DESCRIPTION OF STATE'S RENEWAL TIMELINE POLICY

Two months prior to the renewal month the Automatic Renewal (ex parte) process will run. If successful, the Automatic Renewal process will extend the certification period appropriately and send a notice containing case information to the client for review.

One month prior to the renewal month, a batch process identifies all other Medicaid and WVCHIP individuals who are due for renewal the following month and sends prepopulated renewal forms to the client.

Renewal month - prepopulated renewal forms are due for processing. If returned, county Eligibility Workers process the renewal and determine eligibility. If the renewal form is not returned, or the client is found ineligible, enrollment will terminate on the last day of the renewal month.
