Dear Commissioner Atkins:

We have reviewed the proposed Federal Medical Assistance Payment (FMAP) State Plan Amendment (SPA), West Virginia 13-008, which was submitted to the Centers for Medicare & Medicaid Services Philadelphia Regional Office on December 19, 2013. This SPA describes the methodology used by West Virginia for determining the appropriate FMAP rates, including the increased FMAP rates, available under the provisions of the Affordable Care Act applicable for the medical assistance expenditures under the Medicaid program associated with enrollees in the new adult group adopted by the State and described in 42 CFR §435.119.

Based on the information provided, the Medicaid SPA 13-008 is approved with an effective date of January 1, 2014. We are enclosing the approved Form CMS-179 and the Medicaid State Plan pages.

If you have any additional questions or need further assistance, please contact Margaret Kosherzenko at 215-861-4288.

State Plan Under Title XIX of the Social Security Act

State: West Virginia

METHODOLOGY FOR IDENTIFICATION OF APPLICABLE FMAP RATES

The State will determine the appropriate FMAP rate for expenditures for individuals enrolled in the adult group described in 42 CFR 435.119 and receiving benefits in accordance with 42 CFR Part 440 Subpart C. The adult group FMAP methodology consists of two parts: an individual-based determination related to enrolled individuals, and as applicable, appropriate population-based adjustments.

Part 1 – Adult Group Individual Income-Based Determinations

For individuals eligible in the adult group, the state will make an individual income-based determination for purposes of the adult group FMAP methodology by comparing individual income to the relevant converted income eligibility standards in effect on December 1, 2009, and included in the MAGI Conversion Plan (Part 2) approved by CMS on 01/28/2014. In general, and subject to any adjustments described in this SPA, under the adult group FMAP methodology, the expenditures of individuals with incomes below the relevant converted income standards for the applicable subgroup are considered as those for which the newly eligible FMAP is not available. The relevant MAGI-converted standards for each population group in the new adult group are described in Table 1.

   - □ Applies a resource proxy adjustment to a population group(s) that was subject to a resource test that was applicable on December 1, 2009.
   - ☑ Does NOT apply a resource proxy adjustment (Skip Items 2 through 3 and go to Section B).

Table 1 indicates the group or groups for which the state applies a resource proxy adjustment to the expenditures applicable for individuals eligible and enrolled under 42 CFR 435.119. A resource proxy adjustment is only permitted for a population group(s) that was subject to a resource test that was applicable on December 1, 2009.

2. Data source used for resource proxy adjustments:
   - The state:
     - □ Applies existing state data from periods before January 1, 2014.
     - □ Applies data obtained through a post-eligibility statistically valid sample of individuals.

Data used in resource proxy adjustments is described in Attachment B.

3. Resource Proxy Methodology: Attachment B describes the sampling approach or other methodology used for calculating the adjustment.

B. Enrollment Cap Adjustment (42 CFR 433.206(e))

1. ☑ An enrollment cap adjustment is applied by the state (complete items 2 through 4).
   - □ An enrollment cap adjustment is not applied by the state (skip Items 2 through 4 and go to Section C).
2. The enrollment cap or caps are as specified in the applicable section 1115 demonstration special terms and conditions as confirmed by CMS, or in alternative authorized cap or caps as confirmed by CMS. Attach CMS correspondence confirming the applicable enrollment cap(s).

3. The state applies a combined enrollment cap adjustment for purposes of claiming FMAP in the adult group:
   - [ ] Yes. The combined enrollment cap adjustment is described in Attachment C
   - [X] No.

4. Enrollment Cap Methodology: Attachment C describes the methodology for calculating the enrollment cap adjustment, including the use of combined enrollment caps, if applicable.

C. Special Circumstances (42 CFR 433.206(g)) and Other Adjustments to the Adult Group FMAP Methodology

1. The state:
   - [ ] Applies a special circumstances adjustment(s).
   - [X] Does not apply a special circumstances adjustment.

2. The state:

3. Attachment D describes the special circumstances and other proxy adjustment(s) that are applied, including the population groups to which the adjustments apply and the methodology for calculating the adjustments.
Part 3 – One-Time Transitions of Previously Covered Populations into the New Adult Group

A. Transitioning Previous Section 1115 and State Plan Populations to the New Adult Group

- Individuals previously eligible for Medicaid coverage through a section 1115 demonstration program or a mandatory or optional state plan eligibility category will be transitioned to the new adult group described in 42 CFR 435.119 in accordance with a CMS-approved transition plan and/or a section 1902(e)(14)(A) waiver. For purposes of claiming federal funding at the appropriate FMAP for the populations transitioned to new adult group, the adult group FMAP methodology is applied pursuant to and as described in Attachment E, and where applicable, is subject to any special circumstances or other adjustments described in Attachment D.

- The state does not have any relevant populations requiring such transitions.

Part 4 - Applicability of Special FMAP Rates
