Application for a §1915(c) Home and Community- Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

- **A.** The **State** of **West Virginia** requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
- **B.** Program Title (optional this title will be used to locate this waiver in the finder): Traumatic Brain Injury (TBI) Waiver
- C. Type of Request: new

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

	3 years 5 years
	New to replace waiver
	Replacing Waiver Number:
	Migration Waiver - this is an existing approved waiver
	Provide the information about the original waiver being migrated
	Base Waiver Number:
	Amendment Number
	(if applicable):
	Effective Date: (mm/dd/yy)
D.	Waiver Number: WV.0876.R00.00 Draft ID: WV.008.00.00 Type of Waiver (select only one):
	Regular Waiver
E.	Proposed Effective Date: (mm/dd/yy)
	02/01/12
	Approved Effective Date: 02/01/12

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (*check each that applies*):

H. Dual Eligiblity for Medicaid and Medicare.

Check if applicable:

This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods. The Traumatic Brain Injury (TBI) Waiver provides home and community-based services to West Virginia residents who are both medically and financially eligible to participate in the program. Members must also be at least Twenty-two (22) years of age and choose home and community-based services rather than nursing home placement. The purpose of the TBI Waiver is to prevent unnecessary institutionalization by providing cost-effective services in the member's home and community. The goals and objectives of this program are focused on providing services that are person-centered and promotes choice, independence, participant-direction, respect, dignity and community integration.

The Bureau for Medical Services (BMS) contracts with an Administrative Services Organization (ASO) to implement the administrative functions related to the operations of the Waiver. The ASO also assesses medical eligibility for program applicants, as well as, conducts annual re-evaluations for those receiving Waiver services. The ASO also authorizes TBI services for eligible members. APS Health Care, Inc. serves as the ASO for the TBI Waiver.

BMS contracts with a claims processing entity to process claims and with a Fiscal Employer Agent (FE/A) to support Waiver members who choose to direct their own services through the participant-directed model within the TBI Waiver. Public Partnerships, Inc. provides FE/A supports for Waiver members.

Individualized monthly budgets are established for each TBI Waiver member based upon their assessed needs. Members of the TBI Waiver have free choice of qualified providers for all Waiver services and can choose one of two service delivery models - Traditional or Participant-Directed. Members choosing the Traditional Model receive their services from certified and enrolled TBI Waiver providers. The services they can access include Personal Attendant Services, Case Management, and Cognitive Rehabilitation Therapy. Members who choose the Participant-Directed Model can use their monthly budget to hire employees to provide Personal Attendant Services. Members in the Participant-Directed Model can also use up to one-thousand (1000) dollars of their budget each year to purchase Participant-Directed Goods and Services (PDGS). The use of PDGS allows members to purchase items to address long-term care needs that are not provided via the Traditional Service Delivery Model.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- **C.** Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery.Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- **E.** Participant-Direction of Services. When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):
 - Yes. This waiver provides participant direction opportunities. Appendix E is required.
 - No. This waiver does not provide participant direction opportunities. Appendix E is not required.
- **F. Participant Rights.Appendix F** specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

- **G. Participant Safeguards.Appendix G** describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- **I. Financial Accountability.Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.
B. Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of

υ.	the Act in order to use institutional income and resource rules for the medically needy (select one):
	Not Applicable
	O No
	O Yes
C.	Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):
	No
	O Yes
	If yes, specify the waiver of statewideness that is requested <i>(check each that applies)</i> : Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to

	v
	Limited Implementation of Participant Direction A waiver of statewideness is requested in order to make

Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by

specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- **A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in **Appendix** C, adequate standards for all types of providers that provide services under this waiver;
 - 2. Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,

- **3.** Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.
- **B.** Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- **C. Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- **D.** Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.
- **F.** Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- **G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services. The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- **J. Services for Individuals with Chronic Mental Illness.** The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services)

- and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- **B.** Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.
- **C. Room and Board**. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix
 C.
- **E.** Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- **G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- **H. Quality Improvement.** The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in **Appendix H**.
- I. Public Input. Describe how the State secures public input into the development of the waiver:

 The statewide TBI waiver development council was made up of a cross section of stakeholders including providers, advocates, consumers, and policy makers and has met on a regular basis. During the course of these meetings the TBI waiver development and services were discussed. Information from these meetings along with information from West Virginia University Center for Excellence in Disabilities who provides regional coordinators around the state for persons with TBI was considered in the waiver development. A draft of the Waiver application was also posted for public comment on the BMS website.
- **J. Notice to Tribal Governments**. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

- 3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):
 - Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.: BMS contracts with the following entities to perform operational and administrative functions as follows:

- 1. Administrative Services Organization (ASO):
- Participant waiver enrollment
- Quality assurance and quality improvement activities
- Review of member Service Plans (participant-direction)
- Level of Care evaluation
- Prior authorization of Waiver services
- 2. Claims Processing Entity:
- Utilization management
- 3. Fiscal Employer/Agent (FE/A):
- Waiver expenditures managed against approved levels
- Utilization management
- Qualified Provider enrollment
- Execution of provider agreements
- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

	e of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational administrative functions and, if so, specify the type of entity (<i>Select One</i>):
0	Not applicable
	Applicable - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies: Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or
	regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.
	Specify the nature of these agencies and complete items A-5 and A-6:
	· ·
	Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the
	local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
	Specify the nature of these entities and complete items A-5 and A-6:
	Ĉ

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The Bureau for Medical Services (BMS) is responsible for assessing the performance of contracted entities with delegated Waiver operations and administrative functions.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

The Bureau for Medical Services (BMS) conducts monthly contract meetings with the ASO and the FE/A. These meetings cover all delegated functions performed by the contracting entities. In addition, the ASO provides a monthly program report and a quarterly Quality Management Report to BMS. The ASO also provides BMS a monthly activity report and a semi-monthly tracking report that detail the disposition of all referrals for medical eligibility. ASO reports cover delegated functions.

The FE/A provides a monthly program report and other regularly scheduled reports and ad hoc reports as requested. These reports cover delegated functions.

The claims processing entity provides a number of regular and ad hoc reports on claims data that cover delegated functions.

All reports are reviewed by management staff at

BMS and discussed at regularly scheduled contract meetings as warranted.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*): In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Data Source (Select one):

Number and percent of Medicaid oversight meetings where Waiver functions are discussed. (Numerator = # of Medicaid oversight meetings where Waiver functions are discussed Denominator = # of Waiver meetings).

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

				Maxin	num Age
Target Group	Included	Target SubGroup	Minimum Age	Maximum Age Limit	No Maximum Age Limit
Aged or Disable	ed, or Both - Gener	al	·	-	
		Aged			
		Disabled (Physical)			
		Disabled (Other)			
Aged or Disable	ed, or Both - Specif	ic Recognized Subgroups		•	
	✓	Brain Injury	22		√
		HIV/AIDS			
		Medically Fragile			
		Technology Dependent			
Intellectual Disa	ability or Developn	nental Disability, or Both	•		•
		Autism			
		Developmental Disability			
		Intellectual Disability			
Mental Illness					
		Mental Illness			
		Serious Emotional Disturbance			

b. Additional Criteria. The State further specifies its target group(s) as follows:

Members must be a resident of the State of West Virginia and at least 22 years of age. The individual must have a traumatic brain injury. A TBI is a non-degenerative, non-congenital insult to the brain caused by an external physical force resulting in total or partial functional disability and/or psychosocial impairment. Members must have deficits in five (5) Activities of Daily Living (ADLs) to meet nursing home level of care as assessed utilizing the Pre-Admission Screening (PAS) 2000. Members must also score at a Level VII or below on the Rancho Los Amigos Levels of Cognitive Functioning Scale. Applicants for the Waiver must be in-patient in a licensed nursing facility, in-patient hospital, or in a licensed rehabilitation facility to treat TBI or living in a community setting at the time of application.

	Applican	s must also score at a Level VII or below on the Rancho Los Amigos Levels of Cognitive Functioning Scale. Its for the Waiver must be in-patient in a licensed nursing facility, in-patient hospital, or in a licensed rehabilitation treat TBI or living in a community setting at the time of application.	
c.	individua	on of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to als who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of ints affected by the age limit (select one):	
	0	Not applicable. There is no maximum age limit	
	0	The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

-	O41	f	(ـ ١	
V	Other	safeguard(S	,

Specify:

A key Case Management function is to oversee the implementation of member services as outlined on the member's Service Plan. At a minimum, Case Managers must contact members monthly to review the implementation of the SP and address any identified issues or concerns.

Member budgets are based on their assessed needs. Members may request additional services at anytime. If the review by the ASO indicates that the member's service needs have changed based on the member's condition or other factors such as a change in living arrangement or availability of informal support, the ASO may authorize an increase to the member's budget. At no time however would a budget be authorized for more than the maximum amount approved for the waiver.

If at any time the Waiver cannot adequately ensure member's health and safety, the Case Manager must make appropriate referrals to other available resources in the community. As a last resort, if a member's health and welfare cannot be assured by utilizing Waiver and/or other available community resources, the member will be referred for institutional services.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	75
Year 2	100
Year 3	125

- **b.** Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):
 - The State does not limit the number of participants that it serves at any point in time during a waiver year.
 - The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

- **c. Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):
 - Not applicable. The state does not reserve capacity.
 - The State reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

- **d. Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule *(select one)*:
 - The waiver is not subject to a phase-in or a phase-out schedule.
 - The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
- e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

When the capacity for members served by the TBI Waiver is reached, applicants for Waiver services are placed on a Managed Enrollment List. Applications for entry to the program will be processed based on the date/time of their request for medical eligibility determination as capacity becomes available.

Appendix B: Participant Access and Eligibility

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (1 of 7)
In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.
a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:
Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.
Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a
community spouse, the State uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018. Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).
Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

A special income level equal to:

In the case of a participant with a community spouse, the State elects to (select one):
Use spousal post-eligibility rules under §1924 of the Act. (Complete Item B-5-b (SSI State) and Item B-5-d)
Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse. (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (2 of 7)
Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.
b. Regular Post-Eligibility Treatment of Income: SSI State.
The State uses the post-eligibility rules at 42 CFR 435.726. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:
i. Allowance for the needs of the waiver participant (select one):
The following standard included under the State plan
Select one:
SSI standard
Optional State supplement standard
Medically needy income standard
The special income level for institutionalized persons
(select one):
300% of the SSI Federal Benefit Rate (FBR)
A percentage of the FBR, which is less than 300%
Specify the percentage:
A dollar amount which is less than 300%.
Specify dollar amount:
A percentage of the Federal poverty level
Specify percentage:
Other standard included under the State Plan
Specify:
A
The following dollar amount
Specify dollar amount: If this amount changes, this item will be revised.
The following formula is used to determine the needs allowance:

	Specify:	
		÷
	Other	
	Specify:	
		÷
Alle	owance for the spouse only (select one):	
0	Not Applicable (see instructions) SSI standard	
	Optional State supplement standard	
	Medically needy income standard	
	The following dollar amount:	
	Specify dollar amount: If this amount changes, this item will be revised.	
	The amount is determined using the following formula:	
	Specify:	
		+
Alle	owance for the family (select one):	
0	Not Applicable (see instructions)	
	AFDC need standard	
	Medically needy income standard	
	The following dollar amount:	
	Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically rincome standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, the item will be revised.	need
	The amount is determined using the following formula:	
	Specify:	
		ф Т
	Other	
	Specify:	
		^
		∇

a. Health insurance premiums, deductibles and co-insurance charges

§CFR 435.726:

b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

	Sel	ect	on	e	:
--	-----	-----	----	---	---

0	Not Applicable (see instructions) Note.	If the Sto	ate protects i	he maximum	amount fo	r the waiver	participant,	no
	applicable must be selected.							

The State does not establish reasonable limits.

The State establishes the following reasonable limits

Specify:

A ...

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: §1634 State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

ı.	Withimum number of services.	
	The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1	,
i.	Frequency of services. The State requires (select one):	
	The provision of waiver services at least monthly	
	Monthly monitoring of the individual when services are furnished on a less than monthly basis	
	If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:	
		4
		-
	nsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performe	ed

- b. Resp
 - Directly by the Medicaid agency
 - By the operating agency specified in Appendix A
 - By an entity under contract with the Medicaid agency.

Specify the entity:

The ASO

Other

Specify:

^ +

c. Qualifications of Individuals Performing Initial Evaluation:Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

The ASO staff conducting medical eligibility assessments must be a Registered Nurse, Licensed Social Worker, Licensed Professional Counselor, Licensed Rehabilitation Counselor, or Licensed Psychologist with appropriate training and experience.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The ASO will complete the initial eligibility assessment utilizing the Pre-Admission Screening (PAS) and the Rancho Los Amigos Scale.

An applicant must have at least five (5) deficits in Activities of Daily Living (ADLs) as assessed by the Pre-Admission Screening (PAS) to qualify medically for the Waiver. These deficits are derived from a combination of the following assessment elements:

- 1. Decubitus(Stage 3 or 4)
- 2. In the event of an emergency, the applicant is mentally or physically unable to vacate a building
- 3. Functional abilities of individual in the home

Eating (needs physical assistance to get nourishment)

Bathing (needs physical assistance or more)

Dressing (needs physical assistance or more)

Grooming (needs physical assistance or more)

Continence(must be incontinent)

Orientation (must be totally disoriented, comatose)

Transfer (requires one-person or two-person assistance)

Walking (requires assistance)

Wheeling (must require assistance with walking in the home)

4. Individual has skilled needs in one or more of the following areas:

Suctioning

Tracheostomy

Ventilator

Parenteral fluids

Sterile dressings

Irrigations

5. Individual is not capable of administering his/her own medications.

Applicants must also have a Traumatic Brain Injury (TBI) documented at the time of referral. A TBI is defined as a non-degenerative, non- congenital insult to the brain caused by an external physical force resulting in total or partial functional disability and/or psychosocial impairment. The applicant must score at a level VII or below on the Rancho Los Amigos Levels of Cognitive Functioning Scale.

- **e.** Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):
 - The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
 - A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

A T

f. Process for Level of Care Evaluation/Reevaluation:Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

INITIAL EVALUATION

- A. An applicant shall initially apply for the TBI Waiver by having his/her treating physician (M.D. or D.O.) or specially trained neuropsychologist submit a Medical Necessity Evaluation Request form. The physician's/neuropsychologist's signature is valid for sixty (60) days. The referral source for the request may be from the applicant/applicant's representative, hospital or nursing home, DHHR, the physician, social services agencies, or others.
- B. The Medical Necessity Evaluation Request form asks that the physician/neuropsychologist submit the applicant's identifying information including, but not limited to, the following:
- 1. A statement that the individual's condition meets the entry level definition of TBI: a non-degenerative, non-congenital insult to the brain caused by an external physical force resulting in total or partial functional disability and/or psychosocial impairment:
- 2. A description of the functional deficits directly attributable to the TBI;
- 3. Other pertinent medical diagnoses and any comments and
- C. Once a referral is received, the ASO will send a letter of verification of its receipt to the applicant/applicant's representative and the referring physician or neuropsychologist. If the Medical Necessity Evaluation Request form is incomplete it will be returned to the referring physician or neuropsychologist for completion and resubmission, and the applicant will be notified. The ASO will attempt to contact the applicant/applicant's representative to schedule an assessment. The ASO will make up to three attempts to contact the applicant. If it is determined that the applicant is not available, the referring physician or neuropsychologist and applicant/applicant's representative will be notified that no contact could be made. If the referral is closed because of an inability to contact the applicant, a new referral will be required to reinitiate the process.
- D. If contact is made, a letter will be sent to the applicant and contact person noting the contact was made and the date of the scheduled evaluation. If the applicant has identified a guardian or legal representative, no assessment shall be scheduled without presence of the guardian or legal representative. If the Medical Necessity Evaluation Request form indicates that the applicant has severe dementia, no visit will be scheduled without the guardian or legal representative present to assist the applicant during the evaluation.
- E. The ASO completes the Pre-Admission Screening (PAS) and the Ranchos Los Amigos Scale. ASO staff will record observations and findings regarding the applicant's level of function. In those cases where there is a medical diagnosis question, the ASO will attempt to clarify the information with the referring physician. In the event that the ASO staff cannot obtain the information, he/she will document such, noting that supporting documentation from the referring physician was not received.
- F. If it is determined that the applicant does not meet medical eligibility, the applicant, the referring physician or neuropsychologist, and applicant's representative, if applicable, will be notified by a Potential Denial letter. This letter will advise the applicant of the reason for the potential denial, listing the areas in which deficiencies were found and notice that the medical eligibility standard has not been met. A copy of the PAS, Rancho Los Amigos, and TBI Waiver policy will also be included with the "Potential Denial" letter. The applicant will be given two weeks to submit supplemental medical information to the ASO. Information submitted after the two-week period will not be considered.
- G. If the review of the supplemental information by the ASO determines that there is still no medical eligibility, the applicant, referring physician or neuropsychologist and any identified representative will be notified by a Final Denial letter. The "Final Denial" letter will provide the reason for the denial. It will also include the applicable TBI Waiver policy manual section(s), a copy of the PAS and Rancho Los Amigos Scale, supplemental information documentation (if it has been supplied), notice of free legal services, and a Request for Fair Hearing form to be completed if the applicant wishes to contest the decision.
- H. If the applicant's medical eligibility is denied and the applicant is subsequently found medically eligible after the fair hearing process, the date of eligibility can be no earlier than the effective date of the hearing decision.
- I. If the applicant is determined medically eligible, a notice of approved medical eligibility is sent to the applicant, the referring physician or neuropsychologist, and the applicant's legal representative, if applicable. When a slot becomes available in the TBI Waiver Program, a second notice of approved medical eligibility is sent to the applicant, referring physician or neuropsychologist, and the applicant's representative, if applicable. copies of the applicant's PAS and Rancho Los Amigos Scale are also sent at this time to the applicant or representative, if applicable.

- A. The ASO will schedule an annual re-evaluation of the member's medical eligibility.
- B. The ASO will arrange for an evaluator to visit the member in his/her home environment or at an agreed location in order to perform the evaluation. The annual reevaluation will be conducted utilizing a functional assessment tool.
- C. The ASO will evaluate the findings of the annual functional assessment to determine whether the member continues to meet medical eligibility for the TBI Waiver.
- D. If the applicant has identified a guardian or legal representative, no visit shall be scheduled without presence of the guardian or legal representative.
- E. Once an evaluation time is arranged, the ASO shall send a letter to the member, Case Management Agency (if applicable), and identified representative noting the contact and date of the visit.
- F. If the ASO is unable to contact the member, a letter will be sent to the member, CMA, referring physician or neuropsychologist, and member's representative, if applicable, stating that the member's eligibility is in jeopardy if the evaluation cannot be performed and requesting that the member, member's representative or CMA contact the ASO to schedule an evaluation.
- G. If the member meets the medical eligibility criteria, a Notice of Approved Continued Medical Eligibility is sent to the member, identified representative, the CMA and the Fiscal Employer/Agent (FE/A) if applicable. This notice includes the approved budget, a notice of free legal services, and a Request for Hearing form.
- H. If it is determined that the member does not meet medical eligibility, the member, the referring physician or neuropsychologist, the FE/A, and member's representative, if applicable, will be notified by a Potential Denial letter. This letter will advise the member of the reason(s) for the potential denial, listing the areas in which deficiencies were found and notice that the medical eligibility standard has not been met. A copy of the functional assessment and TBI Waiver policy will also be included with the "Potential Denial" Letter. The member will be given two weeks to submit supplemental medical information to the ASO. Information submitted after the two-week period will not be considered.
- I. If the review of the supplemental information by the ASO determines that there is still no medical eligibility, the member, CMA, and any identified representative will be notified with a Final Denial letter. The "Final Denial" letter will provide the reason for the denial. It will also include the applicable policy manual section(s), a copy of the functional assessment, supplemental information documentation (if it has been supplied), notice of free legal services, and a Request for Hearing to be completed if the member wishes to contest the decision. If the member elects to appeal any adverse decision, services shall continue at the current level only if the appeal is submitted within thirteen (13) days of the notice date, and only until a final decision is rendered by the administrative Hearing Officer.

g.		valuation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conduces frequently than annually according to the following schedule <i>(select one)</i> :	cted
		Every three months	
		Every six months	
	0	Every twelve months	
		Other schedule Specify the other schedule:	
			ф Т
h.	_	lifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform aluations (select one):	
	0	The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.	

h.

The qualifications are different. *Specify the qualifications:*

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

It is the responsibility of Case Management Agencies to ensure that each member's annual request for medical evaluation is submitted in a timely manner. TBI Waiver case managers must submit the Medical Necessity Re-Evaluation Request Form to the ASO no later than 45 days prior to the annual re-evaluation due date. Per contract, the ASO is responsible for completing all annual re-evaluations prior to the due date.

j. Maintenance of Evaluation/Reevaluation Records.Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

All records of evaluation and reevaluation will be maintained by the ASO.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of new enrollees whose medical eligibility assessment indicated nursing home level of care was conducted prior to receipt of Waiver services. (Numerator = # of new enrollees whose medical eligibility assessment indicated nursing home level of care was conducted prior to receipt of Waiver services. Denominator = total # of enrollees.)

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.
- **a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
 - When the ASO conducts the initial medical eligibility assessment, applicants (or legal representative) are provided a TBI Waiver Program Brochure that details services available to eligible individuals. Applicants (or legal representative) are asked to sign a Consent Form indicating their choice of waiver services vs. institutional care. If determined medically eligible, applicants (or legal representative) receive a Service Delivery Model Selection Form which provides information on the two service model options the Traditional Model and the Participant-Directed Model. The services available with each model is provided along with a listing of qualified providers in the member's community.
- **b. Maintenance of Forms.**Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Freedom of choice forms (Consent Forms and Service Delivery Model Selection Forms) are maintained electronically for a minimum of three years by the ASO.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Per the Census 2000, 97.25% of West Virginian's speak only English. Due to this high percentage, the TBI Waiver addresses any needs or requests for alternative material on an individual basis. All materials are currently available in alternate formats for individuals who cannot access standard print material. These formats include large print, audio and Braille. In addition, BMS and all contract staff are available to read printed materials upon request.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Service Type	Service	
Statutory Service	Case Management	
Other Service	Cognitive Rehabilitation Therapy (CRT)	
Other Service	Participant-Directed Goods and Services (PDGS)

nplete this part for a renewal application	n or a new waiver that replaces an existing waiver. Select one:
Service is included in approved	l waiver. There is no change in service specifications.
Service is included in approved	l waiver. The service specifications have been modified.

Service is not included in the approved waiver.

Service Definition (Scope):

Services that assist TBI Waiver members in gaining access to needed waiver services and other State Plan services, as well as medical, social, educational and other services, regardless of the funding source for the services to which access is gained. Case Management responsibilities also include:

- 1. The ongoing monitoring of the provision of services included in the member's service plan and member health and welfare.
- 2. Initiating the process to re-evaluate the member's medical eligibility
- 3. the development of service plans.

Case Management activities specific to Participant Direction include, but are not limited to:

- 1. Informing members of the availability of the Participant-Directed option.
- 2. Explaining general rights, risks, responsibilities and the member's right to choose the Participant-Directed Model.
- 3. Assist in determining if a legal/non-legal representative is desired and/or needed by the member.
- 4. Providing or linking members with program materials in a format that they can use and understand.
- 5. Explaining person-centered planning and philosophy to members.
- 6. Linking members with the FE/A for completion of the necessary paper work for Participant-Direction.
- 7. Explaining to the member the roles and supports that will be available.
- 8. Reviewing and discussing the member's budget, including the budget available for participant-direction.
- 9. Ensuring that members know how and when to notify the Case Manager about any operational or support concerns or questions.
- 10. Monitoring the members risk management activities.
- 11. Ensuring a seamless transition into the Participant-Directed Model if chosen.
- 12. Coordinating services provided by traditional provider agencies if involved.
- 13. Notifying the ASO and FE/A of concerns regarding potential issues which could lead to member disenrollment.
- 14. Notifying the ASO of concerns about the status of the health and welfare of participants.
- 15. Follow-up with the member regarding the submission of critical incidents.

Any Waiver member who chooses to serve as their own Case Manager will be supported by the ASO in fulfilling the Case Management responsibilities.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Case Management services are limited to 192 (15 minute) units annually.

Provider Type:

Licensed Behavioral Health Centers

Provider Qualifications

License (specify):

Providers must maintain a behavioral health license issued by the West Virginia Office of Health Facility Licensure and Certification (OHFLAC).

Certificate (specify):

The ASO certifies TBI Waiver providers (initially and continuing)

Other Standard (specify):

Cognitive Rehabilitation Therapy (CRT) must be provided by Licensed Behavioral Health Centers (LBHCs) or independent Physicians, Neuropsychologists, Psychologists, Occupational Therapist, Speech Therapists, or Physical Therapists licensed to practice in the State of West Virginia. LBHC staff providing CRT can be licensed professionals from a wide range of disciplines including, but not limited to, counseling, education, medicine, neuropsychology, occupational therapy, physical therapy, psychology, recreation therapy, social work, special education and speech-language

pathology. Individuals who wish to provide CRT to members must also be certified or be in the process of attaining certification by the Society for Cognitive Rehabilitation (SCR). The Society for Cognitive Rehabilitation (SCR) provides two levels of certification:

1. Level I Certification - Applicants for Level I Certification must meet the criteria for designation as a

"Qualified Independent Practitioner" as defined

in the American Congress of Rehabilitation Medicine's Guidelines for Cognitive Rehabilitation. Such a practitioner is defined as a person who has acquired

appropriate credentials for the independent practice in their discipline according to state licensing agencies appropriate to their profession; or in the

absence of applicable state regulations, meets the appropriate national registration or certification requirements for the independent practice of their profession.

2. Level II Certification - Applicants for Level II Certification are those who are unable to practice their profession independently, and require supervision

by a Qualified Independent Practitioner. The Qualified Independent Practitioner is accountable for the design, implementation and treatment services delivered to clients.

Practitioners reimbursed by the TBI Waiver shall be permitted three years to obtain certification as specified by the Society. Individuals must have the educational requirements specified by the Society at either Level I or II. During the period in which the individual is working under supervision, he/she shall be supervised by a licensed health practitioner experienced in the assessment and cognitive rehabilitation of individuals with TBI at least weekly

for a period no less than two hours per week. Supervision shall be documented and available upon request.

Verification of Provider Qualifications

Entity Responsible for Verification:

The ASO certifies prior to the agency enrolling with Medicaid as a TBI Waiver provider. The ASO also conducts ongoing certification reviews every twelve (12) months thereafter.

Frequency of Verification:

Every twelve (12) months

Other Standard (specify):

Cognitive Rehabilitation Therapy (CRT) must be provided by Licensed Behavioral Health Centers (LBHCs) or independent Physicians, Neuropsychologists, Psychologists, Occupational Therapist, Speech Therapists, or Physical Therapists licensed to practice in the State of West Virginia. Licensed professionals who wish to provide CRT to members must also be certified or be in the process of attaining certification by the Society for Cognitive Rehabilitation (SCR) and enrolled as a West Virginia Medicaid provider. The Society for Cognitive Rehabilitation (SCR) provides two levels of certification:

1. Level I Certification - Applicants for Level I Certification must meet the criteria for designation as a "Qualified Independent Practitioner" as defined

in the American Congress of Rehabilitation Medicine's Guidelines for Cognitive Rehabilitation. Such a practitioner is defined as a person who has acquired

appropriate credentials for the independent practice in their discipline according to state licensing agencies appropriate to their profession; or in the

absence of applicable state regulations, meets the appropriate national registration or certification requirements for the independent practice of their profession.

2. Level II Certification - Applicants for Level II Certification are those who are unable to practice their profession independently, and require supervision

by a Qualified Independent Practitioner. The Qualified Independent Practitioner is accountable for the design, implementation and treatment services delivered to clients.

Practitioners reimbursed by the TBI Waiver shall be permitted three years to obtain certification as specified by the Society. Individuals must have the educational requirements specified by the Society at either Level I or II. During the period in which the individual is working under supervision, he/she shall be supervised by a licensed health practitioner experienced in the assessment and cognitive rehabilitation of individuals with TBI at least weekly

for a period no less than two hours per week. Supervision shall be documented and available upon request.

Verification of Provider Qualifications

Entity Responsible for Verification:

BMS's claims processing entity (for independent practitioners) and the ASO (for Licensed Behavioral Health Providers).

Frequency of Verification:

BMS's claims processing entity verifies qualifications prior to enrolling independent practitioners as Medicaid providers. The ASO, as part of the Waiver's ongoing Quality Improvement System, verifies agency provider qualifications during annual reviews.

Service is included in approved waiver. There is no change in service specifications.
Service is included in approved waiver. The service specifications have been modified.
Service is not included in the approved waiver.
Service Definition (Scope): Personal Attendant Services are defined as long-term direct care and support services that are necessary in order to enable an individual to return home from a nursing facility, an in-patient rehabilitation facility, or an in-patient hospital and live in their own home and community.
The components of the Personal Attendant Service include Personal Attendant Services, and Transportation.
Personal Attendant Services: This component provides TBI Waiver members direct-care assistance with Activities of Daily Living (ADLs) and Instrumental Activities (IADLs) such as eating, bathing, grooming, prompting with normally self-administered medications, essential light housekeeping and errands, etc. Personal Attendant Services staff are also responsible for reporting changes in the member's condition and needs. Only qualified staff employed by certified Personal Attendant Services Agencies can provide this support.
Transportation: The Transportation component provides mileage reimbursement for Personal Attendant Services agency staff who transport members as they conduct essential errands and participate in community activities as outlined in the member's Service Plan (SP). Only qualified direct-care staff with a valid driver's license employed by a qualified Personal Attendant Services agency can provide this support. Specify applicable (if any) limits on the amount, frequency, or duration of this service: Personal Attendant Services are limited by the member's individualized budget.

- **b.** Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (*select one*):
 - Not applicable Case management is not furnished as a distinct activity to waiver participants.
 - Applicable Case management is furnished as a distinct activity to waiver participants. Check each that applies:
 - As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
 - As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.

As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case	Management). Complete item C-1
-c. As an administrative activity. Complete item C-1-c.	
c. Delivery of Case Management Services. Specify the entity or entities that conduct case may waiver participants:	anagement functions on behalf of
	~
Appendix C: Participant Services	

C-2: General Service Specifications (1 of 3)

- a. Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):
 - No. Criminal history and/or background investigations are not required.
 - Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

Traditional Model - Statewide Criminal Investigation Background (CIB) checks are to be conducted by TBI Waiver providers for all employees with direct access to members prior to service delivery. Federal background checks are required for all direct access employees who have lived outside the State within the last five (5) years. Agencies are required to provide the ASO evidence of CIB checks as part of the annual review of provider qualifications.

Participant-Directed Model - Statewide Criminal Investigation Background (CIB) checks are required for each member employee prior to service delivery. Federal background checks are required for all self-directed member employees who have lived outside the State within the last five (5) years. The FE/A is required to provide the ASO evidence of CIB checks as part of the annual review of provider qualifications.

- b. Abuse Registry Screening. Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):
 - No. The State does not conduct abuse registry screening.
 - Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

WV Code § 15-2C-1. The West Virginia State Police, Criminal Identification Bureau maintains the Central Abuse Registry. TBI Waiver provider agencies are required to request a Criminal Background Check (Central Abuse Registry) for all employees with direct access to TBI Waiver members. The Central Abuse Registry shall contain, at a minimum, information relating to: Convictions of a misdemeanor or a felony involving abuse, neglect or misappropriations of property, by an individual performing services for compensation, within the scope of the individual's employment or contract to provide services, in a residential care facility,

in a licensed day care center in connection with providing behavioral health services, or in connection with the provision of home care services; information

relating to individuals convicted of specific offenses. Compliance is monitored by the ASO as part of the periodic review of provider qualifications.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

- c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:
 - No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
 - Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

- d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:
 - No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
 - Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.*

- e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one*:
 - The State does not make payment to relatives/legal guardians for furnishing waiver services.
 - The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

Relatives may be paid for providing any TBI Waiver service. Any relative may provide services excluding the member's spouse. Payments cannot be made to legal guardians for TBI Waiver services. Under the participant-directed model, the FE/A processes payments based on approved spending plans. The ASO conducts an annual review of member charts to monitor compliance and to ensure that services are furnished in the best interest of the member. Medicaid reimburses only for those services provided.

Other policy.	
Specify:	
	Ŧ

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

The Bureau for Medical Services (BMS) claims processing entity provides entities interested in becoming a TBI Waiver provider an enrollment packet, including a provider agreement, along with specific requirements and procedures to qualify. The enrollment process, which is continuous and ongoing, assures that all willing and qualified providers meeting the State's established provider qualifications have the opportunity to enroll. Per policy, the BMS claims processing entity has five (5) business days to process the enrollment application once submitted by the prospective provider.

The prospective provider must return the provider agreement signed by an authorized representative to BMS. BMS signs the Provider Agreement and returns a copy to the prospective provider. BMS forwards a copy of the provider agreement to the BMS claims processing entity. Once this process

has been completed, the claims processing entity assigns a provider number and sends a letter informing the provider that it may begin providing services.

A copy is sent to the ASO. Information on the certification and enrollment process is posted on the ASO's website.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

- i. Sub-Assurances:
 - a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of new TBI Waiver providers who receive certification prior to provision of Waiver services. (Numerator = # and % of new TBI Waiver providers who

receive certification prior to the provision of Waiver services. Denominator = total # of new TBI Waiver providers.)

b. Sub-Assurance: The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-Assurance: The State implements its policies and procedures for verifying that provider training is conducted in accordance with state requirements and the approved waiver.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

and % of direct care staff who meet all mandatory training requirements prior to service delivery. (Numerator = number of direct care staff who meet all mandatory training requirements prior to service delivery. Denominator = total number of personnel files reviewed.)

	Entities and/or individuals that have responsibility for service plan development may provide other divasiver services to the participant.
	The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. <i>Specify:</i>

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

At the time of the medical eligibility assessment, applicants/members (or legal representative) are provided information regarding their rights to direct and be actively engaged in the Service Plan development process. General information regarding participant-centered planning is also provided. Program information regarding service delivery models (Traditional Model and Participant-Directed Model)is provided as well. Once an individual has been determined eligible for Waiver services, additional information on specific services and service providers that may be selected is made available to the member (or representative).

Participant-Centered Planning is the process by which the Case Manager (CM) works in collaboration with the member (or legal representative) and the Interdisciplinary Team (IDT) to develop the Service Plan (SP). The initial SP is scheduled and developed in collaboration with the member (or legal representative) and the IDT. Subsequent annual revisions to the SP are done in collaboration with direct care staff, other service providers and informal supports as requested by the member (or legal representative).

The SP is developed utilizing the medical eligibility assessment, the Rancho Los Amigos Scale, the functional assessment,

the Case Management Assessment, and incorporates the preferences and needs identified by the member. By participating in the assessment process and having access to the support of the CM, direct care providers, other professionals and informals, the member has the opportunity and tools to be actively engaged in the Service Plan development process.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

- d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):
 - a) Who develops the plan, who participates in the process and what is the timing of the plan?

Case Managers (CMs) are responsible for the development of the Service Plan (SP) in collaboration with the member (or legal representative) and their Interdisciplinary Team (IDT). Participation in the initial Service Plan development is mandatory for the member and Case Manager. The member (or legal representative) may choose to have whomever else they wish to participate on the Interdisciplinary Team (IDT). Participation in subsequent reviews and annual SP updates are mandatory for the member, the Case Manager and direct-care service staff of the Personal Attendant Service Agency. The Case Management Assessment must be completed within seven days of enrollment in the program. The Service Plan, which is scheduled in collaboration with the member, must be completed within fourteen days of this assessment. In order to begin services immediately and address any health and safety concerns, an Interim SP may be developed and implemented upon enrollment. The Interim SP can be in effect up to twenty-one days to allow time for assessments to be completed, the SP meeting to be scheduled and the SP to be developed.

b) What are the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences, goals and health status?

The primary assessments conducted to support the Service Plan development process include the medical eligibility assessment, the Rancho Los Amigos Scale, and the functional assessment (for annual SP reviews and updates). These assessments identify medical issues and functional deficits in Activities of Daily Living. The Case Management Assessment reviews independent living skills, medical and behavioral health status, goals and preferences, formal and informal supports, risks to health and welfare, communication, environmental issues including assistive technology needs, emergency and back-up planning, and socialization and community integration.

c) How is the participant informed of the services that are available under the waiver?

All applicants are provided information that includes an overview of the TBI Waiver and available services at the time of the medical eligibility assessment.

If determined medically eligible, applicants receive information explaining both the Traditional Model and the Participant-Directed Model and are given the opportunity to select the model of their choice.

d) How does the plan development process ensure that the service plan addresses the participants goals, needs (including health care needs) and preferences?

The medical eligibility assessment, Rancho Los Amigos Scale, the functional assessment, and the Case Management Assessment must be completed and reviewed with the member and IDT prior to the development of the SP. The annual functional assessment and the Case Management Assessment must be completed and reviewed with the member prior to subsequent reviews and annual SP updates. It is the CM's responsibility to ensure that all assessments are considered in the plan development. The SP document requires that these areas be addressed. As part of the Quality Improvement System

(QIS), the ASO reviews files to ensure that Service Plans address participant goals, needs (including health care needs) and preferences.

e) How are waiver and other services coordinated?

Coordination of services begins with the IDT and the SP development process. It is the CM's responsibility through collaboration with the member and his/her Interdisciplinary Team (IDT) to ensure that all Waiver and other services are identified as part of the plan. The CM is responsible for coordinating the implementation of the plan through case review, referral, monitoring and advocacy. As part of the Quality Improvement System (QIS), the ASO reviews files to ensure that services have been delivered as planned.

f) How does the plan development process provide for the assignment of responsibilities to implement and monitor the plan?

Specific providers for Waiver and other services are listed on the SP. The CM, via monthly contact, is responsible for monitoring the implementation of the plan to ensure service delivery. As part of the Quality Improvement System (QIS), staff of the ASO review files to ensure that services have been delivered as planned.

g) How and when is the plan updated (including when needs change)?

CM's are required to have monthly contact with members to monitor plan implementation, identify when members needs change and and schedule the IDT if necessary to revise the SP to address changing needs. Additionally, SP's must be reviewed at least every six months and revised at that point as necessary. An annual SP meeting to develop a new plan is required. Case managers are expected to schedule these meetings at times and locations covenient to the member.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Risk assessment is a component of the required Case Management Assessment. Identified risks must be incorporated into the Service Plan (SP) subject to the member's needs and preferences. The SP requires a detailed description of emergency back up plans/arrangements that are to be implemented if a direct-care worker of the Personal Attendant Service Agency is unable to fulfill their duties. Strategies may include the utilization of an identified back up agency, family members, other informal supports, etc. As part of the Quality Improvement System (QIS), staff of the ASO review files to monitor the effectiveness of risk assessment and backup planning.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

At the time of medical eligibility determination and notification that a Waiver slot is available, applicants (or legal representative) are given the opportunity to choose Case Management and Personal Attendant Service providers. Selection forms, which list TBI Waiver providers by county with contact information are provided by the ASO. Information containing helpful tips on selecting providers is also provided. A list of available providers is made available to TBI Waiver members on the ASO's website. Members may also call the ASO for a list of agencies that provide services in their community.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

Case managers are responsible for the development and oversight of the Service Plan. The ASO reviews a representative sample of Service Plans every 12 months as part of the Quality Improvement System (QIS). Results of these reviews are compiled and reviewed by BMS during contract meetings and by the Quality Improvement Advisory Council during its quarterly meetings. Remediation plans are developed to address any identified issues/concerns.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h.	Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:
	Every three months or more frequently when necessary
	Every six months or more frequently when necessary
	Every twelve months or more frequently when necessary
	Other schedule
	Specify the other schedule:
i.	Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies): Medicaid agency
	Operating agency
	 ✓ Case manager
	Other
	Specify:
	A V

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

Case Management Agencies (CMAs) certified by the ASO are responsible for monitoring the implementation of member Service Plans (SPs). Case Managers (CMs) are responsible for monthly contacts with members to review the implementation of the SP in order to identify and address any issues and concerns related to the member's choice of providers and the delivery of services. All concerns related to member health and safety including the effectiveness of backup plans must be reported using the West Virginia Incident Management System (IMS) and as appropriate, reported to Adult Protective Services (APS).

As part of the Quality Improvement System (QIS), staff of the ASO review a representative sample of Case Management files every 12 months to monitor compliance with this requirement. The ASO conducts an exit interview to review the results of each provider monitoring. Monitoring staff provide technical assistance to providers as needed to address any identified issues or concerns and require a corrective action plan to ensure that all identified issues are remediated. The ASO prepares draft monitoring reports which are reviewed for approval by the Bureau for Medical Services management staff prior to issuing the final report to the provider. BMS and the ASO review monitoring findings at contract meetings and develop improvement strategies as indicated in collaboration with the Quality Improvement Advisory Council.

b. 1	Monitoring	Safeguards.	Select one:
-------------	------------	-------------	-------------

0	Entities and/or individuals that have responsibility to monitor service plan implementation and participant
	health and welfare may not provide other direct waiver services to the participant.

Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

and % of members whose Service Plans are adequate and appropriate to their assessed needs. (Numerator = number of Service Plans that are adequate and appropriate to member's assessed needs. Denominator = number of member charts reviewed.)

d. Sub-assurance: Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

and % of members who receive the services specified in the Service Plan. (Numerator = number of members who receive the services specified in the Service Plan. Denominator = number of member charts reviewed.)

Appendix E: Participant Direction of Services

Applicability(from Application Section 3, Components of the Waiver Request):

- Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.
- No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- Yes. The State requests that this waiver be considered for Independence Plus designation.
- No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction.In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

Every TBI Waiver member (or legal representative) may direct some of their waiver services by choosing the Participant-Directed Model. Members (or legal representative) may select the Participant-Directed Model at initial medical eligibility assessment, annual re-evaluation assessment, or at any other time by notifying the ASO. Services provided through the Traditional Model and the Participant-Directed Model are comparable in description, scope, amount and duration. TBI Waiver members can transition from the Participant-Directed Model to the Traditional Model at any time without an interruption of services.

Members choosing the Participant Directed Model are allocated a monthly budget based on their assessed needs. Participant-Directed members (or their legal representative) function as the common law employer (employer of record) of workers who provide services. The services directed by members who choose the participant-directed model include:

- Personal Attendant Services, and

- Participant-Directed Goods and Services

Case Management and Cognitive Rehabilitation Therapy (CRT) are provided by qualified TBI Waiver providers

The Participant-Directed Model uses a Government Fiscal Employer Agent (IRS approved FMS) to support participant-directed members. The Bureau for Medical Services (BMS) subcontracts with a FE/A as its sub-agent to perform FMS functions. The support provided by the FE/A is an administrative activity and is reimbursed as such.

The FE/A provides both financial management and resource consulting (assistance and information) services for members. The financial management services provided by the FE/A include:

- 1) issuing payroll checks to qualified employees of members via approved timesheets
- 2) executing provider agreements on behalf of BMS
- 3) assuring the adherence to Federal and State laws and regulations
- 4) verifying Criminal Investigation Background (CIB) checks of prospective member employees per TBI Waiver policy
- 5) verifying member employee qualifications
- 6) verifying member employee time records
- 7) verifying that services are within approved limits(compliance with Participant-Directed Service Plan)
- 8) monitoring of underpayments and overpayments
- 9) assisting members to revise spending plans as necessary
- 10) recognizing and reporting critical incidents
- 11) verifying member employee's citizenship status
- 12) providing for payment of member employee benefits where applicable

The FE/A also provides Resource Consulting (information and assistance) services for participant-directed members. This support is an administrative activity and is reimbursed as such. Resource Consulting provides members with the supports needed to self-direct and are available as needed and/or requested by the member. Resource consulting supports include:

- 1) Assisting the member as needed and/or requested with information, assistance and referral
- 2) Explaining and assisting the member with the completion of the employer packet paperwork (i.e. IRS Form 2678, IRS Form 2848, IRS Form 8821, WV State

Tax Department Form WV/2848, etc.). The Resource Consultant submits the completed employer packet to the FE/A Financial Operations Unit

- 3) Providing practical skills training, such as hiring, managing and terminating employees, problem solving, and conflict resolution
- 4) Assisting the members as needed and/or requested in the recruitment and hiring of employees
- 5) Maintaining a roster of qualified direct-care workers
- 6) Maintaining/providing training modules for member employees
- 7) Verification of required training for all member employees
- 8) Monitoring quality and health and safety through required monthly calls and face-to-face contact at least every six months. Resource Consultants monitor more frequently as needed based on member needs and/or requests
- 9) Recognizing and reporting critical incidents (which are then investigated by the FE/A, ASO, APS, Medicaid Fraud, police, etc. as appropriate). All critical incidents are entered into the Incident Management System (IMS) by the FE/A and the ASO to analyze for trends
- 10) Providing information on member employee benefits when applicable
- 11) Assisting the member as needed and/or requested in the development of the member's Service Plan
- 12) Assisting the member as needed and/or requested in the development of the member's Spending Plan
- 13) Assisting the member as needed and/or requested in revisions to the members Service Plan and/or Spending Plan
- 14) Assisting the member as needed and/or requested with the purchase of approved goods and services to address areas of need, increase independence and/or promote health and safety

FE/A Resource Consultants do not provide case management services.

The FE/A also operates a call center for members or member' employees to access needed information about the program. Customer service representatives support the primary role of the Resource Consultant and payroll specialists by performing the following functions:

1) Assisting the member/employer with inquiries related to budgeting, employer responsibilities, paperwork such as tax

forms, employee background checks and CPR certification, timesheets and invoices and the status of savings and spending activity

- 2) Assisting employees and other service providers with issues related to pay periods, the status of timesheets and invoices, the status of payments, and tax withholdings
- 3) Place courtesy calls to members and employees regarding incorrect Timesheets and invoices, providing additional training and helpful hints to ensure accurate and timely payments
- 4)Place courtesy calls and mail reminder letters to members in advance of expiration date of employee's CPR certification
- 5) Mail out timesheets, invoices, forms and training materials as requested by the caller or as directed by the Resource Consultant
- 6) Maintain an electronic notification system to inform the Resource Consultant of all member inquiries and additional follow -up if necessary

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b.	Participant Direction Opportunities. Specify the pa	participant direction opportunities that are available in the waiver. S	'elect
	one:		

Participant: Employer Authority. As specified in <i>Appendix E-2, Item a</i> , the participant (or the participant's
representative) has decision-making authority over workers who provide waiver services. The participant may function as
the common law employer or the co-employer of workers. Supports and protections are available for participants who
exercise this authority.

- Participant: Budget Authority. As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
- Both Authorities. The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.

c.	Availability of Partici	pant Direction b	y Ty	pe of Living	Arrangement	.Chec.	k each ti	hat appli	ies:

Participant direction opportunities are available to participants who live in their own private residence or the l	home
of a family member.	
Participant direction opportunities are available to individuals who reside in other living arrangements where	
services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor. The participant direction opportunities are available to persons in the following other living arrangements	
Specify these living arrangements:	
	+

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

- **d.** Election of Participant Direction. Election of participant direction is subject to the following policy (select one):
 - Waiver is designed to support only individuals who want to direct their services.
 - The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
 - The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the State. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

	^
	Ŧ

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

At the time of the medical eligibility assessment, the Administrative Services Organization (ASO) provides applicants (or legal representative) a Participant-Directed Model brochure that contains a general overview of the participant-directed opportunity. Applicants that are determined medically eligible will receive more information from the ASO about the service delivery options including a Fact Sheet that gives a comparative description of benefits, responsibilities and liabilities with the Traditional and Participant-Directed Models. Applicants who choose the Participant-Directed Model will then receive detailed instructions on enrolling in the program. Once they are referred to the FE/A members (or legal representative) receive a Quick Start Guide which includes an overview of participant-direction, supports for participant-Direction, the enrollment process, developing the spending plan, selecting, hiring, training and supervising employees and TBI Waiver program responsibilities.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

- **f. Participant Direction by a Representative.** Specify the State's policy concerning the direction of waiver services by a representative (*select one*):
 - The State does not provide for the direction of waiver services by a representative.
 - The State provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

- Waiver services may be directed by a legal representative of the participant.
- Waiver services may be directed by a non-legal representative freely chosen by an adult participant.

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

Participant-Directed members (or legal representative) may appoint an informal representative to assist them in the direction of their Waiver services. The nature of the assistance is determined by the participant-directed member. All employer related responsibilities remain with the member with the assistance of their informal representative and/or staff of the FE/A as requested. FE/A staff are required to make monthly telephone contact directly with the member to review the implementation of their Spending Plan and to address any issues or concerns with their services. A face-to-face contact with the member at least every six months is also required to review service implementation and to identify and address any health and safety concerns. As part of the Quality Improvement System (QIS), staff of the

ASO review files and conduct Participant Experience Surveys in order to monitor that services are being provided in a manner consistent with member goals, preferences, and needs.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

- **j. Information and Assistance in Support of Participant Direction.** In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested *(check each that applies)*:
 - **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

Case Managers (CMs) assist TBI Waiver members upon request with information or links to information related to the Participant-Directed Model, including Participant-Directed benefits and responsibilities. CMs will receive training including a scripted presentation regarding the Participant-Directed Model, which members will be asked about in their annual re-evaluation by the ASO to ensure unbiased presentations are being provided by the CMs.

Case Management activities specific to Participant Direction include, but are not limited to:

- 1. Informing members of the availability of the Participant-Directed Model.
- 2. Explaining general rights, risks, responsibilities and the member's right to choose the Participant-Directed Model.
- 3. Assist in determining if a legal/non-legal representative is desired and/or needed by the member.
- 4. Providing or linking members with program materials in a format that they can use and understand.
- 5. Explaining person-centered planning and philosophy to members.
- 6. Linking members with the FE/A for completion of the necessary paper work for Participant-Direction.
- 7. Explaining to the member the roles and supports that will be available.
- 8. Reviewing and discussing the member's budget, including the budget available for participant-direction.
- 9. Ensuring that members know how and when to notify the Case Manager about any operational or support concerns or questions.
- 10. Monitoring the members risk management activities.
- 11. Ensuring a seamless transition into the Participant-Directed Model if chosen.
- 12. Coordinating services provided by traditional provider agencies if involved.
- 13. Notifying the ASO and FE/A of concerns regarding potential issues which could lead to member disenrollment.
- 14. Notifying the ASO of concerns about the status of the health and welfare of participants.
- 15. Follow-up with the member regarding the submission of critical incidents.
- Waiver Service Coverage. Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

	Participant-Directed Waiver Service Info	rmation and Assistance Provided through this Waiver Service Coverage
Cas	e Management	
Par	ticipant-Directed Goods and Services (PDGS)	
Cog	nitive Rehabilitation Therapy (CRT)	
Per	sonal Attendant Services	

Administrative Activity. Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

- a) Supports for members choosing the Participant-Directed Model are furnished by the FE/A.
- b) Supports are procured through an RFP and contract process.
- c) Supports are available to:
- provide general information and assistance on the participant-direction opportunity
- assist with the development of the monthly budget
- provide practical skills training such as hiring, managing and terminating workers, problem solving, and conflict resolution
- maintain and provide required training modules for direct care workers
- maintain a roster of qualified direct-care workers and assist in the verification of qualified employees
- provide information on member employee benefits if applicable
- provide information to assist with the purchase of goods and services
- monitor quality through monthly telephone contact and face-to-face contact with members at least every six months
- assist with required program paperwork
- D) Bureau for Medical Services (BMS) oversight of the FE/A includes:
- Monthly contract meetings
- Monthly review of program activity reports
- Quarterly review of complaints and grievances report

In addition, as part of the Quality Improvement System (QIS), staff of the ASO review member charts every 12 months.

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

- k. Independent Advocacy (select one).
 - No. Arrangements have not been made for independent advocacy.
 - Yes. Independent advocacy is available to participants who direct their services.

Describe the nature of this independent advocacy and how participants may access this advocacy:

Α.
\forall

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

l. Voluntary Termination of Participant Direction. Describe how the State accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the State assures continuity of services and participant health and welfare during the transition from participant direction:

Participant-Directed members (or legal representative) can opt to transfer from the Participant-Directed Model to the Traditional Model at any time. Member voluntary termination will ordinarily be effective the first day of the month, except in cases of emergency. The FE/A will work with the ASO and Case Management Agency to assist the member with a seamless transition to the traditional service delivery model.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the State will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

Participant-Directed members who demonstrate the inability to self-direct their TBI Waiver services due to misuse of funds or an on-going health and safety concern, will be required to select a representative to assist them with the responsibilities of participant-direction. If the member refuses to select a representative, they will be required to transfer to the Traditional Model. The FE/A and the ASO along with the Case Manager will assist the member to assure a seamless transition.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the State's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the State will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination	with Employer Authority		
Waiver Year	Number of Participants	Number of Participants			
Year 1		10			
Year 2		20			
Year 3		30			

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

- **a.** Participant Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item *E-1-b*:
 - i. Participant Employer Status. Specify the participant's employer status under the waiver. Select one or both:

Participant/Co-Employer. The participant (or the participant's representative) functions as the co-employer
(managing employer) of workers who provide waiver services. An agency is the common law employer of
participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are
available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- Participant/Common Law Employer. The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.
- **ii.** Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. Select one or more decision making authorities that participants exercise:

1	Recruit staff
	Refer staff to agency for hiring (co-employer)
J	Select staff from worker registry

W Hire staff common law employer

Verify staff qualifications

Obtain criminal history and/or background investigation of staff

Specify how the costs of such investigations are compensated:

		^
J	Specify additional staff qualifications based on participant needs and preferences so long as such	T
V	qualifications are consistent with the qualifications specified in Appendix C-1/C-3.	
V	Determine staff duties consistent with the service specifications in Appendix C-1/C-3.	
V	Determine staff wages and benefits subject to State limits	
√	Schedule staff	
J	Orient and instruct staff in duties	
V	Supervise staff	
V	Evaluate staff performance	
V	Verify time worked by staff and approve time sheets	
V	Discharge staff (common law employer)	
	Discharge staff from providing services (co-employer)	
	Other	
	Specify:

	Participant Direction of Services	
E-2	2: Opportunities for Participant-Direction (3 of 6)	

b. Participant - Budget Authority

12/3/2014

ii. Participant-Directed BudgetDescribe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

The Participant-Directed Budget is based on the standardized assessment of the individual electing the participant-directed option. Only Participant-Directed services (Personal Attendant Services and Participant-Directed Goods and Services) will be considered in the participant directed budget and will not include the costs of the Traditional Services (Case Management and Cognitive Rehabilitation Therapy (CRT)). Participant-Directed services will be monetized based on the amount, duration and frequency established in the standardized assessment process to meet the specific need and incorporated into the member's Service Plan (SP).

Fiscal Employer/Agent (FE/A) support is a flat fee for an administrative service.

Information about the budget methodology was included in the draft application posted for public comment prior to its submission to CMS. The approved TBI Waiver application will be made available to the public on BMS's website.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

- b. Participant Budget Authority
 - **iii. Informing Participant of Budget Amount.** Describe how the State informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

Participant-Directed Member's (or legal representative) are notified of their budget in writing by the ASO at the point of medical eligibility and slot allocation. Per policy, members (or legal representative) have the opportunity to request an increase in their budget at any time.

Case Managers are responsible for submitting budget change requests. The request must be submitted to the ASO and include clinical documentation sufficient to support the request which may include applicable test results from a member's physician or hospital discharge summary. If approved, the member's budget allocation will be adjusted accordingly. The member's Case Manager and the FE/A will be notified by the ASO.

If denied, participant-directed members (or legal representative) are offered the opportunity to request a Fair Hearing.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

- b. Participant Budget Authority
 - iv. Participant Exercise of Budget Flexibility. Select one:
 - Modifications to the participant directed budget must be preceded by a change in the service plan.
 - The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

Participant-directed budgets are allocated monthly. Spending plans outlining specific services on how the budget is to be utilized are developed and authorized on a monthly basis by the F/EA to safeguard premature depletion of the participant-directed budget.

The F/EA generates a monthly utilization report to identify member underutilization and potential over expenditures of budgets. While there are many reasons a member may not use their entire allocated budget (hospitilization, periodic increase of informal supports, etc.), utilization information is shared with the F/EA Resource Consultants and Case Managers so that they can address potential issues directly and immediately with the participant-directed members and revise Service Plans if necessary.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Information on Fair Hearing rights is included in the packet of information sent by the ASO to all members when they are notified that they are medically eligible for the Program and a slot is available.

TBI Waiver applicants/members (or legal representative) are notified in writing of their Fair Hearing rights when:

- 1. They do not meet medical eligibility requirements for the Waiver (initial assessment and re-evaluation assessment). They are notified by the ASO. The ASO maintains all records of medical eligibility denials.
- 2. Their services have been reduced at the time of the annual re-evaluation. They are notified by the ASO. The ASO maintains all records of annual re-evaluations.
- 3. Their request for increased services is denied. They are notified by the ASO. The ASO maintains all records of requests for service level increases and decisions.
- 4. Their TBI Waiver case has been closed (per established policies and procedures). They are notified by the ASO. The ASO maintains all records of case closures.

All notifications of Fair Hearing rights include information that services will continue throughout the Fair Hearing process. Information on available advocacy support is also provided.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

- **a. Availability of Additional Dispute Resolution Process.** Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*
 - No. This Appendix does not apply

	Yes.	The	State	operates	an	additional	dispute	resolution	process
--	------	-----	-------	----------	----	------------	---------	------------	---------

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

^
Ŧ

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

- a. Operation of Grievance/Complaint System. Select one:
 - No. This Appendix does not apply
 - Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver
- **b. Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

The ASO

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The TBI Waiver grievance process is intended to resolve complaints not subject to the Fair Hearing process such as member allegations

of provider noncompliance with Waiver policy.

The grievance process is not utilized to address decisions regarding medical eligibility, a reduction in service(s) or case closure. Issues related to medical eligibility, a reduction in service(s) or a case closure are not appropriate for the grievance process and are referred to the Medicaid Fair Hearing process.

First Level Grievance

Responsible Party: TBI Waiver Provider

- 1. Member (or legal representative) completes the grievance form and submits it to the provider.
- 2. Provider has 10 days to hold a meeting with the member (or legal representative) either in person or by telephone.
- 3. Provider holds the meeting and completes the "Level One" response.
- 4. Member (or legal representative) and provider sign/date Level One decision.
- 5. Provider sends a copy of the grievance decision to the member (or legal representative) within three working days.
- 6. Provider maintains a copy of the grievance in an administrative file.
- 7. Provider maintains a record of the number of grievances filed, reasons for grievances, dates of grievances, and responses.

Second Level Grievance (If the member (or legal representative) is not satisfied with the Level One decision)

Responsible Party: The ASO

- 1. The provider sends a copy of the Level One grievance decision to the ASO and the member (or legal representative) within three working days.
- 2. The Level One decision and any additional information is reviewed by the ASO.
- 3. The ASO issues a Level Two decision within 10 days of receipt of the grievance request.

4. Notice of the decision is provided in writing to the member (or legal representative), the provider agency and the Bureau for Medical Services (BMS).

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

- **a.** Critical Event or Incident Reporting and Management Process.Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program. Select one:
 - Yes. The State operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
 No. This Appendix does not apply (do not complete Items b through e)
 If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.
- b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

TBI Waiver providers must have policies and procedures for thoroughly reviewing, investigating, and tracking all incidents involving the risk or potential risk to the health and safety of the members they serve. Providers are responsible for taking appropriate action on both an individual and systemic basis. All providers are required to report and track incidents using the web-based West Virginia Incident Management System (WV IMS). Providers shall classify all incidents as:

- Allegation of abuse, neglect, or exploitation must be reported to Adult Protective Services (APS) per W.Va. Code 9-6-1.
- Critical incident a high likelihood of producing real or potential harm to the health and welfare of the member.
- Simple incident unusual events occurring to a member that cannot be characterized as a critical incident and does not meet the level of abuse or neglect.

The provider's Director or designated staff will immediately review each Incident Report and determine whether the incident warrants a thorough investigation. Investigations must be initiated within twenty-four (24) hours of learning of the incident. An Incident Report must be entered into the WV IMS within

fourteen (14) calendar days of the incident. At any time during the course of an investigation should an allegation or concern of abuse or neglect arise, the provider shall immediately notify APS as mandated by State Code. Providers are responsible to investigate all incidents, including those reported to APS.

Providers are required to regularly review and analyze incident reports to identify health and safety trends. Identified health and safety concerns and remediation strategies must be incorporated into the provider's Quality Management Plan.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

A brochure that defines abuse, neglect and exploitation and how to notify the appropriate authorities is provided by the ASO to all applicants (or legal representative) at their initial medical assessment as well as to all members (or legal representative) at their annual medical re-evaluation.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

TBI Waiver Provider Directors (or designated staff) must immediately review each Incident Report and determine whether the incident warrants a thorough investigation. Investigations are required to be initiated within twenty-four (24) hours of learning of the incident. An Incident Report must be entered into the WV IMS within fourteen (14) calendar days of the incident.

At any time during the course of an investigation should an allegation or concern of abuse or neglect arise, the provider shall immediately notify APS as mandated by State Code. Members may request to review APS investigation findings at any time. TBI Waiver providers are responsible to investigate all incidents, including those reported to APS. Per policy, when there has been an allegation of abuse, neglect or exploitation, TBI Waiver providers must 1) Take immediate necessary steps to ensure the health and safety of the member while investigating the incident 2) Revise the member's Service Plan if necessary to implement additional member supports, and 3) Implement necessary system's changes including additional staff training that might be helpful in preventing future incidents.

Providers are required to review periodically their incident data to identify and address systemic issues and concerns.

The ASO monitors provider incidents in real time via the WV IMS. The ASO generates a monthly report which is reviewed by the Bureau for Medical Services (BMS) and management staff of the ASO at regular contract meetings.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

The ASO is responsible for overseeing the operation of the WV IMS and is responsible for real time monitoring of provider incident investigations. Every incident submitted into the WV IMS must be reviewed by the ASO to ensure that appropriate and timely steps are taken by the providers. A report is generated monthly which is reviewed by BMS and management staff of the ASO at regular contract meetings to identify and address system issues and concerns and prevent re-occurrences. Quarterly reports are also reviewed by the Quality Improvement Advisory Council.

As part of the Quality Improvement System (QIS), the ASO reviews a representative sample of member charts annually, including (as applicable) compliance with Incident Management policies. This data is also reviewed and analyzed by BMS, ASO and the Quality Improvement Advisory Council.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

- **a.** Use of Restraints.(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)
 - The State does not permit or prohibits the use of restraints

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

Providers are mandatory reporters and as such are required to report any incidents of the use of restraints or seclusion directly to Adult Protective Services (APS). APS is required to investigate these allegations. Providers also have a responsibility per policy to investigate and to report the incident in the WV Incident Management System (IMS).

- The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.
 - i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Quality Improvement: Health and Welfare

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Data Source (Select one):

and % of members (or legal representative) who receive information on how to report abuse, neglect, exploitation and other critical incidents. (Numerator = number of members (or legal representatives) who received information about how to report abuse, neglect, exploitation and other critical incidents. Denominator = number of enrolled members.)

b. Sub-assurance: The state demonstrates that an incident management system is in place that effectively resolves those incidents and prevents further similar incidents to the extent possible.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: The state policies and procedures for the use or prohibition of restrictive interventions (including restraints and seclusion) are followed.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

d. Sub-assurance: The state establishes overall health care standards and monitors those standards based on the responsibility of the service provider as stated in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

The ASO is responsible for monitoring the quality of Waiver services and implementing and evaluating quality improvement strategies. The Waiver's Quality Improvement System (QIS) is evidence-driven and incorporates a broad-base of stakeholders in active roles in the process.

Discovery and remediation activities focus on the collection of data necessary to monitor the quality indicators established to provide evidence relating to the six CMS assurances and sub-assurances. Specific data sources include provider monitoring, claims data, incident management reports, contract oversight meetings and reports, and other stakeholder feedback and input.

The primary mechanism for involving stakeholders in the Waiver's quality improvement initiative is the Quality Improvement (QI) Advisory Council. The Council is comprised of current or former members (or legal representatives) of the program, Waiver providers, advocates and other interested stakeholders. The Council serves as a forum for members (or legal representative) and the public to raise and address program issues and concerns affecting the quality of Waiver services.

The Council:eeh

- 1. Reviews findings from discovery activities.
- 2. Recommends program priorities and quality initiatives.
- 3. Recommends policy changes.
- 4. Monitors and evaluates the implementation of Waiver priorities and quality initiatives.
- 5. Monitors and evaluates policy changes.
- 6. Serves as a liaison between the Waiver and its stakeholders.
- 7. Establishes committees and work groups consistent with its purpose and guidelines.

The Quality Management Report, which incorporates data from discovery and remediation activities, is reviewed and analyzed by the Bureau for Medical Services (BMS) Management staff through regular meetings with contractors. The report is also reviewed with the QI Advisory Council in order to identify trends and to monitor the effectiveness of quality improvement activities.

Quality improvement priorities are identified through data analysis and stakeholder input and are incorporated in the annual Quality Management Plan. Updates

on the goals and objectives of this plan are reviewed at each meeting and guide the efforts of the Council and staff. The Quality Management Plan is evaluated at the annual QI Advisory Council meeting and is revised if necessary to reflect current quality issues.

ii. System Improvement Activities

Responsible Party(check each that applies):	Frequency of Monitoring and Analysis (check each that applies):
State Medicaid Agency	☐ Weekly
Operating Agency	 ✓ Monthly
Sub-State Entity	 Quarterly
Quality Improvement Committee	✓ Annually
Other Specify: ASO	Other Specify:

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

The TBI Waiver Quality Improvement System (QIS) is designed to: 1) Collect the data necessary to provide evidence that the six (6) CMS assurances are being met and 2) ensure the active involvement of stakeholders in the quality improvement process. The primary sources of discovery include provider reviews, incident management reports and member complaints, administrative reports, oversight of delegated administrative functions, and stakeholder input.

Provider Reviews:

The primary means of monitoring the quality of Waiver services is provider reviews conducted by staff of the ASO.

Prior to enrolling as a TBI Waiver provider, agencies interested in providing Waiver services are reviewed by the ASO to ensure that all Certification standards are met. All new providers are reviewed after the first six (6) months in order to identify and address any issues or concerns.

Providers are required to submit evidence to the ASO annually to document continuing compliance with all Certification requirements as specified in the TBI Waiver Policy Manual. This evidence must be signed by an appropriate official of the provider (e.g., Executive Director, Board Chair, etc.). If appropriate documentation is not provided, a Provisional Certification may be issued until appropriate documents are submitted and approved by the ASO. Providers receiving a Provisional Certification are required to have an on-site review by the ASO prior to full re-certification. A percentage of providers are randomly selected each year for an on-site review to validate certification documentation. Targeted on-site provider reviews may be conducted based on Incident Management Reports and complaint data.

A statewide representative sample of member charts are reviewed every 12 months. Charts are reviewed by staff of the ASO. Monitoring tools have been developed to ensure that the critical data necessary to monitor CMS assurances are collected. A random sample, ensuring that at least one member chart from each provider site is reviewed, will be identified with the guidance of CMS technical assistance contractors.

West Virginia Incident Management System (WVIMS):

Another key source for monitoring the quality of TBI Waiver services is the online West Virginia Incident Management System (WVIMS). Waiver providers are required to use the online application to report and track all incidents including 1) Simple Incidents, 2) Critical Incidents, and 3) Abuse, Neglect, and Exploitation. The online system gives providers the ability to generate agency specific reports to identify and

monitor trends. The WVIMS also provides

the ASO the capability to monitor reported incidents in "real time" in order to ensure that timely, appropriate steps are taken by providers. The ASO generates periodic reports to identify and monitor trends statewide.

The ASO also operates a toll-free hotline allowing members to contact them directly to report and address concerns with there services. Data

from these calls are compiled and analyzed for trends.

Reports:

BMS management staff receive and review the following contract reports:

- ASO Monthly Program Report, Monthly Activity Report, semi-monthly Tracking Report, and ad hoc reports as requested.
- FE/A Monthly Program report and ad hoc reports as requested.
- Claims processing entity regular claims data reports and ad hoc reports as requested.

Contract Oversight Meetings:

BMS management staff conduct monthly oversight meetings with each of its contractors to monitor performance and address identified issues/concerns.

The quality management data collected through discovery methods is compiled using the Quality Management Report Template and reviewed at least monthly by BMS and the ASO at its contract meetings. The Quality Management Report is also compiled and reviewed quarterly by the QI Advisory Council.

A comprehensive report summarizing the findings of provider reviews is compiled at the end of each review cycle,

reviewed and analyzed by Waiver staff and presented to the QI Advisory Council for its review and analysis.

The Quality Improvement (QI) Advisory Council:

The QI Advisory Council is the focal point of stakeholder input for the Waiver and plays an integral role in data analysis, trend identification, and the development and implementation of remediation strategies.

The Council provides Waiver staff feedback and guidance regarding quality improvement initiatives. In partnership with Waiver staff, the Council reviews and analyzes data, identifies trends and priorities, and develops the annual Quality Management Plan in which specific quality improvement goals and objectives are established.

The Council may establish work groups consisting of Council members and others wishing to participate in the process to address specific improvement goals and objectives.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

The goals and objectives outlined in the Quality Management Plan are continuously monitored by the QI Advisory Council, with regular updates being provided at each quarterly meeting. An annual planning meeting is held to review progress toward the goals and objectives of the plan and to update the plan as indicated by quality management data.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

A statewide representative sample of member charts are reviewed every 12 months to verify documentation of services billed. Provider reviews are conducted by staff of the ASO to ensure the integrity of payments that have been made for waiver services. When provider documentation does not support services billed, providers are required to submit Corrective Action Plans which must be approved by the ASO. Providers are required to reimburse the Bureau for Medical Services for any services billed without supporting documentation. The Medicaid Program (which would include the TBI Waiver)is audited annually under the West Virginia Statewide Single Audit. The State of West Virginia Statewide Single Audit is conducted by Ernst & Young, LLP. The claims submitted by providers for services provided under the TBI waiver will be processed through the MMIS, just as any other claim. During the single audit process the auditors select a sample of claims processed through the MMIS for testing; since the TBI waiver claims are processed through the MMIS, they would be included in the population of all claims that are selectable for testing during the single audit process.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability

State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

- i. Sub-Assurances:
 - a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered. (Performance

measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

and % of processed claims that were denied per MMIS edits. (Numerator = number of processed claims that were denied per MMIS edits. Denominator = number of processed claims.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

The current rate structure for the TBI waiver services is based on services in the existing approved MR/DD Waiver and Aged and Disabled Waiver. The rates for Case Management, Travel, and Participant Directed Goods and Services are the same as the rates for those services under the existing approved MR/DD Waiver, and have been developed to reflect service definitions, provider requirements, operational service delivery and administrative considerations. The following components were used to determine the current MR/DD rates: Bureau for Labor Statistics wage information; employee related expenses; productivity adjustment factor; and administrative overhead. This methodology was applied to those HCPCS Level II codes and were last updated in November 2006. The rate for Cognitive Rehabilitation Therapy was developed using the same methodology described above for HCPCS Level II codes. The rate for Personal Attendant Services is based on the existing rate for Personal Assistance/Homemaker Services in the Aged and Disabled Waiver was increased as follows at the direction of Department Administration following negotiations with providers; in October 2008 the rate was increased from \$3.05 per 15 minute unit to \$3.25; in August 2009 the rate was increased from \$3.25 to \$3.50 per 15 minute unit. Mileage reimbursement is based on the approved mileage rate as published by the West Virginia Division of Purchasing, Travel Management Office. The described rate methodology is consistently applied to all waiver services. The current rate methodology provides consistency with the provisions of section 1902(a)30(A) and 42 CFR section 447.200-205. The state of West Virginia does not use a formula to base increase for inflation, and at this time does not anticipate rate increases. BMS will post payment rates on the Agency website so that waiver participants and providers will be aware of the cost of waiver services.

b. Flow of Billings.Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Authorization is processed through a third party contractor and claims are directly submitted to the Medicaid fiscal agent for payment.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

- c. Certifying Public Expenditures(select one):
 - No. State or local government agencies do not certify expenditures for waiver services.
 - Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51 (b).(Indicate source of revenue for CPEs in Item I-4-a.)

 C (C ID II) E III (CDE) CI IC (A)	

Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process.Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

Each claim is subjected to a series of edits to ensure that the member is eligible on the date of service, that the provider has a valid enrollment status and that the service is eligible for payment. If the claim passes these initial edits, further assurances are provided through prior authorization of waiver services based on the waiver member's approved service plan. Post-payment review activities are conducted to ensure that services were provided.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

- a. Method of payments -- MMIS (select one):
 - Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
 - Payments for some, but not all, waiver services are made through an approved MMIS.

oayr	ect payment. The amount paid to State or local government providers differs from the amount paid to private provide of the same service. No public provider receives payments that in the aggregate exceed its reasonable cost providing waiver services.	
The amount paid to State or local government providers differs from the amount paid to private provide of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.	i
Describe the recoupment process:

- iii. Contracts with MCOs, PIHPs or PAHPs. Select one:
 - The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.

	The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.
	Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.
	^ _
•	This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one	Reimbursement	for the I	Rent and	Food F	Expenses of	f an U	nrelated	Live-In	Personal	Caregiver.	Select o	ne:
---	---------------	-----------	----------	--------	-------------	--------	----------	---------	----------	------------	----------	-----

 No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver wheresides in the same household as the participant.
Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.
The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:
Appendix I: Financial Accountability
I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)
waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for feder financial participation. Select one: No. The State does not impose a co-payment or similar charge upon participants for waiver services. Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services. i. Co-Pay Arrangement.
Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):
Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through 7-a-iv):
Nominal deductible
Coinsurance
Co-Payment Other charge
Specify:

- a. Co-Payment Requirements.
 - iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

- **b.** Other State Requirement for Cost Sharing. Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. *Select one*:
 - No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
 - Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview.Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: Nursing Facility

Col. 1	Col. 2	Col. 3	Col. 4	Col. 5	Col. 6	Col. 7	Col. 8
Year	Factor D	Factor D'	Total: D+D'	Factor G	Factor G'	Total: G+G'	Difference (Col 7 less Column4)
1	35733.00	5205.00	40938.00	43400.00	5205.00	48605.00	7667.00

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 7)

a. Number Of Unduplicated Participants Served.Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable) Level of Care: Nursing Facility
Year 1	75	75
Year 2	100	100
Year 3	125	125

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 7)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J -2-a.

It is estimated that waiver partcipants will stay on the waiver a full year when addd and will remain indefinitley thereafter.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 7)

- **c. Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.
 - **i. Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:
 - Estimated based on services to be provided under the waiver at exisiting rates projected based on estimated usage per participant.
 - ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:
 - The estimates for Factor D' are derived from historical trends of actual claims experience used in preparing the CMS-372 reports (average cost of acute care services per member) for a similar population in the approved Aged/Disabled Waiver, utilizing nursing facility level of care, using the latest data available for SFY 2009. There are no wraparound benefits provided to Medicare/Medicaid dual eligibles therefore the only prescription costs included would be for those drugs excluded from the Medicare formulary.
 - **iii.** Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:
 - Institutional (nursing facility) care average per member-projections based on 6-30-09 claims data.
 - iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Services in addition to insitutional (nursing facility) services provided to members (ie acute care services, etc)

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 7)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select "*manage components*" to add these components.
