39 deaths, 20 of them don't have death certificate back yet, a few of these DODs go back to end of August, 4 linked to Covid – all are natural or unknown if we don't have the death certificate back yet, other than one accidental which was a death caused from a fall off a porch resulting in a broken neck (ISSx3), and one that occurred at home (ISSx3), where person was found unresponsive in his bed and is pending investigation.
