Q1: What is the expected number of families to be served through the project? How many families in the past year would have benefited from these services? (In Kanawha County)

A1: Active CPS cases on 01/31/2020 = 697
Active Youth Services Cases on 01/31/2020 = 353
Number of CPS Referrals Received for February as of 02/28/2020 = 482; Accepted = 301
Number of Children in Placement for February as of 02/28/2020= 839

Q2: Is there an expectation of the time period of the grant?

A2: The period will initially be for one year and is listed as one-time funding. However, the specific time period and any extension will be dependent upon grantee startup timelines and expenditures during the initial grant period.

Q3: Have specific outcome measures/targets been established for the items listed on page 7 on expected results?

A3: Specific outcomes will be established by the provider in coordination with the ODCP - for example - how many children (or % of children) in the jurisdiction enter foster care with parental substance abuse as a primary risk factor? What are the average rates of parents completing at least one treatment episode? This baseline will help establish specific targets.

Q4: Are there additional goals of system integration / transformation / improvement. If so, what are these?

A4: Operators will be expected to use FACTS data entry system, future migration to PATH are anticipated in the next 24 months.
