of the institutionalized spouse’s income which can be used to meet his community spouse’s needs.

For the deduction to be applied, the determined amount must actually be paid to the community spouse. If the client contributes less than the determined amount, only the amount actually contributed to the community spouse is deducted. If he has been ordered by a court or a Hearings Officer to contribute more to his spouse, the higher amount is deducted.
The following steps are used to determine the amount of the CSMA:

Step 1: Add the actual shelter cost and the amount of the current SNAP Heating/Cooling Standard (HCS). See Chapter 4, Appendix B. The shelter cost must be for the home the institutionalized spouse and the community spouse shared prior to institutionalization, and in which the community spouse continues to live. It must have been the client’s principal place of residence. Shelter costs include rent or mortgage payments, interest, principal, taxes, insurance and required maintenance charges for a condominium or cooperative.

Step 2: Compare the total of the costs in Step 1 to 30% of the minimum SMS. See Chapter 4, Appendix A. When the shelter/utility costs exceed 30% of the minimum SMS, subtract the 30% amount from the shelter/utility costs.

Step 3: Add the remainder from Step 2 to the minimum SMS. This amount, not to exceed the maximum SMS, is used in Step 5. See Chapter 4, Appendix A.

Step 4: Add together the community spouse’s gross, countable earned and unearned income.

Step 5: Subtract the Step 4 amount from the amount determined in Step 3 and if there are any cents, round the resulting amount up. This is the amount subtracted from the income of the institutionalized spouse for the needs of his community spouse.

If the Step 4 amount is equal to or greater than the Step 3 amount, no deduction is allowed.

If the calculated CMSA is less than the minimum SMS or the Community Spouse will experience extreme financial duress, a fair hearing can be requested by the client, community spouse or authorized representative to obtain more of the institutionalized spouse’s income and/or assets. See Common Chapters Manual, Chapter 700, Section 710.27.

24.7.3.A.3 Family Maintenance Allowance (FMA)

When the institutionalized individual has family members who are living with the community spouse and who are financially dependent upon him, an FMA is deducted from his income. This amount is deducted whether or not the individual actually provides the money to the family members.

For purposes of this deduction, family members are the following people only: minor or dependent children, dependent parents of either spouse and dependent siblings of either spouse. This deduction is applied only when the institutionalized individual has a community spouse, and such family members live with the community spouse.

The amount of the deduction is determined as follows for each family member:
Step 1: Subtract the family member's total gross countable income from the minimum SMS. See Chapter 4, Appendix A. If the income is greater than the minimum SMS, no deduction is allowed for that member.

Step 2: Divide the remaining amount by 3, and round the resulting amount up. This calculation ensures the FMA for each family member will not exceed one-third of the minimum SMS. See Chapter 4, Appendix A.

Rounding Example: $201.07 = $202

Step 3: Add together the individual deductions for all family members to determine the total FMA which is deducted from the income of the institutionalized individual.

24.7.3.A.4 Outside Living Expenses (OLE)

Single individuals and couples, when both spouses are institutionalized, receive a $175 deduction from income for maintenance of a home when a physician has certified in writing that the individual, or in the case of a couple, either individual, is likely to return to the home within six months. The amount may be deducted for up to six months.

When both spouses are institutionalized, only one spouse may receive the OLE. They may choose which spouse receives the deduction.

The OLE may be deducted during subsequent nursing facility admissions if the individual or couple meets the criteria listed above.

OLE Example: Ms. Rose is admitted to a nursing facility for six months and then discharged to her home. Her condition worsens after four months and she is readmitted to the nursing facility again. She can receive the OLE again, if her physician certifies she is likely to return home again within six months.

24.7.3.A.5 Non-Reimbursable Medical Expenses (NRME)

Certain non-reimbursable medical expenses for the eligible client only may be deducted in the post-eligibility process. These expenses are sometimes referred to as “remedial expenses.”

Non-reimbursable means the expense will not be or has not been paid to the provider or reimbursed to the client by any third-party payer, such as, but not limited to, Medicare, Medicaid, private insurance or another individual.
These allowable expenses are listed in Section 4.14.4.J.3. Incurred medical expenses, including nursing facility costs (except for nursing facility costs for clients with a community spouse), for which the client will not be reimbursed, are subtracted from his remaining income.

When the client becomes eligible for nursing facility services after expiration of a penalty period for transferring resources, nursing facility expenses incurred during the penalty period which are non-reimbursable from another source may be used as a deduction.

➢ **Deductible Premiums**

Deductible premiums include any portion of the Medicare Part D Premium that is not covered by the Low Income Subsidy (LIS). The incurred expense must be the responsibility of the client.

The total deduction for medical insurance premiums is given to the person who pays the premium, regardless of which individual carries the insurance coverage. The deduction is not split between the spouses, even if both are receiving nursing facility services. See Chapter 7 for sources of insurance premium verification.

**Institutionalized Person Carries and Pays Both Premiums Example:** An institutionalized individual, Mr. Spruce, carries the insurance and pays the premium for himself and his community spouse. The institutionalized spouse receives a deduction for the full premium amount.

**Institutionalized Person Pays Premiums But Does Not Carry Insurance Example:** An institutionalized spouse, Mrs. Geranium, pays the premium for the insurance coverage that her community spouse, Mr. Geranium, carries for them both. The community spouse, Mr. Geranium, is admitted to the nursing facility. The insurance premium continues to be a deduction for Mrs. Geranium since she pays the premium.

➢ **Spenddown**

For all assistance groups (AG), except those with a community spouse, the amount of the client’s spenddown, if any, is treated as a non-reimbursable medical expense and subtracted from the client’s income along with any other medical expenses the client may have.
➢ Time Limits and Verification Requirements for Expenses

▪ Applicants

A non-reimbursable medical expense may be permitted only for services provided in the month of application and the three months prior to the month of application. This includes nursing facility expenses incurred during a penalty period for transferring resources and nursing facility expenses incurred during the three months prior period when the client was ineligible for Medicaid due to excessive assets. Only a current payment on, or the unpaid balance of, old bills incurred outside the period of consideration may be permitted as an NRME. See Section 4.14.4.J.3.

EXCEPTION: A deduction may be given if there is evidence of a payment in the three months prior to application, even when the expense was incurred prior to that time.

### Eligible Ongoing Monthly Payments Example:
Mrs. Carnation applies for Medicaid for payment of nursing home expenses in October. She obtained a wheelchair in June and made payments in July, August, and September. She still owes 10 more payments. The payment may be used as a deduction, even though she purchased it prior to the three-month period, since there is evidence of a payment in the three months prior to application.

### Ineligible Monthly Payments Example:
Same situation as above, except that Mrs. Carnation did not make any payments during July, August, or September. Since she did not incur the expense in the three months prior to the month of application or the month of application and made no payments during the three-month period, no deduction is given.

▪ Clients Residing in a Nursing Facility

The request for consideration of a non-reimbursable medical expense must be submitted within one year of the date of service(s).

Documentation must consist of the following:

- An order and statement of the medical necessity from a prescribing physician, dentist, podiatrist or other practitioner with prescribing authority under West Virginia law; and
- An itemization of the services provided. When the request to deduct non-reimbursable medical expenses originates from a nursing facility or is presented by the client as a bill
from a nursing facility, a detailed itemization of the services must be provided. The itemization must include:

- The date of the service or expense;
- The specific medical service;
- The reason no payment was received by the facility; and
- The amount of the expense.

Charges billed to Medicare, Medicaid or private insurance must be accompanied by an Explanation Of Benefits (EOB) to be considered. Only charges denied because they are not covered services may be used.

➢ **Additional Limits for Specific Expenses**

For the items or services listed below, the following limits apply:

- Eye examination and eyeglasses: $300 in a 12-month period
- Eyeglasses: Two pairs in a 12-month period, unless medical necessity is established. The $300 limit in a 12-month period applies.
- Dentures: $3,000 in a 12-month period, unless medical necessity is established
- Hearing Aids: $1,500 in a 12-month period, unless medical necessity is established

Medical necessity is determined by the Worker and/or Supervisor, based upon the documentation provided.

➢ **Expenses which Cannot Be Used**

The following expenses cannot be used as a deduction for non-reimbursable medical expenses:

- Durable Medical Equipment (DME), unless purchased by the client prior to Medicaid payment for nursing facility services, and the cost was not reimbursable from any source;
- Bills for non-payment of the client contribution after Medicaid eligibility for nursing facility services is approved;
- Medical expenses incurred during a period of Medicaid eligibility which are covered by Medicaid;
- Nursing facility expenses incurred during a period of Medicaid ineligibility for excess assets, when the reason for excess assets is non-payment of the client contribution;
• Co-insurance payments while the individual is Medicaid eligible and has Medicare or private health insurance;

• Charges for an ambulance or transportation which is medically necessary for an individual in a nursing facility who is Medicaid and/or Medicare eligible or has private insurance;

• Charges incurred during temporary periods of Medicaid ineligibility when the reason is failure to complete a redetermination and the assistance group (AG) is subsequently reopened with no break in eligibility periods;

• Nursing facility charges when the reason for Medicaid ineligibility is the facility’s failure to obtain an approved preadmission screening (PAS); and

• Charges for bed hold days.

24.7.4 FIRST AND LAST MONTH CALCULATIONS

During the first month and last month in which Medicaid participates in the cost of care, the Worker must prorate the client’s contribution to his cost of care when he does not spend the full calendar month in the facility. This policy applies only to the first and last months of nursing facility residence when Medicaid participates in the payment. It is not used when the client leaves the facility for other medical treatment, for family visits, etc. During all other months, the client must pay his full contribution and be reimbursed by the facility if an overpayment occurs.

This proration is accomplished as follows:

• Determine the client’s total monthly cost contribution amount as for any other nursing facility resident who expects to remain in the facility a full month.

• Divide the client’s total monthly cost contribution by the actual number of days in the calendar month. This becomes the client’s daily contribution rate, which is used for this purpose only.

• Determine the number of days the client resided or expects to reside in the facility in the calendar month. When the contribution is prorated for the last month of nursing facility residence, only days during which the client resides in the facility are calculated. Days during which the client does not reside in the facility, including bed-hold days, are not considered. Multiply the number of days by the daily contribution rate.

• The result is the client’s total cost contribution for the partial month. After all computations have been completed, any cents calculated as part of the result are dropped.
During the first month of Medicaid participation in the cost of care, when the client is not in the facility for a full month, if necessary, the Worker can calculate how much the client retains for his personal needs and how much is contributed to the community spouse and other family members as follows:

- Determine the client’s total monthly Personal Needs Allowance (PNA), CSMA, or FMA for a full month.
- Divide the client’s monthly PNA, CSMA, or FMA by the actual number of days in the calendar month. This is the client’s daily deduction rate which is used for this purpose only.
- Determine the number of days in the calendar month the client expects to reside in the facility and multiply the number of days by the daily deduction then round up.
- The result is the amount of income the client may retain for the PNA, CSMA, or FMA.

**24.7.5 FULL MEDICAID AND QMB ELIGIBLE CLIENTS**

When a client is eligible for payment for nursing facility services under a full coverage Medicaid group, and is also QMB eligible, he must pay his full monthly contribution, even when Medicare participates in his cost of care, unless Medicare participates for the entire month. When the contribution is prorated for the first or last month of care, it is prorated using the procedure above. The contribution is not prorated based on the date that Medicare begins or ceases participation. When the Worker learns that Medicare participated for an entire month for a QMB eligible client, a DFA-NH-3 must be completed manually by the Worker to change the contribution to $0 for that month.

**24.7.6 DETERMINING THE CLIENT’S TOTAL CONTRIBUTION**

If the individual is a full Medicaid coverage client or in the Nursing Facility Medicaid coverage group without a spenddown, the resource amount determined in the post eligibility process from above is his total cost contribution.

Because the amount of medical expenses used to meet the client's spenddown cannot be paid by Medicaid, the spenddown amount becomes part of the client's contribution toward his cost of care, unless the client has a community spouse. This amount is added to the resource amount determined above to determine the client's total monthly contribution toward the cost of his nursing care.
24.7.7 EXAMPLES

**Single Individual with OLE, Categorically Needy Example:** Mr. Maple, a full coverage Medicaid client, enters a nursing facility and wants Medicaid to pay toward his cost of care. He has $2,500 month unearned income. He is a single individual with OLE.

Medicaid eligibility is already established. Even though his income exceeds 300% of the SSI payment level, he is eligible without a spenddown as a Categorically Needy Medicaid client. Therefore, only post-eligibility calculations must be performed.

Post-eligibility calculations are as follows:

\[
\begin{align*}
\text{Client's gross monthly countable income} & \quad \text{\$2,500} \\
\text{Personal Needs Allowance} & \quad \text{\$50} \\
\text{Remainder} & \quad \text{\$2,450} \\
\text{OLE} & \quad \text{\$175} \\
\text{Client's resource amount which is also his total contribution toward his cost of care} & \quad \text{\$2,275}
\end{align*}
\]

**Single Individual with OLE, Medically Needy Example:** Same situation as above except the client is not a full coverage Medicaid client. His Medicaid eligibility must be established as SSI-Related/Monthly Spenddown.

Eligibility calculations are as follows:

\[
\begin{align*}
\text{Income} & \quad \text{\$2,500} \\
\text{SSI Income Disregard} & \quad \text{\$20} \\
\text{Remainder} & \quad \text{\$2,480} \\
\text{MNIL for One Person} & \quad \text{\$200} \\
\text{Monthly Spenddown} & \quad \text{\$2,280}
\end{align*}
\]

The monthly Medicaid cost for his care in the facility is $4,383. Therefore, his spenddown is met for the month and post-eligibility calculations are performed for any additional contribution he must make.

Post-Eligibility calculations are as follows:

\[
\begin{align*}
\text{Income} & \quad \text{\$2,500} \\
\text{Personal Needs Allowance} & \quad \text{\$50}
\end{align*}
\]
West Virginia
Income Maintenance Manual
Chapter 24

$2,450 Remainder
-$175 OLE
$2,275 Remainder
-$134 Medicare Part B premium (non-reimbursable medical expense)
$2141 Remainder
-$2,280 Spenddown (non-reimbursable medical expense)
0 Resource Amount

The client has no resource amount, so his total contribution is $2,280, his spenddown amount. The DHHR will not pay any part of the $2,280 because it is the client's spenddown and he is, by definition, liable for it.

**Single Individual without OLE, Medically Needy Example:** Same as above except the client has no OLE. The client's spenddown amount is the same as determined above.

Post-Eligibility calculations are as follows:

$2,500 Income
-$50 Personal Needs Allowance
$2,450 Remainder
-$134 Medicare Part B premium (non-reimbursable medical expense)
$2,316 Remainder
-$2,280 Spenddown (non-reimbursable medical expense)
$36 Resource Amount

The client's total contribution toward his cost of care is:

$2,280 Spenddown
+$36 Resource Amount
$2,316 Total Contribution

**Married Individual without Community Spouse, Medically Needy Example:**
Mr. Tulip is married, but has been separated from his wife for 10 years. He has one dependent child still living in his home. His monthly income is $2,500. He has non-reimbursable medical expenses of $134.00 (Medicare Part B premium). The monthly Medicaid cost for his care is $4,600. Mr. Tulip is not eligible for the FMA, because there is no community spouse living in his home.

Eligibility calculations are as follows:
$2,500  Income  
  -$20  SSI Disregard  
$2,480  Remainder  
  -$200  MNIL  
$2,280  Monthly Spenddown  

Post-Eligibility calculations are as follows:

$2,500  Income  
  -$50  Personal Needs  
$2,450  Remainder  
  -$134  Medicare Part B premium (non-reimbursable medical)  
$2,316  Remainder  
  -$2,280  Spenddown (non-reimbursable medical)  
    $36  Resource Amount  
  +$2,280  Spenddown  
$2,316  Total Contribution  

**Married Individual with Community Spouse, Medically Needy Example:** Mr. Holly has the following income:

$1,650  Retirement, Survivors, and Disability Insurance (RSDI)  
  +$900  Retirement  
$2,550  Total Income  

He has a community spouse who has $585 per month RSDI income and $365 per month earned income, for a total of $950. His child receives $585 per month RSDI. The monthly Medicaid cost for his care is $5,322.

Eligibility calculations are as follows:

$2,550  Income  
  -$20  SSI Disregard  
$2,530  Remainder  
  -$200  MNIL  
$2,330  Monthly Spenddown
Post-Eligibility calculations for the Community Spouse Deduction and the Family Maintenance Deduction are as follows:

**Community Spouse Deduction**

- $600.00 Shelter
- +$455.00 Standard Utility Allowance (SUA)
- $1,055.00 Total Shelter/Utilities
- -$617.40 30% Min. SMS
- $437.60 Excess Shelter/Utilities
- +$2,058.00 Min. SMS
- $2,495.60
- -$950.00 Total gross monthly countable income of Community Spouse
- $1,546.00 CSMA (rounded up per CSMA calculation)

**Family Maintenance Deduction**

- $2,057.50 Min. SMS
- -$585.00 Income
- $1,472.50 Remainder ÷ 3 = $491.00 FMA (rounded up per FMA calculation)
- $2,550.00 Income
- -$50.00 Personal Needs
- $2,500.00 Remainder
- -$1,546.00 CSMA
- $954.00 Remainder
- -$491.00 FMA
- $463.00 Remainder
- -$158.50 Medicare premium and doctor bill
- $304.50 Resource and total contribution toward his care

The client has a $304.50 resource to contribute to his care. Because there is a community spouse, the spenddown amount determined in the eligibility process is not subtracted as a non-reimbursable medical expense and is not added to the resource to determine his total contribution.
24.7.8 SPLIT MONTHS

When the client resides in more than one nursing care facility during the same calendar month, the Worker must determine the portion of the client's contribution to cost of care which must be paid to each facility. The Worker follows the steps below to determine how much of the client's total contribution must be paid to the first facility he entered. If the client's total contribution must be paid to the first facility, no additional calculation is required. If not, the amount(s) paid to the other(s) is determined in the same way. The DFA-NH-3 is used for notification of the amount due each facility.

Step 1: Determine the client's monthly contribution toward his cost of care.
Step 2: Multiply the number of days the client was in the first facility by the per diem rate for the facility. The result is the clients cost of care for this facility for the month.
Step 3: Compare Step 1 to Step 2.
If Step 1 is less than or equal to Step 2, the client's entire contribution toward his cost of care is paid to the first facility.
If Step 1 is greater than Step 2, the Step 2 amount is paid to the first facility and the difference between Step 1 and Step 2 is paid to the second facility.

24.7.9 NOTIFICATION AND CALCULATION SHEETS RELATED TO COST OF CARE

All notification letters regarding the client’s contribution to his cost of care must contain the following statement:

“This resource must be paid for in-facility days and bed-hold days unless you are notified otherwise in writing.”

24.7.9.A Notice of Client’s Contribution toward His Cost of Care (DFA-NH-3)

The DFA-NH-3 is primarily used to notify the client or his authorized representative, the nursing facility administrator and the LTC Unit of the client's contribution to his cost of care. The DFA-NH-3 is not a substitute for any client notification letter. When appropriate, the DFA-NH-3 is attached to letters notifying the client about a change in benefits or a decision on an application. The IM-NL-LTC-1 calculation form should also be attached. When there is a related change in the CSMA and/or the FMA, the IM-NL-LTC-2 calculation form should also be attached.
The form is prepared when there is any change in the client’s contribution toward his cost of care. The form is completed when the eligible client first enters the nursing facility, leaves a nursing facility, is transferred to a different nursing facility, or when the ineligible individual who is in a nursing facility becomes eligible for payment. When the client resides in more than one nursing facility in the same month and his contribution must be divided, see Section 24.7.8.

This form is also used to notify the Bureau for Medical Services (BMS) LTC unit that it is to pay for LTC Services for individuals who have requested a waiver of their denial of LTC services based on the Undue Hardship Provision. These clients may be eligible for up to 30 days of payment for bed-hold days while awaiting a decision of the Undue Hardship Committee. When a DFA-NH-3 is sent to the LTC Unit indicating availability of payment for this reason, the payment is not processed automatically. Payment for bed-hold days while awaiting a decision is not made for individuals denied due to excessive home equity.

24.7.9.B LTC Post-Eligibility Calculations (IM-NL-LTC-1)

The IM-NL-LTC-1, sometimes known as the budget, is a calculation sheet used in determining eligibility for the Nursing Facility coverage group, based on 300% of the SSI payment level for an individual. It is also used to determine the client’s contribution in the post-eligibility process, regardless of the method by which he was determined eligible. It must be sent to the client or his authorized representative with forms DFA-NL-A, DFA-NL-B, DFA-NL-C, and DFA-NH-3 for notification of all case activity involving income eligibility.

24.7.9.C Determination of Community Spouse and Family Maintenance Allowance for LTC programs (IM-NL-LTC-2)

The IM-NL-LTC-2 is a calculation sheet used to determine the CSMA and FMA for nursing facility cases. It must be sent to the client or his authorized representative with the appropriate notice of decision form and DFA-NH-3 for notification when there is a change in the CSMA or the FMA.
24.8 ASSETS

Applicants for nursing facility services must meet the asset test for their eligibility coverage groups, except for Modified Adjusted Gross Income (MAGI) groups. The asset level for those eligible in the Nursing Facility coverage group and Supplemental Security Income (SSI)-Related/Monthly Spenddown is the same as SSI-Related Medicaid. When both spouses are institutionalized and both apply for nursing facility services, the SSI-Related Medicaid asset limit for a couple is used to determine eligibility. See Chapter 5 for the asset limit of the appropriate coverage group.

24.8.1 ASSET ASSESSMENTS

When an institutionalized person has a spouse in the community, once the Worker determines the value of the assets as governed by Chapter 5, he completes an Asset Assessment, described below. The purpose of the Asset Assessment is to allow the spouse of an institutionalized individual to retain a reasonable portion of the couple’s assets and to prevent the impoverishment of the community spouse.

This section is not applicable to clients eligible for or enrolled in MAGI eligibility groups or couples where both spouses are institutionalized.

24.8.1.A When to Conduct an Asset Assessment

When determining eligibility for nursing facility services for an individual who has a community spouse, the Worker must complete a one-time assessment of the couple’s combined countable assets, called an Asset Assessment.

A legally married individual and his spouse, although separated, are treated as a couple for the Asset Assessment, regardless of the length of the separation.

An Asset Assessment is completed when an institutionalized individual transfers to a nursing facility in West Virginia, even if one was previously completed in the former state of residence.

An asset assessment must be completed as of the first continuous period of institutionalization. The first continuous period of institutionalization is the date the client first enters the nursing facility and remains for at least 30 days or is reasonably expected to remain for 30 days at the time the individual enters the facility. The spousal limits in effect at the time the assessment is completed are applied to the couple’s assets

completed are used. If requested by the client or authorized representative, the assessment may be completed prior to application as of the first continuous period of institutionalization.

Nursing facilities are required to advise all new admissions and their families that an Asset Assessment is available upon request from the local office. The agency has developed a statement concerning the availability of Asset Assessments. Nursing facilities provide this “Patient’s Bill of Rights” as part of their admission package. See Appendix B.

When a Medicaid client in a MAGI coverage group applies for payment of nursing facility services, an Asset Assessment is not required. However, if a MAGI client is later determined eligible in a non-MAGI group, an Asset Assessment is completed with information using the date the client first entered the nursing facility.

The assessment is completed on form IM-NL-AC-1 or in the eligibility system.

When requested, the Worker must advise the individual(s) of the documentation required for the assessment. Verification of ownership and the fair market value (FMV) (see Section 24.8.2.A.1 for definition) must be provided. When it is not provided, the assessment is not completed.

The Worker documents the total value of all countable assets.

The following forms are used as part of the asset assessment:

- **Notice of Decision – Asset Assessment (ES-NL-D, also known as the DFA-NL-D)**
  This form is used when the client requests an Asset Assessment but has not formally applied for Medicaid. The ES-NL-D is used to notify the client that the results of an asset assessment cannot be appealed unless an application for nursing facility care is made. See Section 24.8.1.C. Form IM-NL-AC-1 must be mailed with the ES-NL-D. When the Asset Assessment is completed in the eligibility system, alternate notification is sent.

- **Assets Computation and Asset Assessment (IM-NL-AC-1)**
  This form is used to complete an Asset Assessment. The Asset Assessment may be completed in the eligibility system.

-----------------------------------

**24.8.1.B Calculation of the Community Spouse’s Share**

The spouse’s share is computed as follows:

**Step 1:** Determine the FMV of the couple’s combined countable assets, as of the beginning of the first continuous period of institutionalization.
Step 2: Compare the amount from Step 1 to $25,284, the Community Spouse Asset limit. If the Step 1 amount is equal to or less than $25,284, all assets are attributed to the community spouse. If not, go to Step 3.

Step 3: Divide the Step 1 amount by 2 and compare to $25,284. If one-half of the Step 1 amount is equal to or less than $25,284, the community spouse is attributed $25,284 and the remainder belongs to the institutionalized spouse. If not, go to Step 4.

Step 4: When one-half of the Step 1 amount is greater than $25,284, one-half of the total assets (Step 1 amount) is attributed to the community spouse, not to exceed $126,420, the maximum community spouse asset limit.

Step 5: The amount not attributed to the community spouse is attributed to the institutionalized spouse.

If an application for nursing facility services is not made when the assessment is completed, the community spouse retains the amount attributed to him at the assessment, regardless of the couple’s combined assets at the time of application.

24.8.1.C Notification Requirements

When the assessment is complete, the Worker must provide each member of the couple with a copy of the eligibility system asset assessment or the Assets Computation and Asset Assessment (IM-NL-AC-1). A copy of the IM-NL-AC-1 is retained in the case record.

The Worker must also notify the community spouse using the Notice of Decision – Asset Assessment form (ES-NL-D) or the appropriate eligibility system form that although the assessment may be made prior to application, it may not be appealed until a Medicaid application is made.

24.8.1.D Revisions to the Asset Assessment

The Asset Assessment may only be revised when the client, his spouse, the Hearings Officer or the Worker determine, with supporting documentation, that the initial determination was incorrect or based on incorrect information.
24.8.1.E  Additional Asset Exclusions for Institutionalized Spouses

The institutionalized individual is eligible for Medicaid regardless of having assets over the allowable limit, if he is legally prevented from transferring the assets, which would otherwise make him ineligible, to the community spouse.

Certain asset-related denials of long term care (LTC) Services are subject to waiver due to the Undue Hardship Provision.

Certain individuals who meet the gross income test but are ineligible for Medicaid due to being over the allowable asset limit, may be eligible for the LTCIP Asset Disregard.

24.8.1.F  Transfers of Assets to the Community Spouse

Once initial eligibility has been established, assets that were not counted for the institutionalized spouse must be legally transferred to the community spouse.

Assets cannot merely be attributed to the community spouse, but must actually be transferred to the community spouse if they are to be excluded in determining continuing Medicaid eligibility of the institutionalized spouse. Assets legally transferred to the community spouse based on the Asset Assessment are allowable transfers of resources.

To exclude assets attributed to the community spouse, the institutionalized spouse must indicate his intent to transfer the assets to the community spouse, and the transfer must take place within 90 days, unless a longer period is required to take the action.

Once Medicaid eligibility is established, the assets of the community spouse based on the Asset Assessment are not counted for the institutionalized spouse. In addition, when assets such as the home and attributed assets legally transferred to the community spouse are subsequently transferred by the community spouse, no penalty is applied to the institutionalized spouse.

24.8.1.G  Additional Asset(s) Received/Obtained

When the institutionalized spouse obtains an additional asset(s) after the community spouse’s share has been calculated and initial Medicaid eligibility is established, the additional asset(s) is excluded when one of the following conditions exist:
• The new asset(s), combined with the other assets the institutionalized spouse intends to retain, does not exceed the asset limit for one person; and/or
• The institutionalized spouse intends to transfer the new asset(s) to the community spouse who has assets below the previously determined spousal amount. To exclude the additional asset(s), the institutionalized spouse or his authorized representative must promptly report receipt of the new asset(s) and provide the Worker with a written statement that he intends to transfer the new asset(s) to the community spouse within 90 days.
• The Qualified Long Term Care Insurance Partnership (LTCIP) Policy has paid benefits to or on behalf of the institutionalized spouse that equal or exceed the amount of the newly acquired countable asset.

The assets of the community spouse may still not exceed the amount determined in the previous Asset Assessment. This criterion would apply when another asset of equal or greater value than the additional asset(s) is no longer owned.

### 24.8.2 TRANSFER OF RESOURCES

Under the transfer of resources policy, the Worker must deny coverage of LTC Medicaid services to otherwise eligible institutionalized individuals who transfer (or whose spouses transfer) resources for less than fair market value (FMV).

The current asset and income transfer policy governs transfers made after February 8, 2006 and applies to payments made for institutional care on or after March 1, 2009.

This section outlines which transfers of resources are allowable (or permissible) and which result in a penalty that delays the applicant’s eligibility for Medicaid coverage of LTC services. Whether the transfer is considered permissible depends on the timing of the transfer, whether the client was compensated, for whose benefit the transfer was made and other factors.

#### 24.8.2.A Definitions

For purposes of Transferring Resources, the following definitions apply.
24.8.2.A.1  

**Fair Market Value (FMV)**

The FMV is an estimate of the value of a resource, if sold at the prevailing price at the time it was actually transferred.

For a resource to be considered transferred for FMV, or to be considered transferred for valuable consideration, the compensation received for the resource must be in a tangible form, with intrinsic value. A transfer for love and consideration, for example, is not considered a transfer for FMV. Also, while relatives and friends legitimately can be paid for care they provide to the individual, it is presumed that services provided for free, at the time, were intended to be provided without compensation. Therefore, a transfer to a relative for care provided in the past normally is not a transfer of assets for FMV. However, an individual may rebut this presumption. See Transfers to Pay for Personal Care Services in Section 24.8.2.F.

24.8.2.A.2  

**For the Sole Benefit of**

For a transfer or trust to be considered for the sole benefit of a spouse, disabled child, or a disabled individual under age 65, the transfer or trust cannot benefit any other in any way, either at the time of the action, or at any time in the future, except as provided below. The agreement must be in writing.

**EXCEPTION:** A trust may provide for reasonable compensation for a trustee to manage the trust, as well as for reasonable costs associated with investing or otherwise managing the funds or property in the trust. In defining reasonable compensation, consider the amount of time and effort involved in managing a trust of the size involved, as well as the prevailing rate of compensation, if any, for managing a trust of similar size and complexity.

If a beneficiary is named to receive the funds remaining in a trust upon the individual’s death, the transfer is considered made for the sole benefit of the individual if the Department of Health and Human Resources (DHHR) is named as the primary beneficiary for up to the amount paid for services to the individual. The designated beneficiary receives any remaining amount.
24.8.2.A.3  Institutionalized Individual

An institutionalized individual is:

- An individual who is an inpatient in a nursing facility, or who is an inpatient in a medical institution, and for whom payment is made for a level of care provided in a nursing facility; or,

- An individual who is a Home and Community Based Services (HCBS) waiver participant.

For purposes of this section, a medical institution includes intermediate care facilities for individuals with intellectual disabilities (ICF/IID).

24.8.2.A.4  Resources

Resources include all income and assets of the individual and of his spouse that are counted for SSI-Related Medicaid purposes.

This includes some income or assets which the individual or the spouse is entitled to, but does not receive, because of any action or inaction by:

- The individual or his spouse;
- A person, including a court or administrative body, with legal authority to act in place of or on behalf of the individual or the individual's spouse; or
- Any person, including a court or administrative body, acting at the direction or upon the request of the individual or the individual's spouse.

Resources to which an individual or spouse is entitled include resources to which the individual is actually entitled, or would be entitled if action had not been taken to avoid receiving the resources.

Examples of actions which cause income or assets not to be received are:

- Irrevocably waiving pension income;
- Waiving an inheritance;
- Not accepting or accessing injury settlements;
- Settlements which are diverted by the defendant into a trust or similar device to be held for the benefit of the plaintiff; or
• Refusal to take legal action to obtain a court-ordered payment that is not being paid, such as child support or alimony.

24.8.2.A.5 **Valuable Consideration**

Valuable consideration means that an individual receives in exchange for his or her right or interest in a resource some act, object, service, or other benefit which has a tangible and/or intrinsic value to the individual that is roughly equivalent to or greater than the value of the transferred resource.

24.8.2.A.6 **Uncompensated Value**

The uncompensated value is the difference between the FMV at the time of transfer (less any outstanding loans, mortgages, or other encumbrances on the resource) and the amount received for the resource.

24.8.2.A.7 **Look-Back Period**

The look-back period is the length of time for which the Worker looks back for any resource transfers. The look-back period is 60 months, whether or not a trust fund was involved. The look-back time period begins the month the client is both institutionalized and has applied for Medicaid.

See Chapter 5 for further information about funds in revocable or irrevocable trusts.

24.8.2.B **Permissible Transfers**

The following types of transfers do not result in a penalty for transferring resources.

24.8.2.B.1 **Transfer of the Home**

When the client transfers his home as follows, no penalty is applied:
• To the client's spouse.
• To the client's minor child (under age 21).
• To the client's disabled child regardless of age. The Social Security Administration (SSA) definition of disability is used. Therefore, any person medically approved for or receiving disability-based Retirement, Survivors, and Disability Insurance (RSDI) and/or disability-based SSI meets the definition, as well as persons who are determined disabled by the medical review team (MRT). If no disability determination has been made, the case must be submitted for a MRT decision.
• To the client's sibling who has an equity interest in the home and who resided in the home for at least one year immediately prior to the client's institutionalization.
• To the client's child(ren) who was residing in the home for at least two years immediately prior to the client's institutionalization and who provided care to the individual which allowed him to remain at home rather than being institutionalized.

24.8.2.B.2 Transfers for the Benefit of the Spouse or Disabled Child

When the client transfers resources other than his home, as follows, no penalty is applied:

• To the client's spouse or to another person for the sole benefit of the client's spouse not to exceed the amount determined attributable to the community spouse during the Asset Assessment.
• From the client's spouse to another person for the sole benefit of the client's spouse not to exceed the amount determined attributable to the community spouse during the Asset Assessment.
• To the client's disabled child regardless of age. The Social Security Administration (SSA) definition of disability is used. Therefore, any person medically approved for or receiving disability-based Retirement, Survivors, and Disability Insurance (RSDI) and/or disability-based SSI meets the definition, as well as persons who are determined disabled by the medical review team (MRT). If no disability determination has been made, the case must be submitted for a MRT decision.

All transfers to another person for the sole benefit of the client's spouse or to the client's disabled child must be accomplished by a written instrument of transfer, such as a trust, which legally binds the parties to a specific course of action and specifies the conditions under which the transfer was made, and names those who benefit from the transfer.

24.8.2.B.3 Transfer to a Trust

When the client or his spouse transfers resources to a trust that is excluded from consideration as an asset, no penalty is applied.

This section applies to any trust established on or after August 11, 1993. For trusts prior to August 11, 1993, see Chapter 5, Appendix B.

Generally, all trusts are counted as assets, regardless of their purpose, restrictions on distributions or on the trustee’s discretion to distribute the funds, whether acted on or not. There are exceptions to this general rule, and trusts established by a will are treated differently from those not established by a will. In addition, sometimes revocable and irrevocable trusts are treated differently. Details are found below.

If a trust is made up of the client's resources and those of one or more other persons, only the amount established with the client's resources is counted.

For purposes of this item, the terms "individual" or "client" include:

- The client;
- His spouse;
- Any person, including a court or administrative body, with legal authority to act in place of, or on behalf of, the individual or the individual's spouse; and,
- Any person, including a court or administrative body, acting at the direction of, or upon the request of, the individual or the individual's spouse.

➢ Trusts Established by Will

A trust is treated as an asset only to the extent that it is available to the client. Clauses included in a trust that limit the trustee's use of the funds (e.g., exculpatory clauses) are recognized and the amount of funds affected by such exculpatory clauses is excluded.

Irrevocable trusts are excluded, regardless of the amount. There is no penalty for the placement of funds in an irrevocable trust.

➢ Trusts Not Established by Will

When the following two conditions are met, the trust policy contained below in this item is applied. If the two conditions are not met, the fund is treated as any other bank account.
1. An individual has established a trust when his resources were used to form all or part of the corpus of the trust.

2. Any of the following persons established the trust for the individual by any vehicle other than by will:
   - Individual;
   - Individual's spouse;
   - A person, including a court or administrative body, with legal authority to act in place of, or on behalf of, the individual or the individual's spouse; or
   - A person, including any court or administrative body, acting at the direction of, or upon the request, of the individual or the individual's spouse.

**Excluded Trusts**

In the following four trust situations, the trust is totally excluded. In addition, establishment of these trusts is not treated as an uncompensated transfer of resources.

**NOTE:** For these purposes, the SSA definition of disability is used. Therefore, any person medically approved for or receiving SSI, based on disability, meets the definition, as well as persons who have been determined disabled by the MRT. If no disability determination has been made, the case must be submitted for a MRT decision. See Section 13.8.

1. A trust containing the assets of an individual, under age 65, who is disabled, and which is established for his benefit by a parent, grandparent, legal guardian, or a court. The individual may establish the trust for himself on or after December 13, 2016. The exception continues even after the individual becomes age 65, as long as he continues to be disabled. This is commonly known as a special needs trust.

   To qualify for the exception, a trust must contain a provision that the State will receive all amounts remaining in the trust upon the death of the individual, up to the total Medicaid payments made on his behalf.

2. A trust which contains the assets of an individual who is disabled and which meets all of the following conditions:
   - The trust is established and managed by a non-profit association;
   - A separate account is maintained for each beneficiary of the trust, but, for purposes of investment and management of funds, the trust pools the funds in these accounts;
- Accounts in the trusts are established solely for the benefit of the disabled individual;
- Accounts in the trusts are established by the individual, his parent, grandparent, legal guardian or by a court; and,
- The trust must include a specific provision that amounts remaining in the individual's account that are not retained by the trust upon the client's death, must be used to reimburse the State for Medicaid and/or WV WORKS payments which were made on the individual's behalf.

**NOTE:** When an individual is approved for Medicaid and has an excluded trust described above, for which Medicaid must be the beneficiary, the Worker must fax a copy of the trust document and the Medicaid client's name, case number and name of the client's power-of-attorney or authorized representative, if applicable, to the current contract agency for Estate Recovery. Information about this agency is in Appendix E.

3. Burial trusts which meet all the following conditions:
   - The individual signs a contract with the funeral director promising prepayment in return for specific funeral merchandise and services;
   - The contract is irrevocable;
   - The individual pays the agreed-upon amount to the funeral director in the form of a direct cash payment, purchase or transfer of a life insurance policy or annuity which is assigned to the funeral director; and,
   - The funeral director, in turn, places the pre-need payment or device into a trust or escrow account which the funeral director establishes himself. If the client establishes the trust or other device himself, the amount may be considered a transfer of resources.

4. A trust established with a settlement or funds received from the following:
   - Factor VIII or IX Concentrate Blood Products Litigation, MDL 986, No. 93-C-7452, ND of Illinois
   - Ricky Ray Hemophilia Relief Fund
   - Walker v. Bayer Settlement which compensates hemophiliacs who contracted the Human Immunodeficiency Virus (HIV) from contaminated blood products
Once the Worker determines the trust was not established by a will and does not meet one of the exceptions above, the following rules apply:

- The corpus of the trust is considered an available asset.
- Payments from the trust to the client or for his benefit are counted as income.

### Irrevocable Trusts

Once the Worker determines the trust was not established by a will and does not meet one of the exceptions above, the following rules apply:

- If there are any circumstances under which payments from the trust could be made to the client or for his benefit, that portion of the corpus, or the interest, is an asset.
- If payments are made from the available corpus, or interest, to the client or for his benefit, the amount is treated as income.

#### Payment for the Client's Benefit

Throughout this item "payments made on behalf of the client" or "for his benefit" means payments of any kind to another entity, such that the client derives some benefit from the payment. This may include, but is not limited to, clothing, television, payments for services or care rendered, whether medical or personal, payments to maintain a home, etc. Any payment for the benefit of the client is counted, even if it is not customarily counted in determining Medicaid.

In determining whether payments can or cannot be made from a trust, the Worker must take into account any restrictions on payments, such as use restrictions, exculpatory clauses, and limits on trustee discretion, which may be included in the trust.

**Client Benefit Example:** If a trust provides that the trustee can disburse only $1,000 out of a $20,000 trust, only the $1,000 is treated as a payment that could be made to the client or for his benefit. The remaining $19,000 is treated as an amount which cannot, under any circumstances, be paid to, or for the benefit of the client.

**Restricted Use Example:** A trust contains $50,000 which the trustee can disburse only in the event the grantor needs a heart transplant. The full amount is payment which could be made under some circumstances, even though the likelihood of payment is remote if the client does not have heart problems.
In determining whether payments can or cannot be made from a trust, the Worker must take into account restrictions included in the trust on how payments can be made; the Worker must not take into account when payments can be made. When a trust provides, in some manner, that a payment can be made, even though that payment may be sometime in the future, the trust must be treated as providing that payment can be made from the trust.

➢ **Undue Hardship**

There is a hardship provision for LTC Medicaid which allows DHHR to exclude a trust when counting it results in undue hardship for the client. All decisions about undue hardship are made by the Undue Hardship Waiver Committee. Any requests for such a determination are submitted in writing and must show complete details about the undue hardship which will result. See "Undue Hardship" in Section 5.1 and Section 24.8.2.B.7 below.

### 24.8.2.B.4 Transferred Resources Returned

When the client reports assets transferred for less than FMV have been returned to the client, the Worker must verify this information. Any return of assets must be to the client rather than to another individual on his behalf or paid directly to the long term care facility.

When the transferred assets have been returned to the client in full, no penalty is applied. If a penalty has already been applied, a retroactive adjustment to the beginning of the penalty period is required.

However, the client must always be asset eligible as of the first day of the month for any months the transfer penalty period is adjusted. When all transferred assets have been returned in full, the returned assets must be counted in determining eligibility for LTC services during the retroactive period and ongoing, unless the asset would have otherwise been considered exempt. Advance notice is required before closing other ongoing Medicaid coverage. The client’s contribution to cost of care must also be determined.

For new applications or new transfers reported after August 1, 2018, if the transferred assets are returned only in part, adjustments to the applied penalty period are not allowed. The applied penalty period continues uninterrupted for the full duration originally calculated. The returned assets are, however, considered in determining eligibility for all other Medicaid coverage groups during the transfer penalty. Advance notice is required before closing other ongoing Medicaid coverage.

**Return of Transferred Funds Example:** Ms. Daisy transferred all the money from her savings account to her son in February. The Worker calculates the
transfer penalty period to be nine months, running March through November. In June, Ms. Daisy’s son returns all the transferred assets. After appropriately verifying the returned assets, the transfer penalty is removed. However, the returned funds must be counted in determining eligibility retroactively back to March. These funds put Ms. Daisy over the asset limit from March through June, when they were returned. In June, Ms. Daisy uses the returned money to pay her nursing home bill for services received in March through June. Ms. Daisy is now under the asset limit and is otherwise eligible as of July 1. She is eligible for LTC services as of July 1. The Worker must ensure Ms. Daisy receives the LTC benefit beginning July 1. Ms. Daisy’s contribution to cost of care must also be determined.

**Partial Return of Transferred Funds Example:** Mr. Elm transferred $60,000 from his savings account to his son in February. The Worker calculates the transfer penalty period to be nine months, running March through November. In June, Mr. Elm’s son returns only $30,000 of the transferred money. Since only part of the assets were returned, no adjustment to the penalty period is allowed. The partially returned funds are considered an available asset for Mr. Elm during the penalty period, and after advance notice, Mr. Elm’s coverage under other Medicaid groups is closed due to excess assets. However, since the transfer penalty has already started, the penalty continues to run from March through November.

**Multiple Transfers with Partial Return Example:** During the lookback period, Ms. Poppy transferred $20,000 from her savings account, a vehicle, a certificate of deposit, and some stocks to her daughter. The Worker calculates the penalty period by adding all the transfers together. The total transfer penalty period is nine full months, running January through September. In May, Ms. Poppy’s daughter returns the entire $20,000 she received from the savings account, but she does not return any other assets. Even though Ms. Poppy’s daughter returned one full asset, she did not return the full amount of assets used to calculate the applied transfer penalty. Therefore, no adjustment to the penalty is allowed. The partially returned funds are considered an available asset for Ms. Poppy during the penalty period, and after advance notice, Ms. Poppy’s coverage under other Medicaid groups is closed due to excess assets. However, since the transfer penalty has already started, the penalty continues to run from January through September.

---

**24.8.2.B.5 Client Intended Fair Market Return or Other Valuable Consideration**
When the client or his spouse can demonstrate that he intended to dispose of the resource for FMV or for other valuable consideration, no penalty is applied.

24.8.2.B.6 Transfer Was Not to Qualify for Medicaid

When a transfer of resources was exclusively for a purpose other than to qualify for Medicaid, no penalty is applied.

NOTE: A transfer is assumed to be for the purpose of qualifying for LTC services. The burden is on the individual to prove otherwise. The Worker and Supervisor can make this decision.

Transfer Intent Example 1: Mrs. Rhododendron has a stroke and enters the nursing facility on October 15, 2016. Her daughter’s home was in foreclosure and the mother transferred $5,000 to her on September 19, 2016 to prevent foreclosure. The Worker verifies the situation with the foreclosure notice dated September 4, 2016 and the mother’s withdrawal and check to the daughter on September 19, 2016 for the exact amount of the foreclosure of $5,000. The Worker and Supervisor determine Mrs. Rhododendron did not transfer money to qualify for Medicaid.

Transfer Intent Example 2: Mr. Geranium, a widowed man, has failing health and transfers $25,000 to each of his children before he enters the nursing facility. The children are not disabled. The transfer is assumed to be for the purpose of qualifying for Medicaid.

24.8.2.B.7 Denial Would Result in Undue Hardship

When the Worker determines the individual is otherwise eligible for LTC services, an undue hardship may exist when a denial of payment for LTC services is due to one or more of the following asset policies:

- Excessive home equity;
- Transfer to a non-permissible trust; and/or,
- A transfer of asset penalty.

For undue hardship to exist, the denial must result in:
• Depriving the individual of medical care to the extent that the individual’s health or life would be endangered; or
• Depriving him of the ability to obtain food, clothing, shelter or other necessities of life.

➢ Notice of Right to Request an Undue Hardship Waiver (DFA-NL-UH-1) and the Fair Hearing Request Form (DFA-FH-1)

When the Worker determines the individual is otherwise eligible for LTC services except for one or more of the asset policies listed above to which an undue hardship provision applies, he gives the individual the Notice of Right to Request an Undue Hardship Waiver (DFA-NL-UH-1) and the Fair Hearing Request form (DFA-FH-1) at the time of the eligibility decision, which provides him the opportunity to request a waiver of the denial due to undue hardship. The individual, his authorized representative or a nursing facility staff member with the client’s permission, can use these forms to apply for an undue hardship waiver.

➢ Application for an Undue Hardship Waiver (DFA-UH-5)

The Application for an Undue Hardship Waiver (DFA-UH-5) must be attached to the DFA-NL-UH-1. The DFA-UH-5 is the application for the waiver. It must be completed and returned to the Worker within 13 days of notice of the eligibility decision. Upon receipt, the Worker immediately mails, emails, or faxes it to the Bureau for Medical Services (BMS) Policy Unit for distribution to the Undue Hardship Waiver Committee.

The DFA-UH-5 must include a signature of the individual for whom the waiver is filed when the LTC facility is completing the request. It must include an explanation of any efforts made to resolve the asset issue that resulted in the LTC services denial. Documentation that supports these attempts must be attached. Details regarding the individual's undue hardship must be explained. If the DFA-UH-5 is not returned complete and timely, no additional notice occurs and the negative eligibility decision and any penalty applied remains.

An individual who resides in a facility and requests an Undue Hardship Waiver is eligible for payment of up to 30 bed-hold days from the date the DFA-UH-5 is received by the BMS Policy Unit until a decision is made by the Committee. The Committee has 60 days to make a decision concerning the Waiver request. Denial of payment of LTC services due to excessive home equity is not subject to payment of bed-hold days.

➢ Decision for Request of Undue Hardship Waiver Form (DFA-NL-UH-2)

If the waiver request is not appropriate for the Committee, it is returned to the local office which made the eligibility decision. The individual is notified of the Committee’s decision via the
Decision for Request of Undue Hardship Waiver form (DFA-NL-UH-2). The Committee forwards the DFA-NL-UH-2 to the individual, with a copy to the Supervisor and Worker.

The decision of the Committee to deny the request can be overturned by a State Hearings Officer, therefore a DFA-FH-1 is sent. The local office must notify the BMS Policy Unit when a hearing request regarding the Committee’s decision is received, and also advise the Regional Attorney. A member of the Committee will be available, via telephone, to participate in a Fair Hearing regarding the denial of the DFA-UH-5, but not to discuss the ineligibility for LTC services for reasons other than those related to excessive home equity, trust, and/or transfer issues.

### 24.8.2.B.8 Transfer of Resources Previously Disregarded by LTCIP Asset Disregard

If an individual in the Nursing Facility coverage group with income less than 300% of the SSI payment for one person transfers an asset that was previously disregarded by the LTCIP Asset Disregard, the transfer is not subject to a transfer penalty since the asset was previously disregarded.

If the individual obtains an additional countable asset that causes him to exceed the allowable asset amount, he must verify additional payments made to him or on his behalf by the LTCIP Policy in addition to the amount of payments that were previously used to disregard the assets that were transferred.

The amount of the individual’s estate that was protected from Estate Recovery is reduced by the same amount as the value of the asset that was transferred.

**LTCIP Example:** Mr. Sunflower is in a nursing facility and applies for Medicaid on November 1, 2016. Mr. Sunflower’s income is less than 300% of the SSI payment for one person but he has $12,000 in individual assets consisting of $5,000 in an accessible money market and $5,000 in stocks. He verifies ownership of a $100,000 Qualified LTICP Policy issued after July 1, 2010, the date West Virginia implemented the LTCIP. He can also show insurance payments for a previous nursing facility stay in the amount of $10,000 to the nursing facility after July 1, 2010. The Worker disregards his money market and stocks and Medicaid eligibility is effective November 1, 2016.

At redetermination, Mrs. Sunflower reports transferring the stock to their son. The transfer is not subject to a penalty since the asset was previously disregarded. However, since insurance payments verified as paid by the LTCIP Policy on behalf of Mr. Sunflower were applied to disregard the value of the stock, and resulted in Mr. Sunflower being eligible for and receiving Medicaid, these same
insurance payments cannot be used again to disregard other assets. Should Mr. Sunflower’s money market increase in value or if he acquires additional countable assets, he must verify additional payments by the insurance company before any other assets can be disregarded.

Mr. Sunflower’s amount of assets that were protected at estate recovery is also reduced from $10,000 to $5,000 since the previously disregarded stock was transferred to his son.

### 24.8.2.B.9 Transfer on Death Deed

A client who transfers his property to a death beneficiary, while retaining the right to ownership, may execute a deed known as a transfer on death deed. This allows the owner to retain all rights of ownership, including the right to revoke the deed or transfer or encumber the property. At the owner’s death, the property passes directly to the death beneficiary without going through probate. The deed must be recorded at the courthouse during the owner’s lifetime to be valid. A transfer on death deed is not subject to a transfer penalty as the client still retains ownership in the property until their death.

West Virginia may file a Medicaid lien against the property of the Medicaid client during the client’s lifetime. If the Medicaid lien still exists at the time of the Medicaid client’s death, the lien would remain imposed against the property transferred to the death beneficiary of the transfer on death deed, under West Virginia law.

### 24.8.2.C Transfers That Are Not Permissible

All transfers not specified as permissible result in an application of a penalty. This also applies to jointly-owned resources. The jointly-owned resource, or the affected portion of it, is considered transferred by the client when any action is taken, either by the client or any other person, which reduces or eliminates the client’s ownership or control of the resource.

### 24.8.2.D Transfers Related to a Life Estate

#### 24.8.2.D.1 Transfer of Property with Retention of a Life Estate
A transfer of property with the retention of a life estate interest is treated as an uncompensated transfer.

To determine if a penalty is assessed and the length of the penalty, the Worker must compute the value of the transferred property and of the life estate, then calculate the difference between the two.

Step 1: To determine the value of the transferred property, subtract any loans, mortgages or other encumbrances from the fair market value (FMV) of the transferred property.

Step 2: Determine the age of the life estate holder as of his last birthday and the life estate factor for that age found in Chapter 5, Appendix A. Multiply the FMV of the transferred property by the life estate factor. This is the value of the life estate.

Step 3: Subtract the Step 2 amount from the Step 1 amount. The result is the uncompensated value of the transfer.

Step 4: Divide the Step 3 amount by the State’s average monthly nursing facility private pay rate of $9,515. The result is the length of the penalty.

NOTE: The value of a life estate may be excluded as a homestead property, if the individual intends to return to it.

24.8.2.D.2 Transfer of a Life Estate

The value of a life estate interest is considered a transfer of resources when it is transferred or given as a gift.

24.8.2.D.3 Purchase of a Life Estate

The purchase of a life estate interest in another individual’s home is treated as an uncompensated transfer, unless the individual who purchased the life estate interest resides in the home for at least one year after the purchase. The amount of the transfer is the entire amount used to purchase the life estate.

If the individual has resided in the home for at least one year after the life estate was purchased, determine the value of the life estate as follows.
➢ **No Intent to Return**

If the individual does not intend to return to the home in which the life estate was purchased, the value of the life estate is an asset, see Section 5.5.

When the individual has no intent to return due to domestic abuse, the life estate continues to be excluded until the individual establishes a new principal place of residence or otherwise takes action rendering the life estate no longer excludable.

➢ **Intent to Return**

The purchase of a life estate may be excluded as homestead property if the individual intends to return to the home and the individual resided in the home for at least one year after the purchase.

---

### 24.8.2.E Transfer to Purchase an Annuity

An annuity that is revocable or assignable is considered to be a countable asset. See Section 5.5.2 for more information on treating annuities as an asset.

---

### 24.8.2.E.1 Annuity-Related Transfers

**NOTE:** When an individual is approved for LTC Medicaid and has an excluded annuity described below, for which Medicaid must be the beneficiary, the Worker must securely forward a copy of the trust document and the Medicaid recipient’s name, case number, and name of the recipient’s Power of Attorney or legal representative, if applicable, to the current contract agency for Estate Recovery. Information about this agency is in Chapter 24, Appendix E.

---

➢ **Institutional Spouse is Annuitant**

An annuitant is defined as a person who receives an annuity.

Establishment of an annuity is treated as a transfer of resources, unless the annuity meets the following criteria:
• The individual disclosed to the State any interest the individual or his spouse has in any annuity;

• The State is named as the remainder beneficiary, or as the second remainder beneficiary after a community spouse or minor or disabled adult child, for an amount at least equal to the amount of Medicaid benefits provided when the annuity is purchased by an applicant/client or spouse;

• The annuity was purchased by or on behalf of the individual and one of the three following situations applies:
  1. The annuity is considered either:
     ▪ An individual retirement annuity (according to Section 408 (b) of the Internal Revenue Code of 1986 (IRC); or
     ▪ A deemed Individual Retirement Account (IRA) under a qualified employer plan (according to Section 408§ of the IRC).

     OR

  2. The annuity is purchased with proceeds from one of the following:
     ▪ A traditional IRA [IRC Section 408 § (a)]; or
     ▪ Certain account or trusts which are treated as traditional IRAs [IRC Section 408§(c)]; or
     ▪ A simplified retirement account [IRC Section 408 § (p)]; or
     ▪ A simplified employee pension [IRC Section 408 § (k)]; or
     ▪ A Roth Individual Retirement Account (IRA) (IRC Section 408A).

     OR

  3. The annuity meets all of the following requirements:
     ▪ The annuity is irrevocable and non-assignable; and
     ▪ The annuity is actuarially sound; and
     ▪ The annuity provides payments in approximately equal amounts, with no deferred or balloon payments. Endowment Life Insurance Policies are considered balloon annuities and subject to a transfer penalty.

➢ Community Spouse Is Annuitant

Establishment of an annuity is treated as a transfer of resources, unless the annuity meets the following criteria:
The individual disclosed to the State any interest the individual or his spouse has in any annuity; and,

The State is named as the remainder beneficiary, or as the second remainder beneficiary after a community spouse or minor or disabled adult child, for an amount at least equal to the amount of Medicaid benefits provided when the annuity is purchased by an applicant or spouse.

If the annuity does not meet all stated requirements above, the full purchase value is considered the amount of the transfer.

### 24.8.2.E.2 Actuarial Soundness

In order for an annuity to be actuarially sound, the average number of years of expected life remaining for the individual who benefits from the annuity must coincide with the life of the annuity. If the individual is not reasonably expected to live longer than the guarantee period of the annuity, the individual will not receive FMV. The annuity is not, then, actuarially sound and a transfer of resources for less than FMV has taken place.

Periodic life tables can be found in the appendices as follows:

- For annuities purchased prior to February 8, 2006, use the Periodic Life Tables found in Appendix C. The penalty is considered to have occurred at the time the annuity was purchased prior to February 8, 2006. Only the amount that is not actuarially sound is treated as an uncompensated transfer.

- For annuities purchased on or after February 8, 2006, use the Period Life Tables in Appendix D of this chapter.

**Meets Criteria Example:** A 65-year-old man purchases a $10,000 irrevocable, non-assignable annuity on July 28, 2008 which is to be paid over 10 years in equal payment amounts, and names the State of West Virginia as the second remainder beneficiary after his disabled son. His life expectancy, according to Appendix D, is 16.05 years. The annuity is irrevocable, non-assignable, actuarially sound, provides equal payment amounts and the state is named as a secondary remainder beneficiary. No transfer of resources has taken place.

**Life Expectancy Example:** An 80-year-old man purchases a $10,000 annuity on January 1, 2006 to be paid over 10 years. According to Appendix C, his life expectancy is only 6.98 years. Therefore, the amount which will be paid out by

**NOTE:** The Deficit Reduction Act of 2005 (DRA) was signed into law on February 8, 2006. The DRA made significant changes to the policies for long term care asset transfers.
the annuity for 3.02 years is considered an uncompensated transfer of resources that occurred at the time the annuity was purchased on January 1, 2006.

**Unequal Payments Example:** A 60-year-old woman purchases an annuity on March 13, 2007 which is to be paid over 10 years with a balloon payment in the tenth year. The annuity names the State of West Virginia as the remainder beneficiary and is considered an uncompensated transfer of resources since it does not provide for equal monthly payments.

**Retirement Annuity Example:** A 65-year-old woman retired from a company on December 21, 2007 with an annuity that was purchased by the employer as part of her bona fide retirement plan. The annuity is not considered an uncompensated transfer of resources since it was purchased on her behalf as part of her bona fide retirement plan.

### 24.8.2.E.3 Annuity-Related Transactions Other Than Purchases

#### Transactions Subject to Penalty

Certain annuity-related transactions, which occur on or after March 1, 2009, are subject to a transfer penalty. These transactions include any action taken by the individual that changes the course of payments to be made by the annuity or the treatment of the income or principal of the annuity. These actions include, but are not limited to:

- Additions of principal
- Elective withdrawals
- Requests to change the distribution of the annuity
- Elections to annuitize the contract and other similar transactions

Multiple penalties can be applied to the same annuity under certain circumstances.

**Multiple Penalty Example:** A 60-year old woman served a six-month penalty period because the annuity did not provide equal monthly payments. She became eligible for LTC services payments, but three months later she made an elective withdrawal from the annuity. Another transfer of resources occurred and a penalty is applied.

#### Transactions Not Subject to Penalty

**NOTE:** Certain annuity-related transactions which occur on or after March 1, 2009 are subject to the policy implementation of the DRA.
Annuities purchased prior to March 1, 2009 which experience routine events and automatic changes that do not require any action or decision by the individual after March 1, 2009 are not subject to a transfer penalty. Routine changes include notification of an address change, death or divorce of a remainder beneficiary and other similar circumstances. Automatic changes are based on the terms of annuity which existed prior to March 1, 2009, and which do not require a decision, election or action by the individual to take effect. Changes beyond the individual’s control, such as a change in law, a change in the policies of the issuer, or a change in the terms based on other factors, such as the issuer’s economic condition, are not considered transactions that result in imposition of a transfer penalty.

Annuities and annuity-related transactions that are not subject to a penalty are still subject to applicable income and/or asset policies.

### 24.8.2.F Transfer to Pay for Personal Care Services

#### 24.8.2.F.1 Non-permissible Transfer of Resources to Pay for Personal Care Services

Personal care services provided to an individual by a relative or friend are presumed to have been provided for free, at the time rendered, when a Personal Care Contract (PCC) did not exist. Therefore, a transfer of resources from an individual to a relative or friend for payment of personal care services is an uncompensated transfer without FMV received for the transferred resource and subject to a penalty, unless the services were provided in accordance with the requirements below. See Section 24.8.2.A.1 regarding FMV.

#### 24.8.2.F.2 Permissible Transfer of Resources to Pay for Personal Care Services

A transfer of resources by an individual to a relative or friend to pay for personal care services rendered may be a permissible transfer if the personal care services were performed through an eligible PCC, also known as a personal care agreement or personal service contract. The PCC must meet all of the following criteria.

##### Requirements Regarding the Contract

The following describes the requirements regarding the contract:

- A PCC exists between the individual or his authorized representative and the caregiver.
• The duration of the PCC is actuarially sound.
• The terms of the PCC are in writing between the individual or his authorized representative and the caregiver.
• The PCC is reviewed by the Worker for compliance;
• The terms of the Contract include:
  1. A detailed description of the services provided to the individual in the home;
  2. The frequency and duration of the services provided. The services must be measurable and verifiable and the compensation to the caregiver paid at a reasonable amount of consideration, i.e., money or property. Payment must be clearly defined either as a set amount or an amount to be determined by an agreed-upon hourly rate that will be multiplied by the hours worked; and,
  3. Services expected of the caregiver, if any, during any period the individual may reside in an assisted living, skilled nursing, or other type of medical or nursing care facility on a temporary basis between stays at home.

➢ Requirements Regarding the Provision of Services

The following describes the requirements regarding the provision of services:
• Services paid from transferred resources must be rendered after the written agreement was executed between the individual and the caregiver;
• A PCC may be in place at the time of the individual’s stay in a nursing facility or a similar placement; however, it is assumed, unless proven otherwise, that personal care services during this time are provided by staff rather than the caregiver named in the PCC; and,
• At the time of the receipt of the services, the services must have been recommended in writing and signed by the individual’s physician as necessary to prevent the transfer of the individual to residential care or nursing facility care. Such services may not include the mere providing of companionship.

➢ Requirements Regarding the Transfer

NOTE: Reasonable payment is determined by comparing compensation paid by home care agencies, or other independent caregivers, for similar services in the same locale at the specific time period for which services were provided.
The following describes the requirements regarding the transfer:

- The transfer to the relative or friend acting as caregiver must have taken place at the time the personal care services were rendered;
- The transfer cannot be for services projected to occur in the future, but must be paid for at the time rendered; and,
- FMV must be received by the caregiver in the form of payment for personal care services provided to him. The Worker must determine if reasonable payment for personal care services occurred.

If the amount transferred to pay for personal care services is above FMV, the amount transferred in excess of FMV is subject to a transfer penalty.

**Allowable PCC Example:** Mr. Daisy applies for Medicaid. He transferred $5,000 to his granddaughter to pay for personal care services provided to him for the last five months. The Worker reviews the PCC and contacts a community agency representative who indicates the payments made were similar to the rate paid by agencies at the same time period in the same locale. Since the payment was reasonable and the PCC meets all the criteria required in Section 24.8.2.F, the $5,000 was a permissible transfer of resources for payment of personal care services and no penalty is applied.

**Personal Care When in Facility Example:** Since June 2015, Mr. Sage had a PCC in place that meets all of DHHR’s requirements. On April 1, 2016, he is admitted to a LTC facility with all personal care services provided. Any transfer of resources to pay for personal care services rendered after April 1, 2016 would be subject to a transfer penalty.

**Payment for Future Services Example:** Mrs. Lily has a compliant PCC with payments stipulated to occur at the end of the month after personal care services are rendered. On February 27, 2016, Mrs. Lilly transferred $3,000 to her daughter for payment for services at $1,000 per month for January through March 2016. Since payment for March is for projected services, $1,000 of the payment is subject to a transfer penalty.

**PCC while in Temporary Placement Example:** Mrs. Hydrangea has a compliant PCC in place but is admitted to a LTC facility on a temporary basis for special treatment. The PCC remains in place; however, from the date of her admission, since personal care services are provided by the facility staff, only transportation to the facility is a service for which she can pay her caregiver if transportation is included in the terms of her PCC.
24.8.2.G  Purchase of a Promissory Note, Loan, or Mortgage

Any purchase of a note, or any loan or mortgage is treated as an uncompensated transfer unless all of the following criteria are met:

- The repayment terms must be actuarially sound, based on the Period Life Table found in Appendix D;
- Payments must include the institutionalized spouse/individual in equal amounts during the term of the loan, with no payment deferrals or balloon payments; and,
- The note, loan or mortgage must prohibit cancellation of the debt upon the death of the lender.

If all of the criteria listed above are not met, the loan is treated as a transfer of resources. The amount of the transfer is the entire outstanding balance due on the loan as of the month of application for Medicaid LTC services.

See Section 5.5 to determine if the loan, mortgage/land sale contract, or promissory note is an asset.

24.8.2.H  Treatment of Transfer of a Stream of Income or Right to a Stream of Income

When the client fails to take action necessary to receive income or transfers the right to receive income to someone else for less than CMV, the transfer of resources penalty is applied. The Worker must follow the steps described below.

Step 1: Verify the amount of potential annual income.

Step 2: Using the client's age as of his last birthday, determine the Remainder Interest Value in Appendix A.

Step 3: Multiply the Step 2 amount by the Step 1 amount to determine the uncompensated value.

Step 4: Divide the Step 3 amount by the average monthly nursing facility private pay rate of $9,515 to determine the penalty period.

NOTE: A partial month’s penalty is imposed for the transfer of an individual or single income payment that is less than the monthly nursing facility private pay rate. See Transfer Penalty Section below for instructions about how to determine and apply partial month penalties.
24.8.2.I Treatment of Jointly-Owned Resources

Jointly-owned resources include resources held by an individual in common with at least one other person by joint tenancy, tenancy in common, joint ownership or any similar arrangement. Such a resource is considered to be transferred by the individual when any action is taken, either by the individual or any other person that reduces or eliminates the individual's ownership or control of the asset.

Under this policy, merely placing another person's name on an account or resource as a joint owner might not constitute a transfer of resources, depending upon the specific circumstances involved. In such a situation, the client may still possess ownership rights to the account or resource and, thus, have the right to withdraw all of the funds at any time. The account, then, still belongs to the client. However, actual withdrawal of funds from the account, or removal of all or part of the resource by another person, removes the funds or property from the control of the client, and, thus, is a transfer of resources. In addition, if placing another person's name on the account or resource actually limits the client's right to sell or otherwise dispose of it, the addition of the name constitutes a transfer of resources.

If either the client or the other person proves that the funds withdrawn were the sole property of the other person, the withdrawal does not result in a penalty.

24.8.2.J Transfer Penalty

The transfer of resources penalty is a period of ineligibility for:

- Nursing facility services; and
- A level of care in any institution, equivalent to that of nursing facility services.

The client may remain eligible for Medicaid, but only services not subject to a penalty are covered. Home and community based waiver groups will not continue their Medicaid eligibility during the transfer penalty, but will be evaluated for other coverage groups.

The penalty is applied as follows.
24.8.2.J.1 Start of the Penalty

The beginning date of each penalty period imposed for any uncompensated transfer of resources is the later of:

- The date on which the individual is eligible for and is receiving institutional level of care services that would be covered by Medicaid if not for the imposition of the penalty period; OR
- The first day of the month after the month in which assets were transferred and advance notice expires, when the individual receives LTC Medicaid; AND
- Which does not occur during any other period of ineligibility due to a transfer of resources penalty.

Penalty for Transfers during the Look-Back Period

When resources have been transferred at singular or multiple points during the look-back period, add together the value of all resources transferred, and divide by the average cost to a private-pay patient of nursing facility services. This produces a single penalty period which begins on the earliest date that would otherwise apply, if the transfer had been made in a single lump sum.

Penalty for Transfers during the Look-Back Period Examples

Example 1: Mr. Ivy enters the nursing facility and applies for Medicaid in October 2018. The individual transferred $50,000 in April 2018. Based on the average private pay nursing facility rate of $9,515 a month, the penalty is five whole months, beginning October 2018 when Mr. Ivy was otherwise eligible for and receiving an institutional level of care that would have been covered by Medicaid, if not for the imposed penalty. A partial month’s penalty of $2,425 is imposed for March 2019. Mr. Ivy is required to pay this amount to the nursing facility, in addition to the calculated monthly contribution. See Length of Penalty below.

Example 1.1: Same situation as above, but during the penalty period the Worker discovers an additional, undisclosed transfer that occurred during the look-back period. The penalty period is recalculated to include the undisclosed transfer of resources.

Example 2: Ms. Fern enters a nursing facility in January 2018 and applies for Medicaid in October 2018 with a request for backdated coverage to August 2018.
Ms. Fern transferred $19,000 in January 2018, $19,000 in February 2018 and $19,000 in March 2018. The Worker must calculate the penalty period by adding the transfers together. The total of $57,000 is divided by the nursing facility cost of $9,515. The penalty period is five whole months, beginning in August 2018, because the individual requested backdated coverage to August 2018, and was otherwise eligible for and receiving institutional level of care that would have been covered by Medicaid, if not for the imposed penalty. A partial month’s penalty for January 2019 of $9,425 is also imposed. Ms. Fern is required to pay this to the nursing facility, in addition to his calculated monthly contribution. See Length of Penalty below for partial month penalties.

**Example 2.1:** Same situation as above, but after the penalty period ends and Ms. Fern is receiving Medicaid, the Worker discovers an undisclosed transfer occurred during the look-back period. A penalty is assessed and advance notice of an additional transfer penalty is sent to Ms. Fern.

➢ **Transfers During a Penalty Period**

When an individual is in a penalty period and transfers additional resources during the penalty, a new penalty period begins as soon as the previous penalty ends.

All penalties for resources transferred on or after March 1, 2009 run consecutively.

**Transfers During a Penalty Period Examples**

**Example 1:** Mr. Oak transfers $70,000 and is serving a seven-month penalty beginning October 2018 through April 2019 with a partial month’s penalty of $3,395 for May 2019. In November 2018, Mr. Oak receives an inheritance of $10,000 which he gives to a nephew. There is an assessed penalty of one whole month and a partial month’s penalty of $485. The new penalty begins May 2019.

**Example 2:** Ms. Orchid, approved for and receiving institutional level of care services, receives an inheritance of $100,000 in 2017 and gives the money to her grandson. Advance notice of the transfer penalty is sent in November and the penalty period begins December 1, 2017.
24.8.2.J.2  Length of Penalty

There is no maximum or minimum number of months a penalty may be applied. The penalty runs continuously from the first day of the penalty period, whether or not the client leaves the institution.

A partial penalty or extra payment is only applied in the last/partial month of the penalty period. The penalty period lasts for the number of whole and/or partial months determined by the following calculation:

- Total amount transferred during the look-back period divided by the State's average, monthly nursing facility private pay rate of $317.15 per day or $9,515 per month.
- When the amount of the transfer is less than the average monthly private pay cost of nursing facility care, the agency imposes a penalty for less than a full month. The partial month’s penalty is converted to a dollar amount and added to the individual’s calculated contribution to his cost of nursing facility care for his first month of eligibility.

The partial month’s penalty is determined as follows:

Step 1: The total amount transferred is divided by the State’s average monthly nursing facility private pay rate of $9,515.

Step 2: Multiple the number of whole months from Step 1 by the average private pay rate of $9,515.

Step 3: Subtract the amount in Step 2 from the total amount of all transfers. The remainder is the amount which is added to the individual’s calculated contribution.

Penalty Calculation Example: Mr. Cactus makes an uncompensated transfer of $24,534 in the month of application for Medicaid coverage of nursing facility services.

Step 1: $24,534 Uncompensated transfer amount

÷ $9,515 State’s average monthly nursing facility private pay rate

2.6 Number of months for penalty period

Step 2: $9,515 State’s average monthly nursing facility private pay rate

x 2 Whole months in penalty period

$19,030

Step 3: $24,534 Total uncompensated transfer amount
-$19,030  Amount for three whole months in period
$5,504  Partial month’s penalty amount

If Mr. Cactus applies in July and is otherwise eligible, the penalty period runs for two full months from July through August, with a partial month’s penalty calculated for September of $5,504. The September partial month’s penalty amount of $5,504 is added to the calculated September contribution for his cost of care. If Mr. Cactus had a $500 monthly contribution, he would be required to pay $6,004 for the cost of care in September.

24.8.2.J.3 Who Is Affected by the Penalty

The institutionalized client is affected by any transfer described above when he or his spouse or any entity acting on their behalf or at their direction transfers an asset.

When the three following conditions are met, any remaining penalty period is divided equally between the institutionalized person and spouse:

- The spouse transferred resources which resulted in ineligibility for the institutionalized client;
- The spouse either is eligible for or applies for Medicaid and is, then, an institutionalized individual; and,
- Some portion of the penalty against the original institutionalized spouse remains when the above conditions are met.

If the penalty period is not equally divisible, the extra month in the penalty period is assigned to the spouse who actually transferred the resource.

When the penalty period is divided between spouses, the total penalty period applied to both spouses must not exceed the total penalty which remained at the time the penalty was divided.

When, for any reason, one spouse is no longer subject to a penalty, such as, when the spouse no longer receives nursing facility services, or dies, the penalty period which was remaining for both spouses must be served by the remaining spouse.

A recording in each affected case must specifically explain the division of the penalty period.

Division of the Penalty Period Example 1: Mr. Aster enters a nursing care facility and applies for Medicaid. Mrs. Aster transfers a resource that results in a 36-month penalty against Mr. Aster. After 12 months into the penalty period, Mrs. Aster enters a nursing care facility and becomes eligible for Medicaid. The penalty period against Mr. Aster still has 24 months to run.
Because Mrs. Aster is now in a nursing care facility, and a portion of the original penalty period remains, the remaining 24 months of the penalty must be divided equally between Mr. and Mrs. Aster.

**Division of the Penalty Period Example 2:** Mr. Juniper is in a nursing facility and applies for Medicaid. Two months before his application he transferred resources to become eligible for Medicaid and a 10-month penalty begins. Two months into the penalty, Mrs. Juniper refuses an inheritance left to both of them because she is afraid it will adversely affect his future eligibility for nursing care coverage. The next month, Mrs. Juniper becomes eligible for HCBS. The Worker inquires about resource transfers and is told about the refusal of the inheritance. This is a transfer of resources. A penalty period is determined to be 12 months. Mr. Juniper continues to serve his 10-month penalty. The other penalty period begins the month after the 10-month period ends. His second penalty lasts six months (half of the 12-month period for his wife's transfer of their resource). Mrs. Juniper receives a six-month penalty period which begins the month she is otherwise eligible to receive an institutional level of care.

**Application of the Penalty**

The only penalty for transferring resources is delayed or lost eligibility for nursing facility, ICF/IID, or Home and Community Based Waiver care. The client is approved, if otherwise eligible, for any other applicable Medicaid coverage group.

### 24.8.3 HOMESTEAD PROPERTY EXCLUSION

A nursing facility resident is entitled to an exclusion of his homestead as a countable asset as long as he has intent to return to his homestead when/if discharged. It is not necessary that the client be medically able to return home to apply the exclusion. It is totally based on the client's intended actions, not whether he has the ability. The property to which the person intends to return must be the principal place of residence in which he resided before he went into the nursing facility. Principal place of residence is considered to be the person's primary residence and is typically the address used on a driver's license, for voting, and for tax purposes. If the client's homestead is a multi-unit dwelling, such as an apartment building, the entire property is excluded, not just the portion of the value which corresponds to the portion of the property in which he actually lived. When the client does not have intent to return due to domestic abuse, see Section 5.5.
The homestead property need not be in West Virginia. The homestead exclusion applies, regardless of the state in which it is located. The client’s expressed intent to return to the homestead property does not necessarily affect his West Virginia residency. See Chapter 2 for residency details.

When the client’s spouse or dependent relative resides in the primary residence, the homestead property remains excluded, regardless of the client’s intent to return.

For purposes of the homestead exclusion only, a dependent relative is one who is dependent financially, medically or as otherwise determined dependent upon the institutionalized person, and includes a child, stepchild or grandchild; parent, stepparent or grandparent; aunt, uncle, niece or nephew; brother or sister, including relations of the step or half, cousin or in-law.

When the home is rented or vacant this has no bearing on the homestead exclusion, however, when the individual places his home on the market, intent to return no longer exists and home is not excluded.

When the client is incapable of indicating his intent, his Committee, legal representative or the person handling his financial matters will make the determination. The Worker must record the client’s statement or intent in the case record. A written statement may be requested but no action may be taken to deny or stop benefits for failure to provide a written statement when the client has expressed his intent verbally or by gesture.

### 24.8.4 HOME EQUITY

When the equity value of an individual’s home exceeds the current maximum allowable amount, he is ineligible for Medicaid payment for nursing facility or waiver services, unless his spouse, child under 21, or disabled adult child resides in the home. The current maximum allowable equity value is $585,000. Denial of LTC Services due to excessive home equity is subject to the Undue Hardship Waiver Provision.
24.8.5 Long Term Care Insurance Partnership (LTCIP) ASSET DISREGARD

24.8.5.A Introduction and Purpose

West Virginia's participation in the LTCIP is established by §9, Article 4E-1 of the West Virginia State Code. The LTCIP Asset Disregard results from a combined effort between Centers for Medicare and Medicaid (CMS), DHHR, LTC insurers, and the West Virginia Insurance Commission in accordance with Section 1917 of the Social Security Act. The LTCIP Asset Disregard provides an incentive to individuals to provide for their own LTC needs through the purchase of a Qualified LTCIP Policy, while protecting their assets.

24.8.5.B Definitions

For purposes of the LTCIP Asset Disregard only, the following definitions apply.

LTCIP ASSET DISREGARD
An asset disregard available to only individuals in the Nursing Facility coverage group, but whose resources exceed the allowable asset limit. Eligible individuals must have a Qualified LTCIP Policy issued by a Partnership State while residing in a Partnership State, with insurance payments made as of the date of the State’s State Plan Amendment (SPA) that implemented the LTCIP. Assets are disregarded dollar-for-dollar in the amount of insurance payments made. Assets are protected at Estate Recovery in this same amount.

LTCIP POLICY VERIFICATION (OFS-LTCIP-1)
This form is given to the applicant for completion by the individual’s insurance carrier or other individual who can attest to the policy’s details and benefits paid. Other sources of verification are the Qualified LTCIP Policy, letter from the issuing state’s governmental agency that regulates insurance, or verification from the issuing insurance agency indicating compliance of the Policy with Section 1917(b)(5)(A) of the Social Security Act.

PARTNERSHIP (QUALIFIED) STATES
States that are participating in the LTCIP. Each Partnership State has an approved State Plan Amendment (SPA) that indicates the date the State implemented the LTCIP. West Virginia’s SPA implemented the LTCIP as of July 1, 2010.
QUALIFIED LTCIP POLICY
An LTC Policy that meets certain requirements of federal and state law. These policies are issued by Partnership (Qualified) States as of the date the State implemented the LTCIP.

RECIPROCITY
A reciprocal relationship exists between Partnership States that allows a resident with a Qualified LTCIP Policy in one Partnership State who later moves to another Partnership State, the same asset protection he previously had.

24.8.5.C Individuals Who May Receive the LTCIP Asset Disregard
The LTCIP Asset Disregard is available to only individuals in the Nursing Facility coverage group but whose individual resources exceed the asset limit.

24.8.5.D Verifications Required
When an individual states he has an LTC policy that has paid insurance benefits to him or on his behalf, the Worker evaluates him for the LTCIP Asset Disregard.

24.8.5.D.1 Verification of Client’s Residency and Status of Policy-Issuing State at the Policy’s Issuance
To be eligible for the LTCIP Asset Disregard, the policy owner must have been a resident of a Partnership State AND the issuing State must have been a Partnership State at the time the policy was issued.

- When a West Virginia resident verifies ownership of a Qualified LTCIP Policy issued by a West Virginia insurer or another Partnership State with an issuance date on or after July 1, 2010 and the individual verifies insurance payments made to him or on his behalf as of that same date, his individual resources may be disregarded dollar-for-dollar in the same amount as the insurance payments made. His resources are protected in this same amount at Estate Recovery.

| Partnership State Example 1: Mrs. Balsam applies for Medicaid on October 16, 2011 and states she has a West Virginia-issued LTC policy that has been paying |
insurance benefits to her since her institutionalization in August 2011. Her OFS-LTCIP-1 indicates her policy was purchased on April 1, 2010. Mrs. Balsam has an LTC policy but it is not a Qualified LTCIP Policy since West Virginia was not a Partnership State until July 1, 2010. Mrs. Balsam’s assets cannot be disregarded.

**Partnership State Example 2:** Mr. Zinnia is a lifelong West Virginia resident. He owns a Florida-issued Qualified LTCIP Policy purchased January 1, 2009 which is after the date Florida became a Partnership State (January 1, 2007). West Virginia became a Partnership State on July 1, 2010. Therefore, since Mr. Zinnia was not a resident of a Partnership State when his policy was issued, he is ineligible for the LTCIP Asset Disregard.

**Partnership State Example 3:** Mr. Begonia is a lifelong West Virginia resident. He purchased a Qualified LTCIP Policy from Minnesota on September 1, 2010 and applied for Medicaid on February 11, 2011. Since Minnesota became a Partnership State on July 1, 2006, his Policy was issued by a Partnership State at the time of purchase and he was also a resident of West Virginia, another Partnership State at that time; therefore, as long as he verifies insurance payments made after July 1, 2010, he is eligible for the LTCIP Asset Disregard to be applied to his individual resources in the amount of insurance payments made.

- When a West Virginia resident was a former resident of a Partnership State and purchased a Qualified LTCIP Policy issued by that state, as long as his policy was issued as of the date of his former State’s SPA that implemented the LTCIP and insurance payments occurred as of that same date, he is afforded the same asset protection he previously had prior to becoming a West Virginia resident. The policy’s benefits need not be exhausted before the LTCIP Asset Disregard is applied.

**Partnership State Example 4:** Mr. Violet was a resident of Virginia before establishing West Virginia residency in January 2011. He purchased an LTC policy from Virginia on May 1, 2007 (the same day Virginia became a Partnership State). Mr. Violet verifies being institutionalized in Virginia and his $62,000 in assets were disregarded due to insurance payments paid on his behalf in 2009 and 2010 that exhausted his $75,000 Policy. His assets continue to be protected by the LTCIP Asset Disregard and he is eligible for West Virginia Medicaid.

- When an individual exchanges a Qualified LTCIP Policy issued by his former state of residence for a West Virginia policy, eligibility for the LTCIP Asset Disregard is evaluated based on the first State’s SPA, policy issuance date and dates of insurance payments made.

**Partnership State Example 5:** Mr. Carnation was formerly an Ohio resident. He exchanges his Ohio-issued Qualified LTCIP Policy for a West Virginia-issued
Policy. He is evaluated for the LTCIP Asset Disregard based on the circumstances surrounding the first policy’s issuance. Ohio became a Partnership State on September 1, 2007. His Policy was issued on January 1, 2008 and insurance benefits were made after this same date; therefore as long as insurance payments made on his behalf equal or exceed his individual resources, the LTCIP Asset Disregard can be applied.

24.8.5.D.2 Verification of the Qualified LTCIP Policy

The LTCIP Asset Disregard requires that the LTC policy be a Qualified LTCIP Policy. The OFS-LTCIP-1 is used to verify information about the individual’s policy.

The following criteria are used to determine if the policy is qualified for the Disregard:

- The individual was a resident of a Partnership State when his policy was issued; AND

***NOTE: When an individual exchanges his Qualified LTCIP Policy issued by his former state of residence for a West Virginia policy, eligibility for the LTCIP Asset Disregard is evaluated based on the first State’s SPA date, policy issuance date, and dates of insurance payments made.***

- The policy meets the Internal Revenue Service’s (IRS) Code of 1986 requirements related to the LTCIP; AND

- The policy’s issuance date was no earlier than the effective date of the issuing Partnership State’s SPA that implemented the LTCIP; AND

- The policy meets the specific rules of the National Association of Insurance Commissioners (NAIC); AND

- The policy includes the inflation protection based on the age of the insured at the time of purchase.

***NOTE: Changes made to the LTCIP Policy after issuance will not affect the LTCIP Asset Disregard as long as the policy continues to be Qualified.***

***NOTE: The LTCIP Asset Disregard is not revoked if a State withdraws from the Partnership.***

**LTCIP Policy Example:** Mr. Fern states he has an LTC policy that has paid him $35 per day for each day of his institutionalization and he requests the LTCIP Asset Disregard applied to his $3,000 in excessive assets. Mr. Fern provides the Worker with a copy of his policy. The policy does not indicate compliance with
the IRS Code nor does it address inflation protection. The policy is not a Qualified LTCIP Policy and the applicant is ineligible for the Disregard.

24.8.5.D.3 Verification of Qualified LTCIP Insurance Benefits Paid

The OFS-LTCIP-1 is used to obtain information about the dates of, amount of Qualified LTCIP insurance benefits paid, and the remaining benefits available to the individual. When the individual does not complete this form, the Worker must verify the amount of insurance benefits paid to or on behalf of an individual as of July 1, 2010 when the individual is a West Virginia resident with a West Virginia-issued Qualified LTCIP Policy or owns a Qualified LTCIP Policy issued from another Partnership State.

24.8.5.E The Amount of the LTCIP Asset Disregard

Resources are disregarded dollar-for-dollar as the amount paid out by the insurance company.

24.8.5.F Applying the LTCIP Asset Disregard at Application and Redetermination

24.8.5.F.1 Applying the Disregard at Application

When there is a community spouse, the countable assets of the couple are combined and the asset assessment is completed. The LTCIP Asset Disregard is applied to the individual’s assets at eligibility determination.

The amount of the Disregard is determined by the value of payments made to the individual or on his behalf since July 1, 2010. The policy’s benefits need not be exhausted for the LTCIP Asset Disregard to be applied. The resource(s) to which the Disregard is applied may be disregarded in part or in entirety.

When a resource is disregarded in its entirety, the Worker indicates in the eligibility system that the resource is inaccessible and details in case comments that the LTCIP Asset Disregard was applied. The corresponding insurance payments made, date of last payment and the amount of benefits remaining in the policy are documented to track the assets that were protected.
LTCIP Asset Disregard at Application Example: Ms. Tulip is eligible for the Disregard. She has a bank account with a balance of $27,000. Insurance benefits from her Qualified LTCIP Policy totaling $27,000 have been paid to her. In the eligibility system, an account totaling $27,000 is entered and listed as inaccessible. The Worker documents the application of the Disregard, dates of payments made that resulted in her becoming eligible for Medicaid and the amount of benefits remaining under Ms. Tulip’s policy.

An asset to which the LTCIP Asset Disregard is applied in part and results in eligibility being established is entered in the data system as two assets, one inaccessible and one with the remaining value after the Disregard is applied. Documentation is detailed in case comments.

Partially Accessible Asset Example: Mr. Daffodil has $12,000 in a savings account. He has a West Virginia-issued, Qualified LTCIP Policy that was purchased on August 1, 2010. The Worker verifies the policy has paid out $10,000 on Mr. Daffodil’s behalf since that same date. The Worker applies the Disregard and enters a $10,000 savings account as inaccessible and then enters the remaining $2,000 as accessible in the eligibility system. The Worker details the information in case comments.

As long as the individual’s assets remain the same, the protection of the resources that resulted in the client’s eligibility continues throughout the client’s Medicaid periods of eligibility. See below for policies governing when the individual’s resources increase in value or he transfers a resource for less than the FMV.

NOTE: Even though a client is eligible for the Disregard and Medicaid, a determination is necessary regarding to whom the LTCIP insurance payment is made. The Worker must determine if the payments are income to the client or a third-party payment. If paid to the client, it is counted as income. If paid to the nursing facility, it is considered a third-party payment.

NOTE: If the client is applying for other benefits, the eligibility system’s asset screens are re-evaluated in accordance with each program’s requirements and the absence of the Disregard.

24.8.5.F.2 Applying the Disregard at Redetermination

The Worker must track the assets of the client, insurance payments made to or on the client’s behalf, and assets disregarded since the previous application.
Medicaid eligibility is reevaluated when the client reports transferring a previously disregarded asset, obtaining an additional asset, or an asset increasing in value.

A transfer of an asset that was previously disregarded is not subject to a transfer penalty.

If the value of the client’s assets increase or the client obtains an additional countable asset that causes him to exceed the allowable asset amount, he will need to verify additional payments made on his behalf by the LTCIP Policy in addition to the amount of payments that were previously used to disregard the assets that were transferred. Additionally, the amount of the client’s estate that was protected from Estate Recovery is reduced by the same amount as the value of the asset that was transferred.

**LTCIP Disregard at Redetermination Example:** Mr. Tansy is in a nursing facility. On September 1, 2010, Mrs. Tansy applied for LTC services for her husband. The couple’s assets are combined at asset assessment and the spousal share is attributed to Mrs. Tansy. Mr. Tansy’s income is less than 300% of the SSI payment for one, but he has $10,000 in individual assets consisting of $5,000 in an accessible money market account and $5,000 in stocks. He is asset-ineligible for LTC by $10,000. He verifies ownership of a $100,000 Qualified LTICP Policy which he purchased on July 12, 2010. The Worker verifies the policy’s status and that his policy has paid for his care in July and August, paying $10,000 to the nursing facility. The Worker disregards his money market and stocks and Medicaid eligibility is effective September 1, 2010.

At redetermination, Mrs. Tansy reports transferring the stock to their son. The transfer is not subject to a penalty since the asset was previously disregarded. However, since insurance payments verified as paid by the LTCIP Policy on behalf of Mr. Tansy were applied to disregard the value of the stock, and resulted in Mr. Tansy being eligible for Medicaid, these same insurance payments cannot be used again to disregard other assets. Should Mr. Tansy’s money market increase in value or the he acquire additional countable assets, he must verify additional payments by the insurance company before any other assets can be disregarded.

Mr. Tansy’s amount of assets that were protected at Estate Recovery is also reduced from $10,000 to $5,000 since the previously disregarded stock was transferred to his son.

**NOTE: If the client is no longer eligible for Medicaid under the 300% gross income test, his eligibility for other Medicaid groups is evaluated prior to closure and the eligibility system’s asset screens are re-evaluated in accordance with each program’s requirements and the absence of the LTCIP Asset Disregard.**
24.9 NOTIFICATION AND FORMS

The applicant or his authorized representative must be notified in writing of the action taken on his application using form DFA-NL-A. The client, his authorized representative, and the nursing facility administrator must be notified in writing in advance of any action that results in a change in the level of benefits using the appropriate form. See Chapter 9 for general notification requirements. This section discusses additional notification procedures related to nursing facility cases.

24.9.1 NOTIFICATION TO CLIENT, AUTHORIZED REPRESENTATIVE, OR NURSING FACILITY

Any time the client or his authorized representative is notified of any changes in the client's eligibility, the nursing facility administrator must also be notified. If more than one nursing facility is involved, each administrator must be sent a copy of the ES-NH-3.

Below is a table of forms referenced in this chapter. It shows the form number, name, and description. The form number can vary on eligibility system generated notices.

24.10 CASE MAINTENANCE

See Chapter 10 for policies and procedures for the appropriate coverage group.

24.10.1 NURSING FACILITY TRANSFER

When an individual transfer facilities in West Virginia a new Pre-Admission Screening (PAS) form must be obtained. See Section 24.12. See Section 24.9 for notification requirements and Section 24.7.8 for information regarding prorating payments between facilities. If an individual transfers to a nursing facility in West Virginia, his eligibility must be evaluated as any other applicant.

24.10.2 CHANGES REQUIRING REEVALUATION

Changes that affect the client’s income, assets, medical eligibility, and/or post-eligibility calculations require reevaluation of Medicaid eligibility and/or the client’s contribution toward his cost of care.

24.10.3 DISCHARGES AND CLOSURES

When a client is no longer in need of nursing facility care or returns home, eligibility for nursing facility services ends after the notice period expires.

Upon discharge, the Worker must:

- Determine if proration of the client’s contribution to his cost of care is applicable. See Section 24.7.4.
- Notify the Bureau for Medical Services (BMS) Long Term Care (LTC) Unit.
- Take the appropriate data system action.
- If losing Medicaid coverage, evaluate the client for all Medicaid coverage groups.
24.11 BENEFIT REPAYMENT

24.11.1 CLIENT REPAYMENT

When payment for nursing care services is made for a client who is ineligible for such payment, for a lower amount, or for Medicaid, repayment is pursued as specified in Chapter 11.

24.11.2 PROVIDER FRAUD

When fraud on the part of a nursing facility or other Medicaid provider is suspected, the procedures in Chapter 11 are followed.

24.11.3 ESTATE RECOVERY

West Virginia has the authority to place liens on the estate or property of a Medicaid client who is either in a nursing facility or who receives benefits under a home and community-based waiver program, and who is age 55 or older, or who is determined to be permanently institutionalized. These liens cannot force the sale of real property during a person's lifetime.

The state will not impose a lien or will defer recovery from the estate when the individual qualifies for Medicaid under the Adult Group expansion provisions of the Affordable Care Act (ACA).

The Bureau for Medical Services (BMS) contracts with an agency to accomplish the recovery and to answer questions from interested persons. When the Worker receives inquiries about Estate Recovery, the Worker must refer the client to the current contract agency. Information about this agency is found in Appendix E. The Worker must not contact the contract agency on behalf of the client.

See Section 24.6 regarding the Long Term Care Insurance Partnership (LTCIP) Asset Disregard and its relation to Estate Recovery.
24.12 ESTABLISHING APPLICANT AS AGED, BLIND, OR DISABLED AND THE MEDICAL NECESSITY FOR NURSING FACILITY CARE

24.12.1 ESTABLISHING MEDICAID CATEGORICAL RELATEDNESS

When the applicant for nursing facility services is not a Medicaid client under a full Medicaid coverage group, categorical Medicaid eligibility and financial eligibility must be established for the Nursing Facility coverage group or the SSI-Related/Monthly Spenddown group.

Disability or blindness, when not already established by the receipt of Retirement, Survivors, and Disability Insurance (RSDI) or Railroad Retirement benefits based on disability, must be established by the Medical Review Team (MRT).

All procedures in Chapter 13 for an MRT referral for the appropriate coverage group are applicable, and a presumptive approval may be made according to the guidelines in Chapter 13.

The Pre-Admission Screening (PAS) does not by itself establish disability. However, a copy of the PAS may be submitted to the MRT as medical information.

24.12.2 ESTABLISHING MEDICAL NECESSITY, THE PAS

24.12.2.A General Requirements

Before payment for nursing facility services can be made, medical necessity must be established for all clients. The PAS is the tool used for this purpose. The PAS is signed by a physician and then evaluated by a medical professional working with the State’s contracted level of care evaluator. The PAS is valid for 60 days from the date the physician signs the form, which is the only date used for establishment of medical necessity. The 60-day validity period applies, regardless of the reason for the completion. See below for situations when a PAS is not completed and payment for nursing facility care is requested for a prior period.
When the PAS indicates the client is not in need of nursing facility care, the application for Medicaid, unless withdrawn, is processed for any other coverage group for which the person qualifies, and all client notification procedures apply.

When the client no longer has medical necessity for long term care services, the nursing facility must notify the Worker.

There is no requirement that the name of the facility in which the client resides appear on the PAS.

---

24.12.2.B When the PAS Must Be Completed

---

For Medicaid to pay for nursing facility services, the PAS must be completed when:

- The client enters a Medicaid-certified nursing facility.
- The client transfers from one facility to another, even when the client moves from one facility to another governed by the same corporation, and even when 60 days has not passed since the completion of the PAS for the first facility.
- The client is admitted to an acute care facility and returns to the same nursing facility after 60 days.
- The client’s condition changes to the extent that he no longer requires nursing facility services.
- Nursing facility care is approved for a limited time, a new PAS must be submitted by the facility before the end of the approved period.
- A private-pay patient applies for Medicaid, unless an approved PAS was completed within 60 days prior to the application.

This applies even if a PAS certifying medical need was completed at the time of admission to an approved facility. This also applies if a PAS was completed any other time before 60 days prior to the application. The new PAS certifies current need for nursing facility services.

A previously approved PAS may be used for backdated eligibility and payment for nursing facility services, so long as the client has remained in the same facility since completion of the previously approved form.
24.12.2.C  Date of PAS Examples

Example 1: Mr. Rose enters a nursing facility as a private pay patient on October 18, 2016, and a PAS, which certifies his need for nursing care, is completed on that date. On February 1, 2017, he is still in the same nursing facility, and his family applies for Medicaid for his nursing facility care. Because the PAS completed at admission is more than 60 days old on February 1, 2017, a new PAS must be completed. If otherwise eligible, payment for services begins February 1, 2017.

Example 2: Mr. Begonia enters a nursing facility on September 2, 2016, and a PAS which certifies his need for nursing facility care is completed on that date. On September 30, 2016, his family takes him home to care for him. On October 16, 2017, his family places him in another facility and applies for Medicaid for his nursing care. A new PAS is required because he left the nursing facility for which the PAS was originally completed, and the new facility must have an original approved PAS.

Example 3: Mr. Calla enters a nursing facility on March 7, 2016, and a PAS, which certifies his need for nursing care, is completed on that date. On September 9, 2017, he is still in the same facility, and his family applies for Medicaid for his nursing care. They request payment for his care beginning June 1, 2017. Because the admission PAS, although approved, was completed more than 60 days prior to September 9, 2017, a new PAS must be completed. The approved PAS, completed March 7, 2016, is used to certify his need for nursing facility care from June 1, 2017, until the date of the newly approved PAS.

24.12.2.D  Temporary Stays in Distinct Parts

Distinct part, as used in the following, means the part of the acute facility which provides nursing facility services.

When a nursing facility client is admitted to an acute care facility, moves to a distinct part of the facility, and then returns to the original nursing facility, special PAS requirements may apply.

The special PAS procedures are as follows:

- When the client moves from the acute care facility to a Medicare-only distinct part, no new PAS is required for the distinct part. However, a new PAS is required when the client returns to the original nursing facility.
When the client moves from the acute care facility to a distinct part which is dually certified for Medicare and Medicaid, two PASs are required, one when the client enters a distinct part and another when he returns to the original nursing facility.

The table below shows when a PAS must be completed for stays in distinct parts.

<table>

24.12.2.E Procedures Related to the PAS

24.12.2.E.1 Who Completes the PAS

The provider completing the PAS may include, but is not limited to, a hospital, physician, nursing facility, or waiver agency.

24.12.2.E.2 Responsibilities of the Completing Provider

Responsibilities of the completing provider include:

- To submit the PAS to the level of care evaluator employed by the State's contract agency for review See Appendix E; and
- Once the review has been completed, to submit the original, reviewed PAS, with the admission documentation, to the provider of nursing facility services.

24.12.2.E.3 Responsibilities of the Level of Care Evaluator

Responsibilities of the level of care evaluator include:

- To determine the client’s need for and level of care and to evaluate for the presence of mental illness or intellectual disability;
• To return the original form, with the review determination, to the originating provider. The possible review results are:
  o A = Nursing care needed
  o B = Personal care needed
  o C = No services needed

• To forward the original PAS to the appropriate agency for the Level II evaluation when the presence of mental illness or intellectual disability is indicated. See below.

24.12.2.E.4 Responsibilities of the Worker

Responsibilities of the Worker include:

• To forward the original PAS to the level of care evaluator when the PAS completer sends to the county office instead of the level of care evaluator.

• To obtain a signed copy of the current, approved PAS as verification of medical necessity at application and redetermination.

A new PAS is only required in the situations described above. A new PAS is not required at each redetermination. However, the Worker must verify that the client remains medically-eligible by obtaining a copy of the current PAS on file with the nursing facility.

PAS Example: Mrs. Ginger completes a redetermination in June 2017. The Worker obtains a copy of the current approved PAS on file with the nursing facility. The PAS is dated May 21, 2016, approved for over six months and Mrs. Ginger has not left the facility since admission. The Worker has verified medical necessity at redetermination.

24.12.2.E.5 Level II Pre-Admission Screening and Annual Resident Review (PASARR)

Any client who applies for nursing facility services in a Medicaid-certified facility must be evaluated for the presence of mental illness, intellectual disability, or related conditions, as well as for the need for specialized services to address the individual’s mental health needs or developmental disability. The level of care evaluator, after making the Level I decision of medical necessity, forwards the PAS to the mental health evaluator, if appropriate.

The date of the Level II evaluation has no bearing on the date that medical necessity for nursing care is established.
24.12.3 ESTABLISHING RETROACTIVE MEDICAL NECESSITY USING PHYSICIAN’S PROGRESS NOTES OR ORDERS

This procedure is used only for backdating eligibility for nursing facility care when no PAS exists for the period for which payment of services is requested. The progress notes or orders cannot be used to change an existing PAS which does not certify need for nursing facility care. Eligibility may only be backdated up to three months prior to the month of application.

In certain circumstances, which may be beyond the control of the client or his authorized representative, a client may be admitted to a Medicaid-certified nursing facility without a PAS. When this occurs and the client applies for Medicaid and payment of nursing facility services for a prior period, the Worker may obtain and use the physician’s progress notes or orders in the client's medical records to establish medical need. A valid PAS for current eligibility must still be obtained.

This information is obtained from the nursing facility and the facility may request that the physician add such notes to the client’s records. These records may also be used when application is made and payment requested for a deceased client when no valid PAS was completed.

The Worker must record the reason for the use of the progress notes or orders in case comments.
24.13 SPECIAL PROCEDURES RELATED TO COVERAGE GROUPS

Individuals already receiving full coverage Modified Adjusted Gross Income (MAGI) Medicaid, who become eligible for Medicaid payment of nursing facility services, must be dually coded in the data system as receiving nursing home coverage.

24.13.1 SUPPLEMENTAL SECURITY INCOME (SSI) RECEPIENTS

The Worker must notify the Social Security Administration (SSA) using the DFA-HS-3 when the SSI recipient enters or leaves a nursing facility.

When the institutionalized SSI recipient has an Essential Spouse (See Chapter 23) who is included in the assistance group (AG) and who appears on the same Medical ID card, the Essential Spouse remains eligible for SSI Medicaid, unless the State Data Exchange (SDX) information indicates the SSI is terminated. The Worker must use appropriate procedures to provide Medicaid to the nursing facility client and the Essential Spouse.

24.13.2 DEEMED SSI RECEPIENTS

Deemed SSI recipients can be Medicaid clients even though they do not receive SSI. When the Deemed SSI recipient enters a nursing facility and is eligible for payment for his care, his coverage group does not change.
24.14 MANAGEMENT OF THE PERSONAL NEEDS ALLOWANCE (PNA)

This section is not applicable to clients who are in a Modified Adjusted Gross Income (MAGI) or Qualified Medicare Beneficiary (QMB) eligibility category.

Each nursing care patient is entitled to an allowance to meet his personal expenses. Any amount accumulated in the patient's personal expense account is an available asset.

Responsibilities for the management of this allowance are outlined in this section.

24.14.1 NURSING FACILITY RESPONSIBILITIES

Funds in the personal expense account must not be used by the nursing facility to meet costs of services covered by the Medicaid nursing care payment. Examples of services and items covered by the nursing care payment are listed below. In addition, the facility must:

- Not charge a resident for any item or service not requested by the resident, or his authorized representative;
- Not require a resident to request any item or service as a condition of admission or continued stay; and,
- Inform the resident or his authorized representative requesting an item or service for which a charge will be made that there will be a charge for the item, and the amount.

When a facility has responsibility for a patient's Personal Needs Allowance (PNA), individual records must be kept with documentation of all disbursements made. Patient funds must be held in a separate account and not co-mingled with facility funds. Misuse of the personal funds by the facility is considered a fraudulent practice and any misappropriated funds must be repaid.

Because funds accumulated in the personal expense account are an asset, the facility is required to notify residents when they are within $200 of the asset limit.

When the patient is discharged, any unused amount remaining in his personal expense account is refunded to him by the facility.
24.14.2 CHARGES NOT PERMITTED

Nursing facilities may not charge a resident for the following examples of items and services:

- Routine, required nursing services.
- Use of equipment routinely used in the patient’s care.
- Specialized rehabilitative services such as, but not limited to, physical therapy, speech language pathology, and occupational therapy.
- Required dietary services.
- Required activities program.
- Room/bed maintenance services.
- Basic personal laundry, not including dry cleaning, mending, hand washing, or other specialty services.
- Medically related social services.
- Personal hygiene items and services. Residents can purchase their own personal hygiene items if they choose, but the facility is required to provide them when needed, without charge. Examples of personal hygiene items and services that must be provided free by the facility include, but are not limited to:
  - Hair hygiene supplies
  - Comb and brush
  - Bath soap
  - Disinfecting soaps or specialized cleansing agents when needed to treat special skin problems or to fight infection
  - Razors
  - Shaving cream
  - Toothbrush and toothpaste
  - Denture adhesive and cleaner
  - Dental floss
  - Moisturizing lotion
  - Tissues
  - Cotton balls and swabs
  - Deodorant
  - Incontinence supplies and care
Sanitary napkins and related supplies
- Towels and washcloths
- Hospital gowns
- Over-the-counter drugs
- Hair and nail hygiene services, but not cosmetic services
- Bathing

24.14.3 CHARGES PERMITTED

The following lists examples of items and services that the nursing facility may charge to the resident's personal expense account:

- Television/radio for personal use, including cable hook-up fee
- Telephone
- Personal comfort items, including smoking materials, lotions, novelties, and confections
- Cosmetic and grooming items and services in excess of those for which payment is made under Medicaid or Medicare
- Personal clothing
- Personal reading matter
- Gifts purchased on behalf of a resident
- Flowers and plants
- Social events and entertainment offered outside the scope of the nursing facility’s activity program
- Non-covered special care services, such as privately hired nurses or aides
- Private room, except when therapeutically required, such as isolation for infection control
- Specially prepared or alternative food specially requested, but not medically necessary, instead of the food prepared by the facility

24.14.4 WORKER RESPONSIBILITIES

At redetermination, the Worker verifies the accumulated balance in the client’s personal expense account. When the personal expense account, by itself or in combination with other assets, exceeds the asset limit, the case is closed after 13 days’ advance notice.
24.15 BILLING PROCEDURES AND PAYMENT AMOUNTS

Payments are made to the nursing facility in accordance with daily rates established by the agency for each facility that has been approved for Medicaid participation. The Worker must refer all inquiries about billing matters to Provider Services and must not act as a liaison between the Bureau for Medical Services (BMS) or their contract agency and the facility. See Appendix E.
24.16 APPLICATION/REDETERMINATION

If the client is currently enrolled in, or eligible for, full-coverage Medicaid, he must still be assessed for medical eligibility. If found eligible, the client must be assessed to determine if he must contribute to his cost of care. These clients, including Supplemental Security Income (SSI) and Deemed SSI recipients, must complete the DFA-LTC-5 at application and annual redetermination for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) to evaluate any annuities, trusts, and/or other potential resources or transfers unless they meet any listed exceptions. See Section 24.1.

If the client is not eligible for full-coverage Medicaid, he may be eligible the ICF/IID group if he meets certain income and asset standards. These applicants, including Qualified Medicare Beneficiary (QMB), Specified Low-Income Medicare Beneficiary (SLIMB), and Qualified Individual – 1 (QI-1) clients, must complete the full application process. See Section 24.7. If found eligible, the client must contribute toward his cost of care.

If the client is not otherwise eligible, eligibility as an SSI-Related Medicaid client must be explored.

The application/redetermination process is the same as SSI-Related Medicaid, with the following exceptions that govern time limits on processing the application:

- As a result of the Medley, et al. vs Lipscomb court order, the Department of Health and Human Resources (DHHR) is required to determine an individual's eligibility for ICF/IID level of care and placement in a ICF/IID facility within three working days of receiving a completed application. Presumptive eligibility is determined using a DFA-ICF/MR-1. The case management agency, in conjunction with the admission committee from the certified ICF/IID facility, is responsible for determining the initial financial eligibility. This presumptive eligibility period may not exceed 30 days. The completed DFA-ICF/MR-1 is considered the initial application.

- The DFA-ICF/MR-1 form must be date-stamped when received in the local office. The three-working-day time limit begins the day after the DCA-ICF/MR-1 is received.

When the DFA-ICF/MR-1 form is received, the local office Community Services Manager (CSM) is responsible for:

- Having the case entered and approved for presumptive eligibility in the eligibility system within this three-working-day time limit.
• Assigning the case to a Worker. The Worker issues a DFA-6 to the client or his authorized representative to obtain any verification required to determine ongoing eligibility after the 30-day presumptive eligibility period. The DFA-6 has a 10-day time limit with the exception of spenddown cases.

• Assuring that a decision regarding ongoing eligibility is made within the 30-day presumptive period, once the required verification is received.

All ICF/IID applicants, other than those already admitted to and living in a certified facility, must apply for admission to the ICF/IID facility.

• The staff at the ICF/IID facility may use the DFA-ICF/MR-1 to presumptively determine medical and financial eligibility. When this is done, the procedures discussed above are followed; or

• When the application for ICF/IID is made using the DFA-2 or DFA-MA-1, and, thus no presumptive decision is made by the case management agency ICF/IID admission committee, the application is processed using SSI-Related Medicaid processing time limits.

**NOTE:** When the applicant’s eligibility for, or enrollment in, this program is pending, he must not be refused the right to apply for any or all Division of Family Assistance (DFA) programs.

Eligibility is redetermined once a year and no interview is required.
24.17 COMMON ELIGIBILITY REQUIREMENTS

Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) uses the same common eligibility requirements as Supplemental Security Income (SSI)-Related Medicaid. See Chapter 2.
24.18 ELIGIBILITY DETERMINATION GROUPS

24.18.1 THE ASSISTANCE GROUP (AG)

The resident of the Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) is the only person in the AG.

24.18.2 THE INCOME GROUP (IG)

Only the income of the ICF/IID client is counted.

24.18.3 THE NEEDS GROUP (NG)

Monthly gross countable income is compared to 300% of the Supplemental Security Income (SSI) payment level for a single individual.

24.18.4 CASE COMPOSITION

Only the resident of the ICF/IID is included in the case.
24.19 INCOME

24.19.1 ELIGIBILITY

The determination of countable income sources for Supplemental Security Income (SSI)-Related Medicaid is used for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) cases. See Chapter 4.

The individual must have gross countable income at or below 300% of the SSI payment level. When income exceeds this limit, the client may be determined eligible for a monthly spenddown to the Medically Needy Income Level (MNIL) and become eligible. See Section 24.7.2.D.

24.19.2 POST-ELIGIBILITY

When the client has income at or below 300% of the SSI payment level or is eligible for a spenddown to the MNIL level, the post-eligibility process is used to determine the client's contribution to his cost of care. See Section 24.7.

Residents of an ICF/IID also receive an additional deduction of up to $65, in addition to the $50 personal needs allowance, when they have earned income from supportive or competitive employment in a sheltered workshop.
24.20 ASSETS

The determination of countable assets for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) cases is determined in the same way as for Supplemental Security Income (SSI)-Related Medicaid. Assets are compared to the limit for a single individual. See Chapter 5.

Transfer of resources, transfer of resources penalties, and spousal asset assessment policies apply, see Section 24.8.
24.21 NOTIFICATION

Notification policy and process is the same as it is for nursing facility services, as described in Section 24.9.
24.22 CASE MAINTENANCE

24.22.1 FACILITY TRANSFER

When an Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) client moves from one facility to another, the Worker must change the address and vendor number in the eligibility system. When the new facility is in another county, the case record must be transferred as well.

When the client resides in more than one ICF/IID facility in the same calendar month, the Worker must determine the portion of the client's cost contribution that must be paid to each facility in accordance with Section 24.7. Because the ICF/IID rate varies based on the individual's medical assessment, a standard rate per facility is not posted on the Department of Health and Human Resources’ (DHHR) Intranet site. The Worker must contact each facility for the individual's ICF/IID rate.

24.22.2 CHANGES IN INCOME

If a client's income increases to more than 300% of the Supplemental Security Income (SSI) payment level, he is ineligible and must be reevaluated for all other Medicaid coverage groups including SSI-Related/Monthly Spenddown. Appropriate client notification, including advance notice requirements and data system action, apply.
24.23 BENEFIT REPAYMENT

24.23.1 CLIENT REPAYMENT

When payment for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) services is made for a client who is ineligible for such payment, only eligible for a lower benefit, or ineligible for Medicaid, repayment is pursued as specified in Chapter 11.

24.23.2 PROVIDER FRAUD

When fraud on the part of an ICF/IID service provider, facility, or other Medicaid provider is suspected, the procedures in Chapter 11 are followed.

24.23.3 ESTATE RECOVERY

Estate recovery applies to ICF/IID cases. See Section 24.11.
24.24 ESTABLISHING MEDICAL NECESSITY

Medical necessity for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) care is determined by the Bureau for Medical Services (BMS) contracted agency based on information provided by the ICF/IID facility on BMS forms DD-1 through DD-5.

The ICF/IID must submit the medical eligibility certification to the BMS contracted agency within 90 days of the date of placement in the ICF/IID.

The case management agency, in conjunction with the admission committee of the certified ICF/IID facility, may determine that applicants meet medical necessity requirements for placement in an ICF/IID facility on a presumptive basis not to exceed 30 days.

The first half of the presumptive application form, DFA-ICF/MR-1, is the medical certification that the ICF/IID placement is the least restrictive and best placement for the applicant, and must be signed by a licensed psychologist or other Qualified Intellectual Disabilities Professional (QIDP) on the day the applicant is admitted to the ICF/IID facility.

For applicants presumptively approved, the facility sends one copy of the DFA-ICF/MR-1 to the attention of the Community Services Manager (CSM) in the county where the ICF/IID facility is located, and one copy, along with the psychological/medical/social treatment plan that is compiled on forms DD-1 through DD-5, to the BMS contacted agency.

At the time of the client's presumptive approval, the psychological/medical/social treatment plan is submitted to the BMS contracted agency to document that the client meets medical necessity criteria. When the BMS contracted agency makes a determination, the CSM is notified. The effective date of a finding of medical necessity is indicated in the memorandum.
24.25 SPECIAL ELIGIBILITY SYSTEM INSTRUCTIONS

Supplemental Security Income (SSI) recipients and Deemed SSI recipients who participate in intermediate care facilities for individuals with intellectual disabilities (ICF/IID) are coded in the eligibility system. SSI and Deemed SSI recipients remain in the same category while also being dually coded as ICF/IID clients.
24.26 MANAGEMENT OF THE PERSONAL NEEDS ALLOWANCE

24.27 BILLING PROCEDURES AND PAYMENT AMOUNTS

Payment to the Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) is the responsibility of the Bureau for Medical Services (BMS) and its contract agency. The BMS contract agency maintains a Provider Services helpline for vendor questions. See Appendix E.
COMMON WAIVER INFORMATION FOR AGED AND DISABLED WAIVER (ADW), INTELLECTUAL AND DEVELOPMENTAL DISABILITIES (I/DD) WAIVER, AND TRAUMATIC BRAIN INJURY WAIVER (TBI)

24.28 COMMON ELIGIBILITY REQUIREMENTS

Waiver coverage groups use the same common eligibility requirements as Supplemental Security Income (SSI)-Related Medicaid. See Chapter 2.
24.29 ELIGIBILITY DETERMINATION GROUPS

24.29.1 THE ASSISTANCE GROUP (AG)

The waiver client is the only person in the AG.

24.29.2 THE INCOME GROUP (IG)

Only the income of the waiver client is counted. No income eligibility determination is required for Supplemental Security Income (SSI) and Deemed SSI recipients. Income is not deemed.

24.29.3 THE NEEDS GROUP (NG)

Gross countable income is compared to 300% of the SSI payment level for a single individual. No needs test is applied to SSI and Deemed SSI Medicaid clients.

24.29.4 CASE COMPOSITION

Only the waiver client is the primary person in the case, unless he is an SSI recipient with an Essential Spouse. See Section 23.11.
24.30 INCOME

Only the income of the waiver client is to be counted. No income is deemed to the client.

The determination of which income sources to count is the same as Supplemental Security Income (SSI)-Related Medicaid. See Chapter 4.

The client's monthly gross countable income must be equal to or less than 300% of the maximum SSI payment for a single individual.

There is no post-eligibility process for this coverage group.
24.31 ASSETS

The determination of countable asset sources is the same as for Supplemental Security Income (SSI)-Related Medicaid. See Chapter 5. The SSI-Related Medicaid asset limit for one person is used. Assets are not deemed for clients of waiver services.

SSI and Deemed SSI Medicaid coverage groups have no additional asset test at application for waiver services however must be evaluated for transfer resources, trust and annuities.

For transfers of resources, see Section 24.8. See Section 24.8 for the spousal assessment of assets. Both apply to Aged and Disabled (ADW), Intellectual and Developmental Disabilities (I/DD), and Traumatic Brain Injury (TBI) waiver services.

24.31.1 TRANSFER OF RESOURCES PENALTY FOR AN APPLICANT

A penalty does not start for a waiver applicant until he is actually a recipient of an institutional level of care or nursing facility level of care that Medicaid would pay for, were it not for imposition of the transfer penalty. The penalty does not begin for the waiver applicant unless he enters a nursing facility or other facility providing an institutional level of care. He cannot become Medicaid eligible for waiver services due to the penalty, and the penalty period cannot begin until Medicaid would begin paying for waiver services.

24.31.1.A Applicant Asset Transfer Examples

**Applicant Asset Transfer Example 1:** Ms. Freesia, a 70-year-old woman, applies for ADW services in July 2016 but transferred cash from her bank account to her daughter in January 2014. Ms. Freesia is subject to a transfer of resources penalty for 15.4 months. Her health deteriorates, and she is admitted to a nursing facility in September 2016 for several months. Ms. Freesia cannot receive payment for ADW services from July through September 2016 due to the transfer of resources. Her penalty period cannot begin until she goes into the nursing home. Her penalty period begins in September 2016 and she will be eligible for ADW services in August 2017, if otherwise eligible, with a partial month penalty in September 2017. Ms. Freesia will be eligible in September whether or not she receives long term care services for the entire penalty period as long as she was institutionalized at the start of the penalty period.
Applicant Asset Transfer Example 2: Mr. Orchid, a 67-year-old man, applies for TBI waiver services in August 2016, but transferred cash from his bank account to his son in February 2017. Mr. Orchid is subject to a seven-month penalty. He never begins receiving waiver services because Medicaid never begins payment for these services due to the penalty. Mr. Orchid never entered a nursing home or equivalent institutional level of care, so the penalty period never began.

24.31.2 TRANSFER OF RESOURCES PENALTY FOR A CLIENT

When a waiver services client transfers resources without receiving fair compensation, a penalty is applied after advance notice. The penalty period is determined using the following procedure and lasts for the number of whole and/or partial months determined by the following calculation.

The total amount transferred during the look-back period is divided by the State’s average monthly nursing facility private pay rate of $317.15 per day, or $9,515 per month.

When the remaining amount of the transfer is less than the average monthly private pay cost of nursing facility care, the agency imposes a penalty for less than a full month. The partial month’s penalty is converted to a number of days for which the individual is ineligible for payment for waiver services.

The partial month’s penalty is determined as follows:

Step 1: The total amount transferred is divided by the State’s average monthly nursing facility private pay rate of $9,515.

Step 2: Multiply the number of whole months from Step 1 by the average private pay rate of $9,515.

Step 3: Subtract the amount in Step 2 from the total amount of all transfers. The remainder is the amount used to determine the number of days the individual is ineligible for waiver services in the partial month of the penalty period.

Step 4: The Step 3 amount is divided by the average daily rate of $317.15 to determine the number of days of ineligibility in the last month of the penalty period.
24.31.2.A  Client Asset Transfer Examples

Client Asset Transfer Example 1: Mr. Alder makes an uncompensated transfer of $24,534 after approval for ADW services and Medicaid.

Step 1: $24,534  Uncompensated transfer amount
÷ $9,515  State’s average monthly nursing facility pay rate
2.6  Number of months for penalty period

Step 2: $9,515  State’s average monthly nursing facility private pay rate
x 2  Whole months in penalty period
$19,030

Step 3: $24,534  Total uncompensated transfer amount
-$19,030  Amount for three whole months in penalty period
$5,504  Partial month penalty amount

Step 4: $5,504
÷ $317.15  Average daily rate
17.35  Number of ineligible days for partial month

The partial penalty is imposed for the number of whole days only. If an ADW client transfers resources in July and advance notice is provided for August closure, the penalty period runs for two full months from August through September, with a partial month penalty of 17 days calculated for October. The individual becomes eligible for ADW on October 18 if he meets all other requirements.

Client Transfer Example 2: Ms. Ivy is receiving TBI services and transfers her home to her daughter without compensation in October 2018. The value of the home is $100,000. After advance notice, the penalty period is October 2018 through July 2019 for 10 whole months. A partial month penalty is calculated for August 2019, the 11th month, based on $4,850 remaining of the total penalty amount. $4,850 ÷ $317.15 = 15.29 days of ineligibility in August 2019. Any fractional days are dropped and the length of the penalty is based on the number of whole days. If otherwise eligible, payment for TBI services is approved effective August 16, 2019.

Client Transfer Example 3: Mr. Juniper enters a nursing facility in October 2016 and applies for long term care services. He has a transfer penalty of 1.17
months. The whole month penalty is applied for October 2016 and the partial month penalty is added to his November 2016 contribution for his cost of care. He is approved for ADW services and will return to his home on November 1, 2016. The partial month penalty is recalculated into days for November 2016.
24.32 BENEFIT REPAYMENT

24.32.1 CLIENT REPAYMENT

When payment for waiver services is made for a client who is ineligible for such payment, or for Medicaid, repayment is pursued as specified in Chapter 11.

24.32.2 PROVIDER FRAUD

When fraud on the part of the waiver service provider, facility, case management agency, or other Medicaid provider is suspected, the procedures in Chapter 11 are followed.

24.32.3 ESTATE RECOVERY

Estate recovery liens apply to Aged and Disabled Waiver (ADW) clients, Traumatic Brain Injury (TBI) waiver clients, and nursing facility clients. See Section 24.11. Refer all questions to the contract agency for Estate Recovery. Information about this agency is found in Appendix E.

Estate recovery does not apply to Intellectual and Developmental Disability (I/DD) waiver cases, unless the I/DD client is age 55 or over and enters an institution.
24.33 SPECIAL ELIGIBILITY SYSTEM INSTRUCTIONS

24.33.1 CURRENT SSI AND DEEMED SSI RECEPIENTS

Supplemental Security Income (SSI) and Deemed SSI recipients receiving waiver services remain in the same SSI and Deemed SSI category in the eligibility system. SSI and Deemed SSI recipients are not dually coded.

24.33.2 ALL OTHERS

Clients eligible for waiver services who do not receive SSI or Deemed SSI are coded in the appropriate waiver category in the eligibility system.
24.34 MANAGEMENT OF THE PERSONAL NEEDS ALLOWANCE

The personal needs allowance does not apply to waiver services.
24.35 BILLING PROCEDURES AND PAYMENT AMOUNTS

Payment to the case management agencies is the responsibility of the Bureau for Medical Services (BMS) and its contract agency. The BMS contract agency maintains a Provider Services helpline for vendor questions. All inquiries from case management agencies, service providers, or vendors about billing must be referred to Provider Services. See Appendix E.
24.36  **TAKE ME HOME, WEST VIRGINIA INITIATIVE**

Take Me Home, West Virginia assists individuals residing in long term care facilities transition home or into the community while retaining long term care and support services.

The following procedure needs to be applied when there is a probable transition from a nursing facility to the home or community. The Waiver Case Management Provider, the Bureau of Senior Services (BoSS), or the Utilization Manager (UMC) must contact the Department of Health and Human Resources (DHHR) for an Aged and Disabled Waiver (ADW) or Traumatic Brain Injury (TBI) Waiver financial eligibility determination of a Take Me Home, West Virginia client.

The Waiver Case Management Provider, BoSS, or the UMC must send the DHHR a DHS-2 form within two business weeks of the client's projected date of discharge. The Worker must evaluate the client’s financial eligibility based on the current information in the case record. If financially eligible, the Worker completes the DHS-2 with the effective (projected discharge) date and submits the DHS-2 to the appropriate agency indicating the client’s financial eligibility. This may be submitted by fax, scan, or mail.

The Worker records the action taken in the case record. The completed Take Me Home, West Virginia DHS-2 is valid for 30 days after the effective date of discharge. When the DHS-2 expires, the entire process is void and the procedure is repeated as needed.

The nursing facility will contact the DHHR when the actual discharge occurs. The Worker updates the eligibility system with the actual discharge date, evaluates financial eligibility to complete the procedure, and again comments the action taken.

Information about waiver services, such as self-directed and personal options, is found on the BoSS website. A listing of case management agencies by county is also found on this site.
24.37 APPLICATION/REDETERMINATION

The West Virginia Department of Health and Human Resources (DHHR) Referral Form for Medicaid Aged and Disabled Waiver (ADW) Program, Initiate Financial Eligibility (DHS-2.FRM) must be presented to begin the ADW financial eligibility determination process.

The DHS-2.FRM form has two versions, one yellow and one white.

- The yellow DHS-2.FRM instructs the Worker to determine financial eligibility. Financial eligibility is determined for the ADW program before medical eligibility is initiated.
- The white DHS-2.FRM, along with the Notice of Decision letter, confirms the client is medically-eligible and that a funded waiver slot is available for the ADW program.

The steps in the application process are outlined in below.

24.37.1 GENERAL APPLICATION PROCEDURES

24.37.1.A Application Forms

New applicants must apply for ADW Medicaid using the DFA-MA-1, DFA-2, or DFA-SLA-1 and DFA-SLA-S1. Current Supplemental Security Income (SSI) and Deemed SSI Medicaid clients must complete the DFA-LTC-5 form to evaluate for trusts, transfers, and annuities.

An interview is not required. If a face-to-face interview is requested by the client or their authorized representative, the appointment must be scheduled within 10 calendar days of the date of the contact. The appointment may be scheduled after 10 calendar days only at the request of the client or his authorized representative.

24.37.1.B Complete Application

The application is complete when the client or his authorized representative signs the appropriate application form which contains, at a minimum, the client's name, address, and signature.
24.37.1.C  Date of Application

The date of application is the date the applicant submits an appropriate application form in person, by electronic transmission or by mail, which contains, at a minimum, his name, address, and signature. When the application is submitted by mail or electronically, the date of application is the date that the form with the name, address, and signature is received in the local office.

24.37.1.D  Who Must Sign

The application must be signed by the applicant, the spouse or the authorized representative. See Section 24.4 for more information on authorized representatives.

24.37.1.E  Due Date of Additional Information

Additional information is due 30 days from the date of application.

24.37.1.F  Application Processing Limits

Eligibility system action to approve, deny or withdraw the application must be taken within 30 days of the date of application.

24.37.1.G  Beginning Date of Eligibility

The beginning date of Medicaid eligibility is:

- The first day of the month that the client is financially eligible and the Worker receives notice that the client is medically-eligible and awarded a funded slot for waiver services; or
- The first day of the month in which the individual is eligible for payment of ADW services after a transfer of resources penalty expires. See Section 24.29.
24.37.1.H  The Benefit

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.

ADW services will only be paid on or after the ADW approval date.

24.37.2  STEPS IN THE APPLICATION PROCESS

Steps in the application process are as follows.

24.37.2.A  Step One: Receipt of the DHHR Referral Form for Medicaid Aged and Disabled Waiver Program, Initiate Financial Eligibility (DHS-2.FRM) YELLOW FORM

The yellow DHS-2.FRM will originate from the ADW Utilization Management Contractor (UMC). The current UMC contact information is found in Appendix E.

The yellow DHS-2.FRM may be submitted by the client or a case management agency and instructs the worker to determine financial eligibility. The client must also submit an appropriate Medicaid application form. General application procedures above must be followed.

24.37.2.A.1  Expired Yellow DHS-2.FRM

If the yellow DHS-2.FRM is expired, the Worker checks the box indicating it is expired and faxes the form back to the ADW UMC.
24.37.2.A.2 **Yellow DHS-2.FRM with Missing Expiration Date**

If there is no expiration date on the yellow DHS-2.FRM, it should be faxed back to the UMC, noting there is no expiration date.

24.37.2.A.3 **Current (Not Expired) Yellow DHS-2.FRM**

If the yellow DHS-2.FRM is not expired:

- The Worker completes the financial eligibility determination following the general application procedures above. A Medicaid application must be received by the Worker prior to the DHS-2.FRM expiration date. However, the application process does not have to be completed prior to the expiration date.
- If the client does not submit an appropriate Medicaid application form with the yellow DHS-2.FRM, the Worker must send an application to the client.
- If the client does not submit the appropriate Medicaid application form prior to the yellow DHS-2.FRM expiration date, the Worker checks the box indicating the application was not completed and faxes the form back to the UMC.

24.37.2.A.4 **Client Is Determined Financially Eligible**

If the client is determined financially eligible for the ADW:

- The Worker confirms the pending ADW category. Financial eligibility for the ADW category is pended up to 90 days in the data system awaiting verification of medical eligibility and availability of a funded ADW slot. The client is notified by a system generated letter.
- The Worker checks the box on the yellow DHS-2.FRM indicating the client is financially eligible and faxes the form back to the UMC. This will initiate medical eligibility to be determined by the UMC.

24.37.2.A.5 **Client Is Determined Financially Ineligible**
If the client is determined financially ineligible for the ADW:

- The Worker checks the box on the yellow DHS-2.FRM indicating the client is ineligible and faxes the form back to the UMC.
- The Worker then evaluates for all other Division of Family Assistance (DFA) programs. The client will be sent a denial letter by the eligibility system.

24.37.2.B  Step Two: Receipt of the DHHR Referral Form for Medicaid Aged and Disabled Waiver Program (DHS-2.FRM) WHITE FORM

The white DHS-2.FRM, along with the Notice of Decision letter, confirms to the Worker the client was determined medically-eligible and awarded a funded slot for the ADW program.

The white DHS-2.FRM originates from a case management agency if the client chooses the traditional service delivery model, or from the Bureau of Senior Services (BoSS) if the client chooses the personal options delivery model.

24.37.2.B.1  Expired White DHS-2.FRM

If the white DHS-2.FRM form is expired, the Worker checks the box indicating it is expired and faxes the form back to the originating agency. Medicaid is not approved.

24.37.2.B.2  White DHS-2.FRM with Missing Expiration Date

If there is no expiration date on the white DHS-2.FRM, it should be faxed back to the originating agency, noting there is no expiration date. Medicaid is not approved.

24.37.2.B.3  Current (Not Expired) White DHS-2.FRM

If the white DHS-2.FRM is not expired:

- The Worker updates financial eligibility.
If ADW financial eligibility was determined in the last 90 days and is in pending status, the Worker updates the system and approves Medicaid ADW program eligibility.

If more than 90 days have passed since financial eligibility was determined, the client must be reevaluated for financial eligibility. Medicaid ADW is not approved. The client must submit a new application prior to the expiration date on the white form.

- The Worker checks the appropriate box on the white DHS-2.FRM indicating whether the client is eligible or ineligible for Medicaid ADW and faxes the form back to the originating agency.
- The client has only 60 days after acquiring a waiver slot to establish eligibility and be enrolled in the waiver program, or they will lose their slot. Timely financial eligibility determinations are critical.

**NOTE:** When the applicant’s eligibility for or enrollment in this program is pending due to the lack of a waiver slot or other reason, he must not be refused the right to apply due to his pending status for the ADW group, but must be evaluated for any or all DFA programs.

**ADW Application Example:** Mr. Beech applies for ADW, which requires a medical eligibility decision by the ADW program and a financial determination by an Income Maintenance Worker. While his medical eligibility decision is pending, he visits his local DHHR office and applies for the Supplemental Nutrition Assistance Program (SNAP). Although his medical eligibility for ADW has not been determined and a financial determination cannot be made by the Worker for ADW, his pending status for this program does not prevent his evaluation for all other Medicaid groups or DFA programs for which he may qualify.

**24.37.3 WAIVER APPLICANTS CURRENTLY RECEIVING MEDICAID PAYMENT FOR NURSING FACILITY SERVICES**

For ADW applicants currently receiving Medicaid payment for nursing facility services, the following steps are used.

**24.37.3.A Step One: Receipt of the DHHR Referral Form for Medicaid Aged and Disabled Waiver Program, Initiate Financial Eligibility (DHS-2.FRM) YELLOW FORM**
The yellow DHS-2.FRM instructs the Worker to determine financial eligibility. The Worker must first evaluate the client’s financial eligibility based on the current information in the case record.

Clients currently receiving Medicaid payment for nursing facility services in the Nursing Facility coverage group, or as an SSI or Deemed SSI recipient, have been determined financially eligible and are not required to complete a new Medicaid application upon receipt of the yellow DHS-2.FRM.

All other clients currently receiving Medicaid payment for nursing facility services must submit an appropriate waiver application form prior to the expiration date on the yellow DHS-2.FRM.

**24.37.3.A.1 Expired Yellow DHS-2.FRM**

If the yellow DHS-2.FRM is expired, the Worker checks the box indicating it is expired and faxes the form back to the ADW UMC.

**24.37.3.A.2 Yellow DHS-2.FRM with Missing Expiration Date**

If there is no expiration date on the yellow DHS-2.FRM, it should be faxed back to the UMC, noting there is no expiration date.

**24.37.3.A.3 Current (Not Expired) Yellow DHS-2.FRM**

If the yellow DHS-2.FRM is not expired:

- If the client is currently receiving Medicaid in the Nursing Facility, SSI or Deemed SSI coverage group, the Worker checks the box on the yellow DHS-2.FRM indicating the client is financially eligible and faxes the form back to the UMC. This will initiate medical eligibility to be determined by the UMC.
- If not currently financially eligible, the Worker completes the financial eligibility determination following the general application procedures above. A Medicaid application must be received by the Worker prior to the DHS-2.FRM expiration date, if applicable. However, the application process does not have to be completed prior to the expiration date.
- If the client does not submit an appropriate Medicaid application form with the yellow DHS-2.FRM, the Worker must send an application to the client.
• If the client does not submit the appropriate Medicaid application form prior to the yellow DHS-2.FRM expiration date, the Worker checks the box indicating the application was not completed and faxes the form back to the UMC.

24.37.3.B Step Two: Receipt of the DHHR Referral Form for Medicaid Aged and Disabled Waiver Program (DHS-2.FRM) WHITE FORM

The white DHS-2.FRM, along with the Notice of Decision letter, confirms to the Worker the client was determined medically-eligible and awarded a funded slot for the ADW program.

24.37.3.B.1 Expired White DHS-2.FRM

If the white DHS-2.FRM form is expired, the Worker checks the box indicating it is expired and faxes the form back to the originating agency. Medicaid coverage for nursing facility services continues if all requirements are met.

24.37.3.B.2 White DHS-2.FRM with Missing Expiration Date

If there is no expiration date on the white DHS-2.FRM, it should be faxed back to the originating agency, noting there is no expiration date. Medicaid coverage for nursing facility services continues if all requirements are met.

24.37.3.B.3 Current (Not Expired) White DHS-2.FRM

If the white DHS-2.FRM is not expired:

• The Worker approves eligibility in the ADW category upon notification the client has been discharged from the nursing facility.
• The Worker checks the appropriate box on the white DHS-2.FRM indicating whether the client is eligible or ineligible for Medicaid ADW and faxes the form back to the originating agency.
The client has only 60 days after acquiring a waiver slot to establish eligibility and be enrolled in the waiver program, or they will lose their slot. Timely financial eligibility determinations are critical.

### 24.37.4 Redetermination Process

A redetermination of eligibility is completed once a year; a face-to-face interview is not required. The Worker receives an alert in the eligibility system when a redetermination is due. The Worker must manually set an alert to schedule the redetermination for SSI and Deemed SSI waiver clients.

The same financial criteria used at application applies at each annual redetermination. Medical necessity must be verified annually at redetermination with a Notice of Decision letter or document from the UMC stating the client continues to be eligible. If the client continues to meet financial and medical requirements, Medicaid eligibility for waiver services is established. Continued medical eligibility for services is monitored by the Bureau for Medical Services (BMS).
24.38 NOTIFICATION

24.38.1 CLIENT

Notification procedures in Chapter 9 are applicable.

24.38.2 CASE MANAGEMENT AGENCY (CMA) OR THE BUREAU OF SENIOR SERVICES (BoSS)

At application, the Worker sends a copy of the completed white DHS-2.FRM to the originating agency within 30 days of completion of the application. This notifies the CMA of the financial eligibility decision and provides them with the Medicaid ID. The Worker retains a copy of the completed DHS-2.FRM for the case record.

The Worker must also notify the CMA, or the BoSS if the client is a Personal Options member, when an Aged and Disabled Waiver (ADW) client becomes ineligible for any reason, using the original form DHS-2.FRM, a DHS-1, or a free-format letter.
24.39 CASE MAINTENANCE

24.39.1 COUNTY TRANSFER

When an Aged and Disabled Waiver (ADW) client moves from one county to another, the case record must be transferred to the new county of residence.

24.39.2 CHANGES IN INCOME FOR THE ADW COVERAGE GROUP

When the client's income increases to above 300% of the Supplemental Security Income (SSI) payment level, he is no longer eligible for ADW services. The Worker must:

- Notify the case management agency or the West Virginia Bureau of Senior Services (BoSS)
- Notify the client or his authorized representative by providing 13 days’ advance notice
- Update the eligibility system
- Evaluate the client for all other Medicaid coverage groups

24.39.3 CHANGE IN MEDICAL CONDITION

When the client's medical condition improves to the extent that ADW services are no longer required, he is ineligible for the ADW coverage group. If this is the method by which he qualified for Medicaid, he must be evaluated for all other Medicaid coverage groups. ADW services are no longer paid under Medicaid.

If the ADW client’s condition changes to the extent that care in a nursing facility is required, the following conditions must be met before Medicaid can pay for nursing facility services:

- A valid pre-admission screening (PAS) was completed on the date the client entered the nursing facility or within the 60-day period prior to entering the facility.
- The post-eligibility process to determine the client’s contribution to his cost of care was completed. See Section 24.7.3 for instructions.
- All notification procedures outlined in Section 24.9 were followed.
• The redetermination cycle remains the same for the assistance group (AG). When this change occurs in the month of redetermination, it must be completed at the same time as the change from ADW to nursing facility services.

• When the individual is under age 65, not blind, and does not receive a disability benefit or meet any other criteria specified in Section 13.4, disability must be established by the Medical Review Team (MRT). See Section 24.12.1.
24.40 ESTABLISHING MEDICAL NECESSITY

Medical necessity is determined by the Bureau for Medical Services (BMS) Utilization Management Contracted agency (UMC). When the UMC sends the white DHS-2.FRM, along with the Notice of Decision letter, medical necessity is presumed to be determined.

The Worker has responsibility in this process to obtain the letter from the UMC as verification of medical eligibility at application and redetermination. The BMS, UMC, or case manager notifies the Worker when a client no longer meets medical necessity criteria for Aged and Disabled Waiver services.
INTELLECTUAL AND DEVELOPMENTAL DISABILITIES (I/DD)

24.41 APPLICATION/REDETERMINATION PROCESS – I/DD

The application process for financial eligibility for Intellectual and Developmental Disabilities (I/DD) Waiver begins when the Worker receives a memorandum from the Bureau for Medical Services (BMS) contract agency listed in Appendix E. The memorandum (Notice of Decision Letter for medical eligibility) gives the date that medical necessity for I/DD Waiver services eligibility is established and verifies a funded slot is available.

24.41.1 GENERAL APPLICATION PROCEDURES

24.41.1.A Application Forms

Current clients of Supplemental Security Income (SSI), Deemed SSI, Parent/Caretaker Relatives, Children under Age 19, and Pregnant Women must complete only the DFA-LTC-5 to evaluate for annuities, trusts, and/or other potential resources or transfers when determined medically-eligible for I/DD.

All other new applicants must apply for I/DD waiver Medicaid using the DFA-MA-1, DFA-2, or DFA-SLA-1 and DFA-SLA-S1.

24.41.1.B Complete Application

The application is complete when the client or his representative signs the appropriate application form which contains, at a minimum, the client’s name, address, and signature. An interview is not required.

24.41.1.C Date of Application

The date of application is the date the applicant submits an appropriate application form in person, by electronic transmission or by mail, which contains, at a minimum, his name, address,
and signature. When the application is submitted by mail or electronically, the date of application is the date that the form with the name, address, and signature is received in the local office.

24.41.1.D Who Must Sign

The application must be signed by the applicant, the spouse, or the authorized representative. See Section 24.4 for more information on authorized representatives.

When the applicant is a child under age 18, the parent(s) or legal guardian must sign.

24.41.1.E Due Date of Additional Information

Additional information is due 30 days from the date of application.

24.41.1.F Application Processing Limits

Data system action to approve, deny, or withdraw the application must be taken within 30 days of the date of application.

24.41.1.G Beginning Date of Eligibility

The beginning date of Medicaid eligibility is the later of the following:

- The date of initial medical eligibility which is established by the BMS contract agency; or
- The date on which the applicant was approved for financial eligibility.

24.41.1.H The Benefit

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid
approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.

I/DD waiver services will only be paid on or after the I/DD waiver approval date.

**NOTE:** When the applicant’s eligibility for or enrollment in this program is pending he must not be refused the right to apply due to his pending status for the I/DD group, but must be evaluated for any or all Division of Family Assistance (DFA) programs.

### 24.41.2 REDETERMINATION PROCESS

I/DD cases are redetermined financially once a year. An interview is not required. The same financial criteria used at application applies at each annual redetermination.

The Worker receives an alert in the eligibility system when a redetermination is due. The Worker must manually schedule the redetermination for SSI and Deemed SSI I/DD waiver clients. SSI and Deemed SSI clients must complete the DFA-LTC-5 to complete an I/DD waiver redetermination.

Medical necessity must be verified annually at redetermination with a letter from the Utilization Management Contractor (UMC) stating the client continues to be eligible. If the client continues to meet financial and medical requirements, Medicaid eligibility for waiver services is established. Continued medical eligibility for services is monitored by the BMS.

Medicaid is continued when the case is in hearing status or an extension has been granted by the Office of I/DD Waiver Services in the BMS due to circumstances beyond the individual’s control.

Information about I/DD Waiver Services is found on the BMS website on the Office of Home and Community Based Services page. The I/DD Waiver application (WV-BMS-IDD-01) needed to determine medical eligibility can be found on the BMS website and on the DFA intranet forms page.
24.42 NOTIFICATION

24.42.1 CLIENT

Notification procedures in Chapter 9 are applicable.

24.42.2 CASE MANAGEMENT AGENCY (CMA)

The Worker notifies the CMA when:

- The client’s financial determination is made or the client’s receipt of Supplemental Security Income (SSI);
- The Intellectual and Developmental Disability (I/DD) Waiver case is approved and the date the client is eligible for services;
- The I/DD client becomes ineligible for any reason.

The case manager notifies the Worker when:

- An application is required;
- The client no longer requires I/DD waiver services.

24.42.3 OTHER

The Bureau for Medical Services (BMS) contract agency notifies the Community Services Manager (CSM) when the client’s medical necessity for I/DD waiver services is established.
24.43 CASE MAINTENANCE

24.43.1 COUNTY TRANSFER

When an Intellectual and Developmental Disability (I/DD) waiver client moves from one county to another, the case record must be transferred to the new county of residence.

24.43.2 CHANGES IN INCOME

When the client's income increases to above 300% of the Supplemental Security Income (SSI) payment level, he is no longer eligible for I/DD waiver services.

The Worker must:

- Notify the Bureau for Medical Services (BMS) for the ending date of eligibility for I/DD;
- Notify the client or his authorized representative by providing 13 days’ advance notice;
- Notify the case management agency;
- Update the eligibility system; and,
- Evaluate the client for all other Medicaid coverage groups.

24.43.3 CLOSURE/DENIAL

When an I/DD case is closed or denied and an application is taken for nursing facility services, no waiver services are covered under Medicaid.
24.44 ESTABLISHING MEDICAL NECESSITY

The Bureau for Medical Services (BMS) contract agency determines medical necessity for Intellectual and Developmental Disability (I/DD) waiver services.

The BMS contract agency notifies the Community Services Manager (CSM) by memorandum of the Notice of Decision, client’s name, and the date that medical necessity for I/DD waiver services was established.

Medicaid is continued when the case is in hearing status or an extension has been granted by the Office of I/DD waiver services in the BMS due to circumstances beyond the client’s control.
24.45 APPLICATION/REDETERMINATION

The West Virginia Department of Health and Human Resources (DHHR) Referral Form for Medicaid Traumatic Brain Injury (TBI) Waiver Program, Initiate Financial Eligibility (DHS-2.FRМ) must be presented to begin the TBI waiver financial eligibility determination process.

The DHS-2.FRМ form has two versions, one yellow and one white.

- The yellow DHS-2.FRМ instructs the Worker to determine financial eligibility. Financial eligibility is determined for the TBI waiver program before medical eligibility is initiated.
- The white DHS-2.FRМ, along with the Notice of Decision letter, confirms the client is medically-eligible and that a funded waiver slot is available for the TBI waiver program.

The steps in the application process are outlined in Section 24.45.2 below.

24.45.1 GENERAL APPLICATION PROCEDURES

24.45.1.A Application Forms

New applicants must apply for TBI waiver Medicaid using the DFA-MA-1, DFA-2, or DFA-SLA-1 and DFA-SLA-S1. Current Supplemental Security Income (SSI) and Deemed SSI clients must complete the DFA-LTC-5 form to evaluate for trusts, transfers, and annuities.

An interview is not required. If a face-to-face interview is requested by the client or their authorized representative, the appointment must be scheduled within 10 calendar days of the date of the contact. The appointment may be scheduled after 10 calendar days only at the request of the client or his authorized representative.

24.45.1.B Complete Application

The application is complete when the client or his authorized representative signs the appropriate application form which contains, at a minimum, the client’s name, address and signature.
24.45.1.C Date of Application

The date of application is the date the applicant submits an appropriate application form in person, by electronic transmission or by mail, which contains, at a minimum, his name, address and signature. When the application is submitted by mail or electronically, the date of application is the date that the form with the name, address, and signature is received in the local office.

24.45.1.D Who Must Sign

The application must be signed by the applicant, the spouse, or the authorized representative. See Section 24.4 for more information on authorized representatives. When the applicant is a child under age 18, the parent(s) or legal guardian must sign.

24.45.1.E Due Date of Additional Information

Additional information is due 30 days from the date of application.

24.45.1.F Application Processing Limits

Eligibility system action to approve, deny, or withdraw the application must be taken within 30 days of the date of application.

24.45.1.G Beginning Date of Eligibility

The beginning date of Medicaid eligibility is:

- The first day of the month that the client is financially eligible and the Worker receives notice that the client is medically-eligible and awarded a funded slot for waiver services; or
The first day of the month in which the individual is eligible for payment of TBI waiver services after a transfer of resources penalty expires. See Section 24.31.

### 24.45.1.H The Benefit

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.

TBI waiver services will only be paid on or after the TBI waiver approval date.

### 24.45.2 STEPS IN THE APPLICATION PROCESS

Steps in the application are as follows.

For Step One of the application process, the yellow DHS-2.FRM will originate from the TBI waiver Utilization Management Contractor (UMC). The current UMC contact information is found in Appendix E.

The yellow DHS-2.FRM may be submitted by the client or a case management agency and instructs the worker to determine financial eligibility. The client must also submit an appropriate Medicaid application form. General application procedures above must be followed.

### 24.45.2.A.1 Expired Yellow DHS-2.FRM
If the yellow DHS-2.FRM is expired, the Worker checks the box indicating it is expired and faxes the form back to the TBI waiver UMC.

### 24.45.2.A.2 Yellow DHS-2.FRM with Missing Expiration Date

If there is no expiration date on the yellow DHS-2.FRM, it should be faxed back to the UMC, noting there is no expiration date.

### 24.45.2.A.3 Current (Not Expired) Yellow DHS-2.FRM

If the yellow DHS-2.FRM is not expired:

- The Worker completes the financial eligibility determination following the general application procedures above. A Medicaid application must be received by the Worker prior to the DHS-2.FRM expiration date. However, the application process does not have to be completed prior to the expiration date.

- If the client does not submit an appropriate Medicaid application form with the yellow DHS-2.FRM, the Worker must send an application to the client.

- If the client does not submit the appropriate Medicaid application form prior to the yellow DHS-2.FRM expiration date, the Worker checks the box indicating the application was not completed and faxes the form back to the UMC.

### 24.45.2.A.4 Client Determined Financially Eligible for the TBI waiver

If the client is determined financially eligible for the TBI waiver:

- The Worker confirms the pending TBI waiver category. Financial eligibility for the TBI waiver category is pended up to 90 days in the data system awaiting verification of medical eligibility and availability of a funded TBI waiver slot. The client is notified by a system generated letter.

- The Worker checks the box on the yellow DHS-2.FRM indicating the client is financially eligible and faxes the form back to the UMC. This will initiate medical eligibility to be determined by the UMC.
24.45.2.A.5  Client Determined Financially Ineligible for the TBI waiver

If the client is determined financially ineligible for TBI waiver:

- The Worker checks the box on the yellow DHS-2.FRM indicating the client is ineligible and faxes the form back to the UMC.
- The Worker then evaluates for all other Division of Family Assistance (DFA) programs. The client will be sent a denial letter by the eligibility system.

24.45.2.B  Step Two: Receipt of the DHHR Referral Form for Medicaid Traumatic Brain Injury Waiver Program (DHS-2.FRM) WHITE FORM

For Step Two of the application process, the white DHS-2.FRM, along with the Notice of Decision letter, confirms to the Worker the client was determined medically-eligible and awarded a funded slot for the TBI waiver program.

The white DHS-2.FRM originates from a case management agency if the client chooses the traditional service delivery model or the personal options delivery model.

24.45.2.B.1  Expired White DHS-2.FRM

If the white DHS-2.FRM form is expired, the Worker checks the box indicating it is expired and faxes the form back to the originating agency. Medicaid is not approved.

24.45.2.B.2  White DHS-2.FRM with Missing Expiration Date

If there is no expiration date on the white DHS-2.FRM, it should be faxed back to the originating agency, noting there is no expiration date. Medicaid is not approved.

24.45.2.B.3  Current (Not Expired) White DHS-2.FRM

If the white DHS-2.FRM is not expired:
• The Worker updates financial eligibility.
  o If TBI waiver financial eligibility was determined in the last 90 days and is in pending status, the Worker updates the system and approves Medicaid TBI waiver program eligibility.
  o If more than 90 days have passed since financial eligibility was determined, the client must be reevaluated for financial eligibility. The Medicaid TBI waiver is not approved. The client must submit a new application prior to the expiration date on the white form.

• The Worker checks the appropriate box on the white DHS-2.FRM indicating whether the client is eligible or ineligible for Medicaid TBI waiver and faxes the form back to the originating agency.

• The client has only 60 days after acquiring a waiver slot to establish eligibility and be enrolled in the waiver program, or they will lose their slot. Timely financial eligibility determinations are critical.

NOTE: When the applicant’s eligibility for, or enrollment in, this program is pending, due to the lack of a waiver slot or other reason, he must not be refused the right to apply due to his pending status for the TBI waiver group, but must be evaluated for any or all DFA programs.

**TBI Application Example:** Mr. Beech applies for the TBI waiver, which requires a medical eligibility decision by the TBI waiver program and a financial determination by an Income Maintenance Worker. While his medical eligibility decision is pending, he visits his local DHHR office and applies for the Supplemental Nutrition Assistance Program (SNAP). Although his medical eligibility for the TBI waiver has not been determined and a financial determination cannot be made by the Worker for the TBI waiver, his pending status for this program does not prevent his evaluation for all other Medicaid groups or DFA programs for which he may qualify.

24.45.3 WAIVER APPLICANTS CURRENTLY RECEIVING MEDICAID PAYMENT FOR NURSING FACILITY SERVICES

For TBI waiver applicants currently receiving Medicaid payment for nursing facility services, the following steps are used.
24.45.3.A  Step One: Receipt of the DHHR Referral Form for Medicaid Traumatic Brain Injury Waiver Program, Initiate Financial Eligibility (DHS-2.FRM) YELLOW FORM

The yellow DHS-2.FRM instructs the Worker to determine financial eligibility. The Worker must first evaluate the client’s financial eligibility based on the current information in the case record.

Clients currently receiving Medicaid payment for nursing facility services in the Nursing Facility coverage group, or as an SSI or Deemed SSI recipient, have been determined financially eligible and are not required to complete a new Medicaid application upon receipt of the yellow DHS-2.FRM.

All other clients currently receiving Medicaid payment for nursing facility services must submit an appropriate waiver application form prior to the expiration date on the yellow DHS-2.FRM.

24.45.3.A.1  Expired Yellow DHS-2.FRM

If the yellow DHS-2.FRM is expired, the Worker checks the box indicating it is expired and faxes the form back to the TBI waiver UMC.

24.45.3.A.2  Yellow DHS-2.FRM with Missing Expiration Date

If there is no expiration date on the yellow DHS-2.FRM, it should be faxed back to the UMC, noting there is no expiration date.

24.45.3.A.3  Current (Not Expired) Yellow DHS-2.FRM

If the yellow DHS-2.FRM is not expired:

- If the client is currently receiving Medicaid in the Nursing Facility, SSI or Deemed SSI coverage group, the Worker checks the box on the yellow DHS-2.FRM indicating the client is financially eligible and faxes the form back to the UMC. This will initiate medical eligibility to be determined by the UMC.

- If not currently financially eligible, the Worker completes the financial eligibility determination following the general application procedures above. A Medicaid
application must be received by the Worker prior to the DHS-2.FRM expiration date, if applicable. However, the application process does not have to be completed prior to the expiration date.

- If the client does not submit an appropriate Medicaid application form with the yellow DHS-2.FRM the Worker must send an application to the client.
- If the client does not submit the appropriate Medicaid application form prior to the yellow DHS-2.FRM expiration date, the Worker checks the box indicating the application was not completed and faxes the form back to the UMC.

---

### 24.45.3.B Step Two: Receipt of the DHHR Referral Form for Medicaid Traumatic Brain Injury Waiver Program (DHS-2.FRM) WHITE FORM

The white DHS-2.FRM, along with the Notice of Decision letter, confirms to the Worker the client was determined medically-eligible and awarded a funded slot for the TBI waiver program.

---

#### 24.45.3.B.1 Expired White DHS-2.FRM

If the white DHS-2.FRM form is expired:

- The Worker checks the box indicating it is expired and faxes the form back to the originating agency. Medicaid coverage for nursing facility services continues if all requirements are met.
- If there is no expiration date on the white DHS-2.FRM, it should be faxed back to the originating agency, noting there is no expiration date. Medicaid coverage for nursing facility services continues if all requirements are met.

---

#### 24.45.3.B.2 Current (Not Expired) DHS-2.FRM

If the white DHS-2.FRM is not expired:

- The Worker approves eligibility in the TBI waiver category upon notification the client has been discharged from the nursing facility.
- The Worker checks the appropriate box on the white DHS-2.FRM indicating whether the client is eligible or ineligible for Medicaid TBI waiver and faxes the form back to the originating agency.
The client has only 60 days after acquiring a waiver slot to establish eligibility and be enrolled in the waiver program, or they will lose their slot. Timely financial eligibility determinations are critical.

### 24.45.4 Redetermination Process

A redetermination of eligibility is completed once a year; a face-to-face interview is not required. The Worker receives an alert in the eligibility system when a redetermination is due. The Worker must manually set an alert to schedule the redetermination for SSI and Deemed SSI waiver clients.

The same financial criteria used at application applies at each annual redetermination. Medical necessity must be verified annually at redetermination with a Notice of Decision letter or document from the UMC stating the client continues to be eligible. If the client continues to meet financial and medical requirements, Medicaid eligibility for waiver services is established. Continued medical eligibility for services is monitored by the Bureau for Medical Services (BMS).
24.46 NOTIFICATION

24.46.1 CLIENT

Notification procedures in Chapter 9 are applicable.

24.46.2 CASE MANAGEMENT AGENCY (CMA)

At application, the Worker sends a copy of the completed white DHS-2.FRM to the originating agency within 30 days of completion of the application. This notifies the originating agency of the financial eligibility decision and provides them with the Medicaid ID. The Worker retains a copy of the completed DHS-2.FRM for the case record.

The Worker must also notify the originating agency when a Traumatic Brain Injury (TBI) waiver client becomes ineligible for any reason, using the original form DHS-2.FRM, a DHS-1, or a free-format letter.
24.47 CASE MAINTENANCE

24.47.1 COUNTY TRANSFER

When a Traumatic Brain Injury (TBI) waiver client moves from one county to another, the case record must be transferred to the new county of residence.

24.47.2 CHANGES IN INCOME

When the client's income increases to above 300% of the Supplemental Security Income (SSI) payment level, he is no longer eligible for TBI waiver services.

The Worker must:

- Notify the case management agency (CMA) or the Bureau for Medical Services (BMS) contract agency listed in Appendix E;
- Notify the client or his authorized representative by providing 13 days’ advance notice;
- Update the eligibility system; and,
- Evaluate the client for all other Medicaid coverage groups.

24.47.3 CHANGE IN MEDICAL CONDITION

When the client's medical condition improves to the extent that TBI services are no longer required, he is ineligible for the TBI coverage group. If this is the method by which he qualified for Medicaid, he must be evaluated for all other Medicaid coverage groups. TBI services are no longer paid under Medicaid.

If the TBI client’s condition changes to the extent that care in a nursing facility is required, the following conditions must be met before Medicaid can pay for nursing facility services:

- A valid Pre-Admission Screening (PAS) was completed on the date the client entered the nursing facility or within the 60-day period prior to entering the facility.
- The post-eligibility process to determine the client's contribution to his cost of care was completed. See Section 24.7 for instructions.
• All notification procedures outlined in Section 17.6 were followed.

• The redetermination cycle remains the same for the assistance group (AG). When this change occurs in the month of redetermination, it must be completed at the same time as the change from TBI to nursing facility services.

• When the individual is under age 65 and does not receive a disability benefit or meet any other criteria specified in Section 13.4, disability must be established by MRT. See Section 24.12.
24.48 ESTABLISHING MEDICAL NECESSITY

Medical necessity is determined by the Bureau for Medical Services (BMS) Utilization Management Contract (UMC) agency. When the UMC sends the white DHS-2.FRM, along with the Notice of Decision letter, medical necessity is presumed to be determined.

The Worker has responsibility in this process to obtain the letter from the UMC as verification of medical eligibility at application and redetermination.

The BMS, UMC, or case manager notifies the Worker when a client no longer has a medical necessity for Traumatic Brain Injury (TBI) waiver services.
24.49 INTRODUCTION

The Children with Disabilities Community Service Program (CDCSP) is a West Virginia optional Medicaid eligibility category that allows a child under the age of 18 with a severe disability who is eligible to receive necessary medical services while residing in their family (natural or adoptive) homes or communities. The medical services must be more cost-effective for the State than placement in a medical institution, such as a nursing home, intermediate care facility for individuals with intellectual disabilities (ICF/IID), acute care hospital, or approved Medicaid psychiatric facility for children under the age of 21.

This coverage group allows children to remain with their families by providing medical services in the home or community that are more cost-effective than care in a medical institution. It also eliminates the requirement that the income and assets of parents and/or legal guardians be deemed to the children.

A child is eligible for Medicaid as a CDCSP client when all of the following conditions are met:

- The child has not attained the age of 18.
- The child has been denied Supplemental Security Income (SSI) eligibility or appears to be ineligible for SSI eligibility because the income and assets of his parent(s) were deemed to him, and as a result, the SSI income or asset eligibility test was not met.
- The child’s own gross income does not exceed 300% of the SSI payment level.
- The child has been determined to require a level of care provided in a medical institution, nursing home, ICF/IID, hospital, or psychiatric facility.
- He is expected to receive the necessary services at home or in the community.
- The estimated cost of services is no greater than the estimated cost of institutionalization.
- The child would be eligible for an SSI payment if in a medical institution.

**NOTE:** The Worker must refer the family to the Social Security Administration (SSA) to apply for SSI if the family has not done so already, even though the Worker may be able to determine that the SSA would deny the child as a result of deeming the parents’ income and/or assets.
The Worker must then obtain a copy of the SSI denial letter and retain it in the case record.

The Bureau for Medical Services (BMS) Long Term Care (LTC) Unit determines medical eligibility and notifies the local office and the case management agency of the decision in writing. Refer to Chapter 13 for details about determining medical eligibility.
24.50 APPLICATION

24.50.1 GENERAL APPLICATION PROCEDURES

24.50.1.A APPLICATION FORMS

The Application for Benefits (DFA-2), the Application for Long Term Care Medicaid and Children with Disabilities Community Service (DFA-MA-1), or the Application for Healthcare Coverage (DFA-SLA-1) with the Supplement for Healthcare Coverage (DFA-SLA-S1) is acceptable. Applications may also be submitted via inROADS.

When medical eligibility for the Children with Disabilities Community Service Program (CDCSP) is established by the Bureau for Medical Services (BMS) and the Case Management Agency (CMA), a memorandum is sent to the Community Services Manager (CSM). The memorandum is given to the Worker who, with the completed application, determines financial eligibility.

The client must verify he has been denied Supplemental Security Income (SSI).

The following information is provided solely for the understanding of the process and not the responsibility of the worker:

- Additional forms related to medical eligibility and cost of services must also be completed as part of the eligibility determination process. This information is sent directly to the BMS by the CMA. See Section 24.55.

- BMS determines the annual cost of institutionalization, the annual cost of in-home care under the CDCSP, and the cost of the type of services necessary for the child to decide the cost-effectiveness of the proposed in-home plan.

- CDCSP-2A or 2B: This is the medical form the child's physician uses to submit necessary information to allow a determination of medical eligibility.

- CDCSP-6: This is the cost estimate worksheet for medical services that must be completed and used by the CMA to:
  - Assure the program plan is cost feasible (e.g., community services cost less than placement in a medical institution).
Follow through with the school system, healthcare providers, and other agencies to assure that the community services are implemented and consistently remain cost-effective.

Develop the Program Plan: The program plan must be developed by an interdisciplinary team (IDT) consisting of the child, family or legal representative, service providers, advocates, professionals, paraprofessionals, and other stakeholders needed to ensure the delivery of the necessary level of services. This contains the same elements of the State DD-5 form.

Provide additional evaluations: Additional evaluations, as appropriate, to determine medical eligibility and services for the specific disability group, such as psychological or psychiatric reports, social assessments, discharge plan, etc.

When an applicant's medical eligibility for, or enrollment in, this program is pending, he must not be refused the right to apply for any or all Division of Family Assistance (DFA) programs.

24.50.1.B COMPLETE APPLICATION

The application is complete when the parent(s) or legal guardian signs the DFA-2, DFA-MA-1, or DFA-SLA-1 with the DFA-SLA-S1 application that contains, at a minimum, the client's name and address. When the applicant submits his application by inROADS, the application is considered complete when the application is signed electronically.

24.50.1.C DATE OF APPLICATION

The date of application is the date the parent(s) or legal guardian submits the DFA-2, DFA-MA-1, or DFA-SLA-1 with the DFA-SLA-S1 application, in person, by fax, or by other electronic transmission or by mail, that contains—at a minimum—his name, address, and signature. When the application is submitted by mail or fax, the date of application is the date that the form with the name, address, and signature is received in the local office. Applications can also be submitted by other

NOTE: When a faxed copy or other electronic transmission of an application is received that contains a minimum of the applicant’s name, address, and signature, it is considered an original application, and no additional signature is required.
electronic transmission. When the application is submitted using inROADS, the date of application is the date the application is submitted.

**NOTE:** If the applicant completed the interactive interview and there is a technical failure that prevents the printing of the DFA-2, Form DFA-5 must be signed by the applicant, and attached and filed in the case record with the subsequently printed DFA-2. Form DFA-RR-1 must also be completed and signed. He must not be required to return to the office to sign the DFA-2 when the DFA-5 has been signed.

---

### 24.50.1.D INTERVIEW

No interview is required.

---

### 24.50.1.E WHO MUST SIGN

The parent(s) or legal guardian of the child must sign the application. When a complete faxed or scanned application is received, no additional signature is required.

---

### 24.50.1.F AGENCY TIME LIMITS

The agency must take action to approve, deny, or withdraw the application within 30 days of the date of application.

The Worker must give the parent(s) or legal guardian at least 10 days for the information to be returned.

---

### 24.50.1.G AGENCY DELAYS

When the Department of Health and Human Resources (DHHR) fails to request necessary verification, the Worker must immediately send a verification checklist or form DFA-6 to request it. He must inform the client that the application is being held pending. When the verification is
received, and the client is eligible, medical coverage is retroactive to the time eligibility would have been established had the DHHR acted in a timely manner.

Reimbursement for out-of-pocket expenses may apply. See Chapter 10.

---

24.50.1.H PAYEE

The CDCSP child is the payee.

---

24.50.1.I EFFECTIVE DATES OF ELIGIBILITY

Eligibility is retroactive to the later of these two dates:

- The date of medical need, established by the BMS, and conveyed by memorandum to the CSM; or
- The date all eligibility requirements were met, up to three months prior to the application date.

Eligibility ends the last day of the effective calendar month of closure.

---

24.50.1.J THE BENEFIT

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.
24.50.2 REDETERMINATION

The Children with Disabilities Community Service Program (CDCSP) redetermination process is the same as the CDCSP application process, with the following exceptions:

A redetermination of financial eligibility is completed annually. The Worker must notify the health care provider (e.g., behavioral health center, childcare agency, early intervention program) that is providing case management services, and the family or legal guardian, when the case is due for redetermination.

Medical eligibility must be redetermined annually by the Bureau for Medical Services (BMS). The case does not continue to be eligible after the redetermination unless both financial and medical eligibility are redetermined.

24.50.2.A DATE OF REDETERMINATION

There is a 12-month redetermination cycle for the CDCSP assistance groups (AGs). The eligibility system generates the redetermination form.
24.51 COMMON ELIGIBILITY REQUIREMENTS

Children with Disabilities Community Service Program (CSCSP) coverage groups use the same common eligibility requirements as Supplemental Security Income (SSI)-Related Medicaid. See Chapter 2.
24.52 ELIGIBILITY DETERMINATION GROUPS

24.52.1 THE ASSISTANCE GROUP (AG)

Only the Children with Disabilities Community Services Program (CDCSP) child is included in the AG.

24.52.2 THE INCOME GROUP (IG)

Only the CDCSP child’s income is counted. Income of the parent(s) is not deemed or counted in any way.

24.52.3 THE NEEDS GROUP (NG)

Only the CDCSP child’s needs are considered.
24.53 INCOME

The determination of which income sources to count is the same as Supplemental Security Income (SSI)-Related Medicaid. See Chapter 4. No income is deemed to the Children with Disabilities Community Service Program (CDCSP) client. The client's monthly gross countable income must be equal to or less than 300% of the maximum (SSI) payment for a single individual to be Medicaid-eligible. There is no post-eligibility process for this coverage group.

NOTE: The spenddown provision does not apply.

24.53.1 INCOME DISREGARDS AND DEDUCTIONS

No income disregards or deductions are applied to the child's countable income.

24.53.2 DETERMINING FINANCIAL ELIGIBILITY

The Worker determines the child's own total countable income from all sources and compares it to 300% of the SSI payment level. If the income is equal to or less than 300% of the SSI payment level, the child is financially eligible.
24.54 ASSETS

The determination of countable assets is the same as for Supplemental Security Income (SSI)-Related Medicaid. See Chapter 5.

Assets are not deemed for this group.

Only the child’s assets are counted.

The asset limit for one person is used.

The asset limit for Children with Disabilities Community Services Program (CDCSP) is $2,000.
24.55 NOTIFICATION

Notification procedure in Chapter 9 are applicable.
24.56 CASE MAINTENANCE

24.56.1 COUNTY TRANSFER

When a Children with Disabilities Community Service Program (CDCSP) client moves from one county to another, the case record must be transferred to the new county of residence.

24.56.2 CHANGES IN INCOME

When the client's income increases to above 300% of the Supplemental Security Income (SSI) payment level, he is no longer eligible for CDCSP. The Worker must:

- Notify the case management agency;
- Notify the client or his authorized representative by providing 13 days’ advance notice;
- Update the eligibility system; and,
- Evaluate the client for all other Medicaid coverage groups.

24.56.3 CHANGE IN MEDICAL CONDITION

When the client's medical condition improves to the extent that institutional-level services are no longer required, he is ineligible for the CDCSP. He must be evaluated for all other Medicaid coverage groups.

24.56.4 CHILD REACHING AGE 18

At age 18, individuals must apply for SSI. If SSI-eligible, they receive SSI Medicaid and no longer receive coverage as a CDCSP client.

Individuals who reach age 18 continue to receive the services until approved for SSI or reach age 19, whichever occurs first.
No individual who has attained age 18 is approved for CDCSP at application.
24.57 ESTABLISHING MEDICAL NECESSITY AND COST EFFECTIVENESS

Information establishing medical necessity and cost effectiveness of services is sent directly to the Bureau for Medical Services (BMS) by the case management agency.

When medical eligibility for the Children with Disabilities Community Service Program (CDCSP) is established by the BMS, a memorandum is sent to the Community Services Manager (CSM).
24.58 BILLING PROCEDURES AND PAYMENT AMOUNTS

Payments to case management agencies are handled by the Department of Health and Human Resources' (DHHR') contract agency that handles provider services. All inquiries from case management agencies, service providers, or vendors about billing must be referred to Provider Services. See Appendix E.

</table>
APPENDIX B: PATIENTS’ RIGHTS

A policy statement setting forth the rights of patients and prohibiting their mistreatment or abuse is established and made available to staff, patients’ families, or legal representatives. Written policies and procedures ensure that each patient admitted to the facility is fully informed of his/her rights and responsibilities as a patient in the facility.

A. NOTICE OF RIGHTS

1. Inform each patient of all rules and regulations governing patient conduct and responsibilities. Such information must be provided prior to or at the time of admission or, in the case of patients already in the facility, upon the facility's adoption or amendment of resident right's policies, and its receipt must be acknowledged by the patient in writing. In the case of a mentally retarded individual or of a patient adjudged to be incompetent, the rights described in this provision shall be exercised by the individual's guardian or committee, as applicable under State Law, to act on the patient's behalf.

2. Encourage and assist the patient throughout the period of stay to exercise rights as a patient and a citizen and, to this end, to meet and organize with resident groups, voice grievances and recommend changes in policies and services to facility staff and/or to outside representatives of choice free from restraint, interference, coercion, discrimination, or reprisal.

3. Assist each patient to retain and use his/her personal clothing and possessions as space permits.

4. May not require the patient to perform services for the facility.

5. Assure participation in activities of social, religious and community groups at the patient's discretion unless contraindicated for reasons documented by a Qualified Mental Retardation Professional as appropriate in the patient record.

B. NOTICE OF CHARGES FOR SERVICES

1. Inform each patient in writing who is entitled to Medicaid, prior to or at the time of admission and periodically during the patient's stay, of services available in the facility and of related charges, including any charges for services not covered under the Medicaid Program, or not covered by the facility's basic per diem rate. Only charges by the facility for items or services that are allowable and consistent with the Medicaid Program regulations may be imposed.

2. Maintain admission policies and procedures which do not require patients to waive their rights to apply for Medicaid benefits and do not require third party guarantee of payment to the facility as a condition of admission to, or continued stay in the facility.
3. Provide information to each patient, patient's family, and/or patient's representative concerning the availability of assets assessments. Advise them that these assets assessments are available upon request at the county Department of Health and Human Resources (DHHR) office whether or not they are applying for Medicaid.

C. FREE CHOICE

Inform each patient of the right to choose a personal attending physician; to be fully informed by the physician of his/her health and medical condition unless medically contraindicated (as documented by a physician in the patient medical record) and of changes in care and treatment. The patient must be offered the opportunity to participate in the planning of his/her total care and medical treatment and participates in experimental research only upon his/her informed written consent.

D. TRANSFER AND DISCHARGE RIGHTS

Transfers and discharges are made only for medical reasons or for the patient's welfare or that of other patients or for nonpayment for stay in the facility, except as prohibited by the Medicaid Program. In a case where the patient's health improves sufficiently so that services provided by the facility are no longer needed, sufficient notice must be provided to the patient and/or family and for adequate discharge planning.

E. PROTECTION OF PATIENT FUNDS

Assure the patient's right to manage his/her personal financial affairs; except, upon written authorization by the patient, the facility will accept responsibility for managing and accounting for the patient's personal funds and records of such funds. A full and complete accounting must be made available to patients and their families, and is maintained on a current basis for each patient with written receipts for all personal possessions and funds received by or deposited with the facility and for all disbursements made to or on behalf of the patient.

F. FREEDOM FROM RESTRAINTS

1. Assurance of freedom from mental and physical abuse, corporal punishment, involuntary seclusion and freedom from chemical and physical restraints for the purpose of discipline or convenience. Restraints may only be imposed when authorized in writing by a physician for a specific period of time; or, when necessary in an emergency to protect the patient from injury to himself or to others, in which case restraints may be authorized by designated professional personnel who promptly report the action taken to the physician or qualified mental retardation professional for use during behavior modification sessions.

2. A mentally retarded individual participates in a behavior modification program involving use of restraints or aversive stimuli only with the informed consent of his parent or guardian.
G. CONFIDENTIALITY

1. Ensure confidential treatment of all information contained in patient records including information contained in an automatic data bank; and obtain the patient's written consent for the release of information to persons not otherwise authorized under law to receive it.

2. Permit the patient access to his medical records in accord with State law.

H. PRIVACY

1. Assure each patient is treated with consideration, respect, and full recognition of his/her dignity and individuality including privacy in treatment and in care for his personal needs.

2. Ensure the patient's right to communicate, associate, and meet privately with persons of choice unless to do so would infringe upon the rights of other patients, and to send and receive personal mail unopened or censored.

3. Permit access to any patient representatives of the Secretary, DHHR, or the State, officially designated Ombudsman, and the patient's attending physician, consistent with State and federal law; and permit access to any patient by the immediate family, or other relatives, subject to the patient's right to deny or withdraw consent at any time; and permit reasonable access to a patient by any entity or individual that provides social or legal services to the patient, subject to the patient's right to deny or withdraw consent at any time.

4. Ensure privacy for spousal visits, and if both are residents in the facility, they are permitted to share a room.

I. RIGHTS OF INCOMPETENT PATIENTS

Written policies provide that all rights and responsibilities of the patient devolve to the patient's guardian, next of kin, or sponsoring agency, where:

1. A patient is adjudicated incompetent in accordance with State law; and

2. His physician or, in the case of a mentally retarded individual, a qualified mental retardation professional has documented in the patient's record the specific impairment that has rendered the patient incapable of understanding these rights.
**APPENDIX C: PERIOD LIFE TABLES (HISTORICAL)**

Historical – For use for annuities purchased prior to February 8, 2006 only.

## APPENDIX F: LONG TERM CARE INSURANCE PARTNERSHIP (LTCIP) STATES’ IMPLEMENTATION DATES

### EFFECTIVE DATE
The date that the U.S. Department of Health & Human Services approves the State Plan Amendment. Original Partnership indicates one of the four original Partnership States.

### RECIPROCITY
Whether or not the State will honor partnership policies from other DRA partnership states when it comes to allowing asset disregard when filing for Medicaid. All DRA states plus New York, Indiana and Connecticut have reciprocity. California does not.

25.1 INTRODUCTION

25.1.1 DEFINITION OF BUY-IN

The Department of Health and Human Resources (DHHR) “buys in,” or pays, the Medicare Part A and/or Part B premium for certain Medicaid clients who are also eligible for Medicare. This procedure is referred to as the buy-in process.

25.1.2 MEDICARE BUY-IN UNIT

The Bureau for Medical Services (BMS) Medicare Buy-In Unit is responsible for the buy-in process. This process is a joint effort of the Social Security Administration (SSA) and BMS. SSA initiates the process for Supplemental Security Income (SSI) eligibles by identifying those who qualify, and bills the DHHR monthly for the total premium. The DHHR initiates the process for individuals in all other Medicaid coverage groups who are eligible for Medicare.

The Buy-In Unit ensures buy-in for all clients who qualify, and that the DHHR is not being charged for premiums for those who are not eligible, or those who are not residents of the State.

25.1.3 MEDICARE PROGRAM

25.1.3.A Definition

Medicare is a federal insurance program that helps pay health care costs for people age 65 or older, regardless of income, and certain individuals receiving Retirement, Survivors, and Disability Insurance (RSDI) benefits based on disability.

Medicare is the same in all states and is administered by the SSA. SSA makes all decisions regarding eligibility for Medicare.
25.1.3.B Medicare Parts A, B, and D

The following benefits are available to Medicare enrollees:

- **Medicare Part A – Hospitalization Insurance Benefits (HIB)**
  The Buy-In Unit controls the purchasing and payment of Part A premiums for all uninsured eligibles. The State is billed for the Part A premiums for all Medicare eligibles who are not eligible for premium-free Medicare Part A because they lack the necessary quarters of coverage, have enrolled voluntarily, and pay a premium.

- **Medicare Part B – Supplementary Medical Insurance Benefits (SMIB)**
  An individual enrolled in Part B pays a monthly premium. If he is receiving RSDI or Railroad Retirement Board (RRB) Benefits, the premium is deducted from his benefit; otherwise, he must pay the premium from his income.

See Chapter 25.2 below for a list of those for whom the DHHR buys in.

- **Medicare Part D – Medicare Prescription Drug Benefit**
  An individual who is already enrolled in Medicare Part A or Part B may receive the Medicare Prescription Drug Benefit. The Part D Prescription Drug Benefit is not administered by the SSA. The benefit is obtained by enrolling in a Prescription Drug Plan (PDP). Enrollees must pay a monthly premium, unless financially qualified for extra help, also known as the Low Income Subsidy (LIS). The LIS pays all or part of the drug benefit premium, co-pays, and deductibles that may be required. Workers must assist individuals who request it to complete an application for the LIS. The application must be submitted on an original Social Security form (SSA-1020-OCR-SM) or submitted on the internet using the SSA website.

Medicaid clients enrolled in Medicare automatically qualify for LIS and are automatically enrolled in a PDP. With a few exceptions, Medicaid will not pay for prescription drugs for individuals age 65 or over who are eligible for, and do not enroll in, a PDP. This also applies to Medicare enrolled individuals under age 65 who are identified by DHHR.

Additional information about the PDP and LIS are available at the SSA and Medicare websites.
25.2 ELIGIBLE INDIVIDUALS

The Department of Health and Human Resources (DHHR) buys in for clients in the following Medicaid categories when they are eligible for Medicare. See Chapter 23 for more detail on Medicaid eligibility categories.

- Supplemental Security Income (SSI) Recipients
  - SSI recipients who are age 65 or older and who are enrolled in Medicare Part B
  - SSI recipients who are under age 65 and who have been receiving monthly Social Security Administration (SSA) Disability or Railroad Retirement Board (RRB) Benefits under Title II of the Social Security Act for 24 months

- Deemed SSI Recipients
- Qualified Medicare Beneficiary (QMB)
- Specified Low-Income Medicare Beneficiary program (SLIMB)
- Qualified Individual-1 (QI-1)
- Qualified Disabled Working Individuals (QDWI)
25.3 SPECIAL PROCEDURES

25.3.1 NECESSARY CONDITIONS FOR BUY-IN

In order for the Department of Health and Human Resources (DHHR) to buy-in for a client, the following conditions must be met:

- He must be eligible for, and enrolled in, Medicare.
- He must have an active case in the eligibility system.
- His full name, birthdate, sex, and Social Security claim number (CAN) must match those shown on the Master Beneficiary Records, received by the Buy-In Unit.

25.3.2 BUY-IN PROCESS FOR SSI RECIPIENTS

The Worker has no responsibility other than acting as requested by the Medicare Buy-In Unit.

25.3.2.A SSA Responsibilities

The Social Security Administration (SSA) is responsible for enrolling Supplemental Security Income (SSI) recipients who qualify for Medicare.

The Centers for Medicare and Medicaid Services (CMS) provides information about these SSI recipients to the DHHR on a monthly Master Buy-In file.

25.3.2.B Termination of Buy-In

Buy-in for an individual is terminated under any of the following circumstances:

- Death
Upon becoming ineligible for SSI and not qualifying for a Deemed SSI group
Upon losing entitlement to Medicare due to the loss of disability
Upon becoming a resident of another state

NOTE: When the individual who loses SSI Medicaid qualifies for a Deemed SSI group, or for Qualified Medicare Beneficiary (QMB), Specified Low-Income Medicare Beneficiary (SLIMB), or Qualified Individual-1 (QI-1) coverage, the Worker must notify the Medicare Buy-In Unit so that buy-in will continue without interruption.

The Worker must close the SSI Medicaid case when the buy-in is terminated. If an individual is deleted from buy-in, and the Worker has not taken the appropriate action, the Worker will receive a system alert.

25.3.3 BUY-IN PROCESS FOR ALL OTHER ELIGIBLE MEDICAID GROUPS

The DHHR pays the Medicare premiums for those persons specified in Chapter 25.2.

25.3.3.A Buy-In Unit's Responsibilities

The Buy-In Unit must:
- Add eligible individuals to the Buy-In Master List Tape.
- Delete ineligible individuals.

25.3.3.B Worker's Responsibilities

The Worker must:
- Identify individuals eligible for Medicare and verify enrollment.
- Correctly code the Medicare Claim Number in the eligibility system.
- Update the client case when changes occur. This results in notification to the Buy-In Unit of any change that affects a client's buy-in status.

26.1 INTRODUCTION

The Medicaid Work Incentive (M-WIN) is a full coverage Medicaid group was established by West Virginia Senate Bill 388. M-WIN assists individuals with disabilities in becoming independent of public assistance by enabling them to enter the workforce without losing essential medical care. Being eligible for, or enrolled in other health insurance coverage, including Medicare, does not prevent eligibility for M-WIN.

The M-WIN coverage group operates similarly to health insurance by offering coverage upon receipt of an initial enrollment fee and payment of monthly premiums for ongoing enrollment.

This chapter outlines the specific guidelines for determining eligibility for this group.
26.2 SPECIFIC M-WIN REQUIREMENTS (Code: MP G Reason 707 or 708)

26.2.1 FINANCIAL

**Income:** 250% of the Federal Poverty Level (FPL) – When Unearned Income is at or below the Supplemental Security Income (SSI) Payment Level.

No spenddown provision.

**Assets:** $2,000 – Individual; $3,000 – Individual with Spouse.

26.2.2 AGE

The applicant must be at least age 16, but not yet age 65.

26.2.3 DISABILITY

The applicant must be disabled as defined by the Social Security Administration (SSA). The SSA or the State Medical Review Team (MRT) may determine the disability. Disability, for this coverage group, is defined as a medically determined physical or mental condition that has lasted, or is expected to last, a year or more, or is expected to result in death. The disability definition for individuals under age 18 is found in Section 13.2.1.B.

26.2.4 EMPLOYMENT

The applicant must be engaged in competitive employment. There is no minimum number of hours a client must be employed for M-WIN eligibility. Competitive employment includes self-employment and non-traditional work which is compensated at or above the federal minimum hourly wage in a setting that also includes, or could include, non-disabled individuals.
This does not include settings such as sheltered workshops if less than minimum wage is paid. However, certain sheltered workshops have contracts offering employment both inside and outside the sheltered workshop setting. Individuals employed through a sheltered workshop contract working on an outside contract are paid at or above the federal minimum wage and are engaged in competitive employment alongside others without disabilities.

### 26.2.5 ENROLLMENT FEE AND PREMIUM PAYMENT

Each eligible applicant must pay a $50 enrollment fee. Once the assistance group (AG) is approved, an ongoing monthly premium payment will be required. Upon payment of the enrollment fee, the first month’s premium is waived. In the following months, the client must make the premium payment by the premium due date for continued enrollment.

Except in the case of agency error, the enrollment fee must be paid each time the client loses coverage under this program for any reason. This includes, but is not limited to, non-payment of the monthly premium, failure to complete a redetermination of eligibility, or voluntary disenrollment. When an enrollment fee payment is returned for insufficient funds, this is considered as non-payment.

#### 26.2.5.A Enrollment Fee

##### 26.2.5.A.1 Notification

After eligibility is established, the Worker must notify the applicant that he meets all program requirements, except payment of the enrollment fee. The Worker must follow specific eligibility system instructions exactly found in desk guides to create the correct enrollment fee notification letter and enrollment fee payment stub the client must enclose with the payment.

The notice must include the following information:

- The amount of the enrollment fee
- The requirement that the enrollment fee must be received within 60 days of the date of the notice or the application will be denied
- The amount of the ongoing monthly premium
Instructions to mail a check or money order for the enrollment fee made payable to the State of West Virginia with the enclosed enrollment fee payment stub to:

West Virginia Department of Health and Human Resources (DHHR)
P. O. Box 40288
Charleston, WV 25364

The Worker’s name
Notice that the first month of coverage will be the month following the month the enrollment fee is received

The applicant’s personal identification number (PIN). This appears on the enrollment fee payment stub, which is attached to the applicant’s method of payment and returned to the DHHR address above for proper credit of payment.

The Worker sends a copy of the enrollment fee notification letter to the contract agency the same day it is issued to the applicant. See Appendix B of this chapter for the contact information of the contract agency.

### 26.2.5.A.2 Payment

It is the responsibility of the contract agency to notify the Worker when the enrollment fee is paid, not paid, or returned for insufficient funds.

If the Worker does not receive notice of the enrollment fee payment within 60 days of the date of the eligibility notice, the AG is denied.

When the Worker receives confirmation of the applicant’s payment of the enrollment fee, he codes the AG in the eligibility system.

The contract agency does not accept advance payments for anticipated enrollment fees. The contract agency must return any advance payments received to the applicant.

### 26.2.5.A.3 Refund

Once an enrollment fee is paid and the M-WIN benefit received, the contract agency cannot refund the enrollment fee payment. See EXCEPTION below.
Anticipated Enrollment Payment Example 1: Ms. Pine pays her $50 enrollment fee. The contract agency notifies the Worker of her payment. Before the Worker confirms the AG, Ms. Pine contacts the Worker, explaining she found enough old medical bills to meet a spenddown. She requests SSI-Related Medicaid rather than M-WIN. Because she has no other medical bills remaining, she requests the contract agency retain her enrollment fee to apply against a future M-WIN period of eligibility. Ms. Pine does not know if she will incur additional medical bills in the next six months or if she will be working. The contract agency refunds her enrollment fee.

Anticipated Enrollment Payment Example 2: Same situation as above, except Ms. Pine contacts her Worker after the AG is confirmed and the M-WIN benefit issued. Because the Worker explained the advantages of both M-WIN and SSI-Related Medicaid, documented Ms. Pine’s choice of M-WIN, and she received the M-WIN benefit, no refund is given.

**EXCEPTION:** The contract agency can reimburse the client only when he pays the enrollment fee solely due to an agency error. The BMS Policy Unit must request and approve the refund.

Agency Error Example: Same situation as in the example above. The Worker failed to explain that Ms. Pine was potentially eligible for both M-WIN and SSI-Related Medicaid. Ms. Pine learns she would not have a monthly premium if she had chosen SSI-Related Medicaid. She had old medical bills that had never been used to meet a spenddown. Because the Worker failed to follow the policy requirement regarding explanation of eligible coverage groups, the enrollment fee was paid as a result of DHHR error. The Bureau for Medical Services (BMS) Policy Unit contacts the contract agency and requests reimbursement.

### 26.2.5.B Monthly Premium Payments

When the enrollment fee is paid, the first month’s premium is waived. The following and subsequent months require a premium payment for enrollment to continue.
26.2.5.B.1 Notification

The contract agency sends premium due letters and payment stubs to M-WIN clients on approximately the second day of the month in which the premium is due. To ensure proper credit of payment, the client must mail the stub and payment in the window envelope provided addressed to:

DHHR-Medicaid
P. O. Box 40288
Charleston, WV 25364

26.2.5.B.2 Payment

Premium payments are due the 16th of the coverage month and are considered overdue if not received by the 26th of the coverage month.

Local and State offices do not accept Premium payments.

The contract agency does not accept advance payments for future anticipated premium payments. They are returned.

**Anticipated Premium Payment Example:** Mr. Rosemary receives his federal income tax refund. He sends the remainder of his premiums for his current period of eligibility and the next six month’s premiums to the contract agency. These are returned because the Worker cannot assume Mr. Rosemary’s premiums will remain the same or that he will be eligible for M-WIN beyond his current six-month period of eligibility.

**NOTE:** Except in the case of agency error, the enrollment fee must be paid each time the client loses coverage under this program for any reason. This includes, but is not limited to, non-payment of the monthly premium, failure to complete a redetermination of eligibility, or voluntary disenrollment.

If the client reapplies after closure due to non-payment of a premium(s), he must pay the enrollment fee again, but is not required to pay the missed premium(s).

When M-WIN Medicaid benefits are continued due to a Fair Hearing request, the premium(s) must be paid for any continued month at the last established amount.
26.2.5.B.3 Refund of Payment

Once a monthly premium payment is paid and the M-WIN benefit is received, premium payments are not refunded by the contract agency. The M-WIN coverage group operates similarly to a health insurance plan with premiums not refunded when the benefit was received.

*EXCEPTION:* The contract agency can only reimburse the client for a monthly premium payment when payment occurs due to an agency error. The BMS Policy Unit must request and approve the refund.

26.2.5.B.4 Non-Payment of Premium/Insufficient Funds

When the premium payment is not received by the contract agency by the 26th of the coverage month, the contract agency staff notifies the local office by the 10th of the following month and the Worker sends the client advance notice of M-WIN closure for premium non-payment.

The contract agency also notifies the local office when premium payments are returned for insufficient funds. This is considered as non-payment. The AG is closed using the same procedures as for non-payment after advance notice.

The Worker must notify the contract agency of any subsequent AG closures.

**Overdue Premium Example:** Mr. Chive received M-WIN in March. He is mailed his premium due letter April 2 for the month of April. Payment is due April 16 and overdue April 26. If not received, the contract agency notifies the local office by May 10. The Worker sends advance notice to the AG that his last month of M-WIN is May. A new enrollment fee is necessary to reestablish coverage for June.
26.3 APPLICATION/REDETERMINATION PROCESS

26.3.1 APPLICATION FORMS

A DFA-2, the SLA-1 with supplement, SLA-2 with supplement, or inROADS is used.

A reapplication is treated as any other application except in situations when a new form is not required. See Section 1.2.

26.3.2 COMPLETE APPLICATION

The application is complete when the client or his representative submits an application that contains, at a minimum, the client's name and address, and signature.

26.3.3 DATE OF APPLICATION

The date of application is the date the applicant submits an application—in person, by fax or other electronic transmission, or by mail—that contains, at a minimum, his name, address, and signature. When the application is submitted by mail or fax, the date of application is the date that the form with the name, address, and signature is received in the local office.

26.3.4 WHO MUST SIGN

The application must be signed by the applicant or his authorized representative.

26.3.5 DUE DATE OF ADDITIONAL INFORMATION

Additional information is due 30 days from the date of application.
26.3.6 AGENCY TIME LIMITS

26.3.6.A Application Processing Limits

The Worker must process an M-WIN applicant's Medicaid application as soon as possible rather than within the maximum allowable time because the benefit is delayed until the month after the enrollment fee is received.

Agency time limits for this AG differ depending on how the disability was determined: by the Social Security Administration (SSA) prior to application or by the Medicaid Review Team (MRT).

<table>
<thead>
<tr>
<th>Required Action</th>
<th>Time Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>When the client meets all requirements except payment of the enrollment fee, the Worker must process the application in the eligibility system:</td>
<td>Disability Established by SSA: Within 30 days of the date of application</td>
</tr>
<tr>
<td></td>
<td>Disability Determined by MRT: Within 90 days of the date of application</td>
</tr>
<tr>
<td>When the client withdraws or is denied for a reason other than non-payment of the enrollment fee, the Worker must take eligibility system action:</td>
<td>Within 30 days of the date of application</td>
</tr>
<tr>
<td></td>
<td>Within 90 days of the date of application</td>
</tr>
<tr>
<td>The Worker must deny the application If the applicant failed to submit the enrollment fee:</td>
<td>Within 60 days of the date of the initial eligibility and notification sent</td>
</tr>
<tr>
<td></td>
<td>Within 60 days of the date of the initial eligibility and notification sent</td>
</tr>
<tr>
<td>The Worker must approve the eligibility the day he is notified that the client has paid the enrollment fee, if the enrollment fee is paid:</td>
<td>Within 60 days</td>
</tr>
<tr>
<td></td>
<td>Within 60 days</td>
</tr>
</tbody>
</table>

26.3.6.B MRT Processing Time Limits

To ensure the 90-day limit is met for MRT cases, the following time limits apply to the MRT process:

<table>
<thead>
<tr>
<th>Required Action</th>
<th>Time Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Request medical records and reports</td>
<td>By the 7th calendar day after application</td>
</tr>
<tr>
<td>Follow-up request(s) for medical records or reports</td>
<td>By 30 days after initial request, and each 30 days thereafter</td>
</tr>
<tr>

</tr>
<tr>
<td>Receipt of file and logged in by the MRT</td>
<td>By 2 days after receipt by the MRT</td>
</tr>
<tr>
<td>Initial review by the MRT staff</td>
<td>By 7th day after receipt</td>
</tr>
<tr>
<td>Physician's initial review</td>
<td>By 14th day after receipt</td>
</tr>
<tr>
<td>Additional medical information requested, if required, by physician</td>
<td>By 7th day after initial physician review</td>
</tr>
<tr>
<td>Physician's final review</td>
<td>By 7th day after receipt of additional medical information</td>
</tr>
<tr>
<td>Final decision and completion of ES-RT-3</td>
<td>By 7th day after final physicians review</td>
</tr>
<tr>
<td>File returned to county office</td>
<td>By 3rd day after final review decision</td>
</tr>
<tr>
<td>Notice to the client</td>
<td>By 7th day after receipt of final decision at county office</td>
</tr>
</tbody>
</table>

**NOTE:** The 90-day processing time limit concludes with the date client notification is mailed, not the date of the eligibility system action.

26.3.7 AGENCY DELAYS

If the Department of Health and Human Resources (DHHR) failed to request necessary verification, the Worker must immediately send a verification checklist or form DFA-6 to the applicant and note that the application is pending.
If the Department delayed requesting necessary verification or acting on the information already received, benefits are retroactive to the date eligibility would have been established had the DHHR acted in a timely manner.

If an application has not been acted on within a reasonable period of time, unless the delay is due to factors beyond the control of the DHHR, the client is eligible to receive direct reimbursement for out-of-pocket medical expenses. See Section 10.6.6.

**Agency Delay Example:** Poppy Elm applies for M-WIN on December 5 and explains she is scheduled for surgery on January 2. The Worker explains the importance of paying the enrollment fee in December to provide Medicaid coverage for January. Poppy pays her enrollment fee December 28. The Worker returns January 5 and approves M-WIN effective February without backdating M-WIN eligibility to include January. The Worker corrects the case; however, Ms. Elm filled prescriptions January 1 totaling $121. The pharmacy refuses to bill Medicaid. The delay was within the control of the DHHR; therefore, Ms. Elm is eligible for direct reimbursement for out-of-pocket medical expenses.

### 26.3.8 PAYEE

The client is the payee.

### 26.3.9 BEGINNING DATE OF ELIGIBILITY

The beginning date of eligibility is the first day of the month following the date the enrollment fee is received.

### 26.3.10 CLIENT NOTIFICATION

- The first letter notifies the client whether or not he meets all requirements, except payment of the enrollment fee. This notice contains an enrollment fee payment stub that is returned with the client’s payment. See Section 26.2.5.

- If the client meets all requirements, the second letter is an approval if the enrollment fee is received or a denial if the enrollment fee is not received.
For all other notice requirements see Chapter 9.

### 26.3.11 REDETERMINATION

- M-WIN AGs are redetermined every six months, in the sixth month of eligibility.
- The Worker must set an alert and schedule the redetermination.
- The Worker is responsible for sending the appropriate review form so the redetermination is completed prior to or during the month in which it is due.
- When the redetermination is completed and the AG remains eligible, the new eligibility period begins the month immediately following the month of the redetermination.
- The Worker must set an alert for the next redetermination.

### 26.3.12 THE BENEFIT

A Medical ID card is issued for each eligible individual.

#### 26.3.12.A Ongoing Benefits

Effective December 21, 2017 there was a change in the way Medical ID cards are issued. Instead of the separate blue paper card, the Medical ID card is now included in all Medicaid approval notices. The Medical ID card does not include any date parameters since eligibility may terminate.

Medicaid recipients will receive one Medical ID card per case each time there is an approval or renewal for Medicaid for any household member.

In situations where retroactive eligibility is established, the Medicaid coverage will be validated appropriately for each back-dated month.

#### 26.3.12.B Ending Date of Eligibility

The ending date of eligibility is the last day of the month of the effective month of closure.
26.4 COMMON ELIGIBILITY REQUIREMENTS

26.4.1 RESIDENCE

The client must be a West Virginia resident.

26.4.2 CITIZENSHIP STATUS

The Medicaid policy/procedures in Section 15.7.5 apply to Medicaid Work Incentive (M-WIN).

26.4.3 COOPERATION WITH QUALITY CONTROL

The client must cooperate with any Quality Control review. Failure to comply results in assistance group (AG) closure. See Section 2.4 for requirements to cooperate with Quality Control.

26.4.4 LIMITATIONS ON RECEIPT OF OTHER BENEFITS

The client may receive other Department of Health and Human Resources (DHHR) benefits for which he qualifies. See Non-Duplication of Benefits below.

26.4.5 NON-DUPLICATION OF BENEFITS

The client cannot be enrolled in any other full coverage Medicaid group.
26.4.6 ENUMERATION

The enumeration requirements in Section 2.7 for Medicaid apply.
26.5 ELIGIBILITY DETERMINATION GROUPS

26.5.1 THE ASSISTANCE GROUP (AG)

Only the disabled individual must be included.

26.5.2 THE INCOME GROUP (IG)

Count only the client’s income.

26.5.3 THE NEEDS GROUP (NG)

The income limit for an individual is used.
26.6 INCOME

26.6.1 INCOME LIMIT

The income limit is 250% of the Federal Poverty Level (FPL) when unearned income is at or below the Supplemental Security Income (SSI) payment level.

26.6.2 INCOME SOURCES

The income sources in Section 4.3 are treated the same as for Supplemental Security Income (SSI)-Related Medicaid.

26.6.3 BUDGETING METHOD

The method used to anticipate monthly countable income is the same as in Section 4.6.

26.6.4 INCOME DISREGARDS AND DEDUCTIONS

NOTE: Retirement, Survivors, and Disability Insurance (RSDI) cost of living adjustments (COLA) are disregarded in determining income eligibility until the new Federal Poverty Level (FPL) limits become effective.

The following disregards and deductions are applied, if applicable.
26.6.4.A Unearned Income

- SSI $20 Disregard: A $20 disregard is applied to the total gross unearned income. If unearned income is less than $20, the remainder is subtracted from earned income, prior to the application of any other earned income disregards and deductions.

- Unearned Income Diverted to a PASS. Any unearned income diverted to a PASS is deducted from income.

- For SSI-Related Children Only: One-third of the child support intended for the SSI-Related child is disregarded.

- Death Benefits: The portion of a lump sum payment received as a result of the death of a client, which is used to pay the expenses of the last illness and burial of that client, is deducted.

**NOTE:** The SSI $20 disregard is not applied to any unearned income received that is based on need. This includes, but is not limited to, Veterans Administration (VA) benefits based on need.

26.6.4.B Earned Income

- SSI $20 Disregard: the remainder of the $20 income disregard. See Unearned Income above.

- SSI Earned Income Disregard: $65 and half (1/2) of the remainder are subtracted from earned income and from gross profit from self-employment earnings. See Determining Countable Income below.

**NOTE:** These disregards and deductions apply only to earned income. Any unused portion of the disregards or deductions is not applied to unearned income.

- Impairment-Related Work Expenses: Expenses for items or services that are directly related to enabling a person with a disability to work and that are necessarily incurred by the client due to a physical or mental impairment. The client must be:
• Disabled, but not blind; and
• Under age 65

In addition, the severity of the impairment must require the client to purchase or rent items and services in order to work, and the expense must be reasonable and not reimbursable from another source, such as, but not limited to, Medicare or private insurance. The payment must be made with income received for a month in which the person both worked and received the services or used the item, or the payment may be made before the earned income is received when the person is working.

Examples of impairment-related work expenses include, but are not limited to, attendant care services, both at home and at work; drugs and medical supplies and devices; federal, state, and local income taxes and Federal Insurance Contributions Act (FICA); service animals; fees such as union dues; mandatory contributions such as pensions; meals consumed during work hours; work-related equipment or services; physical therapy; prosthesis; structural modifications to the person’s home; transportation to and from work; and vehicle modification.

• SSI Work-Related Expenses (Blind Persons Only): A deduction for impairment-related expenses necessary for employment is allowed, such as a guide dog, cane training, purchase of special equipment needed to perform or advance on the job, etc.

• Earnings Diverted to a Plan for Achieving Self-Support (PASS): Any earnings diverted to a PASS are deducted from income.

• SSI Student Child Earned Income Disregard: $1,870 per month, but no more than $7,550 in a calendar year, is disregarded when the child meets the following criteria:
  o Is under age 22, unmarried and not head of a household; and
  o Takes one or more courses of study and attends classes as follows:
    ▪ In a college or university at least eight hours a week; or
    ▪ In grades 7 – 12 at least 12 hours a week; or
    ▪ In a course of training to prepare for a paying job for at least 15 hours a week, if shop practice is involved, or 12 hours a week, if shop practice is not involved; or
    ▪ For less than the amount of time indicated above for reasons beyond the student’s control, such as illness, if circumstances justify a reduced load or attendance.
  o This applies to homebound students when a disability requires home school and a home visitor or tutor from school directs the study.
26.6.5 TRANSFERS OF INCOME

The transfer of resources policy does not apply to Medicaid Work Incentive (M-WIN).

26.6.6 DETERMINING ELIGIBILITY

Determination of financial eligibility has two parts: the unearned income test and determining countable income.

26.6.6.A Unearned Income Test

The first part is the unearned income test. If the client fails this test, he is ineligible.

- Step 1: Determine the amount of countable unearned income.
- Step 2: Subtract the $20 SSI Disregard.
- Step 3: Compare the remainder to the current SSI payment for one person.

If the remainder exceeds the SSI payment, the client is ineligible and no additional calculations are required.

If the remainder is equal to or less than the SSI payment, the Worker must determine countable income.

26.6.6.B Determining Countable Income

The second part is determining countable income. Countable income is determined by subtracting any allowable disregards and deductions from the total countable gross income. Countable income is determined as follows:

Step 1: Determine the total countable gross unearned income and subtract the $20 Disregard, if applicable.

Step 2: Determine the total countable gross earned income. Subtract the following in order:

- Remainder of SSI $20 Disregard
- SSI $65 Earned Income Disregard
- SSI Impairment-Related Expenses
- One-half (1/2) of Remaining Earned Income
- SSI Work-Related Expense Deductions (blind persons only)
- Earnings Diverted to a PASS

Step 3: Add unearned income from Step 1.

Step 4: Subtract unearned income diverted to a PASS, the Death Benefits deduction and, for children, the child support disregard.

- The result is the total monthly countable income.

Step 5: Compare the amount in Step 4 to 250% of the FPL for one person.

If the net countable monthly income is equal to or less than 250% of the FPL, the client is financially eligible.

**NOTE:** Once the client has been determined eligible, premium fees are based on gross countable income before these disregards and deductions.

---

### 26.6.7 SPECIAL SITUATIONS

#### 26.6.7.A Self-Employment

Gross profit is determined the same way it is for AFDC-Related Medicaid. The gross profit may be earned or unearned income. See Section 4.16.

#### 26.6.7.B Annual Contract Employment

Annual contract employment is treated the same way it is for AFDC-Related Medicaid. See Section 4.16.
26.6.7.C Educational Income

Educational Income is counted the same way it is for AFDC-Related Medicaid. See Section 4.16.

26.6.7.D Irregular Income

Regardless of the source, irregular income is excluded because it cannot be anticipated.

26.6.7.E Lump Sum Payments

Lump sum payments are treated as unearned income in the month received.

26.6.7.F Withheld Income

26.6.7.F.1 From Earned Income

Earnings withheld to repay an advance payment are disregarded if they were counted in the month received. If not counted in the month received, the withheld earnings are considered income. No other earned income is excluded just because it is withheld by the employer.

26.6.7.F.2 From Unearned Income

All withheld unearned income is counted, unless an amount is being withheld to repay income that was previously used to determine Medicaid eligibility.
26.6.7.G Funds Diverted to a PASS

Funds diverted to a PASS are disregarded.

26.6.7.H Unstated Income

Unstated income is income that has not been reported by the household, and is not otherwise known to the agency, but is determined to exist because the client's paid living expenses exceed income from known sources.

The amount of unstated income is the difference between the known monthly income and the monthly paid living expenses.

When the information in the client's record, including statements of the client or third parties, indicates that paid expenses exceed the stated income, the existence of unstated income must be explored.

If insufficient or conflicting evidence exists, the Worker must question the client about the possibility of unstated income and allow him the opportunity to explain how his expenses are met. If the client provides a satisfactory explanation, the Worker records the explanation.

If the client's explanation of how the expenses are met is inadequate, the Worker makes a recording of the explanation and then determines the amount of unstated income to count. To determine the amount of unstated income to count, the Worker compares the usual amount of monthly living expenses with the client's reported income, taking into consideration any other reasonable explanations the client provides. The difference is unstated income and is counted as unearned income.

26.6.7.I Unavailable Income

Income intended for the client, but received by another person with whom he does not live, when the individual receiving this income refuses to make it available, is excluded.
26.6.7.J Income Received for a Non-Income Group Member

Income received by a member of the Income Group (IG), which is intended and used for the care and maintenance of an individual whose income is not used in determining the eligibility AG, is excluded as income.
26.7 ASSETS

26.7.1 ASSET LIMIT

The asset limit for Medicaid Work Incentive (M-WIN) is:

- $2,000 for a single individual.
- $3,000 for an individual who lives with his legal spouse. Total countable assets of the couple are combined to determine asset eligibility.

26.7.2 LIST OF ASSETS

Assets are treated according to the policy in Chapter 5 for Supplemental Security Income (SSI)-Related Medicaid with the following exceptions.

26.7.3 SPECIAL ASSET EXCLUSIONS

26.7.3.A Retirement Accounts

Retirement accounts or funds invested in an approved retirement account are not counted as assets. This includes, but is not limited to, Individual Retirement Accounts (IRAs), Keoghs, 401(k)s, or employer pension plans.

26.7.3.B Liquid Asset Exclusion

Liquid assets in the amount of $5,000 for an individual or $10,000 for a legally married couple are excluded when determining total countable assets. Liquid assets are cash or those payable in cash on demand. This includes checking or savings accounts and financial instruments such as, but not limited to, Certificates of Deposit (CD) or stocks and bonds that can be converted to cash within 20 work days. Federal, state, and local holidays are not work days.
26.7.3.C Independence Accounts

Independence accounts are Department of Health and Human Resources (DHHR)-approved separate accounts established with the earned income of an M-WIN client. The funds in the account are used to pay necessary expenses or to enhance or maintain the client’s independence or increase his employment opportunities. Approved expenditures from the funds include, but are not limited to, the following:

- Educational expenses.
- Home purchase or modification.
- Transportation.
- Medical expenses.
- Assistive technology and related services.
- Short-term living expenses during a qualified emergency such as, but not limited to, an illness of the client, spouse, child, or parent that results in a loss of wages and/or causes extra expenses not reimbursable by a third party, or an involuntary loss of employment. The DHHR may approve other expenditures upon request.

So long as the account is maintained and used according to the guidelines, and the establishment and expenditures of the account are reviewed and approved by the Worker and/or Supervisor, the funds are excluded.

As fund must be reviewed during the six-month financial redetermination.

26.7.4 TRANSFER OF RESOURCES

The transfer of resources policy does not apply to M-WIN Medicaid.
26.8 DATA EXCHANGE

The data exchange and matches described in Chapter 6 are applicable to Medicaid Work Incentive (M-WIN). Changes in income do not affect eligibility during the certification period, but may affect the premium amount.
26.9 VERIFICATION

The policy and procedures described in Chapter 7 apply to Medicaid Work Incentive (M-WIN).
26.10 RESOURCE DEVELOPMENT

The resource development policies in Chapter 8 do not apply to Medicaid Work Incentive (M-WIN). The client may be encouraged to apply for other benefits, such as, but not limited to, Workers’ Compensation or Unemployment Compensation, if he loses employment, but there is no requirement to seek other benefits.
26.11 CASE MAINTENANCE

26.11.1 CLOSURES

A Medicaid Work Incentive (M-WIN) client may be determined ineligible prior to the end of the six-month eligibility period if he:

- Moves out of state
- Dies
- Reaches age 65
- Becomes eligible for Supplemental Security Income (SSI)
- Was approved for M-WIN in error and is not currently eligible
- Becomes an inmate of a public institution
- Is determined no longer disabled by the Social Security Administration (SSA) or the Medical Review Team (MRT)
- Acquires assets over the allowable limit
- Terminates employment voluntarily or employment is no longer competitive; see Section 26.11.4
- Fails to meet the requirements in Section 26.11.4 when determined unable to maintain employment – involuntary
- Fails to pay a required enrollment fee or premium payment(s)
- Voluntarily disenrolls

When the assistance group (AG) is closed for any reason, including voluntary disenrollment, advance notice is required, unless waived by the client. Any notice must inform the client of the last month for which a premium is due. The M-WIN Worker must notify the contract agency of the termination and the effective date of closure, i.e., the last day of the last month for which the premium is due.

NOTE: The enrollment fee must be paid each time the client loses coverage under this program for any reason. This includes, but is not limited to: non-payment of the monthly premium, failure to complete the redetermination of eligibility or voluntary disenrollment.
26.11.2 CHANGE IN INCOME AND DEDUCTIONS

A change in income and/or deductions between redeterminations does not result in ineligibility for the coverage group.

An income change is not used to increase the premium amount. However, the premium amount may be decreased based upon a reported income change.

NOTE: Retirement, Survivors and Disability Insurance (RSDI) cost-of-living adjustments (COLA) are disregarded in determining income eligibility until the new Federal Poverty Level (FPL) limits become effective.

26.11.3 REDETERMINATION OF DISABILITY

The Department of Health and Human Resources (DHHR) cannot determine that a client who participates in the program is no longer disabled solely due to his employment or earned income, including self-employment income. At the time of the six-month redetermination, the Worker must ensure that the client continues to meet the disability requirement for the new period of eligibility. The client must be a current RSDI recipient or there must be a valid MRT decision that extends into the new eligibility period. MRT reevaluations will be completed at the time specified by the MRT.

MRT Evaluation Period Example: At redetermination in January 2016 for a new eligibility period to begin February 2016, the Worker discovers that the last MRT evaluation covers the period from April 2015 through March 2016. Because part of the new eligibility period through March 2016 is covered by an MRT evaluation, the disability requirement is met.

RSDI Stopped Example: At redetermination, the Worker discovers that the client’s RSDI was stopped. The Worker must

NOTE: When the information is submitted to MRT for the reevaluation of disability, an evaluation for Medically-Improved eligibility must be requested at the same time. If the individual is determined no longer disabled, he is evaluated automatically as Medically-Improved.
refer the case to the MRT to establish disability, but completion of the redetermination is not delayed.

26.11.4 UNABLE TO MAINTAIN EMPLOYMENT – INVOLUNTARY

Only clients who originally received benefits under the M-WIN coverage group may remain eligible for M-WIN during periods of involuntary loss of employment. Involuntary loss of employment includes, but is not limited to, a layoff or a temporary leave due to health problems. Coverage under this provision may continue from the date of the loss of employment for up to six months. These six months need not be consecutive.

At reapplication, this client, if otherwise eligible for M-WIN except for continued unemployment, may be approved for an additional six months.

To continue M-WIN when the client does not meet competitive employment requirements, the client must meet the specific criteria below. The client must:

- Submit a written request for continued coverage to the local DHHR office within 30 days of the date he becomes unemployed. An authorized representative may submit the request.
- Maintain a connection to the workforce during his continued Medicaid eligibility period. He meets this requirement by:
  - Enrolling in a state or federal vocational rehabilitation program;
  - Enrolling in or registering with WorkForce West Virginia;
  - Participating in a transition from school-to-work program;
  - Participating with an approved provider of employment services. The approved Employment Network (EN) providers are found at the WorkForce West Virginia website; or
  - Providing documentation from his employer that he is on a temporary involuntary leave.
- Continue to be otherwise eligible for M-WIN and does not meet a closure reason in Section 26.11.1

At reapplication, this client, if otherwise eligible for M-WIN except for continued unemployment, is approved for an additional six months.

Involuntary Loss of Employment Example: Iris Aster is approved for M-WIN for August 1 through January 31. In October, she loses her job because her employer cannot hold her position open while she is off due to surgery. She
notifies her Worker within 30 days of the loss of her employment, verifies enrollment at Division of Rehabilitation Services (DRS), and requests continued coverage. The Worker leaves her M-WIN enrollment open and documents three months continued coverage under the Unable to Maintain Employment – Involuntary provision.

If the client loses employment and does not meet the requirements above, or has already received 12 months of continued M-WIN coverage for this reason, he must be evaluated for any other coverage groups for which he may qualify. Coverage under this group is stopped.

26.11.5 IMPROVEMENT IN MEDICAL CONDITION – MEDICALLY-IMPROVED COVERAGE GROUP

Only clients who originally received benefits under the M-WIN coverage group may receive this coverage as Medically-Improved. The medical determination is made by MRT.

An M-WIN client whose medical condition improves remains eligible if he meets all other program eligibility requirements.

26.11.6 CHANGE OF ADDRESS

The Worker must notify contract agency of all address changes.
26.12  DETERMINING DISABILITY, INCAPACITY AND BLINDNESS

26.12.1  DETERMINING DISABILITY

The Medicaid Work Incentive (M-WIN) client must meet the disability criteria established by the Social Security Administration (SSA). If the client does not receive Retirement, Survivors and Disability Insurance (RSDI) based on disability, disability must be established by the Medical Review Team (MRT). See Chapter 13 for the MRT procedures and requirements for both adults and children.

26.12.2  DETERMINING ELIGIBILITY FOR A MEDICALLY-IMPROVED DISABILITY

Eligibility for this group is determined by the MRT. These are clients who no longer meet the RSDI or SSI-Related disability definition due to a medical improvement brought about by treatments such as therapy or medication. Examples of potentially eligible clients are those with severe mental illness, HIV/AIDS, and epilepsy. See Section 26.11.5 for other specific requirements.

NOTE: When the Worker submits information to the MRT for the reevaluation of disability, an evaluation for Medically-Improved eligibility must be requested at the same time. If the individual is determined no longer disabled, he is evaluated automatically for Medically-Improved eligibility.

</table>

*Individuals whose monthly gross income exceeds $3,826 pay the maximum premium amount of $129.50.
APPENDIX B: M-WIN CONTRACT AGENCY CONTACT INFORMATION

The current contract agency that tracks and manages M-WIN enrollment fee and monthly premium payments is Health Management Systems (HMS). Contact information is listed below:

Health Management Systems (HMS)  
405 Capitol Street, Suite 503  
Charleston, West Virginia 25301  
Phone: (304) 342-1604  
Fax: (304) 342-1605

Any requests for refunds of M-WIN enrollment fees or monthly premium payments must first be requested of, and reviewed by, the Bureau for Medical Services (BMS) Medicaid Policy Unit staff. This staff forwards appropriate requests for refunds to HMS.

27.1 INTRODUCTION

Non-emergency medical transportation (NEMT) is a reimbursement program for clients of Medicaid and Children with Special Health Care Needs (CSHCN) for the cost of transportation and other expenses associated with receiving medical services. Because the program is intended for reimbursement only, payment in advance of a scheduled appointment is not appropriate and cannot be issued from the eligibility system.

Beginning October 1, 2014, NEMT administration is the responsibility of the contracted NEMT broker. The broker is responsible for full administration of the program, including customer services, provider enrollment, benefit replacement, safety requirements, and monitoring for fraud, waste, and abuse.

The NEMT provider policy can be found in Chapter 524 of the Bureau for Medical Services (BMS) Provider Manual.
27.2 NEMT REQUEST PROCESS

27.2.1 BEGINNING DATE OF ELIGIBILITY

Medicaid clients are eligible for non-emergency medical transportation (NEMT) beginning the first day of the month in which Medicaid is approved.

Clients of Children with Special Health Care Needs (CSHCN) and others who qualify for reimbursement of transportation expenses are eligible for NEMT beginning the month of approval, as determined by the program that provides the medical services.

27.2.2 THE BENEFIT

Services provided under this program include reimbursement for transportation and certain related expenses necessary to secure medical services normally covered by Medicaid. Funding for this program is provided by three different sources:

- Title XIX funds for all Medicaid clients, including foster children
- Title V funds for non-Medicaid eligible clients of CSHCN
- Agency administrative funds (cash assistance or Medicaid) for applicants who need a physical examination in order to complete the eligibility process

Reimbursement for transportation and related expenses is available to Medicaid clients who:

- Require transportation to keep an appointment for medical services covered under the approved Medicaid group;
- Receive scheduled Medicaid-covered services at a clinic, hospital, or doctor’s office; or
- Receive pre-authorization as necessary.

27.2.3 THE NEMT REQUEST FORM

The medical service provider, or his designee, is required to sign the section verifying that the individual had an appointment and was seen for Medicaid-covered treatment or services. Medical service providers include doctors, nurses, nurse practitioners, physicians’ assistants,
lab technicians, and others who perform a Medicaid-covered service.

When prior authorization is required for out-of-state services, coordination of the process may be facilitated by telephone and/or fax with the Utilization Management Contractor and the physician, as necessary. Members should contact the broker to arrange transportation for all medical appointments.

Altered forms that include questionable entries will result in denial of the request, unless the broker is able to resolve the discrepancies. Items which have been corrected must be initialed by the applicant or other person providing the information.

### 27.2.4 PROCESSING DELAYS

The broker must process requests received for travel upon receipt, provided the date for which reimbursement is being requested occurred no earlier than 365 days prior to the date of the request. Delay caused by failure on the part of the broker to process a request in a timely manner is not a reason to deny payment.
27.3 VERIFICATION

Specific requirements for verification of travel expenses are determined by the broker.
27.4 CLIENT NOTIFICATION OF DENIAL

The client must be notified in writing within 30 days of his non-emergency medical transportation (NEMT) payment denial.
27.5 SPECIFIC ELIGIBILITY REQUIREMENTS

27.5.1 EXCEPTIONS TO ELIGIBILITY

The following individuals are not eligible for non-emergency medical transportation (NEMT):

- Individuals designated only as Qualified Medicare Beneficiaries (QMB), Specified Low Income Medicare Beneficiaries (SLIMB), Qualified Individuals (QI-1), or Qualified Disabled Working Individuals (QDWI) and who are not dually eligible for any full-coverage Medicaid group.

- Medicaid public school patients being transported to schools for the primary purpose of obtaining an education, even though Medicaid-reimbursable school-based health services are received during normal school hours, except for children receiving services under the Individuals with Disabilities Education Act (IDEA) when the child receives transportation for a Medicaid-covered service, and both the transportation and service are included in the child’s Individualized Education Plan (IEP).

- West Virginia Children’s Health Insurance Program (WVCHIP) clients.

Reimbursement is allowed in certain circumstances for trips to pick up medicine, eyeglasses, dentures, or medical supplies, or for repairs or adjustments to medical equipment.

When services are paid for by any other program, or otherwise not charged to Medicaid, NEMT is not approved.

When other reimbursement is available, Medicaid is always the last payer.

Reimbursement is not approved for services normally provided free to other individuals.

27.5.2 PRIOR AUTHORIZATION

The following situations require prior authorization from the broker.
All requests for out-of-state transportation and certain related expenses, except for travel to those facilities which have been granted in-network status. Facilities granted in-network status are considered in-state providers.

- Members are required to contact the broker to schedule the travel for all medical appointments or visits, regardless of the in-network or out-of-network status.

- Transportation of an immediate family member (parent, spouse, or child of the patient) to accompany and/or stay with the patient at a medical facility when the need to stay is based on medical necessity and documented by the physician. Exceptions require Bureau of Medical Services (BMS) approval.

- Two round trips per scheduled hospitalization (one for admittance and one for discharge) when the parent or family member chooses not to stay with the patient.

- Lodging.

- Meals, only when lodging is approved.

- Transportation via common carrier judged to be the most economical. If the member insists on incurring expenses beyond those approved by the broker, such costs will not be reimbursed.

Travel for parents/children to visit or participate in a treatment plan for hospitalized individuals is not authorized when it does not coincide with the patient’s travel. Exceptions require BMS approval.

### 27.5.3 ROUTINE AUTOMOBILE TRANSPORTATION REQUESTS

Members may request reimbursement for costs related to automobile travel, such as mileage, tolls, and parking fees when free parking is not available. The travel must be for scheduled appointments and treatment. Mileage is paid from the patient’s home to the facility and back to the home. When comparable treatment may be obtained at a facility closer to the patient’s home than the one he chooses, mileage reimbursed is limited to the distance to the nearest facility. The client’s statement about the availability of a closer facility is accepted unless the information is questionable. See Determining the Amount of Payment below.

Meals are not reimbursed for any travel that does not include an overnight stay.
When travel by private automobile is an option, but the member chooses more costly transportation, the rate of reimbursement is limited to the private auto mileage rate.

When the member chooses to rent an automobile and submits the costs of the rental and connected fees, and the total is less than the private mileage rate, the lower cost is paid.

Members must car-pool when others in the household have appointments the same day at the same facility.

Round trips are limited to one per household per day. Parents must make an effort to schedule appointments for children at the same time or on the same day whenever possible.

### 27.5.4 REQUESTS FOR TRANSPORTATION FOR EMERGENCY ROOM SERVICES

Members who use emergency rooms for routine medical care are not reimbursed for transportation. When the broker documents that emergency room treatment was necessary, the broker may approve the transport for the member to return home from the emergency room.

### 27.5.5 APPROVED TRANSPORTATION PROVIDERS

The least expensive method of transportation must always be considered first and used, if available.

Providers are listed below. Members who choose a more expensive method than the one available are reimbursed at the least expensive rate.

- The patient or a member of his family; friends; neighbors; interested individuals; foster parents; adult family care providers; or volunteers
- Volunteers or paid employees of community-based service agencies, such as Community Action and Senior Services
- Common carriers (e.g., bus, train, taxi, or airplane)

### 27.5.6 DETERMINING THE AMOUNT OF PAYMENT

The amount of reimbursement for transportation expenses depends on the method of
transportation, the round-trip mileage, and/or whether lodging was required. Payment may be authorized for one round trip per patient per day, with a maximum of two round trips per hospital admission. Exceptions require documentation of medical necessity and BMS approval.

27.5.6.A Mileage

Round-trip mileage from the patient’s home to the medical facility is paid. The round trip must be made over the shortest route, as determined by the broker.

As stated above, mileage is limited to the nearest comparable facility for routine services (e.g., allergy shots, blood pressure readings) when the physician has not specified that a specific facility must be paid.

27.5.6.B Common Carrier

The cost of waiting time is paid only when travel between cities is required. This waiting time is permitted only for obtaining medical services. When waiting time is claimed, the broker must obtain a dated and signed statement from the taxi company indicating the rate, elapsed time, and total charges for the waiting time.

27.5.6.C Lodging

When an overnight or longer stay is required, lodging may be paid for the patient and one additional person if the patient is not the driver. Accommodations must be obtained at the most economical facility available. Resources such as Ronald McDonald Houses, or facilities operated by the hospital, must be used whenever possible.

West Virginia currently has three Ronald McDonald Houses that may invoice the broker directly for payment. The client must not be reimbursed unless he provides a receipt to verify he made the payment. Their addresses, telephone numbers, and the medical facilities with which they are affiliated are as follows:

- Ronald McDonald House of Southern WV, Inc.
  910 Pennsylvania Avenue
  Charleston, WV 25302
Telephone Number: (304) 346-0279  
Hospital affiliate: Charleston Area Medical Center (CAMC)  

- Ronald McDonald House Charities of the Tri-State, Inc.  
  1500 17th Street  
  Huntington, WV 25701  
  Telephone Number: (304) 529-2970  
  Hospital affiliates: Cabell-Huntington Hospital and St. Mary’s Hospital  

- Ronald McDonald House of Morgantown  
  841 Country Club Drive  
  Morgantown, WV 26505  
  Telephone Number: (304) 598-0050  
  Hospital affiliates: Chestnut Ridge Hospital, Monongalia General Hospital, Ruby Memorial Hospital, and Mountaineer Rehabilitation Center

Lodging prior to the day of the appointment is determined necessary when the appointment is scheduled for 8:00 a.m. or earlier and travel time to the facility is two hours or more from the patient’s home. It may also be determined necessary when the patient is required to stay overnight to receive additional treatment. Exceptions require BMS approval.

27.5.6.D Meals

Reimbursement for meals is available only in conjunction with lodging and only for meals that occur during the time of the travel or the stay. Meals are permitted for the patient and/or the person approved to stay with the patient. The rate is $5 per meal per person, regardless of which meals the reimbursement covers. Determination of which meals to include is based upon the time the trip started and when the patient returned home.

27.5.6.E Related Expenses

Reimbursement may be made for other travel-related expenses, such as turnpike tolls and parking fees. Parking is limited to $3 per day when free parking is not available within reasonable walking distance of the facility. A receipt is required. Metered parking is limited to $2 per day with no receipt required.
27.5.6.F Limitations and Restrictions

Anyone may volunteer to provide transportation for Medicaid clients for reimbursement of expenses only. However, the broker does not reimburse any volunteer for more than 6,000 miles in any calendar year except as follows:

- No public transportation is available, and the client does not drive and has no one else who can provide transportation.
- The patient requires frequent medical treatment (e.g., dialysis, chemotherapy) and local staff have approved the continued use of the same provider.

Employees of entities that provide Medicaid services (e.g., personal attendant, behavioral health rehabilitation providers, Aged and Disabled [ADW] providers, Traumatic Brain Injury [TBI] providers, Intellectual/Developmental Disability Waiver [I/DD] providers) cannot be reimbursed as an NEMT provider when transporting individuals while being paid by that Medicaid provider (e.g., being on the clock and being paid for NEMT at the same time).

I/DD Waiver providers must bill NEMT for Medicaid-approved services unless training is occurring during the transportation time. If a provider is billing another State Plan (non-waiver) Medicaid service, then the provider must utilize NEMT for transportation costs.

NOTE: A volunteer is a person, other than the client, his family, or friends, who provides transportation to medical appointments for Medicaid clients. The 6,000-mile limit does not apply to family or friends who have been selected by the Medicaid client to provide the transportation. The limit does not apply to common carriers.
27.6 BENEFIT REPAYMENT

Members must be informed that fraudulent claims will result in denial of subsequent requests up to the amount of the claim, and could result in permanent ineligibility for non-emergency medical transportation (NEMT).

When the broker is aware that a client may be obtaining NEMT reimbursements to which he is not entitled, the broker must monitor all requests from the client to determine if misuse or abuse of the program is actually taking place. Any information deemed questionable must be verified, even if not routinely required.

If the broker has reason to suspect that reimbursement is being requested for trips that were not taken, he must contact the medical provider(s) listed and verify appointment dates and whether or not the appointments were kept.

A referral must be made to Bureau for Medical Services (BMS) and Office of the Inspector General (OIG) to notify the agencies of potential fraud, waste, and abuse.

28.1 INTRODUCTION

The Special Pharmacy Program was established to help pay for certain necessary drugs for individuals not eligible for Medicaid. These costs are paid from State funds and cover only the costs of immunosuppressant (anti-rejection) drugs after a patient has received a transplant and Antipsychotic (atypical) Drug Management.
28.2 SPECIFIC ELIGIBILITY REQUIREMENTS

The applicant must have been denied Medicaid due solely to failure to meet a spenddown within six months of the date of the client's request for payment. If he is unable to meet a spenddown, special approval is considered. To qualify for Special Pharmacy, it must be established that the cost of the anti-rejection or antipsychotic medication paid by the client reduces the family's gross income to below 100% of the Federal Poverty Level (FPL) for a family of the same size.

NOTE: Individuals eligible for or receiving Qualified Medicare Beneficiary (QMB) coverage are not eligible for Special Pharmacy coverage.
28.3 APPLICATION/REDETERMINATION PROCESS

The individual may apply at any time after receiving the transplanted organ.

28.3.1 APPLICATION FORM

The Application for Special Pharmacy (DFA-SP-1) is completed by the Worker and forwarded to the Bureau for Medical Services (BMS) Medicaid Policy Unit for consideration. This is an interdepartmental form and is not given to (or completed by) the applicant. The form must contain the following information:

- Applicant’s name, address, date of birth, Social Security number (SSN), sex, county of residence, case number, and race;
- Individuals in the applicant’s home and the relationship of each to the applicant;
- Gross income of the applicant, applicant’s spouse, and all dependent children living in the home;
- Applicant’s Medicare eligibility status and participation in payment for drug costs. If eligible, provide the Medicare claim number and the beginning dates of Part A and Part B;
- Applicant’s Qualified Medicare Beneficiary (QMB) eligibility status;
- List of prescribed immunosuppressant/anti-rejection or antipsychotic drugs;
- Average monthly cost to the applicant of the prescribed anti-rejection or antipsychotic drugs;
- Name, address, and telephone number of the pharmacy;
- Physician’s name;
- Date of the transplant;
- Date of the most recent Medicaid application and reason for denial; and,

NOTE: Medicare pays 80% of the cost of anti-rejection drugs indefinitely, if all Medicare requirements are met. Medicare pays 80% of the cost of anti-rejection drugs for transplant recipients with End Stage Renal Disease (ESRD). When Medicare participates in the payment of the drugs, the Worker must deduct any amount Medicare pays and indicate only the amount for which the client is responsible. Only the remaining amount is used to determine eligibility and subsequent payment by the Department.
• Cost of lab tests and testing facility for antipsychotic drugs.

Certain recipients of benefits from the Office of Children and Adult Services (CAS) are eligible to receive coverage for immunosuppressant drugs through the child welfare information system. During the application or renewal process, the Worker must inquire if the Special Pharmacy applicant is receiving medical coverage through CAS. If the Worker believes the applicant may be receiving duplicate coverage or services through both the child welfare information system and the eligibility system, the Worker must electronically notify the BMS Medicaid Policy Unit with the following information:

• Applicant/Recipient’s Name
• Date of Birth
• Social Security Number
• Client’s child welfare information system ID (if known)

28.3.2 COMPLETE APPLICATION

The application for Special Pharmacy is complete when the Worker submits the completed DFA-SP-1 to the BMS Medicaid Policy Unit.

28.3.3 DATE OF APPLICATION

The date of application is the date the DFA-SP-1 is completed.

28.3.4 INTERVIEW REQUIRED

An interview is not required for completion of the DFA-SP-1, however it may be necessary to complete the application or redetermination.

28.3.5 WHO MUST SIGN

A client signature is not required on the DFA-SP-1.
28.3.6 DUE DATE OF ADDITIONAL INFORMATION

The client must be given at least ten days to return additional information. All information must be submitted with the DFA-SP-1. The worker will not submit the application if the client fails to provide the required information.

28.3.7 AGENCY TIME LIMITS

The Worker must submit the DFA-SP-1 to the BMS Medicaid Policy Unit within 10 days of completion. The BMS Medicaid Policy Unit must make a decision and notify the Worker of that decision within 30 days from the date the completed DFA-SP-1 is received.

28.3.8 REPAYMENT AND PENALTIES

This does not apply to the Special Pharmacy Program.

28.3.9 BEGINNING DATE OF ELIGIBILITY

The beginning date of eligibility for Special Pharmacy is the first day of the month of the DFA-SP-1 application, if eligible. Special Pharmacy may be backdated up to three months prior to the month of application.

28.3.10 REDETERMINATION SCHEDULE

All assistance groups (AG) are reevaluated in the sixth month of certification. The BMS Medicaid Policy Unit sends notification to the local office in the fifth month of eligibility.
28.3.11 EXPEDITED PROCESSING

Applications must be processed as soon as possible after the Worker becomes aware of the need for immunosuppressant/anti-rejection/antipsychotic drugs.

28.3.12 CLIENT NOTIFICATION

Once the eligibility decision is made, the local office is notified by the BMS Medicaid Policy Unit. The local office must notify the client of the decision in writing. BMS notifies the service provider of the approval and appropriate billing procedures. The service provider notifies the client of the following:

- Covered medications;
- How to obtain payment for drugs and services;
- The Special Pharmacy ID number; and
- Dates of coverage.

28.3.13 REDETERMINATION VARIATIONS

The redetermination process is as follows.

28.3.13.A Redetermination List

Special Pharmacy is reevaluated in the sixth month of eligibility. The Supervisor is notified by the BMS Medicaid Policy Unit of the upcoming review in the fifth month of eligibility.

28.3.13.B Date of Redetermination

The Worker is responsible for scheduling the redetermination so that it is completed prior to or during the sixth month of eligibility.
28.3.13.C  Scheduling Redetermination

A system generated appointment letter must be requested by the Worker to notify the client of the redetermination and the date the interview is scheduled.

28.3.13.D  Completion of the Redetermination

When the redetermination is completed and the AG remains eligible, the new eligibility period begins the month immediately following the month of redetermination with no break in coverage. The Worker is notified by the BMS Medicaid Policy Unit when the redetermination is due.

28.3.14  THE BENEFIT

There is no Medical ID card issued for Special Pharmacy. BMS notifies the service provider of the approval and appropriate billing procedures. The service provider notifies the client of the following:

- Covered medications;
- How to obtain payment for drugs and services;
- The Special Pharmacy ID number; and
- Dates of coverage.
28.4 COMMON ELIGIBILITY REQUIREMENTS

28.4.1 RESIDENCE

The applicant must be a West Virginia resident.

28.4.2 CITIZENSHIP STATUS

The Medicaid policy/procedures in Section 15.7.5 apply to Special Pharmacy.

28.4.3 COOPERATION WITH QUALITY CONTROLS

Cooperation with Quality Control does not apply to Special Pharmacy.

28.4.4 LIMITATIONS ON RECEIPT OF OTHER BENEFITS

The applicant may receive other Department of Health and Human Resources (DHHR) benefits for which he qualifies, with the exception of Qualified Medicare Beneficiary (QMB) or full coverage Medicaid.

28.4.5 NON-DUPLICATION OF BENEFITS

The individual cannot be a recipient of QMB, a recipient of any other full coverage Medicaid group, or receive Special Pharmacy in more than one county concurrently.
28.4.6 ENUMERATION

The enumeration requirements in Section 2.7 for Medicaid apply.
28.5 ELIGIBILITY DETERMINATION GROUPS

28.5.1 THE ASSISTANCE GROUP (AG)

28.5.1.A Who Must Be Included

The individual who qualifies for Special Pharmacy services is the only person in the AG.

28.5.1.B Who Cannot Be Included

The following individuals cannot be included:

- Recipients of any full coverage Medicaid group or Qualified Medicare Beneficiary (QMB) coverage group
- Any other person except the person who qualifies for anti-rejection/antipsychotic drugs

28.5.2 THE INCOME GROUP (IG)

The IG includes:

- The legal spouse of the Special Pharmacy applicant, if living in the home.
- All dependent children of the Special Pharmacy applicant who lives in the home. See Chapter 3.3 for the definition of a dependent child.

28.5.3 THE NEEDS GROUP (NG)

The income limit for the number of persons in the IG is used.
28.6 INCOME

28.6.1 TRANSFERS OF INCOME

The transfer of resources policy does not apply to Special Pharmacy.

28.6.2 INCOME SOURCES

The income sources in Section 4.3 are treated the same as for Supplemental Security Income (SSI)-Related Medicaid.

28.6.3 BUDGETING METHOD

The method used to anticipate monthly countable income is the same as the method outlined in Section 4.6.

28.6.4 INCOME DISREGARDS AND DEDUCTIONS

The only deduction is the monthly cost of anti-rejection/antipsychotic medication for the applicant.

28.6.5 DETERMINING ELIGIBILITY

Eligibility is determined as follows:

- Step 1: Determine the total gross income for the Income Group. See Section 28.6.
- Step 2: Subtract the costs for the anti-rejection/antipsychotic drugs the applicant would actually pay if not eligible for Special Pharmacy. Do not include any amount covered by Medicare or any other third party payer.
Step 3: Compare the remainder to 100% of the Federal Poverty Level (FPL) for the Needs Group. If the amount in Step 3 equals or exceeds 100% of the FPL, the client is ineligible. If the amount in Step 3 is less than 100% of the FPL, the client is eligible.

**Determining Eligibility Example:**

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Needs Group Size</td>
<td>= 1</td>
</tr>
<tr>
<td>100% FPL for 1</td>
<td>= $903</td>
</tr>
<tr>
<td>STEP 1: Income for Income Group (IG)</td>
<td>= $1,001</td>
</tr>
<tr>
<td>Clients Monthly Cost of Anti-rejection Drugs</td>
<td>= $350</td>
</tr>
<tr>
<td>STEP 2: Remainder</td>
<td>= $651</td>
</tr>
<tr>
<td>STEP 3: The remaining amount is less than 100% FPL for one, therefore, the applicant is eligible for Special Pharmacy.</td>
<td></td>
</tr>
</tbody>
</table>
28.7 ASSETS

There is no asset test for Special Pharmacy.
28.8 DATA EXCHANGE

The data exchange and matches described in Chapter 6 are not applicable to Special Pharmacy.
28.9 VERIFICATION

The client’s cost of the immunosuppressant/anti-rejection/antipsychotic drugs must be verified by the Worker. Gross monthly income for the applicant, applicant’s spouse and all dependent children living in the home must be verified.
28.10 RESOURCE DEVELOPMENT

The resource development policies do not apply to Special Pharmacy.
28.11 CASE MAINTENANCE

28.11.1 CHANGE IN INCOME AND DEDUCTIONS

A change in income and/or deductions between redeterminations does not result in ineligibility for the client, unless the changes result in eligibility for a full coverage Medicaid group.

The client must report a change of address, change in pharmacy, and any additions to or deletions from the household to the Worker. The Worker must forward all reported changes to the Bureau for Medical Services (BMS) Policy Unit.

28.11.2 AG CLOSURE

If the Special Pharmacy Program client becomes eligible for full coverage Medicaid, notification must be sent to the BMS Policy Unit immediately. The Special Pharmacy is closed after the Policy Unit notifies the Worker and advance notice is issued to the client. The Policy Unit notifies the services provider to close the Special Pharmacy case.
28.12  BENEFIT REPAYMENT

Benefit repayment does not apply for Special Pharmacy.
28.13 BENEFIT REPLACEMENT

If the client is unable to obtain his medication, the Worker must contact the Bureau for Medical Services (BMS) Policy Unit. The Policy Unit will contact the BMS to send another notification to the client.
28.14 ANTIPSYCHOTIC (ATYPICAL) DRUG MANAGEMENT AND TESTING

Individuals for whom antipsychotic (atypical) drugs have been prescribed, and who are not eligible for Medicaid due solely to failure to meet a spenddown, may have the cost of the medication paid by the Department of Health and Human Resources (DHHR). To qualify, it must be established that the cost of the antipsychotic drugs, if paid by the client, would reduce the family’s income to below 100% of the Federal Poverty Level (FPL) for a family of the same size. The individual must have been denied Medicaid for the above reason within six months of the date of the client’s request for payment. In addition, the Worker must review the case every six months to determine if the client remains ineligible for failure to meet a spenddown. If he continues to be ineligible for Medicaid due solely to failure to meet a spenddown at the time he requests payment of the antipsychotic (atypical) drugs, special approval is considered.

The Worker must submit a completed DFA-SP-1 to the Bureau for Medical Services (BMS) Medicaid Policy Unit to have the client considered for this special approval. The form must contain all of the information specified in Section 28.3.1, with the following additions:

- The average monthly out-of-pocket cost of antipsychotic drugs;
- The average monthly cost of lab tests; and
- The name of the facility that will perform the lab tests. No verification of the information submitted is required, unless the client does not know the information, or the Worker has reason to doubt the client’s statement.

Certain recipients of benefits from the Office of Children and Adult Services (CAS) are eligible to receive coverage for immunosuppressant drugs through the child welfare information system. During the application or renewal process, the Worker must inquire if the Special Pharmacy applicant is receiving medical coverage through CAS. If the Worker believes the individual may be receiving duplicate coverage or services through both the child welfare information system and the eligibility system, the Worker must electronically notify the BMS Medicaid Policy Unit with the following information:

- Applicant/Recipient’s Name
- Date of Birth
- Social Security Number (SSN)
- Client’s child welfare information system ID (if known)

Once the eligibility decision is made, the local office is notified by BMS Medicaid Policy Unit. The local office must notify the client of the decision in writing. BMS will notify the service provider and the service provider will notify the client how to obtain payment for...
medication/treatment and provide a list of medications covered, Medicaid ID number and dates of coverage. No Medical ID card is issued.

A list of all antipsychotic (atypical) drugs may be found on the BMS website by clicking on Preferred Drug List.

# Glossary

The following is a list of terms commonly found throughout the West Virginia Income Maintenance Manual (IMM), and their definitions. Additionally, the chapter(s) in which the terms are found are included.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
<th>Chapter(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>36-Month Period (ABAWD Only)</strong></td>
<td>A fixed period for all individuals regardless of client’s status or the county or state of residence.</td>
<td>3</td>
</tr>
<tr>
<td><strong>ABAWD</strong></td>
<td>ABAWD (Able Bodied Adults Without Dependents) is a population of individuals who are age 18 or older, but not yet age 50. An individual who turns 18 becomes an ABAWD in the month following their birthday. An individual is no longer an ABAWD in the month of their 50th birthday.</td>
<td>1, 3, 4, 7, 10, 13, 14, 17</td>
</tr>
<tr>
<td><strong>ABLE Account</strong></td>
<td>A tax-free saving account set-up for individuals with disabilities to be used for qualified disability expenses such as, but not limited to, education, transportation, housing, medical, dental care, community based supports services, employment training and assistive technology.</td>
<td>4, 5, 7, 10, 24</td>
</tr>
<tr>
<td><strong>Accessibility of Assets</strong></td>
<td>A client may not have access to certain assets. In order to be considered an asset, the asset must be owned by, or available to, the client. If the client cannot legally dispose of the asset, it is not treated as an asset.</td>
<td>5</td>
</tr>
<tr>
<td><strong>Additional Three-Month Period (ABAWD Only)</strong></td>
<td>Three consecutive months of SNAP benefits after regaining eligibility by fulfilling the ABAWD work requirement.</td>
<td>3</td>
</tr>
<tr>
<td><strong>Adjusted Gross Income</strong></td>
<td>The amount of taxable income of a household minus specific deductions allowed under federal law. See Section 4.7 for instructions on calculating adjusted gross income.</td>
<td>4</td>
</tr>
<tr>
<td><strong>Administrative Redetermination</strong></td>
<td>A redetermination process occurring without active participation by the client for Medicaid Groups and the West Virginia Children’s Health Insurance Program (WVCHIP). This process is designed to occur electronically or by a pre-populated form, rather than requiring the completion of a blank application.</td>
<td>4</td>
</tr>
<tr>
<td><strong>Administrative Terminal</strong></td>
<td>EBT vendor system used to inquire into EBT account information, reactivate expunged accounts, deactivate EBT</td>
<td>1</td>
</tr>

<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------</td>
</tr>
<tr>
<td>cards and, in some instances, make changes to the EBT account.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Admission Number</td>
<td>An 11-digit number assigned to a noncitizen when he enters the United States (U.S.). This number is frequently found on the Arrival-Departure Record (Form I-94) and should not be confused with the Noncitizen Registration Number (A-Number) defined below.</td>
<td>15</td>
</tr>
<tr>
<td>Available Resources (Emergency and Special Assistance Only)</td>
<td>Cash-on-hand, checking or savings account balances or other readily accessible funds not already obligated for food, shelter, or home heating.</td>
<td>20</td>
</tr>
<tr>
<td>Advance Premium Tax Credit (APTC)</td>
<td>A federal tax credit through Federally Facilitated Marketplace (FFM) that will help make a Qualified Health Plan (QHP) affordable by reducing a taxpayer’s out-of-pocket premium when enrolled through the Marketplace.</td>
<td>1, 4, 22, 23</td>
</tr>
<tr>
<td>Affordable Care Act</td>
<td>The Patient Protection and Affordable Care Act enacted March 23, 2010, and the Health Care and Education Reconciliation Act enacted March 30, 2010, are collectively referred to as the Affordable Care Act.</td>
<td>1, 3, 4, 6, 22, 23, 24</td>
</tr>
<tr>
<td>Aged</td>
<td>This is also referred to as ELDERLY. Medicaid: An individual who is at least age 65. Supplemental Nutrition Assistance Program (SNAP) and WV WORKS: An individual who is at least age 60.</td>
<td>4</td>
</tr>
<tr>
<td>Alien</td>
<td>Any person who is not a citizen or national of the U.S.; also referred to as a noncitizen.</td>
<td>15</td>
</tr>
<tr>
<td>Alien Registration Number or United States Citizenship and Immigration Services Number (USCIS/A-Number)</td>
<td>A seven or eight-digit number assigned to a noncitizen at the time his Alien File is created.</td>
<td>15</td>
</tr>
<tr>
<td>Alien Registration Receipt Card</td>
<td>An Immigration and Naturalization Service (INS) document that certifies lawful permanent resident status, commonly called a Green Card; older versions may be green,</td>
<td>15</td>
</tr>

<td></td>
</tr>
<tr>
<td>the INS form number I-151 or I-551.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Alien Status Verification Index</td>
<td>A database designed for the use of entitlement benefit agencies in verifying noncitizen immigration status in accordance with the Immigration Reform and Control Act of 1986 (IRCA).</td>
<td>15</td>
</tr>
<tr>
<td>All Family Household (WV WORKS)</td>
<td>Families that do not meet the definition of a two-parent family are considered “All Family” Households regardless of the number of parents or other adults included in the household. All Family Households include, but are not limited to, the following situations:</td>
<td>18</td>
</tr>
<tr>
<td></td>
<td>• Families with only one parent living in the home, whether he is included in the AG or is a non-recipient Work-Eligible Individual.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Families with two parents with a common child living together and one is excluded from the WV WORKS payment due to one of the following reasons:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o Minor parent who is not the head-of-household;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o Ineligible noncitizen due to immigration status; or</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o SSI recipient.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Families with one parent and one stepparent included in the benefit when they have no common child.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Families with one or two non-parent caretaker relatives included in the WV WORKS payment.</td>
<td></td>
</tr>
<tr>
<td>Allocation Standard</td>
<td>The difference between the maximum Supplemental Security Income (SSI) payment for one and two persons.</td>
<td>4</td>
</tr>
<tr>
<td>Allotment</td>
<td>An appropriation of one individual's income diverted to another, such as a military allotment.</td>
<td>4</td>
</tr>
<tr>
<td>SNAP Benefit Allotment</td>
<td>The approved monthly benefit that is deposited into an electronic benefits transfer (EBT) account for the client to purchase food for home preparation or seeds and plants that produce food for home consumption.</td>
<td>4</td>
</tr>
<tr>
<td>Amerasian (Vietnam)</td>
<td>Children born in Vietnam to Vietnamese mothers and American fathers and are admitted to the U.S. under P.L. 100-202 as immigrants, but are entitled to the same social services and assistance benefits as refugees. Spouses,</td>

<tr>
<td>children, and parents or guardians may accompany the noncitizen to the U.S.</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>AmeriCorps</strong></td>
<td>A national service program administered by the Corporation for National and Community Service (CNCS). Included in the AmeriCorps Network of programs are AmeriCorps USA, AmeriCorps Volunteers in Service to America (VISTA), and AmeriCorps National Civilian Community Corps (NCCC). Closely associated with the AmeriCorps Programs are: the Senior Corps, the Youth Corps, and Learn and Serve, which are also administered by CNCS.</td>
<td>4</td>
</tr>
<tr>
<td>Amortization Schedule</td>
<td>The schedule of payments for paying off a loan.</td>
<td>5</td>
</tr>
<tr>
<td>Annuitant</td>
<td>An annuitant is defined as a person who receives an annuity.</td>
<td>24</td>
</tr>
<tr>
<td>Annuity</td>
<td>An investment contract or agreement, which gives the right to receive fixed, periodic payments, either for life or a specific term of years</td>
<td>4, 5, 24</td>
</tr>
<tr>
<td>Assets</td>
<td>Total real and personal property the client has available to meet financial needs, including the value of assets assigned from certain individuals. Assets may be liquid or non-liquid.</td>
<td>5</td>
</tr>
<tr>
<td>Assistance Group (AG)</td>
<td>A group of people who apply for or receive assistance together for a program.</td>
<td>1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19, 20, 21, 22, 23, 24, 26, 28</td>
</tr>
<tr>
<td>Asylee</td>
<td>A noncitizen already in the U.S. or at a port of entry who is granted asylum in the U.S. Asylum may be granted to those persons who are unable or unwilling to return to their countries of nationality, or to seek the protection of those countries, because of persecution or a well-founded fear of persecution. This status is covered by Section 208 of the Immigration and Nationality Act of 1952 (INA). See REFUGEE, which explains the difference between asylum and refuge in the U.S.</td>
<td>15</td>
</tr>
<tr>
<td>Authorized Cardholder</td>
<td>An individual, who, in addition to the payee, may be issued an EBT card and access to the EBT account.</td>
<td>1</td>
</tr>
<tr>

<td>Definition</td>
<td>Chapter (s)</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------</td>
</tr>
<tr>
<td>Authorized Representative</td>
<td>An individual designated by an applicant or client to act on his or her behalf.</td>
<td>1, 2, 3, 7, 10, 11, 15, 16, 24, 26</td>
</tr>
<tr>
<td>Authorized Representative (Employer's)</td>
<td>An individual designated by an employer or training facility to act on its behalf.</td>
<td>18</td>
</tr>
<tr>
<td>Available Resources</td>
<td>Cash-on-hand, checking or savings account balances or other readily accessible funds not already obligated for food, shelter, or home heating.</td>
<td>20</td>
</tr>
<tr>
<td>Asset Verification System (AVS)</td>
<td>An electronic system to gather reported and unreported asset matches to assist in the eligibility determination for appropriate programs.</td>
<td>6</td>
</tr>
<tr>
<td>Basic Needs</td>
<td>The primary needs of individuals or families, such as food, clothing, shelter, and incidentals</td>
<td>4</td>
</tr>
<tr>
<td>Bed-hold Days</td>
<td>A reservation that allows one to stay in, or return to, a care facility. The reservation is usually made just before relocation to the facility or during furloughs away from it (e.g., in hospital or on family visits).</td>
<td>24</td>
</tr>
<tr>
<td>Beneficiary</td>
<td>A person to whom benefits are payable.</td>
<td>5</td>
</tr>
<tr>
<td>Blindness</td>
<td>To meet the definition of blindness, the individual must have:</td>
<td>1, 13</td>
</tr>
<tr>
<td></td>
<td>• Central visual acuity that cannot be corrected to better than 20/200 in the better eye; or</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• A limitation of the field of vision in the better eye so that the widest diameter of the visual field subtends an angle of 20 degrees or less.</td>
<td></td>
</tr>
<tr>
<td>Bona Fide Loan</td>
<td>Aid to Families with Dependent Children (AFDC)-Related Medicaid Only: A loan that meets one of the following conditions:</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>The client has proof that the loan was obtained from an individual or establishment engaged in the business of making loans; or</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The client and the lender have completed and signed form ES-AP-75 (Verification of Loan Conditions) to acknowledge the obligation to repay the loan, with or without interest.</td>
<td></td>
</tr>
<tr>
<td>Bonds</td>
<td>U.S. Government, municipal or corporate.</td>
<td>5</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
<td>Chapter (s)</td>
</tr>
<tr>
<td>------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------</td>
</tr>
<tr>
<td>Bulk Fuel</td>
<td>Home heating or cooking fuel such as coal, fuel oil, liquefied petroleum gas (LPG), or kerosene which must be purchased in certain quantities and stored on site.</td>
<td>20</td>
</tr>
<tr>
<td>Burial Contract</td>
<td>An agreement in which a provider of funeral services and burial items agrees to provide burial services or other final arrangements.</td>
<td>5</td>
</tr>
<tr>
<td>Burial Funds</td>
<td>Burial funds include revocable burial contracts, revocable and irrevocable burial trusts, cash, savings bonds, and any other separately identifiable assets which an individual states are intended for expenses connected with burial, cremation, or other funeral arrangements.</td>
<td>5</td>
</tr>
<tr>
<td>Burial Insurance</td>
<td>Insurance with terms specifically providing that the proceeds can be used only to pay burial expenses of the insured individual.</td>
<td>5</td>
</tr>
<tr>
<td>Burial Rate</td>
<td>The maximum allowable payment that the Department of Health and Human Resources (DHHR) will make toward the cost of a funeral.</td>
<td>20</td>
</tr>
<tr>
<td>Burial Spaces</td>
<td>Conventional grave sites, crypts, mausoleums, urns, vaults or other repositories which are customarily and traditionally used for the remains of deceased persons. Burial spaces include the following:</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>• Headstones, markers or plaques</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Burial containers for caskets</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Arrangements for opening and closing the gravesite</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Reasonable maintenance of such spaces.</td>
<td></td>
</tr>
<tr>
<td>Burial Trust Funds</td>
<td>Assets placed in a trust fund for burial expenses.</td>
<td>5</td>
</tr>
<tr>
<td>Buy-In</td>
<td>The Department of Health and Human Resources (DHHR) “buys in,” or pays, the Medicare Part A and/or Part B premium for certain Medicaid clients who are also eligible for Medicare. This procedure is referred to as the buy-in process.</td>
<td>25</td>
</tr>
<tr>
<td>Case Composition</td>
<td>The case is composed of the institutionalized individual, a spouse living in the community, and any of the individual’s dependents. A Medicaid-eligible spouse receives benefits in his own case, whether he is also institutionalized or not.</td>
<td>24</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
<td>Chapter(s)</td>
</tr>
<tr>
<td>---------------------------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>------------</td>
</tr>
<tr>
<td>Cash</td>
<td>For the purposes of Chapter 20 (Emergency Assistance), funds or money in the form of currency or any negotiable instrument that is in the possession of the applicant or any member of the assistance group (AG) at the time of application.</td>
<td>20</td>
</tr>
<tr>
<td>Cash Savings</td>
<td>The amount of savings or cash-on-hand held by the client or for him by another person.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>5</td>
</tr>
<tr>
<td>Cash Surrender or Cash-in Value (life insurance)</td>
<td>The amount of cash received by the owner of the policy, if redeemed before death of the insured.</td>
<td>5</td>
</tr>
<tr>
<td>Categorically Eligible SNAP AG</td>
<td>An AG which is automatically eligible for the SNAP program without application of the usual eligibility tests.</td>
<td>5</td>
</tr>
<tr>
<td>Central Index System (CIS)</td>
<td>An automated system containing information on noncitizens. The CIS, from which ASVI is extracted, is the INS' most complete database of information on noncitizens in the U.S.</td>
<td>15</td>
</tr>
<tr>
<td>Certificate of Citizenship</td>
<td>An identity document proving U.S. citizenship.</td>
<td>15</td>
</tr>
<tr>
<td>Certificate of Deposit (CD)</td>
<td>Funds held in an account that specifies a maturity date.</td>
<td>5, 7, 11, 20, 26</td>
</tr>
<tr>
<td>Certificate of Naturalization</td>
<td>An identity document proving U.S. citizenship.</td>
<td>15</td>
</tr>
<tr>
<td>Change of Nonimmigrant Status</td>
<td>The action of changing a nonimmigrant's classification (e.g., from visitor to student).</td>
<td>15</td>
</tr>
<tr>
<td>Child</td>
<td>SNAP Only: An individual who is not yet 18, nor the head of a household. AFDC-Related Medicaid and WV WORKS Only: See Section 3.3 for definition of a dependent child for these programs. SSI-Related Medicaid, CDCSP, PAC, QDWI, QMB, SLIMB and QI-1 Only: When an individual meets the SSI definition of a child, he may be entitled to additional income disregards or deductions, have income deemed to him or have his needs considered when income is deemed from an ineligible individual to an eligible one. A Child is:</td>
<td>4</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
<td>Chapter(s)</td>
</tr>
<tr>
<td>----------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>------------</td>
</tr>
<tr>
<td>Deeming (defined below) to an eligible child no longer applies beginning the month following the month the child attains age 18 or is over 18 and is no longer a student. Modified Adjusted Gross Income (MAGI) Coverage Groups: For MAGI Medicaid coverage groups where eligibility is determined based on MAGI methodology, a child is defined an individual under the age of 19.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Chronic Homelessness</td>
<td>The lack of consistent living arrangements, including homeless shelters, for a period of 90 days prior to the date of the determination or the client has an extended history that demonstrates a pattern suggesting the inability to find suitable, long-term housing.</td>
<td>13</td>
</tr>
<tr>
<td>Citizen</td>
<td>A person born in a country or who has become a naturalized citizen of that country.</td>
<td>15</td>
</tr>
<tr>
<td>Community Spouse</td>
<td>A spouse living in the community whose spouse is an institutionalized individual. This definition is used when one spouse is applying for long term care (LTC) benefits and the other spouse is not, and is used in conjunction with the definition of institutionalized spouse.</td>
<td>5, 24</td>
</tr>
<tr>
<td>Competitive Employment</td>
<td>Competitive employment includes self-employment and non-traditional work which is compensated at or above the federal minimum hourly wage in a setting that also includes, or could include, non-disabled individuals. This does not include settings such as sheltered workshops if less than minimum wage is paid.</td>
<td>23, 26</td>
</tr>
<tr>
<td>Conditional Eligibility</td>
<td>WV WORKS Only: The period of time during which eligibility is allowed, even though assets exceed the maximum allowable asset limit.</td>
<td>5</td>
</tr>
<tr>
<td>Conditional Entrant</td>
<td>A refugee.</td>
<td>15</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
<td>Chapter (s)</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------</td>
</tr>
<tr>
<td><strong>Conditional Permanent Resident</strong></td>
<td>A conditional permanent resident receives a Permanent Resident Card valid for two years. In order to remain a permanent resident, a conditional permanent resident must file a petition to remove the condition during the 90 days before the card expires. The conditional card cannot be renewed. The conditions must be removed or permanent resident status will be lost.</td>
<td>15</td>
</tr>
<tr>
<td><strong>Conditional Resident Noncitizen</strong></td>
<td>A noncitizen granted conditional resident status based on marriage to a U.S. citizen or national, or a permanent resident noncitizen; conditional status is removed after two years if INS rules favorably on a petition by the noncitizen for retention of lawful permanent residence. (The noncitizen's children, under the age of 18, can also be granted this status.) During the pendency of any such petition not adjudicated by the end of the two years, the noncitizen can present his I-551 and an INS receipt for the filed petition as proof of work authorization.</td>
<td>15</td>
</tr>
<tr>
<td><strong>Continuing Care Retirement Community (CCRC)</strong></td>
<td>A residential community, also known as a life care community, which offers services for the remainder of an individual’s life, with a choice of services and living situations, based on changing needs at each point in time. Individuals that enter these communities sign a long-term contract that includes housing, services, and nursing care, usually provided in one location, enabling seniors to remain in a familiar setting as they age. These service and housing packages parallel independent living, assisted living, and skilled nursing facilities. Seniors who are independent may live in a single family home, apartment, or condominium within the continuing care retirement complex. If they begin to need assistance with activities of daily living, (i.e., mobility, eating, bathing, dressing, etc.), they may be transferred to an assisted living or skilled nursing facility on the same site.</td>
<td>5</td>
</tr>
<tr>
<td><strong>Contract Beneficiary</strong></td>
<td>Any entity that is named in a contract as the beneficiary.</td>
<td>5</td>
</tr>
<tr>
<td><strong>Contract Buyer</strong></td>
<td>A person who purchases goods or services as specified in a contract.</td>
<td>5</td>
</tr>
<tr>
<td><strong>Contract Seller</strong></td>
<td>A person, his agent or his employee who sells, makes available or provides contracts.</td>
<td>5</td>
</tr>
<tr>

<td>Definition</td>
<td>Chapter(s)</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>------------</td>
</tr>
<tr>
<td>Converting Income and Deductions</td>
<td>The method used to change income and deductions paid less often than monthly to a monthly amount.</td>
<td>4</td>
</tr>
<tr>
<td>Conversion or Sale of an Asset</td>
<td>The sale or exchange of an asset from liquid to non-liquid or non-liquid to liquid.</td>
<td>5</td>
</tr>
<tr>
<td>Cost-of-living Adjustments (COLA)</td>
<td>Adjustments to entitlement benefits, pensions or other retirement income such as Retirement, Survivors, and Disability Insurance (RSDI), Black Lung and Railroad Retirement.</td>
<td>4</td>
</tr>
<tr>
<td>Corporation for National Service (CNCS)</td>
<td>The federal government administers a number of national and community service programs such as, but not limited to, AmeriCorps and the NCCC. In addition, it administers the former ACTION Agency programs created by the Domestic Volunteer Act of 1973. Former ACTION programs include, but are not limited to, AmeriCorps VISTA, University Year of Action, Urban Crime Prevention Program, Retired Senior Volunteer Program (RSVP) and Foster Grandparents.</td>
<td>4</td>
</tr>
<tr>
<td>Countable Income</td>
<td>The amount of income after all allowable exclusions, disregards and deductions have been applied. The eligibility and level of benefit are based on this amount. MAGI Medicaid Coverage Groups Only: For these groups, eligibility is not based on countable income, it is based on the MAGI calculated as outlined in Section 4.7.</td>
<td>4</td>
</tr>
<tr>
<td>Countable Months (ABAWD Only)</td>
<td>Months in which the client receives a full monthly benefit while not exempt or meeting the ABAWD work requirement.</td>
<td>3</td>
</tr>
<tr>
<td>Creditable (Non-excepted) Insurance Benefits</td>
<td>Benefits that affect WVCHIP eligibility.</td>
<td>22</td>
</tr>
<tr>
<td>Creditor</td>
<td>The owner of an agreement such as a promissory note or a property agreement such as a land sale contract. A creditor or lender is the seller of the property or holder of a promissory note.</td>
<td>5</td>
</tr>
<tr>
<td>Cuban/Haitian Entrant</td>
<td>The status afforded to (a) Cubans who entered the U.S. illegally between April 15, 1980, and October 10, 1980, and to (b) Haitians who entered the country illegally before 1980.</td>
<td>15</td>

<tr>
<td>January 1, 1981. This status is covered by Section 520(e) of Public Law 96-422.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Current Market Value (CMV)</td>
<td>Also called FAIR MARKET VALUE for Chapter 5 references. The amount an asset can be expected to sell for on the open market, in the particular geographic area. Market conditions are reflected in an asset's CMV.</td>
<td>5</td>
</tr>
<tr>
<td>Customer Service Representative (CSR)</td>
<td>The CSR for the EBT vendor who is reached through the IVRU toll-free number also referred to as the EBT Helpline. This person has the ability to replace or deactivate lost, stolen or damaged cards and to file a claim on behalf of a client regarding transactions.</td>
<td>1</td>
</tr>
<tr>
<td>Debt</td>
<td>Any form of legal indebtedness against an asset, such as mortgages, liens, loans, purchase contracts and security interests. For purposes of establishing equity value, a debt must be legally recognized as binding on the individual who holds the asset.</td>
<td>5</td>
</tr>
<tr>
<td>Dedicated Account</td>
<td>An SSI recipient, who is under age 18 and who has a representative payee, may have a dedicated account, so that back SSI payments can be deposited directly into the account. SSA regulations require that certain such payments be directly deposited. Other payments of the same type are not required to be deposited directly into the account, but may be deposited in the dedicated account at the discretion of the representative payee. SSA places certain restrictions on the use of the funds deposited into these accounts. SSI representative payees receive notification from SSA that a dedicated account must be established and also receive notification when an SSI back payment amount is directly deposited.</td>
<td>5</td>
</tr>
<tr>
<td>Deduction</td>
<td>A specific amount subtracted from income. Allowable deductions are different, depending upon the program involved.</td>
<td>4</td>
</tr>
<tr>
<td>Deeming</td>
<td>The process by which the treatment of income of individuals, not included in the assistance group (AG), but living in the home, is counted for the AG, whether or not the income is actually made available. There are two methods by which this may be accomplished: by treating the deemor's income as if he were included in the AG or by allowing for the needs of the deemor, as well as the needs of others for whom he is</td>

<th>Chapter(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency</td>
<td>Being without or in immediate danger of being without a basic necessity, such as food, shelter, heat, etc., and having no available resources with which to obtain it.</td>
<td>20</td>
</tr>
<tr>
<td>Employment</td>
<td>A situation in which a wage, salary or commission is paid to an individual for services rendered. The employer usually takes the responsibility for withholding income taxes and FICA taxes from the wages. However, if this is not done, the employee may pay these taxes himself without affecting his status as an employee. The employer controls such things as hours worked, what is done and where the work is located.</td>
<td>4</td>
</tr>
<tr>
<td>Endowment for Perpetual Care</td>
<td>A contract for care and maintenance of a grave site.</td>
<td>5</td>
</tr>
<tr>
<td>English as a Second Language (ESL) or English for Speakers of Other Languages (ESOL)</td>
<td>The use or study of English by speakers with different native languages.</td>
<td>15, 18</td>
</tr>
<tr>
<td>Equity Value</td>
<td>The CMV, less any legal debts, such as mortgages, liens, etc. This is determined by multiplying the amount of the installment payment by the number of payments left and subtracting this amount from the CMV.</td>
<td>5</td>
</tr>
<tr>
<td>Excepted Insurance Benefits</td>
<td>Benefits that do not affect WVCHIP eligibility.</td>
<td>22</td>
</tr>
<tr>
<td>Excessive Home Equity</td>
<td>This definition is used in the determination of eligibility for LTC for Medicaid. Excessive home equity can result in a denial of payment for LTC or waiver services when the equity in the homestead exceeds the current allowable maximum. This amount changes every year. A denial for excessive home equity is subject to the Undue Hardship Provision.</td>
<td>5</td>
</tr>
<tr>
<td>Excluded</td>
<td>Assets which are not considered when determining asset eligibility.</td>
<td>5</td>
</tr>
<tr>
<td>Excluded by Law</td>
<td>An individual specifically excluded from the AG by Federal or State law.</td>
<td>4</td>
</tr>
<tr>
<td>Exclusion</td>
<td>Income or assets that are treated as if they do not exist.</td>

</tr>
<tr>
<td>Face Value (life insurance)</td>
<td>The specified amount payable on death of the insured, usually listed on the front of the policy, is the amount guaranteed and premium terms agreed upon via contract at the time of purchase. When the premium payment specified in the contract has been fulfilled and premium payments continued to be made resulting in additional paid-up insurance, the policy's death benefit, i.e., face value, has increased and the current amount counted.</td>
<td>5</td>
</tr>
<tr>
<td>Fair Market Value (FMV)</td>
<td>The FMV is an estimate of the value of a resource, if sold at the prevailing price at the time it was actually transferred.</td>
<td>24</td>
</tr>
<tr>
<td>Family</td>
<td>For the benefits covered in Chapter 20 (Emergency Assistance), a group of two or more persons related by birth, marriage, or adoption who live together.</td>
<td>20</td>
</tr>
<tr>
<td>Family Unit</td>
<td>Provides protection from deportation and eligibility for employment authorization to the spouses and children of noncitizens who were legalized under the IRCA.</td>
<td>15</td>
</tr>
<tr>
<td>Federal Data Hub</td>
<td>An electronic Federal data service through which the Department of Health and Human Resources (DHHR) will obtain information from federal agencies or other data sources such as the Social Security Administration (SSA), the Department of Treasury and Homeland Security.</td>
<td>4</td>
</tr>
<tr>
<td>Federally-Facilitated Marketplace (FFM)</td>
<td>This term refers to a State or Federally-Facilitated Health Insurance Marketplace and is also referred to as The Marketplace. It is a governmental agency or non-profit entity that makes Qualified Health Plans (QHP) available to qualified individuals. The Marketplace will allow individuals to: compare private health plans; obtain answers to questions about health coverage options; determine if they are eligible for tax credits for private insurance or health programs like Medicaid and WVCHIP; and enroll in a health plan that meets their needs. The Marketplace must have a consumer assistance function, including the navigator program. The Marketplace must provide for operation of a toll-free call center and must maintain an up-to-date Internet website. States must coordinate with the State or Federal Exchange to share eligibility date and eligibility determinations for applicants for Medicaid, WVCHIP or the Marketplace.</td>

</table>
| Homeless Individual           | A homeless individual is a person who lacks a fixed or regular nighttime residence, or a person whose primary nighttime residence is one of the following:  
• A supervised shelter designed to provide temporary accommodations, such as a congregate shelter;  
• A halfway house or similar institution that provides temporary residence for persons who might otherwise be institutionalized;  
• A temporary accommodation in the residence of another individual. Homeless is defined in this manner for up to a 90-day period. When the homeless individual(s) moves from one residence to another, a new 90-day period begins. A 90-day period in one residence continues when there is a break in participation; or  
• A place not designed for, or ordinarily used, as a regular sleeping accommodation for human beings, such as a vehicle, a hallway, a bus station, a lobby or similar places. | 16         |
<p>| Homeless Meal Provider        | A homeless meal provider is a public or private non-profit establishment, such as, but not limited to, a soup kitchen or temporary shelter which is approved by the State and feeds homeless persons. | 16         |</p>

<tr>
<td><strong>Transient</strong></td>
<td>An individual who is traveling or passing through a locality and experiences an emergency that makes it necessary to return to his home community. The home community does not need to be in West Virginia. The definition of transient does not include individuals who are visiting within the locality or who arrived with the intent to obtain temporary to permanent employment or otherwise remain within the locality on a temporary or permanent basis. In addition, an individual who finds temporary or permanent employment within a locality, but later decides to return to his home community does not meet the definition of a transient.</td>
<td>20</td>
</tr>
<tr>
<td><strong>Trust</strong></td>
<td>Any arrangement in which a grantor transfers property to a trustee(s) with the intention that it be held, managed or administered by the trustee(s) for the benefit of the grantor or certain designated individuals (beneficiaries). The trust must be valid under State law and manifested by a valid trust instrument or agreement. A trustee holds a fiduciary responsibility to manage the trust's corpus and income for the benefit of the beneficiaries. For Medicaid, the term trust also includes any legal instrument or device that is similar to a trust. Legal Instrument Or Device Similar To A Trust: Any legal instrument, device or arrangement which may not be called a trust under State law, but which is similar to a trust. That is, it involves a grantor who transfers property to an individual or entity with the intention that it be held, managed or administered by the individual or entity for the benefit of the grantor or others. This may include, but is not limited to,</td>

<td>escrow accounts, investment accounts, pension funds, and other similar entities managed by an individual or entity with fiduciary obligations.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Trust Fund</td>
<td>A legal vehicle which allows money to be held by one individual (the trustee) for the benefit of another (the beneficiary).</td>
<td>4</td>
</tr>
<tr>
<td>Trustee</td>
<td>Person or institution which holds legal title to property for the benefit or use of another.</td>
<td>5</td>
</tr>
<tr>
<td>Two-Parent Family (WV WORKS)</td>
<td>In a two-parent family, for these purposes only, neither parent is incapacitated or disabled according to the Social Security Administration (SSA) definition, and the family meets one of the following criteria:</td>
<td>18</td>
</tr>
<tr>
<td></td>
<td>• There are two natural or adoptive parents, who are Work-Eligible Individuals, of the same minor child living in the home and included in the same WV WORKS payment.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• There are two parents with a common child living together and one or both is excluded from the WV WORKS payment unless the exclusion is due to one of the following reasons:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o Minor parent who is not the head-of-household;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o Ineligible noncitizen due to immigration status; or</td>
<td></td>
</tr>
<tr>
<td></td>
<td>o SSI recipient.</td>
<td></td>
</tr>
<tr>
<td>Uncompensated Value</td>
<td>For Chapter 5, uncompensated value is the CMV, less any outstanding loans, mortgages or other encumbrances on the asset, minus the amount of compensation received by the AG.</td>
<td>5</td>
</tr>
<tr>
<td>Uncompensated Value</td>
<td>For long term care, the uncompensated value is the difference between the FMV at the time of transfer (less any outstanding loans, mortgages, or other encumbrances on the resource) and the amount received for the resource.</td>
<td>24</td>
</tr>
<tr>
<td>Undocumented Noncitizen</td>
<td>A noncitizen in the U.S. without proper documentation. He is in violation of U.S. immigration law. (See also the definition for illegal noncitizen for a broader explanation of unauthorized noncitizens in the U.S.).</td>
<td>15</td>
</tr>
<tr>
<td>Undue Hardship</td>
<td>Applies to Medicaid LTC groups only. This condition exists with the application of one or more of the following asset policies:</td>

<td>------------</td>
</tr>
<tr>
<td>Excessive home equity; Transfer to a non-permissible trust; and/or A transfer of assets penalty results in the denial of payment of LTC services, and causes the individual to be deprived of medical care to the extent that the individual's health or life would be endangered or his food, clothing, shelter, or other necessities of life are at severe risk. When there has been a transferred asset, in order to meet Undue Hardship requirements, the individual must have exhausted all means, legal and otherwise, to receive CMV for and/or to regain the transferred asset. All means, legal or otherwise, refers to action through the court system and/or the voluntary return or recovery of the asset or item. Undue Hardship does not exist when the denial causes the individual inconvenience or might restrict his lifestyle, but would not put him at risk of serious deprivation.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Undue Hardship Committee</td>
<td>A standing committee comprised of representatives from BMS and DFA, that determines if an individual's denial for Medicaid LTC Services should be waived due to the individual's undue hardship condition as defined above.</td>
<td>5</td>
</tr>
<tr>
<td>Undue Hardship Provision</td>
<td>This provision only applies to individuals who are denied Medicaid LTC Services due to the application of the excessive home equity, transfer of asset to a non-permissible trust, and/or a transfer of assets penalty. The individual must be otherwise eligible for LTC Services.</td>
<td>5</td>
</tr>
<tr>
<td>Unearned income</td>
<td>Income which is not related, or only indirectly related, to the efforts or activities of the individual. Examples of unearned income are RSDI, SSI, VA benefits, pensions, compensation benefits, interest, royalties, allotments, contributions, and WV WORKS payments.</td>
<td>4</td>
</tr>
<tr>
<td>Uniform Gifts to Minors Act (UGMA)</td>
<td>The State law which allows an irrevocable gift of money or property, made to a minor, to be tax-free. This may also be referred to as Uniform Transfer to Minors Act (UTMA).</td>
<td>5</td>
</tr>
<tr>
<td>United States</td>
<td>Defined in a geographical sense as the continental U.S., Alaska, Hawaii, Puerto Rico, Guam, U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands.</td>
<td>15</td>
</tr>
<tr>
<td>Unpaid Work (ABAWD Only)</td>
<td>Labor for an individual outside the AG or organization in which a person would traditionally be paid, but the client has chosen not to seek payment.</td>
<td>3</td>

</tr>
<tr>
<td>Unstated income</td>
<td>SSI-Related Medicaid and WV WORKS Only: Money that has not been reported, and that is not otherwise known to the DHHR, but is determined to exist because the client's paid living expenses exceed income from known sources.</td>
<td>4</td>
</tr>
<tr>
<td>Unsubsidized Employment (WV WORKS)</td>
<td>Work with earnings provided by an employer who does not receive a subsidy for the creation and maintenance of the employment position, or through self-employment.</td>
<td>18</td>
</tr>
<tr>
<td>Valuable Consideration</td>
<td>Valuable consideration means that an individual receives in exchange for his or her right or interest in a resource some act, object, service, or other benefit which has a tangible and/or intrinsic value to the individual that is roughly equivalent to or greater than the value of the transferred resource.</td>
<td>24</td>
</tr>
<tr>
<td>Vehicle</td>
<td>A car, truck, motorcycle, motor scooter, or a camper when the living section of the camper is a permanent part of the motorized section. To be considered a vehicle, it must require licensing to operate on public roadways, not necessarily be licensed. ATV's are treated as recreational vehicles, not as vehicles. See Section 5.1, QQ, 3 for SSI-Related vehicles. Also see RECREATIONAL VEHICLES AND EQUIPMENT.</td>
<td>5</td>
</tr>
<tr>
<td>Vulnerability, Vulnerable AGs</td>
<td>Vulnerable AGs are those which must pay the primary heating cost for the home in which they reside. AGs may also be considered vulnerable if there has been a documented increase in a rent or mortgage payment due to increased fuel costs. Clients who are temporarily away from home for medical, educational, or employment purposes, and who still must pay a heating cost for the dwelling, are considered vulnerable. This includes nursing home residents who are still maintaining a home and have a heating cost. Vulnerability also exists when the AG must pay at least a part of the cost of home heating, whether they pay just part of the cost each month or alternate payments with a third-party.</td>
<td>20</td>
</tr>
<tr>
<td>Welfare Fraud</td>
<td>Any person who obtains or attempts to obtain, or aids or abets an applicant or recipient in obtaining or attempting to obtain, by means of a willfully false statement or misrepresentation or by impersonation or any other fraudulent device:</td>
