PREFERRED DRUG LIST WITH PRIOR AUTHORIZATION CRITERIA**
This is not an all-inclusive list of available covered drugs and includes only managed categories. Refer to cover page for complete list of rules governing this PDL.

**EFFECTIVE
07/01/13
Version 2013.3e**

Prior authorization for a non-preferred agent in any category will be given only if there has been a trial of the preferred brand/generic equivalent or preferred formulation of the active ingredient, at a therapeutic dose, that resulted in a partial response with a documented intolerance.

- Prior authorization of a non-preferred isomer, pro-drug, or metabolite will be considered with a trial of a preferred parent drug of the same chemical entity, at a therapeutic dose, that resulted in a partial response with documented intolerance or a previous trial and therapy failure, at a therapeutic dose, with a preferred drug of a different chemical entity indicated to treat the submitted diagnosis. (The required trial may be overridden when documented evidence is provided that the use of these preferred agent(s) would be medically contraindicated.)
- Unless otherwise specified, the listing of a particular brand or generic name includes all legend forms of that drug. OTC drugs are not covered unless specified.
- PA criteria for non-preferred agents apply in addition to general Drug Utilization Review policy that is in effect for the entire pharmacy program, including, but not limited to, appropriate dosing, duplication of therapy, etc.
- The use of pharmaceutical samples will not be considered when evaluating the members' medical condition or prior prescription history for drugs that require prior authorization.
- Quantity limits may apply. (Medicaid MCOs are required to follow only the limits that are specified on the PDL document.) Refer to the Medicaid Fee-for-Service Limits List at <http://www.dhhr.wv.gov/bms/Pharmacy/Documents/DrugLimitationSummary.pdf>
- Acronyms
 - CL - Requires clinical PA. For detailed clinical criteria, please refer to: <http://www.dhhr.wv.gov/bms/Pharmacy/Pages/pac.aspx>
 - NR - New drug has not been reviewed by P & T Committee
 - AP - Non-preferred and selected preferred drugs, where indicated, are subject to auto-PA criteria. See PA criteria column.
