Prior Authorization Criteria  
Ingrezza™ (Valbenazine)  
Effective 11/15/2023

[Prior Authorization Request Form](#)

INGREZZA is a vesicular monoamine transporter 2 (VMAT2) inhibitor indicated for the treatment of adults with tardive dyskinesia and for the treatment of adults with chorea associated with Huntington's disease.

**Initial\* Prior Authorization Criteria:**

- The patient must be within the age range as recommended by the FDA label; **AND**
- Patient must not be taking an MAOI (at least 14-days post-therapy), reserpine (must be >20 days post therapy) or any other concurrent VMAT2 inhibitor; **AND**
- Prescriber must provide a brief description of the medical necessity of therapy by documenting all target symptoms and their impact on the patient's function and activities of daily living; **AND**

The following indication-specific criteria also apply:

**I. Treatment of Chorea associated with Huntington's Disease:**

1. Request must come from the treating neurologist; **AND**
2. Patient must have been evaluated and found not to be suicidal or have untreated/undertreated depression; **AND**
3. All previous therapies must be documented along with their relative benefit. Unless contraindicated, the patient must have a documented 90-day trial, which resulted in intolerance or inadequate treatment response, to **Xenazine (tetrabenazine)**.

**II. Treatment of Tardive Dyskinesia (TD):**

1. Request must come from the treating neurologist or psychiatrist; **AND**
2. Patient must provide a documented clinical diagnosis of tardive dyskinesia meeting DSM-V criteria including:
  - a. Involuntary athetoid or choreiform movements
  - b. History of treatment with a dopamine receptor blocking agent (DRBA) such as an antipsychotic or metoclopramide
  - c. Symptom duration lasting at least 8 weeks; **AND**

Updated 11/15/2023

DUR Board Approval: 11/18/2020

**STATE OF WEST VIRGINIA  
DEPARTMENT OF HEALTH AND HUMAN RESOURCES  
BUREAU FOR MEDICAL SERVICES**

3. Prescriber must submit the results of an Abnormal Involuntary Movement Scale (AIMS) exam with every request for prior authorization of Ingrezza; **AND**
4. Prescriber must submit documentation of all other therapies attempted and their associated benefit (**including relevant AIMS scores**).

**\*Initial prior-authorization will be for 90 days.  
Continuation of coverage requires clinically significant improvement in symptoms as compared to that seen using previous therapy.**
