

To learn more about Traumatic Brain Injury in Children, visit these websites:

## **Brainline**

<https://www.brainline.org/children-tbi>

Brainline website has articles and information on the following topics:

**Concussion in Kids** - Children with a brain injury can have the same symptoms as adults, but it's often harder for them to share how they feel.

**Moderate to Severe TBI** - Guidance on how to help children with moderate or severe brain injuries through rehabilitation and recovery.

**Raising a Child with TBI** - Raising a child with TBI can be a daunting job. How can you give your child the help that he or she needs while still maintaining some semblance of a normal life?

**School & Education** - Whether a student with traumatic brain injury is in elementary school or in college, transitioning back to school post-injury can be difficult on many levels.

**Teens with TBI** - Adolescence is a tough enough time. What happens when a brain injury is added to the mix?

**Sports Concussions** - Concussions are a widely recognized sports injury, but they are more common—and subtle—than people might think.

## **The Center on Brain Injury Research and Training (CBIRT)**

<https://tbfamilysupport.cbirt.org/tbi-team/recorded-webinars>

This website has recorded versions of CBIRT's webinars featuring experts in the field of brain injury.

### **Jan 2020**

**Outcomes for Children with a History of TBI before age 6** by Julie Haarbauer-Krupa, PhD (time 56:16)

### **Nov 2019**

**Transition Assessment and Students with Traumatic Brain Injury** by Laurie Gutmann Kahn, PhD and Daniel Cullen, Ed.D (time 55:20)
