This is not an all-inclusive list of available covered drugs and includes only managed categories. Refer to cover page for complete list of rules governing this PDL.

EFFECTIVE 10/01/2016 Version 2016.4

- Prior authorization for a non-preferred agent in any category will be given only if there has been a trial of the preferred brand/generic equivalent or preferred formulation of the active ingredient, at a therapeutic dose, that resulted in a partial response with a documented intolerance.
- Prior authorization of a non-preferred isomer, pro-drug, or metabolite will be considered with a trial of a preferred parent drug of the same chemical entity, at a therapeutic dose, that resulted in a partial response with documented intolerance or a previous trial and therapy failure, at a therapeutic dose, with a preferred drug of a different chemical entity indicated to treat the submitted diagnosis. (The required trial may be overridden when documented evidence is provided that the use of these preferred agent(s) would be medically contraindicated.)
- Unless otherwise specified, the listing of a particular brand or generic name includes all legend forms of that drug. OTC drugs are not covered unless specified.
- PA criteria for non-preferred agents apply in addition to general Drug Utilization Review policy that is in effect for the entire pharmacy program, including, but not limited to, appropriate dosing, duplication of therapy, etc.
- The use of pharmaceutical samples will not be considered when evaluating the members' medical condition or prior prescription history for drugs that require prior authorization.
- Prior Authorization Criteria that applies among multiple sub-categories will be listed directly under the main category's name. PA Criteria specific to a sub-category will be listed in the sub-category.
- Quantity limits may apply. Refer to the Limits List on <u>the BMS Website</u> by clicking the hyperlink.
- Acronyms
 - CL Requires clinical PA. For detailed clinical criteria, please go to the <u>PA criteria</u> page by clicking the hyperlink.
 - NR New drug has not been reviewed by P & T Committee
 - AP Non-preferred and selected preferred drugs, where indicated, are subject to auto-PA criteria. See PA criteria column.

CATEGORY PA CRITERIA: All antipsychotic agents require prior authorization for children up to eighteen (18) years of age. All PA requests for antipsychotics for children 6 years of age and younger will be reviewed by Medicaid's consultant psychiatrist.

A fourteen (14) day trial of a preferred generic agent is required before a Preferred Brand will be authorized.

Non-preferred agents will be authorized if the following criteria have been met:

- 1. A fourteen (14) day trial of a preferred generic agent and
- 2. Two (2) fourteen (14) day trials of additional preferred products unless one (1) of the exceptions on the PA form is present.

In the event there are not three preferred drugs with FDA-approved labels for the patient's age range or diagnosis, the drug may still receive approval at the discretion of RDTP or by BMS on appeal.

Upon discharge, a hospitalized patient stabilized on a non-preferred agent may receive authorization to continue this drug for labeled indications and at FDA recommended dosages. Requests for off-label use will be given at least a 30 day prior-authorization so that BMS may properly review the requested therapy.
