

WV CENTER FOR THREAT PREPAREDNESS WEBINAR

Building Preparedness Capacity: Addressing Populations with Access and Functional Needs Wednesday, June 3, 2015 1:00 – 2:00 p.m. EST

Join our webinar to learn about addressing populations with access and functional needs in West Virginia. The webinar will be presented by Dr. Christine Bevc, Research Associate at the North Carolina Institute for Public Health.

Learning Objectives:

- Describe how the Vulnerable and At-Risk Populations Guide can identify vulnerable and at-risk populations
- Discuss strategies for engaging vulnerable and at-risk populations in local preparedness planning
- Identify lessons learned from communities working with vulnerable and at-risk populations to enhance preparedness efforts
