

### Regional Tobacco Prevention Coordinator Network

- The Division of Tobacco Prevention (DTP) provides funding for six Regional Tobacco Prevention Coordinators (RTPCs).
- RTPCs work to maintain tobacco prevention coalitions in each county.
- RTPCs are available to work with local health departments to develop clean indoor air regulations (policies that eliminate secondhand smoke in public places). RTPCs can provide model policies, give advice on proper procedures, and link local coalition support with health department efforts, etc.
- RTPCs are knowledgeable on the cessation services available in their region and can share that information with health departments.
- The RTPCs also work with the Youth Tobacco Prevention Program.
- RTPCs work to recruit colleges/universities to join DTP’s Against Tobacco Program.

### Regional Tobacco Prevention Coordinators

Region	Name	Agency	Address	City	State	Zip	Phone	Email
I	Vacant	Marion County Health Department	300 2 <sup>nd</sup> St.	Fairmont	WV	26554	tbd	tbd
