

Concession Stand Healthy Choice Policy

The W. Va. Amstron AFCA recognizes the importance of offering healthy snack choices to the youth of our community. Concession sales should provide and promote healthy food and drink choices. To that goal our concession stand will offer at least three healthy options at any and all events held that involve youth.

The choices will be determined by the list provided by Change the Future WV. This policy will remain in place for the next five years.

To assist in implementing this policy, Change the Future WV will provide a cooler, signage and/or racks for use to promote healthy choices.

By signing below, I agree to enforce this policy with all staff.
