## HCPCS/Drug Code List Version 14.8 Revised 5/13/24

## List will be updated routinely

Disclaimer: For drug codes that require an NDC, coverage depends on the drug NDC status (rebate eligible, Non-DESI, non-termed, etc) on the date of service.

Note: Physician/Facility-administered medications are reimbursed using the Centers for Medicare and Medicaid Services (CMS) Part B Drug pricing file found on the CMS website--www.cms.gov.

In the absence of a fee, pricing may reflect the methodolgy used for retail pharmacies.

Go to data.medicaid.gov for a complete list of drug NDCs participating in the Medicaid drug rebate program.

Consult with each Managed Care Organization (MCO) about their coverage guidelines and prior authroization requirements, if applicable.

## Highlights represent updated material for each specific revision of the Drug Code List. NDC NDC unit P NP MW MH HS PO OPH Code Description **Brand Name** Category Service HI ID DC Special Instructions Limits OP OP TF req. for measure drug rebate 90281 human ig, im Gamastan Yes ML Antisera NONE X X X X Closed 3/31/13.
