

# Body Fluids

## Correspondence Course

---

### Course Description

This correspondence course covers the examination of body fluids including:

- Cerebrospinal Fluid - *Specimen Collection, Appearance, Cell Counts, Quality Control, Chemical Examination and Microbiological Examination*
- Seminal Fluid - *Volume & Viscosity, Sperm Count, Motility, and Morphology*
- Synovial Fluids - *Collection, Cell Counts, Crystal Identification and Chemical Examination*
- Serous Fluids (Pleural, Pericardial, Peritoneal) - *Formation, General Laboratory Procedures, and Transudates & Exudates*
- Amniotic Fluids - *Fetal Distress and Fetal Maturity*
- Sweat
- Fecal Analysis - *Specimen Collection, Routine Fecal Tests, and Physiology*

### Who Should Enroll?

This course is designed to meet the needs of clinical laboratorians who examine body fluids or who want a review of the subject. Some knowledge of chemistry is helpful.

### Course Registration

Complete registration online using a credit card **or** by mailing a check with this paper application. Participants will be emailed the correspondence course materials and exam, unless a paper copy or CD copy is requested. (Additional \$6.00 charge for paper or CD).

### Course Credits

Course exams must be completed and mailed to the Office of Laboratory Services for grading. A score of 70% or greater on the exams must be achieved to receive the continuing education credits.

**Course Fee: \$20.00**

**Continuing Education Credit: 15 Contact Hours**
