WVDHHR/CED/SFC/Bed Count Form/05.2017

**There are currently only 3 beds for children and one of those has specific requirements which have proven difficult. The Mineral County home wants teenage or adult females, must be ambulatory and the difficult part is the provider works full time, year-round so they must be able to qualify for some type of daycare services. Twelve beds are specifically dedicated for adults. We currently have approximately 30 homes understudy. One of those already has a child placement by order of a judge and another is a sister who returned to WV to care for 2 adult siblings. We have others that should also be open soon.
