## **FAQs for Court Ordered Testing**

- Specimen collection for court ordered STI (sexually-transmitted infection) testing is the same as any other specimen
- Send a copy of the court order along with the test request submission form. This will need to be filed along with the original test request.
- If a copy of the court order is not available, note that on the test request submission form.
- All results will be reported back to the original submitting facility. The original facility is responsible for sending results to the court.
