X Services are provided in accordance with §1902(a)(10)(B) of the Act.
___ Services are not comparable in amount duration and scope (§1915(g)(1)).

Definition of services (42 CFR 440.169): Targeted case management services are defined as services furnished to assist individuals, eligible under the State Plan, in gaining access to needed medical, social, educational, and other services. Targeted Case Management includes the following assistance:

- Comprehensive assessment and periodic reassessment of individual needs, to determine the need for any medical, educational, social, or other services. These assessment activities include
  - taking client history;
  - identifying the individual’s needs and completing related documentation; and
  - gathering information from other sources such as family members, medical providers, social workers, and educators (if necessary), to form a complete assessment of the eligible individual;
  - At a minimum, assessments will be conducted annually to determine whether a member’s needs or preferences have changed.

- Development (and periodic revision) of a specific care plan that is based on the information collected through the assessment that
  - specifies the goals and actions to address the medical, social, educational, and other services needed by the individual;
  - includes activities such as ensuring the active participation of the eligible individual, and working with the individual (or the individual's authorized health care decision maker) and others to develop those goals; and
