Payment for Medical and Remedial Care and Services**Physician Services****Increased Primary Care Service Payment 42 CFR 447.405, 447.410, 447.415****Documentation of Vaccine Administration Rates in Effect 7/1/09**

The state uses one of the following methodologies to impute the payment rate in effect at 7/1/09 for code 90460, which was introduced in 2011 as a successor billing code for billing codes 90465 and 90471.

_____ The imputed rate in effect at 07/01/09 for code 90460 equals the rate in effect at 07/01/09 for billing codes 90465 and 90471 times their respective claims volume for a 12 month period which encompasses July 1, 2009. Using this methodology, the imputed rate in effect for code 90460 at 07/01/09 is:

A single rate was in effect on 07/01/09 for all vaccine administration services, regardless of billing code. This 2009 rate is: \$12.00. The State did not cover 90460. The State elected to cover 90471-90473 for vaccine administration services; however, the single rate was only applied to procedure codes 90471 and 90472.

Alternative methodology to calculate the vaccine administration rate in effect 07/01/09:

Service code 90473 was added as a benefit 08/01/08 but was not priced using the single rate as other administration services. Service code 90473 is priced using the MPFS Relative Units times the State derived CF which will be used as the basis for determining the rate in effect 7/1/09.

Note: This section contains a description of the state's methodology and specifies the affected billing codes.
